DATE:	**January 29, 2026**
SUBJECT:	**2024-2025 and 2025-2026 Assignment of Accreditation Statuses**
CATEGORY:	**Accreditation**
NEXT STEPS:	**Share with Appropriate Staff**

Background

The assignment of district and charter school accreditation statuses is authorized by Texas Education Code (TEC), Chapter 39, Public School System Accountability, and 19 Texas Administrative Code (TAC), Chapter 97, Planning and Accountability, Subchapter EE, Accreditation Status, Standards, and Sanctions. The rules define the accreditation statuses of Accredited, Accredited-Warned, Accredited-Probation, and Not Accredited-Revoked and describe how accreditation statuses are determined and assigned. These rules may be viewed in the Texas Administrative Code, and additional information regarding the assignment of accreditation statuses to districts and charter schools can be found on the *Accreditation Status* homepage of the Texas Education Agency (TEA) website.

The issuance of 2024 academic accountability ratings were pending and subject to judicial ruling due to litigation. Therefore, 2024-2025 accreditation statuses were delayed due to the pending accountability ratings. In July 2025, the Fifteenth Court of Appeals ruled that TEA could release 2024 accountability ratings, and those ratings were finalized on December 11, 2025. Because of the litigation, the issuance of the 2024-2025 accreditation statuses is outside the normal release cycle and is occurring concurrently with the issuance of the 2025-2026 accreditation statuses.

The purpose of this letter is to notify districts and charter schools that, under the authority of TEC §39.051 and §39.052 and 19 TAC §97.1055, TEA will assign accreditation statuses for the 2024-2025 and 2025-2026 school years. Accreditation statuses will be posted publicly to the TEA website on **February 12, 2026**, on the *Accreditation Status* homepage. When accessing the website, users can sort accreditation results by clicking the grid column heading to sort in ascending or descending order. Additionally, the results may be filtered using the search feature or by selecting pre-defined values from the column pick lists. Background information regarding the assignment of accreditation statuses will also be posted.

Cover Page

2025 Accountability Rating: The overall rating earned by the district or campus for 2025.

2025 Special Education Determination Status (district TAPR only): This label represents an integrated determination level status based on an evaluation of each local educational agency's (LEA) Results Driven Accountability (RDA) indicators in the special education program area and four Federally Required Elements (FREs), which include the State Performance Plan (SPP) compliance indicators 9, 10, 11, 12, and 13; data integrity; uncorrected noncompliance; and financial audit findings. Each LEA receives one of four special education determination levels (DLs):
Meets Requirements
Needs Assistance
Needs Intervention Needs
Substantial Intervention

2025 Armed Services Vocational Aptitude Battery (ASVAB) Test (Career Exploration) *(districts serving grades 10–12):* Senate Bill 1843 requires that each school year, each school district and open-enrollment charter school provide students in grades 10–12 the opportunity to take the ASVAB and consult with a military recruiter. *(Data source: PEIMS ArmedServicesVocAptBattery E1625)*

Performance

STAAR: A comprehensive testing program for public school students in grades 3–8 or high school courses with end-of-course (EOC) assessments. The STAAR program is designed to measure to what extent a student has learned, understood, and is able to apply the concepts and skills expected at each grade level or after completing each course for which an EOC assessment exists. Each STAAR assessment is linked directly to the Texas Essential Knowledge and Skills (TEKS). The TEKS are the state-mandated content standards that describe what a student should know and be able to do upon completion of a course. For more information on the TEKS, see the *Texas Essential Knowledge and Skills* website at http://tea.texas.gov/curriculum/teks/.

Other Important Information:

STAAR (with and without accommodations) and STAAR Alternate 2. The TAPR and the Texas Performance Reporting System (TPRS) include performance on STAAR and STAAR Alternate 2.

Spanish STAAR. All STAAR assessments in grades 3, 4, and 5 are available in both English and Spanish. The TAPR and the TPRS include performance on the Spanish STAAR.

Rounding of STAAR results. STAAR performance shown on the TAPR and TPRS is rounded to whole numbers. For example, 49.877% is rounded to 50%; 49.4999% is rounded to 49%; and 59.5% is rounded to 60%.

Masking. STAAR performance rates are masked when necessary to comply with FERPA. For more information, see the Explanation of Masking at https://rptsvr1.tea.texas.gov/perfreport/tapr/2025/masking.html.

Progress (Annual Growth, Accelerated Learning and STAAR Progress Measure)

School Progress Domain— Annual Growth is the percentage of students who grew academically by at least one school year. For STAAR assessments (with or without accommodations), annual growth is measured by a transition table. Individual student growth is calculated as the change between Low Did Not Meet Grade Level, High Did Not Meet Grade Level, Low Approaches Grade Level, High Approaches Grade Level, Meets Grade Level, and Masters Grade Level performance from the prior year to the current year.

School Progress Domain—Accelerated Learning is the percentage of students who earned Did Not Meet Grade Level in the prior year and were accelerated to Approaches Grade Level or above in the current year.

The above measures were used to determine the Annual Growth and Accelerated Learning in the Bilingual Education/ESL report.

Bilingual Education/ESL

Bilingual Education (BE): Dual-language program that enables emergent bilingual (EB) students/English learners (ELs) to become proficient in listening, speaking, reading, and writing in the English language through the development of literacy and academic skills in the primary language and English. This category includes the following:

- *BE Trans Early Exit*. Bilingual program model in which students identified as EB students/ELs are served in both English and another language and are prepared to meet reclassification criteria to be successful in English-only instruction not earlier than two or later than five years after the student enrolls in school.
- *BE Trans Late Exit*. Bilingual program model in which students identified as EB students/ELs are served in both English and another language and are prepared to meet reclassification criteria to be successful in English-only instruction not earlier than six or later than seven years after the student enrolls in school.
- *BE Dual Two-Way*. Bilingual/biliteracy program model in which students identified as EB students/ELs are integrated with non-EB/non-EL students and are served in both English and another language and are prepared to meet reclassification criteria in order to be successful in English-only instruction not earlier than six or later than seven years after the student enrolls in school. This model provides ongoing instruction in literacy and academic content in English and

another language with at least half of the instruction delivered in the non-English program language for the duration of the program.

- *BE Dual One-Way*. Bilingual/biliteracy program model in which students identified as EB students/ELs are served in both English and another language and are prepared to meet reclassification criteria in order to be successful in English-only instruction not earlier than six or later than seven years after the student enrolls in school. This model provides ongoing instruction in literacy and academic content in the students' primary language as well as English, with at least half of the instruction delivered in the students' primary language for the duration of the program.

English as a Second Language (ESL): An English acquisition program that enables emergent bilingual (EB) students/English learners (ELs) to become proficient in listening, speaking, reading, and writing in the English language through the integrated use of second language acquisition methods. This category includes the following:

- *ESL Content-Based*. An English acquisition program that serves students identified as EB students/ELs through English instruction by a teacher appropriately certified in ESL under TEC, §29.061(c), through English language arts and reading, mathematics, science, and social studies.
- *ESL Pull-Out*. An English program that serves students identified as EB students/ELs through English instruction provided by an appropriately certified ESL teacher under the TEC, §29.061(c), through English language arts and reading. Instruction shall be provided by the ESL teacher in a pull-out or inclusionary delivery model.

Alternative Language Program (ALP): An alternative language program provided to emergent bilingual (EB) students/English learners (ELs) for whom the local education agency (LEA) does not have the appropriately certified teachers for the required bilingual education or English as a second language (ESL) program for the current school year. This category includes the following:

- *ALP Bilingual (Exception)*. An alternative language program to the required bilingual education (BE) program approved by the TEA for the current school year due to the LEA's submission of a bilingual education exception application.
- *ALP ESL (Waiver)*. An alternative language program to the required English as a second language (ESL) program approved by the TEA for the current school year due to the LEA's submission of an ESL waiver application.

Emergent Bilingual (EB) Students/English Learner (EL): The count and percentage of students whose primary language is other than English and who are in the process of acquiring English. As a result of the 87th Texas Legislature, the term "emergent bilingual student" replaced the term of "limited English proficient (LEP) student" used in the Texas Education Code (TEC), Chapter 29, Subchapter B, and thus, will be changing the term of "English learner (EL)" used in 19 TAC Chapter 89, Subchapter BB. These terms describe the same group of Texas students. In the revised Texas Education Data Standards (TEDS), the terms of "emergent bilingual" and "English learner" have been bridged as EB/EL. The term "English learner" is still used in federal regulations and guidance. This category includes:

- *EB/EL with Parental Denial.* Students identified as emergent bilingual (EB) students/English learners (ELs) whose parents have denied all bilingual and ESL program services.
- *Never EB/EL.* Students who have never been identified as EB students/ELs (non-EB/non-EL students).

2024–25 Texas Academic Performance Report (TAPR) Glossary

- *Total EB/EL (Current).* Students currently identified as EB students/ELs, including those served in a standard or alternative bilingual or ESL program as well as those with a parental denial of services.
- *Monitored & Former EB/EL.* Students who were once identified as EB students/ELs but have reclassified as English proficient, including students within their four years of state and federal monitoring and those beyond monitoring years.

STAAR Participation (2024–25)

This Texas Academic Performance Report (TAPR) provides the State Assessment participation rate as used in State Accountability. This participation rate includes students who are considered participants for state reporting purposes but are excluded from the federal participation rate. The report details the participation rate by All Tests, Reading, Mathematics, Science, Social Studies, and Accelerated Testers and which assessments and students are included or excluded from accountability.

Assessment Participants

- STAAR Assessments:
  - Includes STAAR and STAAR Alternate 2 assessments with a score code of "S."
- STAAR Alternate 2 Assessments:
  - Includes assessments with a score code of "N."
- STAAR Reading Language Arts (RLA) Assessments:
  - Includes STAAR and STAAR Alternate 2 assessments with a score code of "A" or "O," provided a TELPAS or TELPAS Alternate assessment has a score code of "S."
- STAAR Mathematics Assessments:
  - Includes assessments with a score code of "A" or "O," provided a TELPAS or TELPAS Alternate assessment has a score code of "S" for year 1 asylees/ refugees or students with interrupted formal education (SIFEs).
- Accelerated Testers:
  - This includes Evidence-Based Reading and Writing (EBRW) SAT, English Language Arts (ELA) ACT, ACT science, and mathematics SAT and ACT results for students who complete a STAAR End-of-Course (EOC) assessment at the Approaches Grade Level or above in Algebra I, English II, and/or Biology before grade 9.

Included in Accountability:

- This represents the state assessment participation rate used in state accountability measures.
- Includes all of the participants listed above, except for students classified as "Mobile" or under "Other Exclusions."

Not Included in Accountability:

- *Mobile:* Refers to the percentage of assessments excluded from the "Included in Accountability" rate because the students enrolled in the district or campus after the Texas Student Data System (TSDS) Public Education Information Management System (PEIMS) fall snapshot date.
- *Other Exclusions:* Refers to the percentage of assessments excluded from the "Included in Accountability" rate for the following reasons:

- STAAR Assessments (STAAR and STAAR Alternate 2) with score codes "A" or "O" that do NOT have a corresponding TELPAS or TELPAS Alternate assessment with a score code of "S."
- STAAR Alternate 2 assessments with a score code of "N."
- Answer documents of students who are an Emergent Bilingual/English learner (EB/EL) who has been in school in the U.S. for one year.
- Other exclusions specified in the 2025 Accountability Manual — Appendix G.

Not Tested

- Assessments that are not considered in the participation rate include:
  - Absent: Assessments with a score code of "A."
  - Other: Assessments with a score code of "O."
  - Accelerated Testers: Accelerated testers who did not take an SAT/ACT assessment.

The denominator for participation is the sum of these five categories: Included in Accountability, Mobile, Other Exclusions, and Not Tested (Absent and Other). *STAAR Participation Rate* is rounded to a whole number. For example, 94.49% is rounded to 94%. Small values may show as zero: 0.4% is rounded to 0%, and 0.6% is rounded to 1%.

Attendance, Graduation, and Dropout Rates (2024–25)

Attendance Rate: The percentage of days that students were present based on student attendance for the entire school year. Only students in grades 1–12 are included in the calculation.

Attendance is calculated as follows:

$$\frac{\textbf{total number of days that students in grades 1–12 were present during the 2023–24 school year}}{\textbf{total number of days that students in grades 1–12 were in membership during the 2023–24 school year}}$$

(Data source: PEIMS 42400)

Chronic Absenteeism: The unduplicated number of K–12 students enrolled for at least 10 days and absent for 10 percent or more days. Chronic Absenteeism is calculated as follows:

$$\frac{\textbf{total number of K–12 students enrolled for at least 10 days and absent for 10 percent or more days during the 2023–24 school year}}{\textbf{total number of K–12 students enrolled for at least 10 days during the 2023–24 school year}}$$

(Data source: PEIMS 42400)

Annual Dropout Rate: The percentage of students who drop out of school during a school year. Annual dropout rates are shown for districts and campuses that serve grades 7–8 and/or 9–12. State law prohibits including a student who meets any of the following criteria from campus and district annual dropout rate calculations:

- Is ordered by a court to attend a high school equivalency certificate program but has not earned a high school equivalency certificate
- Was previously reported to the state as a dropout (previous dropout exclusions do not apply to completion measure calculations for AEA campuses)
- Was in attendance but not in membership for purposes of average daily attendance (i.e., students for whom school districts are not receiving state Foundation School Program [FSP] funds)
- Was initially enrolled in a school in the United States in any grade 7 through 12 as an unschooled refugee or asylee as defined by TEC §39.027(a-1)
- Attends a district exclusively as a function of having been detained at a county detention facility and is not otherwise a student of the district in which the facility is located or is being provided services by an open-enrollment charter school exclusively as the result of having been detained at the facility
- Is incarcerated in a state jail or federal penitentiary as an adult or as a person certified to stand trial as an adult
- Is a student who has suffered a condition, injury, or illness that requires substantial medical care and leaves the student unable to attend school and assigned to a medical or residential treatment facility
- Is a student in a Texas Juvenile Justice Department facility or residential treatment facility served by a Texas public school district
- Is at least 18 years of age as of September 1 and has satisfied the credit requirements for high school graduation; has not completed his or her individualized education program (IEP); and is enrolled and receiving IEP services
- Is a student who (a) is at least 18 years of age and under 26 years of age; (b) has not been previously reported as a dropout; and (c) has not been enrolled in school during the previous nine months before enrolling in a high school equivalency program, a dropout recovery school, or an adult education program provided under a high school diploma and industry certification charter school program (previous dropout/previous dropout exclusions do not apply to completion measure calculations for AEA campuses)

Annual Dropout Rate (Gr 7–8). This includes only grades 7 and 8. It is calculated as follows:

$$\frac{\textbf{number of dropouts in grades 7 and 8 during the 2023–24 school year}}{\textbf{number of students in grades 7 and 8 in attendance at any time during the 2023–24 school year}}$$

Annual Dropout Rate (Gr 9–12). This includes grades 9 through 12. It is calculated as follows:

$$\frac{\textbf{number of dropouts in grades 9–12 during the 2023–24 school year}}{\textbf{number of students in grades 9–12 in attendance at any time during the 2023–24 school year}}$$

2024–25 Texas Academic Performance Report (TAPR) Glossary

Both annual dropout rates appear on campus, district, region, and state TAPRs. The state and region annual dropout rates that are reported on district and campus TAPRs, however, are calculated without the exclusions required for campus and district calculations.

Note that with all annual dropout rate calculations, a cumulative count of students is used in the denominator. This method for calculating the dropout rate neutralizes the effect of mobility by including in the denominator every student ever reported in attendance at the district or campus throughout the school year, regardless of length of enrollment. For a more complete description of dropout rates and exclusions, see the Secondary School Completion and Dropouts in Texas Public Schools reports, available on the TEA website at Completion, Graduation, and Dropout | Texas Education Agency.

For detailed information on data sources, see Appendix H in the *2025 Accountability Manual*. *(Data source: PEIMS 40203, 40110, 42400, and 42500)*

Longitudinal Rates: The status of a group (cohort) of students after four years in high school (*4-Year Longitudinal Rate*), after five years in high school (*5-Year Extended Longitudinal Rate*), or after six years in high school (*6-Year Extended Longitudinal Rate*).

For the *4-Year Longitudinal Rate,* the cohort consists of students who first attended ninth grade in 2020–21. They are followed through their expected graduation with the Class of 2024.

For the *5-Year Extended Longitudinal Rate,* the cohort consists of students who first attended ninth grade in 2019–20. They are followed for five years and included if they graduated within a year after their expected graduation with the Class of 2023.

For the *6-Year Extended Longitudinal Rate,* the cohort consists of students who first attended ninth grade in 2018–19. They are followed for six years and included if they graduated within two years after their expected graduation with the Class of 2022.

Additional Information on Cohorts:

A student transfers into a campus, district, or state cohort when he or she moves into the cohort from another high school in Texas, from another district in Texas, or from out of state.

A student transfers out of a campus or district cohort when he or she moves to another public high school in Texas or moves to another district in Texas. Note that these students are transferred into the cohort of the high school or district to which they moved. There are also students who move out of state or out of the country and students who transfer to private schools or who are home-schooled. These types of transfer students cannot be tracked and are not included in longitudinal rate calculations.

A student does not change cohorts if he or she repeats or skips a grade. A student who begins with the 2020–21 ninth-grade cohort remains with that cohort. A student who started the ninth grade in 2020–21 but takes 5 years to graduate (i.e., graduates in May 2025) is still part of the 2024 cohort; he or she is not switched to the 2025 cohort. This student would be considered a continuing student and counted as part of the Continued HS number for the Class of 2024. This is also true for the five-year and six-year extended longitudinal cohorts.

There are four student outcomes used in computing each longitudinal rate:

4-Year Longitudinal Rate

(5) *Graduates & TxCHSE.* The percentage of graduates and TxCHSE recipients in the 2022 cohort. It is calculated as follows:

$$\frac{\textbf{number of students from the cohort who received a high school diploma by August 31, 2024 plus number of students from the cohort who received a TxCHSE by August 31, 2024}}{\textbf{number of students in the 2022 cohort*}}$$

(6) *Graduates, TxCHSE & Continuers.* The percentage of graduates, TxCHSE recipients, and continuers in the 2022 cohort. It is calculated as follows:

The graduation rate calculation is modified to credit AEA campuses for graduates, continuing students (continuers), TxCHSE recipients, and previous dropouts who complete. The completion rate component includes the six-year rates.

* The cohort in the denominator of the formulas shown above includes those students who graduated, continued in school, received a TxCHSE, or dropped out. It does not include data errors or leavers with the leaver reason codes 03, 16, 24, 60, 66, 78, 81, 82, 83, 85, 86, 87, 88, 89 or 90. See *Annual Dropout Rate* for a list of all the exclusions mandated by state statute for districts and campuses.

The graduation, continuation, TxCHSE recipient, and dropout rates sum to 100% (some totals may not equal exactly 100% due to rounding). Students served through special education who graduate with an individualized education program (IEP) are included as graduates.

Additional Information about Federal Graduation Rates

In addition to the detailed breakdown of the four-, five- and six-year longitudinal rates, the district and campus reports show federal graduation rates for the following:

(1) *4-Year Federal Graduation Rate.* Cohort of students who first attended ninth grade in 2020–21. They are followed through their expected graduation with the Class of 2024. It is calculated as follows:

2024–25 Texas Academic Performance Report (TAPR) Glossary

$$\frac{\textbf{number of students from the cohort who received a high school diploma by August 31, 2024}}{\textbf{number of students in the 2024 cohort **}}$$

(2) *5-Year Extended Federal Graduation Rate.* Cohort of students who first attended ninth grade in 2019–20. They are followed for five years to see if they graduated within a year after their expected graduation with the Class of 2023. It is calculated as follows:

$$\frac{\textbf{number of students from the cohort who received a high school diploma by August 31, 2024}}{\textbf{number of students in the 2023 cohort**}}$$

(3) 6-*Year Extended Federal Graduation Rate.* Cohort of students who first attended ninth grade in 2018–19. They are followed for six years to see if they graduated within two years after their expected graduation with the Class of 2022. It is calculated as follows:

$$\frac{\textbf{number of students from the cohort who received a high school diploma by August 31, 2024}}{\textbf{number of students in the 2022 cohort**}}$$

** The cohort in the denominator above includes those students who graduated, continued in school, received a TxCHSE, or dropped out. It does not include data errors or leavers with leaver reason codes 03, 16, 24, 60, 66, 78, 81, 82, 83, 85, 86, 87, or 90. Students with leaver codes 88 and 89 are included in the federal rates.

A student in a Texas Juvenile Justice Department facility or residential treatment facility served by a Texas public school district is excluded from district and campus graduation rates calculated for federal accountability purposes. Students served by special education who graduate with an individualized education program (IEP) are included as graduates.

For further information on these rates, see the Secondary School Completion and Dropouts in Texas Public Schools document located on the Completion, Graduation, and Dropout Reports website. *(Data source: PEIMS 40203 and Texas Certificate of High School Equivalency Information File)*

College, Career, or Military* Readiness (CCMR) (2024–25)

Annual graduates demonstrate college, career, or military readiness in any one of the following ways:

College Readiness

1) **Texas Success Initiative (TSI) Criteria:** Meet Texas Success Initiative (TSI) Criteria in RLA and Mathematics. A student meeting the TSI college readiness standards in both RLA and mathematics; specifically, meeting the college-ready criteria on the TSIA1 and/or TSIA2 assessment, SAT, ACT, or by successfully completing and earning credit for a college prep course as defined in TEC §28.014 and TEC §51.338, in both RLA and mathematics. The

criteria for successful completion of a college prep course should be in alignment between an LEA and the partnering IHE(s). In accordance with TEC §51.338(e), upon successful completion of a college prep course, students earn a TSI exemption from the partnering IHE(s) in that content area. Students should only be reported as successfully completing a course if they have met TSI exemption requirements. The assessment results considered include TSIA1 and/or TSIA2 assessments through October 2024, SAT and ACT results through the July 2024 administration, and course completion data via TSDS PEIMS. See Appendix H for additional information. A student must meet the TSI requirement for both RLA and mathematics but does not necessarily need to meet them on the same assessment. For example, a student may meet the TSI criteria for college readiness in RLA on the SAT and complete and earn credit for a college prep course in mathematics. *(Data source: PEIMS 43415, THECB, College Board, and ACT, Inc.)*

2) **Earn Dual Course Credits:** A graduate completing and earning credit for at least three credit hours in ELA or mathematics or at least nine credit hours in any subject. *(Data source: PEIMS 43415)*

3) **Meet Criteria on Advanced Placement (AP)/International Baccalaureate (IB) Examination:** A graduate meeting the criterion score on an AP or IB examination in any subject area. Criterion score is 3 or more for AP and 4 or more for IB. *(Data source: College Board or IB)*

4) **Earn an Associate Degree:** A graduate earning an associate degree by August 31 immediately following high school graduation. *(Data source: PEIMS 40100)*

5) **Earn OnRamps Course Credits:** A graduate completing an OnRamps dual enrollment course and qualifying for at least three hours of university or college credit in any subject area. *(Data source: OnRamps program)*

6) **Graduates under an Advanced Diploma Plan and Identified as a current Special Education Student:** A graduate who is identified as receiving special education services during the year of graduation and whose graduation plan type is identified as a Recommended High School Plan (RHSP), Distinguished Achievement Plan (DAP), Foundation High School Plan with an Endorsement (FHSP-E), Foundation High School Plan with a Distinguished Level of Achievement (FHSP-DLA), or Texas First Early High School Completion Program (Texas First-DLA) (*Data source: PEIMS 40203 and 40110)*

Career/Military Readiness

7) **Earn an Industry-Based Certification (IBC):** A graduate earning an IBC under 19 TAC, §74.1003 and earned credit in a level 2 course or higher in an aligned Program of Study applies to the 2024 graduates. Alignment is determined by the IBC Crosswalk, which maps approved IBCs to their corresponding Programs of Study. The student must have earned the IBC associated with the Program of Study and also met the phase-in requirement. See Appendix J for a complete list of approved IBCs. The sunsetting IBC limit applied within the Student Achievement and School Progress, Part B: Relative Performance domains is not applied within Closing the Gaps. For prior graduating class IBC requirements please refer to "Chapter 2—Student Achievement Domain". *(Data source: PEIMS 40100)*

8) **Graduate with Completed IEP and Workforce Readiness:** A graduate receiving a graduation type code of 04, 05, 54, or 55 which indicates the student has completed his/her IEP and has either demonstrated self-employment with self-help skills to maintain employment or has demonstrated mastery of specific employability and self-help skills that do not require public school services. *(Data source: PEIMS 40203)*

AP/IB Results (11th & 12th Graders >= Criterion): The percentage of students enrolled in grades 11 and 12 with at least one AP or IB score at or above the criterion score. This denominator includes students enrolled in grades 11 and 12 who did not take AP or IB examination. High school students may take one or more of these examinations, ideally upon completion of AP or IB courses, and may receive advanced placement or credit, or both, upon entering college. Generally, colleges will award credit or advanced placement for scores of 3, 4, or 5 on AP examinations and scores of 4, 5, 6, or 7 on IB examinations. Requirements vary by college and by subject tested. *(Data source: College Board and IB)*

SAT/ACT Results (Annual Graduates): Participation and performance of annual graduates from all Texas public schools on the College Board's SAT and ACT, Inc.'s ACT assessment. ACT and SAT scores are based on each student's highest section scores across all exams taken, and the SAT total and ACT composite scores are calculated using the highest section scores.

Other Postsecondary Indicators (2024–25)

Advanced/Dual-Credit Course Completion (Grades 9–12): The percentage of students who completed and received credit for at least one advanced or dual-credit course. Decisions about awarding high school credit for college courses are described in Texas Administrative Code §74.25.

Appendix A lists all courses identified as advanced courses. Courses for which a student can earn dual credit are not listed because they vary from campus to campus.

Course completion information is reported by districts through the PEIMS after the close of the school year. For example, the values, expressed as percentages for grades 9–12, are calculated as follows: *(Data source: PEIMS 43415)*

Student Information (2024–25)

Please note, the Enrollment section of this report was added beginning with 2019–20. The definitions below describe the nuances between Membership and Enrollment. If comparing the data shown from this year's report to reports prior to 2019–2020, use the data displayed under Membership.

Enrollment: Students reported as enrolled as of the last Friday in October

Membership: Membership differs from enrollment, as it does not include those students who are served for less than two hours per day. A student is in membership if he/she is enrolled and is either

- scheduled to attend at least two hours of instruction each school day or
- participating in an alternative attendance accounting program.

For example, the count of *Total Students* excludes students who attend a non-public school but receive some services, such as speech therapy—for less than two hours per day—from their local school district.

Total Students: The total number of public school students who were reported at any grade from early childhood education through grade 12. *(Data source: PEIMS Student Entity)*

Students by Grade: The count of students in each grade divided by the total number of students. *(Data source: PEIMS StudentSchoolAssociation Entity)*

2024–25 Texas Academic Performance Report (TAPR) Glossary

Ethnic Distribution: The number and percentage of students who are identified as belonging to one of the following groups: African American, Hispanic, white, American Indian, Asian, Pacific Islander, and two or more races. *(Data source: PEIMS StudentEducationOrganizationAssociation Entity)*

Male/Female: The number and percentage of students who are identified as male or female. *(Data source: PEIMS StudentEducationOrganizationAssociation Entity)*

Economically Disadvantaged: The count and percentage of students eligible for free or reduced-price lunch or eligible for other public assistance.

$$\frac{\textbf{number of students eligible for free or reduced-price lunch or other public assistance}}{\textbf{total number of students}}$$

(Data source: PEIMS StudentEducationOrganizationAssociation Entity and TEA Student Assessment Division)

Non-Educationally Disadvantaged: Those students not eligible to participate in free or reduced-price lunch or to receive any other public assistance. This is the complementary count and percentage to Economically Disadvantaged.

Section 504 Students: The count and percentage of students identified as receiving section 504 services. *(Data source: PEIMS StudentEducationOrganizationAssociation Entity)*

Emergent bilingual students/English learner (EB/EL) : The count and percentage of students whose primary language is other than English and who are in the process of acquiring English. The terms "English Learner" (EL) and "Emergent Bilingual" (EB) are used interchangeably.

The percentage of EB/ELs is calculated by dividing the number of EB/ELs by the total number of students in the district or campus. Not all students identified as EB/ELs receive bilingual or English as a second language instruction. *(Data source: TELPAS file)*

Students with Disciplinary Placements: The count and percentage of students placed in alternative education programs under Chapter 37 of the Texas Education Code (Discipline; Law and Order). Districts report the disciplinary actions taken toward students who are removed from the classroom for at least one day. Although students can have multiple removals throughout the year, this measure counts students only once and includes only those whose removal results in a placement in a disciplinary alternative education program or juvenile justice alternative education program. It is calculated as follows:

$$\frac{\textbf{number of students with one or more disciplinary placements}}{\textbf{number of students who were in attendance at any time during the school year}}$$

For 2024–25, the following 19 disciplinary action codes are included as disciplinary placements: 02, 03, 04, 07, 08, 10, 12, 13, 14, 15, 51, 52, 53, 54, 55, 57, 59, 60, and 61. *(Data source: PEIMS DisciplineAction Entity)*

Homeless: The count and percentage of students meeting the criteria defined by 42 U.S.C. Section 11434(a), the term "homeless children and youths" —

(A) individuals who lack a fixed, regular, and adequate nighttime residence [within the meaning of section 11302(a)(1)]; and

(B) includes —

(i) children and youths who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters;

(ii) children and youths who have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings [within the meaning of section 11302(a)(2) (C)];

(iii) children and youths who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and

(iv) migratory children (as such term is defined in section 6399 of title 20) who qualify as homeless for the purposes of this subtitle because the children are living in circumstances described in clauses (i) through (iii).

(Data source: PEIMS StudentEducationOrganizationAssociation Entity)

Immigrant: The count and percentage of students identified under the definition found under Title III of the No Child Left Behind Act of 2001 (NCLB), where the term 'immigrant children and youth' is defined as, "individuals who are aged 3 through 21; were not born in any state; and have not been attending one or more schools in any one or more states for more than 3 full academic years." The term 'State' means each of the 50 States, the District of Columbia, and the Commonwealth of Puerto Rico. *(Data source: PEIMS StudentEducationOrganizationAssociation Entity)*

Migratory: The count and percentage of students that meet the following criteria: Student is (ages 3-21), or the student's parent, spouse, or guardian is a migratory agricultural worker, including a migratory dairy worker, or a migratory fisher, and who, in the preceding 36 months, in order to obtain, or accompany such parent, spouse, or guardian in order to obtain, temporary or seasonal employment in agricultural or fishing work: 1) has moved from one school district to another; or 2) resides in a school district of more than 15,000 square miles, and migrates a distance of 20 miles or more to a temporary residence to engage in a fishing activity. *(Data source: PEIMS StudentEducationOrganizationAssociation Entity)*

Mobility: The count and percentage of students who have been in membership for less than 83 percent of the school year (i.e., missed six or more weeks).

$$\frac{\textbf{number of mobile students in 2023–24}}{\textbf{number of students who were in membership at any time during the 2023–24 school year}}$$

This rate is calculated at the state, region, district, and campus level and is disaggregated by race/ethnicity, economically disadvantaged status, special education status, and emergent bilingual students/English learner status. The mobility rates shown are based on the count of mobile students identified at the campus level. The district mobility rate reflects school-to-school mobility within the same district or from outside the district. The region mobility rate reflects school-to-school mobility within the same region or from outside the region. *(Data source: PEIMS BasicReportingPeriodAttendanceExtension Entity)*

Attrition Rate: The percentage of students enrolled in fall 2022-23 who did not return to the same campus in the fall of 2023-24. This calculation is adjusted to account for the grade levels available to students at each campus as well as additional factors. For instance, students were excluded from the calculation if the campus in which they were enrolled in 2022-23 did not offer the next grade they were expected to move into in 2023-24 or if they were at a campus in 2022-23 that was no longer active in 2023-24. Students who were retained in grade, including those in Grade 12, remained in the calculation.

Some campuses may not receive an attrition rate because all of their students are excluded from the attrition denominator due to their subsequent grade level not being offered at that campus in 2023-24. Examples of such campuses are campuses that serve single grade levels or campuses that changed the grades offered in 2023-24. Attrition Rate is calculated as follows:

2024–25 Texas Academic Performance Report (TAPR) Glossary

$$\frac{\textbf{number of students enrolled in fall 2023 – number of students who returned in fall 2024}}{\textbf{number of students enrolled in fall 2023}}$$

Aggregations of campus denominators and numerators are created for district, region and state levels, and rates for each of those levels are calculated from these sums.

Retention Rates by Grade*:* The percentage of students in Texas public schools who enrolled in fall 2024 in the same grade in which they were reported for the last six-week period of the prior school year (2023–24).

$$\frac{\textbf{number of students enrolled in the same grade from one school year to the next}}{\textbf{number of students enrolled from one school year who return the next year or who graduate}}$$

Special education retention rates are calculated and reported separately because local retention practices differ for students served by special education.

The TAPR and TPRS show retention rates only for grades K–9. Retention rates for all grades can be found in Grade-Level Retention in Texas Public Schools available from TEA*. (Data source: PEIMS StudentSchoolAssociation Entity)*

Data Quality *(not on campus profile)*: The percentage of errors made by the district in the PEIMS Student Leaver Data.

Percent of Underreported Students. Underreported students are 7th–12th graders who were enrolled at any time during the prior year, who are not accounted for through district records or TEA processing in the current year, and for whom the district did not submit a leaver record. A district is required to submit a leaver record for any student served in grades 7–12 the previous year unless the student received a Texas high school equivalency certificate (TxCHSE) certificate by August 31, is a previous Texas public school graduate, moved to and enrolled in another Texas public school district, or returned to the district by the end of the school start window. (For 2023–24 the end of the school-start window was September 27, 2024)

$$\frac{\textbf{number of underreported students}}{\textbf{number of students in grades 7–12 who were served in the district in the 2023–24 school year}}$$

Class Size Averages by Grade and Subject: The average class size by grade (elementary) or selected subjects (secondary classes).

2024–25 Texas Academic Performance Report (TAPR) Glossary

For secondary classes, averages are determined by totaling the number of students served (in a subject at the campus) and dividing that sum by the count of classes for that subject.

For elementary classes, the average is determined based on the instructional model. If an elementary teacher teaches all subjects to the same group of fourth graders all day, the class size average is simply the number of fourth grade students served by that teacher. If an elementary teacher teaches a single subject to five different sections of fourth graders each day, however, the average is calculated the same way as for secondary subjects. For example, one fourth grade science teacher teaches five science classes each day with 18, 20, 19, 21, and 22 students in each class. The total of 100 students divided by the five classes produces an average class size of 20 students for that teacher.

The following rules apply to the average class sizes:

- Classes identified as serving regular, compensatory/remedial, gifted and talented, career and technical, and honors students are included in the calculation.
- English language arts (ELA), mathematics, science, social studies, languages other than English, computer science, and career and technical education are included in the calculation, as are self-contained classrooms.
- Classes where the number of students served is reported as zero are not included.
- Service codes with the "SR" prefix are not included.
- Teacher roles coded as "teacher" and/or "substitute teacher" are included.
- Only class settings coded as "regular class" are included.
- Missing partial FTE counts are not included.
- Elementary classes in which the number of students exceeds 100 are not included.
- Mixed grade-level class averages are not included.

Staff Information (2024–25)

Total Staff: The total count of staff which includes professional staff (teachers, professional support, administrators), educational aides, and (on the district profile) auxiliary staff. *(Data source: PEIMS Staff Entity, StaffEducationOrganizationEmploymentAssociation Entity, StaffEducationOrganizationAssignmentAssociation Entity, and StaffSectionAssociation Entity)*

Professional Staff: The full-time equivalent (FTE) count of teachers, professional support staff, campus administrators, and on the district profile, central office administrators. Staff are grouped according to roles as reported in PEIMS. Each type of professional staff is shown as a percentage of the total staff FTE. See Appendix B for all PEIMS Role IDs. *(Data source: PEIMS Staff Entity, StaffEducationOrganizationEmploymentAssociation Entity, StaffEducationOrganizationAssignmentAssociation Entity, and StaffSectionAssociation Entity)*

Educational Aides: The count and percentage of paraprofessional staff who are reported with a role of 033 (Educational Aide) or 036 (Certified Interpreter). The FTE counts of educational aides are expressed

as a percentage of the total staff FTEs. See Appendix B for all PEIMS Role IDs. *(Data source: PEIMS StaffEducationOrganizationAssignmentAssociation Entity and StaffSectionAssociation Entity)*

Auxiliary Staff *(not on campus profile)*: The count of full-time equivalent (FTE) staff reported in PEIMS employment and payroll records who are not reported in the PEIMS StaffEducationOrganizationAssignmentAssociation or StaffSectionAssociation Entities. The auxiliary staff (and educational aide who performs routine classroom tasks under the general supervision of a certified teacher or teaching team) are expressed as a percentage of total staff. For auxiliary staff, the FTE is the value of the percentage of day worked. *(Data source: PEIMS PayrollExt Entity and StaffEducationOrganizationEmploymentAssociation Entity)*

Librarians and Counselors (Headcount): The headcount of librarians and counselors is based on full-time equivalent (FTE) for full-time and part-time headcounts. Librarians and counselors are considered part-time when the FTE count is less than or equal to .85 (For example, if an FTE count is less than or equal to .85, the part-time headcount is equal to 1). Counselor includes PEIMS Staff Classifications 008 and 117. Librarian includes PEIMS Staff Classifications 013.

Librarians and counselors are headcounts, not sums of FTEs. The district headcount is not a sum of the campus headcount. For example, a counselor spends 50 percent of their time at the elementary (0.50 FTE) and 50 percent of their time at the high school (0.50 FTE). On each of the campus reports, this counselor will be reflected as 1.0 part-time counselor. On the district report, the counselor will be reflected as 1.0 full-time counselor since the FTE count is greater than .85 (0.50 FTE plus 0.50 FTE=1.0 FTE). See Appendix B for PEIMS Staff Classifications (Professional Support Staff). *(Data source: PEIMS Staff Entity, StaffEducationOrganizationEmploymentAssociation Entity, StaffEducationOrganizationAssignmentAssociation Entity, and StaffSectionAssociation Entity)*

Total Minority Staff: The total count of minority staff is the sum of the FTE counts for all non-white staff groups (African American, Hispanic, American Indian, Asian, Pacific Islander, and Two or More Races). The minority staff FTE count is expressed as a percentage of the total staff FTE. *(Data source: PEIMS Staff Entity, StaffEducationOrganizationEmploymentAssociation Entity, StaffEducationOrganizationAssignmentAssociation Entity, and StaffSectionAssociation Entity)*

Teachers by Ethnicity and Sex: The counts of teacher FTEs by ethnic group and by sex. Counts are also expressed as a percentage of the total teacher FTEs. *(Data source: PEIMS PEIMS Staff Entity, StaffEducationOrganizationEmploymentAssociation Entity, StaffEducationOrganizationAssignmentAssociation Entity, and StaffSectionAssociation Entity)*

Teachers by Highest Degree Held: The distribution of degrees held by teachers. The FTE counts of teachers with no degree, a bachelor's degree, a master's degree, or a doctorate are expressed as a percentage of the total teacher FTEs. *(Data source: PEIMS Staff Entity, StaffEducationOrganizationEmploymentAssociation Entity, StaffEducationOrganizationAssignmentAssociation Entity, and StaffSectionAssociation Entity)*

Teachers by Years of Experience: The FTE count of teachers by total years of experience for the individual, not necessarily years of experience in the district or campus. Teacher counts within each range of experience are expressed as a percentage of total teacher FTEs. Teachers are reported with zero years of experience (first year teachers), 1–5 years, 6–10 years, 11–20 years, 21–30 years, and over 30 years. *(Data source: PEIMS PEIMS Staff Entity, StaffEducationOrganizationEmploymentAssociation*

Entity, StaffEducationOrganizationAssignmentAssociation Entity, and StaffSectionAssociation Entity)

Number of Students per Teacher: The total number of students divided by the total teacher FTE count. *(Data source: PEIMS Staff Entity, StaffEducationOrganizationEmploymentAssociation Entity, StaffEducationOrganizationAssignmentAssociation Entity, and StaffSectionAssociation Entity)*

Experience of Campus Leadership: The average years of experience for principals and assistant principals.

Average Years as Principal: The number of completed years of experience as a principal, regardless of district or interruption in service. These amounts are added together and divided by the number of all principals reported for the campus.

Average Years as Principal with District: The number of years a principal is employed in the district regardless of any interruption in service. The amounts are added together and divided by the number of principals reported for the district.

Average Years as Assistant Principal: The number of completed years of experience as assistant principal, regardless of district or interruption of service. The amounts are added together and divided by the number of assistant principals reported for the campus.

Average Years as Assistant Principal with District: The number of years employed as assistant principal in the district regardless of any interruption in service. These amounts are added together and divided by the number of assistant principals reported for the district.

(Data source: PEIMS StaffEducationOrganizationEmploymentAssociation Entity)

Average Years Experience of Teachers: The average number of completed years of professional experience, regardless of district. Weighted averages are calculated by multiplying each teacher's FTE coefficient (1 for a full-time teacher, .75 for a three-quarter-time teacher, and .5 for a half-time teacher, for example) by his or her years of experience. These amounts are added together and divided by the sum of all teachers' FTE coefficients. *(Data source: PEIMS PEIMS Staff Entity, StaffEducationOrganizationEmploymentAssociation Entity, StaffEducationOrganizationAssignmentAssociation Entity, and StaffSectionAssociation Entity)*

Average Years Experience of Teachers with District: The average number of years employed in the district regardless of any interruption in service. Weighted averages are calculated by multiplying each teacher's FTE coefficient by his or her years of experience in the district. These amounts are added together and divided by the sum of all teacher's coefficients. *(Data source: PEIMS StaffEducationOrganizationEmploymentAssociation Entity)*

Average Teacher Salary by Years of Experience (regular duties only): Total pay for all teachers in each category divided by the total teacher FTE count in that category. For the purpose of this calculation, the total actual salary amount is pay for regular duties only and does not include supplemental pay. For teachers who also have non-teaching roles, only the portion of time and pay dedicated to classroom responsibilities is factored into the average teacher salary calculation. Teachers are reported with zero years of experience (first year teacher), 1–5 years, 6–10 years, 11–20 years, 21–30 years, and over 30 years. *(Data source: PEIMS PayrollExt Entity)*

2024–25 Texas Academic Performance Report (TAPR) Glossary

Average Actual Salaries (regular duties only): For each category, the total salary for that category divided by the total FTE count for that category. Only payment for regular duties is included in the total salary; supplemental payments for extra duties (e.g., coaching, band and orchestra assignments, club sponsorships) are not included. See Appendix B for lists of the PEIMS staff classifications included in each category.

Teachers. Teachers, special duty teachers, and substitute teachers. Substitute teachers are either temporarily hired to replace a teacher or hired permanently on an as-needed basis. The District Teacher Salary Report and Graph also uses this definition in creating counts for various salary ranges.

Professional Support. Therapists, nurses, librarians, counselors, and other campus professional personnel.

Campus Administration (School Leadership). Principals, assistant principals, and other administrators reported with a specific school ID.

Central Administration (not on campus profile). Superintendents, presidents, chief executive officers, chief administrative officers, business managers, athletic directors, and other administrators reported with a central office ID and not a specific school ID.

Instructional Staff Percent *(district profile only)*: The percentage of the district's FTEs whose job function was to provide classroom instruction directly to students during the 2024–25 school year. The instructional staff percent is a district-level measure and is calculated as follows:

$$\frac{\textbf{total number of hours for district staff who were reported under expenditure object codes 6112, 6119, and 6129, and function codes 11, 12, 13, and 31}}{\textbf{total number of hours worked by all district employees}}$$

Contact the Division of Financial Compliance at (512) 463-9095 for further details about this measure. *(Data source: PEIMS Staff Entity, StaffEducationOrganizationEmploymentAssociation Entity, StaffEducationOrganizationAssignmentAssociation Entity, and StaffSectionAssociation Entity)*

Turnover Rate for Teachers *(not on campus profile)*: The percentage of teachers from the fall of 2023–24 who were not employed in the district in the fall of 2024–25. It is calculated as the total FTE count of teachers from the fall of 2023–24 who were not employed in the district in the fall of 2024–25, divided by the total teacher FTE count for the fall of 2023–24. Teachers include PEIMS Staff Classifications (Role IDs) 087 and 047. Staff who remained employed in the district but not as teachers also count toward teacher turnover. *(Data source: PEIMS 2023-2024 PEIMS 30040 and 30090, 2024-2025 PEIMS Staff Entity StaffEducationOrganizationAssignmentAssociation Entity, and StaffSectionAssociation Entity)*

Staff Exclusions *(not on campus profile):* The counts of individuals who serve public school students but are not included in the FTE totals for any of the other employee statistics. There are two types of these entries: individuals participating in a shared services arrangement and individuals on contract with the district to provide instructional services.

Shared Services Arrangement (SSA) Staff are staff who work in schools located in districts other than their employing district or whose assigned organization (in PEIMS) shows a code of 751, indicating that

they are employed by the fiscal agent of an SSA. Only the portion of a person's total FTE amount associated with the school in another district (or with the 751 organization code) is counted as SSA. SSA staff are grouped into three categories: Professional Staff (which includes teachers, administrators, and professional support); Educational Aides; and Auxiliary Staff. Note that SSA Auxiliary Staff are identified by the type of fund from which they are paid.

Contracted Instructional Staff (District and Campus Profiles) refers to counts of instructors for whom the district has entered into a contractual agreement with some outside organization. Through the contract, the outside organization has committed to supplying instructional staff for the district. They are never employees of the reporting school district. *(Data source: PEIMS ContractedInstructionalStaffFTEExt Entity and PayrollExt Entity)*

Contracted Instructional Staff: The count of individuals who are not regular classroom teachers who have signed a contract with a district, nor are they shared services arrangement employees. Rather, these are instructors for whom the district has entered into a contractual agreement with an outside organization. Through the contract, the outside organization has committed to supplying instructional staff for the district. They include, but are not limited to, speech therapists, occupational therapists, and any other professional contracted staff working in a classroom on a dedicated basis. *(Data source: PEIMS ContractedInstructionalStaffFTEExt Entity)*

Teacher Incentive Allotment (TIA): The headcount of teachers who received incentive allotment per House Bill 3 and TEC Sec. 48.112 and average TIA payout by categories of Recognized, Exemplary and Master for the 2024-25 school year. *(Data source: Division of District Talent Systems)*

Teachers by Program *(population served):* The FTE count of teachers categorized by the type of student populations served: regular, special, compensatory, bilingual/ESL, gifted and talented education students, and other populations. Teacher FTE values are allocated across population types for teachers who serve multiple population types. Percentages are expressed as a percentage of total teacher FTEs. *(Data source: PEIMS Staff Entity, StaffEducationOrganizationEmploymentAssociation Entity, StaffEducationOrganizationAssignmentAssociation Entity, and StaffSectionAssociation Entity)*

Report of 2022-2023 High School Graduates' Enrollment and Academic Performance in Texas Public Higher Education in FY 2024

Texas statute requires every school district to include, with their performance report, information received under Texas Education Code §51.403(e). This information, provided to districts from the Texas Higher Education Coordinating Board (THECB), reports on student performance in postsecondary institutions during the first year enrolled after graduation from high school.

Student performance is measured by the Grade Point Average (GPA) earned by 2022-2023 high school graduates who attended public four-year and two-year higher education in FY 2024. The data is presented alphabetically for each county, school district and high school. The bookmarks can be used to select the first letter of a county. Then the user can scroll down to the desired county, school district and high school.

For each student, the grade points and college-level semester credit hours earned by a student in fall 2023, spring 2024, and summer 2024 are added together and averaged to determine the GPA. These GPAs are accumulated in a range of five categories from < 2.0 to > 3.5. If a GPA could not be calculated for some reason, that student is placed in the "Unknown" column. GPA data is only available for students attending public higher education institutions in Texas. If a high school has fewer than five students attending four-year or two-year public higher education institutions, the number of students is shown but no GPA breakout is given. If a student attended both a four-year and a two-year institution in FY 2024, the student's GPA is shown in the type of institution where the most semester credit hours were earned.

The number of students located at Texas independent institutions is presented. Also shown are "not trackable" graduates, those with non-standard ID numbers that cannot be used to match student identifiers at Texas higher education institutions. "Not found" graduates have standard ID numbers but were not located in FY 2024 at Texas higher education institutions. They might have enrolled in higher education outside of Texas.

No data is given for high schools with 25 or fewer graduates.

Because the statute calls for data on the first year enrolled after graduation, the level of the institution attended by students in this report may not match that given in THECB's high school to college report at http://www.txhighereddata.org/Interactive/HSCollLink. That report shows where students attended in the fall semester after their high school graduation year. This report attributes students to the level of institution where they earned the most semester credit hours during the whole academic year, not just the fall semester.

Please note: In May 2012 the 2006-2007, 2007-2008, and 2008-2009 versions of the *Report of High School Graduates' Enrollment and Academic Performance in Texas Public Higher Education* were updated to reflect a minor correction in how the GPA data are distributed across ranges.

Annual Report on
Violence & Violence Prevention

I. Overview

Texas Education Code Sec. 39.306 requires each district's board of trustees to publish an annual report that includes the Texas Academic Performance Report (TAPR); campus performance objectives; a report of violent or criminal incidents; and information received under Texas Education Code Sec. 51.403(e) from the Texas Higher Education Coordinating Board.

In accordance with these statutory requirements, Cypress-Fairbanks ISD reported a total of **1,485 violent or criminal incidents** in the **2024-2025** school year. With a student population of **117,658**, this reflects a rate of **0.0126 incidents per student**.

This statistic includes only incidents associated with specific TEA "discipline action reason codes" as recommended by the Deputy Commissioner of Programs and Instruction. As a result, it does not include all infractions listed in the District's local Student Code of Conduct. Only incidents that occurred during the 2024-2025 school year are included.

School Year	2024-2025

- [x] information concerning school violence prevention and violence intervention policies and procedures that the district is using to protect students

** Total Student Population count reflects the total number of students reported in membership on the October snapshot date (the last Friday in October).*

Methods for Regaining Credit or Awarding a Final Grade

When a student's attendance drops below 90 percent but remains at least at 75 percent of the days the class is offered, the student may earn credit for the class or a final grade by completing a plan approved by the principal. This plan must provide for the student to meet the instructional requirements of the class as determined by the principal.

When makeup work is completed satisfactorily, the attendance committee shall consider extracurricular absences and other excused absences as days of attendance for award of credit or a final grade. [See FEA]

The attendance committee shall consider whether the reasons for the absences were out of the parent's or student's control and whether documentation for the absence is acceptable.

Imposing Conditions for Awarding Credit or a Final Grade

The attendance committee or principal, as applicable, shall consider the student's unique circumstances and, if necessary, shall impose conditions for awarding credit or a final grade that permit the student to meet the instructional requirements of the class ~~rather than assigning a student to attend a specified program for an amount of time equivalent to the student's absences~~. Dual Credit Partnership Agreement
Between Lone Star College and

Cypress Fairbanks ISD

This Dual Credit Partnership Agreement ("Agreement") between Lone Star College ("System") and Cypress Fairbanks ISD ("School") is designed to allow high school students to earn both high school credit and college credit (workforce and or transfer). Individually, the System and the School are referred to herein as "Party" and collectively as "Parties."

Texas Education Code ("TEC") §§ 28.009, 29.182, 29.184, and 19 Texas Administrative Code ("TAC") Part 1 Chapter 4, Subchapter D and Chapter 9, Subchapter H, authorizes the System to provide students dual-credit instruction via a contract with a public school district or private school.

Per 19 TAC Rule § 4.84, the System and the School desire to establish a dual credit program with the following conditions.

1. Eligible Courses

a. For the purposes of this agreement, "Dual Credit Course" shall be defined as outlined in TAC §4.83 (10).

b. The System shall evaluate Dual Credit Courses offered and approve them through the System's curriculum approval process and following Texas Education Code §28.009 b-2 (5) and all other statutory requirements.

c. Dual Credit Courses must be identified as college-level academic courses in the current *Lower Division Academic Course Guide Manual* or as college-level workforce education courses in the current *Workforce Education Course Manual* and be in the System's approved undergraduate course inventory.

d. Remedial and developmental courses are not offered for dual credit per 19 TAC § 4.85 (a)(4).

e. The System and the School shall collaborate to determine the specific course offerings.

f. The System may offer College Connect courses in accordance with 19 TAC § 4.86.

g. The Course Crosswalk is a dynamic document that identifies the high school and college credits that may be earned under this agreement and may be amended (See Schedule 3–Course Crosswalk).

i. Schedule 3–Course Crosswalk is a course equivalency for each high school course and its associated college course, including the number of credits, that may be earned for each course completed through the dual credit agreement.

ii. The Course Crosswalk does not grant the School the opportunity to offer every course equivalency under this Agreement. The System shall approve all courses in the dual credit program before implementation.

iii. The School may develop an approved course list specifically detailing which courses are selected from the Course Crosswalk to publish on both parties' website each academic year. The approved list will be attached to this Agreement and updated as

needed each year before publishing without need of a formal amendment. The approved list, however, must be approved by the applicable college Vice President of Instruction and an authorized individual from the School. The most recent approved list will be posted on each Parties internet website.

2. Student Eligibility Requirements

a. A high school student is eligible to enroll in dual credit courses per TAC Rule § 4.85 (b) if the student:

i. Is not a degree-seeking student as defined in 19 Texas Administrative Code § 4.83(9).

ii. Demonstrates that the student is exempt under the Texas Success Initiative ("TSI") provisions as set forth in 19 Texas Administrative Code §4.54.

iii. Demonstrates college readiness by achieving the TSI minimum passing standards as set forth in 19 Texas Administrative Code § 4.57 on relevant assessment instrument section(s) approved by the THECB in 19 Texas Administrative Code § 4.56, or

iv. Meets the eligibility requirements for a Texas First Diploma under 19 Texas Administrative Code § 21.52.

b. Except as provided in 19 Texas Administrative Code § 4.52(b), all students enrolled in secondary public (accredited or non-accredited), private, or home school are required to demonstrate college readiness, demonstrate a TSI-allowed exemption, or submit another approved dual credit eligibility assessment.

c. Students must meet all regular System prerequisite requirements designated for that course as outlined in TAC § 4.85 (b)(3).

d. Lone Star College requires students to maintain a "C" or better to continue dual credit program enrollment.

e. To the extent applicable, College Connect Courses as outlined in TAC § 4.86

i. An eligible student must be enrolled in a public school district or open-enrollment charter as defined in Texas Education Code, §5.001(6), and meet the requirement for dual credit courses to enroll in College Connect courses.

ii. A student who is not exempt or college-ready under the requirements of 19 Texas Administrative Code § 4.54 or § 4.57 may enroll in a math or communications College Connect course.

3. Dual Credit Course Locations

a. Dual credit courses may be offered at the School, System, online, or a combination.

b. The School's counselor or designee shall review each student's enrollment in an online dual credit course with the parent or guardian and the student. The review explains the online courses' requirements and expectations. The System shall make the ultimate enrollment decision consulting the School counselor or designee.

4. Student Course Composition

a. Dual credit courses may include only dual credit students or both dual- and college-credit students.

b. The Parties may grant exceptions for a mixed course combining college-credit and high-school-credit-only students per TAC 4.85 (d) with signed approval only when the School finds a high-school- credit-only course is not financially viable and only under the following conditions:

i. If the course involved is required under the State Board of Education High School Program graduation requirements;

ii. If the high-school-credit-only students are College Board Advance Placement or International Baccalaureate students; or

iii. If the course is a career and technical or college workforce education course and the high-school-credit-only students are eligible to earn articulated college credit.

5. Faculty Selection, Supervision, and Evaluation

a. The System shall select dual credit course instructors. These instructors must be regularly employed System faculty members or must meet the same System standards and approval procedures used to select faculty responsible for teaching the same courses at the System's campuses such as Qualified School Instructors. Qualified School Instructors are School employees who are qualified to teach dual credit classes as described in Texas Education Code § 130.008(g). Regularly employed System faculty members and Qualified School Instructors are collectively identified as "Instructors" throughout this Agreement.

b. Instructors must meet the Southern Association of Colleges and Schools Commission on College's minimal requirements, which are currently listed on the Faculty Credential Table located at https://www.lonestar.edu/faculty-qualifications.htm.

c. The Parties shall evaluate Instructors using the System's evaluation process for regularly employed full-time faculty members or adjunct instructors.

d. The System shall require Instructors to participate in outcomes assessment activities.

e. The System shall require Instructors to participate in System professional development activities.

f. The System shall require Instructors to submit each semester for the System's approval a syllabus for each course taught. The System shall require Instructors to post the approved syllabus no later than the seventh day after the first class day.

g. The System shall require Instructors to post a Curriculum Vitae no later than seven days after the first class day, and thereafter update as soon as practicable after the information changes.

h. The System shall require Instructors to post each major course assignment and examination grade, calculate final course grades at the semester's end, and provide students access to the System textbook utilizing the System Learning Management System's gradebook and other features. The System shall require Instructors to complete all required end-of-course materials, such as grades, exams, and assignments related to grading materials.

i. The System shall require Instructors to complete all administrative tasks as required by the College department.

j. The System shall require Instructors' official transcripts be received within the academic term's first 30 days.

k. The System shall require other pertinent employment documents be submitted prior to the

initial term and kept on file thereafter in the System Human Resources office.

l. Any Qualified School Instructor teaching the dual credit course at the School location will do so as part of a regular teaching assignment and will comply with the System's standards for instruction regardless of modality for in-person, hybrid, or online courses.

m. The System and the School shall ensure dual credit courses taught by Qualified School Instructors meet the State of Texas, SACSCOC, and System required instruction quality, rigor, uniformity, implementation, sequencing, and pacing. If the System determines that a Qualified School Instructor's dual credit course fails in any respect to meet any required standard, then the System shall provide the School notice of such failure and the School shall promptly remedy such deficiency. The System may take all appropriate actions up to and including the Qualified School Instructor's suspension or termination from the dual credit program if the School fails to promptly resolve noticed deficiencies.

n. The System may remove and or replace any Instructor who fails to meet the System's requirements. The System may also place an instructor on a probationary period for quality performance issues.

o. The School shall provide, without charge, a School employee or other individual approved by the System to proctor all assessments as needed for online dual credit courses, serve as a student mentor, receive student performance email notifications, and perform any other reasonably necessary duties to facilitate this Agreement.

6. Course Curriculum, Instruction, and Grading

a. A dual credit course and the corresponding course offered at a System campus are equivalent with respect to the curriculum, materials, instruction, and student evaluation method and rigor.

b. The Parties shall ensure workforce programs offered as dual credit meet requirements set forth by the System and its accrediting and oversight bodies and agreed upon using Exhibit B–Dual Credit Program Plan Amendment.

c. As stated in TAC §4.83(D), a student may earn a single grade toward both the college course and the high school credit or may earn two separate grades where the high school grade only reflects a student's mastery of secondary content.

d. As stated in TAC §4.86 and to the extent applicable, College Connect Courses offered through dual credit must confer both a college-level grade and a secondary-level grade upon a student's successful completion of the course. A grade conferred for the college-level course may be different from the secondary-level grade, to reflect whether a student has appropriately demonstrated college-level knowledge and skills as well as secondary-level knowledge and skills. An institution may determine how a student enrolled in this course may earn college credit, whether through college-level course completion or successful completion of a recognized college-level assessment that the institution would otherwise use to award college credit.

7. Academic Policies and Student Support Services

As outlined in TAC §4.84, the academic support and guidance provided to students participating in the dual credit program are listed below.

a. **Advising**. The School and the System shall establish common advising strategies and terminology related to dual credit and college readiness, provide for endorsements described by Texas Education Code § 28.025(c-1), and identify tools to assist school counselors, students, and families in selecting endorsements that align with dual credit

courses offered by the System.

The Parties shall ensure academic advisors are available to assist students with academic services including admissions, testing, advising, registration, campus and community resources referral, add/drop/withdrawal process, transfer planning, and graduation process. The School and the System shall designate at least one employee as responsible for providing academic advising to a student who enrolls in a dual credit course before the student begins the course as required under TAC §4.84(20). The School and the System may designate a specific department or position title instead of a named individual to serve as the academic advisor

Academic Advisor: LSC-CyFair Advising Department
Title/Department: _____
_____
_____
_____

The System shall require a student enrolled in a dual credit course to file a degree plan with the college no later than the second regular semester's end or term immediately following the semester or term in which the student earned 15 or more cumulative semester credit hours total for dual credit courses successfully completed by the student as outlined in TEC § 51.9685.

b. **Career Services**. The System's career services department is dedicated to helping students explore college majors and associated careers, research employers, and prepare for interviews.

c. **Learning Tools**. Each campus provides a learning center to extend learning beyond the classroom, including libraries, study aids, tutoring, and testing centers as outlined in TAC §4.85(g). The System shall provide dual credit students with similar access to services and facilities that System students have on the System's campuses.

Dual credit students are eligible to use the same or comparable support services afforded to all System students including services (e.g., academic advising and counseling), learning materials (e.g., library resources) and other benefits. Other services may be available on the campus based on student and community needs.

Online resources developed by the Texas Education Agency, Coordinating Board, or the Texas Workforce Commission, to assist counselors, students, and families in selecting endorsements offered by the school district and college courses offered by the institution under the agreement are also available.

d. **Disability Services.**

i. The System is dedicated to providing equitable access for all students. This includes providing reasonable accommodations as required by the Rehabilitation Act of 1973, Title V § 504 and § 508, the Americans with Disabilities Act of 1990, and the Americans with Disabilities Amendment Act, and all applicable regulations.

ii. The System recognizes students' right to an equal opportunity to participate in and benefit from the System's services, programs, facilities, and activities. The System shall make reasonable accommodations, including furnishing auxiliary aids and services, for qualified students with disabilities and other qualifying conditions as required by law and in accordance with the System's Policies and Procedures.

iii. The School understands and acknowledges that student accommodations or service approved and provided by the School are not transferable to the System or the System course.

iv. Students with disabilities or other qualifying conditions are encouraged to register with their campus's Disability Services Office as early as possible to help ensure accommodations are in place before the semester's start. Students requesting accommodations for a disability in a System course must contact the System's Disability Services Office each semester to register for or renew accommodations for System courses. Seeking college accommodations is the student's responsibility. If the student does not make a request for accommodations and actively participate in the accommodation discussion as needed, the student will not receive accommodations. Additional information may be accessed online at http://LoneStar.edu/disability-services.htm.

v. Instructors must receive an approved accommodation letter via System email before students can use their System-approved accommodation in the Instructor's course.

vi. Assistive Technology is available for students who benefit from its various technologies based on approved accommodations as determined by the System's Disability Services Office. Students are encouraged to discuss their needs with the System's Disability Services Office when requesting accommodations or as soon as a need is recognized.

vii. The School acknowledges that it will provide college-level accommodations to qualified dual credit students attending that School's public, private, or charter location, applicable to School-owned or -leased sites (including sites leased from Lone Star College), as approved by Lone Star College. Each qualified dual credit student requesting accommodations in a dual credit course must complete the accommodation request process per LSCS Policy VI.D.11. Students with Disability Rights and Chancellor's Procedures (available at https://www.lonestar.edu/policy.htm). The School shall be responsible for providing such accommodations and any costs associated with providing such accommodations on the School's owned or leased location.

viii. Lone Star College will provide college-level accommodations to qualified dual credit students attending a Lone Star College location in accordance with LSCS Policy VI.D.11. Students with Disability Rights and Chancellor's Procedures (available at https://www.lonestar.edu/policy.htm). Lone Star College shall be responsible for providing such accommodations and any costs associated with providing such accommodations on Lone Star College locations.

Schedule 1
Dual Credit Financial Agreement

1. Tuition, Fees, Textbooks, and Supplies

a. Dual credit students will pay a reduced tuition rate for applicable courses aligning with the System tuition schedule and as published in Schedule 2–Dual Credit Tuition Schedule. Waivers and tuition are subject to change with System Board approval.

b. Other than students who qualify for the Financial Aid for Swift Transfer ("FAST") program under TAC Rule 4.89(9), Students will pay all appropriate fees and purchase instructional support materials unless otherwise agreed upon by the School and System. Students will be responsible for the costs of textbooks and required course supplies when such costs are not being provided by the School. The System shall pay for FAST eligible students' books and supplies.

c. School and Students must follow specified dual credit registration and payment procedures. Procedures and deadlines may be different than for non-dual credit students.

d. Students enrolled in college credit only courses are responsible for payment of full tuition and fees.

e. For Schools utilizing third-party billing for payment of tuition and or fees, System will invoice the School based on 30 days after official day of enrollment. The official day of enrollment is the date the System certifies student enrollment to the state. Payment by the School is due 30 days following the receipt of such invoice.

f. If payment from the ISD/School is not received within 30 days after the invoice due date, the student(s) will be responsible for paying their unpaid balance and prevented from registering for future terms.

2. Funding Provisions

a. The state funding for dual credit courses will be available to public school districts, charter schools, and the System based upon the current funding rules of the State Board of Education and the Texas Higher Education Coordinating Board.

b. The School shall determine whether the student meets the criteria for the FAST program under Education Code §28.0095 and notify the System so funds can be awarded.

3. Payment for Instructional Services

a. The System will reimburse the School based on course headcount 30 days after official day of enrollment. The official day of enrollment is the date the System certifies student enrollment to the state. Payment will be calculated using the base rate of pay for System adjunct instructors prorated for every 30 students enrolled in dual credit courses taught by School teachers during regular school hours as part of their School workload.

b. Dual Credit reimbursement is calculated based on the number of students enrolled at each ISD. This rate is determined by dividing the System adjunct faculty compensation for a 48-contact hour course by 30. This results in a fixed, per student rate to be used for all dual credit courses taught on the high school campus by high school teachers.

c. If the instructor is provided by the System, they will be compensated by the System in accordance with the System's policy and procedures.

[1] This Voter Information Document is provided in accordance with Section 1251.052 of the Texas Government Code. The information contained in this Voter Information Document is based on certain assumptions, and actual results may vary from such assumptions. The Voter Information Document is not intended to, and does not, create a contract with the voters.

[2] Based on assumptions set forth in "Assumptions Utilized in Calculating the Estimated Tax Impact" below.

[3] The information contained in this table reflects the District's outstanding debt obligations as of the date the Board of Trustees approved the Order calling the Bond Election.

Information Regarding the Estimated Maximum Annual Increase in the Amount of Ad Valorem Taxes on a Residence Homestead with an Appraised Value of $100,000 to Pay the Debt Obligations Proposed Under Proposition A
If the bonds authorized by Proposition A are approved, based on the assumptions set forth under "*Assumptions Utilized in Calculating the Estimated Tax Impact*" below, the District estimates that the maximum annual increase in the amount of ad valorem taxes on a residence homestead with an appraised value of $100,000 to pay the bonds proposed under Proposition A would be approximately $0.*

* See paragraph (4) of the "*Assumptions Utilized in Calculating the Estimated Tax Impact*" for information regarding the application of the state-mandated $140,000 homestead exemption and the expected tax rate impact of the proposed bonds.

Assumptions Utilized in Calculating the Estimated Tax Impact

If approved by the voters, the District intends to issue the bonds authorized by Proposition A over a period of years in a manner and in accordance with a schedule to be determined by the District's Board of Trustees based upon a number of factors, including, but not limited to, the then-current needs of the District, demographic changes, prevailing market conditions, then-current market interest rates, the use of capitalized interest, availability of other revenue sources to pay debt service, assessed valuations of property in the District, tax collection percentages, and management of the District's short-term and long-term interest rate exposure. The estimated tax impact is derived, in part, from projections obtained from the District's financial advisor. Actual results may vary from the assumptions used in calculating the estimated tax impact. For the purposes of estimating the maximum annual increase in taxes identified in this table, the District utilized the following major assumptions:

(1) The District has assumed the issuance of $1,299,520,000 of bonds in five separate series over a [five]-year period, with approximately $[_____] issued in 2026, $[_____] issued in 2027, $[_____] issued in 2028, $[_____] issued in 2029 and $[_____] issued in 2030. For the purposes of these projections, it has been assumed that each series of Bonds issued under Proposition A would be amortized over [25 years] as shown in the following schedule. The following is an estimated pro forma amortization schedule based on these assumptions. It shows the District's currently outstanding bonds and bonds authorized under Proposition A:

[Financial Advisor to provide amortization schedule]

(2) The District has assumed the bonds would bear interest at an estimated rate of [__]%.

(3) The District has assumed that the taxable assessed value within the District will grow at a rate of [___]% per year for the first year, [___]% for the following [__] years and then [__]% for the remaining life of the bonds. The District has assumed a tax collection percentage of [__]%.

(4) In calculating the tax impact on a residence homestead, the District applied the state-mandated $140,000 homestead exemption to the assessed valuation, resulting in a taxable assessed valuation of $0 on a residence homestead with an appraised value of $100,000. The District did not apply any other exemptions in connection with this calculation. A homeowner may qualify for exemptions not considered in calculating the tax impact, such as exemptions for the elderly and disabled. Based on the declining debt

service on the District's currently outstanding debt obligations, as shown in the amortization schedule above, and forecasted amounts of property tax revenue to be collected each year, the District estimates that if approved, the bonds authorized under Propositions A, B, C, and D could be paid while reducing the District's current debt service tax rate from $0.40 per $100 of taxable assessed valuation to $0.39 per $100 of taxable assessed value.

(5) The estimated tax impact assumes the availability of the Permanent School Fund Guarantee for each series of bonds issued under Proposition A.

(6) The estimated tax impact presented in this voter information document addresses the impact of the bonds proposed under Proposition A as provided in Section 1251.052 of the Texas Government Code. For information regarding the estimated tax impact of the bonds proposed under other propositions as provided in Section 1251.052 of the Texas Government Code, please refer to the voter information documents for such propositions.

[1] This Voter Information Document is provided in accordance with Section 1251.052 of the Texas Government Code. The information contained in this Voter Information Document is based on certain assumptions, and actual results may vary from such assumptions. The Voter Information Document is not intended to, and does not, create a contract with the voters.

[2] Based on assumptions set forth in "Assumptions Utilized in Calculating the Estimated Tax Impact" below.

[3] The information contained in this table reflects the District's outstanding debt obligations as of the date the Board of Trustees approved the Order calling the Bond Election.

Information Regarding the Estimated Maximum Annual Increase in the Amount of Ad Valorem Taxes on a Residence Homestead with an Appraised Value of $100,000 to Pay the Debt Obligations Proposed Under Proposition D
If the bonds authorized by Proposition D are approved, based on the assumptions set forth under "*Assumptions Utilized in Calculating the Estimated Tax Impact*" below, the District estimates that the maximum annual increase in the amount of ad valorem taxes on a residence homestead with an appraised value of $100,000 to pay the bonds proposed under Proposition D would be approximately $0.*

* See paragraph (4) of the "*Assumptions Utilized in Calculating the Estimated Tax Impact*" for information regarding the application of the state-mandated $140,000 homestead exemption and the expected tax rate impact of the proposed bonds.

Assumptions Utilized in Calculating the Estimated Tax Impact

If approved by the voters, the District intends to issue the bonds authorized by Proposition D over a period of years in a manner and in accordance with a schedule to be determined by the District's Board of Trustees based upon a number of factors, including, but not limited to, the then-current needs of the District, demographic changes, prevailing market conditions, then-current market interest rates, the use of capitalized interest, availability of other revenue sources to pay debt service, assessed valuations of property in the District, tax collection percentages, and management of the District's short-term and long-term interest rate exposure. The estimated tax impact is derived, in part, from projections obtained from the District's financial advisor. Actual results may vary from the assumptions used in calculating the estimated tax impact. For the purposes of estimating the maximum annual increase in taxes identified in this table, the District utilized the following major assumptions:

(1) The District has assumed the issuance of $20,125,000 of bonds in __ separate series over a [_____]-year period, with approximately $[_____] issued in 2026, $[_____] issued in 2027, $[_____] issued in 2028, $[_____] issued in 2029 and $[_____] issued in 2030. For the purposes of these projections, it has been assumed that each series of Bonds issued under Proposition D would be amortized over [__] years as shown in the following schedule. The following is an estimated pro forma amortization schedule based on these assumptions. It shows the District's currently outstanding bonds and bonds authorized under Proposition D:

[Financial Advisor to provide amortization schedule]

(2) The District has assumed the bonds would bear interest at an estimated rate of [__]%.

(3) The District has assumed that the taxable assessed value within the District will grow at a rate of [____]% per year for the first year, [____]% for the following [__] years and then [__]% for the remaining life of the bonds. The District has assumed a tax collection percentage of [__]%.

(4) In calculating the tax impact on a residence homestead, the District applied the state-mandated $140,000 homestead exemption to the assessed valuation, resulting in a taxable assessed valuation of $0 on a residence homestead with an appraised value of $100,000. The District did not apply any other exemptions in connection with this calculation. A homeowner may qualify for exemptions not considered in calculating the tax impact, such as exemptions for the elderly and disabled. Based on the declining debt

service on the District's currently outstanding debt obligations, as shown in the amortization schedule above, and forecasted amounts of property tax revenue to be collected each year, the District estimates that if approved, the bonds authorized under Propositions A, B, C, and D could be paid while reducing the District's current debt service tax rate from $0.40 per $100 of taxable assessed valuation to $0.39 per $100 of taxable assessed value.

(5) The estimated tax impact assumes the availability of the Permanent School Fund Guarantee for each series of bonds issued under Proposition D.

(6) The estimated tax impact presented in this voter information document addresses the impact of the bonds proposed under Proposition D as provided in Section 1251.052 of the Texas Government Code. For information regarding the estimated tax impact of the bonds proposed under other propositions as provided in Section 1251.052 of the Texas Government Code, please refer to the voter information documents for such propositions.

Teacher Feedback Summary

The textbook is highly aligned to AP Language expectations and TEKS, offering accurate, diverse, and relevant nonfiction texts paired with a coherent and easy-to-navigate structure. Skills build logically from foundational rhetorical concepts to advanced argument and synthesis, supported by anchor texts, targeted instruction, and consistent practice. Frequent AP-style assessments, including MCQs, FRQs, embedded rubrics, and full-length practice exams, ensure students receive meaningful feedback and rigorous exam preparation. Students will also benefit from regular checks for

understanding, scaffolded writing opportunities, and skill-aligned practice that mirrors AP task demands.

Teachers noted strong instructional resources, including graphic organizers, writing samples, close-reading questions, and a robust digital suite through the Perfection Next platform. While representation is diverse, some reviewers indicated a need for more explicit support for Emergent Bilingual and SPED learners, though tools like Microsoft Immersive Reader offer helpful accessibility features. The challenging texts, strategic writing opportunities, and focus on rhetorical analysis promote college-level rigor. Implementation is considered highly feasible due to clear pacing guides, ready-made slides, and user-friendly materials, making the curriculum adoption-ready with minimal need for redesign.

Teacher Feedback Summary:

The reviewed AP Literature resource is highly aligned to College Board standards and TEKS, offering clearly organized units, updated literary selections, and a consistent structure that supports both instruction and planning. Teachers found the text easy to navigate, visually accessible, and thorough in its approach, with explicit standards listed at the beginning of each unit. The program provides strong assessment support, including embedded rubrics, scoring guides, multiple-choice questions, and skills-based mini-assessments that help monitor student mastery. Frequent checks for understanding, such as annotation tasks, guided questions, and scaffolded writing opportunities, ensure students build skills progressively before moving into more complex AP-level tasks.

Reviewers also noted robust instructional resources, including modern and canonical literary works, engaging activities, and a digital suite that offers accessibility tools and ready-made classroom supports. Rigor is embedded throughout the curriculum, with exercises intentionally designed to mirror AP expectations and promote advanced literary analysis. While the text provides scaffolds for teachers and strong AP exam preparation, reviewers identified gaps in targeted supports for Emergent Bilingual (EB) and Dual Credit (DC) students, especially in areas requiring historical or sociopolitical literary criticism. Overall, the clarity of instruction, comprehensive guides, and ease of implementation make the program feasible for a wide range of instructors, though supplemental resources may be needed for diverse learner groups.

Teacher Feedback Summary:

The curriculum demonstrates strong alignment with both the College Board Course and Exam Description (CED) and the Texas Essential Knowledge and Skills (TEKS), providing comprehensive coverage of required themes, skills, and content expectations. While the program follows the College Board unit structure to ensure clarity and coherence, it also identifies TEKS that may require minimal teacher mapping for complete state alignment. Its thematic, student-friendly layout and logical instructional flow support readability and deeper understanding of complex concepts. Assessments—including AP-style multiple-choice items, source-based questions, and frequent formal writing tasks—are consistently aligned to core skills, helping educators monitor student progress effectively.

Students benefit from regular opportunities for primary source analysis, map-based exercises, and targeted skill practice included in every unit. The curriculum incorporates high-quality primary and secondary sources, along with supplemental materials such as maps, timelines, and comprehensive teacher supports. Rigor is embedded throughout the program, with activities designed to meet Texas standards for depth and complexity while fostering analytical and historical thinking. The materials emphasize inclusivity with diverse perspectives and varied activity types, and although academically thorough, they remain flexible enough for teachers to adjust pacing. A strong thematic and skills-based design, combined with multiple assessment formats, ensures students have numerous pathways to demonstrate mastery of course concepts.

The decision to select this publisher was largely influenced by the strength of its interactive and multimodal learning components, which support deeper comprehension of art history content. Features such as embedded pronunciation links, direct teacher feedback on student responses, and free, high-quality lesson plans contribute to a more engaging and accessible learning experience. The abundance of instructional resources, including an interactive textbook, flashcards, and audio-visual supports, offers students multiple pathways to connect with the material. These factors are expected to positively impact student outcomes by increasing comprehension, promoting independent study, and allowing learners to review content at their own pace.

The publisher also provides strong advantages for differentiation, offering layered resources suitable for emergent bilingual learners, gifted and talented students, and those who benefit from visual and auditory supports. Digital tools played a significant role in the selection decision because they increase efficiency in planning, align with digital-era expectations, and strengthen college-readiness through rigor-aligned activities.

Teacher Feedback Summary:

The final decision to select this publisher was driven by the district's familiarity with the McGraw Hill interface, the platform's seamless integration with Schoology, and the strong alignment to both AP and Dual Credit objectives. The consolidation of textbooks, virtual labs, and instructional tools into one digital location creates a cohesive learning environment, building on the success already seen in the physics department.
High-quality virtual labs, customizable text segments, and easy digital access ensure students can safely and repeatedly explore complex scientific concepts, ultimately supporting stronger content mastery and smoother instructional delivery.

The platform’s ability to support diverse learners was another key factor, offering differentiated instruction through multiple modalities, adaptive quizzes, text-to-speech tools, and teacher-driven scaffolding. Digital resources played a major role in the decision, as they increase engagement, reduce administrative burdens, and provide consistent access, even without physical textbooks. Teachers valued the comprehensive dashboard, pre-made assessments, virtual labs, and AP lab correlation guides, all of which enhance instructional efficiency. Students benefit from frequent, varied opportunities to demonstrate understanding through formal assessments, virtual labs, digital homework, and real-time adaptive feedback that personalizes learning and supports academic growth.

Teacher Feedback Summary:

The curriculum demonstrates strong alignment with TEKS and appropriate proficiency targets, supporting Novice High to Intermediate Low language development through well-scaffolded content and a steady introduction of 20–30 new characters per lesson. Its structure is logically organized and generally coherent, with pinyin support that gradually fades to encourage character recognition. While the material offers rich authentic resources, strong digital tools, and ample opportunities for interpretive, interpersonal, and presentational communication, there are some gaps in speaking rubrics and extended writing tasks. Frequent activities, workbook exercises, and multiple checkpoints help monitor understanding across communication modes, though certain transitions between sections and limited modeling may challenge learners at times.

The resource is accessible and feasible to implement across diverse instructional contexts, providing strong teacher supports, a user-friendly digital platform, and flexible pacing options. Its inclusivity features, such as predictable structures and gradual removal of pinyin, help accommodate learners at different proficiency levels, though reduced pinyin support in later chapters may pose difficulties for some students. While the curriculum maintains appropriate rigor and effectively builds foundational skills through copying, sentence frames, and guided writing, it offers fewer opportunities for creative or extended language production. Overall, the combination of authentic materials, digital tools, and structured language development supports consistent student progress within the target proficiency range.

Teacher Feedback Summary:

The decision to select this publisher was driven by its strong TEKS alignment, ease of navigation, and the inclusion of ALEKS, a powerful intervention and progress-monitoring system. ALEKS's interactive "pie" model helps identify learning gaps, supports targeted remediation, and allows students to track their own growth, factors that are expected to positively impact student outcomes by creating a more personalized and responsive learning experience. Additional digital tools, such as built-in PSAT and SAT practice and interactive discovery labs, further support college readiness and promote active engagement rather than passive learning.

The publisher also offers robust differentiation through its versatile ecosystem of modifiable discovery labs, interactive notebooks, varied assessments, and ALEKS-driven individualized learning pathways. These tools support emergent bilingual students, gifted learners, and struggling students alike by adjusting to individual needs. Teachers value the platform for its proven effectiveness with lower-level learners and its frequent opportunities for students to demonstrate understanding, supported by continuous knowledge checks and progress monitoring throughout each unit. Together, these features create a highly adaptive and data-driven instructional environment that empowers both teachers and students.

The final decision to select this publisher was driven by its blend of modern technology, particularly AI features and gaming elements, and strong instructional design through 3-Act tasks, all of which support a shift from passive to active learning. These features are expected to improve student outcomes by making content more engaging, interactive, and aligned with real problem-solving. The textbook also excels in differentiation, offering AI-driven adjustments in difficulty, modality, and method, while the Teacher Edition provides built-in scaffolds for struggling learners, enrichment for advanced students, and language supports aligned with ELPS for emergent bilinguals.

Digital tools played a major role in the selection process due to their high student appeal, including relatable videos and a gaming center with universally engaging elements such as a soundboard. Teachers also valued the user-friendly layout, which embeds suggestions and AI-supported guidance on every page to streamline planning and instruction. The decision to select this publisher was driven by its extensive collection of examples and practice materials, which support consistent skill development and strong student mastery. The curriculum's numerous interactive resources also create frequent opportunities for students to demonstrate understanding, even though teachers may experience an initial learning curve. Additionally, the publisher's comprehensive core materials, such as the student textbook, teacher's edition, and supplemental workbook, were instrumental in the final selection because they offer a complete instructional package that supports both teaching and learning.

The publisher provides strong differentiation support through features like a multilingual dictionary and interactive elements that help meet the needs of emergent bilingual learners, gifted students, and others requiring targeted assistance. Teacher Feedback Summary:

The primary reason for selecting this publisher was the textbook's step-by-step problem setup, which aligns closely with the teacher's established instructional approach and supports consistent modeling for students. The textbook also offers a strong range of practice problems and activities that provide frequent opportunities for students to demonstrate understanding. While the teacher's edition is well-organized and includes a high-quality test bank, some answer keys were noted as vague or occasionally inaccurate, requiring teacher attention.

In terms of differentiation, the curriculum's structured examples and varied problem levels provide strong support for a wide range of learners, offering clear pathways for both reinforcement and challenge. Teachers can further tailor assignments to better meet the needs of emergent bilingual and SPED students, enhancing personalization. While digital tools played a smaller role in the selection process, the combination of print and online resources still gives teachers multiple ways to deliver instruction. Overall, the resource offers significant instructional value, especially through its clear modeling and abundant practice opportunities that reinforce student understanding and promote consistent skill growth.

HB 3 Early Childhood Literacy and Mathematics Proficiency Plans

February 2026

§ 11.185. EARLY CHILDHOOD LITERACY AND MATHEMATICS PROFICIENCY PLANS.

(a) The board of trustees of each school district shall adopt and post on the district's Internet website early childhood literacy and mathematics proficiency plans that set specific annual goals for the following five school years to reach quantifiable goals for student performance in reading and mathematics at each campus.

In the event any such interference does not cease within 72 hours, the Parties acknowledge that continuing interference may cause irreparable injury and, therefore, the injured Party shall have the right, in addition to any other rights that it may have at law or in equity, to bring action to enjoin the interference.

7. TAXES. Lessee acknowledges that any taxes due and owing on the Facility or any of Lessee's equipment will not be the responsibility of Lessor and will be paid directly by Lessee. Lessee has the right, at its sole option and at its sole cost and expense, to appeal, challenge, or seek modification of any tax assessment or billing for which Lessee is wholly or partly responsible for payment. Lessor shall pay when due all real estate taxes and other taxes and all other fees and assessments attributable to the Property. If Lessor fails to pay when due any taxes affecting the Property, Premises or any related easement, Lessee has the right but not the obligation to pay such taxes and deduct the full amount of the taxes paid by Lessee on Lessor's behalf from future installments of Rent. Any taxes directly assessed on the Facility or any of Lessee's equipment will be either paid to the taxing authority directly or reimbursed to Lessor within thirty (30) days of receiving the assessment and proof of payment from Lessor.

8. APPLICABLE LAWS. During the Term, Lessor will maintain the Property in compliance with all applicable laws, rules, regulations, ordinances, directives, covenants, easements, zoning, and land use regulations, and restrictions of record, permits, building codes, and the requirements of any applicable fire insurance underwriter or rating bureau, now in effect or which may hereafter come into effect (including, without limitation, the Americans with Disabilities Act and laws regulating hazardous substances) (collectively "Laws") except as to conditions created by Lessee. Lessee shall, in respect to the condition of the Premises and at Lessee's sole cost and expense, comply with (a) all Laws relating solely

to Lessee's specific and unique nature of use of the Premises; and (b) all building codes requiring modifications to the Premises due to the improvements being made by Lessee on the Premises.

9. ACCESS AND UTILITIES.

a. Lessor, its successors and assigns, grants and conveys to Lessee, its customers, employees, agents, invitees, successors, and assigns a nonexclusive easement for ingress and egress, as well as for the construction, installation, operation, and maintenance of overhead and underground electric and other utility facilities (including wires, poles, guys, cables, conduits and appurtenant equipment), with the right to reconstruct, improve, add to, enlarge, change, and remove such facilities, over, across, and through any easement for the benefit of and access to the Premises, subject to the terms and conditions set forth herein. The rights granted to Lessee herein shall also include the right to partially assign its rights hereunder to any public or private utility company or authority to facilitate the uses contemplated herein, and all other rights and privileges reasonably necessary for Lessee's safe and efficient use and enjoyment of the easement for the purposes described above (collectively, the "'**Easements**"). The Easements provided hereunder shall have the same term as this Lease.

b. Lessor will maintain access to the Premises in a free and open condition so that no interference is caused to Lessee by Lessor or lessees, licensees, invitees or agents of Lessor. In the event that Lessee's or any sublessee's or sublicensee's access to the Premises is impeded or denied by Lessor or Lessor's lessee's licensees, invitees, or agents without waiving any other rights that it may have at law or in equity, Lessee may it its sole discretion deduct from Rent due under this Lease an amount equal to $100.00 per day that such access is impeded or denied.

c. Lessee will have the right to install utilities, at Lessee's expense, and to improve present utilities on the Property and the Premises. Lessee will have the right to permanently place utilities on (or bring utilities across or under) the Premises to service the Facility.

d. If utilities necessary to serve the equipment of Lessee or the equipment of any sublessee or sublicensee cannot be located within the Premises, Lessor agrees to allow the installation of utilities on the Property or other real Property owned by Lessor without requiring additional compensation from Lessee or any sublessee or sublicensee. Lessor will, upon Lessee's request, execute a separate recordable written Easement or lease to the utility company providing such service evidencing this right.

e. If the Premises loses access to a public right of way during the Term, Lessor and Lessee will amend this Lease, at no imposed cost to either Party, to provide access to a public way by :(i) amending the location of the Easement; or (ii) granting an additional easement to Lessee.

f. To the extent damage (including wear and tear caused by normal usage) to the Easement or any other route contemplated hereunder (including access roads installed by Lessee) intended to provide Lessee with access to the Premises and the Facility is caused by Lessor or Lessor's tenants, licensees, invitees, or agents, Lessor will repair the damage at its own expense.

10. EQUIPMENT, FIXTURES, AND SIGNS. All improvements, equipment, or other property attached to or otherwise brought onto the Premises will always be the personal property of Lessee or its sublessee and licensees. Lessee or its subtenants and licensees have the right to erect, install, maintain, and operate

on the Premises such equipment, structures, fixtures, signs, and personal property as Lessee may deem necessary or appropriate, and such property, including the equipment, structures, fixtures, signs and personal property currently on the Premises, will not be deemed to be part of the Premises, but will remain the property of Lessee or its subtenants and licensees. At any time during the Term and within a reasonable time after termination hereof, Lessee or its subtenants and licensees have the right, but not the obligation, to remove their equipment, structures, fixtures, signs and personal property from the Premises. Upon termination or expiration of this Lease, Lessee may remove the Facility and any of its property located upon the Premises, excepting the foundation, and restore the Premises to substantially the condition existing on the Effective Date, except for ordinary wear and tear and casualty loss.

11. ASSIGNMENT AND SUBLEASE. Lessee may assign this Lease and the Easements granted herein to any person or entity at any time without the prior written consent of Lessor. Upon assignment by Lessee, Lessee will be relieved of all liability hereunder and Lessor will look to assignee for fulfillment of Lessee's obligations. Lessee may sublease or grant licenses to use the Premises and the Facility or any structure or equipment on the Premises without the prior written consent of the Lessor, but no such sublease or license shall relieve or release Lessee from its obligations under the Lease. Lessor may assign this Lease, in its entirety to any person or entity who acquires fee title to the Premises, provided that such assignment complies with the requirements of Sections 17 and 25 herein. Upon assignment by Lessor, Lessor will be relieved of all liability hereunder and Lessee will look to assignee for fulfillment of Lessor's obligations. Except for the foregoing, assignment of this Lease by Lessor must be approved by Lessee, with such approval being granted or withheld in Lessee's sole discretion.

12. TERMINATION. Notwithstanding any other termination rights available to Lessee under this Lease, Lessee, in its sole and absolute discretion, has the right to terminate this Lease with ninety (90) days prior written notice to Lessor.

13. WARRANTIES AND REPRESENTATIONS.

a. Lessor warrants and represents that it is the owner in fee simple of the Property, free and clear of all liens and encumbrances except as to those which may have been disclosed to Lessee, in writing prior to the execution hereof, and that it alone has full right to lease the Premises for the term set out herein.

b. Lessor represents and warrants that it will pay all taxes and assessments against the Premises when due and avoid any delinquencies with respect thereto and protect and indemnify Lessee for any lack of such payment. Lessor also represents and warrants that it will pay promptly, when due, any other amounts or sums due and owing with respect to its ownership and operation of the Premises, including, without limitation, judgments, liens, mortgage payments and other similar encumbrances. If Lessor fails to make any payments required under this Lease, such as the payment of taxes and assessments, or breaches any other obligation or covenant under this Lease, Lessee may (without obligation), after providing ten (10) days written notice to Lessor, make such payment or perform such obligation on behalf of Lessor. The full amount of any costs so incurred by Lessee (including any attorneys' fees incurred in connection with Lessee performing such obligation) will be paid by Lessor to Lessee with interest at the rate of nine percent (9%) per annum thereon within thirty (30) days of Lessor's receipt of an invoice for such costs.

c. Lessor represents and warrants it will cooperate with Lessee in any effort by Lessee to obtain any Governmental Approvals and agrees to execute any necessary applications, consents or other documents as may be reasonably necessary for Lessee to apply for and obtain such Governmental Approvals required to use and maintain the Premises and the Facility.

d. Lessor represents and warrants that it will not do anything that will interfere with or negate any special use permit or approval pertaining to the Premises or cause the Facility to be in nonconformance with applicable local, state, or federal laws.

e. Lessor represents and warrants that it has complied with all, and will continue to comply with environmental, health, and safety laws with respect to the Property, and to the best of Lessor's knowledge, no action, suit, proceeding, hearing, investigation, charge, complaint, claim, demand, or notice has been filed or commenced, or received by Lessor regarding the Property alleging any failure to comply. Without limiting the generality of the preceding sentence, to the best of Lessor's knowledge, Lessor and the Property are in compliance with all environmental, health, and safety laws. No asbestos-containing thermal insulation or products containing PCB, formaldehyde, chlordane, heptachlor or other hazardous substances, materials, or wastes have been placed, stored, disposed, or discharged on, under or about the Property by Lessor or, to the knowledge of Lessor, by any prior owner or user of the Property, or any other person. To the knowledge of Lessor, there has been no release of or contamination by hazardous materials, substances or wastes on the Premises (collectively, "**Hazardous Materials**"). Lessor represents and warrants that Lessee is not liable for any hazardous materials, substances, or wastes located on, under, or about the Property prior to Lessee's occupancy of the Premises, and Lessee is not liable for any violation of environmental law related to the Premises occurring or existing prior to Lessee's occupancy of the Premises.

f. Lessor represents and warrants all utilities required for the operation of the Facility and Lessee's improvements enter the Premises through adjoining public streets or, if they pass through an adjoining private tract, do so in accordance with valid public easements. All utilities are installed and operating, and all installation and connection charges have been paid in full.

g. Lessor represents and warrants it has no knowledge of any fact or condition that could result in the termination or reduction of the current access from the Premises to existing highways and roads, or to sewer or other utility services serving the Premises.

h. Lessor represents and warrants the Premises abuts on and has direct vehicular access to a public road or has access to a public road via a permanent, irrevocable, appurtenant easement benefiting the parcel of real property, and access to the Property is provided by paved public right-of-way with adequate curb cuts available.

i. Lessor represents and warrants, with respect to the Premises, except as disclosed in writing to Lessee prior to the execution hereof: there currently exist no licenses, sublicenses, or other agreements, written or oral, granting to any party or parties the right of use or occupancy of any portion of the Premises; there are no outstanding options or rights of first refusal to purchase the Property or any portion thereof or interest therein; and there are no parties (other than Lessor) in possession of the Premises.

14. INDEMNITY. Each Party shall indemnify and hold the other harmless from and against any claim of liability or loss from personal bodily injury or property damage resulting from or arising out of (i) the gross negligence or willful misconduct in the operations or activities on the Property of the indemnifying Party, its employees, contractors, or agents during the Term of this Lease, except to the extent such claims or damages may be due to or caused by the gross negligence or willful misconduct of the other Party, or its employees, contractors, or agents; or (ii) any material breach of any obligation, covenants, representations, or warranties contained in this Lease. This indemnity and hold harmless agreement includes indemnity against all reasonable costs, expenses, and liabilities incurred in or in connection with any such claim, and defense thereof, including reasonable attorneys' fees. The indemnifying Party's obligations under this section are contingent upon its receiving prompt written notice of any event giving rise to an obligation to indemnify the other Party and the indemnified Party's granting it the right to control the defense and settlement of the same. In no event will the indemnifying Party be authorized to agree to a settlement or defense that admits liability or creates an obligation on behalf the indemnified Party without prior written consent.

15. WAIVER AND RELEASE. Lessor hereby waives any and all lien rights it may have, statutory or otherwise, in and to the Facility or any portion thereof, regardless of whether or not such is deemed real or personal property under applicable laws. Neither Party will assert any claim whatsoever against the other for loss of anticipatory profits or any other indirect, special, incidental or consequential damages incurred as a result of the construction, maintenance, operation or use of the Premises and Facility by Lessee.

16. INSURANCE.

a. During the Term of this Lease, Lessee shall maintain Commercial General Liability Insurance in amounts of One Million and no/100 Dollars ($1,000,000.00) per occurrence and Two Million and no/100 Dollars ($2,000,000.00) aggregate. Lessee may satisfy this requirement by obtaining the appropriate endorsement to any master policy of liability insurance Lessee may maintain. All insurance policies required to be maintained by Lessee hereunder shall be with responsible insurance companies, authorized to do business in the state where the Premises are located if required by law, and shall provide for cancellation only upon 10 days' prior written notice to Lessor. Lessee shall evidence such insurance coverage by delivering to Lessor, if requested, a copy of all such policies or, at Lessee's option, certificates in lieu thereof issued by the insurance companies underwriting such risks.

b. Lessor shall carry, at no cost to Lessee, general property fire, hazard, and casualty insurance appropriate for Lessor's improvements on Lessor's Property, and in such amounts to cause the replacement or restoration of the Property (excluding Lessee's improvements and personal property) in the event of casualty.

c. Lessor and Lessee hereby mutually release each other (and their successors or assigns) from liability and waive all right of recovery against the other for any loss or damage covered by their respective first party property insurance policies for all perils insured thereunder. ln the event of such insured loss, neither Party's insurance company shall have a subrogated claim against the other.

d. Notwithstanding anything to the contrary in this Lease, the Parties hereby confirm that the provisions of this Section 17 shall survive the expiration or termination of this Lease.

e. Lessee shall not be responsible to Lessor, or any third-party, for any claims, costs or damages (including, fines and penalties) attributable to any pre-existing violations of applicable codes, statutes or other regulations governing the Property.

17. RIGHT OF FIRST REFUSAL. [RIGHT OF FIRST REFUSAL – OFFER TO PURCHASE REAL ESTATE] - If after the Effective Date of this Lease, Lessor receives a bona fide arm's length offer (including a letter of intent or memorandum of understanding), that Lessor is willing to accept, from any third party to purchase (in whole or in part) (i) Lessor's interest under this Lease; (ii) Lessor's rights to receive rents under the terms of this Lease; (iii) the Premises, or to purchase an easement or any other interest in the land underneath the Premises or underneath areas of access and or utility service to the Premises, (the "Purchase Offer"), Lessor shall serve a notice (the "Transfer Notice") upon Lessee. The foregoing rights, interest, and property described in (i), (ii), and (iii), herein shall collectively be referred to as the "Interest". The Transfer Notice shall set forth the exact terms of the Purchase Offer so received, together with a copy of such Purchase Offer, and shall state Lessor's desire to sell the Interest on such terms and conditions. Thereafter, Lessee shall have the right of first refusal ("Right of First Refusal") and option to so lease or purchase the same. If Lessee desires to exercise its option to purchase the Interest, it shall give notice (the "Counter Notice") to Lessor within ninety (90) days after receipt of the Transfer Notice by Lessee. The closing of the purchase and sale of the Interest pursuant to this option shall occur at the time set forth in the Purchase Offer, provided that Lessee shall not be required to close before the thirtieth (30^{th}) day following the date of Lessor's receipt of the Counter Notice. Lessee's failure to give a timely Counter Notice (or its notice of refusal to purchase) shall be deemed a waiver of its rights to exercise its Right of First Refusal to accept the Offer but shall not be deemed a waiver of its Right of First Refusal with respect to any modification to the Purchase Offer or future Purchase Offers.

18. OPTION TO PURCHASE. Lessee may purchase the Premises (including any easement(s)) at any time during the Term upon ninety (90) days prior written notice to Lessor, and the purchase price for the Premises will be fourteen (14) times the then-current annual Rent. This option to purchase will expire upon the termination or expiration of this Lease.

19. FORCE MAJEURE. The time for performance by Lessor or Lessee of any term, provision, or covenant of this Lease shall be deemed extended by time lost due to delays resulting from acts of God, strikes, civil riots, floods, pandemics, material or labor restrictions by governmental authority, and any other cause not within the control of Lessor or Lessee, as the case may be ("Force Majeure Event"). In no event will Lessee be in default for non-payment of Rent pursuant to this Agreement if Lessee cannot access the Premises for a period of more than fifteen (15) days due to a Force Majeure Event. Rent for the applicable month will be prorated based on the duration of the Force Majeure Event.

20. CONDEMNATION AND CASUALTY.

a. Notwithstanding any provision of the Lease to the contrary, in the event of condemnation of the Premises, the Lessor and Lessee may be entitled to separate awards with respect to the Premises, in the amount determined by the court conducting such condemnation proceedings based upon the Lessor's and Lessee's respective interests in the Premises. If a separate condemnation award is not determined by such court, Lessor may permit Lessee to participate in the allocation and distribution of the award. In no event shall the condemnation award to Lessor exceed the unimproved value of the

Premises, without taking into account the improvements located thereon, and in no event may the Lease be terminated or modified (other than an abatement of rent) due to a casualty or condemnation without the prior written consent of Lessee.

b. In case of damage to the Property or the Premises by fire or other casualty, Lessor shall, at its expense, cause such damage to be repaired to a condition as nearly as practicable to that existing prior to the damage and otherwise consistent with applicable law, with reasonable speed and diligence, but subject to delays which may arise by reason of adjustment of loss under insurance policies, applicable law, and beyond the reasonable control of Lessor, including force majeure. Lessor will not, however, be obligated to repair, restore, or rebuild any of Lessee's personal property. Lessor will not be liable for any inconvenience or annoyance to Lessee or injury to Lessee's business resulting in any way from such casualty or the repair thereof consistent with the terms of this Lease provided, to the extent and for the time that the Property or the Premises are hereby rendered unusable for the Permitted Use, the Rent will proportionately abate. Notwithstanding the foregoing, if (i) the damage involves the Property generally and is so extensive that Lessor decides not to repair the Property; (ii) the casualty shall not be of a type insured against under standard policies with extended type coverage; (iii) the holder or any mortgage, deed of trust, or similar security interest encumbering the Property shall not permit the application of adequate insurance proceeds for repair or restoration, the Lease will, at the option of Lessor, exercisable by written notice to Lessee given within twenty (20) days after the Lessor is notified or otherwise becomes aware of the occurrence of the casualty, be terminated as of the date of such casualty, and the Rent (taking into account any abatement aforesaid), shall be adjusted to the terminate date and Lessee will promptly vacate the Premises consistent with the terms of this Lease. Notwithstanding the foregoing, Lessee will be permitted to terminate this Lease if the Premises has been rendered unusable for the Permitted Use, and (i) Lessor's estimated period for completion of the repair and restoration of the Property as required under this Lease exceeds thirty (30) days from the date of the casualty (Lessor delivering such estimate to Lessee within twenty (20) days after the casualty), or (ii) Lessor does not complete such restoration within thirty (30) days from the date of such casualty (by giving Lessor two (2) days' notice at the expiration of such thirty (30) day period).

21. DEFAULT.

a. In the event there is a material breach by a Party with respect to any of the provisions of this Lease or its obligations under it, the non-breaching Party shall give the breaching Party written notice of such breach.

b. After receipt of such written notice, the breaching Party shall have thirty (30) days in which to cure any breach, provided the breaching Party shall have such period extended as may be required beyond the thirty (30) days if the breaching Party commences the cure within the thirty (30) day period and thereafter continuously and diligently pursues the cure to completion.

c. The non-breaching Party may not maintain any action or effect any remedies for default against the breaching Party unless and until the breaching Party has failed to cure the breach within the time periods provided in this paragraph.

22. REMEDIES.

a. In the event of a default by either Party with respect to a material provision of this Lease, without limiting the non-defaulting Party in the exercise of any right or remedy which the non-defaulting Party may have by reason of such default, the non-defaulting Party may terminate the Lease and pursue any remedy now or hereafter available to the non-defaulting Party under the laws or judicial decisions of the state in which the Premises are located including any equitable remedies that may be available.

b. Further, upon a default, the non-defaulting Party may at its option (but without obligation to do so), perform the defaulting Party's duty or obligation on the defaulting Party's behalf. The costs and expenses of any such enforcement action by the non-defaulting Party shall be due and payable by the defaulting Party upon invoice therefore.

23. DISPUTE RESOLUTION. All controversies and claims arising under or relating to this Lease are to be resolved by binding arbitration in accordance with the expedited rules of the American Arbitration Association. The arbitration is to be conducted in the state where the Premises is located. Each Party shall submit to any court of competent jurisdiction for purposes of the enforcement of any award, order or judgment. Any award, order or judgment pursuant to the arbitration is final and may be entered and enforced in any court of competent jurisdiction.

24. PRIOR AGREEMENTS. The Parties hereby covenant, recognize, and agree that the terms and provisions of this Lease shall constitute the sole embodiment of the arrangement between the Parties with regard to the Premises, and that all other written or unwritten agreements, contracts, or leases by and between the Parties with regard to the Premises are hereby terminated, superseded, and replaced by the terms hereof.

25. LENDER'S CONTINUATION RIGHTS. During the term of this Lease, Lessor covenants and agrees that it will not grant, create, or suffer any claim, lien, encumbrance, easement, restriction, or other charge or exception to title to the Premises (each, an "Encumbrance") without the prior written consent of Lessee; provided, however, that it is expressly agreed and understood that Lessor may subject its interest in the Premises to a first mortgage lien if its lender shall agree for itself and its successors and assigns, by written instrument in form and substance reasonably satisfactory to Lessee: (1) to be bound by the terms of this Lease; (2) not to disturb Lessee's or its subtenants' or licensees' use or possession of the Premises in the event of a foreclosure of such lien or encumbrance so long as Lessee is not in default hereunder; and (3) not to join Lessee or its subtenants or licensees as a party defendant in any such foreclosure proceeding that may be commenced. With regard to any existing Encumbrance, Lessor covenants and agrees that, upon the request of Lessee, it shall use its best efforts to cause the holder thereof to execute a customary Subordination Non-disturbance and Attornment Agreement providing to Lessee the rights afforded to Lessee above with regard to future first mortgage liens. For any Encumbrance existing prior to the Effective Date, Lessor covenants and agrees that, upon the request of Lessee, it shall use its best efforts to cause the holder thereof to (i) execute a customary Subordination Non-disturbance and Attornment Agreement providing to Lessee the rights afforded to Lessee above with regard to existing mortgage liens; and (ii) if required, provide its consent in accordance with the underlying Encumbrance.

26. NOTICES. All notices, requests, claims, demands, and other communications hereunder shall be in writing and may be hand delivered (provided the deliverer provides proof of delivery) or sent by nationally established overnight courier that provides proof of delivery, or certified or registered mail (postage prepaid, return receipt requested). Notice shall be deemed received on the date of delivery as demonstrated by the receipt of delivery. Except with Lessor's attorney, accountant, lender, a prospective fee simple purchaser of the Property, or if otherwise required by law, Lessor shall not disclose any such terms or information without the prior written consent of Lessee. The terms and provisions of this Section shall survive the execution and delivery of this Lease.

28. SEVERABILITY. If any provision of this Lease is determined to be invalid, illegal or unenforceable, the remaining provisions of this Lease shall remain in full force and effect provided the essential terms of this Lease for each Party remain valid, binding, and enforceable.

f. Each Party agrees to furnish to the other, within 30 days after request, such estoppel information as the other may reasonably request.

g. Any questions of particular interpretation shall not be interpreted against the drafter, but rather in accordance with the fair meaning thereof. The Parties understand and acknowledge that Exhibits A and B may be attached to this Lease and the Memorandum of Lease, in preliminary form. Accordingly, the parties agree that upon the preparation of final, more complete exhibits, Exhibits A and/or B, as the case may be, may be replaced by Tenant with such final, more complete exhibit(s).
