INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
Medina Valley Independent School District
Castroville, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Medina Valley Independent School District, as of and for the year ended August 31, 2021, and the related notes to the financial statements, which collectively comprise the Medina Valley Independent School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Medina Valley Independent School District, as of August 31, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual – General Fund, Schedule of the District's Proportionate Share of the Net Pension Liability, Schedule of the District's Contributions for Pensions, Schedule of the District's Proportionate Share of the Net OPEB Liability, and Schedule of the District's Contributions for Other Post-Employment Benefits on pages 7-13 and 55-61 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Medina Valley Independent School District's basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The Texas Education Agency requires School Districts to include certain information in the Annual Financial and Compliance Report in conformity with laws and regulations of the State of Texas. This information is in exhibits identified in the Table of Contents as J-1 through J-4. These schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 17, 2021 on our consideration of the Medina Valley Independent School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Medina Valley Independent School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Medina Valley Independent School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The annual financial report of Medina Valley Independent School District (the District) is presented in six sections, Management's Discussion and Analysis (this part), Basic Financial Statements, Required Supplementary Information, Combining and Other Statements, T.E.A. Required Schedules, and a federal section. This section of the District's annual financial report presents our discussion and analysis of the financial performance during the fiscal year ending August 31, 2021. Please read it in conjunction with the District's financial section, which follows.

Overview of the Basic Financial Statements

The basic financial statements include two kinds of statements that present different views of the District:

- * The first two statements are *government-wide financial statements* that provide both *long-term* and *short-term* information about the District's *overall* financial status.
- * The remaining statements are *fund financial statements* that focus on *individual parts* of the government, reporting the District's operations in *more detail* than the government-wide statements.
 - * The *governmental funds* statements tell how *general government* services were financed in the *short term* as well as what remains for future spending.
 - * *Proprietary fund* statements offer *short-* and *long-term* financial information about the activities the government operates on a cost reimbursement basis, such as self-insurance.
 - * *Fiduciary fund* statements provide information about the financial relationships in which the District acts solely as a *trustee or agent* for the benefit of others, to whom the resources in question belong.

The financial statements also include *notes* that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the information in the financial statements.

Government-Wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes *all* of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's *net position* and how they have changed. Net position—the difference between the District's assets, deferred inflows, and liabilities, and deferred inflows is one way to measure the District's financial health or *position*.

- * Over time, increases or decreases in the District's net position are an indicator of whether its financial health is improving or deteriorating, respectively.
- * To assess the overall health of the District, you need to consider additional nonfinancial factors, such as changes in the District's tax base and student enrollment.

The government-wide financial statements of the District include the *Governmental activities*. Most of the District's basic services are included here, such as instruction, extracurricular activities, curriculum and staff development, health services, and general administration. Property taxes and grants finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant *funds* not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes.

- * Some funds are required by State law and by bond covenants.
- * The Board of Trustees establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The District has three kinds of funds:

- * *Governmental funds* - Most of the District's basic services are included in governmental funds, which focus on (1) how *cash and other financial assets* that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed *short-term* view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, then explain the relationship (or differences) between them.
- * *Proprietary fund* - Services for which the District charges customers a fee is generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long- and short-term financial information.

We use *internal service funds* to report activities that provide supplies and services for the District's other programs and activities—such as the District's Self Insurance Fund.
- * *Fiduciary fund* - The District is the custodian, or *fiduciary*, for certain funds. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position. We exclude these activities from the District's government-wide financial statements because the District cannot use these assets to finance its operations.

Governmental Funds

Financial Highlights

At the close of the fiscal year ending August 31, 2021, the District's governmental funds reported a combined fund balance of \$75,056,552. This compares to a combined fund balance of \$46,453,200 at August 31, 2020. The significant increase is due to the issuance of new bonds of \$39,255,000. The General Fund increased \$2,794,559 as revenues were above original projections and expenditures were below original projections. The Debt Service Fund increased \$1,475,879 as the property values increased.

Budgetary Highlights

In accordance with State law and generally accepted accounting standards, the District prepares an annual budget for the general fund, the food service special revenue fund, and the debt service fund. Special revenue funds have budgets approved by the funding agency and are amended throughout the year as required.

During the period ended August 31, 2021, the District amended its budget as required by State law and to reflect current levels of revenue and anticipated expenses. The General Fund budgeted revenues increased from an adopted budget amount of \$53,644,143 to the final amended budget amount of \$55,833,815. The General Fund's actual revenues were \$57,149,148. The General Fund appropriations were less than the original budget by \$755,832, but budget amendments were board approved throughout the year.

Economic Factors and Next Year's Budgets and Rates

The District's elected and appointed officials considered many factors when setting the fiscal year 2021-2022 budget and corresponding tax rates. One significant factor that came into play for the 2021-2022 budget was the opening of our fifth elementary. There is always a loss of efficiencies when opening a new campus as most of the support staff are new positions in the budget, but you also lose efficiencies with your classroom teacher positions. The school board and administration continue to stress the importance of maintaining competitive salaries in our region by continuing to reward district staff through increases in salary. The estimated increase in total revenue from the 2020-2021 adopted budget is approximately \$8,043,733. The prior year revenues were budgeted very conservatively based on many unknowns following the Covid-19 pandemic. The 2021-2022 budget increased by \$4,538,728 over last year's end of year actual revenues.

Competition for quality staff, student enrollment growth, and property valuations continue to be key factors in the development of the district's budget. Employee pay increases and increase in benefits continues to be a priority for the district, which was an estimated cost of \$1,326,935.

The district adopted a General Fund budget with Revenues and Appropriations of \$61,687,876 for a balanced budget. The Food Service Fund was adopted with Revenues of \$5,011,087 and Appropriations of \$4,488,351 for a surplus budget of \$522,736. The Debt Service Fund was adopted with Revenues and Appropriations of \$13,182,853 for a balanced budget.

The following factors were considered in establishing the District's budget for 2021-2022:

- * For 2021-2022, the District's General Fund maintenance and operations tax rate increased by \$.0007 to \$.8720 and the district's Debt Service tax rate will decrease to \$.47219. The district's total tax rate is \$1.34419, the same as it was for the 2020-2021 fiscal year.
- * The District's 2021-2022 General Fund budget included a projected enrollment increase of 865 students or 14.1% over the previous year's enrollment. The District's demographer has the district growing by more than 10% over the next 4 years.

- * The District's net taxable value used for the 2021-2022 budget preparation increased approximately 19% from the previous year. Despite Covid 19 the district is in the top five in new housing starts and closings for our region. The district currently has over 25,000 future lots for development.
- * The district added 74 new positions for the 2021-2022 fiscal year, at an estimated cost of \$3,346,000.
- * The District will be monitoring student attendance as this continues to be a concern with Covid-19.

 RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE
 STATEMENT OF NET POSITION
 AUGUST 31, 2021

EXHIBIT C-2

Total Fund Balances - Governmental Funds	\$	75,056,552
1 The District uses internal service funds to charge the costs of self-insurance to appropriate functions in other funds. The assets and liabilities of the internal service fund are included in governmental activities in the statement of net position. The net effect of this consolidation is to increase net position.		663,814
2 Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds. At the beginning of the year, the cost of these assets was \$210,289,281, and the accumulated depreciation was \$(49,687,399). In addition, long-term liabilities, including bonds payable of \$(156,207,932), are not due and payable in the current period, and therefore are not reported as liabilities in the funds. The net effect of including the beginning balances for capital assets (net of depreciation) and long-term debt in the governmental activities is to increase net position.		4,393,950
3 Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of including the 2021 capital outlays of \$18,424,643 and bond debt principal payments of \$4,845,000 is to increase net position.		23,269,643
4 The 2021 depreciation expense increases accumulated depreciation. The net effect of the current year's depreciation is to decrease net position.		(5,051,173)
5 Included in the items related to debt is the recognition of the District's proportionate share of the net pension liability required by GASB 68 in the amount of \$(15,491,763), a deferred resource inflow of \$(2,557,733), and a deferred resource outflow of \$6,834,445. The net effect of this recognition is to decrease net position.		(11,215,051)
6 Included in the items related to debt is the recognition of the District's proportionate share of the net OPEB liability required by GASB 75 in the amount of \$(16,304,277), a deferred resource inflow of \$(11,938,910), and a deferred resource outflow of \$7,123,889. The net effect of this recognition is to decrease net position.		(21,119,298)
7 Various other reclassifications and recognitions are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing unavailable taxes receivable of \$1,361,705 as revenue, and recognizing the liabilities associated with maturing long-term debt interest of \$(282,410). Also, recognizing accreted interest on capital appreciation bonds of \$(1,074,959), bond issuance premium of \$(17,227,805), accumulated local leave of \$(157,983), financing lease of \$(241,680), and bond proceeds of \$(39,255,000). The net effect of these reclassifications and recognitions is to decrease net position.		(56,878,132)

MEDINA VALLEY INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2021

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Medina Valley Independent School District (the “District”) is a public educational agency operating under the applicable laws and regulations of the State of Texas. It is governed by a seven-member Board of Trustees (the “Board”) elected by registered voters of the District. The District prepares its basic financial statements in conformity with Generally Accepted Accounting Principles (GAAP) promulgated by the Governmental Accounting Standards Board (GASB) and other authoritative sources identified in *GASB Statement No. 76*; and it complies with the requirements of the appropriate version of Texas Education Agency’s *Financial Accountability System Resource Guide* (the “Resource Guide”) and the requirements of contracts and grants of agencies from which it receives funds.

Pensions. The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities, and additions to/deductions from TRS’s fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Post-Employment Benefits. The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resource measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care’s fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

Fair Value. Medina Valley Independent School District applies Government Accounting Standards Board (GASB) Statement No. 72, Fair Value Measurement and Application. GASB Statement No. 72 provides guidance for determining fair value measurement for reporting purposes and applying fair value to certain investments and disclosures related to all fair value measurements.

A. REPORTING ENTITY

The Board of Trustees (the “Board”) is elected by the public and it has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. Therefore, the District is a financial reporting entity as defined by the Governmental Accounting Standards Board (GASB) in its Statement No. 14, “The Financial Reporting Entity.” There are no component units included within the reporting entity.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The Statement of Net Position and the Statement of Activities are government-wide financial statements. They report information on all of the Medina Valley Independent School District nonfiduciary activities with most of the interfund activities removed. *Governmental activities* include programs supported primarily by taxes, state foundation funds, grants, and other intergovernmental revenues.

The Statement of Activities demonstrates how other people or entities that participate in programs the District operates have shared in the payment of the direct costs. The “charges for services” column includes payments made by parties that purchase, use, or directly benefit from, goods or services provided by a given function or segment of the District. Examples include tuition paid by students not residing in the district, school lunch charges, etc. The “grants and contributions” column includes amounts paid by organizations outside the District to help meet the operational or capital requirements of a given function. Examples include grants under the Elementary and Secondary Education Act. If a revenue is not a program revenue, it is a general revenue used to support all of the District’s functions. Taxes are always general revenues.

Interfund activities between governmental funds and proprietary funds appear as due to/due froms on the Governmental Fund Balance Sheet and the Proprietary Fund Statement of Net Position and as other resources and other uses on the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balance and on the Proprietary Fund Statement of Revenues, Expenses and Changes in Fund Net Position. All interfund transactions between governmental funds and between governmental funds and internal service funds are eliminated on the government-wide statements. Interfund activities between governmental funds and fiduciary funds remain as due to/due froms on the government-wide Statement of Net Position.

The fund financial statements provide reports on the financial condition and results of operations for three fund categories - governmental, proprietary, and fiduciary. Since the resources in the fiduciary funds cannot be used for District operations, they are not included in government-wide statements. The District considers some governmental funds major and reports their financial condition and results of operations in a separate column.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses result from providing services and producing and delivering goods in connection with a proprietary fund’s principal ongoing operations. All other revenues and expenses are nonoperating.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting, as do the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities, and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest and principal on long-term debt, which is recognized when due. The District considers all revenues available if they are collectible within 60 days after year end.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the “susceptible to accrual” concept, that is, when they are both measurable and available. The District considers them “available” if they will be collected within 60 days of the end of the fiscal year. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as unearned revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors may require the District to refund all or part of the unused amount.

The Proprietary Fund Types and Fiduciary Funds are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the fund Statement of Net Position. The fund equity is segregated into net investment in capital assets, restricted net position, and unrestricted net position.

D. FUND ACCOUNTING

The District reports the following major governmental funds:

1. **The General Fund** - The general fund is the District’s primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.
2. **Debt Service Fund** - The District accounts for resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds in a debt service fund.
3. **Capital Projects Fund** - The proceeds from long-term debt financing and revenues and expenditures related to authorized construction and other capital asset acquisitions are accounted for in a capital projects fund.

Additionally, the District reports the following fund type(s):

Non-major Governmental Funds:

1. **Special Revenue Funds** - The District accounts for resources restricted to, or designated for, specific purposes by the District or a grantor in a special revenue fund. Most Federal and some State financial assistance is accounted for in a Special Revenue Fund, and sometimes unused balances must be returned to the grantor at the close of specified project periods.

Proprietary Funds:

2. **Internal Service Funds** - Revenues and expenses related to services provided to organizations inside the District on a cost reimbursement basis are accounted for in an internal service fund. The District’s Internal Service Fund is the Workers’ Compensation fund.

Fiduciary Funds:

3. **Custodial Funds** - The District accounts for resources held for others in a custodial capacity in custodial funds. The District’s Custodial Fund is the Student Activity Account.

E. FUND BALANCE POLICY

The Medina Valley Independent School District reports fund balance for governmental funds in classifications based primarily on the extent to which the district is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The **nonspendable** classification represents assets that will be consumed or “must be maintained intact” and therefore will never convert to cash, such as inventories of supplies. Provisions of laws, contracts, and grants specify how fund resources can be used in the **restricted** classification. The nature of these two classifications precludes a need for a policy from the Board of Trustees. However, the Board has adopted fund balance policies for the three unrestricted classifications – committed, assigned, and unassigned.

From time to time, the Board of Trustees may commit fund balances by a majority vote in a scheduled meeting. The Board’s commitment may be modified or rescinded by a majority vote in a scheduled meeting. Board commitments cannot exceed the amount of fund balance that is greater than the sum of nonspendable and restricted fund balances since that practice would commit funds that the district does not have. Commitments may be for facility expansion or renovation, program modifications, wage and salary adjustments, financial cushions, and other purposes determined by the Board.

The Board of Trustees may delegate authority to specified persons or groups to make assignments of certain fund balances by a majority vote in a scheduled meeting. The Board may modify or rescind its delegation of authority by the same action. The authority to make assignments shall be in effect until modified or rescinded by the Board by majority vote in a scheduled meeting. The Board has delegated this authority to the Superintendent or Assistant Superintendent for Business and Operations.

When the District incurs expenditures that can be made from either restricted or unrestricted balances, the expenditures should be charged to restricted balances. When the District incurs expenditures that can be made from either committed, assigned, or unassigned balances, the expenditures should be charged in the same order.

F. OTHER ACCOUNTING POLICIES

1. The District reports inventories of supplies at cost including consumable custodial, maintenance, instructional, and office supplies. Inventories of supplies are recorded as expenditures when they are consumed rather than when they are purchased. Although commodities are received at no cost, their fair market value is supplied by the Texas Department of Human Services and recorded revenue when received. When requisitioned, inventory is relieved, and expenditures are charged.
2. Cash and cash equivalents includes cash and high liquid investments such as investment pools.
3. Unearned revenue accounted for on the balance sheet relates to excess funds received from funding sources over earned amounts.
4. The District provides risk management obligations by carrying appropriate insurance. Property and general liability insurance are obtained from a licensed insurer. Risk of loss is not retained by the District.
5. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.
6. The Data Control Codes refer to the account code structure prescribed by TEA in the *Financial Accountability System Resource Guide*. Texas Education Agency requires school districts to display these codes in the financial statements filed with the Agency in order to ensure accuracy in building a Statewide data base for policy development and funding plans.
7. In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District's deferred outflows of resources consist of differences between expected and actual actuarial experience (pension & OPEB), changes in actuarial assumptions (pension & OPEB), differences between projected and actual investment earnings (pension & OPEB), change in proportion and differences between employer's contributions and the proportionate share of contributions (pension & OPEB), and contributions paid to TRS subsequent to the measurement date (pension & OPEB).
8. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has one type of item which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Uncollected property taxes which are assumed collectible are reported in this category on the balance sheet for governmental funds. They are not reported in this category on the government wide statement of net position. In the government wide financial statements, the District reports a deferred inflow of resources for differences between expected and actual actuarial experience (pension & OPEB), changes in actuarial assumptions (pension & OPEB), and changes in proportion and differences between employer's contributions and the proportionate share of contributions (pension).
9. In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums, discounts, and losses due to refunded bonds are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed as incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

10. Upon separation from the District, an employee in good standing who has ten or more years of employment in the District and who has accumulated 15 or more local leave days shall be paid one-third of the employee’s daily rate of pay for the accrued and unused local leave days, up to a maximum of \$5,000.
11. Capital assets, which include land, buildings, furniture, and equipment are reported in the applicable governmental column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Buildings, furniture and equipment of the District is depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Buildings	40
Vehicles	8-15
Equipment	5-15

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. BUDGETARY DATA

The Board of Trustees adopts an “appropriated budget” for the General Fund, Debt Service Fund, and the Food Service Fund which is included in the Special Revenue Funds. The District is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds. The District compares the final amended budget to actual revenues and expenditures. The General Fund Budget report appears in Exhibit G-1 and the other two reports appear in Exhibits J-2 and J-3.

The following procedures are followed in establishing the budgetary data reflected in the basic financial statements:

1. Prior to August 20, the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least ten days’ public notice of the meeting must be given.
3. Prior to September 1, the budget is legally enacted through passage of a resolution by the Board. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end. Because the District has a policy of careful budgetary control, several amendments were necessary during the year.

4. Each budget is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board. All budget appropriations lapse at year end. A reconciliation of fund balances for both appropriated budget and nonappropriated budget special revenue funds is as follows:

	<u>August 31, 2021</u> <u>Fund Balance</u>	
Appropriated Budget Funds - Food Service Special Revenue Funds	\$	503,846
Nonappropriated Budget Funds		<u>48,068</u>
All Special Revenue Funds	\$	<u><u>551,914</u></u>

III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS

A. CASH, CASH EQUIVALENTS AND INVESTMENTS

Cash and Cash Equivalents

District Policies and Legal and Contractual Provisions Governing Deposits

Custodial Credit Risk for Deposits - State law requires governmental entities to contract with financial institutions in which funds will be deposited to secure those deposits with insurance or pledged securities with a fair value equaling or exceeding the amount on deposit at the end of each business day. The pledged securities must be in the name of the governmental entity and held by the entity or its agent. Since the District complies with this law, it has no custodial credit risk for deposits.

At fiscal year-end, the District had funds on deposit of \$1,975,406 in excess of FDIC coverage, fully secured by pledged securities of the depository bank.

District Policies and Legal and Contractual Provisions Governing Investments

Compliance with the Public Funds Investment Act

The **Public Funds Investment Act** (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports, and establishment of appropriate policies. Among other things, it requires a governmental entity to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity; (2) portfolio diversification; (3) allowable investments; (4) acceptable risk levels; (5) expected rates of return; (6) maximum allowable stated maturity of portfolio investments; (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio; (8) investment staff quality and capabilities; and (9) bid solicitation preferences for certificates of deposit.

Statutes authorize the entity to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas and its agencies, (2) guaranteed or secured certificates of deposit issued by state and national banks domiciled in Texas, (3) obligations of states, agencies, counties, cities and other political subdivisions of any state having been rated as to investment quality not less than an "A", (4) no load money market funds with a weighted average maturity of 90 days or less, (5) fully collateralized repurchase agreements, (6) commercial paper having a stated maturity of 270 days or less from the date of issuance and is not rated less than A-1 or P-1 by two nationally recognized credit rating agencies OR one nationally recognized credit agency and is fully secured by an irrevocable letter of credit, (7) secured corporate bonds rated now lower than "AA-" or the equivalent, (8) public funds investment pools, and (9) guaranteed investment contracts for bond proceeds investment only, with a defined

termination date and secured by U.S. Government direct or agency obligations approved by the Texas Public Funds Investment Act in an amount equal to the bond proceeds. The Act also requires the entity to have independent auditors perform test procedures related to investment practices as provided by the Act. Medina Valley Independent School District is in substantial compliance with the requirements of the Act and with local policies.

As of August 31, 2021, the District had the following investments, which are classified on the balance sheet as cash and cash equivalents:

Investment Type	Credit Rating	Amount	Maturity		
			Less than 1 Year	1-5 Years	10+ Years
External Investment Pools	AAAm	\$ 73,702,947	\$ N/A	\$ -	\$ -
Total		\$ 73,702,947	\$ -	\$ -	\$ -

Additional polices and contractual provisions governing deposits and investments of the Medina Valley Independent School District are specified below:

Credit Risk - To limit the risk that an issuer or other counterparty to an investment will not fulfill its obligations the District limits investments to those allowed by Government Code 2256. As of August 31, 2021, the District's investments were limited to investment pools.

Custodial Credit Risk for Investments - To limit the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in possession of an outside party. The District requires counterparties to register the securities in the name of the District's custodian and hand them over to the District or its designated agent. All of the securities are held by the District's agent.

Concentration of Credit Risk - To limit the risk of loss, the District's investment portfolio is diversified in terms of investment instruments, maturity schedule, and financial institutions.

Interest Rate Risk - To limit the risk that changes in interest rates will adversely affect the fair value of investments, the District's investment portfolio has various maturities.

Foreign Currency Risk for Investment - The District has no foreign currency investments.

Fair Value Measurement

The District categorizes its fair value measurements with the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy. In instances where inputs used to measure fair value fall into different levels in the above fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The District's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

Investments	Amount	Fair Value Measurement Using Input:		
		Level 1	Level 2	Level 3
External Investment Pools	\$ 73,702,947	\$ -	\$ 73,702,947	\$ -
Total	\$ 73,702,947	\$ -	\$ 73,702,947	\$ -

The investment pools used by the District are organized under the authority of the Interlocal Cooperation Act, Chapter 791, Texas Government Code, and the Public Funds Investment Act, Chapter 2256, Texas Government Code. The investment pools are public funds investment pools created to provide a safe environment for the placement of local government funds in authorized short-term investment.

The District's investment in investment pools, which are exempt from regulation by the Securities and Exchange Commission, have as one of their objectives the maintenance of stable net asset value of \$1. The book value of the position in the pools is the same as the number of the shares in each pool; the market value of a share should approximately equal the book value of a share.

Lone Star Investment Pool (the Pool): The Pool's liquidity fund operates in a manner consistent with the SEC Rule 2a7 of the Investment Company Act of 1940, which allows the fund to use amortized cost rather than market value to report net assets to compute share prices. Accordingly, the fair value of the District's position in the Pool is the same as the value of the Pool's shares and does not include any unrealized gains and losses.

The Pool is governed by an eleven-member board of trustees (Board) made up of active participants in the Pool. The Board has the responsibility of adopting and monitoring compliance with the investment policy, appointing investment officers, overseeing the selection of an investment advisor, custodian, investment consultant, administrator, and other service providers. The Board is also responsible for monitoring performance of the Pool. Financial information for the Pool can be obtained by writing to Post Office Box 400, Austin, Texas, 78767-0400 or by calling 1-800-758-3927.

B. PROPERTY TAXES

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period, and (2) when they are expected to be collected during a 60-day period after the close of the school fiscal year.

C. DELINQUENT TAXES RECEIVABLE

Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible tax receivables within the General and Debt Service Funds are based on historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

On October 15, 2015, the District issued \$6,800,000 of Unlimited Tax Refunding Bonds, Series 2015A. The proceeds of the bonds were used for refunding certain maturities of the 2006 Series Bonds. The Series 2006 maturities of February 15, 2019 through February 15, 2031 totaling \$7,405,000, with an average interest rate of 4.238% were refunded by the 2015A Series Bonds with an average interest rate of 2.064%. The cash flow savings to the District as a result of this refunding was \$1,849,588. The net present value savings is \$1,187,498. The proceeds of the refunding bonds were used to purchase U.S. Government securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for certain debt service payments on the Series 2006 bonds through 2031. As a result, those portions of the Series 2006 Bonds were considered defeased and the liability for those bonds has been removed from the District's long-term debt accounting group. The defeased Series 2006 bonds are callable on August 15, 2025.

On March 1, 2016, the District issued \$22,079,220 of Unlimited Tax Refunding Bonds, Series 2016. The proceeds of the bonds were used for refunding certain maturities of the 2007 Series Bonds. The Series 2007 maturities of February 15, 2019 through February 15, 2037 totaling \$22,079,220, with an average interest rate of 4.999% were refunded by the 2017 Series Bonds with an average interest rate of 3.097%. The cash flow savings to the District as a result of this refunding was \$8,009,466. The net present value savings is \$4,901,874. The proceeds of the refunding bonds were used to purchase U.S. Government securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for certain debt service payments on the Series 2007 bonds through 2037. As a result, those portions of the Series 2007 Bonds were considered defeased and the liability for those bonds has been removed from the District's long-term debt accounting group. The defeased Series 2007 bonds are callable on February 15, 2026.

J. COMMITMENTS UNDER LEASES

Commitments under operating (noncapitalized) lease agreements for equipment provide for minimum future rental payments as of August 31, 2021, as follows:

Year Ended August 31,	
2022	\$ 97,477
2023	97,477
2024	95,575
2025	
Total Minimum Rentals	<u>\$ 290,529</u>

K. ACCUMULATED UNPAID VACATION AND LEAVE BENEFITS

The State of Texas has created a minimum personal leave program consisting of five days per year leave with no limit on accumulation and transferability among districts for every teacher regularly employed in Texas public schools.

Each district’s local Board of Education is required to establish a leave plan. Local school districts may provide additional leave beyond the state minimum. Medina Valley Independent School District provides that upon separation from the District, an employee in good standing who has ten or more years of employment in the District and who has accumulated 15 or more local leave days shall be paid one-third of the employee’s daily rate of pay for the accrued and unused local leave days, up to a maximum of \$5,000. This liability has been recorded in the General Long-term Debt account group.

L. DEFINED BENEFIT PENSION PLAN

Plan Description. The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension’s Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position. Detailed information about the Teacher Retirement System’s fiduciary net position is available in a separately issued Annual Comprehensive Financial Report (ACFR) that includes financial statements and required supplementary information. That report may be obtained on the Internet at https://www.trs.texas.gov/TRS Documents/cafr_2020.pdf ; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698, or by calling (512) 542-6592.

Benefits Provided. TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service, or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

Texas Government Code section 821.006 prohibits benefit improvements, if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in the manner are determined by the System's actuary.

In May, 2019, the 86th Texas Legislature approved the TRS Pension Reform Bill (Senate Bill 12) that provides for gradual contribution increases from the state, participating employers and active employees to make the pension fund actuarially sound. This action causing the pension fund to be actuarially sound, allowed the legislature to approve funding for a 13th check in September 2019. All eligible members retired as of December 31, 2018 received an extra annuity check in either the matching amount of their monthly annuity or \$2,000, whichever was less.

Contributions. Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6 percent of the member's annual compensation and a state contribution rate of not less than 6 percent and not more than 10 percent of the aggregate annual compensation paid to members of the system during the fiscal year.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2020 thru 2025.

Contributions Rates		
	<u>2020</u>	<u>2021</u>
Member	7.7%	7.7%
Non-Employer Contributing Entity (State)	7.5%	7.5%
Employers	7.7%	7.5%
District's 2021 FY Employer Contributions		\$ 1,302,160
District's 2021 FY Member Contributions		\$ 3,158,029
Measurement Year NECE On-Behalf Contributions		\$ 2,216,084

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools, and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers including public schools are required to pay the employer contribution rate in the following instances:

- * On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- * During a new member's first 90 days of employment.
- * When any part, or all of an employee's salary is paid by federal funding sources or a privately sponsored source, from non-educational and general, or local funds.

In addition to the employer contributions listed above, there is an additional surcharge an employer is subject to.

- * All public schools, charter schools, and regional educational service centers must contribute 1.5 percent of the member's salary beginning in fiscal year 2020, gradually increasing to 2 percent in fiscal year 2025.
- * When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

Actuarial Assumptions.

The total pension liability in the August 31, 2019 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2019 rolled forward to August 31, 2020
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Market Value
Single Discount Rate	7.25%
Long-term Expected Rate	7.25%
	2.33%. Source for the rate is the Fixed Income Market Data/Yield Curve/Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index."
Municipal Bond Rate as of August 2020	
Last year ending August 31 in Projection Period (100 years)	2119
Inflation	2.30%
Salary Increases	3.05% to 9.05% including inflation
Ad Hoc Post-Employment Benefit Changes	None

The actuarial methods and assumptions used in the determination of the total pension liability assumptions are the same assumptions used in the actuarial valuation as of August 31, 2019. For a full description of these assumptions please see the actuarial valuation report dated November 14, 2019.

Discount Rate. A single discount rate of 7.25 percent was used to measure the total pension liability. The single discount rate was based on the expected rate of return on plan investments of 7.25 percent. The projection of cash flows used to determine the single discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the legislature during the 2019 session. It is assumed that future employer and state contributions will be 8.50 percent of payroll in fiscal year 2020 gradually increasing to 9.55 percent of payroll over the next several years. This includes all employer and state contributions for active and rehired retirees.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term expected rate of return on pension plan investments is 7.25 percent. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2020 are summarized below:

Discount Rate Sensitivity Analysis. The following table presents the Net Pension Liability of the plan using the discount rate of 7.25 percent, and what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.25 percent) or one percentage point higher (8.25 percent) than the current rate.

	1% Decrease in Discount Rate (6.25%)	Discount Rate (7.25%)	1% Increase in Discount Rate (8.25%)
District's proportionate share of the net pension liability:	\$23,888,024	\$15,491,763	\$8,669,988

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At August 31, 2021, the District reported a liability of \$15,491,764 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability	\$ 15,491,763
State's proportionate share that is associated with the District	<u>28,765,959</u>
Total	<u>\$ 44,257,722</u>

The net pension liability was measured as of August 31, 2019 and rolled forward to August 31, 2020 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2019 thru August 31, 2020.

At August 31, 2020 the employer's proportion of the collective net pension liability was 0.00289252326% which was a decrease of 0.0016292867% from its proportion measured as of August 31, 2019.

Changes Since the Prior Actuarial Valuation

There were no changes in assumptions since the prior measurement date.

For the year ended August 31, 2021, the District recognized pension expense of \$3,459,906 and revenue of \$3,459,906 for support provided by the State in the Government Wide Statement of Activities.

At August 31, 2021, the District reported its proportionate share of the TRS deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual actuarial experience	\$ 28,286	\$ 432,334
Changes in actuarial assumptions	3,594,641	1,528,416
Net difference between projected and actual investment earnings	313,618	-
Changes in proportion and differences between the employer's contributions and the proportionate share of contributions	1,595,740	596,983
Contributions paid to TRS subsequent to the measurement date	1,302,160	-
Total	\$ 6,834,445	\$ 2,557,733

The net amounts of the employer's balances of deferred outflows and inflows (not including the deferred contribution paid subsequent to the measurement date) of resources related to pensions will be recognized in pension expense as follows:

Measurement year ended August 31:	Pension Expense Amount
2022	\$ 878,404
2023	1,028,319
2024	935,544
2025	371,293
2026	(201,944)
Thereafter	(37,063)

M. DEFINED OTHER POST-EMPLOYMENT BENEFIT PLANS

Plan Description. The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The TRS-Care program was established in 1986 by the Texas Legislature.

The TRS Board of Trustees administers the TRS-Care program and the related fund in accordance with the Texas Insurance Code Chapter 1575. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. The Board may adopt rules, plans, procedures, and orders reasonably necessary to administer the program, including minimum benefits and financing standards.

OPEB Plan Fiduciary Net Position. Detail information about the TRS-Care's fiduciary net position is available in the separately issued TRS Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <https://www.trs.texas.gov/TRS Documents/cafr2020.pdf>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Components of the net OPEB liability of the TRS-Care plan as of August 31, 2020 are as follows:

<u>Net OPEB Liability</u>	<u>Total</u>
Total OPEB Liability	\$ 40,010,833,815
Less: Plan fiduciary net position	(1,996,317,932)
Net OPEB liability	<u>\$ 38,014,515,883</u>
Net position as a percentage of total OPEB liability	4.99%

Benefits Provided. TRS-Care provides health insurance coverage to retirees from public and charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic post-employment benefit changes; including automatic COLAs.

The premium rates for retirees are reflected in the following table.

TRS-Care Monthly Premium Rates

	Medicare		Non-Medicare
Retiree*	\$ 135		\$ 200
Retiree and Spouse	529		689
Retiree* and Children	468		408
Retiree and Family	1,020		999

*or surviving spouse

Contributions. Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state's contribution rate, which is 1.25 percent of the employee's salary. Section 1575.203 establishes the active employee's rate, which is .75 percent of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25 percent or not more than 0.75 percent of the salary of each active employee of the public school. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor.

Contributions Rates

	2020	2021
Active Employee	0.65%	0.65%
Non-Employer Contributing Entity (State)	1.25%	1.25%
Employers	0.75%	0.75%
Federal/private Funding Remitted by Employers	1.25%	1.25%
District's 2021 FY Employer Contributions		\$ 348,626
District's 2021 FY Member Contributions		\$ 266,584
Measurement Year NECE On-Behalf Contributions		\$ 438,048

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether or not they participate in the TRS Care OPEB program). When employers hire a TRS retiree, they are required to pay to TRS-Care, a monthly surcharge of \$535 per retiree.

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$230.8 million in fiscal year 2020 to maintain premiums and benefit levels in the 2020-2021 biennium.

Actuarial Assumptions.

The actuarial valuation was performed as of August 31, 2019. Update procedures were used to roll forward the Total OPEB Liability to August 31, 2020. The actuarial valuation was determined using the following actuarial assumptions:

The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. All of the demographic assumptions, including rates of retirement, termination, and disability, and most of the economic assumptions, including general inflation and salary increases, used in the OPEB valuation were identical to those used in the respective TRS pension valuation. The demographic assumptions were developed in the experience study performed for TRS for the period ending August 31, 2017.

The following assumptions and other inputs used for members of TRS-Care are based on an established pattern of practice and are identical to the assumptions used in the August 31, 2019 TRS pension actuarial valuation that was rolled forward to August 31, 2020:

Rates of Mortality	General Inflation
Rates of Retirement	Wage Inflation
Rates of Termination	Expected Payroll Growth
Rates of Disability Incidence	

The active mortality rates were based on 90 percent of the RP-2014 Employee Mortality Tables for males and females, with full generational mortality using Scale BB. The post-retirement mortality rates for healthy lives were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables, with full generational projection using the ultimate improvement rates from the most recently published scale (U-MP).

Additional Actuarial Methods and Assumptions:

Valuation Date	August 31, 2019 rolled forward to August 31, 2020
Actuarial Cost Method	Individual Entry Age Normal
Inflation	2.30%
Single Discount Rate	2.33% as of August 31, 2020
Aging Factors	Based on plan specific experience
Election Rates	Normal Retirement: 65% participation prior to age 65 and 40% participation after age 65. 25% of pre-65 retirees are assumed to discontinue coverage at age 65.
Expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs.
Salary Increases	3.05% to 9.05% including inflation
Ad Hoc Post-Employment Benefit Changes	None

Discount Rate. A single discount rate of 2.33 percent was used to measure the total OPEB liability. There was a decrease of .30 percent in the discount rate since the previous year. Because the plan is essentially a pay-as-you-go plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, the municipal bond rate was used for the long-term rate and was applied to all periods of projected benefit payments to determine the total OPEB liability.

The source of the municipal bond rate is the Fidelity “20-year Municipal GO AA Index” as of August 31, 2020 using the fixed income municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds.

Sensitivity of the Net OPEB Liability:

Discount Rate Sensitivity Analysis. The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1 percentage point lower than and 1 percentage point higher than the discount rate that was used (2.33%) in measuring the Net OPEB Liability.

	1% Decrease in Discount Rate (1.33%)	Discount Rate (2.33%)	1% Increase in Discount Rate (3.33%)
District's proportionate share of the Net OPEB Liability:	\$19,565,096	\$16,304,277	\$13,728,699

Healthcare Cost Trend Rates Sensitivity Analysis. The following schedule shows the impact of the OPEB liability if healthcare trend rate that 1 percentage point less than and 1 percentage point greater than the health trend rates assumed.

	1% Decrease	Current Healthcare Cost Trend Rate	1% Increase
District's proportionate share of the Net OPEB Liability:	\$13,318,506	\$16,304,277	\$20,280,903

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs. At August 31, 2021, the District reported a liability of \$16,304,277 for its proportionate share of the TRS's Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the collective net OPEB liability	\$ 16,304,277
State's proportionate share that is associated with the District	21,909,041
Total	<u>\$ 38,213,318</u>

The Net OPEB Liability was measured as of August 31, 2019 and rolled forward to August 31, 2020 and the Total OPEB Liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The employer's proportion of the Net OPEB Liability was based on the employer's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2019 thru August 31, 2020.

At August 31, 2020 the employer's proportion of the collective Net OPEB Liability was 0.0428896096% compared to 0.0395511946% as of August 31, 2019.

Changes Since the Prior Actuarial Valuation. The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability (TOL) since the prior measurement period:

1. The discount rate changed from 2.63 percent as of August 31, 2019 to 2.33 percent as of August 31, 2020. This change increased the Total OPEB Liability.
2. The participation rate for post-65 retirees was lowered from 50 percent to 40 percent. This change lowered the Total OPEB Liability.
3. The ultimate health care trend rate assumption was lowered from 4.50 percent to 4.25 percent as a result of Congress' repeal of the excise (Cadillac) tax on high-cost employer health plans in December 2019. This change lowered the Total OPEB Liability.

Changes of Benefit Terms Since the Prior Measurement Date. There were no changes in benefit terms since the prior measurement date.

For the year ended August 31, 2021, the District recognized OPEB expense of \$152,128 and revenue of \$152,128 for support provided by the State.

At August 31, 2021, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual actuarial experience	\$ 853,686	\$ 7,461,671
Changes in actuarial assumptions	1,005,635	4,477,239
Net difference between projected and actual investment earnings	5,298	-
Changes in proportion and differences between the employer's contributions and the proportionate share of contributions	4,910,644	-
Contributions paid to TRS subsequent to the measurement date	348,626	-
Total	\$ 7,123,889	\$ 11,938,910

The net amounts of the employer's balances of deferred outflows and inflows (not including the deferred contribution paid subsequent to the measurement date) of resources related to OPEBs will be recognized in OPEB expense as follows:

Year ended August 31:	OPEB Expense Amount	Balance of Deferred Outflows (Deferred Inflows)
2022	\$ (988,626)	\$ (4,175,021)
2023	(989,334)	(3,185,687)

MEDINA VALLEY INDEPENDENT SCHOOL DISTRICT
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED AUGUST 31, 2021

A. Notes to Schedules for the TRS Pension

Changes of Benefit terms.

In May 2019, the 86th Texas legislature approved the TRS Pension Reform Bill (SB12) that provides for gradual contribution increases from the state, participating employers, and active employees to make the pension fund actuarially sound. The increases immediately made the pension fund actuarially sound, and the legislature approved funding for a 13th check.

All eligible members retired as of December 31, 2018, received an extra annuity check in September 2019 in either the matching amount of their monthly annuity payment or \$2,000, whichever was less.

Changes of Assumptions.

There were no changes in assumptions since the prior measurement date.

B. Notes to Schedules for the TRS OPEB Plan

Changes in Benefit.

There were no changes in benefit terms since the prior measurement date.

Changes in Assumptions.

The following assumptions, methods, and plan changes which are specific to TRS-Care were updated from the prior year's report:

- * The discount rate changed from 2.64 percent as of August 31, 2019 to 2.33 percent as of August 31, 2020. This change increased the Total OPEB Liability.
- * The participation rate for post-65 retirees was lowered from 50 percent to 40 percent. This change lowered the Total OPEB Liability.
- * The ultimate health care trend assumption was lowered from 4.50 percent to 4.25 percent as a result of Congress' repeal of the excise (Cadillac) tax on high-cost employer health plans in December 2019. This change lowered the Total OPEB Liability.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Trustees
Medina Valley Independent School District
Castroville, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Medina Valley Independent School District, as of and for the year ended August 31, 2021, and the related notes to the financial statements, which collectively comprise the Medina Valley Independent School District's basic financial statements and have issued our report thereon dated December 17, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Medina Valley Independent School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Medina Valley Independent School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Medina Valley Independent School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Medina Valley Independent School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Trustees
Medina Valley Independent School District
Castroville, Texas

Report on Compliance for Each Major Federal Program

We have audited the Medina Valley Independent School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Medina Valley Independent School District's major federal programs for the year ended August 31, 2021. The Medina Valley Independent School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Medina Valley Independent School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Medina Valley Independent School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Medina Valley Independent School District's compliance.

Opinion on Each Major Federal Program

In our opinion, the Medina Valley Independent School District, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2021.

Report on Internal Control over Compliance

Management of the Medina Valley Independent School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Medina Valley Independent School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Medina Valley Independent School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

MEDINA VALLEY INDEPENDENT SCHOOL DISTRICT
NOTES ON ACCOUNTING POLICIES FOR FEDERAL AWARDS
FOR YEAR ENDED AUGUST 31, 2021

- For all Federal programs, the District uses the fund types specified in Texas Education Agency's *Financial Accountability System Resource Guide*. Special revenue funds are used to account for resources restricted to, or designated for, specific purposes by a grantor. Federal and state financial assistance generally is accounted for in a Special Revenue Fund.
- The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Governmental Fund types are accounted for using a current financial resources measurement focus. All Federal grant funds were accounted for in a Special Revenue Fund or, in some instances, in the General Fund, which are Governmental Fund type funds.

With this measurement focus, only current assets and current liabilities and the fund balance are included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets. The modified accrual basis of accounting is used for the Governmental Fund types. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on General Long-Term Debt, which is recognized when due, and certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and, accordingly, when such funds are received, they are recorded as unearned revenues until earned.

- The period performance for federal grant funds for the purpose of liquidation of outstanding obligations made on or before the ending date of the federal project period extended 90 days beyond the federal project period ending date, in accordance with provisions in Section H, Period of Performance of Federal Funds, Part 3, Uniform Guidance Compliance Supplement.
- CFDA numbers for commodity assistance are the CFDA numbers of the programs under which USDA donated the commodities.
- Indirect cost reimbursement for federal programs for this fiscal year was received in the amount of \$273,714.

**STATE OF TEXAS
OFFICE OF THE GOVERNOR**

In Texas, we place immense value in our youth. We protect them, guide them, and prepare them for a successful future because we know they are the next generation of leaders for our state and nation. We also understand the key role education plays in young people's lives. School districts across Texas have continued to dedicate time and resources to ensure Texas students receive a rigorous and well-rounded education that will serve as the foundation upon which their dreams will be turned into reality.

School boards are an integral fabric woven into the tapestry of the Texas education system. They work with parents, education professionals, and community members to create successful learning environments for our students. Our school boards continue to be instrumental as they tackle new challenges for Texas public schools and serve the ever-evolving needs of our students.

Texans know they can count on their school board members, along with other dedicated school administration officials, to create opportunities to discuss important issues, develop innovative solutions, and empower educators while remaining focused on their students' futures.

At this time, I encourage all Texans to recognize and honor the work and successes of our school board members who play an important role in the education of students across the state. By continuing to support our children's education, we will ensure a better and brighter future for the Lone Star State.

Therefore, I, Greg Abbott, Governor of Texas, do hereby proclaim January 2022 to be

School Board Recognition Month

in Texas and urge the appropriate recognition whereof.

In official recognition whereof, I hereby affix my signature this the 8th day of November, 2021.

**NORTHSIDE INDEPENDENT SCHOOL DISTRICT REGIONAL DAY
SCHOOL PROGRAM FOR THE DEAF SHARED SERVICES
ARRANGEMENT ("SSA") AGREEMENT**

NORTHSIDE INDEPENDENT SCHOOL DISTRICT

Bandera, Boerne, Devine, Edgewood, Medina Valley, and Lackland Independent School Districts, hereby agree to cooperatively operate their special education programs for students who are deaf or hard of hearing as set forth herein under the authority of Education Code Section 29.007 and Texas Government Code Section 791.001 et. Seq., as the NORTHSIDE REGIONAL DAY SCHOOL PROGRAM FOR THE DEAF ("Northside RDSPD SSA") as set out in this Northside Regional Day School Program for the Deaf Special Education Shared Services Arrangement Agreement (hereinafter "Agreement"). Member districts agree that:

1. General Covenants and Provisions

1.1 The purpose of this Agreement is to create a cooperative arrangement whereby the Member Districts may provide for the efficient delivery of legally required special education and related services to eligible students who are Deaf or Hard of Hearing (DHH) and reside within the boundaries of the member districts of the Northside ISD DHH Program SSA. It is agreed and understood that any student who is DHH which severely impairs processing linguistic information through hearing, even with recommended amplification, and which adversely affects educational performance shall be eligible for consideration for the Northside RDSPD SSA, subject to the ARD committee recommendations.

It is further agreed that the RDSPD is not intended to serve a student whose primary, ongoing needs are related to a severe or profound emotional, behavioral or cognitive deficient, and not primarily DHH. This provision shall not apply to students enrolled in the RDSPD SSA centralized program prior to January 1, 2015. This provision shall not be construed as a requirement for the RDSPD SSA to serve a student who presents with a disability which in addition to DHH, requires services or programming that exceeds DHH programming. The RDSPD SSA applies LRE standards when considering services for students who are DHH.

To the extent practicable based upon the availability of personnel, space and other resources the Northside RDSPD SSA will collaborate with Member Districts concerning the needs of students who are DHH who also have ongoing needs not primarily related to DHH, to facilitate the purpose of this Agreement. Such efforts to facilitate the purpose of this Agreement may include Northside ISD and Member Districts entering into inter-local agreements to serve students who may not meet the qualifications under 1.1. Such agreements would be separate from this SSA and require the mutual agreement of Northside ISD and the Member District in accordance with each District's local policies.

1.2 The Member Districts do not intend by entering into this Agreement, or otherwise, to create a separate or additional legal entity.

1.3 The Northside RDSPD SSA's administrative office will be located in San Antonio, Texas.

1.4 The Northside RDSPD SSA will be operated in compliance with federal and state law, including the Individuals with Disabilities Education Act, 20 U.S.C. § 1401 *et seq.*, Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. § 794; the Amendments to the Americans with Disabilities Act 2008, 42 U.S.C. § 12101 *et seq.*; Family Educational Rights and Privacy Act; Chapter 29 of the Texas Education Code; Texas Education Code § § 30.081 - 30.087 and section 1.3 of the *Financial Accounting and Reporting Module of the Financial Accountability System Resource Guide* (FASRG); implementing regulations for all applicable statutes.

All special education terms and acronyms used in this Agreement shall have the meanings and definitions provided to such terms and acronyms as set out in Chapter 33 of the Individuals with Disabilities Education Act (IDEA), 20 United States Code Annotated Section 1400 *et seq.*, 34 CFR Part 300, the Texas Education Code, Chapters 29 and 30 and the Texas Administrative Code, 19 TAC 89.1001 *et seq.* Such terms and acronyms shall include, but not be limited to, FAPE or Free Appropriate Public Education, Child Find, IEP or Individualized Education Program, LEA or Local Education Agency, LRE or Least Restrictive Environment, Special Education, Evaluations, DHH or Deaf or Hard of Hearing, Eligibility Determinations, Educational Placements, Procedural Safeguards, SEA or State Education Agency, MOE or Maintenance of Effort, ESEA or Elementary and Secondary Education Act and ARD or Review and Dismissal Committee. The fiscal year shall be September 1st through August 31st,

1.5 Should a Local Education Agency ("LEA") seek to become a Member District of the Northside RDSPD SSA, a written request must be provided to the Northside RDSPD SSA Director for Management Board consideration 30 days before the notification to TEA of pending reconfiguration changes effective for the subsequent year are due. It is agreed that any reconfiguration is subject to TEA timelines and approval by the parties to this Agreement. Any legal fees incurred due to the reconfiguration will be assessed against the School District seeking to become a Member. Any reconfiguration is subject to approval by each Member District's Board of Trustees.

1.6 DHH students enrolled in the RDSPD who meet the eligibility requirements of Deaf or Hard of Hearing will be considered for RDSPD services from the RDSPD consistent with Section 1.1. Northside RDSPD SSA Deaf or Hard of Hearing Continuum includes the following: (1) Itinerant (Babies 0 - 3). (For example, this student is DHH under IDEA - Part C and is being served through early childhood intervention.) This student may need weekly services of an DHH teacher provided to the parents. (2) Cluster site. The student who attends the cluster site is Deaf or Hard of Hearing under IDEA and requires specially designed instruction. (For example, this

student needs daily direct services of a DHH teacher, access to sign language interpreting services and access to deaf peers to address unique communication, auditory, language and emotional needs.) (3) Texas School for the Deaf. The student who attends the Texas School for the Deaf is DHH under IDEA and requires specially designed instruction. (For example, this student needs daily direct intensive services of an DHH teacher and access to deaf culture.) This can be a parent-initiated placement or a district placement.

Nothing in 1.6 is intended to, or does, limit the authority of any student's ARD committee to propose a student's placement in any appropriate special education setting. Placements not available under this SSA shall be the responsibility of the Member District as specified under 5.7, herein.

2. Management

2.1 The Northside RDSPD SSA shall be governed by the SSA Management Board ("Management Board") composed of the Fiscal Agent's Director of Special Education, DHH Program Coordinator, and the Special Education Directors of the Member Districts and SSA's. The Management Board will meet, at least annually, to review the Agreement. Other meetings may be scheduled as determined by the Fiscal Agent's Director of Special Education whereby the Management Board may either meet as a whole or as ad hoc sub-committees. The Management Board shall keep Superintendents advised of RDSPD Management Board actions, as appropriate.

2.2 The Northside RDSPD SSA, on behalf of the Fiscal Agent, may purchase goods and services necessary to administer and operate the Northside RDSPD SSA. All non-consumable instructional materials shall be deemed property of the Northside RDSPD SSA when such supplies and materials are purchased with Northside RDSPD SSA funds. Equipment purchased by a Member District remains property of the Member District.

2.3 The Special Education Director of the Fiscal Agent or designee will initially serve as Chairperson of the Management Board. The Special Education Director's designee will serve as secretary who may or may not be a member of the Management Board. The secretary will record, prepare and maintain minutes of each Management Board meeting.

2.4 Unless otherwise provided herein, the Management Board actions require the approval of a majority of a quorum of Member Districts. Each Management Board member present shall have only one vote. It is agreed and understood that the withdrawing Fiscal Agent will notify TEA of its intent to withdraw as Fiscal Agent on or before February 1st preceding the end of the last fiscal year it intends to serve as Fiscal Agent. After a satisfactory independent audit of the SSA's accounts, the transfer of Fiscal Agent status will become effective July 1. The Fiscal Agent will provide documentation of affected parties as required by the Texas Education Agency to effectuate the withdrawal.

4.9 Should the Fiscal Agent cease for any reason to serve, the Management Board will by majority vote of a quorum appoint a Member District as Fiscal Agent. All TEA timelines shall apply to any reconfiguration, including a change in Fiscal Agent. However, a Member District, if so elected by the Management Board, is not required to serve as Fiscal Agent.

It is agreed that assuming the role of Fiscal Agent would require specific approval by the Member District's Board of Trustees or other governing body, if not an ISD.

5. Member Districts' General Obligations

5.1 Member Districts agree that any funds assessed under Northside RDSPD SSA Administrative Guidelines or this Agreement will be remitted within ninety (90) calendar days of receiving a statement from the Fiscal Agent. An authorized representative of the non-member LEA shall be present at a Northside RDSPD Board meeting to present information and any requested

clarification of information regarding the need(s) of the student(s) seeking to access Northside RDSPD SSA services. The Member District Boards of Trustees delegate authority to the Northside RDSPD Board to enter into contracts with non-member LEAs. The Member Districts acknowledge that it is TEA's expectation that services be provided to eligible students enrolled in non-member LEAs so that the intent of TEC Chapter 30, Subchapter D is met. In the event that the Northside RDSPD Board determines that providing services to students enrolled in non-member LEAs would create an undue burden for the Northside RDSPD SSA, the Northside RDSPD Director shall refer the matter to TEA for review.

6.2 Factors to be considered by the Northside RDSPD Board when considering the non-member LEA's request for services/placement, include, but are not limited to: (1) the type of services needed; (2) whether additional Northside RDSPD staff will have to be employed or engaged to serve the student; (3) whether the non-member LEA is a member of any other shared services arrangement; (4) whether the non-member LEA can pay all transportation costs for transporting the student and all travel costs of staff associated with serving the student; (5) whether the non-member LEA will agree to transfer funds applicable to the education of such student to the Northside RDSPD SSA as appropriate and allowable; (6) whether the non-member LEA will pay all other costs incurred by Northside RDSPD SSA in providing educational services to such student; (7) whether the non-member LEA will agree to assume responsibility for attorney's fees and costs associated with any legal action brought by such student or his or her parents, and (8) proximity of the non-member LEA to the Northside RDSPD.

Northside ISD will receive IDEA-B Formula (Deaf), IDEA-B Preschool (Deaf), IDEA-C Early Childhood Intervention (Deaf), State Deaf and IDEA-B Discretionary (Deaf) funds. When the budget is prepared for the RDSPD program and the amounts awarded will not be sufficient to cover the costs, the deficit amount is then divided based upon the total number of students enrolled in the RDSPD based on PEIMS snapshot. These amounts will help cover the cost of deaf education teachers, interpreters, paraprofessionals, speech therapists, educational audiologists, related services, as deemed educationally necessary by an ARD Committee, amplification systems, travel, materials and supplies, and other administrative and uncontrollable costs. Upon dissolution, the Northside RDSPD SSA's funds and any other remaining assets will be divided based upon a proportionate share (comparing contribution to whole) based upon PEIMS snapshot. Following the vote to dissolve the Northside RDSPD SSA, the dissolution will take effect on July 1. All TEA timelines and requirements for documentation of affected parties shall apply.
