### **Parent and Guardian Involvement In Education Practices**

The school district recognizes the importance of parental and guardian involvement in the education of their children. The school district will take the following steps to ensure that the rights of parents and guardians to participate in the education of their children are preserved.

1. Parents/Guardians will be provided access, as described in district procedures, to district-approved textbooks and other curricular materials and tests used in the district upon request.
  - a. A parental request to review specific approved textbooks and other district- or building-approved curricular materials (written, visual, and audio) should be made to the principal of the building where the textbooks and curriculum materials are used.
  - b. Parents may check out textbooks and may review curricular materials such as video and audio recordings within a time frame determined by the building principal to prevent disruption of the instructional process.
  - c. A parental request to review specific standardized and criterion-referenced tests used in the district should be made in writing to the building principal. Copies of the most recent tests used in the district will be available for parent review. Parents wishing to review statewide assessments will be provided with sample questions and a copy of a practice test, but will not be provided with copies of the actual assessment due to testing security. In the case of other secure tests such as the ACT, parents must contact the publisher to obtain copies of the test.
2. Parents/Guardians will be permitted, within district procedures, to attend and observe courses, assemblies, counseling sessions, and other instructional activities.
  - a. Parents/guardians are invited to make appointments with the building principal to visit classes, assemblies and other instructional activities. The principal shall give permission after determining that parental/guardian observation would not disrupt the activity. Observations that last more than 60 minutes or occur on consecutive days are typically disruptive and will not be permitted absent unusual circumstances, in the sole discretion of the building principal.

- b. Parents/guardians may contact the building principal to request permission to attend counseling sessions in which their child is involved.
- 3. Parents/guardians will be permitted, within district procedures, to ask that their children be excused from school experiences that parents find objectionable.
  - a. Building principals may excuse a student from any single school experience at the parent's written request.
  - b. When appropriate, alternative experiences will be provided for the student by the school.
- 4. Parents/guardians will be informed through the student handbook and district policies of the manner that the district will provide access to records of students.
- 5. Parents/guardians will be informed of the standardized and criterion-referenced district testing program. Parents may request additional information from the building principal.
- 6. Parents/guardians will be informed of the circumstances under which they may opt-out of state and federal assessments.
  - a. In accordance with federal law, at the beginning of the school year, the District shall provide notice of the right to request a copy of this policy to parents/guardians of students attending schools receiving Title I funds. The District will provide a copy of this policy to a requesting parent in a timely manner.
  - b. State Assessments

State and federal law simultaneously require students to take state assessments, with few exceptions, but also permit parents or guardians to request to opt their students out of these assessments. Approval of opt out requests is contrary to the mandatory testing laws, so the District cannot "approve" the request. Parents who do not present their child for testing will result in the child receiving the lowest score possible on the assessment.

c. National Assessment of Educational Progress

As a condition of receiving federal funds, the District participates in the National Assessment of Educational Progress (NAEP). To help ensure that the District has a representative sample of students taking the NAEP, which will allow the District to assess the quality and effectiveness of its programming on a national level, the District strongly encourages all eligible students to participate. However, student participation in NAEP is voluntary.

The District shall provide parents/guardians of eligible students with reasonable notice prior to the exam being administered. Parents/guardians wishing to opt their students out of the NAEP assessment must notify the district in writing at least three days prior to the exam date to ensure that the District can coordinate supervision and alternative activities for students who have opted out.

7. Parents/guardians will be notified of their right to remove their children from surveys prior to district participation in surveys.
  - a. The principal must approve all surveys intended to gather information from students before they are administered to students.
  - b. Students' participation in surveys is voluntary. Parents/guardians may restrict their child from participating in any survey.

## District Title I Parent and Family Engagement Policy

The school district will jointly develop with parents a School-Parent-Student Compact that outlines how the parents, school staff, and students will share the responsibility for improved student academic achievement and the means by which the school and parents will build and develop a partnership to help children achieve the State's high standards.

The written District Parent and Family Engagement Policy will be jointly developed and distributed to parents and family members of participating children and the local community in an understandable format and to the extent practicable, in a language the parents can understand. An annual evaluation of the content and effectiveness of the Parent and Family Engagement Policy will be used to design evidence-based strategies for more effective parental involvement, to revise the Parent and Family Engagement Policy, and to remove barriers to participation.

The school district recognizes the unique needs of students who are being served in its Title I program, and the importance of parent and family engagement in the Title I program. Parent and family engagement in the Title I Program shall include, but is not limited to:

1. An annual meeting to which all parents of participating children will be invited to inform parents of their school's participation under this part, to explain the requirements of this part, and the right of the parents to be involved. Invitations may take the form of notes sent with students or announcements in the school newsletter. Additional meetings may be scheduled, based upon need and interest for such meetings.
2. An explanation of the details for the child's and parents' participation, including but not limited to: curriculum objectives, the forms of academic assessment used to measure student progress and the achievement levels of the challenging State academic standards, type and extent of participation, parental input in educational decisions, coordination and integration with other Federal, State, and district programs, and evaluations of progress.
3. Opportunities for participation in parent involvement activities such as training to help parents work with their children to improve achievement. A goal of these parent activities is to provide parents with opportunities to participate in decisions relating to the education of their students, where appropriate.

4. The district will, to the extent practicable, provide parents of limited English proficiency, parents with disabilities, parents with limited literacy, are economically disadvantaged, are of a racial or minority background or parents of migratory children with opportunities for involvement in the Title I Program. Communication to parents about student progress and the district's other Title I Program communications will be provided in the language used in the home to the extent practicable. Responses to parent concerns will be provided in a timely manner.

5. Opportunities for parent-teacher conferences, in addition to those regularly scheduled by the school district, if requested by the parents or as deemed necessary by school district staff.

6. The district will coordinate and integrate parental involvement programs and activities with other programs in the community. These may include cooperation with other community programs such as Head Start and preschools and other community services such as the public library.

7. Educate teachers, specialized instructional support personnel, principals, and other school leaders, with the assistance of parents in the value and utility of contributions of parents, how to reach out to, communicate with and work with parents as equal partners.

This policy shall be reviewed annually at the annual meeting where concerned parties can have a conversation about possible changes to the Parent and Family Engagement Policy.

## **5054 Student Bullying**

**Definition of Bullying.** The Centers for Disease Control and Prevention defines bullying as “any unwanted aggressive behavior(s) by another youth or group of youths who are not siblings or current dating partners that involves an observed or perceived power imbalance and is repeated multiple times or is highly likely to be repeated.” Nebraska statute defines bullying as “an ongoing pattern of physical, verbal or electronic abuse.” The District’s administrators are authorized to use both of these definitions to determine whether any specific situation constitutes bullying. Both of these definitions include both in-person and cyberbullying behaviors.

**Bullying Prohibited.** Students are prohibited from engaging in any form of bullying behavior.

**Disciplinary Consequences.** The disciplinary consequences for bullying behavior will depend on the frequency, duration, severity and effect of the behavior.

A student who engages in bullying behavior on school grounds, in a vehicle owned, leased, or contracted by a school being used for a school purpose by a school employee or his or her designee, or at school-sponsored activities or school-sponsored athletic events may be subject to disciplinary consequences including but not limited to long-term suspension, expulsion, or mandatory reassignment.

Without limiting the foregoing, a student who engages in bullying behavior that materially and substantially interferes with or disrupts the educational environment, the district’s day-to-day operations, or the education process, regardless of where the student is at the time of engaging in the bullying behavior, may be subject to discipline to the extent permitted by law.

**Bullying Based on Protected Class Status.** Bullying based on protected class status is unique and may require additional investigation. The appropriate district staff member or coordinator will promptly investigate bullying complaints that violate the district’s antidiscrimination policies.

**Support for Students Who Have Experienced Bullying.** Regardless of where the bullying occurred, the district will consider whether victims of bullying are suffering an adverse educational impact and, if

appropriate, will refer those students to the district's student assistance team.

**Bullying Prevention and Education.** Students and parents are encouraged to inform teachers or administrators orally or in writing about bullying behavior or suspected bullying behavior. School employees are required to inform the administrator of all such reports. The appropriate administrator shall promptly investigate all such reports. Each building shall engage in activities which educate students about bullying, bullying prevention and digital citizenship.

**Policy Review.** The school district shall review this policy annually.

### **Compulsory Attendance and Excessive Absenteeism**

*"School success is 90 percent showing up; the other half is mental." Yogi Berra*

Research on policies and practices that effectively encourage regular student attendance share some key components:

1. Education of parents regarding school attendance requirements.
2. Effective policies and practices to monitor attendance.
3. Clear definition of excessive absenteeism and a two-stage response to excessive absences.

The board has considered this educational research and used it to create the following policy on Compulsory Attendance and Excessive Absenteeism.

#### **Required Attendance**

Every person residing in the school district who has legal or actual charge or control of any child who is of mandatory attendance age shall cause that child to attend a public or private school regularly unless the child has graduated from high school or has been allowed to disenroll pursuant to this policy.

#### **Mandatory Attendance Age**

All children who are or will turn six years old before January 1 of the current school year are of mandatory attendance age. Children who have not turned eighteen years of age are of mandatory attendance age.

A child who will not reach age 7 before January 1 of the current school year may be excused from mandatory attendance if the child's parent or guardian completes an affidavit affirming that alternative educational arrangements have been made for the child. A copy of the required affidavit is attached to this policy.

#### **Discontinuing Enrollment – 5 Year Old Students**

The person seeking to discontinue the enrollment of a student who will not reach six years of age prior to January 1 of the current school year shall submit a signed, written request and to the superintendent using the form which is attached to this policy. The school district may request written verification or documentation that the person signing the form has legal or actual charge or control of the student. The school district shall discontinue the enrollment of any student who satisfies these requirements. Any student whose enrollment is discontinued under this subsection shall not be eligible to reenroll in this

school district until the beginning of the following school year unless otherwise required by law.

### **Discontinuing Enrollment – 16 and 17 Year Old Students**

Only children who are at least 16 years of age may be disenrolled from the district. The person seeking to discontinue the child's enrollment shall submit a signed, written request and submit it to the superintendent using the form which is attached to this policy. The district will follow the procedures outlined on the attached form in considering requests to disenroll.

Only children disenrolling to attend a non-accredited school may be exempt from this policy. The person with legal or actual charge or control of the child must provide the superintendent with a copy of the signed request submitted to the State Department of Education for attending non-accredited schools. The superintendent may confirm the validity of the submission with the State Department of Education.

### **Attendance Officer**

Each building principal is designated as an attendance officer for the district. Each building principal, at his or her discretion, may delegate these responsibilities to any other qualified individual. The attendance officer is responsible for enforcing the provisions of state law relating to compulsory attendance. This responsibility includes but is not limited to filing a report with the county attorney of the county in which a student resides. Compensation for the duties of attendance officer is included in the salary for the superintendent or designee.

### **Expectations for Regular Attendance:**

1. Students are expected to attend every class, every day.
2. The only "excused" absences shall be:
  - a.) absences when a licensed health care provider has confirmed in writing that, in his/her professional medical opinion and within his/her scope of practice, the student or a child whom the student is parenting is so physically or mentally ill that attendance of the student is impracticable or impossible;
  - b.) absences when the Nebraska State Patrol confirms that weather conditions have made the roads impassable so that the student's attendance impracticable or impossible;
  - c.) student attendance at a school-sponsored activity;
  - d.) student has been suspended or expelled from school by the school district; and

- e.) absences required by law enforcement, child protective services or a court of competent jurisdiction, confirmed in writing to the school district.
3. All other absences, including absences for minor illnesses, family events, routine medical appointments are simply "absences."
  4. Upon return from every absence or partial-day absence, students must remain after school for 30 minutes to meet with teachers, work on missed assignments or simply to study. The location and supervision of the student will be determined by the building principal in consultation with the student's classroom teacher(s).
  5. Students must not be absent from any course more than seven days in any given quarter in order to earn academic credit for that course for that quarter. Students who lose credit in any given course due to absences may appeal that loss of credit to his/her building principal.

### **Attendance Incentives:**

Building principals will establish attendance incentives for their students. Those may include:

- Special Recognition of students who have 95% or greater attendance each quarter
- Excusal from certain classroom assignments (final exam, written report) for students with 95% or greater attendance each semester
- Special rewards (movie day, field day, extra recess) for students who have 95% or greater attendance

At the conclusion of each quarter building principals report to the board what incentives were implemented and the effectiveness of the incentive in improving student attendance and engagement.

**When students are absent from school, district staff will respond as follows:**

#### **First Stage Response to Absences**

1. A member of district staff will contact parent via telephone for every absence if the parent has not contacted the school in advance.
2. After a student's third absence in any given quarter, the school's attendance officer will schedule a meeting with the student's parents /or guardians. That meeting will be documented on the attached form.
  - a. This meeting must be attended by attendance officer, parents, social worker or principal, and the student (if appropriate)
  - b. The meeting shall be documented
  - c. The meeting shall develop a collaborative plan to assist the student in improving his/her attendance
3. Building principals must meet with teachers who have 10% of their students miss seven or more days of class in any given quarter to

review strategies to increase student engagement. A consistent pattern of student absences from a teacher's classes may result in a formal remediation plan.

4. The superintendent must meet with the building principal if more than 10% of students miss seven or more days of class in any quarter to review strategies to improve the school building's climate. A consistent pattern of building-wide absenteeism may result in a formal remediation plan.

### **Second Stage Response to Absences**

Students who accrue more than 20 absences in a school year may be referred to the county attorney for action under NEB. REV. STAT. § 43-247(3)(a) and (b).
