Section I: Compensation Guidelines

Exceptions and/or changes to the following regulations require the approval of the Superintendent.

Compensation Philosophy

The compensation philosophy serves as a tool to attract and retain a high-performing, diverse and motivated workforce. Each year, the District develops and recommends a pay system for all District personnel to the Board of Trustees for adoption. The pay system is designed to reflect the business needs of the District while providing appropriate and competitive pay. The system shall be administered with the intention that employee pay will:

- Be competitive with appropriate TASB – identified labor markets;
- Reflect the levels of skill, effort, and responsibility required for various jobs;
- Foster understanding of pay decisions and responsible pay practices;
- Remain fiscally controlled and cost effective;
- Maintain a fair and transparent process for compensation decisions;
- Comply with all federal, state, and local laws, and Board of Trustees policies;
- Prohibit discrimination or adverse impact or treatment in regard to an individual's race, color, national origin, religion, sex (including pregnancy), age, disability, sexual orientation, gender expression or gender identity and other protected classes.

Pay Structures & Pay Grades

The pay system shall consist of salary structures of the major employee groups.

Pay ranges for each pay grade are based on an assessment of the job responsibilities, which establishes the minimum and maximum pay rates within the range. Employees will be paid the daily or hourly rates within the ranges as established for their assigned position and in accordance with the job description. Pay rates outside the established range require the Superintendent's approval and must be reported to the Board of Trustees.

Salary Advancement

Pay grades shall be structured to allow the opportunity to increase employee pay within the range for continued service to the District. On an annual basis, the Superintendent shall make recommendations to the Board of Trustees regarding salary increases. Recommendations shall be based on consideration of factors such as cost of living indexes, wage increases, salary structure adjustments within competitive job markets, and District budget resources.

Transfers between Employee Job Groups

Compensation for employee groups is unique, and the years of experience for most are not transferable between groups except as outlined below.

1. Teacher assistant to teacher (see Credit for Prior Experience under [Teachers](#) for more information);
2. Teacher to teacher assistant (certified teacher who transfers to a teacher assistant receives salary consideration for all teacher experience as a teacher assistant).

Compensation Definitions

Minimum of the Range

The Minimum of the Range is the lowest salary rate for the range for that specific position.

Midpoint of the Range

The Midpoint of the Range represents the market value for the position and is the salary amount halfway between the lowest and highest salary rate for that specific position.

Salary Range Maximum

The Maximum of the Range is the highest salary rate for that specific position.

Internal Equity

Internal equity identifies and addresses equity in employee compensation between employees who are considered similarly situated and are performing similarly.

Internal equity does not attempt to make pay exactly the same for employees simply because they are in the same job title. Consideration is taken on the similarities and dissimilarities in experience, skills, abilities, and record of job performance, and aligns the pay fairly and equitably based on those factors.

External Market Equity

External market equity is an assessment of external market compensation that attempts to ensure competitiveness in pay practices for the same duties. This process is used as a tool to compare similar positions with external organizations and industries to align pay practices.

External equity does not attempt to make pay exactly the same for employees in other districts simply because they are in the same job title.

Position Change/Transition

Position change/transition occurs when an employee moves from their current position to a new position in the same or different department/division within the District.

Position Reassignment

Position reassignment is a movement from a pay grade structure to an experience-based placement scale (teacher, counselor, or librarian). Salary placement will be made according to years of creditable experience.

Reinstatement

Reinstatement occurs when an employee is rehired following a separation or break-in-service from the District. The District does not guarantee placement within the same pay grade or same salary upon reinstatement.

Salary Compression

Salary compression occurs when there is little difference in pay between employees despite tenure, skills, experience, and performance.

Salary Proration

Salary proration occurs when an employee starts their new position after the start date for the position calendar or leaves a position prior to completing their work calendar. The salary is determined based on the total number of days worked.

Supplemental Pay

Supplemental pay is an additional stipend or extra duty pay that is paid in addition to, but separate from, regular base salary. **Supplemental pay is authorized on a year-to-year basis and is not to be considered a property right.** Supplemental pay will be discontinued upon cessation of assignment or upon the occurrence of an event which otherwise causes the employee to be ineligible to receive the supplemental pay.

Discretionary leave is not applicable to supplemental pay job assignments and may result in a reduction of the supplemental pay provided. In the case of an emergency, an employee may request an absence from their supervisor.

Noncontractual supplemental duties for which supplemental pay is received may be discontinued by either party at any time. An employee who wishes to relinquish a paid supplemental duty may do so by notifying the Superintendent or designee in writing. Paid supplemental duties are not part of the District's contractual obligation to the employee, and an employee shall hold no expectation of continuing assignment to any paid supplemental duty. (Board Policy DK (Local))

Non-Exempt employees are not eligible for stipends.

All supplemental pay/stipends may include attendance at training, assistance at various activities/event/games and workdays as assigned by the Athletic Director or Supervisor.

Supplemental Pay/Stipend may require specific qualifications as defined by the Superintendent.

Job Classification/Reclassification

Job classification/reclassification is the process for accurately and objectively defining the position/job duties, responsibilities, tasks, level of authority and minimum requirements.

All positions, with the exception of teachers, librarians, nurses, substitutes, and part-time/temporary positions, are assigned to pay grades based on the level of skill, effort, and responsibility required for the job assignment.

According to Board Policy DK (Local), all personnel are employed subject to assignment and reassignment by the Superintendent or designee when the Superintendent determines that the assignment or reassignment is in the best interest of the District. Reassignment shall be defined as a transfer to another position, department, or facility that does not necessitate a change in the employment contract of a contract employee. Any change in an employee's contract shall be in accordance with policy DC.

The campus principal maintains authority to make reassignments within the campus based on staffing needs, program needs, and to meet budgetary considerations.

Section II: Pay Determination Guidelines

Salary Ranges

A salary range is an established range of pay organized into pay grades. Each job is assigned a pay grade.

Salary range placement guidelines include:

- New Hires are not placed above midpoint of the range without the approval of the Superintendent.
- New Salaries may not exceed the maximum salary of the new pay grade without the approval of the Superintendent.
- Other exceptions to compensation guidelines also require the Superintendent's approval.

Evaluation of Experience from Other Entities

Several factors are examined to determine whether prior experience from other entities is creditable. These factors include:

1. Position held (similar or related positions)
2. Accreditation status of the institution
3. Percentage of days worked
4. Number of days worked (must equal 90 full-time equivalent days)
5. Dates of employment
6. Type of institution

Approval of service credit is subject to state law as outlined by the Texas Education Agency (TEA). Lake Dallas ISD adheres to the minimum requirements as stated in Subchapter CC of the Commissioner's Rules on Creditable Years of Service.

Creditable Years

Creditable service does not include part-time/temporary employment, internships, or employment as a non-certified substitute, regardless of service time, date(s) of termination, or type of accumulation.

Section III: Service Records

The employee is responsible for submitting original service records to Lake Dallas ISD. The issuing school district and the employee are responsible for ensuring that service records are true, correct, and that all service recorded was performed. **Photo copies of notarized service will not be accepted.**

Employees submitting paper copies of an original service record must have all copies notarized by the previous district. Service records can also be electronically sent directly from the previous district to **humanresources@ldisd.net**.

Questions have been raised concerning the validity of creditable service documented on forms other than the Texas Teacher Service Record. Subsection (d) of Section 153.1021 states that:

“The basic document in support of the number of years of professional service claimed for salary increment purposes and both the state’s sick and personal leave program data for all personnel is the teacher service record (form FIN-115) or a similar form containing the same information.”

To request your Lake Dallas ISD service record contact Human Resources at 940-497-8518.

Section IV: College Transcripts

Certain positions may be eligible for additional compensation by earning advanced degrees. Official transcripts must show the date the advanced degree was conferred.

College transcripts submitted from an accredited university or college should be provided to Human Resources at the time of employment. Employees submitting these records at a later date may hand deliver the documents to Human Resources or request the educational entity email the documents to **humanresources@ldisd.net**.

Section V: Salary Guidelines for New Hires

Credit for Prior Experience

Teachers

- LDISD grants one (1) year of teaching experience for each year of approved experience according to the rules and regulations set by the Texas Education Agency (TEA) and local policy. Experience credit is granted by placement on the Teacher Salary Schedule according to creditable years of experience.
- Experience from foreign schools, colleges, and universities accredited by a recognized accrediting agency of the foreign country may be recognized for salary increment purposes, provided the minimum requirements in subsection (f) of Chapter 153; School District Personnel, Subchapter CC; Commissioner's Rules on Creditable Years of Service are met. Such experience will be considered on a case-by-case basis. The recognized accrediting entity in the foreign country is the Department of Education or the Higher Education authority for that country. The foreign authority is responsible for providing relevant, credible, and accurate information before any credit is given (documents must be translated in English format). Placement on the appropriate salary schedule becomes effective after final approval from TEA is received. Upon TEA/Compensation approval, the pay is given for that year and no prior years. **The District is not liable for any previously non-compensated salary related to such experience.**

Substitute Teacher.

A substitute teacher, beginning with the 1998-1999 school year, is eligible for creditable service if they serve the required number of days for the applicable school year. Substitute is defined as a certified teacher who works on call, does not have a full-time assignment, and provides instruction. The individual must be employed in an entity eligible for creditable service and hold a valid Texas teaching certificate or a valid teaching certificate from the state where the school is located at the time of service.

This provision applies to out-of-state substitute teaching experience but does not apply to out-of-country substitute experience. All eligible prior-year substitute experience can be claimed for placement on the 1998-1999 minimum salary schedule.

Most school districts and charter schools only generate substitute service records upon request. This practice allows for a more reasonable maintenance of records since many substitutes may not meet the service day requirements in a given year or may not be certified teachers.

Certified Educational Aide.

Beginning with the 2004-2005 school year a certified educational aide is entitled to up to two years of full-time equivalency for creditable experience for direct student instruction (i.e., teaching experience credit). The educational aide must have attained initial teacher certification subsequent to their educational aide work. An individual already holding a teaching certificate serving in an aide position is not entitled to the two years of service. The two years of service as an aide should be documented in the footnote section of the individual's service record or a similar form.

- Career & Technology teachers may count up to two years of full-time work experience for salary increment purposes if the work experience was required for career and technology certification (Chapter 153. School District Personnel, Subchapter CC, Commissioner's Rules on Creditable Years of Service).

Librarians

- Librarians are placed on the appropriate salary of their respective salary schedules according to creditable years of experience.
- LDISD grants one (1) year of experience for each year of approved experience according to the rules and regulations set by the Texas Education Agency (TEA) and local policy. Experience credit is granted by placement on the appropriate salary schedule according to degree level and years of creditable experience.
- Experience from foreign schools, colleges, and universities accredited by a recognized accrediting agency of the foreign country may be recognized for salary increment purposes, provided the minimum requirements in subsection (f) of Chapter 153; School District Personnel, Subchapter CC; Commissioner's Rule on Creditable Years of Service are met. Such experience will be considered on a case-by-case basis. The recognized accrediting entity in the foreign country is the Department of Education or the Higher Education authority for that country. The foreign authority is responsible for providing relevant, credible, and accurate information before any credit is given (documents must be translated in English format). Placement on the appropriate salary schedule becomes effective after final approval from TEA is received. Upon TEA/Compensation approval, the pay is given for that year and no prior years. **The District is not liable for any previously non-compensated salary related to such experience.**
 - Effective with the 1998-99 school year, a librarian may receive credit for experience as a certified substitute teacher for salary increment purposes, provided the individual held a valid teaching certificate at the time the service was rendered, was employed in an entity recognized for creditable years of service, and the minimum requirements (minimum number of days and the percentage of day employed) were met. The rule includes substitute teaching out-of-state, as long as the individual held a valid teaching certificate at the time the work was completed. A valid emergency or local permit also meets the certification requirement.
 - Beginning with the 2004-2005 school year, a teacher assistant who subsequently becomes a certified teacher may receive up to two years of teacher assistant experience for salary increment purposes, provided they held a valid Educational Aide certificate and worked the required number of days and percent of time when employed. Experience outside LDISD must be verified using the teacher service record form (FIN-115) or a similar form containing the same information.

School Nurses

- LDISD grants one (1) year of experience for each appropriate creditable year of experience. A bachelor's or associate degree and registered nurse's license (RN) are required for employment as a school nurse.
- The Texas Education Agency guidelines will be followed for determining creditable experience. Experience used for salary placement decisions is determined by the Human Resources Department, and is subject to the following exception:

Exception to Compensation Policy

Validated non-school based nursing or direct patient services experience will be credited on a one-year for one-year basis as determined by the Human Resources Department. The employee is responsible for providing the relevant service record to qualify for this exception. **This is a local credit only (LDISD).** As a local credit, this service credit may not be recognized by other Texas school districts.

- Effective with the 1998-99 school year, a school nurse may receive credit for experience as a certified substitute teacher for salary increment purposes, provided the individual held a valid teaching certificate at the time the service was rendered, was employed in an entity recognized for creditable years of service, and the minimum requirements (minimum number of days and the percentage of day employed) were met. The rule includes substitute teaching out-of-state, as long as the individual held a valid teaching certificate at the time the work was completed. A valid emergency or local permit also meets the certification requirement.
- Beginning with the 2004-2005 school year, a teacher assistant who subsequently becomes a certified teacher may receive up to two years of teacher assistant experience for salary increment purposes, provided they held a valid Educational Aide certificate and worked the required number of days and percent of time when employed. Experience outside LDISD must be verified using the teacher service record form (FIN-115) or a similar form containing the same information.

Speech-Language Pathologists, Occupational Therapists, Physical Therapists and Licensed Specialists in School Psychology

- LDISD grants one (1) year of experience for each 12 consecutive months of full-time professional employment in the specific job field in accredited public and/or private schools, post-secondary schools, teaching hospitals, and other organizations who provide similar services.

Non-Teacher Positions

- LDISD awards credit for years of experience in half year increments for similar work experience.
- LDISD awards one year credit for experience in same position.

The salary of a bus driver with previous experience in a public school district(s) as a bus driver shall be placed on the salary step commensurate with their total years of experience, regardless of whether they served in a less than full-time position or received creditable years of service from their previous employer(s). This determination shall be for the salary purposes only. Practices consistent with Texas Administrative Code governing service records shall be followed for purposes of determining creditable years of service.

For example, a bus driver who possesses a CDL license and previously drove professionally, will be awarded .5 years of credit for each year of professional driving. (i.e. chauffeur, tour bus, etc.) A bus driver with previous school bus driver experience will be awarded on year credit for each year of bus driver experience.

Pay Equity Adjustments

Subject to District policy restrictions on mid-year pay increases (DEA-Local and DEAB- Legal), the Superintendent may authorize pay adjustments for the purpose of correcting pay inequities for individual employees caused by internal error.

Job Classification/Reclassification

Human Resources with approval from the Superintendent will classify new positions or reclassify existing positions, as necessary, based on job requirements and the TASB comparability studies.

Procedures of Overpayment/Underpayment of Wages of LDISD Employee Salaries

In the event of overpayment of wages:

1. **Recovery of Overpayments:** The district may recover funds mistakenly overpaid to an employee, even in cases of district negligence and employee innocence, unless repayment would be inequitable.
2. **Employee Agreement:** Employees must provide written consent for wage deductions related to overpayments. This consent is included in the employee's contract or may be obtained separately.
3. **Repayment Plan:** Prior to deducting overpayments from wages, the district will attempt to reach an agreement with the employee on a repayment plan to prevent financial hardship.
4. **Deduction from Wages:** Deductions will be made in accordance with the terms of the agreement. If an employee refuses to enter into a repayment plan, the district may pursue other legal avenues for recovery.
5. **Notification:** Employees will be notified in writing of the overpayment amount, the reason for the overpayment, and available repayment options.

In the event of underpayment of wages:

1. **Correction of Underpayments:**
 - a. If a district error results in an employee being underpaid, the district must correct the employee's pay and provide backpay for the current year plus the three prior years (up to four years total), in accordance with Texas law and commissioner rulings.
 - b. For at-will employees, backpay is limited to the prior two years, in accordance with the two-year statute of limitations for non-contract claims.
2. **Employee Error – Service Records:**
 - a. If an underpayment occurs due to an employee's failure to provide service records, the district is not required to provide backpay for any prior years.
 - b. Once the correct service records are submitted, the district will adjust the employee's pay for the current contract year but will not issue retroactive pay for any previous years in which records were missing.
3. **Notification and Correction Process:**
 - a. Employees must submit claims of underpayment in writing to the district payroll office.
 - b. Upon verification of an underpayment, the district will notify the employee of the correction and provide repayment in a timely manner.
 - c. The district will document all underpayment corrections to ensure compliance with applicable laws and policies.

Flex Day Guidelines

In Lake Dallas ISD, we recognize that professional learning is most impactful when it takes place in real time, allowing participants to address specific instructional needs immediately. Additionally, we understand that professional learning is most effective when staff engage in a structured, focused environment, free from the distractions of daily school operations.

To meet these needs, Lake Dallas ISD offers a Professional Development Flex Day on January 19, 2026. By providing for this Professional Development Flex Day, Lake Dallas ISD will allow and encourage our instructional staff (those on a 187-day Teacher Contract) to pursue professional learning when it is most appropriate for them. Furthermore, this Flex Day will allow the instructional staff to participate in self-selected activities that are differentiated to meet their individual needs.

Classroom instructional aides may also use January 19, 2026, as a Flex Day by submitting 7.5 hours of compensatory time in exchange for that workday.

Professional Learning for Flex Day MUST:

- Relate to the current teaching assignment, area of content certification, LDISD aligned instructional technology, and/or approved District Initiatives
- Occur on non-duty days, or outside of normal duty work hours between May 24, 2025 and December 31, 2025. If an employee is receiving compensation from any source for attending/presenting, the activity is not eligible for Flex Day credit.
- Total 6 hours. Instructional staff must complete a total of 6 hours of training. Multiple trainings may be combined to meet this requirement, but each individual training must be at least 1 hour long.

Examples of Acceptable Professional Development

- *District provided training (ex: curriculum development/writing, G/T training)*
- *Pre-approved Workshops at Region X/XI*
- *Technology staff development offered after hours by District Technology Department*
- *Instructional Conferences attended in the summer*
- *District New Teacher Orientation*

Professional Learning for Flex Day DOES NOT APPLY to:

- *Compliance Training (sexual harassment, child abuse, etc), CPR training, AED Training, CPI training, CDL training or updates, team planning, or site based meetings are NOT considered Professional Development and do not qualify for Flex Day hours.*
- *Independent book studies*
- *Coaches Clinics*
- *Professional Development that was not pre-approved*

Professional Learning must be pre-approved by the Campus Principal.

If Professional Learning is not submitted by December 31, 2025, the staff member will attend District-provided session(s) on January 19, 2026.

She can't escape her firescales, and she can't escape her reputation as the deadliest dragon in Pyrrhia. "Whether it's the mighty pyramids of Egypt or the majestic temples of Mexico, we have a good idea of what the past looked like. But what about our other senses: The tang of Roman fish sauce and the springy crust of Egyptian sourdough? The boom of medieval cannons and the clash of Viking swords? The frenzied plays of an Aztec ballgame...and the chilling reality that the losers might also lose their lives? History often neglects the tastes, textures, sounds, and smells that were an intimate part of our ancestors' lives, but a new generation of researchers is resurrecting those hidden details, pioneering an exciting new discipline called experimental archaeology--Provided by publisher.

~~"Plant-loving Ridhi Kapadia and popular Nilesch Batra were friends once. Now, seventeen and alone, Ridhi blends natural perfumes, wears flower crowns, and wanders her local woods, listening for the leafy whispers of her beloved trees. Pleading for the yakshas to admit her into their enchanted forest kingdom, where she knows she truly belongs. After learning his parents' perfect marriage is a sham and getting suspended from school, a heartsick Nilesch lands at Ridhi's doorstep—the last thing either of them wants. So when a pretty yakshini offers him the distraction of magic, the same magic he mocked Ridhi for believing in, he jumps at it. Furious, Ridhi strikes a bargain with a noblewoman of the yaksha court. In exchange for helping restore her reputation, Lady Sulochana will turn Ridhi into the yakshini she yearns to be and teach her to divine the trees' murmurs. But when Nilesch ends up trapped in the yakshas' realm, Ridhi realizes the leaves might be telling a disturbing story about the forest her heart is rooted in—one that, even if the two of them band together, threatens to shred the future like so many thorns"— Provided by publisher.~~

<p>Genocide (Groundwork Guides) by Springer, Jane (#2785HF1) Paperback — Greenwood Books / House of Anansi Press, 2024</p> <p>"What is genocide? Why does it happen? What can be done to prevent it from happening again? At the end of the Second World War, with the establishment of the United Nations, the holding of the Nuremburg Trials and the adoption of the Genocide Convention, the international community assured itself that genocide would never happen again. But never again has become a meaningless phrase. This book asks why. It also asks, what is genocide? Where has it happened in the past? Who is being threatened by genocide today? And what can we do to prevent this terrible crime from recurring? Providing an overview of the history of genocide worldwide, this revised, expanded edition helps readers answer these questions. It brings them up to date with recent events--the killing of the Rohingya in Myanmar, the persecution of the Uyghurs in China, the broader recognition of the genocide of Indigenous Peoples, the resurgence of fighting in Darfur, and the wars in Ukraine and the Middle East. It examines and elucidates the debates and controversies surrounding the use of the term genocide as well as the reasons for the common response by individuals, governments and the United Nations--denial"--Provided by publisher.</p> <p>Dewey: 304.6; Audience: Young Adult; Interest Level: YA From the publisher: Grades 9-12; Ages 14-18 From Booklist: Grades 9-12; Kirkus: Ages 14-18</p> <p>Tags: Prejudice & Racism Responsible Decision-making Social Issues</p>	—	\$14.16	1	\$14.16

But sometimes, when obsession gets the better of scientists, they twist a noble pursuit into something sinister. Under this spell, knowledge isn't everything, it's the only thing--no matter the cost. Bestselling author Sam Kean tells the true story of what happens when unfettered ambition pushes otherwise rational men and women to cross the line in the name of science, trampling ethical boundaries and often committing crimes in the process. The Icepick Surgeon masterfully guides the reader across two thousand years of history, beginning with Cleopatra's dark deeds in ancient Egypt. The book reveals the origins of much of modern science in the transatlantic slave trade of the 1700s, as well as Thomas Edison's mercenary support of the electric chair and the warped logic of the spies who infiltrated the Manhattan Project. However, for a long time, their destination was unknown within the scientific community. Through the research of scientists in Canada and the United States and the support and efforts of ordinary people as well as Indigenous knowledge in Mexico, that mystery was finally solved. The mystery of locked rooms (Delta Games, Book 1) by Currie, Lindsay (#2022PDX) — \$16.81 1 \$16.81

Hardcover — Sourcebooks Young Readers, 2024

"Twelve-year-old Sarah Greene wants nothing more from her seventh-grade year than to beat the hardest escape room left in her town with her best friends, West, and Hannah. But when a foreclosure notice shows up on Sarah's front door, everything changes. Since her father became ill two years ago, things have been bad, but not lose your house bad . . . until now. Sarah feels helpless until the day Hannah mentions a treasure rumored to be hidden in the walls of an abandoned funhouse. According to legend, Hans, Stefan, and Karl Stein were orphaned at eight years old and lived with different families until they were able to reunite as adults. Their dream was to build the most epic funhouse in existence. They wanted their experience to be more than mirror mazes and optical illusions, so they not only created elaborate riddles and secret passages, but they also claimed to have hidden a treasure inside the funhouse. Once in, Sarah, West, and Hannah realize the house is unlike any escape room they've attempted. There are challenges, yes, but they feel personal. Like the triplets knew who would get in. It seems impossible, but so does everything about the house. As soon as they're in she immediately worries that attempting the funhouse is a bad idea but Sarah has no choice but to continue, since her future is at stake"--Publisher.

Not quite a ghost by Ursu, Anne (#2422WD9) — \$19.60 1 \$19.60

Hardcover — Walden Pond Press, an imprint of HarperCollinsPublishers, 2024

"The house seemed to sit apart from the others on Katydid Street, silent and alone, like it didn't fit among them. For Violet Hart--whose family is about to move into the house on Katydid Street--very little felt like it fit anymore. Like their old home, suddenly too small since her mother remarried and the new baby arrived. Or Violet's group of friends, which, since they started middle school, isn't enough for Violet's best friend, Paige. Everything seemed to be changing at once. But sometimes, Violet tells herself, change is okay. That is, until Violet sees her new room. The attic bedroom in their new house is shadowy, creaky, and wrapped in old yellow wallpaper covered with a faded tangle of twisting vines and sickly flowers. And then, after moving in, Violet falls ill--and does not get better. As days turn into weeks without any improvement, her family growing more confused and her friends wondering if she's really sick at all, she finds herself spending more time alone in the room with the yellow wallpaper, the shadows moving in the corners, wrapping themselves around her at night. And soon, Violet starts to suspect that she might not be alone in the room at all"--Provided by publisher.
