5052 School Wellness

The Centennial Public School (CPS) District is committed to providing school environments that promote and protect children's health well-being, and ability to learn by supporting healthy eating and physical activity. Therefore, it is the policy of the Centennial Public School District that:

- The school district will engage students, parents, teachers, food service professionals, health professionals, and other interested community members in developing, implementing, monitoring, and reviewing district-wide nutrition and physical activity policies.
- All students in grades K-12 will have opportunities, support, and encouragement to be physically active on a regular basis.
- Foods and beverages sold or served at school will meet the nutrition recommendations of the U.S. Dietary Guidelines for Americans. • Qualified child nutrition professionals will provide students with access to a variety of affordable, nutritious, and appealing foods that meet the health and nutrition needs of students and will provide clean, safe, and pleasant settings and adequate time for students to eat. • To the maximum extent practicable, our district will participate in available federal school meal programs.
- The district will provide nutrition education and physical education to foster lifelong habits of healthy eating and physical activity.

TO ACHIEVE THESE POLICY GOALS:

I. Wellness Team

The school district will create, strengthen, or work within the existing wellness team to develop, implement, monitor, review, and, as necessary, revise school nutrition and physical activity policies. The team will also serve as resources for implementing these policies. (The wellness team consists of a group of individuals representing the school and community, and may include parents, students, representatives of the school food authority, members of the school board, school administrators, teachers, health professionals, and members of the public.) The team will plan to meet two times/semester.

II. Nutritional Quality of Foods and Beverages Sold and Served on Campus School Meals

Meals served through the National School Food Program will meet, at a minimum, nutrition requirements established by local, state, and federal statutes and regulations.

Free and Reduced-price Meals

CPS will make every effort to eliminate any social stigma attached to, and prevent the overt identification of students who are eligible for free and reduced-price school meals.

A la Carte Items

- Are offered in compliance with USDA regulations prohibiting the sale of “foods of minimal nutritional value” where school meals are served or eaten during the meal period.

Competitive Beverages (only the following beverages are allowed)

- 100% full strength fruit and vegetable juices with no sweeteners (nutritive or nonnutritive).
- Water or water flavored with fruit/fruit juices

Definition of Foods of Minimal Nutritional Value

For purposes of this regulations, “foods of minimal nutritional value” has the same meaning as in the federal regulations for the National School Lunch Program. Specific foods of minimal nutritional value include, but are not necessarily limited to:

- a. Soda, pop, energy drinks
- b. Water ices except those which contain fruit or fruit juices
- c. Chewing gum
- d. Processed candies
- e. Fruit snacks or gummies
- f. Non-baked potato chips
- g. Cakes, cookies, brownies

Definition of Healthy Foods

For purposes of this regulation, “healthy foods” means foods that are not foods of minimal nutritional value, and that are low in fats, sodium and sugars, and high per serving in the nutrients which are needed to meet Reference Daily Intakes.

Vending Machines

The sale of foods of minimal nutritional value is not allowed on school property in areas accessible to students during the school day but will be available outside of school hours.

School Activities/Events

Concession stands at school activities and events will include healthy food choices.

Fundraising Activities

To support children's health and school nutrition-education efforts, CPS will encourage school fundraising activities that do not involve food or will use only food that meet the above nutrition and portion size standards for foods and beverages sold individually. On an infrequent basis foods of minimal nutritional value may be allowed. CPS will also encourage fundraising activities that will promote physical activity.

Snacks

Snacks served during the school day will make a positive contribution to children's diets and health. CPS will assess if and when to offer snacks based on timing of school meals, children's nutritional needs, children's ages, and other considerations.

Rewards

CPS will use foods or beverages that meet the nutrition standards for foods and beverages sold individually (above), as rewards for academic performance or good behavior. CPS will not withhold food or beverages (including food served through school meals) as a punishment.

Celebrations

CPS will limit celebrations that involve food during the school day. The district will provide parents a list of foods that meet the district's snack standards and ideas for healthy celebration/parties.

III. Nutrition and Physical Activity Promotion and Food Marketing Nutrition Education and Promotion

Centennial Public School District aims to teach, encourage, and support healthy eating by students. Schools should provide nutrition education and engage in nutrition promotion that:

- Is offered at each grade level to all students; including those with disabilities, special health care needs and in alternative education settings.
- Encouraged in not only health education classes, but also classroom instruction in subjects such as math, science, language arts, social sciences, and elective subjects;
- Administrators will inform teachers about opportunities to attend training on nutrition and the importance of role modeling healthful habits for students;
- Enables teachers to secure recommended nutrition resources in adequate quantities for their students; and
- Enables teachers to access nutrition resources via Nebraska Action for

Healthy Kids website and the Nebraska Department of Education Nutrition Services website.

Family & Community

Parents will be invited to join students for school meals. If a lunch is sent to school, parents are encouraged to pack healthy lunches and snacks. The district will provide parents a list of foods that meet the district's snack standards and ideas for healthy celebrations/parties, rewards, and fundraising activities.

Staff Wellness

Centennial Public School District highly values the health and well-being of every staff member and will plan and implement activities and policies that support personal efforts by staff to maintain a healthy lifestyle. **IV.**

Physical Activity Opportunities and Physical Education

Daily Physical Education (P.E.) K-12

- All students in grades, K-12, including students with disabilities, special health-care needs, and in alternative educational settings, will be provided the opportunity to receive daily physical education for the entire school year.
- Students will spend at least 50 percent of physical education class time participating in moderate to vigorous physical activity.
- The curriculum will be sequential and consistent with Nebraska Department of Education Physical Education Essential Learnings for Kindergarten through grade 12.

Daily Recess

- Elementary students will have at least 20 minutes a day of supervised recess, preferably outdoors.
- Moderate to vigorous physical activity will be encouraged verbally and through the provision of adequate space and age-appropriate equipment.

Physical Activity and Punishment

Teachers and other school and community personnel will not use physical activity (e.g., running laps, pushups) or withhold opportunities for physical activity (e.g., recess, physical education) as punishment. (This guideline does not apply to extracurricular sport teams).

Integrating Physical Activity into Classroom Setting

For students to receive the nationally-recommended amount of daily physical activity (i.e., at least 60 minutes per day) and for students to fully embrace regular physical activity as a personal behavior, students need

opportunities for physical activity beyond physical education class. Toward that end:

- Classroom health education will complement physical education by reinforcing the knowledge and self-management skills needed to maintain a physically-active lifestyle and to reduce time spent on sedentary activities, such as watching television;
- Opportunities for physical activity will be incorporated into other subject lessons;
- When circumstances make it necessary for students to remain indoors and inactive for two or more hours, the students will be given periodic breaks during which they will be encouraged to stand and be moderately active;
- School administrators will inform teachers about opportunities to attend training on physical activity/physical education and the importance of modeling healthful habits for students; and
- Teachers will be able to access physical education/physical activity resources via Nebraska Action for healthy Kids website and the Nebraska Department of Education PE Health website.

Safe Routes to School

The school district will assess and, if necessary and to the extent possible, make needed improvements to make it safer and easier for students to walk and bike to school. When appropriate, the district will work together with local public works, public safety, and/or police departments in those efforts. The school district will explore the availability of federal "safe routes to school" funds, administered by the state department of transportation, to finance such improvements.

Use of School Facilities Outside of School Hours

School spaces and facilities should be available to students, staff and community members before and after the school day, on weekends, and during school vacations. These spaces and facilities also should be available to community agencies and organizations offering physical activity and nutrition programs. School policies concerning safety will apply at all times.

Family & Community

Information will be provided to help families incorporate physical activity into the lives of all household members. Families and community members will be encouraged to institute programs that support physical activity.

V. Monitoring and Policy Review

Monitoring

The superintendent or designee will ensure compliance with established

district-wide nutrition and physical activity wellness policies. The elementary and high school principal or designee will ensure compliance with those policies in their school and will report on the school's compliance to the school district superintendent or designee.

School food service staff will ensure compliance with nutrition policies within school food service areas and will report on this matter to the superintendent. If the district has not received a SMI review from the state agency within the past five years, the district will request from the state agency that a SMI review be scheduled as soon as possible.

The superintendent or designee will develop a summary report every three years on district-wide compliance with the district's established nutrition and physical activity wellness policies based on both elementary and high school input. That report will be provided to the school board and will be available for public review in the superintendent's office.

Policy Review

To help with the initial development of the district's wellness policies, a baseline assessment of the school's existing nutrition and physical activity environments was conducted in 2017 utilizing the *School Health Index* from the Centers for Disease Control and Prevention. As part of that review, the school district reviewed nutrition and physical activity policies, provisions of an environment that supports healthy eating and physical activity; and nutrition and physical education policies and program elements. The district will as necessary revise the wellness policies and develop work plans to facilitate their implementation and the School Health Index will be reviewed at least every three years.

EDUCATOR SHORTAGE: TAKING CARE OF BUSINESS ROOM 201-202

"Now Hiring" is an all-too-common sign for schools. This pre-conference will expose three aspects of the quest to improve this situation. You will hear how Plainview Public Schools is placing focus on potential teachers (students) to ensure they are invited to pursue careers in the education field. Partners from UNL and AASPA will share Educator shortage trend data and strategies to alleviate the situation at the state and national level, including how educator preparation programs can be a proactive partner to school districts. The innovative program at Westside Community Schools to move classified staff to certified teachers through the para-to-teacher partnerships will round out this event.

A CIVIL DISCOURSE: BOARD, ADMINISTRATION, AND INDIVIDUAL RESPONSES IN TENSE SITUATIONS ROOM 203-204

Schools are drawing greater attention than ever before. That makes now a perfect time for a refresher on how to best respond to all that attention. This training on Civil Discourse will help you understand and strive for constructive conversations when things get heated. What's the best way to handle the meeting when 50 patrons show up for public comment? What exactly do you say when approached at the gas station by an unhappy staff member? When does disruptive behavior cross the line? Attorneys at Perry and KSB will lay out the law and use real-life examples to help board members and administrators learn how to turn these negative situations into opportunities for productive engagement.

GUIDING THROUGH THE STORM JEFF EVANS

Jeff's skills have been acquired not only on the highest peaks around the world, but also through guiding blind climber Erik Weihenmayer on extraordinarily challenging objectives including the summit of Mt Everest and a 2nd place finish on ABC's adventure series, Expedition Impossible. Jeff reminds us that, in fact, we are all guides in some capacity...professionally and personally. These experiences highlight the importance of adopting an expeditionary mindset necessary to succeed in our current VUCA (Volatile, Uncertain, Complex, and Ambiguous) world, which often involves the ability to evaluate and adjust the ever-changing route up the mountain, the tools in your pack and the trajectory of the team.

CREATING THE CHAMPION WITHIN MOLLY KENNEDY

Her heart's work is to inspire you to paradigm shift your way to developing a resilient mindset that breeds confidence and success. Molly's message will empower you to get UNstuck from any challenge or transition life throws at you. You'll learn practical, user-friendly strategies applicable to every aspect of life. This message will stick to your ribs! She 'walks the walk' when it comes to resiliency, grit and perseverance. Molly grew up in a dysfunctional family with addiction, divorce, abuse, neglect, abandonment, suffered from an eating disorder, was suicidal and a runaway at 15 years old. Prepare yourself for a message of how to overcome obstacles, reach goals and create the best version of yourself!

WE CAN HELP

PARTNERSHIP

A partnership with us means organizations can upskill and train their employees in a specific area of interest with the help of our experienced faculty who are experts in their fields.

TEACHER CAREER LADDER

We've developed a program to meet the needs of local school districts to create qualified teachers who can make an impact in their classrooms. The Teacher Career Ladder program aims to prepare anyone interested in teaching with the ability to acquire a teaching certificate.

An ideal candidate for this program would be an individual who holds college credit and wants to become an educator who holds employment as a para-educator in a K-6 classroom.

MASTER OF EDUCATION

Midland's Master of Education in Leadership, Teaching, and Learning program is designed for full-time teachers who are ready to grow as educators in their school or district.
