Mrs. Maldonado asked what the cost of hiring a search firm was, as well as expressing concerns over how hiring a firm could impact on the budget.

It was also explained that without a firm responsibility would fall on the CISD human resources department, and it could create future conflicts, and we would not want to have the district in such a position.

Mrs. Ortega also requested an estimate on how much it could potentially cost to the district.

Mr. Blanco also explained that having a search firm is the most standard process used. The process helps keep information confidential. The board needs to decide criteria for how to screen the firm. The firm will be the one to invite candidates, get community and staff and administration input.

Mr. Marco Macias – Child Nutrition Director mentioned that all meals are made following USDA guidelines as it pertains to carb limits, processed food, whole grain and specific levels of fats and sugars. He also explained that a challenge is the time that cafeteria staff has to prepare, cook, pack, deliver and serve breakfast. He also provided information to the board on how students reject other meals that were provided during his 7 years of experience. Mr. Macias periodically meets with students to explore other options.

Trustee Maldonado expressed concern over number of added sugars on menu items. She mentioned some of the items are the same items you could buy at Walmart for example. She would like to see more protein and more handmade items.
Mr. Macias explained that the items used in school cafeterias are products which use less sugar than consumer products from grocery stores.
Mr. Martinez mentioned that Child Nutrition doesn't need to have a large budget surplus and that the money could be used for providing better meals for the students.
Student advisors Mason and Moises shared experience over how students might go all day without eating vs eating something handmade which they might not like. So, the motion would authorize the administration legal counsel to execute the final version of the agreement approved by legal counsel to El Paso Community College and school district for the northwest early college high school location. Motion to approve by trustee Barnes and second by trustee Martinez.

Mr. Arnold Cantu addressed the board regarding how the defeasance works as well as how it would benefit the district.

Trustee Ortega asked what happens to savings from defeasance.

Trustee Barnes would like a report on savings over the years.

Trustee Borrego asked for administration to have reports and information readily available before the board meetings in anticipation of questions that board members might have.

Trustee Martinez mentioned having trouble disseminating the information given on board packets and he thinks it would help them to have information given to the board with ample time for them to go over and prepare questions.

Trustee Ortega clarified that for the record that she will be abstaining as she doesn't feel like she received enough information to make a good enough decision for the district. She mentioned that defeasance information should had been received ahead of time in packet given to the board.

Trustee Ortega corelated the refinancing to a mortgage and mentioned that when re-financing it not always equate to savings.

Mr. Catu explained to Mrs. Ortega the parameters that would allow for debt to be refinanced. He clarified that in case of market changes if there is not a savings of at least 3% they would not be able to complete the refinance.

3.C. **PUBLIC HEARING**

A Public Hearing Will be Held Regarding the 2025-2026 Property Tax Rate. The Public is Invited to Attend and Provide Public Comment.

Trustee Borrego asked what would happen to the tax payers if this added additional taxes.

Mrs. Pulley mentioned that this is not an increase in our current tax rate. And that an increase would require the district goes to the voters. She also mentioned that if taxpayers see an increase on the amount of their property taxes it would be due to an increase on their property evaluation.

Trustee Ortega expressed her comment on the community being burdened with over taxation. She believes that to her, the district is overtaxing the community. She thinks that being able to make an extra payment is an indicator of the district taking more than it should.

Mrs. Pulley mentioned that the district has been authorized to have an increase however it has not been needed at this time.

(LOCAL) Policy Comparisons

These documents are generated by an automated process that compares the updated policy to the current policy as found in TASB records.

In this packet, you will find:

- Policies being recommended for revision (annotated)
- New policies (not annotated)
- Policies recommended for deletion (annotated in PDF; not shown in Word)

Annotations are shown as follows:

- Deletions are in a red strike-through font: ~~deleted text~~.
- Additions are in a blue font: new text.
- Blocks of text that were moved without changes are shown in green, with double underline and double strike-through formatting to distinguish the text's new placement from its original location: ~~moved text~~ becomes moved text.
- Revision bars appear in the right margin to show sections with changes.

Note: While the annotation software competently identifies simple changes, large or complicated changes — as in an extensive rewrite — may be more difficult to follow. In addition, TASB's recent changes to the policy templates to facilitate accessibility sometimes make formatting changes appear tracked, even though the text remains the same.

For further assistance in understanding policy changes, please refer to the explanatory notes in your Localized Policy Manual update packet or contact your policy consultant.

A District employee or a parent or guardian of a District student may request reconsideration of instructional material used in the District's educational program on the basis that the instructional material fails to meet the standards set forth in this policy.

Guiding Principles

The following principles shall guide the Board and staff in responding to a request for reconsideration of instructional materials:

1. A complainant may raise an objection to an instructional material used in a school's educational program, despite the fact that the professional staff selecting the materials were qualified to make the selection, followed the proper procedure, and adhered to the objectives for instructional materials set out in this policy.
2. A parent's ability to exercise control over instruction extends only to his or her own child as set forth in Education Code Chapter 26.

3. Access to a challenged material shall not be restricted during the reconsideration process, except the District may deny access to a child if requested by the child's parent.

The major criterion for the final decision on challenged instructional materials is the appropriateness of the material for its intended educational use. No challenged instructional material shall be removed solely because of the ideas expressed therein.

Informal Reconsideration

When the District or a campus receives an objection to the appropriateness of an instructional material, the appropriate administrator shall try to resolve the matter informally. The administrator shall explain the selection process and discuss the intended educational purpose for the instructional material. If appropriate, the administrator may offer a concerned parent an alternative instructional material to be used by that parent's child in place of the challenged material.

If the complainant wishes to make a formal challenge, the administrator shall provide the complainant a copy of this policy and a form to request a formal reconsideration of the instructional material.

Formal Request for Reconsideration

A complainant shall make any formal request to reconsider an instructional material on the form provided by the District and shall submit the completed and signed form to the principal. Upon receipt of the form, the principal shall appoint a reconsideration committee.

The reconsideration committee shall include at least one member of the instructional staff who has experience using the challenged material with students or is familiar with the challenged material's content. Other members of the committee may include District-level staff, secondary-level students, parents, and any other appropriate individuals.

All members of the committee shall review the challenged instructional material in its entirety. As soon as reasonably possible, the committee shall meet and determine whether the challenged material conforms to the principles of selection set out in this policy and whether the challenged material will continue to be used in the educational program. The committee shall prepare a written report of its findings. The Superintendent, other appropriate administrators, and the complainant shall receive copies of the report.

Frequency of Review

After an instructional material has been reviewed through formal reconsideration, it shall not be reviewed again until it is evaluated in the periodic local selection process.

Appeal	The complainant may appeal the decision of the reconsideration committee in accordance with appropriate complaint policies, starting at the appropriate level. [See DGBA, FNG, and GF]

Note: Unless otherwise noted, the terms “video recording,” “video surveillance,” and “video monitoring” shall also include any associated audio recordings. In addition, the term “classroom” shall also include other special education settings subject to video and audio recording required by law.

To promote student safety, the District shall comply with requests for video and audio monitoring of certain ~~self-contained~~ special education classrooms as required by law. Regular or continual monitoring of video recordings shall be prohibited. Video recordings shall not be used for teacher evaluation or monitoring or for any purpose other than the promotion of student safety.

The Superintendent is responsible for coordinating the provision of equipment to campuses in compliance with the law.

The Superintendent shall ensure that administrative regulations are developed to implement this policy.

Requests

A parent of a student receiving special education services and whose placement for the following school year will be in a ~~self-contained~~special education classroom eligible for video surveillance may request in writing that a video camera be placed in the classroom by the end of the current school year or by the ~~tenth~~10th business day after the student’s admission, review, and dismissal (ARD) committee determines the student’s placement, whichever is later. If such a request is made, the campus shall begin operation of the camera by the deadlines in law.

When the District has installed video cameras in a classroom as required by law, the District shall operate the cameras during the

instructional day at all times when one or more students are in the classroom. For purposes of this policy, the instructional day shall be defined as the portion of a school day during which instruction is taking place in the classroom.

For the school year in which a campus receives a request for video and audio surveillance, the campus shall continue to operate and maintain any video cameras placed in the classroom for as long as the classroom continues to satisfy the requirements in Education Code 29.022(a). However, the campus may discontinue operation of the video camera during the year if the requester withdraws the request in writing and no request is submitted to continue the surveillance. Before a camera is deactivated, the principal shall provide advance written notice to staff on the campus and to parents of the students assigned to or engaging in school activities in the classroom that video and audio surveillance will be discontinued in the classroom and of the opportunity to request continued video and audio surveillance.

Video cameras must be capable of recording video and audio of all areas of the classroom, including a room attached to the classroom used for time out as defined by law. No visual monitoring, other than incidental coverage, shall be conducted of the inside of a bathroom or other area used for changing a student's clothes.

The District shall post notice at the entrance to a classroom in which video cameras are placed stating that video and audio surveillance is conducted in that classroom.

For purposes of this policy, the term "human resource staff member" shall include the Superintendent, a principal, an assistant principal or other campus administrator, and any supervisory position within the District's human resources office. If an individual listed in items ~~2–4~~2-4, above, believes that a recording shows a violation of District policy or campus procedures, the individual may allow access to the recording by appropriate legal and human resources personnel designated by the District for the purpose of determining whether a policy or procedure has been violated.

Any person who suspects that child abuse or neglect has occurred shall report this suspicion as required by law and District policy. [See FFG]

Guidelines for Grading

The Superintendent or designee shall ensure that each campus or instructional level develops guidelines for teachers to follow in determining grades for students. These guidelines shall ensure that grading reflects a student's relative mastery of an assignment and that a sufficient number of grades are taken to support the grade average assigned. Guidelines for grading shall be clearly communicated to students and parents.

The District shall permit a student who meets the criteria detailed in the grading guidelines a reasonable opportunity to redo an assignment or retake a test for which the student received a failing grade.

As defined by law, a person responsible for the care, custody, or welfare of a child includes school personnel and volunteers and day-care workers. [See FFG(LEGAL)]

An individual does not fulfill his or her responsibilities under the law by only reporting suspicion of abuse or neglect to a campus principal, school counselor, or another District staff member. Furthermore, the District is prohibited from requiring an employee to first report his or her suspicion to a District or campus administrator.

In accordance with law, an individual must provide their name and telephone number when making a report. If the individual making the report is a school employee, agent, or contractor, they must also provide their business address and profession.

Confidentiality

The identity of a person making a report of suspected child abuse or neglect shall be kept confidential and disclosed only in accordance with the law and the rules of the investigating agency.

Notice to Students and Parents

The District shall inform students and parents of this policy through appropriate District publications and on the District's website.

~~**Guiding Principles**~~

Informal Process

The Board encourages students and parents to discuss their concerns with the appropriate teacher, principal, or other appropriate campus or District administrator who has the authority to address the concerns. Concerns should be expressed as soon as possible to allow early resolution at the lowest possible administrative level.

~~**Informal resolution shall be encouraged but shall not extend any deadlines in this policy, except**~~**Filing Deadlines**

After Informal Process

If a student or parent has engaged in the informal process in an attempt to resolve the complaint with the District and has not reached a resolution during the process, the student or parent shall have the later of:

- Ninety calendar days to file a complaint from the date the student or parent first knew, or with reasonable diligence should have known, of the decision or action giving rise to the complaint; or

- Thirty calendar days to file a complaint from the date on which the District provided information to the student or parent regarding how to file a grievance.

[See Formal Process, below]

No Prior Informal Process

If the student or parent has not engaged in the informal process, the student or parent shall have no more than 60 calendar days from the date the student or parent first knew, or with reasonable

diligence should have known, of the decision or action giving rise to the complaint or grievance to file a complaint using the appropriate forms.

Deadline Extensions

All deadlines shall be strictly followed unless otherwise required by law or modified by mutual written consent.

Formal Process

A student or parent may initiate the formal process described below by timely filing a written complaint form.

~~Even after initiating the formal complaint process, students and parents are encouraged to seek informal resolution of their concerns. A student or parent whose concerns are resolved may withdraw a formal complaint at any time.~~

The process described in this policy shall not be construed to create new or additional rights beyond those granted by law or Board policy, nor to require a full evidentiary hearing or "mini-trial" at any level.

The complaint form shall be filed with the lowest level administrator who has the authority to remedy the alleged problem. In most circumstances, students and parents shall file Level One complaints with the campus principal for any complaint on a matter related to a campus. For a complaint that arises on a matter that is unrelated to a campus, the complaint shall be filed with the appropriate District-level administrator.

If the subject matter of the complaint requires a Board decision, is a complaint about a Board member, or is a complaint about the Superintendent, the complaint shall be initiated at the Board level. A preliminary hearing to develop a record or recommendation for the Board may be conducted by an appropriate administrator.

A Board member shall be permitted to file a complaint under this policy, but, if the complaint is considered by the Board or Board committee, the Board member shall be prohibited from voting on the Board's or Board committee's decision.

If the complaint is not filed with the appropriate administrator, the receiving administrator must note the date and time the complaint form was received and immediately forward the complaint form to the appropriate administrator.

Option to Continue Informal Process

Even after initiating the formal complaint process, the complainant is encouraged to seek informal resolution of their concerns. A complainant whose concerns are resolved may withdraw a formal complaint at any time.

Notice of Complaint	A District employee against whom a complaint has been filed shall be provided notice of the complaint in accordance with administrative regulations. The employee shall have sufficient opportunity to submit a written response to the complaint that shall be included in the record of the complaint.
Freedom from Retaliation	Neither the Board nor any District employee shall unlawfully retaliate against any student or parent for bringing a concern or complaint.
General Provisions	
Filing	Complaint forms and appeal notices may be filed by hand-delivery, by electronic communication, ~~including email and fax,~~ or by U.S. Mail. Hand-delivered filings shall be timely filed if received by the appropriate administrator or designee by the close of business on the deadline. Filings submitted by electronic communication shall be timely filed if they are received by the close of business on the deadline, as indicated by the date/time shown on the electronic communication. In most circumstances, the individual shall file a Level One complaint with the campus principal for any complaint on a matter related to a campus. For a complaint that arises on a matter that is unrelated to a campus, the complaint shall be filed with the appropriate District-level administrator.

If the subject matter of the complaint requires a Board decision, is a complaint about a Board member, or is a complaint about the Superintendent, the complaint shall be initiated at the Board level. A preliminary hearing to develop a record or recommendation for the Board may be conducted by an appropriate administrator.

A Board member shall be permitted to file a complaint under this policy, but, if the complaint is considered by the Board or Board committee, the Board member shall be prohibited from voting on the Board's or Board committee's decision.

If the complaint is not filed with the appropriate administrator, the receiving administrator must note the date and time the complaint form was received and immediately forward the complaint form to the appropriate administrator.

SB 413 also added language regarding inclusion in board meeting minutes of each board member's vote on any item and a requirement to post on the district's website any resolution adopted by the board. HB 1522 changed the required posting time for board agendas from 72 hours to 3 business days.

BE(LOCAL) BOARD MEETINGS

Several recommended revisions have been made to this policy on board meetings. SB 12 prompted new language at Meeting Place and Time indicating that board meetings will be held outside of typical work hours. Language at Notice to Members has been adjusted to reflect HB 1522, which requires board agendas to be posted for three business days, rather than 72 hours, before the meeting. This recommended revision appropriately adjusts when the notice of the meeting will be provided to board members.

At Deadline, the recommended revisions are also in response to HB 1522. We offer for your consideration language requiring that agenda items be submitted 10 calendar days before a meeting. This deadline would provide the district sufficient time to compile items and post an agenda by the statutory deadline. If the district would like to adjust the deadline, please contact your policy consultant.

SB 413 requires roll call voting, so the language at Record Vote has been revised accordingly. A paragraph in the Minutes section has been removed, as the statement is true for all district records and it is not necessary to separately address retention in this policy. Please refer to CPC(LOCAL) and your district's record retention procedures.

The Legal Tips for Policy Development, available in the Policy Online® Governance and Management Library (TASB login required), describe common legal concerns and best practices specific to this policy's topic.

Please note: In many districts' CH(LOCAL), the purchasing authority of the superintendent is established. This is a different threshold from what has been changed statutorily. For that reason, CH(LOCAL) is not included in this update. Please review your CH(LOCAL) and, if any revisions are necessary, please contact your policy consultant.

CHE(LEGAL) PURCHASING AND ACQUISITION: VENDOR DISCLOSURES AND CONTRACTS

HB 210 creates a criminal offense for a vendor to bid or contract with the district if it has a close relationship with a trustee. Update 126

Update 126 revisions to the legal framework are described in the update Explanatory Notes.

The *Policy Reference Manual* is a comprehensive collection of federal and state statutes and regulations, case law, attorney general opinions, and commissioner's decisions affecting Texas school districts. As such, it is an excellent reference document that recites a broad array of legal requirements, many of which apply to all districts, others to only a certain few. For this reason, these legal framework documents are not suitable for incorporation in localized policy manuals.

If you have any questions concerning this update or the *TASB Policy Reference Manual*, please call 800-580-7529.

Adoption of Local Innovation Plan

The board may not vote on adoption of a proposed local innovation plan unless:

1. The final version of the proposed plan has been available on the district's website for at least 30 days;
2. The board has notified the commissioner of the board's intention to vote on adoption of the proposed plan; and
3. The district-level committee [see BQA] has held a public meeting to consider the final version of the proposed plan and has approved the plan by a majority vote of the committee members. The public meeting may occur at any time, including up to or on the same date at which the board intends to vote on final adoption of the proposed plan.

The board may adopt a proposed local innovation plan by an affirmative vote of two-thirds of the membership of the board.

On adoption of a local innovation plan, the district is designated as a district of innovation for the term specified in the plan, but no longer than five calendar years, and shall begin operation in accordance with the plan. In addition, the district is exempt from state requirements identified under Education Code 12A.003(b)(2). [See Local Innovation Plan, above]

The district shall notify the commissioner of approval of the plan along with a list of approved exemptions by completing the agency’s form provided at 19 Administrative Code 102.1307(d).

A district's exemption under the plan includes any subsequent amendment or redesignation of an identified state requirement, un-

less the subsequent amendment or redesignation specifically applies to an innovation district.

TEA shall promptly post the current local innovation plan on the agency's website. *19 TAC 102.1307(g); Education Code 12A.0071(b)*

Amendment, Rescission, or Renewal of Local Innovation Plan

A local innovation plan may be amended, rescinded, or renewed if the action is approved by a vote of the district-level committee [see BQA] and a two-thirds majority vote of the board.

An amendment to an approved plan does not change the date of the term of designation as an innovation district. Exemptions that were already formally approved are not required to be reviewed.

A district must notify TEA within five business days of rescission and provide a date at which time it will be in compliance with all sections of the Education Code, but no later than the start of the following school year.

During renewal, all sections of the plan and exemptions shall be reviewed, and the district must follow all components outlined in 19 Administrative Code 102.1307 relating to Adoption of Local Innovation Plans, except that a district is not required to notify the commissioner of the board's intention to vote on the adoption of the proposed plan.

The term of a renewed plan, subject to 19 Administrative Code 102.1311, may not begin prior to the date on which the board votes to adopt the renewed plan, unless the plan is adopted during the six months subsequent to the plan's date of expiration.

If a plan is renewed during the timeline described in this provision, the renewed plan will have a term not to exceed five calendar years, beginning on the date of expiration of the prior term.

If a plan is renewed during the timeline described in this provision and changes are made to the plan during the renewal process, those changes will be in effect from the date of adoption of the renewed plan through the expiration date of the renewed plan, unless amended, rescinded, or terminated.

If changes are made to the plan during the renewal process, the district shall mark the changes with the date of the vote to renew the plan in order to denote the earliest date those changes may take effect.

A district whose plan is not renewed during the timeline described in this provision shall comply with all previously adopted exemptions immediately upon expiration of the plan and begin the adoption process over again in its entirety should the district wish to pursue designation as a district of innovation in the future.

An employee who qualifies for membership in the Teacher Retirement System shall be covered in the same manner and to the same extent as a qualified employee employed by an independent school district. *Education Code 12.012(b)*

Rescission of Charter

A board shall order an election on the question of rescinding the home-rule school district charter if:

1. The board receives a petition requesting a rescission election signed by at least five percent of the registered voters of the district; or

2. At least two-thirds of the board adopts a resolution ordering the election.

Rescission of a home-rule charter does not affect:

1. District boundaries.

2. Taxes or bonds of the district authorized before the effective date of the rescission.

Probation or Revocation of Charter

The SBOE may place a home-rule charter on probation or revoke the charter. *Education Code 12.027, .028; 19 TAC 100.201*

Status of District in Case of Annexation or Consolidation

If a district is annexed to another district under Education Code Chapter 13, and only one of the districts is a home-rule district, the status of the receiving district shall be the status of both districts following annexation. Accreditation

Each district must be accredited by Texas Education Agency (TEA). A district that is not accredited may not receive funds from TEA or hold itself out as operating a public school of this state. *Education Code 11.001, 39.052(f)*

District accreditation is determined in accordance with Education Code Chapter 39, Subchapter C and rules adopted by the commissioner of education at 19 Administrative Code, Chapter 97, Subchapter EE (Accreditation Status, Standards, and Sanctions). *Education Code 39.051*

Statuses

The commissioner shall determine criteria for the following accreditation statuses:

1. Accredited. Accredited means TEA recognizes the district as a public school of this state that meets the standards determined by the commissioner under Education Code 39.052(b) and (c), and specified in 19 Administrative Code 97.1059; and is not currently assigned an accreditation status of Accredited-Warned or Accredited-Probation;

2. Accredited-Warned. Accredited-Warned means the district exhibits deficiencies in performance, as specified in 19 Administrative Code 97.1055(b), that, if not addressed, will lead to probation or revocation of its accreditation status;

3. Accredited-Probation. Accredited-Probation means the district exhibits deficiencies in performance, as specified in 19 Administrative Code 97.1055(c), that must be addressed to avoid revocation of its accreditation status; and

4. Not Accredited-Revoked. Not Accredited-Revoked means TEA does not recognize the district as a Texas public school because the district's performance has failed to meet standards adopted by the commissioner under Education Code 39.052(b) and (c), and specified in 19 Administrative Code 97.1055(d).

Education Code 39.051; 19 TAC 97.1055(a)(1)

Annual Evaluation

Each year, the commissioner shall determine the accreditation status of each district. In determining the accreditation status of a district, the commissioner:

1. Shall evaluate and consider performance:

    a. On achievement indicators under Education Code 39.053 [see Performance Indicators, below]; and

b. Under the financial accountability rating system developed under Education Code, Chapter 39, Subchapter D [see CFA].

2. May evaluate and consider:

a. The district's compliance with statutory requirements and requirements imposed by rule of the commissioner or State Board of Education that relate to:

(1) Reporting data through the Public Education Information Management System (PEIMS) or other reports required by state or federal law or court order;

(2) High school graduation requirements; or

(3) Extracurricular activities, student health and safety, purchasing, elementary class size limits, removal of a disruptive student from the classroom, at-risk programs, and prekindergarten programs;

b. The effectiveness of the district's programs for special populations; and

c. The effectiveness of the district's career and technology program.

Based on a district's performance, the commissioner shall assign each district an accreditation status or revoke the accreditation of the district and order closure of the district.

A district's accreditation status may be raised or lowered based on the district's performance or may be lowered based on the performance of one or more campuses in the district that is below a standard required by Education Code Chapter 39, Subchapter C.

Education Code 7.056(e)(3)(C)-(I), 39.052; 19 TAC 97.1055

For additional information on the commissioner process for assigning accreditation status, see 19 Administrative Code 97.1055.

Notice of Status

The commissioner shall notify a district if the district has received an accreditation status of accredited-warned or accredited-probation, or a campus's performance is below standard. *Education Code 39.052(e)*

To Parents and Property Owners

A district assigned an accreditation status of accredited-warned, accredited-probation, or not accredited-revoked shall notify the parents of students enrolled in the district and property owners in the district as specified in 19 Administrative Code 97.1055. The district's notice must contain information about the accreditation status, the implications of such status, and the steps the district is tak-

ing to address the areas of deficiency identified by the commissioner. The district's notice shall use the format and language determined by the commissioner.

The district's notice must:

1. Not later than 30 calendar days after the accreditation status is assigned, appear on the home page of the district's website, with a link to the required notification, and remain until the district is assigned the accredited status; and

2. Appear in a newspaper of general circulation, as defined in 19 Administrative Code 97.1051 (Definitions), in the district for three consecutive days as follows:

   a. From Sunday through Tuesday of the second week following assignment of the status; or

   b. If the newspaper is not published from Sunday through Tuesday, then for three consecutive issues of the newspaper beginning the second week following assignment of the status; or

3. Not later than 30 calendar days after the status is assigned, be sent by first class mail addressed individually to each parent of a student enrolled in the district and each property owner in the district; or

4. Not later than 30 calendar days after the status is assigned, be presented as a discussion item in a public meeting of the board of trustees conducted at a time and location that allows parents of students enrolled in the district and property owners in the district to attend and provide public comment.

To TEA

A district required to act under this subsection shall send the following to TEA via certified mail, return receipt requested:

1. The universal resource locator (URL) for the link to the notification required above; and

2. Copies of the notice in the newspaper showing dates of publication, or a paid invoice showing the notice content and its dates of publication; or

3. Copies of the notice sent by mail and copies of all mailing lists and postage receipts; or

4. Copies of the notice presented at a public meeting and copies of the board of trustees meeting notice and minutes for the

board meeting in which the notice was presented and publicly discussed.

19 TAC 97.1055(f)

Performance Indicators

The commissioner shall adopt a set of indicators of the quality of learning and achievement, including three domains of achievement indicators. [See Achievement Indicators, below] *Education Code 39.053(a)*

The indicators must measure and evaluate districts and campuses with respect to:

1. Improving student preparedness for success in subsequent grade levels and entering the workforce, the military, or post-secondary education;
2. Reducing, with the goal of eliminating, student academic achievement differentials among students from different racial and ethnic groups and socioeconomic backgrounds; and
3. Informing parents and the community regarding campus and district performance.

Education Code 39.053(a-1)

Achievement Indicators

Districts and campuses must be evaluated based on indicators of achievement grouped in three domains:

1. Student achievement domain;
2. School progress domain; and
3. Closing the gaps domain.

Education Code 39.053(c)

Performance on the achievement indicators in the three domains shall be compared to state-established standards. The indicators must be based on information that is disaggregated by race, ethnicity, and socioeconomic status. *Education Code 39.053(b)*

Each school district shall submit the data required for the indicators to the commissioner. *Education Code 39.053(i)*

A-F Performance Ratings

Except when the commissioner determines the assignment of an overall performance rating would be inappropriate [see Assignment of Not Rated, below], the commissioner shall adopt rules to evaluate district and campus performance and assign each district and campus an overall performance rating of A, B, C, D, or F.

In addition to the overall performance rating, the commissioner shall assign each district and campus a separate domain perfor-

mance rating of A, B, C, D, or F for each domain under Education Code 39.053(c) [see Achievement Indicators, above].

An overall or domain performance rating of:

1. A reflects exemplary performance.
2. B reflects recognized performance.
3. C reflects acceptable performance.
4. D reflects performance that needs improvement.
5. F reflects unacceptable performance.

A district may not receive an overall or domain performance rating of A if the district includes any campus with a corresponding overall or domain performance rating of D or F.

For purposes of assigning districts and campuses an overall and a domain performance rating, the commissioner shall ensure that the method used to evaluate performance is implemented in a manner that provides the mathematical possibility that all districts and campuses receive an A rating.

Not later than August 15 of each year, the following information shall be made publicly available as provided by rules adopted by the commissioner:

1. The performance ratings for each district and campus; and
2. If applicable, the number of consecutive school years of unacceptable performance ratings for each district and campus.

Education Code 39.054(a), (a-3), (b)

Assignment of Not Rated

Notwithstanding any other law, the commissioner may assign a district or campus an overall performance rating of "Not Rated" if the commissioner determines that the assignment of a performance rating of A, B, C, D, or F would be inappropriate because:

1. The district or campus is located in an area that is subject to a declaration of a state of disaster under Government Code Chapter 418 and due to the disaster, performance indicators for the district or campus are difficult to measure or evaluate and would not accurately reflect quality of learning and achievement for the district or campus;
2. The district or campus has experienced breaches or other failures in data integrity to the extent that accurate analysis of data regarding performance indicators is not possible;

© 2025 Texas Association of School Boards, Inc. All rights reserved. Permission granted to TASB Policy Service subscribers to reproduce for internal use only.

3. The number of students enrolled in the district or campus is insufficient to accurately evaluate the performance of the district or campus; or

4. For other reasons outside the control of the district or campus, the performance indicators would not accurately reflect quality of learning and achievement for the district or campus.

Education Code 39.054(a-4)

Calculating Consecutive Years

Notwithstanding any other law, an overall performance rating of "Not Rated" is not included in calculating consecutive school years of unacceptable performance ratings and is not considered a break in consecutive school years of unacceptable performance ratings for purposes of any provision of the Education Code. *Education Code 39.054(a-5)*

Acceptable Performance

A reference in law to an acceptable performance rating or acceptable performance includes an overall or domain performance rating of A, B, or C or performance that is exemplary, recognized, or acceptable. A reference in law to an unacceptable performance rating or unacceptable performance includes an overall or domain performance rating of F. For the purposes of public reporting requirements, an overall or domain performance rating of D shall be referred to as performance that needs improvement. *Education Code 39.0543(a)*

D Rating

A reference in law to an acceptable performance rating or acceptable performance for a district or campus includes an overall performance rating of D if, since previously receiving an overall performance rating of C or higher, the district or campus has not previously received more than one overall performance rating of D or has not received an overall performance rating of F. *Education Code 39.0543(b)*

Appeal and Revision

The process and timeline by which a district or campus may appeal ratings are based upon the requirements described in the *Accountability Ratings Appeals Process and Timeline* adopted under 19 Administrative Code 97.1002 and apply to all accountability rating appeals from 2023 and beyond until otherwise updated. The calendar dates for the accountability year will be announced in conjunction with the release of preliminary accountability ratings. *19 TAC 97.1002(b)*

Ratings may be revised as a result of investigative activities by the commissioner as authorized under Education Code 39.003. *19 TAC 97.1002(c)*

Local Accountability System

The local accountability system standards established by the commissioner under Education Code 39.0544 shall be used by districts to develop a plan to locally evaluate the performance of their campuses. *19 TAC 97.1003(a)*

Local Accountability Plan

A local accountability plan created by a district must include domain performance ratings assigned by the commissioner under Education Code 39.054, and performance ratings based on locally developed domains or sets of accountability measures. *19 TAC 97.1003(b)*

A district must create its local accountability plan based on school type. The four school types are elementary school, middle school, high school, and kindergarten-grade 12. The plan must include all campuses within a school type. The district may also request to identify an additional school group within a school type for which to customize its local accountability plan. Otherwise, all campuses within a school type must be evaluated on a common set of components determined by the district. A district may also request to identify a campus rated under alternative education accountability provisions as a unique school type. *19 TAC 97.1003(b)(4)*

Plan Components

A locally developed domain or set of accountability measures is referred to as a plan component. Plan components must describe each item and the reason for its inclusion in the plan. A district must assign each component to one of the following five domains: academics, culture and climate, extra- and co-curricular, future-ready learning, and locally determined. The weight of all plan components must equal 100 percent. *19 TAC 97.1003(b)(1)*

A district may assign weights to each plan component, as determined by the district, provided that the plan components must in the aggregate account for no more than 50 percent of the combined overall performance rating. A local accountability plan may include no fewer than two and no more than 10 components weighted between 5 percent and 60 percent. *19 TAC 97.1003(c)*

Each plan component must contain levels of performance that allow for differentiation, with assigned standards for achieving the differentiated levels that are aligned to a letter grade of A, B, C, D, or F and meet the requirements of 19 Administrative Code 97.1003(d)(1)-(3). *19 TAC 97.1003(d)*

Each plan component measure must meet standards for reliability and validity as required by 19 Administrative Code 97.1003(e)(1)-(3). *19 TAC 97.1003(e)*

Campuses without STAAR or State Ratings

For the purposes of assigning state accountability ratings, a campus that does not serve any grade level for which a State of Texas Assessments of Academic Readiness (STAAR) examination is administered is paired with a campus in its district that serves grade levels for which STAAR examinations are administered.

A campus not rated under the state accountability system is not eligible to combine state and local ratings. Local accountability data for a campus without state ratings may be displayed on TEA, district, and campus websites but will not be combined with state accountability data. The state accountability manual adopted under 19 Administrative Code 97.1001 (Accountability Rating System) provides information about campus ratings and eligibility for applicable years.

19 TAC 97.1003(b)(3)

Campus Performance Ratings

A district authorized to assign campus performance ratings shall evaluate the performance of each campus and assign each campus a performance rating of A, B, C, D, or F for overall performance and for each locally developed domain or set of accountability measures. Not later than a date established by the commissioner, the district shall:

1. Report the performance ratings to the agency; and
2. Make the performance ratings available to the public as provided by commissioner rule.

Education Code 39.0544(e)

Each campus with an approved district plan is eligible to receive a local accountability rating. A campus with an overall state accountability rating of C or higher based on ratings derived from student performance at the campus is eligible to combine an overall local accountability rating with the overall state accountability rating to determine the combined rating. *19 TAC 97.1003(b)(2); Education Code 39.054(a)*

Submission and Audit Standards

Calculations for each plan component and overall performance ratings must be capable of being audited by a third party.

A district must use a one-to-one correspondence when converting campus grades based on plan component measures to a standard scale of 30-100 where A=90-100, B=80-89, C=70-79, D=60-69, and F=30-59.

Categorical data, or data not on a continuous scale, must be converted to the standard scale of A=90-100, B=80-89, C=70-79, D=60-69, and F=30-59 by assigning the maximum value for each

scaled score interval with the corresponding category used in the campus rating scale.

A district is required to submit a local accountability plan that includes components, domains, and overall scaled scores and ratings to TEA on a timeline determined by the commissioner. The timeline will be published on the TEA website.

All scaled scores and letter grades submitted by a school district are subject to audit. Any data discrepancies or any indication that data have been compromised may result in verification and audit of district and campus data used to assign local accountability ratings. The audit process may include requests for data used for campus-level calculation of component and domain scaled scores.

On an annual basis, TEA will randomly select districts for local accountability audits, and, for each such audit, TEA will randomly select components for review. Selected districts must submit the requested data for review within the timeframe specified. A district must maintain documentation of its local accountability plan, along with all associated data used to assign campus ratings, for two years after the end of the plan implementation period.

Responsibility for the accuracy and quality of data used to determine local accountability ratings rests with each district. Superintendent certification of data accuracy during the ratings submission process shall include an assurance that calculations have been verified to ensure that all data were included as appropriate for all components.

19 TAC 97.1003(f)(1)-(6)

Scorecard and Website

A district must produce a campus scorecard and make available on the district website an explanation of the methodology used to assign local accountability performance ratings. The campus scorecard shall include, at a minimum, the scaled score and rating for each component and domain along with the overall rating. A link to the local accountability ratings posted by the district must be provided to TEA and may be included on the agency-developed school report card. *19 TAC 97.1003(g)*

Appeal and Revision

An appeal of a local accountability rating may be submitted by the superintendent once ratings are released. The local accountability appeals timeline follows the appeal deadline dates and processes as described in the state accountability manual adopted under 19 Administrative Code 97.1001 of this title for the applicable year. *19 TAC 97.1003(f)(7)*

Ratings may be revised as a result of investigative activities by the commissioner as authorized under Education Code 39.057(d) and (e) (redesignated to Education Code 39.003). *19 TAC 97.1003(h)*

Distinction Designations for Outstanding Performance

The commissioner shall award distinction designations for outstanding performance. A distinction designation awarded to a district or campus shall be referenced directly in connection with the performance rating assigned to the district or campus and made publicly available together with the A-F performance ratings.

A district or campus may not be awarded a distinction designation unless the district or campus has acceptable performance under the A-F performance ratings.

Education Code 39.201

Academic Distinction

The commissioner shall establish an academic distinction designation for districts and campuses for outstanding performance in attainment of postsecondary readiness based on the commissioner's adopted criteria. *Education Code 39.202*

Campus Distinction

The commissioner shall award a campus a distinction designation for outstanding performance in:

1. Improvement in student achievement;
2. Closing student achievement differentials; and
3. Academic achievement in English language arts, mathematics, science, or social studies.

Education Code 39.203

The commissioner may award a distinction designation for outstanding performance in advanced middle or junior high school student achievement. *Education Code 39.203(d)*

Excellence Exemptions

Except as listed below, a district or campus that is rated A (exemplary) is exempt from requirements and prohibitions imposed under the Education Code, including regulations adopted under the Education Code.

An exemplary campus or district is not exempt from:

1. A prohibition on conduct that constitutes a criminal offense;
2. Requirements imposed by federal law or rule, including requirements for special education or bilingual education programs;
3. A requirement, restriction, or prohibition relating to:

a. Curriculum essential knowledge and skills or high school graduation requirements;

b. Public school accountability;

c. Extracurricular activities;

d. Health and safety;

g. Removal of a disruptive student from the classroom;

h. At-risk programs;

i. Prekindergarten programs;

j. Rights and benefits of school employees;

k. Special education programs; or

l. Bilingual education programs.

The commissioner may exempt an exemplary campus from class size limits if the campus submits a written plan showing steps that will be taken to ensure that the exemption will not be harmful to the academic achievement of the students on the school campus. If granted, the exemption remains in effect until the commissioner determines that achievement levels of the campus have declined.

The board shall publish an annual report describing the educational performance of the district and of each campus in the district that includes uniform student performance and descriptive information as determined under rules adopted by the commissioner of education. *Education Code 39.306(a)*

Texas Academic Performance Report (TAPR)

The performance report provided by the Texas Education Agency (TEA) under Education Code 39.306 shall be termed the Texas Academic Performance Report (TAPR). The intent of the TAPR is to inform the public about the educational performance of the district and of each campus in the district in relation to the district, the state, and a comparable group of schools. Campus Performance Report

Each school year, TEA shall prepare and distribute to each district a report card for each campus. The campus report card distributed by TEA shall be termed the “school” report card (SRC). The intent of the SRC is to inform each student’s parents or guardians about the school’s performance and characteristics. The SRC will present the student, staff, financial, and performance information required by statute, as well as any explanations and additional information deemed appropriate to the intent of the report.

Distribution

The district must disseminate each SRC within six weeks after the SRC is received from TEA. The school may not alter the report provided by TEA; however, it may concurrently provide additional information to the parents or guardians that supplements or explains information in the SRC.

The SRC must be distributed to the parent, guardian, conservator, or other person having lawful control of each student at the campus. On written request, a district shall provide a copy of the SRC to any other party.

The campus administration may provide the SRC in the same manner it would normally transmit official communications to parents and guardians, such as including the SRC in a weekly folder sent home with each student, mailing it to the student’s residence, providing it at a teacher-parent conference, enclosing it with the student report card, or sending it via electronic mail.

The commissioner of education shall take any of the actions authorized by Education Code Chapter 39A, Subchapter A, to the extent the commissioner determines necessary if:

Grounds for Commissioner Action

1. A district does not satisfy:
    a. The accreditation criteria under Education Code 39.052 [see AIA];
    b. The academic performance standards under Education Code 39.053 or 39.054 [see AIA]; or
    c. Any financial accountability standard as determined by commissioner rule [see CFA]; or
2. The commissioner considers the action to be appropriate on the basis of a special investigation under Education Code 39.003.

Education Code 39A.001

Authorized Commissioner Actions

If a district is subject to commissioner action, the commissioner may:

1. Issue public notice of the deficiency to the board;
2. Order a hearing to be conducted by the board to notify the public of:
    a. The insufficient performance;
    b. The improvements in performance expected by the Texas Education Agency (TEA); and
    c. The interventions and sanctions that may be imposed if the performance does not improve;
3. Order the preparation of a student achievement improvement plan that addresses each academic achievement indicator under Education Code 39.053(c) for which the district's performance is insufficient, the submission of the plan to the commissioner for approval, and the implementation of the plan;
4. Order a hearing to be held before the commissioner or the commissioner's designee at which the president of the board and the district's superintendent shall appear and explain the district's low performance, lack of improvement, and plans for improvement;
5. Arrange a monitoring review of the district;
6. Appoint a TEA monitor to participate in and report to TEA on the activities of the board or superintendent;

© 2025 Texas Association of School Boards, Inc. All rights reserved. Permission granted to TASB Policy Service subscribers to reproduce for internal use only.

7. Appoint a conservator to oversee the operations of the district;

8. Appoint a management team to direct the operations of the district in areas of insufficient performance or require the district to obtain certain services under a contract with another person;

9. Authorize the district to enter into a memorandum of understanding with an institution of higher education that provides for the assistance of the institution of higher education in improving the district's performance; or

10. Order the use of the board improvement and evaluation tool as provided by Education Code 11.182 [see BG].

Education Code 39A.002

Regardless of whether the commissioner lowers a district's status or rating, the commissioner may take action under Education Code Chapters 39 and 39A or 19 Administrative Code 97.1057 if the commissioner determines that the action is necessary to improve any area of performance by the district or campus.

Subject to 19 Administrative Code 97.1057(h)-(k), once the commissioner takes action under 19 Administrative Code Chapter 97, Subchapter EE (accreditation status, standards, and sanctions), the commissioner may impose on the district or campus any other sanction under Education Code Chapter 39 or 39A, or Subchapter EE, singly or in combination, to the extent the commissioner determines is reasonably required to achieve the purposes specified in 19 Administrative Code 97.1053.

19 TAC 97.1057(c), (e)

In making a determination to impose district and campus accreditation sanctions under 19 Administrative Code Chapter 97, Subchapter EE, the commissioner shall meet the requirements of 19 Administrative Code 97.1059. *19 TAC 97.1059*

Conservator or Management Team

The commissioner shall clearly define the powers and duties of a conservator or management team appointed to oversee the operations of a district.

At least every 90 days, the commissioner shall review the need for the conservator or management team and shall remove the conservator or management team unless the commissioner determines that continued appointment is necessary for effective governance of the district or delivery of instructional services.

A conservator or management team, if directed by the commissioner, shall prepare a plan for the implementation of the appointment of a board of managers or the revocation of accreditation.

The conservator or management team may:

1. Direct an action to be taken by the principal of a campus, the superintendent of the district, or the board; and
2. Approve or disapprove any action of the principal of a campus, the superintendent of the district, or the board.

The conservator or management team may not:

2. Change the number of or method of selecting the board;
3. Set a tax rate for the district; and
4. Adopt a budget for the district that provides for spending a different amount, exclusive of required debt service, from that previously adopted by the board.

A conservator or management team may exercise the powers and duties defined by the commissioner or described above regardless of whether the conservator or management team was appointed to oversee the operations of a district in its entirety or the operations of a certain campus within the district.

Education Code 39A.003

Regardless of whether a district has satisfied the accreditation criteria, if for two consecutive school years, including the current school year, a district has had a conservator or management team assigned to the district or campus for any reason, the commissioner may appoint a board of managers, a majority of whom must be residents of the district, to exercise the powers and duties of the board of trustees. For purposes of this subsection, a school year begins on the first day of instruction and includes any portion of the school year. This applies to an appointed conservator or management team, regardless of the scope or any changes to the scope of the conservator's or team's oversight. *19 TAC 97.1057(d); Education Code 39A.006(a)-(b)*

Board of Managers

The commissioner may appoint a board of managers to exercise the powers and duties of a district's board if the district is subject to commissioner action and:

2. Fails to satisfy any standard under Education Code 39.054(e); or
3. Fails to satisfy financial accountability standards as determined by commissioner rule.

Education Code 39A.004

Revocation of Accreditation

1. Received an accreditation status of accredited-warned or accredited-probation;
2. Failed to satisfy any standard under Education Code 39.054(e); or
3. Failed to satisfy financial accountability standards as determined by commissioner rule.

4. Interventions or sanctions under Education Code 39A.101(a), 39A.107(a) or (c), or 39A.111.

A performance rating of D that is considered acceptable may not be included in calculating consecutive school years of unacceptable performance ratings and is not considered a break in consecutive school years of unacceptable performance ratings.

Interventions or sanctions implemented prior to a pause shall continue during a school year for which interventions or sanctions listed above are paused.

Education Code 39A.118

Certain D-Rating Improvement Plans

A district or campus that is assigned a rating of D that qualifies under Education Code 39.0543(b) [see AIA] shall develop and implement a local improvement plan using the guidance provided by TEA.

The district or campus shall:

1. Conduct a data analysis related to areas of low performance;
2. Conduct a needs assessment based on the results of the data analysis, as follows:

A campus that has received an unacceptable rating for the school year following the development of the campus turnaround plan must implement its commissioner-approved campus turnaround plan with fidelity until the campus operates for two consecutive school years without an unacceptable rating.

Change in Circumstances

A campus may modify its campus turnaround plan with commissioner approval if it is determined that due to a change in circumstances occurring after the plan's approval under Education Code 39A.107 a modification of the plan is necessary to achieve the plan's objectives.

A change in circumstance may be the following, but not limited to:

1. A campus that has written a turnaround plan but has not yet been ordered to implement it and has received a Not Rated; Declared State of Disaster rating for two consecutive years prior to receiving its next F rating; or
2. A campus that has implemented its turnaround plan for no more than one year prior to receiving a Not Rated; Declared State of Disaster rating for two consecutive years.

A campus that has modified its turnaround plan under this provision may only request additional modifications to the plan based on circumstances that have changed since the last commissioner-approved modification.

1. Implement the campus turnaround plan;
2. Implement a modified version of the campus turnaround plan; or
3. Withdraw the campus turnaround plan.

A district required to implement a campus turnaround plan may modify the plan if the campus receives an acceptable performance rating for two consecutive school years following implementation of the plan.

If the board presents to the commissioner, in the time and manner specified by commissioner rule, a written request that the commissioner order specific authorized action other than the specific action requested in the parents' petition and a written explanation of the basis for the board's request, the commissioner may order the action requested by the board.

Education Code 12.051, 39A.112; 19 TAC 97.1065(d)

Repurposing of Closed Campus

If the commissioner orders the closure of a campus, that campus may be repurposed to serve students at that campus location only if the commissioner finds that the repurposed campus offers a distinctly different academic program and approves a new campus identification number for the repurposed campus. A campus may be repurposed if the campus:

1. Serves a majority of grade levels not served at the original campus; or

2. Is operated under a contract, approved by the school board, with a nonprofit organization exempt from federal taxation under Section 501(c)(3), Internal Revenue Code of 1986 that:

    a. Has a governing board that is independent of the district;

    b. Has a successful history of operating school district campuses or open-enrollment charter schools:

        (1) That cumulatively serve 10,000 or more students; and

        (2) A majority of which have been assigned an overall performance rating of B or higher under Education Code 39.054 for the preceding school year; and

    c. Has been assigned an overall performance rating of B or higher under Education Code 39.054 for the preceding school year.

Enrollment Provision in Contract

A contract approved by the school board with a nonprofit organization must provide that a student residing in the attendance zone of the campus immediately before the campus was repurposed shall be admitted for enrollment at the repurposed campus.

Education Code 39A.113; 19 TAC 97.1066

Targeted Technical Assistance

If the commissioner determines that the basis for the unacceptable performance of a campus for more than two consecutive school years is limited to a specific condition that may be remedied with targeted technical assistance, the commissioner may require the district to contract for the appropriate technical assistance. *Education Code 39A.114*

Alternative Management

The commissioner shall appoint a monitor, conservator, management team, or board of managers whenever such action is required, as determined by 19 Administrative Code 97.1073. Action under any other section of 19 Administrative Code Chapter 97, Subchapter EE is not a prerequisite to acting under this section. *19 TAC 97.1073*

The superintendent, upon appointment, immediately assumes all powers, duties, rights, and responsibilities of the superintendent of the district to which the superintendent is appointed.*19 TAC 97.1073(f)*

Solicitation of Proposals

If the commissioner orders alternative management of a campus, the commissioner shall solicit proposals from qualified nonprofit entities to assume management of the campus or appoint a school district as provided below. The commissioner may solicit proposals from qualified for-profit entities if a nonprofit entity has not responded to the commissioner's request for proposals.

The commissioner may appoint a school district to assume management of the campus if the district:

1. Is not the district in which the campus is located; and
2. Is located within the boundaries of the same regional education service center as the campus.

If a school district is appointed, the district shall assume management of the campus in the same manner as a qualified entity or in accordance with commissioner rule.

The commissioner may annually solicit proposals for the alternative management of a campus. The commissioner shall notify a qualified entity that has been approved as a provider under this section.

Education Code 39A.151

Qualifications of Managing Entity

To qualify for consideration as a managing entity, the entity must submit a proposal that provides information relating to the entity's management and leadership team that will participate in management of the campus under consideration, including information relating to individuals who have:

1. Documented success in whole school interventions that increased the educational and performance levels of students in campuses considered to have an unacceptable performance rating;
2. A proven record of effectiveness with programs assisting low-performing students;
3. A proven ability to apply research-based school intervention strategies;
4. A proven record of financial ability to perform under the management contract; and
5. Any other experience or qualifications the commissioner determines necessary.

In selecting a managing entity, the commissioner shall give preference to a qualified entity that:

1. Meets any of the commissioner’s qualifications; and
2. Has documented success in educating students from similar demographic groups and with similar educational needs as the students who attend the campus to be operated by the managing entity.

Education Code 39A.152

Contract with Managing Entity

If the commissioner has ordered alternative management of a campus, the district shall execute a contract with an approved provider to serve as a managing entity for the campus. The term of the contract may not exceed five years with an option to renew the contract. The district must execute the contract and relinquish control of the campus before January 1 of the school year.

The management contract must include:

1. A provision describing the district's responsibilities in supporting the operation of the campus; and

2. Provisions approved by the commissioner requiring the managing entity to demonstrate improvement in campus performance, including negotiated performance measures.

Performance measures must be consistent with the priorities of Education Code Chapters 39 and 39A.

The management contract must be approved by the commissioner before the contract is executed. As appropriate, the commissioner may require the district, as a term of the contract, to support the campus in the same manner as the district was required to support the campus before the execution of the contract.

Education Code 39A.153; 19 TAC 97.1067

Extension of Management Contract

The commissioner may require a district to extend the term of a management contract with a managing entity if the commissioner determines that extending the contract on expiration of the initial term is in the best interest of the students attending the campus. The terms of the contract must be approved by the commissioner. *Education Code 39A.154*

Evaluation of Managing Entity

The commissioner shall evaluate a managing entity's performance on the first and second anniversaries of the date of the management contract.

If the evaluation fails to demonstrate improvement as negotiated under the management contract by the first anniversary of the date of the contract, the district may:

1. Terminate the contract, with the commissioner's consent, for nonperformance or breach of contract; and

2. Select another provider from an approved list provided by the commissioner.

If the evaluation fails to demonstrate significant improvement, as determined by the commissioner, by the second anniversary of the date of the management contract, the district shall:

1. Terminate the contract; and

2. Select another provider from an approved list provided by the commissioner or resume operation of the campus if approved by the commissioner.

If the commissioner approves the district's resumed operation of the campus, the commissioner shall assign a technical assistance team to assist the campus.

Education Code 39A.155

Cancellation of Management Contract

If a campus receives an unacceptable performance rating for two consecutive school years after a managing entity assumes management of the campus, the commissioner shall cancel the contract with the managing entity. *Education Code 39A.156*

Return of Management to District

Unless a campus has an unacceptable performance rating for three consecutive school years [see Continued Unacceptable Performance Rating, above], at the end of a management contract term or on the cancellation of a management contract, the board shall resume management of the campus. *Education Code 39A.157*

Applicability of Accountability Provisions

Each campus operated by a managing entity is subject to Education Code Chapters 39 and 39A in the same manner as any other campus in the district. *Education Code 39A.158*

Funding

The funding for a campus operated by a managing entity may not be less than the funding of the other campuses in the district on a per student basis so that the managing entity receives at least the same funding the campus would otherwise have received. *Education Code 39A.159*

Open Meetings and Public Information

With respect to the management of a campus by a managing entity:

1. A managing entity is considered to be a governmental body for purposes of Government Code Chapter 551 (Open Meetings Act) and Government Code Chapter 552 (Public Information Act); and

2. Any requirement in the Open Meetings Act or Public Information Act that applies to a school district or the board of trustees of a district applies to a managing entity.

The commissioner may at any time replace a member of a board of managers. The commissioner may adopt rules necessary to implement this section. *Education Code 39A.207*

Expiration of Appointment

A board of managers shall, during the period of the appointment, order the election of members of the board of trustees of the school district in accordance with the law. The members of the board of trustees do not assume any powers or duties after the election until the appointment of the board of managers expires.

Not later than the second anniversary of the date the board of managers of a school district was appointed, the commissioner shall notify the board of managers and the board of trustees of the date on which the appointment of the board of managers will expire. Following each of the last three years of the period of the appointment, one-third of the members of the board of managers shall be replaced by the number of members of the board of trustees who were elected at an election that constitutes, as closely as possible, one-third of the membership of the board of trustees.

If, before the second anniversary of the date the board of managers of a school district was appointed, the commissioner determines, after receiving local feedback, that insufficient progress has been made toward improving the academic or financial performance of the district, the commissioner may extend the authority of the board of managers for a period of up to two additional years.

On the expiration of the appointment of the board of managers, the board of trustees assumes all of the powers and duties assigned to a board of trustees by law, rule, or regulation.

Following the expiration of the period of appointment of a board of managers for a school district, the commissioner shall provide training in effective leadership strategies to the board of trustees.

If a campus that was the basis for the appointment of a board of managers receives an unacceptable performance rating for two additional consecutive years following the appointment of the board of managers, the commissioner may remove the board of managers and, in consultation with the local community, may appoint a new board of managers to govern the district.

Following the removal of a board of managers, or at the request of a managing entity to oversee the implementation of alternative management, the commissioner may appoint a conservator or monitor for the district to ensure district-level support for low-performing campuses and to oversee the implementation of the updated targeted improvement plan.

Education Code 39A.209; 19 TAC 97.1073

Challenge of Intervention or Sanction

Review of Sanctions by SOAH

A district must appeal under this provision if the district intends to challenge the commissioner's decision to close the district or a campus, pursue alternative management of a campus, appoint a board of managers to the district, or appoint a conservator or management team to the district.

A challenge is under the substantial evidence rule [see Government Code Chapter 2001, Subchapter G]. The commissioner shall adopt procedural rules for a challenge under this section.

Notwithstanding other law:

1. The State Office of Administrative Hearings (SOAH) shall conduct an expedited review of a challenge;
2. The administrative law judge shall issue a final order not later than the 30th day after the date on which the hearing is finally closed;
3. The decision of the administrative law judge is final and may not be appealed; and
4. The decision of the administrative law judge may set an effective date for an action under this section.

Education Code 39A.301

Appeals

If an order, decision, or determination is described as final in Education Code Chapter 7, 11, 12, 39, or 39A, an interlocutory or intermediate order, decision, report, or determination made or reached before the final order, decision, or determination may be appealed only as specifically authorized by the Education Code or a rule adopted under the Education Code. *Education Code 5.003*

Annual Review

The commissioner shall annually review the performance of a district or campus subject to intervention and sanction to determine the appropriate actions to be implemented.

The commissioner must review at least annually the performance of a district for which the accreditation status or performance rating has been lowered due to insufficient student performance and may not raise the accreditation status or performance rating until the district has demonstrated improved student performance.

If the review reveals a lack of improvement, the commissioner shall increase the level of state intervention and sanction unless the commissioner finds good cause for maintaining the current status.

Education Code 39A.901

Increasing Intensity

If a district or campus does not exhibit improvement in student performance, the commissioner may increase the intensity of intervention and sanction that would otherwise be required by statute or rule, including ordering campus closure, district annexation, or appointment of a board of managers.

For purposes of this section, improvement means an increase in the scaled score for the overall academic performance rating under Education Code Chapter 39.

19 TAC 97.1070(a)-(b)

Miscellaneous Provisions

Acquisition of Professional Services

In addition to other authorized interventions and sanctions, the commissioner may order a district or campus to acquire professional services at the expense of the district or campus to address the applicable financial, assessment, data quality, program, performance, or governance deficiency. The commissioner shall assign districts an annual determination level based on performance levels of certain special populations student groups under 19 Administrative Code 97.1001 [see AIA] according to the criteria and requirements in 19 Administrative Code 97.1071(e)-(g).

In addition to determination levels, the commissioner shall develop a system of cyclical monitoring to ensure every district participates in general supervision activities. Based on a district's assigned determination level, as part of its cyclical monitoring process, or as part of compliance monitoring activities, a district may be required to implement and/or participate in:

1. Focused self-analysis of district data and program effectiveness;
2. Focused remote and/or on-site review;
3. Required stakeholder engagement;
4. Focused compliance reviews;
5. Strategic support and continuous improvement planning; and/or

Failure to Submit Emergency Operations Plan

If TEA receives notice from the Texas School Safety Center of a district's failure to submit a multihazard emergency operations plan [see CKC], the commissioner may appoint a conservator for the district under Education Code Chapter 39A. The conservator may order the district to adopt, implement, and submit a multihazard emergency operations plan. If a district fails to comply with a conservator's order to adopt, implement, and submit a multihazard emergency operations plan within the time frame imposed by the commissioner, the commissioner may appoint a board of managers under Education Code Chapter 39A to oversee the operations of the district. *Education Code 37.1082(a)-(b)*

Note: The following provisions apply to a district with a central administrative office that is located in a county with a population of more than two million and that has a student enrollment that is more than 125,000 and less than 200,000, and that is operating under a turnaround plan.

Student Board Member

Notwithstanding Education Code 11.051(b) (number of trustees on a school board), the board may adopt a resolution establishing as a nonvoting member a student trustee position. If a board adopts such a resolution, the board shall adopt a policy addressing the topics specified in statute. A student trustee may not participate in a closed session of a board meeting [see BEC] in which any issue related to a personnel matter is considered. *Education Code 11.0511(a)-(f)*

Special Investigations

The commissioner may authorize a special investigation:

1. When excessive numbers of absences of students eligible to be tested on state assessment instruments are determined;
2. When excessive numbers of allowable exemptions from the required state assessment are determined;
3. In response to complaints to the Texas Education Agency (TEA) of alleged violations of civil rights or other requirements imposed on the state by federal law or court order;
4. In response to established compliance reviews of the district's financial accounting practices and state and federal reporting requirements;
5. When extraordinary numbers of student placements in disciplinary alternative education programs, other than placements under Education Code 37.006 and 37.007, are determined;
6. In response to an allegation involving a conflict between members of the board or between the board and the district administration if it appears that the conflict involves a violation of a role or duty of the board members or the administration clearly defined by the Education Code. If TEA's findings indicate the board has observed a lawfully adopted policy, TEA may not substitute its judgment for that of the board;
7. When excessive numbers of students in special education programs are assessed through modified assessment instruments;
8. In response to an allegation regarding, or an analysis using a statistical method result indicating, a possible violation of an assessment instrument security procedure;
9. When a significant pattern of decreased academic performance has developed as a result of the promotion in the preceding two school years of students who did not perform satisfactorily on the state assessments;
10. When excessive numbers of students eligible to enroll fail to complete an Algebra II course or any other advanced course as determined by the commissioner;
11. When resource allocation practices indicate a potential for significant improvement in resource allocation;
12. When a disproportionate number of students of a particular demographic group is graduating with a particular endorsement;

13. When an excessive number of students is graduating with a particular endorsement;

14. When a school district for any reason fails to produce, at the request of TEA, evidence or an investigation report relating to a person who is under investigation by the State Board for Educator Certification or TEA;

15. When a school district for any reason fails to timely submit a report required under Education Code 22A regarding a person who is required to be reported to the State Board for Educator Certification or TEA;

16. When 10 percent or more of the students graduating in a particular school year from a particular high school campus are awarded a diploma based on the determination of an individual graduation committee under Education Code 28.0258;

17. In response to a complaint with respect to alleged inaccurate data that is reported through PEIMS or through other reports required by state or federal law or rule or court order and that is used by TEA to make a determination relating to public school accountability, including accreditation, under Education Code Chapter 39;

18. In response to repeated complaints submitted to TEA concerning imposition of excessive paperwork requirements on classroom teachers; or

19. As the commissioner otherwise determines necessary.

Education Code 39.003(a), (c)

TEA shall adopt written procedures for conducting special investigations, including procedures that allow TEA to obtain information from district employees in a manner that prevents a district or campus from screening the information. *Education Code 39.004(a)*

Note: The procedures for conducting a special investigation, holding a hearing following an investigation, the process for commissioner determinations, and judicial appeal are described in Education Code 39.004-.007.

Commissioner Action

Based on the results of a special investigation, the commissioner may:

1. Take appropriate action under Education Code Chapter 39A, [see AIC];

2. Lower the district's accreditation status or a district's or campus's performance rating; or

3. Take action under both items 1 and 2 above.

Education Code 39.003(d)

At any time before issuing a report with the TEA's final findings, the commissioner may defer taking the above action until:

1. A person who is a third party, selected by the commissioner, has reviewed programs or other subjects of a special investigation and submitted a report identifying problems and proposing solutions;

2. A district completes a corrective action plan developed by the commissioner; or

3. The completion of actions under both items 1 and 2 above.

Education Code 39.003(e)

Based on the results of an action taken above, the commissioner may decline to take the deferred action. *Education Code 39.003(f)*

Note: The procedures for an informal review or hearing following an investigation are described in 19 Administrative Code Chapter 157, Subchapter EE.

Monitoring Reviews

In accordance with Education Code 7.028(a), TEA may monitor compliance with requirements applicable to a process or program provided by a district, campus, or program, only as necessary to ensure:

1. Compliance with federal law and regulations;

2. Financial accountability, including compliance with grant requirements;

3. Data integrity for purposes of:

   a. The Public Education Information Management System (PEIMS); and

   b. Accountability under Education Code Chapter 39 and 39A; and

4. Qualification for funding under Education Code Chapter 48.

The board has primary responsibility for ensuring that the district complies with all applicable requirements of state educational programs.

Education Code 7.028

Compliance Monitoring Activities

Districts are subject to general supervision and monitoring activities for compliance with state law and federal regulation, implemented by TEA under 34 C.F.R. 300.600-.609 [see Supervision Under IDEA, below], and review of program implementation and effectiveness within certain special populations of students.

Activities may include:

1. Random, targeted, or cyclical reviews authorized under Education Code 39.056 (monitoring reviews), conducted remotely or on-site to identify problems implementing state and federal requirements and to provide support for development of reasonable and appropriate strategies to address identified problems; and/or

2. Intensive or special investigative remote or on-site reviews authorized under Education Code 39.003 and 39.004.

Activities described above are applicable for compliance with requirements for reading diagnosis in Education Code 28.006 [see EKC], dyslexia and related disorders in Education Code 38.003 and 19 Administrative Code 74.28 [see EHB], and program effectiveness for emergent bilingual students in Education Code 29.062.

19 TAC 97.1071(b)-(d)

Notice

TEA shall give written notice to the superintendent and the board of trustees of any impending monitoring review. *Education Code 39.056(d)*

Conducting the Review

A monitoring review may include desk reviews and on-site visits, including random on-site visits. In conducting a monitoring review, TEA may obtain information from administrators, other district employees, parents of students enrolled in the district, and other persons as necessary. *Education Code 39.056(c), (g)*

A compliance investigation is an investigation by TEA of a state education grant recipient to determine compliance with the statutory or rule requirements of a state education program. A compliance investigation is not a special investigation subject to Education Code 39.003 and 39.004 (above). *19 TAC 102.1401(a)(1)*

Supervision Under IDEA

In exercising its general supervision authority under 34 C.F.R. sections 300.149 and 300.600, TEA has established a process that provides for the investigation and issuance of findings regarding credible allegations of violations of the Individuals with Disabilities Education Act (IDEA), Part B, or a state statute or administrative rule created to implement IDEA, that arise from an area of concern. The following guidelines shall apply to this process.

Definitions

"Area of concern" means that TEA has been made aware of an allegation regarding a violation of, or noncompliance with, a requirement of IDEA, Part B, or a state special education law or administrative rule.

"Credible allegation" means that TEA has determined that an allegation arising from an area of concern is credible enough to investigate further to determine if a violation or noncompliance has occurred.

Credibility Determination

Information and awareness of an area of concern may arise directly from TEA or from external sources.

TEA will engage in a process to determine if an area of concern is determined to be a credible allegation, and, if determined credible, TEA will initiate an investigation to determine if findings of noncompliance will be issued.

TEA will generally not engage in the process described below to determine if an area of concern is a credible allegation if it is a media report, social media post, or an anonymous report, unless TEA receives corroborating information and facts that a specific violation of state or federal law or rule has occurred if the allegation were to be confirmed true.

When an individual or organization reports a special education area of concern, TEA may direct the individual or organization to the established dispute resolution processes. Depending on the frequency or specificity of the type of allegation made, TEA may engage in a process to determine credibility of the allegation.

Process

The process to determine if an area of concern is a credible allegation may include one or more of the following actions:

1. Reviewing existing citations of noncompliance or any noncompliance identified within the last two school years on the same or similar alleged violation;
2. Reviewing filed state complaints that are in process of being investigated or that have been substantiated within the last two school years on the same or similar alleged violation;
3. Reviewing due process hearing decisions issued within the last two years in which the hearing officer's final written decision contains a finding of noncompliance on the same or similar alleged violation;
4. Gathering evidence from groups that represent or advocate for families and communities served by the district;
5. Reviewing and analyzing available student- or district-level data that relate to the alleged violation;
6. Reviewing and analyzing fiscal and program information, such as grant applications, contracts, self-assessments, and other special education documents submitted to TEA by the district; and
7. Any other activity or measure used to gather evidence within TEA's general supervision and monitoring authority.

The investigation to determine if a credible allegation will result in the issuance of findings will include contacting the school district that is the subject of the allegation and requesting a response from the school district. Additional investigative actions may include one or more of the following:

1. Conducting interviews with the district, staff, parents, or students;
2. A referral for review or investigation by any other appropriate unit or division within TEA;
3. Utilizing the review and analysis of the activities conducted during the review process in this provision to determine if noncompliance is found; and

4. Any other activity or measure within TEA's general supervision and monitoring authority.

Intervention and Sanction

TEA may apply any intervention or sanction within its authority if noncompliance or a violation is substantiated, including those described in 19 Administrative Code 89.1076 [see AIC].

2. Is a United States citizen;

3. Has not been determined by a final judgment of a court exercising probate jurisdiction to be totally mentally incapacitated or partially mentally incapacitated without the right to vote;

6. Is a registered voter.

Election Code 1.020, 11.002 [See *Atty. Gen. Op. Residence

"Residence" Defined

In the Election Code, "residence" means domicile, that is, one's home and fixed place of habitation to which one intends to return after any temporary absence. A person may not establish residence for the purpose of influencing the outcome of a certain election. A person does not lose the person's residence by leaving to go to another place for temporary purposes only. A person does not acquire a residence in a place to which the person has come for temporary purposes only and without the intention of making that place the person's home. A person may not establish a residence at any place the person has not inhabited. A person may not designate a previous residence as a home and fixed place of habitation unless the person inhabits the place at the time of designation and intends to remain. *Election Code 1.015*

Note: The issue of whether a candidate has satisfied residency requirements should be judicially determined. *State v. Fischer, 769 S.W.2d 619 (Tex. App.—Corpus Christi 1989, writ dism'd w.o.j.)*

Intent to Return

For purposes of satisfying the continuous residency requirement, a person who claims an intent to return to a residence after a temporary absence may establish that intent only if the person has made a reasonable and substantive attempt to effectuate that intent and has a legal right and practical ability to return to the residence. This does not apply to a person displaced from the person's residence

Registration as Sex Offender — A person is not eligible to serve as a trustee of an independent school district if the person is required to register as a sex offender under Chapter 62, Code of Criminal Procedure. *Education Code 11.061(b-1)*

Note: If the district is subject to a court order or other binding legal determination, the district shall conduct its elections in accordance with that court order or determination, applicable law, and this policy. To the extent of any conflict, the court order or other legal determination shall prevail. [See BBB(LOCAL)]

Membership

The board consists of the number of members that the district had on September 1, 1995. *Education Code 11.051(b)*

Increase in Membership

A board that has three or five members may by resolution increase the membership to seven. A board that votes to increase its membership must consider whether the district would benefit from also adopting a single-member election system under Education Code 11.052. [See Single-Member Districts, below.]

A resolution increasing the number of trustees takes effect with the second regular election of trustees that occurs after the adoption of the resolution. The resolution must provide for a transition in the number of trustees so that when the transition is complete, trustees are elected as provided by Education Code 11.059 (terms).

Education Code 11.051(c)

Terms

A trustee of a district serves a term of three or four years.

Elections for trustees with three-year terms shall be held annually. The terms of one-third of the trustees, or as near to one-third as possible, expire each year.

Elections for trustees with four-year terms shall be held biennially. The terms of one-half of the trustees, or as near to one-half as possible, expire every two years.

Board policy must state the schedule on which specific terms expire.

Education Code 11.059

Changing Term Lengths

Not later than December 31, 2030, the board of trustees may adopt a resolution changing the length of the terms of its trustees until the date the November election is canvassed. The resolution must provide for staggered terms of either three or four years and specify the manner in which the transition from the length of the former term to the modified term is made. The transition must begin with the first regular election for trustees that occurs after the board adopts the resolution, and a trustee who serves on the date the resolution is adopted shall serve the remainder of that term. *Education Code 11.059(e)*

Note: For website posting requirements regarding trustee information, see CQA.

Uniform Election Dates

Each general or special election of board members shall be on one of the following dates:

1. The first Saturday in May.
2. The first Tuesday after the first Monday in November.

Election Code 41.001(a)

Changing Uniform Election Date

The board of an independent school district that holds its general election for officers on a date other than the November uniform election date may change the date on which it holds its general election for officers to the November uniform election date. *Election Code 41.0052*

Joint Elections

A district trustee election shall be held on the same date as:

Required

1. The election for the members of the governing body of a municipality located in the district;
2. The general election for state and county officers, which is held on the first Tuesday after the first Monday in November in even-numbered years under Election Code 41.002;
3. The election for the members of the governing body of a hospital district, if the school district:
    a. Is wholly or partly located in a county with a population of less than 50,000 that is adjacent to a county with a population of more than three million; and
    b. Held its election for board members jointly with the election for the members of the governing body of the hospital district before May 2007; or
4. The election for the members of the governing board of a public junior college district in which the school district is wholly or partly located.

Elections held on the same date as provided above shall be held as a joint election under Election Code Chapter 271, and the voters shall be served by common polling places consistent with Election Code 271.003(b).

Education Code 11.0581(a)-(c)

county to hold the elections jointly. The terms of a joint election agreement must be stated in an order, resolution, or other official action adopted by the board. *Election Code 271.002*

Methods of Election — Options

In a district in which the positions of trustees are not designated by number or in which the trustees are not elected from single-member trustee districts, the candidates receiving the highest number of votes shall fill the positions the terms of which are normally expiring. *Education Code 11.057(b)*

At Large

Position or Place

The positions on the board shall be designated by number in any district in which the board by resolution orders that all candidates for trustee be voted on and elected separately for positions on the board and that all candidates be designated on the official ballot according to the number of the positions for which they seek election.

Not later than the 60th day before the date of an election, the board must make the resolution and number the positions on the board in the order in which the terms of office expire. Once a board has ordered the election of trustees by numbered positions, neither the board nor their successors may rescind the action.

Education Code 11.058(c)-(f)

Single-Member Districts

On Board's Motion

Except as provided below, the board, on its own motion, may order that trustees of the district are to be elected from single-member districts or that not fewer than 70 percent of the members of the board are to be elected from single-member districts with the remaining board members to be elected from the district at large.

If a majority of the area of a district is located in a county with a population of less than 10,000, a board, on its own motion, may order that trustees of the district are to be elected from single-member districts or that not fewer than 50 percent of the members of the board are to be elected from single-member districts with the remaining board members to be elected from the district at large.

Before adopting an order, a board must:

1. Hold a public hearing at which registered voters of a district are given an opportunity to comment on whether or not they favor the election of trustees in the manner proposed by the board; and
2. Publish notice of the hearing in a newspaper that has general circulation in the district, not later than the seventh day before the date of the hearing.

© 2025 Texas Association of School Boards, Inc. All rights reserved. Permission granted to TASB Policy Service subscribers to reproduce for internal use only.

An order adopted by the board must be entered not later than the 120th day before the date of the first election at which all or some of the trustees are elected from single-member districts authorized by the order.

Education Code 11.052(a)-(d)

By Voter Petition

If at least 15 percent or 15,000 of the registered voters of the district, whichever is less, sign and present to the board a petition requesting submission to the voters of the proposition that trustees be elected in a specific manner, which must be generally described on the petition and which must be a manner of election the board could have ordered on its own motion, the board shall order that the appropriate proposition be placed on the ballot at the first regular election of trustees held after the 120th day after the date the petition is submitted to the board. The proposition must specify the number of trustees to be elected from single-member districts. Beginning with the first regular election of trustees held after an election at which a majority of the registered voters voting approve the proposition, trustees shall be elected in the manner prescribed by the approved proposition. *Education Code 11.052(e)*

Board Member Districts

If single-member districts are adopted or approved by either method described above, the board shall divide the district into the appropriate number of trustee districts, based on the number of members that are to be elected from single-member districts, and shall number each trustee district. The trustee districts must be compact and contiguous and must be as nearly as practicable of equal population. In a district with 150,000 or more students in average daily attendance, the boundary of a trustee district shall not cross a county election precinct boundary except at a point at which the district boundary crosses the county election precinct boundary. Trustee districts must be drawn not later than the 90th day before the date of the first election of trustees from those districts. *Education Code 11.052(f)*

Residency for First Election

Residents of each trustee district are entitled to elect one trustee to the board. A trustee elected to represent a trustee district at the first election of members must be a resident of the district the trustee represents not later than the 90th day after the date election returns are canvassed, or the 60th day after the date of a final judgment in an election contest filed concerning that trustee district. A trustee vacates the office if the trustee fails to move into the district the trustee represents within the time provided. [For more information on residency, see BBA and BBC.] *Education Code 11.052(g)*

Number and Term

At the first election at which some or all of the trustees are elected from single-member trustee districts and after each redistricting, all positions on a board shall be filled. The trustees then elected shall draw lots for staggered terms as provided by Education Code 11.059 (terms). *Education Code 11.052(h)*

Redistricting

Not later than the 90th day before the date of the first regular board election at which trustees may officially recognize and act on the last preceding federal census, a board shall redivide a district into the appropriate number of trustee districts if the census data indicates that the population of the most populous district exceeds the population of the least populous district by more than 10 percent. Redivision of a district shall be in the manner provided above at Board Member Districts. *Education Code 11.052(i)*

Phase-in Option

The board of a district that adopts a redistricting plan may provide for the trustees in office when the plan is adopted or the district is redistricted to serve for the remainder of their terms in accordance with this provision. The trustee district and any at-large positions provided by the district's plan shall be filled as the staggered terms of trustees then in office expire. Not later than the 90th day before the date of the first election from trustee districts and after each redistricting, a board shall determine the order in which the positions will be filled. *Education Code 11.053*

Boundary Change Notice

A district that changes its boundaries or the boundaries of districts used to elect members to the board shall not later than the 30th day after the date the change is adopted:

1. Notify the voter registrar of the county in which the area subject to the boundary change is located of the adopted boundary change; and
2. Provide the voter registrar with a map of an adopted boundary change in a format that is compatible with the mapping format used by the registrar's office.

Except as otherwise provided at Majority, below, to be elected to a public office, a candidate elected at large, at large by position, or by single-member districts must receive more votes than any other candidate for the office. *Education Code 11.057(a), (b); Election Code 2.001*

If a board adopts an order requiring the use of cumulative voting, only the board member positions that were scheduled to be filled at the election are filled through the use of cumulative voting.

At an election at which more than one board member position is to be filled, all of the positions that are to be filled at the election shall be voted on as one race by all the voters of a district. Each voter is entitled to cast a number of votes equal to the number of positions to be filled at the election.

A voter may cast one or more of the specified number of votes for any one or more candidates in any combination. Only whole votes may be cast and counted. If a voter casts more than the number of votes to which the voter is entitled in the election, none of the voter's votes may be counted in that election. If a voter casts fewer votes than entitled, all of the voter's votes are counted in that election.

The candidates who are elected are those, in the number to be elected, receiving the highest number of votes.

A district that adopts an order requiring the use of cumulative voting may not elect its members by position as provided by Education Code 11.058.

Education Code 11.054

"Videoconference call" or "videoconference" means a communication conducted between two or more persons in which one or more of the participants communicate with the other participants through audio and video signals transmitted over a telephone network, a data network, or the internet. *Gov't Code 551.001(8); 1 TAC 209.1(5)*

A board member or district employee may participate remotely in a board meeting by means of a videoconference call if the video and audio feed of the board member's or employee's participation, as applicable, is broadcast live at the meeting and complies with the provisions below. A board member who participates by videoconference call shall be counted as present at the meeting for all purposes. A board member who participates in a meeting by video conference call shall be considered absent from any portion of the meeting during which audio or video communication with the member is lost or disconnected. The board may continue the meeting only if a quorum remains present at the meeting location or, if applicable, continues to participate in a meeting conducted as specified at Multiple Counties, below. *Gov't Code 551.127(a-1)-(a-3)*

Quorum in One Location

A meeting may be held by videoconference call only if a quorum of the board is physically present at one location of the meeting, except as provided at Multiple Counties, below.

Multiple Counties

A meeting of a board of a district that extends into three or more counties may be held by videoconference call only if the board member presiding over the meeting is physically present at one location of the meeting that is open to the public during the open portions of the meeting.

Additional Notice Requirements

A meeting held by videoconference call is subject to the notice requirements applicable to other meetings in addition to the notice requirements applicable to meetings by videoconference call.

The notice of a meeting to be held by videoconference call must specify as a location of the meeting the location where a quorum of the board will be physically present and specify the intent to have a quorum present at that location, except that the notice of a meeting held by videoconference call described above at Multiple Counties must specify as a location of the meeting the location where the board member presiding over the meeting will be physically

Quality of Audio and Video Signals

Each portion of a meeting held by videoconference call that is required to be open to the public shall be visible and audible to the public at the location specified in the notice. If a problem occurs that causes a meeting to no longer be visible and audible to the public at that location, the meeting must be recessed until the problem is resolved. If the problem is not resolved in six hours or less, the meeting must be adjourned.

The location specified in the notice, and each remote location from which a member of the board participates, shall have two-way audio and video communication with each other location during the entire meeting. The face of each participant in the videoconference call, while that participant is speaking, shall be clearly visible, and the voice audible, to each other participant and, during the open portion of the meeting, to the members of the public in attendance at the physical location described by the notice and at any other location of the meeting that is open to the public.

The quality of the audio and video signals perceptible at each location of the meeting must meet or exceed minimum standards specified by the Department of Information Resources (DIR). The audio and video signals perceptible by members of the public at the location of the meeting described by the notice and at each remote location from which a member participates must be of sufficient quality so that members of the public at each location can observe the demeanor and hear the voice of each participant in the open portion of the meeting.

Gov't Code 551.127(f), (h)-(j)

Minimum Standards

No requirements found in subchapter B of 1 Administrative Code Chapter 209 (minimum standards for meetings held by videoconference by governmental bodies) shall be interpreted to overrule any section of the Open Meetings Act or any rules adopted or opinions issued by the Office of the Attorney General interpreting the Open Meetings Act. *1 TAC 209.4*

Boards conducting open or closed meetings by videoconference call shall review and consider any applicable guidelines promulgated by DIR. *1 TAC 209.5(b)*

or mobile device either one-to-one or in a group environment. *1 TAC 209.1(1)*

All computer-based videoconferencing applications shall employ a minimum bandwidth transmission speed and/or adequate data compression algorithm to produce a sufficient quality for audio and video such that audio volume and clarity and video clarity are sufficient to hear and view all speaking participants on the videoconference clearly.

Computer-based videoconferencing applications may specify unique minimum requirements for computer central processing units, memory, and video capability to run the computer-based videoconferencing application. A board shall comply with these minimum requirements.

If the videoconference call hosts a public audience at a location or locations specified by the official notice of the open meeting posted in compliance with Open Meetings Act requirements, then the district shall establish a minimum of one host computer at the location(s) that will run the computer-based videoconferencing application. This host computer shall then be connected to:

1. Either a separate video monitor of size proportional to the room and clearly visible to all in the room or multiple video monitors so that all attendees may clearly view the video stream; and

2. External speakers of suitable volume and sound quality such that all meeting attendees at the host location may clearly hear the meeting.

Any personal computer used by a board member for the purpose of videoconferencing for an open meeting subject to the Open Meetings Act shall contain a camera and speakers of sufficient quality to permit all meeting attendees to see the individual who is using the personal computer and for the individual to hear all speaking attendees.

1 TAC 209.10

Dedicated Video Room Environments

If a board uses a dedicated video room environment (DVRE) for dedicated camera and speaker equipment but is using a computer-based videoconferencing application that is not part of a proprietary DVRE setup, then the district must comply with all minimum standards for computer-based application software, above, and is not subject to the DIR requirements for a DVRE. *1 TAC 209.11(e)*

Internet Posting — Recordings

A board shall:

1. Make the archived recording of each meeting to which these provisions apply available on the internet not later than seven days after the date the recording was made; and

2. Maintain the archived recording on the internet for not less than two years after the date the recording was first made available.

District Website

A district that maintains an internet site shall make available on that site, in a conspicuous manner, the archived recording of each meeting or an accessible link to the archived recording of each such meeting.

Exemption

A board is exempt from the internet posting requirements if the board's failure to make the required recording of a meeting available is the result of a catastrophe, as defined by Government Code 551.0411 [see Catastrophe, above], or a technical breakdown. Following a catastrophe or breakdown, a board must make all reasonable efforts to make the required recording available in a timely manner.

Attorney Consultation

A board may use a telephone conference call, videoconference call, or communications over the internet to conduct a public consultation with its attorney in an open meeting of the board or a private consultation with its attorney in a closed meeting of the board. [See BEC]

Each part of a public consultation by a board with its attorney in an open meeting must be audible to the public at the location specified in the notice of the meeting as the location of the meeting.

These provisions do not authorize the members of a board to conduct a meeting of the board by telephone conference call, video conference call, or communications over the internet; or create an exception to the application of Government Code Chapter 551, Subchapter F (meetings using telephone, videoconference, or internet).

Exception

These provisions do not apply to a consultation with an attorney who is an employee of a district. An attorney who receives compensation for legal services performed, from which employment taxes are deducted by the district, is an employee of the district.

Gov't Code 551.129

Persons with Hearing Impairments

In a proceeding before a board in which the legal rights, duties, or privileges of a party are to be determined by the board after an adjudicative hearing, the board shall supply for a party who is deaf or hearing impaired an interpreter who has qualifications approved by the Texas Commission for the Deaf and Hard of Hearing.

Available School Fund

The available school fund is apportioned annually to Texas counties according to the scholastic population of each. *Education Code 43.001(b)*

Foundation School Program

The purposes of the Foundation School Program (FSP) set forth in Education Code Chapter 48 are to guarantee that each district in the state has:

1. Adequate resources to provide each eligible student a basic instructional program and facilities suitable to the student's educational needs; and
2. Access to a substantially equalized program of financing in excess of basic costs for certain services, as provided by that chapter.

The FSP consists of:

1. Two tiers that in combination provide for:
    a. Sufficient financing for all school districts to provide a basic program of education that is rated acceptable or higher under Education Code 39.054 and meets other applicable legal standards; and
    b. Substantially equal access to funds to provide an enriched program; and
2. A facilities component as provided by Education Code Chapter 46. [See CCA]

Education Code 48.002

The cost of the FSP for a district is the total sum of:

1. The sum of the tier one allotments and other funding as follows:
    a. The basic allotment under Education Code Chapter 48, Subchapter B;
    b. The student-based allotments under Education Code Chapter 48, Subchapter C; and
    c. The additional funding under Education Code Chapter 48, Subchapter D (including the transportation allotment [see CNA] and the new instructional facility allotment below); and
2. The tier two allotment under Education Code Chapter 48, Subchapter E.

© 2025 Texas Association of School Boards, Inc. All rights reserved. Permission granted to TASB Policy Service subscribers to reproduce for internal use only.

The sum of the FSP maintenance and operations costs for all accredited school districts in this state constitutes the total maintenance and operations cost of the FSP.

The FSP shall be financed by:

1. State available school funds distributed in accordance with the law;
2. Ad valorem tax revenue generated by local school district effort [see CCG series]; and
3. State funds appropriated for the purposes of public school education and allocated to each district in an amount sufficient to finance the cost of each district's FSP not covered by other funds specified.

Education Code 48.251

PEIMS

A district shall participate in the Public Education Information Management System (PEIMS) and shall provide through that system information required for the administration of Education Code Chapter 48 (Foundation School Program) and of other appropriate provisions of the Education Code. Data standards, established by the commissioner of education, shall be used by a district to submit required information. *Education Code 48.008; 19 TAC 55.1001(b)*

Allotment for Basic Costs

A district is entitled to an annual allotment of $106 for each student enrolled in the district. Money allocated may be used only to pay costs associated with:

1. Transportation;
2. Hiring retired teachers;
3. Providing health insurance and employee benefits and paying for payroll taxes;
4. Contributions and other costs under Government Code, Subchapter E, Chapter 825 (Teacher Retirement System);
5. Utilities; and
6. Property and casualty insurance.

Education Code 48.161

New Instructional Facility Allotment (NIFA)

A district is entitled to an additional allotment as provided by Education Code 48.152 for operational expenses associated with opening a new instructional facility. A district entitled to an allotment may use funds from the district's allotment to renovate an ex-

isting instructional facility to serve as a dedicated cybersecurity computer laboratory. *Education Code 48.152*

Definitions

"Instructional facility" means real property, an improvement to real property, or a necessary fixture of an improvement to real property that is used predominantly for teaching the curriculum required by Education Code 28.002. *Education Code 46.001, 48.152(a)(1); 19 TAC 61.1034(a)(2)* [See CCA for the Instructional Facilities Allotment]

"New instructional facility" is a facility that includes:

1. A newly constructed instructional facility, which is a new instructional campus built from the ground up;
2. A repurposed instructional facility, which is a facility that has been renovated to become an instructional facility for the first time for the applying school district;
3. A leased facility operating for the first time as an instructional facility with a minimum lease term of not less than 10 years. The lease must not be a continuation of or renegotiation of an existing lease for an instructional facility; or
4. A renovated portion of an instructional facility to be used for the first time to provide high-cost and undersubscribed career and technology education programs, as determined by the commissioner.

Education Code 48.152(a)(2); 19 TAC 61.1034(a)(3)

Eligibility

The following eligibility criteria apply to the NIFA in accordance with Education Code 48.152.

1. The facility for which NIFA funds are requested must meet the following requirements:
    a. The facility must qualify as an instructional campus and a new instructional facility used for teaching the curriculum required by Education Code Chapter 28.
    b. To qualify for first-year funding, a new facility must not have been occupied in the prior school year. To qualify for follow-up funding, the facility must have been occupied for the first time in the prior school year and funded for the NIFA for that first year. If an instructional facility qualifies as a new instructional facility but did not receive the allotment in the first year of eligibility due to a failure to apply, the school district or open-enrollment charter school may still apply for and receive funding for the average daily attendance (ADA) earned only during the

second year of occupation in the new instructional facility.

c. With the exception of a covered walkway connecting the new facility to another building, the new facility must be physically separate from other existing school structures.

d. Career and technical education (CTE) campuses must report each CTE campus student's ADA when the ADA for that student is reported at the student's home campus.

2. Expansion or renovation of existing instructional facilities, as well as portable and temporary structures, are not eligible for the NIFA.

3. All instructional buildings on the campus must be newly constructed as new instructional facilities, except for an existing gymnasium that remains on the campus and will be utilized on the instructional campus.

Application Process

To apply for the NIFA, a district must complete the Texas Education Agency's (TEA) online application process requesting funding pursuant to the NIFA.

The initial (first-year) application, or an application for one-year funding only, must be submitted electronically no later than July 15. The application must include the following:

1. The electronic submission of TEA's online application for initial funding; and

2. The electronic submission of the following materials:

a. A brief description and photograph of the newly constructed, repurposed, or leased instructional facility;

b. A copy of a legal document that clearly describes the nature and dates of the new or repurposed construction or a copy of the applicable lease;

c. A site plan;

d. A floor plan; and

e. If applicable, a demolition plan.

Second-year applications require only the electronic submission of TEA's online application for follow-up funding no later than July 15 of the year preceding the applicable school year.

© 2025 Texas Association of School Boards, Inc. All rights reserved. Permission granted to TASB Policy Service subscribers to reproduce for internal use only.

Survey on Days of Instruction

In the fall of the school year after a school year for which an applicant received NIFA funds, the district that received the funds must complete an online survey on the number of instructional days held in the new facility and submit the completed survey electronically. TEA will use submitted survey information in determining the final (settle-up) amount earned by each eligible school district, as described by 19 Administrative Code 61.1034(e)(6).

Costs and Payments

The costs and payments for the NIFA are determined by the commissioner.

The allotment for the NIFA is a part of the cost of the first tier of the FSP. This allotment is not counted in the calculation of weighted average daily attendance for the second tier of the FSP.

If, for all eligible applicants combined, the total cost of the NIFA exceeds the amount appropriated, each allotment is reduced so that the total amount to be distributed equals the amount appropriated. Reductions to allotments are made by applying the same percentage adjustment to each school district.

Allocations will be made in conjunction with allotments for the FSP in accordance with the school district's payment class. For school districts that are subject to the excess local revenue provisions under Education Code 48.257, and do not receive payments from the Foundation School Fund, NIFA distributions will be reflected as reduced recapture payments.

For school districts that are subject to the excess local revenue provisions under Education Code 48.257, NIFA distributions increase the amount of the FSP entitlement and so will automatically reduce any excess local revenue and reduce the requirement to send recapture to the state in the amount of the NIFA allocation.

For all school districts receiving the NIFA, a final (settle-up) amount earned is determined by the commissioner when information reported through the survey described above is available in the fall of the school year after the school year for which NIFA funds were received. [See Survey on Days of Instruction, above] The final amount earned is determined using the submitted survey information and final counts of ADA for the school year for which NIFA funds were received, as reported through PEIMS.

The amount of funds to be distributed for the NIFA to a school district is in addition to any other state aid entitlements.

Bonds are eligible to be paid with state and local funds under Subchapter B if the district made payments on the bonds during the final school year of the preceding state fiscal biennium or taxes levied to pay the principal and interest on the bonds were included in a district’s audited debt service collections for that school year, and the district does not receive state assistance under the Instructional Facilities Allotment for payment of the principal and interest on the bonds. *Education Code 46.032(a), .033* [See 19 Administrative Code 61.1035 for commissioner’s rules related to the existing debt allotment.]

essary in connection with the issuer's issuance of public securities or administration of its affairs that pertain to the issuance of public securities. The selection of legal counsel shall be made in accordance with the provisions of Government Code Chapter 2254, Subchapter A, applicable to the selection by a governmental entity of a provider of professional engineering services. *Gov't Code 1201.027(a)* [See CH(LEGAL) regarding contingent fee contracts for legal services and Government Code 2254.102(e) for additional requirements.]

Federal Securities Law

Prior to publicly offering bonds, a school district must prepare and deliver to an underwriter an official statement containing the terms of the bond offering, a description of the district itself, financial and operating data of the district, and any other information that may be material to an investor interested in purchasing the district's bonds or otherwise required by Rule 15c2-12 of the Securities Exchange Commission (SEC) (SEC Rule 15c2-12(b)). *17 C.F.R. 240.15c2-12* [See Note, below]

Disclosure Obligations for Bond and Other Debt Offerings

Except for exempt offerings, SEC Rule 15c2-12(b) requires underwriters to obtain a continuing disclosure agreement (CDA) from the district when the district issues bonds. A CDA obligates the district to prepare and file continuing disclosures of financial information and operating data annually after the bonds are issued. A CDA also requires filing notice regarding the occurrence of events listed under SEC Rule 15c2-12(b)(5)(i)(C) within 10 business days following the occurrence of any such event. *17 C.F.R. 240.15c2-12* [See Note, below]

Continuing Disclosure after Issuing Bonds

School districts, board members, and certain employees of the district are subject to liability under the antifraud provisions of the federal securities laws contained in Section 17(a) of the Securities Act of 1933 (the "Securities Act"), Section 10(b) of the Securities Exchange Act of 1934 (the "Exchange Act") and Rule 10b-5 of the SEC. The antifraud provisions generally prohibit false or misleading statements made in connection with the offer or sale of a district's bonds (or the omission of material facts from such statements), including the official statement itself and any other statement reasonably expected to reach bond investors (disclosures). *SEC Exchange Act Release No. 33741 (Mar. 9, 1994)*

Liability under Federal Securities Law

The antifraud provisions also apply to a district's continuing disclosure obligations under SEC Rule 15c2-12(b) after a district's bonds are issued. [See Continuing Disclosure after Issuing Bonds, above] *SEC Report on the Municipal Securities Market (July 31, 2012) (the "SEC 2012 Report") at pg. 29*

Note: In preparing an official statement, a district may reasonably rely on the advice of outside professionals who are also subject to the antifraud provisions, but a district is primarily liable for the content of its official statement and other disclosures. *SEC Exchange Act Release No. 36761 (Jan. 24, 1996)*

A district may engage qualified consultants, including qualified disclosure or securities counsel and a financial adviser, to assist with preparing an official statement and other primary disclosures relating to a bond offering. Creation of internal procedures may help to insulate a district against criticism or liability under federal securities laws.

Districts may also engage disclosure counsel and/or other professionals to assist with secondary disclosure, including advice and assistance ensuring that (1) reporting requirements imposed by a CDA are satisfied and (2) information disclosed in periodic and occasional reports is accurate and complete.

Internal procedures may provide for (1) appointment of, and disclosure training for, district officials and employees who will be part of the financing team, (2) a procedure of accountability for review of the disclosures, and (3) ensuring that any procedures established are in fact followed.

Tax Rate Adoption

Maintenance Taxes

The board may levy, assess, and collect annual ad valorem taxes for the maintenance of the district's schools. Taxes may not be levied unless authorized by a majority of the qualified voters of the district, voting at an election called for that purpose. *Education Code 45.002, .003(a)*

Restriction on Maintenance Tax Levy

A district may not levy the district's maintenance taxes at a rate intended to create a surplus in maintenance tax revenue for the purpose of paying the district's debt service. *Education Code 45.0021(a)* [See Taxpayer Injunction, below]

Note: For information on the consequences of violating this restriction, see Education Code 45.0021(c)-(e). See also Taxpayer Injunction, below.

Exceptions

Education Code 45.0021 does not prohibit a district from:

1. Using a surplus in maintenance tax revenue to pay the district's debt service if the district's interest and sinking fund tax revenue is insufficient to pay the district's debt service due to circumstances beyond the district's control and the use of the surplus maintenance tax revenue to pay the district's debt service is necessary to prevent a default on the district's debt;
2. Paying a portion of the district's maintenance tax revenue into the tax increment fund for a reinvestment zone under Tax Code Chapter 311; or
3. Using money disbursed from the tax increment fund for a reinvestment zone under Tax Code Chapter 311 in accordance with the agreement entered into by the district with the governing body of the municipality or county that designated the zone under Tax Code 311.013(f).

Education Code 45.0021(f)

Maintenance Tax Rate Components

Tier One

A district's tier one maintenance and operations tax rate is the number of cents levied by the district for maintenance and operations that does not exceed the maximum compressed rate, as determined under Education Code 48.2551. *Education Code 45.0032(a)*

Maximum Compressed Rate

"MCR" is the district's maximum compressed rate, which is the tax rate for the current tax year per $100 of valuation of taxable property at which the district must levy a maintenance and operations tax to receive the full amount of the tier one allotment to which the district is entitled under Education Code Chapter 48. The Texas Education Agency (TEA) shall calculate and make available school districts' maximum compressed rates.

© 2025 Texas Association of School Boards, Inc. All rights reserved. Permission granted to TASB Policy Service subscribers to reproduce for internal use only.

Local appraisal districts, school districts, and the comptroller shall provide any information necessary to TEA to implement Education Code 48.2551.

Education Code 48.2551(a)(3), (d), (d-1)

School districts' maximum compressed maintenance and operations tax rates shall be calculated using locally certified property values and adjusted to estimate for exclusions under Government Code 403.302(d).

TEA will open a data collection from 12:01 a.m. on July 18 through 11:59 p.m. on August 1 for districts. Districts must submit the data specified in 19 Administrative Code 61.1000(c). TEA will use any available data to calculate MCR absent data collection submissions from a school district.

19 TAC 61.1000(b), (c), (h)

TEA will calculate and make available preliminary maximum compressed tier one tax rates to each district on or before August 5. If TEA receives an appeal of a preliminary MCR, TEA will issue a final determination to the district no later than August 31. If TEA does not receive an appeal of a preliminary MCR, the preliminary MCR automatically becomes a final MCR 10 calendar days following TEA's approval of the district's preliminary MCR. *19 TAC 61.1000(d)-(f)*

A district may appeal its preliminary MCR through the following process:

1. The TEA division responsible for MCRs must receive a written appeal no later than 10 calendar days after TEA's approval of the district's preliminary MCR. The appeal must include adequate evidence and additional information that supports the position of the district. Appeals received 11 calendar days or more after TEA approves a district's preliminary MCR will not be considered.

2. TEA will only consider appeals that would result in a change of the preliminary MCR.

19 TAC 61.1000(g); Education Code 48.2551(d-2)

Tier Two

A district's enrichment tax rate consists of:

1. Any cents of additional maintenance and operations tax effort, not to exceed eight cents over the maximum tier one tax rate; and

© 2025 Texas Association of School Boards, Inc. All rights reserved. Permission granted to TASB Policy Service subscribers to reproduce for internal use only.

2. Any cents of additional maintenance and operations tax effort that exceeds the sum of the maximum tier one tax rate and the maximum number of cents permitted under item 1 above.

Education Code 45.0032(a), (b)

Districts Subject to Disaster Exception

For a district to which Tax Code 26.042(e) [see Disaster Exception to Election Requirement, below] applies, the amount by which the district's maintenance tax rate exceeds the district's voter-approval tax rate, excluding the district's current debt rate under Tax Code 26.08(n)(3) for the preceding year is not considered in determining a district's tier one maintenance and operations tax rate or the district's enrichment tax rate for the current tax year. *Education Code 45.0032(d)*

Maximum Tax Rate

For any year, the maintenance tax rate per $100 of taxable value adopted by the district may not exceed the rate equal to the sum of $0.17 and the district's maximum compressed rate, as determined under Education Code 48.2551.

A rate that exceeds the maximum rate for the year in which the tax is to be imposed is void. A district with a tax rate that is void under this provision may, subject to requirements imposed by other law, adopt a rate for that year that does not exceed the specified maximum rate for that year.

Education Code 45.003(d), (e)

Districts with 2005 Tax Rate over $1.50

Notwithstanding any other law, a district that levied a maintenance tax for the 2005 tax year at a rate greater than $1.50 per $100 of taxable value in the district as permitted by special law [Art. 2784g Tex. Rev. Civ. Stat.] may not levy a maintenance tax at a rate that exceeds the rate per $100 of taxable value that is equal to the sum of $0.17 and the product of 66.67 percent multiplied by the rate of the maintenance tax levied by the district for the 2005 tax year, minus any amount by which $1.00 exceeds the product of the state compression percentage, as determined under Education Code 48.255, multiplied by $1.00. *Education Code 45.003(f)*

For a district described above, any cents of maintenance and operations tax effort that exceeds the maximum rate described at Maximum Tax Rate are not included in the district's tier one maintenance and operations tax rate or the district's enrichment tax rate and the district is not entitled to the guaranteed yield amount of state funds under Education Code 48.202 for those cents of tax effort. *Education Code 45.0032(c)*

Assessor and Collector

The board may employ a person to assess or collect the district's taxes and may compensate the person as the board considers appropriate. This provision does not prohibit a district from providing

for the assessment or collection of the district's taxes under a method authorized by Tax Code Chapter 6, Subchapter B. *Education Code 45.231*

A district that used a method of selection for the 1994 tax year that was authorized by former Education Code Chapter 23, Subchapter F, may continue to use that method until the district uses another method authorized above. *Education Code 45.232*

The assessor and collector shall assess, collect, or assess and collect taxes, as applicable. *Tax Code 6.23(b)*

Collector's Bond

A district that has its own collector shall require the collector to give bond conditioned on the faithful performance of duties. The bond must be made payable to and be approved by the board in an amount determined by the board. The board may require a new bond at any time, and failure to give new bond within a reasonable time after demand is a ground for removal from office. The board may prescribe additional requirements for the bond.

A district whose taxes are collected by a person other than the district's own collector may require that person to give bond conditioned on the faithful performance of duties. The bond must be payable to, approved by, and paid for by the board in an amount determined by the board. The board may prescribe additional requirements for the bond.

A district shall pay the premium for a required bond from its general fund or as provided by intergovernmental contract.

Tax Code 6.29

Certified Estimate of Values

By April 30, the chief appraiser shall prepare and certify to the district's assessor an estimate of the taxable value of district property. *Tax Code 26.01(e)*

Appraisal Roll

By July 25, the chief appraiser shall prepare and certify to the assessor for the district that part of the appraisal roll that lists the property taxable by the district. The part certified to the assessor is the appraisal roll for the district.

If by July 20 the appraisal review board has not approved the appraisal records as required under Tax Code 41.12, the chief appraiser shall not later than July 25 prepare and certify to the assessor for a school district an estimate of the taxable value of property in the school district.

Tax Code 26.01(a)-(a-1)

By August 1 or as soon thereafter as practicable, the district's assessor shall submit to the board the district's appraisal roll, show-

ing the total appraised, assessed, and taxable values of all property and the total taxable value of new property.

By August 1 or as soon thereafter as practicable, a district's collector shall certify to the board the anticipated collection rate for the current year. If the collector certified an anticipated collection rate in the preceding year and the actual collection rate in that year exceeded the anticipated rate, the collector shall also certify the amount of debt taxes collected in excess of the anticipated amount in the preceding year.

Tax Code 26.04(b)

Designated Employee/Officer to Calculate Rates

After the district's assessor submits the appraisal roll to the board, an officer or employee designated by the board shall calculate the no-new-revenue tax rate and the voter-approval tax rate for the district.

Required Calculation Forms

The designated officer or employee shall use the tax rate calculation forms prescribed by the comptroller under Tax Code 5.07 in calculating the no-new-revenue tax rate and the voter-approval tax rate.

Calculation Forms to County Tax Assessor-Collector

As soon as practicable after the designated officer or employee calculates the no-new-revenue tax rate and the voter-approval tax rate of the district, the designated officer or employee shall submit the tax rate calculation forms used in calculating the rates to the county assessor-collector for each county in which all or part of the territory of the district is located.

If an amount described by Tax Code 26.012(6)(C) is excluded from the current total value of a district that is wholly or partly located in a county that has a population of less than 500,000 and is located on the Gulf of Mexico for a tax year, the designated officer or employee for the district shall include as an addendum to the tax rate calculation forms for that tax year:

1. Documentation that supports the exclusion; and
2. Each statement submitted to the designated officer or employee under Tax Code 41.48(c)(2) for that tax year.

Tax Code 26.04(c), (d-1), (d-3)

[See CE regarding the requirement to attach tax rate calculation forms as an appendix to a district's budget.]

Notice of Certain Appeals; Submissions by Property Owner

Not later than July 1, the designated officer or employee of a district that is wholly or partly located in a county that has a population of less than 500,000 and is located on the Gulf of Mexico shall notify each property owner in the district who owns a property that

had a taxable value in the preceding tax year that was one of the 20 highest in the appraisal district in which the property is located that the owner may have to comply with the requirements of Tax Code 41.48.

A property owner or associated business entity of the owner that intends to file an appeal under Chapter 42 that is part of anticipated substantial litigation, as defined by Tax Code 26.012(1-b), shall submit to the designated officer or employee of a district in which the property included in the litigation is located:

1. The total amount of uncontested taxable value of all property located in the district that may be the subject of an appeal by the property owner or entity and that is part of the litigation; and

2. A written statement providing that the property owner or entity intends to pay the tax due on the amount of the uncontested taxable value.

A property owner or associated business entity of the property owner must submit the information not later than the earlier of August 7 or the 21st day after the date the first hearing regarding a protest of the value of any property included in the anticipated substantial litigation is conducted.

Notwithstanding any other provision, the amount of uncontested taxable value submitted to a designated officer or employee may be used by the designated officer or employee only for the purpose of calculating a tax rate under Tax Code 26.04 and may not be construed as an amount of value of a property that is not in dispute for purposes of a proceeding under Tax Code Chapter 42.

Truth-in-Taxation Requirements

Note: The *Truth in Taxation* website maintained by the Texas comptroller of public accounts offers detailed guidance on setting local property tax rates for school districts.[1]

Meeting to Adopt Budget

When the budget has been prepared under Education Code 44.002, the board president shall call a meeting of the board for the purpose of adopting a budget for the succeeding tax year. The budget must be adopted before the adoption of the tax rate for the tax year in which the fiscal year covered by the budget begins. *Education Code 44.004(a), (g)* [See CE]

Published Notice

The board president shall provide for publication of notice of the budget and proposed tax rate meeting in a daily, weekly, or bi-weekly newspaper published in the district. If no daily, weekly, or

biweekly newspaper is published in the district, the president shall provide for publication of notice in at least one newspaper of general circulation in the county in which the district's central administrative office is located. The notice shall be published not earlier than the 30th day or later than the 10th day before the date of the hearing.

Form and Contents

The notice of public meeting to discuss and adopt the budget and the proposed tax rate may not be smaller than one-quarter page of a standard-size or a tabloid-size newspaper, and the headline on the notice must be in 18-point or larger type and contain the information set out in Education Code 44.004(c) and (c-1).

The notice must include a statement that a district may not increase its maintenance and operations tax rate to create a surplus in maintenance and operations tax revenue for the purpose of paying the district's debt service.

A notice is not valid if it does not substantially conform to the language and format prescribed by the comptroller.

Education Code 44.004(b)-(d)

Budget and Taxpayer Impact Statement

The notice of a meeting at which a district will discuss or adopt the district's budget must include:

1. A physical copy of the proposed budget unless the district has made the proposed budget clearly accessible on the home page of the district's website [see CQA for provisions regarding optional website postings]; and

2. A taxpayer impact statement showing, for the median-valued homestead property, a comparison of the property tax bill in dollars pertaining to the property for the current fiscal year to an estimate of the property tax bill in dollars for the same property for the upcoming fiscal year if the proposed budget is adopted.

Gov't Code 551.043(c)

Debt Service Rate Decrease

If the published interest and sinking fund (debt service) rate decreases after the publication of the required notice, the president is not required to publish another notice or call another meeting to discuss and adopt the budget and the proposed lower tax rate. *Education Code 44.004(g-1)*

Districts with July 1 Fiscal Year

Notwithstanding the provisions above, a district with a fiscal year beginning July 1 may use the certified estimate of the taxable value of district property in preparing the required notice if the district does not receive the certified appraisal roll on or before June 7. A

district that uses a certified estimate may adopt a budget at the public meeting designated in the published notice prepared using the estimate, but the district may not adopt a tax rate before the district receives the certified appraisal roll for the district.

After receipt of the certified appraisal roll, a district must publish a revised notice and hold another public meeting before the district may adopt a tax rate that exceeds:

1. The rate proposed in the notice prepared using the estimate; or
2. The district's voter-approval rate determined under Tax Code 26.08 using the certified appraisal roll.

Education Code 44.004(h), (i)

Tax Rate Adoption Requirements

Deadline

The board shall adopt a tax rate for the current tax year and shall notify the assessor of the tax rate adopted. [See Adoption of Tax Roll, below] The board must adopt a tax rate before the later of September 30 or the 60th day after the date the certified appraisal roll is received by the district, except that the board must adopt a tax rate that exceeds the voter-approval tax rate not later than the 71st day before the next uniform election date that occurs in November of that year. [Note that Election Code 3.005(c) requires that an election to be held on a uniform date be ordered not later than the 78th day before election day; see Time for Election, below.]

The tax rate consists of two components, each of which must be approved separately. The components are:

1. The interest and sinking fund (debt service) rate calculated under Education Code 44.004(c)(5)(A)(ii)(b) ("Rate to Maintain Same Level of Maintenance & Operations Revenue & Pay Debt Service"); and
2. The rate that, if applied to the total taxable value, will impose the amount of taxes needed to fund maintenance and operation expenditures of the district for the next year.

Tax Code 26.05(a)

Exceeding the Rate to Maintain Same Level of Maintenance & Operations Revenue & Pay Debt Service

A board may approve an interest and sinking fund rate that exceeds the Rate to Maintain Same Level of Maintenance & Operations Revenue & Pay Debt Service for the district only if:

1. The rate is proposed to be approved by a motion that:
   a. States the calculated rate;
   b. States the proposed rate;

© 2025 Texas Association of School Boards, Inc. All rights reserved. Permission granted to TASB Policy Service subscribers to reproduce for internal use only.

c. States the difference between the proposed rate and the calculated rate; and

d. Describes the purpose for which the excess revenue collected from the proposed rate will be used; and

2. The motion is approved by at least 60 percent of the members of the governing body.

If the board approves a rate in this manner for a tax year, the rate approved is considered to be the current debt rate of the district for that tax year. The officer or employee designated by the district to calculate the voter-approval tax rate of the district shall recalculate that rate to account for the new current debt rate, and that recalculated voter-approval tax rate is considered to be the voter-approval tax rate of the taxing unit for that tax year.

Tax Code 26.05(a-1), (a-2)

Tax Date for Certain Districts

A district that before January 1, 1989, has for at least 10 years followed a practice of adopting its tax rate at a different date than as provided by Tax Code Chapter 26 and of billing for and collecting its taxes at different dates than as provided by Chapters 31 and 33 may continue to follow that practice. This does not affect the dates provided by the Property Tax Code (Tax Code Title 1) for other purposes, including those relating to the appraisal and taxability of property, the attachment of tax liens and personal liability for taxes, and administrative and judicial review under Chapters 41 and 42. *Tax Code 26.135*

Vote

A board may not impose property taxes in any year until it has adopted a tax rate for that year, and the annual tax rate must be set by ordinance, resolution, or order. The vote on the ordinance, resolution, or order setting the tax rate must be separate from the vote adopting the budget. The vote on the ordinance, resolution, or order setting a tax rate that exceeds the sum of the district's no-new-revenue maintenance and operations tax rate and the district's current debt rate must be a record vote, and at least 60 percent of the members of the board must vote in favor of the ordinance, resolution, or order.

Motion

A motion to adopt an ordinance, resolution, or order setting a tax rate that exceeds the no-new-revenue tax rate must be made in the following form: "I move that the property tax rate be increased by the adoption of a tax rate of (specify tax rate), which is effectively a (insert percentage by which the proposed tax rate exceeds the no-new-revenue tax rate) percent increase in the tax rate."

© 2025 Texas Association of School Boards, Inc. All rights reserved. Permission granted to TASB Policy Service subscribers to reproduce for internal use only.

Language and Internet Posting

If the ordinance, resolution, or order sets a tax rate that, if applied to the total taxable value, will impose an amount of taxes to fund maintenance and operation expenditures of the district that exceeds the amount of taxes imposed for that purpose in the preceding year the district must:

1. Include in the ordinance, resolution, or order in type larger than the type used in any other portion of the document:

    a. The following statement: “THIS TAX RATE WILL RAISE MORE TAXES FOR MAINTENANCE AND OPERATIONS THAN LAST YEAR’S TAX RATE”; and

    b. If the tax rate exceeds the no-new-revenue maintenance and operations rate, the following statement: “THE TAX RATE WILL EFFECTIVELY BE RAISED BY (INSERT PERCENTAGE BY WHICH THE TAX RATE EXCEEDS THE NO-NEW-REVENUE MAINTENANCE AND OPERATIONS RATE) PERCENT AND WILL RAISE TAXES FOR MAINTENANCE AND OPERATIONS ON A $100,000 HOME BY APPROXIMATELY $(Insert amount).”; and

2. Include on the home page of any internet website operated by the district:

    a. The following statement: “(Insert name of unit) ADOPTED A TAX RATE THAT WILL RAISE MORE TAXES FOR MAINTENANCE AND OPERATIONS THAN LAST YEAR’S TAX RATE”; and

    b. If the tax rate exceeds the no-new-revenue maintenance and operations rate, the following statement: “THE TAX RATE WILL EFFECTIVELY BE RAISED BY (INSERT PERCENTAGE BY WHICH THE TAX RATE EXCEEDS THE NO-NEW-REVENUE MAINTENANCE AND OPERATIONS RATE) PERCENT AND WILL RAISE TAXES FOR MAINTENANCE AND OPERATIONS ON A $100,000 HOME BY APPROXIMATELY $(Insert amount).”

Tax Code 26.05(b)

Adoption of Tax Roll

On receipt of notice of the tax rate for the current tax year, the assessor for a district shall calculate the tax imposed on each property included on the appraisal roll for the district. The assessor shall enter the amount of tax in the appraisal roll and submit it to the board for approval. The appraisal roll with amounts of tax entered as approved by the board constitutes the district’s tax roll. *Tax Code 26.09(a), (e)*

Failure to Adopt Tax Rate

If the board does not adopt a tax rate before the date required at Deadline above, the tax rate for the district for that tax year is the lower of the no-new-revenue tax rate calculated for that tax year or the tax rate adopted by the district for the preceding tax year. A tax rate established by this provision is treated as an adopted tax rate. Before the fifth day after the establishment of a tax rate by this provision, the board must ratify the applicable tax rate in the manner set out at Tax Rate Adoption Requirements above. *Tax Code 26.05(c)*

Taxpayer Injunction

A person who owns taxable property in a district is entitled to an injunction restraining the collection of taxes by the district if the district has not complied with the requirements of Education Code 44.004(b), (c), (c-1), (c-2), and (d), and, if applicable, (i) [see above at Published Notice, including Form and Contents, and Districts with July 1 Fiscal Year, if applicable] and the failure to comply was not in good faith. An action to enjoin the collection of taxes must be filed before the date a district delivers substantially all of its tax bills. *Education Code 44.004(e)*

A person who owns taxable property is entitled to an injunction prohibiting the district in which the property is taxable from adopting a tax rate if the assessor or designated officer or employee of the district, the chief appraiser of the applicable appraisal district, or the district, as applicable, has not complied with the computation, publication, or posting requirements of Tax Code 26.04 or 26.16, 26.17, or 26.18 [see below at Tax Information to County, Appraisal District Property Tax Database, and Internet Posting of Tax Rate and Budget Information]. It is a defense in an action for an injunction under this provision that the failure to comply was in good faith. *Tax Code 26.04(g)*

A person who owns taxable property is entitled to an injunction restraining the collection of taxes by a district in which the property is taxable if the district has not complied with the requirements of Tax Code 26.04 and 26.05 [see above at Designated Employee/Officer to Calculate Rates and Tax Rate Adoption Requirements]. It is a defense in an action for an injunction under this provision that the failure to comply was in good faith. An action to enjoin the collection of taxes must be filed not later than the 15th day after the date the district adopts a tax rate. A property owner is not required to pay the taxes imposed by a district on the owner's property while an action filed by the property owner to enjoin the collection of taxes imposed by the district on the owner's property is pending. If the property owner pays the taxes and subsequently prevails in the action, the property owner is entitled to a refund of the taxes paid, together with reasonable attorney's fees and court costs. The prop-

erty owner is not required to apply to the collector for the district to receive the refund. *Tax Code 26.05(e)*

A person who owns taxable property in a district is entitled to an injunction restraining the collection of taxes by the district if the district adopts a maintenance tax in violation of Education Code 45.0021(a) [see above at Restriction on Maintenance Tax Levy]. An action to enjoin the collection of taxes must be filed before the date a district delivers substantially all of its tax bills. *Education Code 45.0021(b)*

Tax Information to County

A district shall provide to the county assessor-collector for each county in which all or part of district territory is located the district's adopted tax rate, maintenance and operations rate, debt rate, no-new-revenue tax rate, no-new-revenue maintenance and operations rate, and voter-approval tax rate for posting on the county's internet website. The district shall provide the information annually following the adoption of a tax rate by the district for the current tax year. *Tax Code 26.16(a)-(b)*

The officer or employee designated by the board to calculate the no-new-revenue tax rate and the voter-approval tax rate for the district must electronically incorporate into the database created and maintained by the chief appraiser under Tax Code 26.17 the information required by Tax Code 26.17(e). *Tax Code 26.17(e)*

The assessor for the district shall post prominently on the district's internet website a notice informing each owner of property located in the appraisal district that the estimated amount of taxes to be imposed on the owner's property by each taxing unit in which the property is located may be found in the property tax database maintained by the appraisal district under Tax Code 26.17. The notice must include the elements required by Tax Code 26.04(e-2). *Tax Code 26.04(e-2)*

Internet Posting of Tax Rate and Budget Information

Each district shall maintain an internet website or have access to a generally accessible internet website that may be used for the purposes of this provision. Each district shall post or cause to be posted on the internet website the information required by Tax Code 26.18 in a format prescribed by the comptroller. *Tax Code 26.18* [See CE for required information]

Election to Approve Tax Rate

Voter-Approval Tax Rate

For purposes of Tax Code 26.08, the voter-approval tax rate of a district is the sum of the following:

1. The rate per $100 of taxable value that is equal to the district's maximum compressed tax rate for the current year;
2. The greater of:
    a. The district's enrichment tax rate for the preceding tax year; or

Tax Code 26.08(n)

Efficiency Audit

"Efficiency audit" means an investigation of the operations of a district to examine fiscal management, efficiency, and utilization of resources.

The board shall conduct an efficiency audit before seeking voter approval to adopt a tax rate for the maintenance and operations of the district at an election held for that purpose and may not hold an election without complying with this requirement.

The board may select the auditor that conducts the district's annual audit under Education Code 44.008 and may include the efficiency audit as part of the district's annual audit. [See CFC] A district must pay for the costs associated with an efficiency audit required under this provision. A district shall provide all documents, records, and personnel requested by the auditor as needed to conduct the audit in an efficient manner.

The board must select an auditor to conduct an efficiency audit not later than four months before the date on which the district proposes to hold an election to adopt a maintenance and operations tax rate. An auditor selected by the board must maintain independence from the district and complete the efficiency audit not later than three months after the date the auditor was selected.

Before an election at which a district seeks voter approval to adopt a tax rate, the board must hold an open meeting to discuss the results of the efficiency audit. Not later than 30 days before the date of the election, the results of an efficiency audit must be posted on the district's internet website.

Legislative Budget Board Guidelines

The Legislative Budget Board (LBB) shall establish guidelines identifying the scope and areas of investigation of an efficiency audit, including identification of resources being used effectively and efficiently and identification of cost savings or reallocations. The auditor selected by the board of a district must follow the guidelines established by the LBB under this provision. *Education Code 11.184(f)*

The LBB Efficiency Audit Guidelines[2] are found on the LBB website.

Disaster Exception

To Efficiency Audit Requirement

The board of a district all or part of which is located in an area declared a disaster area by the governor may hold an election to seek voter approval to adopt a maintenance and operations tax rate during the two-year period following the date of the declaration without conducting an efficiency audit otherwise required above. *Education Code 11.184(b-1)*

To Election Requirement

When increased expenditure of money by a district is necessary to respond to a disaster, including a tornado, hurricane, flood, wildfire, or other calamity, but not including a drought, epidemic, or pandemic, that has impacted a district and the governor has requested federal disaster assistance for the area in which the district is located, an election is not required under Tax Code 26.08 to approve the tax rate adopted by the board for the year following the year in which the disaster occurs. A tax rate adopted under this provision applies only in the year for which the rate is adopted. *Tax Code 26.042(e)*

A board may not adopt a tax rate under Tax Code 26.042(e) above, for a tax year in which:

1. The board previously adopted a tax rate that exceeded the district's voter-approval tax rate;
2. An election was held under Education Code 26.08 for the purpose of determining whether to approve the district's adopted tax rate [see Election to Approve Tax Rate, above]; and
3. The proposition to approve the district's adopted tax rate was not approved by the voters of the district at the election.

Tax Code 26.042(e-1)

If a district adopts a tax rate under Tax Code 26.042(e) above, the amount by which that rate exceeds the district's voter-approval tax rate for that tax year may not be considered when calculating the district's voter-approval tax rate for the tax year following the year in which the district adopts the rate.

A district that in a tax year elects to adopt a tax rate that exceeds the district's voter-approval tax rate for that tax year without holding an election under Tax Code 26.042(e) above must specify the disaster declaration that provides the basis for authorizing the district to calculate or adopt a tax rate under that provision. A district that in a tax year specifies a disaster declaration as providing the basis for authorizing the district to adopt a tax rate under Tax Code 26.042(e) above may not in a subsequent tax year specify the same disaster declaration as providing the basis for authorizing the district to adopt a tax rate under that provision if in an intervening tax year the taxing unit specifies a different disaster declaration as the basis for authorizing the taxing unit to adopt a tax rate under that provision.

Tax Code 26.042(f)-(g)

Time for Election

The board shall order that the election be held in the district on the next uniform election date prescribed by Election Code 41.001 that occurs after the date of the election order and that allows sufficient time to comply with the requirements of other law. *Tax Code 26.08(b)*

Uniform Election Date

For an election to be held on a uniform election date, the election shall be ordered not later than the 78th day before election day. *Election Code 3.005(c)* [See BBBA for other election procedures and requirements.]

Proposition

At the election, the ballots shall be prepared to permit voting for or against the proposition: "Ratifying the ad valorem tax rate of _____ (insert adopted tax rate) in (name of school district) for the current year, a rate that will result in an increase of _____ (insert percentage increase in maintenance and operations tax revenue under the adopted tax rate as compared to maintenance and operations tax revenue in the preceding tax year) percent in maintenance and operations tax revenue for the district for the current year as compared to the preceding year, which is an additional $_____ (insert dollar amount of increase in maintenance and operations tax revenue under the adopted tax rate as compared to maintenance and operations tax revenue in the preceding tax year).". *Tax Code 26.08(b)*

In addition to any other requirement imposed by law for a proposition, including a provision prescribing the proposition language, a proposition submitted to the voters for approval of the imposition or increase of a tax shall be printed in mixed-case typewritten letters and:

1. State the amount of or maximum tax rate of the tax or tax increase for which approval is sought; and

© 2025 Texas Association of School Boards, Inc. All rights reserved. Permission granted to TASB Policy Service subscribers to reproduce for internal use only.

2. Include at the top of the proposition in capital typewritten letters of the same font size as the rest of the proposition, the statement “THIS IS A TAX INCREASE”.

Election Code 52.072(e)(1)

Each proposition on the ballot must identify the name of the authority ordering the election on the measure. *Election Code 52.095(c)*

Election Outcome

If a majority of the votes cast in an election favor the proposition, the tax rate for the current year is the rate that was adopted by the board. If the proposition is not approved, a board may not adopt a tax rate for the current year that exceeds the district’s voter-approval tax rate. *Tax Code 26.08(c)-(d)*

Exemptions

Homestead

Mandatory

An adult is entitled to exemption from taxation by a district of $140,000 of the appraised value of the adult's residence homestead, as defined by Tax Code 11.13(j), except that only $5,000 of the exemption applies to an entity operating under former Education Code Chapters 17, 18, 25, 26, 27, or 28, as those chapters existed on May 1, 1995, as permitted by Education Code 11.301. *Tax Code 11.13(b)*

Persons 65 or Older or Disabled

In addition to the mandatory exemption above, an adult who is disabled, as defined by Tax Code 11.13(m)(1), or 65 or older is entitled to an exemption of $60,000 of the appraised value of the person's residence homestead. *Tax Code 11.13(c)*

Tax Limitation

A district may not increase the total annual amount of ad valorem tax it imposes on the residence homestead of an individual 65 years of age or older, or on the residence homestead of an individual who is disabled, above the amount of the tax it imposed in the first tax year in which the individual qualified that residence homestead for an applicable exemption. *Tax Code 11.26(a)*

Improvements

If an individual subject to a tax limitation makes improvements to the individual's residence homestead, other than improvements required to comply with governmental requirements or repairs, the district may increase the tax on the homestead in the first year the value of the homestead is increased on the appraisal roll because of the enhancement of value by the improvements. A limitation then applies to the increased amount of tax until more improvements, if any, are made. *Tax Code 11.26(b)*

Exception

An improvement to property that would otherwise constitute an improvement discussed above is not treated as an improvement if it is a replacement structure for a structure that was rendered uninhabitable or unusable by a casualty or by wind or water damage. For purposes of appraising the property in the tax year in which the structure would have constituted an improvement, the replacement structure is considered to be an improvement only if the square footage of the replacement structure exceeds that of the replaced structure as that structure existed before the casualty or damage occurred or the exterior of the replacement structure is of higher quality construction and composition than that of the replaced structure. *Tax Code 11.26(o)*

Portability of Tax Limitation

If an individual who receives a tax limitation, including a surviving spouse, discussed below, subsequently qualifies a different residence homestead for the same exemption, a district may not impose ad valorem taxes on the subsequently qualified homestead in a year in an amount that exceeds the amount of taxes calculated in accordance with Tax Code 11.26(g). *Tax Code 11.26(g)*

Surviving Spouse

If an individual who qualifies for the exemption at Persons 65 or Older or Disabled, above, dies, the surviving spouse of the individual is entitled to the limitation applicable to the residence homestead of the individual if the surviving spouse is 55 years of age or older when the individual dies, and the residence homestead of the individual is the residence homestead of the surviving spouse on the date that the individual dies and remains the residence homestead of the surviving spouse. *Tax Code 11.26(i)*

Local Options

All Taxpayers

In addition to other exemptions in Tax Code 11.13, an individual is entitled to an exemption from taxation by a district of a percentage of the appraised value of the individual's residence homestead if the exemption is adopted by the board before July 1 in the manner provided by law for official action by the board. If the percentage set by the district produces an exemption in a tax year of less than $5,000 when applied to a particular residence homestead, the individual is entitled to an exemption of $5,000 of the appraised value. The percentage adopted by the district may not exceed 20 percent. *Tax Code 11.13(n)*

A board that adopted an exemption for the 2022 tax year may not reduce the amount of or repeal the exemption. The requirements in this paragraph expire December 31, 2027. *Tax Code 11.13(n-1)*

Disabled or 65 or Older

An individual who is disabled or 65 or older is entitled to an exemption from taxation by a district of a portion of the appraised value of the individual's residence homestead if the exemption is adopted either by the board or by a favorable vote of a majority of the qualified voters of the district at an election called by the board, and the board shall call the election on the petition of at least 20 percent of the number of qualified voters who voted in the preceding election of the district.

Amount

The amount of an exemption adopted as provided at Disabled or 65 or Older is $3,000 of the appraised value of the residence homestead unless a larger amount is specified by the board if the board authorizes the exemption or the petition for the election if the exemption is authorized through an election. Once authorized, an exemption adopted may be repealed or decreased or increased in amount by the board or by the petition and election procedure. In

the case of a decrease, the amount of the exemption may not be reduced to less than $3,000 of the market value.

Tax Code 11.13(d)-(f)

Continuation of Exemption during Construction

If a qualified residential structure for which the owner receives a homestead exemption under Tax Code 11.13 is rendered uninhabitable or unusable by a casualty or by wind or water damage, the owner may continue to receive the exemption for the structure and the land and improvements used in the residential occupancy of the structure while the owner constructs a replacement qualified residential structure on the land in accordance with Tax Code 11.135. *Tax Code 11.135(a), .26(n); 34 TAC 9.416*

Surviving Spouse of First Responder

The surviving spouse of a first responder who is killed or fatally injured in the line of duty is entitled to an exemption from taxation of the total appraised value of the surviving spouse's residence homestead if the surviving spouse is an eligible survivor for purposes of Government Code Chapter 615 as determined by the Employees Retirement System of Texas and has not remarried since the first responder's death. *Tax Code 11.134*

A disabled veteran who has been awarded by the U.S. Department of Veterans Affairs or its successor 100 percent disability compensation due to a service-connected disability and a rating of 100 percent disabled or of individual unemployability is entitled to an exemption from taxation of the total appraised value of the veteran's residence homestead. *Tax Code 11.131(b)*

Partially Disabled with Donated Residence

A disabled veteran who has a disability rating of less than 100 percent is entitled to an exemption from taxation of a percentage of the appraised value of the disabled veteran's residence homestead equal to the disabled veteran's disability rating if the residence homestead was donated to the disabled veteran by a charitable organization at no cost to the disabled veteran, or at some cost to the disabled veteran in the form of a cash payment, a mortgage, or both in an aggregate amount that is not more than 50 percent of the good faith estimate of the market value of the residence homestead made by the charitable organization as of the date of the donation. *Tax Code 11.132(b)*

Surviving Spouse of Veteran

The surviving spouse of a disabled veteran, as defined by Tax Code 11.22(h)(3), is entitled to the same exemption from taxation of the same property to which the disabled veteran's exemption applied or would have applied if it had been in effect on the date of death if:

1. The surviving spouse has not remarried since the death of the disabled veteran; and

2. The property was the residence homestead of the surviving spouse when the disabled veteran died and remains the residence homestead of the surviving spouse.

Tax Code 11.131(c), .132(c)

Surviving Spouse of Individual Killed in Action

The surviving spouse of a member of the armed services of the United States who is killed or fatally injured in the line of duty is entitled to an exemption from taxation of the total appraised value of the surviving spouse's residence homestead if the surviving spouse has not remarried since the death of the member of the armed services. *Tax Code 11.133(b)*

Exemption for Subsequent Residence

The surviving spouse of a first responder, disabled veteran, or armed services member killed in action who receives an exemption for a residence homestead is entitled to receive an exemption from taxation of a different property that the surviving spouse subsequently qualifies as the surviving spouse's residence homestead in an amount equal to the dollar amount of the exemption from taxation of the first property for which the surviving spouse received the exemption in the last year in which the surviving spouse received that exemption if the surviving spouse has not remarried. *Tax Code 11.131(d), .132(d), .133(c), .134(d)*

A person who qualifies for an exemption under this provision must apply for the exemption not later than the 105th day after the date the governor declares the area in which the person's qualified property is located to be a disaster area. *Tax Code 11.43(s)*

Among others, a board may grant additional tax exemptions in accordance with applicable law for:

1. Residential property owned by the United States or an agency of the United States and used to provide transitional housing for the indigent under a program operated or directed by the

Goods-in-Transit *Exemption*

A person is entitled to an exemption from taxation of the appraised value of that portion of the person's property that consists of goods-in-transit, as defined in Tax Code 11.253(a)(2). *Tax Code 11.253(b)*

[For information on the board's option in a district located in a disaster area to extend the date by which goods-in-transit must be transported, see Tax Code 11.253(l).]

Option to Tax

A board, by official action, may provide for the taxation of goods-in-transit exempt under Tax Code 11.253(b) and not exempt under other law. The official action to tax the goods-in-transit must be taken before January 1 of the first tax year in which the board proposes to tax goods-in-transit. Before acting to tax the exempt property, a board must conduct a public hearing as required by Texas Constitution Article VIII, Section 1-n(d). If the board provides for the taxation of the goods-in-transit as provided by this provision, the exemption stated above does not apply to that district. The goods-in-transit remain subject to taxation by the district until the board, by official action, rescinds or repeals its previous action to tax goods-in-transit, or otherwise determines that the exemption will apply to that district.

Notwithstanding official action that was taken before October 1, 2011, to tax goods-in-transit, a district may not tax such goods-in-transit in a tax year that begins on or after January 1, 2012, unless the board takes official action on or after October 1, 2011, to provide for the taxation of the goods-in-transit.

Exception

If a board, before October 1, 2011, took action to provide for the taxation of goods-in-transit and pledged the taxes imposed on the

Tax Code 11.253(j)-(j-2)

Payment Options

The board may adopt, by official action, one or both of the discount options below. *Tax Code 31.05(a)*

Discounts

Option 1

A district may adopt the following discounts to apply regardless of the date on which the district mails its tax bills:

1. Three percent if the tax is paid in October or earlier.
2. Two percent if the tax is paid in November.
3. One percent if the tax is paid in December.

Tax Code 31.05(b)

1. Three percent if the tax is paid before or during the next full calendar month following the date on which the tax bills were mailed.
2. Two percent if the tax is paid during the second full calendar month following the date on which the tax bills were mailed.
3. One percent if the tax is paid during the third full calendar month following the date on which the tax bills were mailed.

Tax Code 31.05(c)

Rescission

The board may rescind a discount lawfully adopted by the board. The rescission of a discount takes effect in the tax year following the year in which the discount is rescinded. *Tax Code 31.05(d)*

taxes without penalty or interest at any time before July 1 of the following year.

If a district that has adopted the split-payment mails its tax bills after November 30, the first one-half of the district's taxes must be paid before the first day of the next month following the first full calendar month following the date the tax bills are mailed.

If a board contracts with the appraisal district for collection of taxes, the split-payment option does not apply to taxes collected by the appraisal district unless approved by resolution adopted by a majority of the governing bodies of the taxing units whose taxes the appraisal district collects and filed with the secretary of the appraisal district board of directors. The split-payment option may be revoked in the same manner as provided for adoption.

Tax Code 31.03(a), (a-1), (c)

In Certain Counties

A district may waive its right to appoint a director. *Tax Code 311.009(a), (b)*

Board of Directors

Large Municipality

In a reinvestment zone designated by a municipality which is wholly or partially located in a county with a population of less than 2.1 million in which the principal municipality has a population of 1.1 million or more, each taxing unit that approves the payment of all or part of its tax increment into the tax increment fund is entitled to appoint a number of members to the board in proportion to the taxing unit's pro rata share of the total anticipated tax increment to be deposited into the tax increment fund during the term of the zone. *Tax Code 311.0091(a)-(c)*

Tax Increments

Amount

The amount of a district's tax increment for a year is the amount of property taxes levied and assessed by the district for that year on the captured appraised value of real property taxable by the district and located in a reinvestment zone or the amount of property taxes levied and collected by the district for that year on the captured appraised value of real property taxable by the district and located in a reinvestment zone. The board of the district shall determine which of the methods is used to calculate the amount of the district's tax increment.

"Captured Appraised Value"

The captured appraised value of real property taxable by a district for a year is the total taxable value of all real property taxable by the district and located in a reinvestment zone for that year less the tax increment base of the district.

"Tax Increment Base"

The tax increment base of a district is the total taxable value of all real property taxable by the district and located in a reinvestment zone for the year in which the zone was designated under Tax Code Chapter 311.

Tax Code 311.012

Collection and Deposit

Each district that taxes real property located in a reinvestment zone shall provide for the collection of its taxes in the zone as for any other property taxed by the district. Each district shall pay into the tax increment fund for the zone an amount equal to the tax increment produced by the district, less the sum of:

1. Property taxes produced from the tax increments that are, by contract executed before the designation of the area as a

reinvestment zone, required to be paid by the district to another political subdivision; and

2. A portion, not to exceed 15 percent, of the tax increment produced by the district as provided by the reinvestment zone financing plan or a larger portion as provided at Agreement Required below.

Tax Code 311.013(a)-(b)

Notwithstanding any termination of the reinvestment zone and unless otherwise specified by an agreement between the district and the municipality or county that created the zone, a district shall make the required payment not later than the 90th day after the later of the delinquency date for district property taxes or the date the municipality or county that created the zone submits to the district an invoice specifying the tax increment produced by the district and the amount the district is required to pay into the tax increment fund for the zone. A district is not required to pay into a tax increment fund the applicable portion of a tax increment attributable to delinquent taxes until those taxes are collected. *Tax Code 311.013(c), (i)*

A district whose taxable value is reduced under Government Code 403.302(d)(4) (determination of district property values by the comptroller) shall pay into the tax increment fund, in addition to the amount otherwise required to be paid, an amount equal to the amount by which the amount of taxes the district would have been required to pay into the fund in the current year if the district levied taxes at the rate the district levied in 2005 exceeds the amount the district is otherwise required to pay into the fund in the year of the reduction. This additional amount may not exceed the amount the district receives in state aid for the current tax year under Education Code 48.253 (additional state aid for tax increment financing payments). The district shall pay the additional amount after the district receives the state aid to which the district is entitled for the current tax year under Education Code 48.253. *Tax Code 311.013(n)*

Agreement Required

A district is not required to pay into the tax increment fund any of its tax increment produced from property located in a reinvestment zone designated under Tax Code 311.005(a) or in an area added to a reinvestment zone under Tax Code 311.007 unless the district enters into an agreement to do so with the governing body of the municipality or county that designated the zone. *Tax Code 311.013(f)*

A district that participates in a zone is not required to increase the percentage or amount of the tax increment to be contributed by the

district because of an amendment to the project plan or reinvestment zone financing plan for the zone unless the board by official action approves the amendment. *Tax Code 311.011(g)*

A district is not required to pay into the tax increment fund any of its tax increment produced from property located in an area added to the reinvestment zone under Tax Code 311.007(a) or (b) unless the board enters into an agreement to do so with the governing body of the municipality or county that created the zone. *Tax Code 311.013(k)*

If the governing body of the municipality or county that designated a reinvestment zone extends the term of all or a portion of the zone, a district is not required to participate in the zone or portion of the zone for the extended term unless the district enters into a written agreement to do so. *Tax Code 311.007(c)*

Notwithstanding the designation of a later termination date under Tax Code 311.017(a), a district that taxes real property located in the reinvestment zone is not required to pay any of its tax increment into the tax increment fund for the zone after the termination date designated in the ordinance or order creating the zone unless the board enters into an agreement to do so with the governing body of the municipality or county that created the zone. *Tax Code 311.017(a-1)*

Reinvestment Zone

Notwithstanding any other provision of Tax Code Chapter 312 to the contrary, the board, in the manner required for official action and for purposes of former Tax Code Chapter 313, Subchapter B or C [see Texas Economic Development Act below] or Government Code Chapter 403, Subchapter T [see Texas Jobs, Energy, Technology, and Innovation Act below], may designate an area entirely within the territory of the district as a reinvestment zone if the board finds that, as a result of the designation and the granting of a limitation on appraised value, for property located in the reinvestment zone, the designation is reasonably likely to:

1. Contribute to the expansion of primary employment in the reinvestment zone; or

2. Attract major investment in the reinvestment zone that would:

    a. Be a benefit to property in the reinvestment zone and to the district; and

    b. Contribute to the economic development of the region of this state in which the district is located.

The board may seek the recommendation of the commissioners court of each county and the governing body of each municipality

Interest

A payment begins to accrue interest on the date the payment becomes overdue. The rate in effect on September 1 is equal to the sum of one percent and the prime rate as published in the Wall Street Journal on the first day of July of the preceding fiscal year that does not fall on a Saturday or Sunday.

Interest on an overdue payment stops accruing on the date a district or vendor mails or electronically transmits the payment.

Vendor Remedy for Nonpayment

A vendor may suspend performance required under a contract with a district if the district does not pay the vendor an undisputed amount within the time limits provided above, and the vendor gives the district written notice informing the district that payment has not been received and stating the intent of the vendor to suspend performance for nonpayment.

The vendor may not suspend performance before the tenth day after the date the vendor gives this notice.

The board may also require a separate bond to cover the value of the guaranteed savings on the contract.

Financing

An energy savings performance contract may be financed:

2. With the proceeds of bonds.
3. Under a contract with the provider of the energy or water conservation measures that has a term not to exceed the lesser of 20 years from the final date of installation or the average useful life of the energy or water conservation or usage measures.

Notwithstanding other law, the board may use any available money to pay the provider of the energy or water conservation measures under these provisions, and the board is not required to pay for such costs solely out of the savings realized by the district under an energy savings performance contract. The board may contract with the provider to perform work that is related to, connected with, or otherwise ancillary to the measures identified in the scope of an energy savings performance contract.

An energy savings performance contract shall contain provisions requiring the provider of the energy or water conservation measures to guarantee the amount of the savings to be realized by the district under the contract. If the term of an energy savings performance contract exceeds one year, the district's contractual obligations in any one year during the term of the contract beginning after the final date of installation may not exceed the total energy, water, wastewater, and operating cost savings, including electrical, gas, water, wastewater, or other utility cost savings and operating cost savings resulting from the measures as determined by the district, divided by the number of years in the contract term.

Allotment Adjustment

Change in Enrollment

Not later than May 31 of each school year, a district may request that the commissioner adjust the number of students for which the district is entitled to receive an allotment on the grounds that the number of students attending school in the district will increase or decrease during the school year for which the allotment is provided. The commissioner may also adjust the number of students

The commissioner's determination is final. *Education Code 31.0211(e)*

High Enrollment Growth

Each year the commissioner shall adjust the instructional materials and technology allotment of districts experiencing high enrollment growth. *Education Code 31.0214(a)*

OER Instructional Material Support Program

TEA shall develop and maintain a program to assist school districts in adopting and using OER instructional material, including by assisting districts to:

1. Maintain the instructional flexibility of classroom teachers to address the needs of each student; and

2. Schedule instructional periods in a manner that allows classroom teachers sufficient time to effectively prepare and present instructional material within the teacher's normal work day.

TEA shall engage in efforts to meet the demand from districts that request assistance for the 2024-25 or 2025-26 school year. Until September 1, 2027, a school district may apply assistance received to offset the payment of costs related to implementing OER instructional material, regardless of whether the district incurred the cost before receiving the assistance.

Education Code 31.0752

Requisition

A district that selects OER instructional material shall requisition a sufficient number of printed copies for use by students unable to access the instructional material electronically unless the district provides to each student:

Parent Portal

An entity that hosts an instructional materials parent portal must comply with requests regarding parental access to the portal made by a district in compliance with Education Code 31.154 or Education Code 26.006 [see EFA]. *Education Code 31.154(e)*

Certification of Instructional Materials

Prior to the beginning of each school year, a district shall submit to the SBOE and commissioner certification that the district:

1. For each subject in the required curriculum under Education Code 28.002, other than physical education, and each grade level:

    a. Provides each student with instructional materials that cover all elements of the essential knowledge and skills adopted by the SBOE for that subject and grade level; and

    b. In the provision of instructional materials, the district protects students from obscene or harmful content as necessary for compliance with the Children's Internet Protection Act (Pub. L. No. 106-554) [see CQ], Education Code 28.0022 [see EMB], Penal Code 43.22, and any other law or regulation that protects students from obscene or harmful content [see EFA]; and

2. The district used money allocated to the district or school under the instructional materials and technology allotment only for purposes allowed under Education Code 31.0211.

To determine whether each student has instructional materials that cover all elements of the essential knowledge and skills, a district may consider:

Ownership

Except as otherwise provided, a student must return all instructional materials to the teacher at the end of the school year or when the student withdraws from school. At the end of the school year for which OER instructional material that a district does not intend to use for another student is distributed, the printed copy of the OER instructional material becomes the property of the student to whom it is distributed.

This provision does not apply to an electronic copy of OER instructional material.

Education Code 31.104(c), (g)-(h)

Responsibility for Instructional Materials and Equipment

Each student or the student's parent or guardian is responsible for all instructional material and technological equipment not returned in an acceptable condition by the student. A student who fails to return in an acceptable condition all instructional materials and technological equipment forfeits the right to free instructional materials and technological equipment until all instructional materials and technological equipment previously issued but not returned in an acceptable condition are paid for by the student, parent, or guardian.

As provided by board policy, a district may waive or reduce the payment required if the student is from a low-income family. [See FP] The district shall allow the student to use instructional materials and technological equipment at school during each school day.

If instructional materials or technological equipment is not returned in an acceptable condition or paid for, a district may withhold the student's records. A district may not prevent the student from graduating, participating in a graduation ceremony, or receiving a diploma. [See FL and GBA regarding student and parental right to access records; and FD, FFAB, and FL regarding a district's duties to provide records to another district]

The board may not require an employee of the district who acts in good faith to pay for instructional materials or technological equipment that is stolen, misplaced, or not returned by a student. [See DG]

These provisions do not apply to an electronic copy of OER instructional material.

Education Code 31.104(d), (e), (h) [See also EFA]

2. No component of the instructional materials is soiled, torn, or damaged (whether intentionally or by lack of appropriate care) to the extent that any portion of the content is too disfigured or obscured to be fully accessible to other students.

Electronic instructional materials are considered to be in acceptable condition if:

1. All components or applications that are a part of the electronic instructional materials are returned;
2. The electronic materials perform as they did when they were new;
3. The electronic instructional materials do not contain computer code (e.g., bug, virus, worm, or similar malicious software) that has been designed to self-replicate, damage, change, or otherwise hinder the performance of any computer's memory, file system, or software; and
4. The electronic instructional materials have not been installed with plug-ins, snap-ins, or add-ins without the prior approval of the district.

Technological equipment is considered to be in acceptable condition if:

1. The equipment is returned with the software and hardware in their original condition unless the district authorized changes; and

Transportation Allotment for Eligible Students

Each district operating a regular transportation system is entitled to an allotment based on a rate per mile per regular eligible student set by the legislature in the General Appropriations Act. *Education Code 48.151(c)*

"Regular eligible student" means a student who resides two or more miles from the student's campus of regular attendance, measured along the shortest route that may be traveled on public roads, and who is not classified as a student eligible for special education services; or is a homeless child or youth, as defined by 42 U.S.C. 11434a. *Education Code 48.151(b)(1)*

© 2025 Texas Association of School Boards, Inc. All rights reserved. Permission granted to TASB Policy Service subscribers to reproduce for internal use only.

The commissioner of education may not reduce the allotment because a district provides transportation for an eligible student to and from a child-care facility or a grandparent's residence instead of the student's residence, as authorized by Education Code 34.007 [see Designation of Child-Care Facility or Grandparent's Residence, below]. *Education Code 48.151(k)*

    b. Provide financial reports to the district each semester.

19 TAC 61.1016(c)

Districts requesting funds for an area presenting a high risk of violence must provide to TEA, contemporaneously with the explanation required at Eligibility above, consolidated law enforcement records that document violent crimes identified by reporting agencies within the relevant jurisdiction. *19 TAC 61.1016(d)*

Career and Technology Program

The cost of transporting career and technology education students from one campus to another inside a district, from a sending district to another secondary public school for a career and technology program or an area career and technology school or to an approved postsecondary institution under a contract for instruction approved by TEA, or from a district campus to a location at which students are provided work-based learning under the district's career and technology program shall be reimbursed based on the number of actual miles traveled times the district's official extracurricular travel per mile rate as set by the board and approved by TEA. *Education Code 48.151(f)*

At a minimum, these internal controls shall include an on-site review of the meal counting and claiming system employed by each school within the jurisdiction of the SFA; comparisons of daily free, reduced-price, and paid meal counts against data which will assist in the identification of meal counts in excess of the number of free, reduced-price, and paid meals served each day to children eligible for such meals; and a system for following up on those meal counts which suggest the likelihood of meal counting problems. *7 C.F.R. 210.8(a), 220.11(a)*

On-Site Reviews Every school year, each SFA with more than one school shall perform no less than one on-site review of the counting and claiming system and the readily observable general areas of review cited under 7 C.F.R. 210.18(h) [regarding general areas of review by the Texas Department of Agriculture (TDA)] for each school under its jurisdiction under the NSLP, and for a minimum of 50 percent of

schools under its jurisdiction with every school being reviewed at least once every two years under the SBP.

The on-site review shall take place prior to February 1 of each school year. Further, if the review discloses problems with a school's meal counting or claiming procedures or general review areas, the SFA shall ensure that the school implements corrective action and, within 45 days of the review, conduct a follow-up on-site review to determine that the corrective action resolved the problems. Each on-site review shall ensure that the school's claim is based on the counting system and that the counting system, as implemented, yields the actual number of reimbursable free, reduced price, and paid meals, respectively, served for each day of operation.

Section 1751 et seq. shall provide or arrange for the provision of a summer nutrition program for at least 30 days during the period in which district schools are recessed for the summer. *Agriculture Code 12.0029(b)*

Community Eligibility Provision

The community eligibility provision (CEP) is an alternative reimbursement option for eligible high-poverty districts. Each CEP cycle lasts up to four years before the LEA or school is required to recalculate their reimbursement rate. LEAs and schools have the option to recalculate sooner, if desired. An LEA may elect this provision for all of its schools, a group of schools, or an individual school.

Participating LEAs must offer free breakfasts and lunches for the length of their CEP cycle, not to exceed four successive years, to all children attending participating schools and receive meal reimbursement based on claiming percentages, as described in 7 C.F.R. 245.9(f)(4)(v). *7 C.F.R. 245.9(f); 42 U.S.C. 1759a(a)(1)(F)*

To be eligible to participate in the CEP, an LEA, group of schools, or school must:

1. Have an identified student percentage of at least 25 percent, as of April 1 of the school year prior to participating in the CEP, unless otherwise specified by the USDA Food and Nutrition Service (FNS). Individual schools participating in a group may have less than 25 percent identified students, provided that the average identified student percentage for the group is at least 25 percent.

2. Participate in the NSLP and SBP for the duration of the four-year cycle. Schools that operate on a limited schedule, where it is not operationally feasible to offer both lunch and breakfast, may elect CEP with FNS approval.

3. Comply with the procedures and requirements specified in 7 C.F.R. 245.9(f)(4) to participate in the CEP.

"Biometric data" means data generated by automatic measurements of an individual's biological characteristics. The term includes a fingerprint, voiceprint, eye retina or iris, or other unique biological pattern or characteristic that is used to identify a specific individual. Small Employer Market Election

A district may elect to participate as a small employer without regard to the number of employees in the district. A district that makes this election is treated as a small employer under Insurance Code Chapter 1501 for all purposes.

A district that is participating in the uniform group coverage program established under Insurance Code Chapter 1579 may not participate in the small employer market under this provision and may not renew a health insurance contract obtained in accordance with this provision after the date on which the program of coverages provided under Chapter 1579 is implemented. The plan shall attempt to protect the district against unanticipated catastrophic individual loss, or unexpectedly large aggregate loss, by securing individual stop-loss coverage, or aggregate stop-loss coverage, or both, from a commercial insurer.

The board may amend or cancel the district's health-care plan at any regular or special board meeting. If the plan is canceled, any valid claim against the fund for payment of health-care costs resulting from illness or injury occurring during the time the plan was in effect shall be paid out of the fund. If the fund is insufficient to pay the claim, the costs shall be paid out of other available district funds.

makes it available to the prime design professional for a capital improvement project. The long-range facility plan expires after five years from the date of the final plan presented to the board and must be updated prior to commencement of a subsequent capital improvement project. Educational Specifications

A district shall ensure that a project for new construction and major renovation subject to section 61.1040 complies with the requirements and standards as follows.

Elements

Educational specifications are a written document prepared by the district and approved by the board and shall include all of the following:

1. The district mission, vision, goals, and pedagogy;
2. Preliminary details related to facility type, grades served, and maximum student enrollment;
3. Pertinent provisions of the multi-hazard emergency operations plan that may inform the functionality of the built environment, including how the district complies with Education Code 37.108 [see CKC];
4. A written statement that includes:
    a. Inclusive design goals and considerations supported by the district; and
    b. How inclusive design should be addressed in new and renovated facility designs;
5. Minimum total square footage required to comply with the quantitative method of compliance; and
6. Innovative teaching or operational practices intended for implementation at the instructional facility that may lead to the use of the qualitative method of compliance.

Schedule

An educational specification shall be created for each campus type. If the design and construction of a new campus or major renovation of an existing campus differs substantially from an educational specification that exists for the same campus type, a separate educational specification must be developed. Educational specifications shall be initiated upon the first proposed project of its type and must be completed prior to initiating the planning or pro-

gramming phase of a project. Each educational specification must be updated after five years from the date of approval.

Compliance

The requirement for educational specifications is met when a district delivers the approved document to the architect.

19 TAC 61.1040(d)(2)

Exceptions

A district is exempt from the requirements of section 61.1040(d) (Educational Adequacy):

1. If a school facility experiences catastrophic damage and the board approves a capital improvement project in accordance with Education Code 44.0312(c) (delegation of contracting authority); or
2. In a situation deemed urgent by action of the board that warrants immediate action because, if left unresolved, it would impair the conduct of classes.

19 TAC 61.1040(d)(3)

Administration

Section 61.1040(e) establishes standards for the administration and procurements of design professional services and other professional services and for the administration of competitive bids and contracting requirements for construction services. A district shall comply with requirements in section 61.1040(e) and with all applicable requirements, restrictions, and responsibilities established in state law, administrative code, or by a local authority having jurisdiction.

A district shall comply with the administrative and procedural requirements established in section 61.1040(e) and with the standards established in section 61.1040(j) to promote construction quality and best value for a capital improvement project subject to section 61.1040.

A standard in section 61.1040 that incorporates by reference a key statutory provision or administrative rule is established as a compliance requirement for a district seeking to procure, obtain a competitive bid, or administer a contract for construction services, construction-related services, design professional services, or any other professional service required for a capital improvement project. The requirements establish a method by which a district shall demonstrate compliance with the requirements in section 61.1040(e) and with the construction quality standards and construction code requirements in section 61.1040(j). Any express reference to, or omission of, an applicable statutory provision in section 61.1040(e) may not be construed to diminish, alter, or abate a

2. The five-year long-range facility plan clearly states that, prior to the end date of the plan, the facility will be compliant with at least two additional safety and security standards if ceasing operation does not occur or operation resumes. The long-range facility plan must specify which two additional safety and security standards will be implemented.

19 TAC 61.1040(k)(4)

Review of Plans

All plans and specifications for construction or for the substantial renovation or modification of a building or facility must be submitted to the Department of Licensing and Regulation for review and approval if the estimated construction cost is at least $50,000. The architect, interior designer, landscape architect, or engineer who has overall responsibility for the design of a constructed or reconstructed building or facility shall submit the plans and specifications required. A district as owner of the building or facility may not allow an application to be filed with a local governmental entity for a building construction permit related to the plans and specifications or allow construction, renovation, or modification of the building or facility to begin before the date the plans and specifications are submitted to the Department. On application to a local governmental entity for a building construction permit, the district as owner shall submit to the entity proof that the plans and specifications have been submitted to the Department under Government Code Chapter 469 (Elimination of Architectural Barriers).

A district, as owner of a building or facility described above is responsible for having the building or facility inspected for compliance with the standards and specifications adopted by the Commission of Licensing and Regulation under Government Code Chapter 469 not later than the first anniversary of the date that the construction or substantial renovation or modification of the building or facility is completed. Relocatable Educational Facility

In this section, "relocatable educational facility" means a portable, modular building capable of being relocated, regardless of whether the facility is built at the installation site, that is used primarily as an educational facility for teaching the curriculum required under Education Code 28.002.

A relocatable educational facility that is purchased or leased on or after January 1, 2010, must comply with all provisions applicable to industrialized buildings under Occupations Code Chapter 1202.

Occupations Code 1202.004

Outdoor Lighting

An outdoor lighting fixture may be installed, replaced, maintained, or operated using state funds only if it meets standards for state-funded outdoor lighting fixtures in Health and Safety Code Chapter 425.

Exceptions

The standards for state-funded outdoor lighting fixtures do not apply if:

1. A federal law, rule, or regulation preempts state law;
2. The fixture is used on a temporary basis:
3. Because emergency personnel temporarily require additional illumination for emergency procedures;
4. For nighttime work;
5. Special events or circumstances require additional illumination;
6. The fixture is used solely to enhance the aesthetic beauty of an object; or
7. A compelling safety interest cannot be addressed by another method.

Special events or situations that may require additional illumination include sporting events and illumination of monuments, historic structures, or flags. Illumination for special events or situations must be installed to shield the outdoor lighting fixtures from direct view and to minimize upward lighting and light pollution.

Safety and Security Requirements for Facilities

A district must ensure that each district facility complies with each school facilities standard, including performance standards and operational requirements, related to safety and security adopted under Education Code 7.061 (Facilities Standards) or provided by other law or agency rule.

Facilities Standards Compliance

A district must develop and maintain documentation of the district's implementation of and compliance with school safety and security facilities standards for each district facility, including a good cause exception claimed under Education Code 37.353 [see Good Cause Exception, below], and shall, if requested by the Texas Education Agency (TEA), provide that documentation in the manner prescribed by TEA.

Education Code 37.351

Good Cause Exception

If a district is unable to bring a district facility into compliance with a school facilities standard related to safety and security, the district may claim a good cause exception from the requirement to comply with that standard, including for a reason related to:

1. The age, physical design, or location of the noncompliant facility;
2. The projected remaining use or functional life of the noncompliant facility;
3. Availability of funding; or
4. Supply chain obstacles.

A district that claims a good cause exception must develop an alternative performance standard with which the district is able to comply.

A good cause exception claimed by a district expires on the fifth anniversary of the date on which the exception is claimed. On the expiration of the exception, the district must reevaluate whether the district is able to comply with each school facility standard related to safety and security, and if not, renew the claim for an exception and the alternative performance standard.

[See CKE for good cause exception from compliance with armed security officer requirement.]

Education Code 37.353

Security Review

If a district constructs, acquires, renovates, or improves a district facility, the district shall, as soon as practicable, conduct a security review of the facility to:

1. Determine whether the facility meets school safety and security requirements as described by commissioner rule; and

2. Identify security vulnerabilities at the facility in the event of an active shooter incident and describe strategies to mitigate each vulnerability identified.

Education Code 37.1087

Confidentiality

Any document or information collected, identified, developed, or produced relating to a safety or security requirement is confidential under Government Code 418.177 and 418.181 (Texas Disaster Act) and not subject to disclosure under Government Code Chapter 552 (Public Information Act). *Education Code 37.355.*

"Actively monitored" means supervised by an adult who can visibly review visitors prior to entrance, who can take immediate action to close and/or lock the door, and whose duties allow for sufficient attention to monitoring.

"Exterior secured area" means an area fully enclosed by a fence and/or wall that:

1. If enclosed by a fence or wall, utilizes a fence or wall at least 6 feet high with design features that prevent it from being easily scalable, such as stone, wrought iron, chain link with slats or wind screen, or chain link topped with an anti-scaling device, or utilizes a fence or wall at least 8 feet high;

2. Is well maintained; and

3. If gated, features locked gates with emergency egress hardware and has features to prevent opening from the exterior without a key or combination mechanism.

"Instructional facility" has the meaning assigned in Education Code 46.001, and includes any real property, an improvement to real property, or a necessary fixture of an improvement to real property that is used predominantly for teaching curriculum under Education Code 28.002. An instructional facility does not include real property, improvements to real property, or necessary fixtures of an improvement to real property that are part of a federal, state, or private correctional facility or facility of an institution of higher education, medical provider, or other provider of professional or social services over which a school system has no control.

"Modular, portable building" means:

3. Only open once the visitor has been visually verified.

19 TAC 61.1031(a)

Safety and Security Standards

The provisions of 19 Administrative Code 61.1031 apply to all school instructional facilities owned, operated, or leased by a school system, regardless of the date of construction or date of lease. The provisions ensure that all school system instructional facilities have access points that are secured by design, maintained to operate as intended, and appropriately monitored. *19 TAC 61.1031(b)*

A school system shall implement the following safety and security standards compliance requirements to all school instructional facilities owned, operated, or leased by the school system.

Doors, Entrances, and Windows

All instructional facilities campus-wide, including modular, portable buildings, must include the addition of graphically represented alpha-numerical characters on both the interior and exterior of each exterior door location. The characters may be installed on the door, or on at least one door at locations where more than one door

leads from the exterior to the same room inside the facility, or on the wall immediately adjacent to or above the door location. Characters shall comply with the International Fire Code Section 505. The primary entrance of an instructional facility shall always be the first in the entire sequence and is the only door location that does not require numbering. The numbering sequence shall be clockwise and may be sequenced for the entire campus or for each facility individually. The door-numbering process must comply with any and all accessibility requirements related to signage.

Unless a secure vestibule is present, a primary entrance shall:

1. Meet all standards for exterior doors;
2. Include a means to allow an individual located within the building to visually identify an individual seeking to enter the primary entrance when the entrance is closed and locked, including, but not limited to, windows, camera systems, and/or intercoms;
3. Feature a physical barrier that prevents unassisted access to the facility by a visitor; and
4. Feature a location for a visitor check-in and check-out process.

All exterior doors shall:

1. Be, by default, set to a closed, latched, and locked status, except that:
    a. A door may be unlocked if it is actively monitored or within an exterior secured area; and
    b. For the purposes of ventilation, a school system may designate in writing as part of its multihazard emergency operations plan specific exterior doors that are allowed to remain open for specified periods of time if explicitly authorized by the school safety and security committee when a quorum of members are present, and only if it is actively monitored or within an exterior secured area;
2. Be constructed, both for the door and door frame and their components, of materials and in a manner that make them resistant to entry by intruders. Unless inside an exterior secured area, doors constructed of glass or containing glass shall be constructed or modified such that the glass cannot be easily broken and allow an intruder to open or otherwise enter through the door (for example, using forced entry-resistant film);

3. Include:

    a. A mechanism that fully closes and engages locking hardware automatically after entry or egress without manual intervention, regardless of air pressure within or outside of the facility; and

    b. A mechanism that allows the door to be opened from the inside when locked to allow for emergency egress while remaining locked; and

4. If keyed for re-entry, be capable of being unlocked with a single (or a small set of) master key(s), whether physical key, punch code, or key-fob or similar electronic key device.

Except when inside an exterior secured area, classrooms with exterior entry doors shall include a means to allow an individual located in the classroom to visually identify an individual seeking to enter the classroom when the door is closed and locked, including, but not limited to, windows, camera systems, and/or intercoms.

Except when inside an exterior secured area, all windows that are adjacent to an exterior door and that are of a size and position that, if broken, would easily permit an individual to reach in and open the door from the inside shall be constructed or modified such that the glass cannot be easily broken.

Except when inside an exterior secured area, all ground-level windows near exterior doors that are of a size and position that permits entry from the exterior if broken shall be constructed or modified such that the glass cannot be easily broken and allow an intruder to enter through the window frame (for example, using forced entry-resistant film).

If designed to be opened, all ground-level windows shall have functional locking mechanisms that allow for the windows to be locked from the inside and, if large enough for an individual to enter when opened or if adjacent to a door, be closed and locked when staff are not present.

Roof access doors should default to a locked, latched, and closed position when not actively in use and be lockable from the interior.

All facilities must include one or more distinctive, exterior secure master key box(es) designed to permit emergency access to both law enforcement agencies and emergency responder agencies from the exterior (for example, a Knox box) at a location designated by the local authorities with applicable jurisdiction or provide all local law enforcement electronic or physical master key access to the building(s).

Communications Infrastructure

A communications infrastructure shall be implemented that must:

1. Ensure equipment is in place such that law enforcement and emergency responder two-way radios can function within most portions of the building(s); and

2. Include a panic alert button, duress, or equivalent alarm system, via standalone hardware, software, or integrated into other telecommunications devices or online applications, that includes the following functionality:

    a. An alert must be capable of being triggered by campus staff, including temporary or substitute staff, from an integrated or enabled device.

    b. An alert must be triggered automatically in the event a district employee makes a 9-1-1 call using the hardware or integrated telecommunications devices from any location within the school system.

    c. With any alert generated, the location of where the alert originated shall be included.

    d. The alert must notify a set of designated school administrators as needed to provide confirmation of response, and, if confirmed, notice must be issued to the 9-1-1 center of an emergency situation requiring a law enforcement and/or emergency response and must include the location of where the alert originated. A notice can simultaneously be issued to all school staff of the need to follow appropriate emergency procedures.

    e. For any exterior doors that feature electronic locking mechanisms that allow for remote locking, the alert system will trigger those doors to automatically lock.

Compliance with 9-1-1 Rules and Regulations

In implementing these requirements, school systems shall comply with state and federal Kari's Laws and federal RAY BAUM's Act and corresponding rules and regulations pertaining to 9-1-1 service for school telephone systems, including a multi-line telephone system.

19 TAC 61.1031(c)

Operating Requirements

Certification for Purchases Through Purchasing Cooperatives

A district may not enter into a contract to purchase construction-related goods or services through a purchasing cooperative under Government Code Chapter 791 in an amount greater than $50,000 unless a person designated by the district certifies in writing that:

1. The project for which the construction-related goods or services are being procured does not require the preparation of plans and specifications under Occupation Code Chapter 1001 or 1051; or
2. The plans and specifications required under Occupation Code Chapters 1001 and 1051 have been prepared.

"Purchasing cooperative" means a group purchasing organization that governmental entities join as members and the managing entity of which receives fees from members or vendors.

Gov't Code 791.011(j)

Note: For legal provisions related to interlocal contracts, generally, see GRB.

For legal provisions related to using interlocal contracts for purchasing goods and services, see CH.

Procuring Architectural or Engineering Services

Education Code 44.031 does not apply to a contract for professional services rendered, including the services of an architect. *Education Code 44.031(f)* [See CH for information on the Professional Services Procurement Act generally.]

In procuring architectural, engineering, or land-surveying services, a district shall:

1. First select the most highly qualified provider on the basis of demonstrated competence and qualifications; and
2. Then attempt to negotiate with that provider a contract at a fair and reasonable price.

If a satisfactory contract cannot be negotiated with the most highly qualified provider of architectural, engineering, or land-surveying services, a district shall formally end negotiations with that provider, select the next most highly qualified provider, and attempt to negotiate a contract with that provider at a fair and reasonable price. The district shall continue this process to select and negotiate with providers until a contract is entered into.

Contracts for Engineering, Architectural, or Land Surveying Services

A covenant or promise in, in connection with, or collateral to a contract for engineering, architectural, or land surveying services to which a district is a party is void and unenforceable if the covenant or promise provides that a licensed engineer, registered architect, or land surveyor whose work product is the subject of the contract

Indemnification

must indemnify or hold harmless the district against liability for damage, other than liability for damage to the extent that the damage is caused by or results from an act of negligence, intentional tort, intellectual property infringement, or failure to pay a subcontractor or supplier committed by the indemnitor or the indemnitor's agent, consultant under contract, or another entity over which the indemnitor exercises control.

Duty to Defend

Except as provided below, a covenant or promise in, in connection with, or collateral to a contract for engineering, architectural, or land surveying services to which a district is a party is void and unenforceable if the covenant or promise provides that a licensed engineer, registered architect, or land surveyor whose work product is the subject of the contract must defend a party, including a third party, against a claim based wholly or partly on the negligence of, fault of, or breach of contract by the district, the district's agent, the district's employee, or other entity, excluding the engineer, architect, or land surveyor or that person's agent, employee, or subconsultant, over which the district exercises control. A covenant or promise may provide for the reimbursement of a district's reasonable attorney's fees in proportion to the engineer's, architect's, or land surveyor's liability.

District as Additional Insured

A district may require in a contract for engineering, architectural, or land surveying services to which the district is a party that the engineer, architect, or land surveyor name the district as an additional insured under the engineer's, architect's, or land surveyor's general liability insurance policy and provide any defense provided by the policy.

Standard of Care

A contract for engineering, architectural, or land surveying services to which a district is a party must require a licensed engineer, registered architect, or land surveyor to perform services:

1. With the professional skill and care ordinarily provided by competent engineers, architects, or land surveyors practicing under the same or similar circumstances and professional license; and

© 2025 Texas Association of School Boards, Inc. All rights reserved. Permission granted to TASB Policy Service subscribers to reproduce for internal use only.

2. As expeditiously as is prudent considering the ordinary professional skill and care of a competent engineer, architect, or land surveyor.

In a contract for engineering, architectural, or land surveying services to which a district is a party, a provision establishing a different standard of care than a standard described above is void and unenforceable. If a contract contains a void and unenforceable provision, the standard of care described above applies.

Nothing in these provisions prohibits a district in a contract for engineering or architectural services to which the district is a party from including and enforcing conditions that relate to the scope, fees, and schedule of a project in the contract.

Local Gov't Code 271.904

Payment and Performance Bonds

A district that makes a public work contract with a prime contractor shall require the contractor, before beginning the work, to execute to the district:

1. A performance bond if the contract is in excess of $100,000; and

2. A payment bond if the contract is in excess of $25,000.

A bond required by this provision must be executed by a corporate surety in accordance with Insurance Code Article 7.19-1 (now Insurance Code 3503.001-.005). A bond for a public work contract with a district must be payable to and its form must be approved by the awarding board.

Gov't Code 2253.021(a), (d)-(e)

The performance bond is solely for the protection of the district awarding the public work contract, in the amount of the contract, and conditioned on the faithful performance of the work in accordance with the plans, specifications, and contract documents. *Gov't Code 2253.021(b)*

The payment bond is solely for the protection and use of payment bond beneficiaries who have a direct contractual relationship with the prime contractor or a subcontractor to supply public work labor or material, and in the amount of the contract. *Gov't Code 2253.021(c)*

Failure to Obtain Payment Bond

If a district fails to obtain from a prime contractor a payment bond as required above or fails to include in a lease the lease terms required by Government Code 2252.909 [see CDB]:

1. The district is subject to the same liability that a surety would have if the surety had issued a payment bond and if the district had obtained the bond; and

2. A payment bond beneficiary is entitled to a lien on money due to the prime contractor in the same manner and to the same extent as if the public work contract were subject to Property Code Chapter 53, Subchapter J (Lien on Money Due Public Works Contractor).

Gov't Code 2253.027(a)

Bond for Insured Loss

A district shall ensure that an insurance company that is fulfilling its obligation under a contract of insurance by arranging for the replacement of a loss, rather than by making a cash payment directly to the district, furnishes or has furnished by a contractor:

1. A performance bond as described above for the benefit of a district; and

2. A payment bond, as described above for the benefit of the beneficiaries described above.

If the payment bond is not furnished, the district is subject to the same liability that a surety would have if the surety had issued the payment bond and the district had required the bond to be provided.

The bonds required to be furnished by the provisions above shall be furnished before the contractor begins work. It is an implied obligation under a contract of insurance for the insurance company to furnish these bonds.

Exception to Bond Requirement

These provisions do not apply to a district when a surety company is complying with an obligation under a bond that had been issued for the benefit of the district.

The requirements above do not apply to maintenance work. A worker is employed on a public work for purposes of this provision if the worker is employed by a contractor or subcontractor in the execution of a contract for public work with a district.

Gov't Code 2258.021

For a contract for a public work awarded by a district, the board shall determine the general prevailing rate of per diem wages in the district for each craft or type of worker needed to execute the contract and the prevailing rate for legal holiday and overtime work by:

1. Conducting a survey of the wages received by classes of workers employed on projects of a character similar to the contract work in the district in which the public work is to be performed; or

2. Using the prevailing wage rate as determined by the U.S. Department of Labor in accordance with the Davis-Bacon Act (40 U.S.C. Section 276a et seq.), and its subsequent amendments.

The board shall determine the general prevailing rate of per diem wages as a sum certain, expressed in dollars and cents. A board shall specify in the call for bids for the contract and in the contract itself the wage rates determined under these provisions. The board's determination of the general prevailing rates of per diem wages is final.

Gov't Code 2258.022(a), (c)-(e)

Government Code 2258.022(b) applies to a public work located in a county bordering the United Mexican States or in a county adjacent to a county bordering the United Mexican States. *Gov't Code 2258.022(b)*

Enforcement

A board awarding a contract, and an agent or officer of the board, shall:

1. Take cognizance of complaints of all violations of Government Code Chapter 2258 committed in the execution of the contract; and

2. Withhold money forfeited or required to be withheld under Government Code Chapter 2258 from the payments to the contractor under the contract, except that the board may not withhold money from other than the final payment without a determination by the board that there is good cause to believe

that the contractor has violated Government Code Chapter 2258.

On receipt of information, including a complaint by a worker, concerning an alleged violation of Government Code 2258.023 [see Penalty for Noncompliance, below] by a contractor or subcontractor, a board shall make an initial determination as to whether good cause exists to believe that the violation occurred. A board must make its determination before the 31st day after the date the board receives the information. A board shall notify in writing the contractor or subcontractor and any affected worker of its initial determination.

Gov't Code 2258.051-.052(a)-(c)

Retainage and Reimbursement

A board shall retain any amount due under the contract pending a final determination of the violation. *Gov't Code 2258.052(d)*

Note: Arbitration of unresolved issues is governed by Government Code 2258.053-.055.

A board shall use any amounts retained under Government Code Chapter 2258 to pay the worker the difference between the amount the worker received in wages for labor on the public work at the rate paid by the contractor or subcontractor and the amount the worker would have received at the general prevailing rate as provided in the arbitrator's award. The board may adopt rules, orders, or ordinances relating to the manner in which the reimbursement is made. *Gov't Code 2258.056(a)-(b)*

Penalty for Noncompliance

The contractor who is awarded a contract by a district or a subcontractor of the contractor shall pay not less than the rates determined under these provisions to a worker employed by it in the execution of the contract. A contractor or subcontractor who violates this provision shall pay to the district on whose behalf the contract is made, $60 for each worker employed for each calendar day or part of the day that the worker is paid less than the wage rates stipulated in the contract. A board awarding a contract shall specify this penalty in the contract. A contractor or subcontractor does not violate this section if a board awarding a contract does not determine the prevailing wage rates and specify the rates in the contract as required by these provisions. The board shall use any money collected under this provision to offset the costs incurred in the administration of Government Code Chapter 2258. *Gov't Code 2258.023*

1. Whether the student's teacher:
    a. Has met state qualification and licensing criteria for the grade levels and subject areas in which the teacher provides instruction;
    b. Is teaching under emergency or other provisional status through which state qualification or licensing criteria have been waived; and

20 U.S.C. 6312(e)(1)(A)

Federally Required Notice — Lack of Credentials

A school that receives such federal funds shall also provide to each individual parent of a child who is a student in such school, with respect to such student, timely notice that the student has been assigned, or has been taught for four or more consecutive weeks by, a teacher who does not meet applicable state certification or licensure requirements at the grade level and subject area in which the teacher has been assigned. *20 U.S.C. 6312(e)(1)(B)(ii)*

State-Required Notice — Lack of Credentials

If a district assigns an inappropriately certified or uncertified teacher (as defined below) to the same classroom for more than 30 consecutive instructional days during the same school year, it shall provide written notice of the assignment to the parents or guardians of each student in that classroom.

A superintendent shall provide the notice not later than the 30th instructional day after the date of the assignment of the inappropriately certified or uncertified teacher. A district shall make a good-faith effort to ensure that the notice is provided in a bilingual form to any parent or guardian whose primary language is not English. A district shall retain a copy of the notice and make information relating to teacher certification available to the public on request.

An "inappropriately certified or uncertified teacher" includes an individual serving on an emergency certificate or an individual who does not hold any certificate or permit. It does not include an individual who is:

1. Certified and assigned to teach a class or classes outside his or her area of certification, as determined by State Board for Educator Certification (SBEC) rules specifying the certificate required for an assignment;
2. Serving on a certificate issued due to a hearing impairment;
3. Serving on a certificate issued pursuant to enrollment in an approved alternative certification program;
4. Certified by another state or country and serving on a certificate issued under Education Code 21.052;
5. Serving on a school district teaching permit; or

The state notice requirement does not apply if a school is required in accordance with Section 1006, Every Student Succeeds Act [20 U.S.C. Section 6312(e)(1)(B)(ii)], to provide notice to a parent or guardian regarding a teacher who does not meet certification requirements at the grade level and subject area in which the teacher is assigned, provided the school provides notice as required by that Act. [See Federally Required Notice—Lack of Credentials, above]

If the Texas Education Agency (TEA) has developed a model notice, the superintendent must use that model to provide the notice required under this section.

A local innovation plan may not provide for the exemption of a district designated as a district of innovation from this parental notification requirement. [See AF]

Beginning with the 2026-27 school year, a district may not employ as a teacher of record for a course in the foundation curriculum (Education Code 28.002) a person who does not hold an appropriate certificate or permit required by SBEC. *Education Code 21.0032(a)*

Compliance by District of Innovation

A district that has adopted a local innovation plan for the 2026-27 school year that exempts the district from the applicable teacher certification requirements under Education Code 21.003 may employ as a teacher of record for a course other than a reading language arts or mathematics course in a grade level above grade five a person who does not hold an appropriate certificate or permit required by SBEC under Subchapter B. Education Code 21.055(a)-(b)

Statement to Commissioner

Promptly after employing a person under a school district permit under the provision requiring a baccalaureate degree, a district shall send a written statement to the commissioner. This statement must identify the person, the person's qualifications as a teacher, and the subject or class the person will teach. The person may teach the subject or class pending action by the commissioner.

Not later than the 30th day after the commissioner receives a district's statement, the commissioner may inform the district that the person is not qualified to teach. Activation

A superintendent or designee who cannot secure an appropriately certified and qualified individual to fill a vacant position may activate an emergency permit for an individual who does not have one of the appropriate credentials for the assignment, as specified in 19 Administrative Code Chapter 231 (Requirements for Public School Personnel Assignments).

© 2025 Texas Association of School Boards, Inc. All rights reserved. Permission granted to TASB Policy Service subscribers to reproduce for internal use only.

In order to activate an emergency permit, the superintendent or designee must:

1. Document locally the efforts the district has taken to employ an appropriately certified individual in the position for which an emergency permit is activated;

2. Apply for an emergency permit when a vacant position is filled with an uncertified or inappropriately certified individual who will serve as the teacher of record or will serve in the assignment for more than 30 consecutive instructional days. The application must be submitted to the TEA within 45 instructional days of the date of assignment;

3. Verify that the district maintains a support system, has assigned a trained mentor, and will provide release time as needed to assist the individual serving on an emergency permit. However, a district shall not be required to provide a mentor for a degreed, certified teacher assigned on an emergency permit if the teacher has one or more creditable years' experience within the district, as defined at 19 Administrative Code Chapter 153, Subchapter CC; and

4. Verify that the individual for whom the emergency permit is activated has been advised of the SBEC rules regarding permits and permit renewal requirements in 19 Administrative Code Chapter 230, Subchapter F.

19 TAC 230.71(d)

Temporary Vacancies

A district is not required to activate an emergency permit if an uncertified individual is assigned for a certified teacher who will be absent for more than 30 consecutive instructional days due to documented health-related reasons and has expressed the intention to return to the assignment. A district must, however, comply with the parent notification requirements above. *19 TAC 230.71(i)*

Validity of Emergency Permit

The validity date of an activated and authorized emergency permit is specified in 19 Administrative Code 230.97 (Effective Dates of Certificates and Permit Issuance).

An emergency permit is valid for the remainder of the school year for which it is activated and authorized by SBEC. The emergency permit must be submitted to TEA within 45 instructional days from the date of assignment. A permit authorized by SBEC is valid for service only in the requesting district and only for the assignments indicated on the emergency permit application.

Effective with the 2017–18 school year, the employment of an individual on an emergency permit, with the exception of the assignment as a JROTC instructor or a teacher of students with visual impairments may not exceed one school year in the same assignment. [See One-Year Limitation, below]

Prior to the 2017–18 school year, the individual may serve in a specific assignment no more than one additional school year beyond the initial emergency permit. To continue beyond the initial emergency permit year, the individual must comply with the renewal provisions specified in 19 Administrative Code 230.81. [See Renewal Requirements and Procedures, below]

Effective with the 2017–18 school year, to continue employment in the assignment beyond the validity of the initial emergency permit, the individual must hold the appropriate certificate, in accordance

with 19 Administrative Code, Chapter 231 (Requirements for Public School Personnel Assignments). An individual may not serve as a classroom teacher of record in the district for more than three school years without obtaining initial, standard certification.

19 TAC 230.73

One-Year Limitation

Effective with the 2017–18 school year, an emergency permit will limit an individual to one year of service and no renewal will be allowed.

Exceptions

The one-year limitation does not apply to individuals serving in the position of Junior Reserve Officer Training Corps (JROTC) instructor or teachers of students with visual impairments.

As indicated in 19 Administrative Code 230.77(g)(4)(B), emergency permits for JROTC instructors must be reissued every year.

Emergency permits for teachers of students with visual impairments referenced in 19 Administrative Code 230.77(f)(2)(B) may be renewed a maximum of two years.

19 TAC 230.71(b), (c)

Renewal Requirements and Procedures

Effective with the 2017–18 school year, these renewal provisions no longer apply for emergency permits, with the exception of teachers of students with visual impairments. *19 TAC 230.73(f)*

A superintendent, designee, or authorized representative may renew an emergency permit for the same assignment in the same district for which the initial emergency permit was activated.

No individual may continue in the same assignment for more than one school year of service on an emergency permit, except that emergency permits used fewer than 90 calendar days may be renewed for one additional year of service, if needed.

The total of semester credit hours or the equivalent contact hours required to obtain certification appropriate for the assignment shall determine the number of emergency permit renewals for which the individual may be eligible.

For six semester credit hours or less plus appropriate examination requirements, an individual is not eligible for renewal.

For seven semester credit hours or more plus appropriate examination requirements, an individual is eligible for one renewal.

The superintendent or his or her designee or authorized representative may renew an emergency permit provided the following requirements and procedures are met:

4. The appropriate renewal of the emergency permit application must be completed online prior to the beginning date of duties for the current school year.
5. The school district shall pay the appropriate fee.

19 TAC 230.81

Nonrenewable Permits

A superintendent or designee may activate a nonrenewable permit for an individual who has not completed the appropriate examination requirements specified in 19 Administrative Code 230.21 (Educator Assessment).

A nonrenewable permit may be activated for an individual who:

2. Holds a Texas teacher certificate with an effective date before February 1, 1986, but has not revalidated the certificate for employment purposes by passing an examination. The individual must not have been employed in a Texas school district since the start of the 1985–86 school year. A nonrenewable permit activated for an individual in this category expires six months from the date of activation or at the end of the school year, whichever is less.

A teacher who refuses to consent to activation of an emergency permit may not be terminated or nonrenewed or otherwise retaliated against because of the teacher's refusal to consent to the activation of the emergency permit. However, a teacher's refusal to consent shall not impair a district's right to implement a necessary reduction in force or other personnel actions in accordance with local policy.

19 TAC 230.71(e)

No Property Right

An emergency permit is authorized for the district for a specific assignment and is not the property of the individual for whom the emergency permit was activated. *19 TAC 230.71(f)*

Unused Permits

If an emergency permit authorized by SBEC is not used, the district shall notify TEA staff by email. *19 TAC 230.71(g)*

Employee Right of Access

All information in the personnel file of a district employee shall be made available to that employee or the employee's designated representative as public information is made available under the Public Information Act. An employee or an employee's authorized representative has a special right of access, beyond the right of the general public, to information held by a district that relates to the employee and that is protected from public disclosure by laws intended to protect the employee's privacy interests.

A district may not deny to the employee or his or her representative access to information relating to the employee on the grounds that the information is considered confidential by privacy principles under the Public Information Act. A district may assert as grounds for denial of access other provisions of the Public Information Act or other laws that are not intended to protect the employee's privacy interests.

If a district determines that information in the employee's records is exempt from disclosure under an exception of Government Code Chapter 552, Subchapter C, other than an exception intended to protect the privacy interest of the requestor or the person whom the requestor is authorized to represent, it shall submit a written request for a decision to the attorney general before disclosing the information. If a decision is not requested, a district shall release the information to the requestor not later than the tenth day after the request for information is received.

Widespread Salary Reductions

The following provisions apply only to a widespread reduction in the amount of annual salaries paid to classroom teachers in a district based primarily on district financial conditions rather than on teacher performance.

For any school year in which a district has reduced the amount of the annual salaries paid to classroom teachers from the amount paid for the preceding school year, the district shall reduce the amount of the annual salary paid to each district administrator or other professional employee by a percent or fraction of a percent that is equal to the average percent or fraction of a percent by which teacher salaries have been reduced.

Education Code 21.4032

A board may not reduce salaries until the district has complied with the requirements at Education Code 21.4022 [see Salary Reduction/Furlough Process, below]. *Education Code 21.4022*

Furlough Program

In accordance with district policy [see DFFA], a board may implement a furlough program and reduce the number of days of service otherwise required under Education Code 21.401 [see DC] by not more than six days of service during a school year if the commissioner certifies that the district will be provided with less state and local funding for that year than was provided to the district for the 2010-11 school year. *Education Code 21.4021(a)*

A board may not implement a furlough program until the district has complied with the requirements at Education Code 21.4022 [see Salary Reduction/Furlough Process, below]. *Education Code 21.4022*

Funding Levels

Not later than July 1 of each year, the commissioner shall determine for each district whether the estimated amount of state and local funding per student in weighted average daily attendance to be provided to the district under the Foundation School Program for maintenance and operations for the following school year is less than the amount provided to the district for the 2010-11 school year. If the amount estimated to be provided is less, the commissioner shall certify the percentage decrease in funding to be provided to the district. *Education Code 48.010*

Salaries

Notwithstanding Education Code 21.402 (minimum salary schedule), a board may reduce the salary of an employee who is furloughed in proportion to the number of days by which service is reduced. Any reduction in the amount of the annual salary must be

equally distributed over the course of the employee's current contract with the district.

Furlough Days — A furlough program must subject all contract personnel to the same number of furlough days. An educator may not be furloughed on a day that is included in the number of days of instruction required under Education Code 25.081 [see EB]. Implementation of a furlough program may not result in an increase in the number of required teacher workdays. An educator may not use personal, sick, or any other paid leave while the educator is on a furlough.

Contract Resignation — If a board adopts a furlough program after the date by which a teacher must give notice of resignation from a probationary, term, or continuing contract [see DFE], an employee who subsequently resigns is not subject to sanctions imposed by SBEC.

No Appeal — A decision by a board to implement a furlough program is final and may not be appealed and does not create a cause of action or require collective bargaining.

Education Code 21.4021

Salary Reduction / Furlough Process — A board may not implement a furlough program under Education Code 21.4021 or reduce salaries until the district has complied with the requirements below.

Employee Involvement — A district must use a process to develop a furlough program or other salary reduction proposal, as applicable, that:

1. Includes the involvement of the district's professional staff; and
2. Provides district employees with the opportunity to express opinions regarding the furlough program or salary reduction proposal, as applicable, at the public meeting described below.

Public Meeting — A board must hold a public meeting at which the board and district administration present:

1. Information regarding the options considered for managing the district's available resources, including consideration of a tax rate increase and use of the district's available fund balance;
2. An explanation of how the district intends, through implementation of a furlough program or salary reductions, as applicable, to limit the number of district employees who will be discharged or whose contracts will not be renewed. Any explanation of a furlough program must state the specific number of furlough days proposed to be required; and

Incentive Grants — Contract Provision

A district shall provide in employment contracts that qualifying employees may receive an incentive payment under an awards program established under Education Code Chapter 21, Subchapter O (Educator Excellence Award Program and Educator Excellence Innovation Program) if the district participates in the program. A district shall indicate that any incentive payment distributed is considered a payment for performance and not an entitlement as part of an employee's salary. *Education Code 21.415*

Educator Excellence Innovation Program

The Educator Excellence Innovation Program (EEIP) is a grant program under which a district may receive a competitive grant for the purposes of systematically transforming educator quality and effectiveness. The Texas Education Agency (TEA) will give priority to districts that receive Title I funding and have at a majority of district campuses a student enrollment that is at least 50 percent educationally disadvantaged.

Eligibility

A district is eligible to apply for EEIP grant funds if the district:

1. Completes and submits a Notice of Intent to Apply to TEA by the date established by the commissioner of education;
2. Complies with all assurances in the Notice of Intent to Apply and grant application;
3. Participates in the required technical assistance activities established by the commissioner, including establishing leadership teams, master teachers, mentor teachers, and instructional coaches and developing career pathways;
4. Agrees to participate for four years; and
5. Complies with any other activities set forth in the program requirements.

An eligible district must submit an application in a form prescribed by the commissioner. Each eligible applicant must meet all deadlines, requirements, and assurances specified in the application. The commissioner may waive any eligibility requirements as specified in 19 Administrative Code 102.1073.

Local Plan

An eligible district that intends to participate in the EEIP shall submit a local educator excellence innovation plan to TEA. A local educator excellence innovation plan must address the elements at 19 Administrative Code 102.1073(e)(2).

A district must act pursuant to its local board policy [see DEAA (LOCAL)] for submitting a local educator excellence innovation plan and grant application to TEA. A local decision to approve and

submit a plan and grant application may not be appealed to the commissioner.

A district may renew its local educator excellence innovation plan for three consecutive school years without resubmitting a full grant application to TEA. With TEA approval, a district may amend its local plan in accordance with 19 Administrative Code 102.1073(c) and (h) for each school year the district receives a program grant.

Use of Grant Funds

A district may use grant funds only to carry out purposes of the program as described at Education Code 21.7011, in accordance with the district's local plan, which may include the following specific methods or procedures:

4. Establishment of an alternative teacher compensation or retention system; and
5. Implementation of incentives designed to reduce teacher turnover.

Waiver Request

A district may apply to the commissioner in writing for a waiver to exempt the district or one or more district campuses from one or more of the statutory sections listed at Education Code 21.7061(a).

The application for the waiver must demonstrate:

1. Why waiving the identified section of the Education Code is necessary to carry out the purposes of the program;

© 2025 Texas Association of School Boards, Inc. All rights reserved. Permission granted to TASB Policy Service subscribers to reproduce for internal use only.

2. Approval for the waiver by a vote of a majority of the members of the board;

3. Approval for the waiver by a vote of a majority of the educators employed at each campus for which the waiver is sought; and

4. Evidence that the voting occurred during the school year and in a manner that ensured that all educators entitled to vote had a reasonable opportunity to participate in the voting.

Neither the board nor the superintendent may compel a waiver of rights under Education Code 21.7061.

Not later than April 1 of the year in which the waiver application is submitted, the commissioner shall notify the district in writing whether the application has been granted or denied. A waiver expires when the waiver is no longer necessary to carry out the purposes of the program, in accordance with the district's local educator excellence innovation plan.

Sick Leave Different from Temporary Disability Leave

An employee's entitlement to sick leave is unaffected by any concurrent eligibility for a leave of absence for temporary disability. The two types of leave are different, and each must be granted by its own terms. *Atty. Gen. Op. H-352 (1974)*

Assault Leave

In addition to all other days of leave, a district employee who is physically assaulted during the performance of regular duties is entitled to the number of days of leave necessary to recuperate from physical injuries sustained as a result of the assault. The leave shall be paid as set forth below at Coordination with Workers' Compensation Benefits.

A district employee is physically assaulted if the person engaging in the conduct causing injury to the employee:

1. Could be prosecuted for assault; or
2. Could not be prosecuted for assault only because the person's age or mental capacity makes the person a nonresponsible person for purposes of criminal liability.

Notice of Rights

Any informational handbook a district provides to employees in an electronic or paper form or makes available by posting on the district's website must include notification of an employee's rights regarding assault leave, in the relevant section of the handbook. Any form used by a district through which an employee may request personal leave must include assault leave as an option.

Assignment to Assault Leave

At the request of an employee, a district must immediately assign the employee to assault leave. Days of assault leave may not be deducted from accrued personal leave. Assault leave may not extend more than two years beyond the date of the assault. Following

an investigation of the claim, a district may change the assault leave status and charge the leave against the employee's accrued personal leave or against the employee's pay if insufficient accrued personal leave is available.

Coordination with Workers' Compensation Benefits

Notwithstanding any other law, assault leave benefits due to an employee shall be coordinated with temporary income benefits due from workers' compensation so the employee's total compensation from temporary income benefits and assault leave benefits will equal 100 percent of the employee's weekly rate of pay.

Education Code 22.003(b)-(c-1)

Religious Observances

A district shall reasonably accommodate an employee's request to be absent from duty in order to participate in religious observances and practices, so long as it does not cause undue hardship on the conduct of district business. Such absence shall be without pay unless applicable paid leave is available. *42 U.S.C. 2000e(j), 2000e-2(a); Ansonia Bd. of Educ. v. Philbrook, 479 U.S. 60, (1986); Pinsker v. Joint Dist. No. 28J of Adams and Arapahoe Counties, 735 F.2d 388 (10th Cir. 1984)*

Compliance with a Subpoena

An employer may not discharge, discipline, or penalize in any manner an employee because the employee complies with a valid subpoena to appear in a civil, criminal, legislative, or administrative proceeding. *Labor Code 52.051(a)*

Note: A Texas federal court held that by omitting any reference to governmental entities from Labor Code 52.051, the state legislature intended to exclude governmental entities from the definition of "employer" contained within that section. Therefore, the statute did not waive a county's governmental immunity from liability for claims of retaliatory discharge of an employee for complying with a subpoena. *Alcala v. Texas Webb County*, 620 F. Supp. 2d 795 (S.D. Tex. 2009)

Jury Duty

An employee's accumulated personal leave may not be reduced because of the employee's service in compliance with a summons to appear as a juror [see DG]. *Education Code 22.006(c)*

A developmental leave of absence may be granted for one school year at one-half salary or for one-half of a school year at full salary paid to the employee in the same manner, on the same schedule, and with the same deductions as if the employee were on full-time duty.

An employee on developmental leave shall continue to be a member of the Teacher Retirement System of Texas and shall be an employee of a district for purposes of participating in programs, holding memberships, and receiving benefits afforded by employment in a district.

A district shall develop and adopt a policy allowing the use of mental health leave by peace officers and full-time telecommunicators authorized under Occupations Code 1701.405 employed by the district who experience a traumatic event in the scope of that employment.

The mental health leave policy must:

1. Provide clear and objective guidelines establishing the circumstances under which a peace officer or telecommunicator is granted and may use mental health leave;
2. Entitle a peace officer or telecommunicator to mental health leave without a deduction in salary or other compensation;
3. Enumerate the number of mental health leave days available to a peace officer or telecommunicator; and

The board may reject or change a finding of fact made by the hearing examiner:

1. Only after reviewing the record of the proceedings; and
2. Only if the finding of fact is not supported by substantial evidence.

The board or subcommittee shall state in writing the reason for and legal basis for a change or rejection.

Recording

A certified shorthand reporter shall record the announcement of the decision. The district shall bear the cost of the reporter's services.

Resignation without Consent (Unilateral Resignation)

An educator employed under a probationary contract for the following school year, or under a term or continuing contract, may relinquish the position and leave district employment at the end of the school year without penalty by filing a written resignation with a board or a board's designee not later than the 45th day before the first day of instruction of the following school year.

A written resignation mailed by prepaid certified or registered mail to a board president or a board's designee at the post office address of the district is considered filed at the time of mailing.

Education Code 21.105(a), .160(a), .210(a)

An unequivocal resignation filed not later than the 45th day before the first day of instruction of the following school year is effective upon filing with a district and the district cannot reject such a resignation. The resignation cannot be withdrawn by the teacher based on an argument that the district has not accepted the resignation. *Fantroy v. Dallas Indep. Sch. Dist., Tex. Comm'r of Educ. Decision. No. 034-R8-0206 (Mar. 5, 2009); Garcia v. Miles Indep. Sch. Dist., Tex. Comm'r of Educ. Decision No. 055-RI-503 (Nov. 30, 2006).*

Resignation with Consent

The educator may resign, with the consent of the board or the board's designee, at any other time. *Education Code 21.105(b), .160(b), .210(b)*

Acceptance or approval of a resignation indicates consent to abandonment of contract. *Quitman Indep. Sch. Dist. v. Wilkerson, Tex. Comm'r of Educ. Decision No. 142-TTC-698 (Dec. 2, 1999); Houston Indep. Sch. Dist. v. Johnson, Tex. Comm'r of Educ. Decision No. 054-TTC-1196 (Sept. 28, 1998)*

Contract Abandonment

Written Complaint

On written complaint by a district, the State Board for Educator Certification (SBEC) may impose sanctions against an educator who is employed under a probationary contract, or under a continuing or term contract, for the following school year, and who:

1. Resigns;
2. Fails without good cause to comply with the resignation deadline or the provision regarding resignation by consent; and
3. Fails without good cause to perform the contract.

Education Code 21.105(c), .160(c), .210(c)

Sanctions Prohibited

SBEC may not impose a sanction against a teacher who relinquishes a position under a probationary, term, or continuing contract and leaves the employment of the district after the 45th day before the first day of instruction for the upcoming school year in violation of and without the consent of the board if the teacher's fail-

ure to comply with Education Code 21.105(a), 21.160(a), or 21.210(a) was due to:

1. A serious illness or health condition of the teacher or a close family member of the teacher;
2. The teacher's relocation because the teacher's spouse or a partner who resides with the teacher changes employers or location of employment;
3. A significant change in the needs of the teacher's family in a manner that requires the teacher to:
    a. Relocate; or
    b. Forgo employment during a period of required employment under the teacher's contract; or
4. The teacher's reasonable belief that the teacher had written permission from the school district's administration to resign.

Education Code 21.105(g), .160(g), .210(g)

Board Action

SBEC shall not pursue sanctions against an educator who is alleged to have abandoned his or her contract unless a board:

1. Submits a written complaint within 30 calendar days after the effective date of the educator's separation from employment from the district. Unless the district and the educator have a written agreement to the contrary, the effective date of separation from employment is the first day that, without district permission, the educator fails to appear for work under the contract.
2. Renders a finding that good cause did not exist under Education Code 21.105(c)(2) (probationary contract), 21.160(c)(2) (continuing contract), or 21.210(c)(2) (term contract). This finding constitutes prima facie evidence of the educator's lack of good cause but is not a conclusive determination.
3. Submits the following required attachments to the written complaint:
    a. The educator's resignation letter, if any;
    b. The agreement with the educator regarding the effective date of separation from employment, if any;
    c. The educator's contract; and
    d. Board meeting minutes indicating a finding of "no good cause." If the board does not meet within 30 calendar

days of the educator's separation from employment, the minutes may be submitted within ten calendar days after the next board meeting.

19 TAC 249.14(j)

Notice to Teacher

If a district submits a complaint regarding a teacher to SBEC, the district shall promptly notify the teacher of the complaint. The notice must include:

1. The basis of the complaint;
2. Information regarding how the teacher may contact SBEC; and
3. A reminder that the teacher should verify that the teacher's mailing address on file with SBEC is current.

SBEC Review

Before imposing sanctions against a teacher for abandonment of contract, SBEC:

1. Must consider any mitigating factors relevant to the teacher's conduct; and
2. May consider alternatives to sanctions, including additional continuing education or training.

If a teacher files a written resignation after the 45th day but not later than the 30th day before the first day of instruction of the following school year, SBEC may not suspend or revoke the teacher's certificate.

Education Code 21.105(d)-(f), .160(d)-(f), .210(d)-(f)

Mitigating Factors

SBEC shall consider the following factors in seeking, proposing, or making a decision regarding an educator who has abandoned a contract in violation of Education Code 21.105(c), 21.160(c), or 21.210(c). A reduction of one month in suspension time will be given for each factor established, except for the factors 7-10 below. The educator:

1. Gave written notice to the school district 30 days or more in advance of the first day of instruction for which the educator will not be present;
2. Assisted the school district in finding a replacement educator to fill the position;
3. Continued to work until the school district hired a replacement educator;
4. Assisted in training the replacement educator;

5. Showed good faith in communications and negotiations with the school district;
6. Provided lesson plans for classes following educator's resignation;
7. Changed careers within the field of education:
    a. To a position that required a different class of educator certification as defined in 19 Administrative Code 230.33(b) (relating to Classes of Certificates);
    b. To a position with a higher level of authority within the principal class of certificate; or
    c. To a position in an open-enrollment charter school or a district of innovation that is equivalent to the positions described above;
8. Had a reduction in base pay, excluding stipends, as compared to the educator's base pay for the prior year at the same school district;
9. Resigned due to working conditions that reasonably posed an immediate threat of significant physical harm to the educator; or
10. Any other relevant circumstances or facts.

19 TAC 249.17(d)(2)

Required Report to SBEC

A superintendent shall report the educator's resignation to SBEC if the conditions set forth at Education Code 22A.051 exist. [See DHB] *Education Code 22A.051*

Investigation

A superintendent of a district, including a district of innovation, shall complete an investigation of an educator that involves evidence that the educator may have abused or otherwise committed an unlawful act, was involved in a romantic relationship with, or solicited or engaged in sexual contact with a student or minor, despite the educator's resignation from employment before completion of the investigation. *Education Code 22A.051(b); 19 TAC 249.14(d)(3)(C)*

Report by Principal

A person who serves as a principal in a district, including a district of innovation, must notify the superintendent, and may be subject to sanctions for failure to do so as described by Education Code 22A.051(c) [see DP]. *Education Code 22A.051(c)*

Employee Free Speech

District employees do not shed their constitutional rights to freedom of speech or expression at the schoolhouse gate.

However, neither an employee nor anyone else has an absolute constitutional right to use all parts of a school building or its immediate environs for unlimited expressive purposes. When a public employee makes statements pursuant to his or her official duties, the employee is not speaking as a citizen for First Amendment purposes, and the Constitution does not insulate the communications from employer discipline.

Garcetti v. Ceballos, 547 U.S. 410 (2006); Tinker v. Des Moines Indep. Cmty. Sch. Dist., 393 U.S. 503 (1969) [See also GKD]

Whistleblower Protection

A board or its agents shall not suspend or terminate the employment of, or take other adverse personnel action against, an employee who in good faith reports a violation of law by a district or another public employee to an appropriate law enforcement authority.

A "report" is made to an "appropriate law enforcement authority" if the authority is a part of a state or local governmental entity or the federal government that the employee in good faith believes is authorized to:

1. Regulate under or enforce the law alleged to be violated in the report; or
2. Investigate or prosecute a violation of criminal law.

Gov't Code 554.002

A supervisor who suspends or terminates the employment of or takes an adverse personnel action against an employee for reporting a violation of law shall be subject to civil penalties. *Gov't Code 554.008*

Definitions

"Employee" means an employee or appointed officer who is paid to perform services for a district. It does not include independent contractors. *Gov't Code 554.001(4)*

"Law" means a state or federal statute, an ordinance of a local governmental entity, or a rule adopted under a statute or ordinance. *Gov't Code 554.001(1)*

A "good faith" belief that a violation of the law occurred means that:

1. The employee believed that the conduct reported was a violation of law; and

2. The employee's belief was reasonable in light of the employee's training and experience.

Wichita County v. Hart, 917 S.W.2d 779 (Tex. 1996)

A "good faith" belief that a law enforcement authority is an appropriate one means:

1. The employee believed the governmental entity was authorized to:
   a. Regulate under or enforce the law alleged to be violated in the report, or
   b. Investigate or prosecute a violation of criminal law; and
2. The employee's belief was reasonable in light of the employee's training and experience.

Tex. Dep't of Transp. v. Needham, 82 S.W.3d 314 (Tex. 2002)

Whistleblower Complaints

An employee who alleges a violation of whistleblower protection may sue a district for injunctive relief, actual damages, court costs, and attorney's fees, as well as other relief specified in Government Code 554.003. *Gov't Code 554.003*

Initiate Grievance

Before suing, an employee must initiate action under a district's grievance policy or other applicable policies concerning suspension or termination of employment or adverse personnel action.

The employee must invoke a district's grievance procedure not later than the 90th day after the date on which the alleged suspension, termination, or other adverse employment action occurred or was discovered by the employee through reasonable diligence.

Legal Action

If a board does not render a final decision before the 61st day after grievance procedures are initiated, the employee may elect to:

1. Exhaust a district's grievance procedures, in which case the employee must sue not later than the 30th day after the date those procedures are exhausted to obtain relief under Government Code Chapter 554; or
2. Terminate district grievance procedures and sue within the timelines established by Government Code 554.005 and 554.006.

Burden of Proof — If the employee brings a lawsuit, the employee has the burden of proof unless the suspension, termination, or adverse personnel action occurred within 90 days after the employee reported a violation of law, in which case the suspension, termination, or adverse personnel action is presumed, subject to rebuttal, to be because the employee made the report.

Affirmative Defense — It is an affirmative defense to a whistleblower suit that the district would have taken the action against the employee that forms the basis of the suit based solely on information, observation, or evidence that is not related to the fact that the employee made a report protected under the whistleblower law.

Gov't Code 554.004

Notice of Rights — A board shall inform its employees of their rights regarding whistleblower protection by posting a sign in a prominent location in the workplace. The design and content of the sign shall be as prescribed by the attorney general. *Gov't Code 554.009*

Right to Report a Crime

A district employee may report a crime witnessed at the school to any peace officer with authority to investigate the crime. A district may not adopt a policy requiring a school employee to refrain from reporting a crime witnessed at the school or to report a crime witnessed at the school only to certain persons or peace officers. *Education Code 37.148*

Protection for Reporting Child Abuse

A district may not suspend or terminate the employment of, discriminate against, or take other adverse employment action against a professional employee who in good faith:

1. Reports child abuse or neglect to:
    a. The person's supervisor,
    b. An administrator of the facility where the person is employed,
    c. A state regulatory agency, or
    d. A law enforcement agency; or
2. Initiates or cooperates with an investigation or proceeding by a governmental entity relating to an allegation of child abuse or neglect.

"Adverse employment action" means an action that affects an employee's compensation, promotion, transfer, work assignment, or performance evaluation, or any other employment action that would dissuade a reasonable employee from making or supporting a report of abuse or neglect under Family Code 261.101.

A person may sue for injunctive relief, damages, or both if the person is suspended or terminated from the person's employment; is discriminated against; or suffers any other adverse employment action.

A district employee who has a cause of action under the provisions at Whistleblower Protection, above, may not bring an action under Protection for Reporting Child Abuse.

Family Code 261.110(a)-(c), (l)

Protection from Disciplinary Proceedings

For purposes of the following provisions, "disciplinary proceeding" means discharge or suspension of a professional employee, or termination or nonrenewal of a professional employee's term contract. [See DGC regarding immunity] *Education Code 22.0512(b)*

Reporting Child Abuse or Maltreatment

A district employee may not be subject to any disciplinary proceeding resulting from an action taken in compliance with Education Code 38.0041 [prevention of child abuse and other maltreatment, see FFG]. *Education Code 38.0041(g)*

Use of Physical Force

A professional employee may not be subject to disciplinary proceedings for the employee's use of physical force against a student to the extent justified under Penal Code 9.62. This provision does not prohibit a district from enforcing a policy relating to corporal punishment or bringing a disciplinary proceeding against a professional employee of the district who violates the district policy relating to corporal punishment. *Education Code 22.0512(a); Tex. Atty. Gen. Op. GA-0202 (2004)*

Penal Code 9.62 provides that the use of force, other than deadly force, against a person is justified:

1. If the actor is entrusted with the care, supervision, or administration of the person for a special purpose; and
2. When and to the degree the actor reasonably believes the force is necessary to further the special purpose or to maintain discipline in a group.

Penal Code 9.62

Failure to Follow Scope, Sequence, and Instructional Materials

A district may not penalize a teacher who does not follow the pacing of recommended or designated instructional materials or the pacing of the recommended or designated scope and sequence for a subject in the required curriculum under Education Code 28.002(a) in a particular grade level based on the teacher's determination that the teacher's students need more or less time in a specific area to demonstrate proficiency in the essential knowledge and skills for that subject and grade level [see EHAA].

A district may take appropriate action with respect to a teacher for conduct described above based on documented evidence of a deficiency in classroom instruction obtained through observation or substantiated and documented third-party information.

Education Code 28.0027(b), (c)

A classroom teacher employed by a district may not be subject to disciplinary proceedings for an allegation that the teacher violated Education Code 28.0022, the Establishment Clause of the First Amendment of the United States Constitution, or a related state or federal law if:

1. The teacher used only instructional material included on the list of approved instructional material maintained by the State Board of Education under Education Code 31.022 and adopted by the district; and

2. The allegation does not dispute that the teacher delivered instruction from the instructional material with fidelity.

This immunity is in addition to, and may not be construed to interfere with, any other immunity provided by law.

Education Code 22.05125

Instructional Materials and Technological Equipment

A board may not require an employee who acts in good faith to pay for instructional materials or technological equipment that is damaged, stolen, misplaced, or not returned. An employee may not waive this provision by contract or any other means.

Exception

A district may enter into a written agreement with an employee whereby the employee assumes financial responsibility for electronic instructional material or technological equipment usage off school property or outside of a school-sponsored event in consideration for the ability of the employee to use the electronic instructional material or technological equipment for personal business.

The written agreement shall be separate from the employee's contract of employment, if applicable, and shall clearly inform the employee of the amount of the financial responsibility and advise the employee to consider obtaining appropriate insurance. An employee may not be required to enter into such an agreement as a condition of employment.

Jury Duty

A district may not discharge, threaten to discharge, intimidate, or coerce any permanent employee because the employee serves as a juror or grand juror, or for the employee's attendance or scheduled attendance in connection with the service, in any court in the United States. An employee who is discharged, threatened with discharge, intimidated, or coerced is entitled to return to the same employment that the employee held when summoned for jury or grand jury service if the employee, as soon as practical after release from jury or grand jury service, gives the employer actual notice that the employee intends to return. *Civ. Prac. & Rem. Code 122.001*

A district may not discharge, discipline, reduce the salary of, or otherwise penalize or discriminate against a school district employee because of the employee's compliance with a summons to appear as a juror. For each regularly scheduled workday on which a nonsalaried employee serves in any phase of jury service, a school district shall pay the employee the employee's normal daily compensation [see DEC]. *Education Code 22.006(a), (b)*

Voting

A person commits an offense if, with respect to another person over whom the person has authority in the scope of employment, the person knowingly refuses to permit the other person to be absent from work on election day or while early voting is in process for the purpose of attending the polls to vote, or subjects or threatens to subject the other person to a penalty for attending the polls on election day or while early voting is in progress to vote. Penalty means a loss of wages or another benefit of employment.

It is an exception to the application of this provision that the person's conduct occurs in connection with an election in which the polls are open on election day or while early voting is in progress for voting for two consecutive hours outside of the voter's working hours.

A district shall provide a place, other than a bathroom, that is shielded from view and free from intrusion from coworkers and the public, which may be used by an employee to express breast milk.

A district shall not be required to compensate an employee receiving reasonable break time for any time spent during the workday for such purpose unless otherwise required by federal or state law or municipal ordinance.

Break time provided shall be considered hours worked if the employee is not completely relieved from duty during the entirety of the break.

A district that employs less than 50 employees is not subject to these requirements, if the requirements would impose an undue hardship by causing the district significant difficulty or expense when considered in relation to the size, financial resources, nature, or structure of the district.

This requirement does not preempt a state law or municipal ordinance that provides greater protections to employees.

29 U.S.C. 218d

Right to Express Breast Milk

A district employee is entitled to express breast milk at the employee's workplace. *Gov't Code 619.002*

The district shall provide a place, other than a multiple user bathroom, that is shielded from view and free from intrusion from other employees and the public where the employee can express breast milk.

A district may not suspend or terminate the employment of, or otherwise discriminate against, an employee because the employee has asserted the employee's rights under Government Code Chapter 619. Government Code Chapter 619 does not create a private or state cause of action against a district.

2. Constitutes a minor incident, as defined at Occupations Code 301.419; or
3. Would violate Occupations Code Chapter 301 or a rule of the Board of Nurse Examiners, if the nurse notifies the district at the time of the refusal that this is the reason for refusing to engage in the act or omission.

Designated Time for Prayer

The board of trustees may adopt a policy requiring every campus of the district or school to provide students and employees with an opportunity to participate in a period of prayer and reading of the Bible or other religious text on each school day in accordance with this section. [See FNA]

Regardless of whether the board adopts a policy under Education Code 25.0823(a), this section does not prohibit a student or employee of the district or school from participating in prayer or reading the Bible or other religious text during a period of the school day that is not designated as a period of prayer and reading of the Bible or other religious text.

Education Code 25.0823(a),(g)

State Laws

Wages, Hours, Conditions of Work

The prohibition against collective bargaining and strikes [see DGA] does not impair the right of employees to present grievances concerning their wages, hours of employment, or conditions of work, either individually or through a representative that does not claim the right to strike. *Gov't Code 617.005*

The term "conditions of work" should be construed broadly to include any area of wages, hours or conditions of employment, and any other matter that is appropriate for communications from employees to employer concerning an aspect of their relationship.

Atty. Gen. Op. JM-177 (1984); Corpus Christi Am. Fed'n of Teachers v. Corpus Christi Indep. Sch. Dist., 572 S.W.2d 663 (Tex. 1978)

The statute protects grievances presented individually or individual grievances presented collectively. *Lubbock Prof'l Firefighters v. City of Lubbock, 742 S.W.2d 413 (Tex. App.—Amarillo 1987, writ ref'd n.r.e.)*

Representative

A district cannot deny an employee's representative, including an attorney, the right to represent the employee at any stage of the grievance procedure, so long as the employee designates the representative and the representative does not claim the right to strike. *Lubbock Prof'l Firefighters v. City of Lubbock, 742 S.W.2d 413 (Tex. App.—Amarillo 1987, writ ref'd n.r.e.); Sayre v. Mullins, 681 S.W.2d 25 (Tex. 1984)*

A district should meet with employees or their designated representatives at reasonable times and places to hear grievances concerning wages, hours of work, and conditions of work. The right to present grievances is satisfied if employees have access to those in a position of authority to air their grievances. However, that authority is under no legal compulsion to take action to rectify the matter. *Atty. Gen. Op. H-422 (1974); Corpus Christi Indep. Sch. Dist. v. Padilla, 709 S.W.2d 700 (Tex. App.—Corpus Christi, 1986, no writ)*

1. A hearing under Education Code Chapter 21, Subchapter E (Term Contracts) or F (Hearing Examiners); and

2. Note any differences in the policy adopted by the district or school from the recommendations in the clearinghouse; and
3. Include a schedule of all training required for educators or other school personnel at the district or school.

To the extent of any conflict, a frequency requirement for the completion of training provided by statute prevails over a frequency requirement for that training included in the professional development policy.

Education Code 21.4515(a), (b)

Requirements for Training

In designing staff development for educators other than principals, a district must use procedures that, to the greatest extent possible, ensure the training included in the staff development:

1. Incorporates proactive instructional planning techniques using a framework that:
    a. Provides flexibility in the ways:
        (1) Information is presented;
        (2) Students respond or demonstrate knowledge and skills; and
        (3) Students are engaged;

d. Maintains high achievement expectations for all students, including students with disabilities and students of limited English proficiency; and

2. Integrates inclusive and evidence-based instructional practices for all students, including students with disabilities.

Staff development shall be predominantly campus-based, related to achieving campus performance objectives, and developed and approved by the campus-level committee.

A district may use district-wide staff development that has been developed and approved through the district-level decision process. [See BQA and BQB, as appropriate]

Education Code 21.451(a-2), (b), (c)

Optional Training

Staff development may include training in:

1. Eligible to participate in a school district's special education program under Education Code 29.003;
2. Covered by Section 504, Rehabilitation Act of 1973 (29 U.S.C. Section 794); or

Education Code 21.001(3-a)

Requirements

Staff development must include training that is evidence-based, as defined by Section 8101, Every Student Succeeds Act (20 USC 7801), and that:

1. Relates to the instruction of students with disabilities, including students with disabilities who also have other intellectual or mental health conditions; and
2. Is designed for educators who work primarily outside the area of special education.

A district is required to provide the training to an educator who works primarily outside the area of special education only if the educator does not possess the knowledge and skills necessary to implement the individualized education program developed for a student receiving instruction from the educator. A district may determine the time and place at which the training is delivered.

In developing or maintaining the training, a district must consult with persons with expertise in research-based practices for students with disabilities, including colleges, universities, private and nonprofit organizations, regional education service centers, qualified district personnel, and any other persons identified as qualified by the district, regardless of whether the training is provided at the campus or district level.

2. Recognize students displaying early warning signs and a possible need for early mental health or substance abuse intervention, which warning signs may include declining academic performance, depression, anxiety, isolation, unexplained changes in sleep or eating habits, and destructive behavior toward self and others;

3. Intervene effectively with students described above by providing notice and referral to a parent or guardian so appropriate action, such as seeking mental health or substance abuse services, may be taken by a parent or guardian; and

4. Assist students in returning to school following treatment of a mental health concern or suicide attempt.

A district shall provide training described in the components above for teachers, school counselors, principals, and all other appropriate personnel. A district is required to provide the training at an elementary school campus only to the extent that sufficient funding and programs are available. A school district may implement a program on TEA's list of recommended best practice-based programs [see FFEB] to satisfy this training requirement.

If a district provides the training, a district shall require completion in accordance with the district's professional development policy and maintain records that include district employees who participated in the training.

A district may satisfy a requirement to implement a program in the area of substance abuse prevention and intervention by providing instruction related to youth substance use and abuse education under Education Code 38.040. [See EHAC]

Policy Requirements

A school library collection development policy must:

1. Describe the purpose and collection development goals;
2. Designate the responsibility for collection development;
3. Establish procedures for the evaluation, selection, acquisition, reconsideration, and deselection of materials;
4. Consider the distinct age groups, grade levels, and possible access to materials by all students within a campus;
5. Include a process to determine and administer student access to material rated by library material vendors as "sexually relevant" as defined by Education Code 35.001 consistent with any policies adopted by the Texas Education Agency (TEA) and local school board requirements; *[This regulation is inoperable; see Book People, Inc. v. Wong, 91 F.4th 318 (5th Cir. 2024).]*

The determination must be consistent with the First Amendment to the U.S. Constitution. *Parent v. Lovejoy, No. 073-R10-08-2024 (Tex. Comm'r of Educ. April 29, 2025)*

A PDI to students with dyslexia and related disorders must be fully trained in the district's adopted instructional materials for students with dyslexia and is not required to hold a certificate or permit in special education issued under Education Code Chapter 21, Subchapter B unless the provider is employed in a special education position that requires the certification.

The completion of a literacy achievement academy under Education Code 21.4552 by an educator who participates in the evaluation or instruction of students with dyslexia and related disorders does not satisfy the requirements of this provision.

Education Code 29.0032

Reassessment

Unless otherwise provided by law, a student determined to have dyslexia during screening or testing or accommodated because of dyslexia may not be rescreened or retested for dyslexia for the purpose of reassessing the student's need for accommodations until the district reevaluates the information obtained from previous screening or testing of the student. *Education Code 38.003(b-1)*

Talking Book Program Notification

A district shall notify the parent of a student identified with dyslexia or a related disorder of the Talking Book Program administered by the Texas State Library and Archives Commission and other available audio book services. *Education Code 29.0031(e)*

Nondiscrimination

No qualified student with a disability shall, on the basis of disability, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any district service, program, or activity. *42 U.S.C. 12132; 29 U.S.C. 794(a); 34 C.F.R. 104.4(a)* [See also FB]

Free Appropriate Public Education (FAPE)

Eligible students with disabilities shall enjoy the right to a free appropriate public education, which may include instruction in the regular classroom, instruction through special teaching, or instruction through approved contracts. Instruction shall be supplemented by the provision of related services when appropriate. *Education Code 29.003(a)*

"Free appropriate public education" (FAPE) means special education and related services that:

1. Have been provided at public expense, under public supervision and direction, and without charge;
2. Meet standards set out by the Texas Education Agency (TEA);
3. Include an appropriate preschool, elementary school, or secondary school education; and
4. Are provided in conformity with the student's individualized education program (IEP).

Least Restrictive Environment

A district shall ensure that, to the maximum extent appropriate, children with disabilities, including children in public or private institutions or other care facilities, shall be educated with children who are not disabled. Special classes, separate schooling, or other removal of children with disabilities from the regular educational environment shall occur only when the nature or severity of the disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily. *20 U.S.C. 1412(a)(5); 34 C.F.R. 300.114(a)(2)*

Policies, Procedures, Programs, and Practices

A district must develop policies, procedures, programs, and practices that are consistent with the state's established policies, procedures, programs, and services to implement the Individuals with Disabilities Education Act (IDEA). *19 TAC 89.1075(b)*

Interventions and Sanctions

TEA has established a system of interventions and sanctions in accordance with IDEA; Education Code 29.010; Chapter 39; and Chapter 39A, that include, but are not limited to, the following:

1. Onsite review for failure to meet program or compliance requirements;
2. Required program or compliance audits, paid for by the district;
3. Required submission of corrective actions, including, but not limited to, compensatory services, paid for by the district;
4. Required technical assistance and support, paid for by the district;
5. Public release of program or compliance review or audit findings;
6. Special investigation and/or follow-up verification visits;
7. Required public hearing conducted by the local school board;
8. Assignment of a monitor, conservator, or management team, as these terms are defined in Education Code Chapter 39A [see AIC], paid for by the district;
9. Hearing before the commissioner of education or designee;
10. Placing specific conditions on grant funds, reduction in payment, required redirection of funds, or withholding of funds;
11. Lowering of the special education monitoring/compliance status and/or the accreditation rating of the district; and/or
12. Other authorized interventions and sanctions as determined by the commissioner.

19 TAC 89.1076

TEA may require a district to obtain specialized technical assistance for a documented noncompliance issue or if data indicates that technical assistance is needed, such as an incident involving injury to staff or students by a student receiving special education services or data indicating an excessive number of restraints are used on students receiving special education services. *Education Code 29.010(a-1)*

Instructional Arrangements and Settings

Instructional arrangements/settings shall be based on the individual needs and IEPs of eligible students receiving special education services and shall include the following.

Mainstream

The mainstream instructional arrangement/setting is for providing special education and related services to a student in the general education classroom in accordance with the student's IEP. Qualified special education personnel must be involved in the implementation of the student's IEP through the provision of direct, indirect, and/or support services to the student and/or the student's general education classroom teacher(s) necessary to enrich the general education classroom and enable student success. The student's IEP must specify the services that will be provided by qualified special education personnel to enable the student to appropriately progress in the general education curriculum and/or appropriately advance in achieving the goals set out in the student's IEP.

Examples of services provided in this instructional arrangement include, but are not limited to, direct instruction, helping teacher, team teaching, co-teaching, interpreter, educational aides, curricular or instructional modifications/accommodations, special materials/equipment, positive classroom behavioral interventions and supports, consultation with the student and his/her general education classroom teacher(s) regarding the student's progress in general education classes, staff development, and reduction of ratio of students to instructional staff. Monitoring student progress in and of itself is not a special education service; this cannot be listed as the only specially designed instruction documented in a student's IEP.

Homebound

The homebound instructional arrangement/setting, also referred to as home-based instruction, is for providing special education and related services to students who are served at home or hospital bedside.

Medical Reasons

Homebound instruction is used for a student whose admission, review, and dismissal (ARD) committee has received medical documentation from a physician licensed to practice in the United States that the student is expected to incur full-day absences from school for a minimum of four weeks for medical reasons, which could include psychological disorders, and the ARD committee has determined that this is the most appropriate placement for the student. The weeks do not have to be consecutive. For the ARD committee to approve this placement, the committee will review documentation related to anticipated periods of student confinement to the home, as well as whether the student is determined to be chronically ill or any other unique medical circumstances that would require this placement in order to provide FAPE to the student. Documentation by a physician does not guarantee the place-

	ment of a student in this instructional arrangement/setting, as the student's ARD committee shall determine whether the placement is necessary for the provision of FAPE, and, if so, will determine the amount of services to be provided to the student at home in this instructional arrangement/setting in accordance with federal and state laws, rules, and regulations.
Children Ages 3-5	Home-based instruction may be used for children ages three through five when determined appropriate by the child's ARD committee and as documented in the student's IEP. While this setting would generate the same weight as the homebound instructional arrangement/setting, the data on this setting may be collected differently than the medical homebound arrangement/setting.
Hospital Class	The hospital class instructional arrangement/setting is for providing special education and related services by school personnel in a hospital or other medical facility, or at a residential care and treatment facility not operated by the district. If a student residing in the facility is provided special education and related services at a district campus and the parent, including a surrogate parent, is a district resident, the student's instructional arrangement/setting would be assigned based on the services that are provided at the campus on the same basis as a resident student residing with his or her parents.
Speech Therapy	The speech therapy instructional arrangement/setting is for providing speech therapy services whether in a general education classroom or in a setting other than a general education classroom. When the only special education service provided to a student is speech therapy, then this instructional arrangement may not be combined with any other instructional arrangement. If a student's IEP indicates that a special education teacher is involved in the implementation of the student's IEP but there is no indication of how that teacher provides a special education service, the student is in the speech therapy instructional arrangement/setting. When a student receives speech therapy and a related service but no other special education service, the student is in the speech therapy instructional arrangement/setting.
Resource Room/Services	The resource room/services instructional arrangement/setting is for providing special education and related services to a student in a setting other than general education for less than 50 percent of the regular school day. For funding purposes, this will be differentiated between the provision of special education and related services to a student in a setting other than general education for less than 21 percent of the instructional day and special education and related services provided to a student in a setting other than general edu-

cation for at least 21 percent of the instructional day but less than 50 percent of the instructional day.

Self-Contained (Mild, Moderate, or Severe) Regular Campus

The self-contained (mild, moderate, or severe) regular campus instructional arrangement/setting is for providing special education and related services to a student who is in a setting other than general education for 50 percent or more of the regular school day on a regular school campus. For funding purposes, mild/moderate will be considered at least 50 percent but no more than 60 percent of the student's instructional day, and severe will be considered more than 60 percent of the student's instructional day.

Off-Home Campus

The off-home campus instructional arrangement/setting is for providing special education and related services to the following:

1. A student at South Texas Independent School District or Windham School District;
2. A student who is one of a group of students from one or more districts served in a single location in another district when a FAPE is not available in the sending district;
3. A student in a community setting, facility, or environment operated by a district that prepares the student for postsecondary education/training, competitive integrated employment, and/or independent living in coordination with the student's individual transition goals and objectives;
4. A student in a community setting or environment not operated by a district that prepares the student for postsecondary education/training, competitive integrated employment, and/or independent living in coordination with the student's individual transition goals, with regularly scheduled instruction or direct involvement provided by district personnel;
5. A student in a facility not operated by a district with instruction provided by district personnel; or
6. A student in a self-contained program at a separate campus operated by the district that provides only special education and related services.

Nonpublic Day School

The nonpublic day school instructional arrangement/setting is for providing special education and related services to students through a contractual agreement with a nonpublic school for special education when the district is unable to provide FAPE for the student. This instructional arrangement/setting includes the providers listed in 19 Administrative Code 89.1094 [see Off-Camps Program, below].

© 2025 Texas Association of School Boards, Inc. All rights reserved. Permission granted to TASB Policy Service subscribers to reproduce for internal use only.

Vocational Adjustment Class/Program	Although referred to as a class, the vocational adjustment class/program instructional arrangement/setting is a support program for providing special education and related services to a student who is placed on a job (paid or unpaid unless otherwise prohibited by law) with regularly scheduled direct involvement by special education personnel in the implementation of the student's IEP. This instructional arrangement/setting shall be used in conjunction with the student's transition plan, as documented in the student's IEP, and may include special education services received in career and technical education work-based learning programs.
Residential Care and Treatment Facility (Not District Resident)	The residential care and treatment facility (not district resident) instructional arrangement/setting refers to a facility at which a student with a disability currently resides, who was not placed at the facility by the student's ARD committee, and whose parent or guardian does not reside in the district providing educational services to the student. This instructional arrangement/setting is for providing special education and related services to a student on a district campus who resides in a residential care and treatment facility and whose parents do not reside within the boundaries of the district that is providing educational services to the student. If the instruction is provided at the facility, rather than on a district campus, the instructional arrangement is considered to be the hospital class arrangement/setting rather than this instructional arrangement, or if the student resides at a state-supported living center, the instructional arrangement will be considered the state school arrangement/setting. Students with disabilities who reside in these facilities may be included in the average daily attendance of the district in the same way as all other students receiving special education.
State-Supported Living Center	The state-supported living center instructional arrangement/setting is for providing special education and related services to a student who resides at a state-supported living center when the services are provided at the state-supported living center location. If services are provided on a local district campus, the student is considered to be served in the residential care and treatment facility arrangement/setting.
	19 TAC 89.1005(e)
Other Program Options	While the above provision uses the names of the instructional arrangements/settings as they are described in Education Code 48.102, there may be additional instructional arrangement/setting codes that are created by TEA.

Other program options that may be considered for the delivery of special education and related services to a student may include contracts with other districts and other programs approved by TEA.

19 TAC 89.1005(d), (h)

Contracts for Services

A district that contracts for services from nonpublic day schools or residential placements must do so in accordance with 34 C.F.R. 300.147, and 19 Administrative Code 89.1092 and 89.1094. *19 TAC 89.1075(g)*

Instructional Day

Students with disabilities must have available an instructional day commensurate with that of students without disabilities. The ARD committee must determine the appropriate instructional setting and length of day for each student, and these must be specified in the student's IEP. *19 TAC 89.1075(f)*

A student's ARD committee shall determine the student's instructional arrangement/setting based on the percentage of the student's instructional day that the student receives special education and related services in a setting other than general education. *19 TAC 89.1005(c)*

Related Services

"Related services" means transportation, and such developmental, corrective, and other supportive services as may be required to assist a child with a disability to benefit from special education, including the early identification and assessment of disabling conditions in children.

The term includes speech-language pathology and audiology services, interpreting services, psychological services, physical and occupational therapy, recreation, including therapeutic recreation, social work services, school nurse services designed to enable a child with a disability to receive FAPE as described in the child's IEP, counseling services, including rehabilitation counseling, orientation and mobility services, and medical services, except that medical services shall be for diagnostic and evaluation purposes only.

The term does not include a medical device that is surgically implanted, the optimization of the device's functioning, or the replacement of such device.

20 U.S.C. 1401(26); 34 C.F.R. 300.34

Extended School Year Services

Extended school year (ESY) services are defined as individualized instructional programs beyond the regular school year for eligible students with disabilities. A district shall ensure that ESY services are available as necessary to provide a student with a disability with FAPE.

© 2025 Texas Association of School Boards, Inc. All rights reserved. Permission granted to TASB Policy Service subscribers to reproduce for internal use only.

ESY services must be provided only if the ARD committee determines, on an individual basis, that the services are necessary for FAPE. A district may not limit ESY services to particular categories of disability or unilaterally limit the type, amount, or duration of ESY services.

ESY shall be provided in accordance with 19 Administrative Code 89.1065.

34 C.F.R. 300.106(a); 19 TAC 89.1065(a)

Off-Campus Program

An off-campus program includes special education and related services provided during school hours in a facility other than a school district campus.

Program Provider

An off-campus program provider is an entity that provides the services identified above and includes:

1. A county system operating under application of former law as provided in Education Code 11.301;
2. A regional education service center established under Education Code, Chapter 8;
3. A nonpublic day school; or
4. Any other public or private entity with which a school district enters into a contract under Education Code 11.157(a), for the provision of special education services in a facility other than a district campus operated by a district.

19 TAC 89.1094(a)(2)-(3)

Program Placement

A district may contract with an off-campus program provider to provide some or all of the special education and related services to a student in accordance with the requirements in 19 Administrative Code 89.1094.

Before the district places a student with a disability in, or refers a student to, an off-campus program, the district shall initiate and conduct:

1. An onsite review to ensure that the off-campus program is appropriate for meeting the student's educational needs; and
2. A meeting of the student's ARD committee to develop an IEP for the student in accordance with 34 C.F.R. 300.320-.325, state statutes, and commissioner of education rules in 19 Administrative Code Chapter 89 (Commissioner's Rules Concerning Special Education Services).

© 2025 Texas Association of School Boards, Inc. All rights reserved. Permission granted to TASB Policy Service subscribers to reproduce for internal use only.

The appropriateness of the off-campus program for each student placed shall be documented in the IEP annually. The student's ARD committee may only recommend an off-campus program placement for a student if the committee determines that the nature and severity of the student's disability and special education needs are such that the student cannot be satisfactorily educated in the district. The district must follow the requirements of 19 Administrative Code 89.1094(b)(3)(A)-(C), regarding the review of the placement of the off-campus program for each student.

The placement of more than one student in the same off-campus program facility may be considered in the same on-site visit to a facility. However, the IEP of each student must be individually reviewed, and a determination of appropriateness of placement and services must be made for each student.

19 TAC 89.1094(b)

Notification and Review

Within 30 calendar days from an ARD committee's decision to place or continue the placement of a student in an off-campus program, a district must electronically submit to TEA notice of, and information regarding, the placement in accordance with submission procedures specified by TEA.

If the off-campus program is on the commissioner's list of approved off-campus programs, TEA will review the student's IEP and placement as required by 34 C.F.R. 300.120, and, in the case of a placement in or referral to a private school or facility, 34 C.F.R. 300.146. After review, TEA will notify the district whether federal or state funds for the off-campus program placement are approved. If TEA does not approve the use of funds, it will notify the district of the basis for the non-approval.

If the off-campus program is not on the commissioner's list of approved off-campus programs, TEA will begin the approval procedures described below. Districts must ensure there is no delay in implementing a child's IEP in accordance with 34 C.F.R. 300.103(c).

If an off-campus program placement is ordered by a special education hearing officer or court of competent jurisdiction, the district must notify TEA of the order within 30 calendar days. The off-campus program serving the student is not required to go through the approval procedures described in 19 Administrative Code 89.1094 for the ordered placement. If, however, the district or other districts intend to place other students in the off-campus program, the off-campus program will be required to go through the approval proce-

	dures to be included on the commissioner's list of approved off-campus programs. *19 TAC 89.1094(c)*
Approval	Off-campus programs must have their educational programs approved for contracting purposes by the commissioner in accordance with 19 Administrative Code 89.1094(d).
Funding Procedures	The cost of off-campus program placements will be funded according to Education Code 48.102 and 19 Administrative Code 89.1005(e).
Contracts	Contracts between districts and approved off-campus programs must not exceed a district's fiscal year and shall not begin prior to July 1 of the contracted fiscal year. Amendments to a contract must be electronically submitted to TEA in accordance with submission procedures specified by TEA no later than 30 calendar days from the change in placement or services within the school district's fiscal year. *19 TAC 89.1094(e)(1)-(2)*
Change of Residence	If a student who is placed in an off-campus program by a district changes his or her residence to another Texas district during the school year, the district must notify TEA within 10 calendar days of the date on which the district ceased contracting with the off-campus program for the student's placement. The student's new district must meet the requirements of 34 C.F.R. 300.323(e), by providing comparable services to those described in the student's IEP from the previous district until the new district either adopts the student's IEP from the previous district or develops, adopts, and implements a new IEP. The new district must comply with all procedures described in 19 Administrative Code 89.1094 for continued or new off-campus program placement. *19 TAC 89.1094(e)(3)*

Identification

Child Find

A district shall ensure that all children residing within the district who have disabilities, regardless of the severity of their disabilities, and who are in need of special education and related services are identified, located, and evaluated. This requirement applies to:

1. Homeless children;
2. Children who are wards of the state;
3. Children attending private schools;
4. Highly mobile children (including migrant children); and
5. Children who are suspected of being in need of special education but who are advancing from grade to grade.

20 U.S.C. 1412(a)(3)(A); 34 C.F.R. 300.111(a)(1)(i), (c)

Private School Students

A district shall conduct a timely and meaningful consultation with private school representatives regarding the child find process and the provision of special education and related services to children enrolled in private schools in the district.

A district shall undertake activities similar to those undertaken for public school children and shall complete the child find process for children enrolled in private schools in a time period comparable to that for other students attending public schools in the district.

20 U.S.C. 1412(a)(10)(A)(ii)-(iv) [See EHBAC regarding students in nondistrict placement.]

Preschool Students

A district shall develop a system to notify district residents with children who are at least three and younger than six and who are eligible for enrollment in a special education program of the availability of the program. *Education Code 29.009*

Students Not Enrolled in District

The parent of a child who is not enrolled in a school district may request that a school district conduct a Full and Individual Initial Evaluation (FIIE) for the child for purposes of determining the child's eligibility for special education services and participation in the program as a child with a disability. A school district that receives such a request shall follow procedures, including for timely completion, for a FIIE in accordance with federal law and Education Code 29.004 not later than the 45th school day after the date the district receives parental consent to conduct the evaluation. [See Initial Evaluation Required, below]

If a school district determines based on an evaluation that a child is eligible for special education services, the district shall develop an individualized education program (IEP) for the child for purposes of

establishing the child's eligibility to participate in the program as a child with a disability.

At the request of the Texas Education Agency (TEA), the district shall provide TEA with a copy of the child's IEP.

Education Code 29.3615(a)-(d)

Requests and Referrals for Evaluation

The screening of a student by a teacher or specialist to determine appropriate instructional strategies for curriculum implementation shall not be considered to be an evaluation for eligibility for special education and related services. *20 U.S.C. 1414(a)(1)(E)*

Multi-tiered System

Referral of students for a FIIE must be a part of the district's multi-tiered system of academic and behavioral supports. Students not making progress in the general education classroom should be considered for all interventions and support services available to all students; such as tutorial, compensatory, response to evidence-based intervention, and other academic or behavior support services.

The district cannot require a student to participate in interventions and support services for any specific length of time prior to a referral being made or an FIIE being conducted.

District Obligation to Refer

If the student continues to experience difficulty in the general education classroom with the provision of interventions and support services or at any time district personnel suspect a disability and a possible need for special education and related services, district personnel must refer the student for an FIIE.

A referral or request for an FIIE may be initiated at any time by school personnel, the student's parents or legal guardian, or another person involved in the education or care of the student. While an FIIE is being conducted, a student must continue to receive any necessary interventions and support services to target their academic or behavioral needs.

Prior Written Notice

Parent

If a parent submits a written request to a district's director of special education services or to a district administrative employee, such as a campus principal, for a FIIE of a student, the district shall, not later than the 15th school day after the date the district receives the request:

1. Provide the parent with prior written notice of its proposal to conduct an evaluation consistent with 34 C.F.R. 300.503, a copy of the procedural safeguards notice required by 34 C.F.R. 300.504, a copy of the Overview of Special Education

2. Provide the parent with prior written notice of its refusal to conduct an evaluation consistent with 34 C.F.R. 300.503, a copy of the Overview of Special Education for Parents form created by TEA, and a copy of the procedural safeguards notice required by 34 C.F.R. 300.504.

District

When a district initiates the referral for an FIIE of a student, the district must provide the parent with the information and materials described at item 1 above.

19 TAC 89.1011(b)-(c); Education Code 29.004(c); 20 U.S.C. 1414(a)(1); 34 C.F.R. 300.301

Notice of Rights

A reasonable time before a district proposes or refuses to initiate the identification, evaluation, or educational placement of a student or the provision of a free appropriate public education (FAPE) to a student, the district shall provide written notice to the student's parent or guardian. *20 U.S.C. 1415(b)(3); 34 C.F.R. 300.503(a)* [See EHBAE]

Initial Evaluation Required

A district shall conduct an FIIE before the initial provision of special education and related services. *20 U.S.C. 1414(a)(1)(A)*

Consent for Initial Evaluation

Before a district conducts an initial evaluation, it shall make reasonable efforts to obtain informed parental consent.

If the parent does not provide consent for an initial evaluation, or if the parent fails to respond to a request to provide consent, a district may, but is not required to, pursue the initial evaluation by utilizing due process procedures [see EHBAE], except to the extent inconsistent with state law relating to such parental consent.

Parental consent to initial evaluation shall not be construed as consent for placement for special education and related services.

20 U.S.C. 1414(a)(1)(D)(i)(I); 34 C.F.R. 300.300(b)

Wards of the State

If the child is a ward of the state and is not residing with the child's parent, a district shall make reasonable efforts to obtain the informed consent from the parent for an initial evaluation, unless:

1. Despite reasonable efforts to do so, the district cannot discover the whereabouts of the parent;

2. The rights of the parent have been terminated; or

3. The rights of the parent to make educational decisions have been subrogated and an individual appointed by a judge to

represent the student has given consent for an initial evaluation.

20 U.S.C. 1414(a)(1)(D)(iii); 34 C.F.R. 300.300(a)(2)

Time Frame for Completion of Written Report

A district must complete the written report of a full individual and initial evaluation:

1. Not later than the 45th school day following the date on which the district receives written consent for the evaluation from the student's parent. If a student has been absent from school during that period on three or more school days, the period must be extended by a number of school days equal to the number of school days during that period on which the student has been absent; or

2. For students under five years of age by September 1 of the school year and not enrolled in public school and for students enrolled in a private or homeschool setting, not later than the 45th school day following the date on which the district receives written consent for the evaluation from the student's parent.

If a district receives written consent for the evaluation from the student's parent at least 35 but less than 45 school days before the last instructional day of the school year, the written report of a FIIE of a student must be provided to the student's parent not later than June 30 of that year.

If a district receives written consent for the evaluation from the student's parent at least 35 but less than 45 school days before the last instructional day of the school year but the student was absent three or more school days between the time that the school district received written consent and the last instructional day of the school year, the timeline in item 1 above applies to the date the written report of the FIIE must be completed.

If the district received the written consent for the evaluation from the student's parent less than 35 school days before the last day of the school year, the timeline in item 1, above, applies to the date the written report of the FIIE must be completed.

19 TAC 89.1011(d)-(e)

For purposes of the timelines under this provision, "school day" does not include a day that falls after the last instructional day of the spring school term and before the first instructional day of the subsequent fall school term. Transfer Students

A district shall ensure that evaluations of children who transfer from one district to another in the same academic year are coordinated with the children's prior and subsequent schools, as necessary and as expeditiously as possible, to ensure prompt completion of evaluations. *34 C.F.R. 300.304(c)(5)*

If a student was in the process of being evaluated for special education eligibility by a district and enrolls in another district before the previous district completed the FIIE, the new district must coordinate with the previous district as necessary and as expeditiously as possible to ensure a prompt completion of the evaluation in accordance with 34 C.F.R., 300.301(d)(2) and (e) and 300.304(c)(5).

The timelines above do not apply in such a situation if:

1. The new school district is making sufficient progress to ensure a prompt completion of the evaluation; and
2. The parent and the new school district agree to a specific time when the evaluation will be completed.

Eligibility and Reevaluations

A student is eligible to participate in a district's special education program:

1. From birth through 21 years of age if the student has a visual impairment, is deaf or hard of hearing, or is deaf-blind and that disability prevents the student from being adequately or safely educated in public school without the provision of special education services;

2. From age 3 through age 9 if the student is experiencing developmental delays as described by federal law and defined by commissioner rule; or

3. From age 3 through 21 if the student has one or more of the disabilities described by 20 U.S.C. 1401(3)(A) and that disability prevents the student from being adequately or safely educated in public school without the provision of special education services.

Education Code 29.003(b)

Disability Definitions

To be eligible to receive special education services, a student must be a "child with a disability," as defined in 34 C.F.R. 300.8(a), subject to the provisions of 34 C.F.R. 300.8(c), Education Code Subchapter A, and 19 Administrative Code 89.1040. The provisions in 19 Administrative Code 89.1040 specify criteria to be used in determining whether a student's condition meets one or more of the definitions in federal regulations or in state law. *19 TAC 89.1040(a)*

Birth Through Age Two

Children from birth through the age of two with visual impairments (VI), who are deaf or hard of hearing (DHH), or who are deaf-blind (DB) must be enrolled at the parent's request by a district when the district becomes aware of a child needing services. The appropriate instructional arrangement [see EHBA] for students from birth through the age of two with VI, DHH, or DB shall be determined in accordance with the individualized family services plan, current attendance guidelines, and the agreement memorandum between

Determination of Initial Eligibility

Upon completion of the administration of assessments and other evaluation measures, a team of qualified professionals and the parent shall make the determination of whether the child has a disability and of the educational needs of the child.

A district shall provide a copy of the evaluation report and the documentation of determination of eligibility at no cost to the parent.

20 U.S.C. 1414(b)(4); 34 C.F.R. 300.306(a)

The admission, review, and dismissal (ARD) [see EHBAB] committee must make its decisions regarding a student's initial eligibility determination and, if appropriate, IEP and placement within 30 calendar days from the date of the completion of the written FIIE report. If the 30th day falls during the summer and school is not in session, the ARD committee must meet not later than the 15th school day of the following school year to finalize decisions concerning the student's initial eligibility determination, and, if appropriate, IEP and placement. If the 30th day falls during the summer and school is not in session but an FIIE report indicates that the student would need extended school year services during that summer, the ARD committee must meet as expeditiously as possible after completion of the report.

Parent Copy

A copy of the written FIIE report must be provided to the parent as soon as possible after completion of the report but no later than five school days prior to the initial ARD committee meeting, which will determine a student's initial eligibility, or not later than June 30 if the district received the written consent for the evaluation from the student's parent at least 35 but less than 45 school days before the last instructional day of the school year.

Consent for Services

Initial Provision of Services

A district must obtain informed consent from the parent for the initial provision of special education and related services. If the parent of a child fails to respond to a request for, or refuses to consent to, the initial provision of services, the district:

1. May not use the procedures in 34 C.F.R. part 300 subpart E (including the mediation and due process procedures) in order to obtain agreement or a ruling that the services may be provided to the child;

2. Will not be considered to be in violation of the requirement to make FAPE available to the child for the failure to provide the services for which the district requests consent; and

3. Is not required to convene an ARD meeting or develop an IEP for the child for the services.

Revoking Consent

If, at any time after the provision of initial services, the parent of a child revokes consent in writing for the continued provision of services, the district:

1. May not continue to provide services to the child, but must provide prior written notice before ceasing services;

2. May not use the procedures in 34 C.F.R. part 300 subpart E in order to obtain agreement or a ruling that the services may be provided to the child;

3. Will not be considered to be in violation of the requirement to make FAPE available to the child because of the failure to provide the child with further services; and

4. Is not required to convene an ARD meeting or develop an IEP for further provision of services.

34 C.F.R. 300.300(b)

Reevaluations

A district shall ensure that each child with a disability is reevaluated if the district determines that the educational or related services needs of the child, including improved academic achievement and functional performance, warrant a reevaluation, or if the child's parent or teacher requests a reevaluation.

Reevaluation shall occur:

1. No more than once a year, unless the parent and the district agree otherwise; and

2. At least once every three years, unless the parent and district agree that a reevaluation is unnecessary.

A district shall obtain informed parental consent before conducting a reevaluation, except that informed parental consent is not needed if the district can demonstrate that it has taken reasonable measures to obtain consent and the child's parent has failed to respond.

Evaluation for Change in Eligibility

A district must evaluate a child with a disability before determining that the child is no longer a child with a disability. However, an evaluation is not required before the termination of eligibility due to

graduation from secondary school with a regular diploma or due to exceeding the age eligibility for FAPE under state law. If a child's eligibility terminates under the aforementioned circumstances, a district must provide a summary of academic achievement and functional performance, which shall include recommendations on how to assist the child in meeting the child's postsecondary goals. *34 C.F.R. 300.305(e); 20 U.S.C. 1414(c)(5)*

[See EIF(LEGAL) at Summary of Academic Achievement and Evaluation.]

Independent Evaluation

The parents have a right to obtain an independent educational evaluation of their child. If a parent requests an independent evaluation, a district shall provide the parents with information regarding where one can be obtained and the district's criteria for independent evaluations.

The results of a parent-initiated independent educational evaluation, whether at public or private expense, must be considered by the district if it meets the district's criteria, in any decision made with respect to providing FAPE to the child.

At Public Expense

If a parent requests an independent evaluation at public expense, the district shall, without unnecessary delay, either:

1. File a due process complaint to request a hearing to show that its evaluation is appropriate; or
2. Ensure that an independent evaluation is provided at public expense, unless the district demonstrates that the evaluation obtained by the parent did not meet district criteria.

At Private Expense

If a district initiates a hearing, and the final decision is that the district's evaluation is appropriate, the parent still has a right to an independent evaluation, but not at public expense.

34 C.F.R. 300.502

Prescription Medication

An employee of a district is prohibited from requiring a child to obtain a prescription for a substance covered under the federal Controlled Substances Act (21 U.S.C. 801 et seq.) as a condition of attending school, receiving an evaluation for special education, or receiving special education and related services.

Observations

An employee is not prohibited from consulting or sharing classroom-based observations with parents regarding a student's academic and functional performance, behavior in the classroom or school, or the need for evaluation for special education or related services.

If an ARD committee is required to include a general education teacher, the general education teacher must, to the extent practicable, be a teacher who is responsible for implementing a portion of the child's IEP. *Education Code 29.005(a)*

Parent Participation

A district must take steps to ensure that one or both parents are present at each ARD committee meeting or are afforded an opportunity to participate, including:

1. Notifying the parents of the meeting early enough to ensure that they will have an opportunity to attend; and
2. Scheduling the meeting at a mutually agreed on time and place.

Parent Notice

The district must provide the parents with written notice of the ARD committee meeting at least five school days before the meeting unless the parents agree to a shorter timeframe.

The notice must:

1. Indicate the purpose, time, and location of the meeting and who will be in attendance; and
2. Inform the parents of the provisions in 34 C.F.R. 300.321(a)(6) and (c) (relating to the participation of other individuals on the IEP team who have knowledge or special expertise about the child), and 300.321(f) (relating to the participation of the Part C service coordinator or other representatives of the Part C system at the initial IEP team meeting for a child previously served under Part C).

Students New to a District

In-State Transfers

When a student transfers to a new district within the state in the same school year and the parents or previous district verifies that the student had an IEP that was in effect in the previous district , the new district must meet the requirements of 34 C.F.R. 300.323(e) by either adopting the student's IEP from the previous district or developing, adopting, and implementing a new IEP. The timeline for adopting the previous IEP or developing, adopting, and implementing a new IEP is 20 school days from the date the student is verified as being a student eligible for special education services.

Transfers from Another State

When a student transfers from a district in another state in the same school year and the parents or previous district verifies that the student had an IEP that was in effect in the previous district, the new district must, if determined necessary, conduct a full individual and initial evaluation and make an eligibility determination and, if appropriate, develop, adopt, and implement a new IEP, within the timelines established in 19 Administrative Code 89.1011 (relating to Full and Individual Initial Evaluation) [see EHBAA]. If the district determines that an evaluation is not necessary, the timeline for the new district to develop, adopt, and implement a new IEP is 20 school days from the date the student is verified as being a student eligible for special education services.

Transfer During the Summer

The above provisions regarding transfer apply to students who register in a new district in the state during the summer when students are not in attendance for instructional purposes, based on whether the students are coming from an in-state or out-of-state district.

Records

In accordance with 34 C.F.R. 300.323(g), the new district must take reasonable steps to promptly obtain the student's records from the previous district, and the previous district must furnish the new district with a copy of the student's records, including the student's special education records, not later than the 10th working day after the date a request for the information is received by the previous district.

Verification

For the purposes of these provisions, "verify" means that the new district has received a copy of the student's IEP that was in effect in the previous district. The first school day after the new district receives a copy of the student's IEP that was in effect in the previous district begins the timelines associated with 19 Administrative Code 89.1055(s)(1)-(2), above.

If a parent hasn't already provided verification of eligibility and the new district has been unable to obtain the necessary verification records from the previous district by the 15th working day after the date a request for the records was submitted by the new district to the previous district, the new district must seek verification from the student's parent. If the parent provides verification, the new district must comply with all these provisions. The new district is encouraged to ask the parent to provide verification of eligibility before the 15th working day after the date a request for the records was submitted by the new district to the previous district. If the parent is unwilling or unable to provide such verification, the new district must continue to take reasonable steps to obtain the student's records from the previous district and provide any services comparable to what the student received at the previous district if they communicate those to the new district.

Services Before Verification

While the new district waits for verification, the new school district must take reasonable steps to provide, in consultation with the student's parents, services comparable to those the student received from the previous district if the new district has been informed by the previous district of the student's special education and related services and placement.

Comparable Services

Once the new district receives verification that the student had an IEP in effect at the previous district, comparable services must be provided to a student during the timelines established under 19 Administrative Code 89.1055(s)(1)-(2), above.

Comparable services include provision of extended school year (ESY) services if those services are identified in the previous IEP or if the new district has reason to believe that the student would be eligible for ESY services.

19 TAC 89.1055(s)(3)-(8)

Students Who Are Homeless or in Substitute Care

When a student who is homeless or in substitute care transfers into a district after being referred by a previous district for a special education evaluation, the receiving district must accept the referral and ensure that any written report of a full individual and initial evaluation is completed in accordance with the timelines established in 19 Administrative Code 89.1011 (relating to Full and Individual Initial Evaluation).

When a student who is homeless or in substitute care is eligible for special education and transfers into a new district during the school year, the receiving district must ensure that it meets the student transfer requirements of 19 Administrative Code 89.1050(j) (relating to the Admission, Review, and Dismissal Committee).

The term “individualized education program” means a written statement for each student with a disability that documents the decisions of the ARD committee with respect to issues discussed at each committee meeting and includes:

1. A statement of the student’s present levels of academic achievement and functional performance;
2. A statement of measurable annual goals, including academic and functional goals;
3. A description of how the student’s progress toward the annual goals will be measured and when periodic reports on the progress of the student will be provided;

Content of the IEP

Goals

To be considered a measurable annual goal under 34 C.F.R. 300.320(a)(2), a goal must include the components of a timeframe, condition, behavior, and criterion. While at least one measurable annual goal is required, the number of annual goals will be determined by the ARD committee after examination of the student's present levels of academic achievement and functional performance and areas of need.

Annual goals are also required in the following circumstances:

1. When the content of a subject/course is modified, whether the content is taught in a general or special education setting, in order to address how the content is modified; and

2. When a student is removed from the general education setting for a scheduled period of time but the content of the subject/course is not modified (e.g., a student who is progressing on enrolled grade level curriculum but requires a more restrictive environment for a period of time due to behavioral concerns).

Benchmarks

Short-term objectives/benchmarks, used as intermediary steps or milestones toward accomplishing an annual goal, may be included in a measurable annual goal. Short-term objectives/benchmarks:

1. Must be included in an annual goal if the ARD committee has determined that a student will not participate in the general state assessment; and

2. Regardless of whether the objectives/benchmarks are related to a student not participating in the general state assessment, cannot be used as the criterion to indicate mastery of the annual goal.

Assessments

The IEP must include a statement of any individual appropriate and allowable accommodations in the administration of state assessment instruments [see EKB], or districtwide assessments of student achievement (if the district administers such optional assessments) that are necessary to measure the academic achievement and functional performance of the student on the assessments.

© 2025 Texas Association of School Boards, Inc. All rights reserved. Permission granted to TASB Policy Service subscribers to reproduce for internal use only.

If the ARD committee determines that the student will not participate in a general statewide or districtwide assessment of student achievement (or part of an assessment), the following requirements must be met.

1. The IEP must include a statement explaining:
    a. Why the student cannot participate in the general assessment; and
    b. Why the particular alternate assessment selected is appropriate for the student, and
2. TEA's alternate assessment participation requirements form, if one is made available to districts, must be included in the student's IEP to document the statement required under this provision.

Extended School Year

If the ARD committee determines that the student is in need of ESY services, as described in 19 Administrative Code 89.1065 [see EHBA], then the IEP must identify which of the goals and objectives in the IEP will be addressed during ESY services.

19 TAC 89.1055(b)-(e)

Parent-Directed Services for Students Receiving Special Education

Unless the district first verifies that an account has been assigned under Education Code 29.045, the ARD committee of a student approved for participation in the supplemental services or a supplemental instructional materials program shall provide to the student's parent at an ARD committee meeting for the student:

1. Information regarding the types of supplemental services or supplemental instructional materials available under the program and provided by agency-approved providers for which an account maintained under Education Code 29.042(b) for the student may be used; and
2. Instructions regarding accessing the account.

Education Code 29.048

A district shall notify families of their eligibility for the program and, unless the district has verified that a parent has already received or applied for a program grant, shall provide the following at the student's ARD committee meeting: instructions and resources on accessing the online accounts, including the application window established by TEA, and information about the types of goods and services that are available through the program grant.

A student's ARD committee may not consider a student's current or anticipated eligibility for any materials or services that may be

provided under these provisions when developing or revising a student's IEP, when determining a student's educational setting, or in the provision of a free appropriate public education.

19 TAC 102.1601(j)-(k)

Behavioral Intervention Plan

The ARD committee may determine that a behavior improvement plan or a behavioral intervention plan is appropriate for a student for whom the committee has developed an IEP. *Education Code 29.005(g)*

If the committee makes that determination, the behavior improvement plan or behavioral intervention plan shall be included as part of the student's IEP and provided to each teacher with responsibility for educating the student.

If a behavior improvement plan or a behavioral intervention plan is included as part of a student's IEP, the ARD committee shall review the plan at least annually, and more frequently if appropriate, to address:

1. Changes in a student's circumstances that may impact the student's behavior, such as:
    a. The placement of the student in a different educational setting;
    b. An increase or persistence in disciplinary actions taken regarding the student for similar types of behavioral incidents;
    c. A pattern of unexcused absences; or
    d. An unauthorized, unsupervised departure from an educational setting; or
2. The safety of the student or others.

19 TAC 89.1055(j); Education Code 29.005(h)

Translation of IEP into Primary Language

If the primary language of the child's parent is a language other than English, a district shall provide a written or audiotaped copy of the student's IEP translated into Spanish. If the parent's native language is other than Spanish or English, a district shall make a good faith effort to provide a written or audiotaped copy of the student's IEP translated into the parent's primary language. *Education Code 29.005(d)*

A written copy of the student's IEP translated into Spanish or the parent's native language means that all of the text in the student's IEP in English is accurately translated into the target language in written form. The IEP translated into the target language must be a

comparable rendition of the IEP in English and not a partial translation or summary of the IEP in English.

An audio recording of the student's IEP translated into Spanish or the parent's native language means that all of the content in the student's IEP in English is orally translated into the target language and recorded with an audio device. A district is not prohibited from providing the parent with an audio recording of an ARD committee meeting at which the parent was assisted by an interpreter as long as the audio recording provided to the parent contains an oral translation into the target language of all of the content in the student's IEP in English.

If a parent's native language is not a written language, the district must take steps to ensure that the student's IEP is translated orally or by other means to the parent in his or her native language or other mode of communication.

Written Copy

Under 34 C.F.R. 300.322(f), a district must give a parent a written copy of the student's IEP at no cost to the parent. A district meets this requirement by providing a parent with a written copy of the student's IEP in English or by providing a parent with a written translation of the student's IEP in the parent's native language as provided above.

19 TAC 89.1055(r)

Dyslexia or a Related Disorder

For students identified with the specific learning disability of dyslexia or a related disorder eligible under 19 Administrative Code 89.1040(c)(9), the IEP must also be developed and implemented in accordance with the requirements under 19 Administrative Code 74.28 [see EHB]. *19 TAC 89.1055(i)*

Autism/Pervasive Developmental Disorder

For students with autism eligible under 19 Administrative Code 89.1040(c)(1) (relating to Eligibility Criteria), the strategies described in this provision must be considered, at least annually based on peer-reviewed, research-based educational programming practices to the extent practicable, and, when needed, addressed in the IEP:

1. Extended educational programming (for example: extended day and/or extended school year services that consider the duration of programs/settings based on data collected related to behavior, social skills, communication, academics, and self-help skills);

2. Daily schedules reflecting minimal unstructured time and active engagement in learning activities (for example: lunch, snack, and recess periods that provide flexibility within routines; adapt to individual skill levels; and assist with schedule

changes, such as changes involving substitute teachers and pep rallies);

3. In-home training and community-based training or viable alternatives that assist the student with the acquisition of social, behavioral, communication, and self-help skills (for example: strategies that facilitate maintenance and generalization of such skills from home to school, school to home, home to community, and school to community);

4. Positive behavior support strategies based on relevant information (for example: antecedent manipulation, replacement behaviors, reinforcement strategies, and data-based decisions; and a behavioral intervention plan developed from a functional behavioral assessment that uses current data related to target behaviors and addresses behavioral programming across home, school, and community-based settings and is implemented and reviewed);

5. Beginning at any age, futures planning for integrated learning and training, living, work, community, and educational environments that considers skills necessary to function in current and postsecondary environments, including self determination and self-advocacy skills;

6. Parent/family training and support, provided by qualified personnel with experience in autism, that, for example;

    a. Provides a family with skills necessary for a student to succeed in the home/community setting;

    b. Includes information regarding resources (for example: parent support groups, workshops, videos, conferences, and materials designed to increase parent knowledge of specific teaching/management techniques related to the student's curriculum); and

    c. Facilitates parental carryover of in-home training (for example: strategies for behavior management and developing structured home environments and/or communication training so that parents are active participants in promoting the continuity of interventions across all settings);

7. Suitable staff-to-student ratio appropriate to identified activities and as needed to achieve social/behavioral progress based on the student's developmental and learning level (acquisition, fluency, maintenance, generalization) that encourages work towards individual independence as determined by, for example:

a. Adaptive behavior evaluation results;

b. Behavioral accommodation needs across settings; and

c. Transitions within the school day;

8. Communication interventions, including language forms and functions that enhance effective communication across settings (for example: augmentative, incidental, and naturalistic teaching);

9. Social skills supports and strategies based on social skills assessment/curriculum and provided across settings (e.g., peer-based instruction and intervention, video modeling, social narratives, and role playing);

10. Professional educator/staff support (for example: training provided to personnel who work with the student to assure the correct implementation of techniques and strategies described in the IEP); and

11. Teaching strategies based on peer-reviewed, research-based practices for students with autism (for example: those associated with discrete-trial training, visual supports, applied behavior analysis, structured learning, augmentative communication, or social skills training).

If the ARD committee determines that services are not needed in one or more of the areas in 1-11 above, the IEP shall include a statement reflecting that decision and the basis upon which the determination was made.

19 TAC 89.1055(g)-(h)

Visual Impairment, Deaf or Hard of Hearing, or Deaf-Blind

For a student from birth through two years of age with a visual impairment or who is deaf or hard of hearing, an individualized family services plan meeting must be held in place of an ARD committee meeting in accordance with the memorandum of understanding between TEA and the Texas Health and Human Services Commission. For students three years of age and older, a district must develop an IEP. *19 TAC 89.1050(b)*

Requirements for Students with Visual Impairments

For students with visual impairments, from birth through 21 years of age, the IEP or individualized family services plan must also meet the requirements of Education Code 30.002(e). *19 TAC 89.1055(f)*

If a district provides special education services to students with visual impairments, it shall have written procedures as required in Education Code 30.002(c)(9) (staff access to resources). *19 TAC 89.1075(c)*

Each child with a visual impairment must receive instruction in an expanded core curriculum required for children with visual impairments to succeed in classroom settings and to derive lasting, practical benefits from education, including instruction in compensatory skills such as braille and concept development, orientation and mobility, social interaction skills, career education, assistive technology, independent living skills, recreation and leisure enjoyment, self-determination, and sensory efficiency. *Education Code 30.0021(a)*

In developing an IEP for a child with a visual impairment, proficiency in reading and writing must be a significant indicator of the child's educational progress. The IEP must include instruction in braille and the use of braille unless the ARD committee documents a determination, based on an evaluation of the child's appropriate literacy media and literacy skills and the child's current and future instructional needs, that braille is not an appropriate literacy medium for the child. Braille instruction may be used in combination with other special education services appropriate to the needs of a child with a visual impairment and must be provided by a teacher certified to teach students with visual impairments.

A district shall provide each person assisting in the development of an IEP for a child with a visual impairment information describing the benefits of braille instruction.

Education Code 30.0021(c)-(e)

Collaborative Process

All members of the ARD committee must have the opportunity to participate in a collaborative manner in developing the IEP. The district must take all reasonable actions necessary to ensure that the parent understands the proceedings of the ARD committee meeting, including arranging for an interpreter for parents who are deaf or hard of hearing or whose native language is a language other than English. A decision of the ARD committee concerning required elements of the IEP must be made by mutual agreement if possible. The ARD committee may agree to an annual IEP or an IEP of shorter duration.

Ten-Day Recess

When mutual agreement about all required elements of the IEP is not achieved, the parent who disagrees must be offered a single opportunity to recess and reconvene the ARD committee meeting. The period of time for reconvening the ARD committee meeting must not exceed 10 school days, unless the parties mutually agree otherwise. The ARD committee must schedule the reconvened meeting at a mutually agreed upon time and place. The opportunity to recess and reconvene is not required when:

© 2025 Texas Association of School Boards, Inc. All rights reserved. Permission granted to TASB Policy Service subscribers to reproduce for internal use only.

1. The student's presence on campus represents a danger of physical harm to the student or others;
2. The student has committed an expellable offense; or
3. The student has committed an offense that may lead to placement in a disciplinary alternative education program. [See FOF]

These requirements do not prohibit the ARD committee from recessing an ARD committee meeting for reasons other than the failure to reach mutual agreement about all required elements of an IEP.

During the recess, the ARD committee members must consider alternatives, gather additional data, prepare further documentation, and/or obtain additional resource persons who may assist in enabling the ARD committee to reach mutual agreement.

Failure to Reach Agreement

If a recess is implemented and the ARD committee still cannot reach mutual agreement, the district must implement the IEP it has determined to be appropriate for the student. Each member of the ARD committee who disagrees with the IEP developed by the ARD committee is entitled to include a statement of disagreement in the IEP.

The written statement of the IEP must document the decisions of the ARD committee with respect to issues discussed at each ARD committee meeting. The written statement must also include:

1. The date of the meeting;
2. The name, position, and signature of each member participating in the meeting; and
3. An indication of whether the child's parents, the adult student, if applicable, and the administrator agreed or disagreed with the decisions of the ARD committee

19 TAC 89.1055(p)-(q)

If the IEP is not developed by agreement, the written statement of the program must include the basis of the disagreement. *Education Code 29.005(c)*

Modification of Existing IEP

Changes to the IEP may be made either by the entire ARD committee or by amending the IEP by agreement, rather than redrafting the entire IEP.

After the annual IEP meeting for a school year, the parent and district may agree not to convene an IEP meeting for the purposes of

making changes to the IEP and instead may develop a written document to amend or modify the child's current IEP.

Upon request, a parent shall be provided with a revised copy of the IEP with amendments incorporated.

To the extent possible, a district shall encourage the consolidation of reevaluation meetings for the child and other ARD meetings for the child.

20 U.S.C. 1414(d)(3)(D)-(F); 34 C.F.R. 300.324(a)(4)-(6)

Eligibility Folder

A district must maintain an eligibility folder for each student receiving special education and related services, in addition to the student's cumulative record. The eligibility folder must include, but will not be limited to, copies of referral data; documentation of notices and consents; evaluation reports and supporting data; ARD committee reports; and the student's IEPs and supporting data. *19 TAC 89.1075(a)*

Teacher Access to IEP

A district must ensure that each teacher who provides instruction to a student with a disability has access to relevant sections of the student's current IEP, is informed of the teacher's specific responsibilities related to implementation of the IEP, such as goals and objectives, and of needed accommodations, modifications, and supports for the student; and has an opportunity to request assistance regarding implementation of the student's IEP. *19 TAC 89.1075(d)*

Teacher Request to Review IEP

Each district shall develop a process to be used by a teacher who instructs a student with a disability in a general education classroom setting:

1. To request a review of the student's IEP;
2. To provide input in the development of the student's IEP;
3. That provides for a timely district response to the teacher's request; and
4. That provides for notification to the student's parent or legal guardian of that response.

Private School — District Placed

Student Receives IEP

If a district places a child with a disability in a private school or facility, or refers the child to a private school or facility, as a means of carrying out the requirements of the special education laws, the district shall ensure that the child is provided special education and related services, in accordance with an individualized education program (IEP), at no cost to the parents. *20 U.S.C. 1412(a)(10)(B)(i)*

Private School — Parent Placed

When a parentally placed child with a disability is referred to a district, the district shall convene an admission, review, and dismissal (ARD) committee to determine whether the district can offer the child a free appropriate public education (FAPE). If the district determines that it can offer FAPE, it is not responsible for providing educational services to the child, except that the district must develop and implement an individualized services plan (ISP). *19 TAC 89.1096(b)*

Offer of FAPE Rejected

Student Receives ISP

If a district made FAPE available to a child with a disability and the parents elected to place the child in a private school or facility, the district is not required to pay for the cost of education, including special education and related services. However, the district must develop and implement an ISP. *20 U.S.C. 1412(a)(10)(C)(i); 34 C.F.R. 300.148(a)*

FAPE Offered but Not Provided

Reimbursement

If the parents of a child with a disability, who previously received special education and related services under the authority of a district, enroll the child in a private school without the consent or referral by the district, a court or a hearing officer may require the district to reimburse the parents for the cost of that enrollment if the court or hearing officer finds that the district had not made FAPE available to the child in a timely manner before the enrollment. This right of reimbursement is subject to the notice and other requirements set forth at 34 C.F.R. 300.148(d). *20 U.S.C. 1412(a)(10)(C)(ii); 34 C.F.R. 300.148(c)*

Home School Students

A home school student is considered a private school student, for purposes of a district's obligations under IDEA, if the home school provides elementary or secondary education that incorporates an adopted curriculum designed to meet basic educational goals, including scope and sequence of courses, and formal review and documentation of student progress. *19 TAC 89.1096(a)(2)*

Individualized Services Plan (ISP)

Each parentally placed private school child with a disability who has been designated to receive services shall have an ISP that describes the specific special education and related services that a district will provide the child.

Parentally placed private school children with disabilities may receive a different amount of services than children with disabilities in

public schools. No parentally placed private school child has an individual right to receive some or all of the special education and related services that the child would receive if enrolled in a public school.

Decisions about the services that will be provided must be made in accordance with 34 C.F.R. 300.134(c) (consultation process) and 300.137(c) (attendance of private school representatives at services plan committee meetings). A district must make the final decisions with respect to the services to be provided.

34 C.F.R. 300.137, .138

Dual Enrollment

Parents shall have the right to "dual enroll" an eligible student age three or four in both the public school and a private school beginning on the student's third birthday and continuing until the end of the school year in which the student turns five, or until the student is eligible to attend a district's kindergarten program, whichever comes first, subject to the following:

1. The student's ARD committee shall develop an IEP designed to provide the student with FAPE in the least restrictive environment (LRE).
2. From the IEP, the parent and the district shall determine which special education and/or related services will be provided to the student and the location where those services will be provided, based on the requirements concerning placement in the LRE and the policies and procedures of the district.
3. The district shall be responsible for employing and supervising the personnel providing the service, providing the needed instructional materials, and maintaining pupil accounting records. Materials and services provided shall be consistent with those provided for students enrolled only in the public school and shall remain the property of the district.

19 TAC 89.1096(c)

Responsible District

The district where a student resides is responsible for providing special education and related services to a student whose parents choose dual enrollment.

If the parents decline dual enrollment, but request an ISP, the district where the private school is located is responsible for development of the ISP for a student designated to receive services.

Transportation

If a student has been placed by his or her parents in a private school or facility, a district shall provide special transportation with federal funds only when the ARD committee determines that the condition of the student warrants the service in order for the student to receive the special education and related services (if any) set forth in the IEP. *19 TAC 89.1096(e)*

District Charter Schools

A district shall serve children with disabilities attending district charter schools in the same manner as it serves children with disabilities in its other schools and shall provide federal special education funds to those schools in the same manner as it provides those funds to its other schools. *20 U.S.C. 1413(a)(5); 34 C.F.R. 300.209(b)*

Residential Facilities

Identification of Students

A school must initiate Child Find outreach activities to locate, evaluate, and identify eligible students in any residential facility within its boundaries. If a student is eligible, a district must provide the required special education and related services to the student unless, after contacting the facility to offer those services to eligible students with disabilities, the facility can demonstrate that the services are provided by another educational program provider, such as a charter school, approved nonpublic school, or a facility operated private school. However, the district shall, at minimum, contact the facility at least twice per year to conduct Child Find activities and to offer services to eligible students with disabilities.

Residential facility refers to a facility defined by Education Code, 5.001(8), which includes any person, facility, or entity that provides 24-hour custody or care of a person residing in the facility for detention, treatment, foster care, or any noneducational purpose.

19 TAC 89.1001(c)

District Placements

Day Program

A district may contract with a nonpublic or nondistrict operated day program provider in accordance with the requirements in 19 Administrative Code 89.104.

Residential Placement

The commissioner shall set minimum standards for and develop and update as necessary a list of approved public or private facilities, institutions, agencies, or businesses inside or outside of this state that a school district may contract with for the provision of services to students with disabilities in a residential or day placement program. Each contract must be approved by the commissioner. A district seeking to place a student in a residential or day placement program that is not on the list developed by the commissioner must submit an application for approval to the commissioner in accordance with Education Code 29.008(a) and (a-1). *Education Code 29.008(a), (a-2)*

If placement in a public or private residential program is necessary to provide special education and related services, the program, including non-medical care and room and board, must be at no cost to the parents. *34 C.F.R. 300.104*

If a district contracts for education services rather than providing the services itself, it shall oversee the implementation of the student's IEP and shall annually reevaluate the appropriateness of the arrangement. The reevaluation must include standards and expectations that must be met to reintegrate the student to the general education setting. *Education Code 29.008(d)*

Notification

Within 30 calendar days from an ARD committee's decision to place or continue the placement of a student in a nonpublic residential program, a district must electronically submit to the Texas Education Agency (TEA) notice of and information regarding the placement in accordance with submission procedures specified by TEA. *19 TAC 89.1092(c)*

Grant for Community-Based Support Services

The commissioner shall adopt rules establishing procedures and criteria for the allocation of grants to students who are eligible and the students' families for the provision of non-educational community-based support services. A grant may be awarded only to a student with a disability who is placed by the student's ARD committee in a residential program or a day placement program and is at risk of being placed in a residential program.

A district shall notify the parent of an eligible student of the availability of grants for community-based support services and designate a campus or district staff member to assist families of eligible students in accessing the grants.

Education Code 29.013(a), (b), (d)

School for the Blind and Visually Impaired and School for the Deaf

A district shall share the cost of education (excluding the summer program) for each of its students enrolled in the Texas School for the Blind and Visually Impaired or Texas School for the Deaf.

Before considering the student's educational placement for special education services, a district shall provide each parent of a student with visual or auditory impairments the following written information regarding the Texas School for the Deaf or Texas School for the Blind and Visually Impaired:

1. The availability of programs offered.
2. The eligibility and admissions requirements.

3. The student's rights to admission and to appeal admission decisions.

A student's ARD committee may place the student at the Texas School for the Blind and Visually Impaired (TSBVI) or the Texas School for the Deaf (TSD) in accordance with the provisions at 19 Administrative Code 89.1085 and .1090. *19 TAC 89.1085, .1090*

Adult Prisons

If a child with a disability is convicted as an adult under state law and incarcerated in an adult prison, the child's ARD committee may modify the child's IEP or placement, notwithstanding the LRE requirements, if the state has demonstrated a bona fide security or compelling penological interest that cannot otherwise be accommodated.

The following requirements do not apply to children with disabilities who are convicted as adults under state law and incarcerated in adult prisons:

2. A campus that receives equipment as a result of the request by a board of trustees, principal, or assistant principal is required to place equipment only in classrooms or settings identified by the requestor, if the requestor limits the request to specific classrooms or settings subject to Education Code 29.022.

Use in Disciplinary Actions Against District Personnel

If a person described by items 3, 4, or 5, above, views the recording and believes that it documents a possible violation of district or campus policy, the person may allow access to the recording to appropriate legal and human resources personnel of the district to the extent not limited by the Family Educational Rights and Privacy Act (FERPA) or other law. Federal Law / FERPA

19 Administrative Code 103.1301(j) (child abuse reporting) and (k) (disciplinary actions against personnel) do not limit the access of a student's parent to a record regarding the student under FERPA or other law. To the extent any provisions in Education Code 29.022 and 19 Administrative Code 103.1301 conflict with FERPA or other federal law, federal law prevails. *19 TAC 103.1301(l)*

District Policy

A district must adopt written policies relating to the placement, operation, and maintenance of video cameras under Education Code 29.022 and 19 Administrative Code 103.1301. At a minimum, the policies must include:

4. Except as provided by item 6 of this provision, a requirement that a campus begin operation of a video camera in compliance with this provision not later than the 45th school business day, or the first school day after the 45th school business day if that day is not a school day, after the request is authorized unless the Texas Education Agency (TEA) grants an extension of time;

5. A provision permitting the parent of a student whose admission, review, and dismissal (ARD) committee has determined that the student's placement for the following school year will be in a classroom or other special education setting in which a video camera may be placed under this section to make a request for the video camera by the later of:

    a. The date on which the current school year ends; or

    b. The 10th school business day after the date of the placement determination by the ARD committee;

6. A requirement that, if a request is made by a parent in compliance with item 5 of this provision, unless TEA grants an extension of time, a campus begins operation of a video camera in compliance with this provision not later than the later of:

    a. The 10th school day of the fall semester; or

    b. The 45th school business day, or the first school day after the 45th school business day if that day is not a school day, after the date the request is made;

Operation of Camera

These provisions apply to the placement, operation, and maintenance of a video camera in a special education classroom or other special education setting during the regular school year and extended school year services.

A video camera placed under this section is not required to be in operation for the time during which students are not present in the classroom or other special education setting.

Exclusions

A district is not required to provide video equipment to a campus of another district or charter school or to a nonpublic school. *19 TAC 103.1301(c)*

Dispute Resolution

The special education dispute resolution procedures in 34 Code of Federal Regulations 300.151-.153 and 300.504-.515 do not apply to complaints alleging that a district has failed to comply with Education Code 29.022 and 19 Administrative Code 103.1301. Complaints alleging violations of those sections must be addressed

through the district's local grievance procedures or other dispute resolution channels. *19 TAC 103.1301(e)*

Denial of Request

The following standards and procedures apply to a denial of a request for placement of a video camera under Education Code 29.022(a), or to the denial of a request to release a video or to view a video made under Education Code 29.022(i) or (l)(2).

Exhaustion of Administrative Remedies

Once a request for placement of a video camera or a request to release a video is administratively denied, the requester must exhaust administrative remedies through the district's grievance process even if the requester opts for the expedited review process. However, a district, parent, staff member, or administrator may request an expedited review even before the local remedies are exhausted.

After local remedies are exhausted by filing a grievance with the board and obtaining a board determination, the requester may appeal the denial to the commissioner of education under Education Code 7.057 by filing a petition for review.

Proper Request

In a case where there is a denial of a request for the placement of a video camera, the commissioner will determine whether the person requesting placement is a person allowed to request placement under Education Code 29.022(a-1) (see Limited Release, above) and whether the requester made a proper request under Education Code 29.022(a-3) (see Processing the Request, above).

Cost

The commissioner will not consider the cost to the district of installing cameras or releasing video.

Release Determination

In a case where there is a denial of a request to release a video, the commissioner will determine whether the requester is a person allowed to receive a video under Education Code 29.022(i) (described at Limited Release, above).

Timelines for Petition for Review

The following timelines are established for filing a petition for review:

1. A petition for review shall be filed with the commissioner within 10 calendar days of the decision of the board denying the request being first communicated to the requester or requester's counsel, whichever occurs first. The petition for review shall be made in accordance with 19 Administrative Code 157.1073(c) (hearings brought under Education Code 7.057) and may include a request for expedited review.

2. The district's answer and local record shall comply with 19 Administrative Code 157.1052(b) and (c) and 19 Administrative Code 157.1073(d) and shall be filed with the commis-

sioner within 10 calendar days of the district receiving notification from the commissioner of the appeal.

3. The procedures specified in 19 Administrative Code 157.1059; .1061; and .1073(e)-(h), (j), and (k) apply to a case brought to the commissioner under this section.

Expedited Review

A request for expedited review is governed by the following.

1. The expedited review process is designed to allow a requester to promptly receive a preliminary judgment from the commissioner as to a decision to deny a request for the installation of cameras or a decision to deny a request to release a video while at the same time respecting the school grievance process. The expedited review process does not apply to a request to only view a video. Invoking the expedited review process results in a prompt initial determination. However, the final commissioner's determination is to be based on a substantial evidence review of the district's grievance record. This allows for a full record to be developed at the district level and does not require the requester and the district to make an evidentiary record before TEA in Austin, Texas. Because the requirements of Education Code 7.057 are met when the board's decision is heard by the commissioner, an appeal to district court is allowed under Education Code 7.057(d). Education Code 29.022 does not by itself allow an appeal to district court.

2. A district, parent, staff member, or administrator may request an expedited review. Any request for an expedited review shall include the names, telephone numbers, and addresses of all interested parties to the request. “Interested parties” are all persons who brought the grievance, all persons who have testified or provided written statements as part of the grievance process, and the district. The request for expedited review shall specify whether the district denied a request for the placement of a video camera or the district denied a request to release a video and briefly describe why that decision is either correct or incorrect.

3. A request for expedited review shall be filed with the commissioner no earlier than 14 business days after a request for placement of a video camera or a request to release a video is administratively denied under Education Code 29.022(i) or (l)(2) (see Limited Release and Process, above), and no later than the fifth business day after a board resolves a grievance as to a request for placement of a video camera or a request to release a video. A request for expedited review shall be filed with the commissioner electronically as provided on

TEA's Division of Hearings and Appeals website or by U.S. Mail, facsimile, hand-delivery, or by a commercial delivery service.

4. Whenever an interested party files a document with the commissioner, with the exception of the request for expedited review, the interested party shall send the same document to all other interested parties by the same method that the document was sent to the commissioner. Hand-delivery of the document by the next day may be substituted for service by facsimile delivery.

5. If a request for expedited review is timely filed, the commissioner will establish a briefing schedule and will send to all interested parties a notice that an expedited review has been filed, which will include relevant statutes and rules. Any interested party who knows of any additional interested parties who have not been notified will promptly inform the commissioner in writing.

6. All briefing shall clearly state the facts relied upon. Documents relevant to the issues presented may be attached to a brief. All briefing shall provide the reasons why the commissioner should or should not grant the request for expedited review. Citations to statutes, rules, commissioner decisions, and case law are important to identify the legal basis for the claims made.

7. All interested parties who are in favor of granting the request for expedited review shall file briefing at the time specified for the requester of the expedited review.

8. All interested parties who are opposed to granting the request for expedited review shall file briefing at the same time.

9. Briefing is not limited to the issues specifically raised in the pleadings in the case. However, no new arguments may be raised in the reply briefs. Reply briefs may contain new citations to the record and legal authority as to issues previously raised.

10. A preliminary judgment shall be issued based on the briefing of the interested parties. The preliminary judgment will be sent to the requestor, the district, and all interested parties. If it is determined that a district is not likely to prevail on the issue of a request for the placement of video cameras or the issue of a request to view a video under full review, the district will fully comply with Education Code 29.022.

© 2025 Texas Association of School Boards, Inc. All rights reserved. Permission granted to TASB Policy Service subscribers to reproduce for internal use only.

11. After a preliminary judgment is made, a final judgment will be made in accordance with the procedures set forth in 19 Administrative Code 103.1303(b)(1)-(5) (the Denial of Request Review process).

19 TAC 103.1303(b)

Extension of Time

A request by a district for an extension of time to begin the operation of a video camera under Education Code 29.022 shall be made and decided using the following procedures.

Request

Any request by a district for an extension of time to begin the operation of a video camera shall be filed with the commissioner prior to the 45th school business day after a request to begin operating a video camera is received. However, a district should request an extension of time as soon as it determines that an extension of time should be filed.

A request for an extension of time to begin the operation of a video camera shall specify why an extension of time should be granted. The request shall include affidavits supporting any factual claims made in the request and reference any legal authority as to why the request should be granted. The request may include a request for expedited review. The request shall name the individual who requested the installation of cameras and provide the individual's address and telephone number. Immediately following the individual's address and telephone number there shall appear in bold type: "You have been identified as the individual who requested the operation of a video camera that is the subject of this request to the commissioner of education to extend the statutory timeline. You may, but are not required to, participate in the proceedings before the commissioner concerning the school district's request for an extension of time. It is entirely up to you whether and to what extent you wish to participate in these proceedings. The procedures governing these proceedings are found at 19 Texas Administrative Code 103.1303(c) and Texas Education Code 29.022."

A request for an extension of time to begin the operation of a video camera shall list the names, telephone numbers, and addresses of all interested parties to the request. All interested parties include all parents of students in the classroom or other special education setting for which a video camera has been requested and all staff who provided services in a classroom for which a video camera has been requested.

Filing Documents

All documents in a case shall be filed with the Division of Hearings and Appeals, Texas Education Agency, 1701 N. Congress Ave., Austin, Texas 78701, facsimile number (512) 475-3662. Documents shall be filed electronically as provided on the division's

website or by mail, delivery, or facsimile. All documents must be actually received by the Division of Hearings and Appeals by the date specified in this section. The mailbox rule does not apply to filings in a case filed under this subsection. Electronic filing is strongly encouraged.

All filings in a case shall be sent to the district, the individual who initially requested the installation of the cameras, and all interested parties who have filed a request to receive documents filed in the case by the same method as the request is filed with the commissioner. Due to the requirements of FERPA, the names, telephone numbers, and addresses of parents and other publicly identifiable student information may not be given to the interested parties. The copies of the filings sent to interested parties shall be redacted to remove all personally identifiable student information.

Filing Responses

Any response to a request for an extension of time to begin the operation of a video camera shall be filed with the commissioner by an interested party within 10 calendar days of the filing of the request. If no response to the request is timely filed, the commissioner shall issue a final decision within 20 calendar days of the filing of the request.

A response to a request for an extension of time to begin the operation of a video camera shall specify why an extension of time should or should not be granted. The response shall include affidavits concerning any factual claims made in the request and reference any legal authority as to why the request should or should not be granted. The response may include a request for expedited review.

Expedited Review

A request for expedited review must be filed with the commissioner within 10 calendar days of the filing of the request for an extension of time to begin the operation of a video camera. If a request for expedited review is made, all interested parties shall be notified that they have been identified as interested parties in the request for an extension of time to begin the operation of a video camera. In particular, the interested parties will be informed that it is their choice whether to participate in the proceedings before the commissioner, that it is entirely up to them to determine to what extent they wish to participate in the proceedings, that the procedures governing these proceedings are found in 19 Administrative Code 103.1303 and Education Code 29.022, and that upon their written request filed with the commissioner they will be sent all filings in this case.

Whether to conduct the hearing by telephone or other electronic methods will be considered.

If a request for expedited review is made, the following procedures shall be followed:

2. A preliminary judgment shall be made by the commissioner within 35 calendar days of the filing of the request for an extension of time to begin the operation of a video camera.

3. Any interested party or the district may file objections to the preliminary judgment within 40 calendar days of the filing of the request for an extension of time to begin the operation of a video camera.

If the commissioner decides to hold an evidentiary hearing, the commissioner shall establish the timelines and procedures to be used. Whether to conduct the hearing by telephone or other electronic methods will be considered.

Commissioner Consideration

In making either a preliminary judgment or a final judgment under this subsection, the commissioner will consider whether granting the requested extension is reasonable considering all factors, including contracting statutes, architectural and structural issues, and the difference in costs to the district if a moderate extension of time is granted.

No Appeal

Designing and Implementing Services

A district shall use student performance data from state basic skills assessment instruments and achievement tests to design and implement appropriate compensatory, intensive, or accelerated instructional services for students in the district's schools that enable the students to perform at grade level at the conclusion of the next regular school term. *Education Code 29.081(a)*

[See EHBCA for information regarding acceleration instruction and accelerated learning committees.]

Intensive Program of Instruction

State Assessments

The program shall be designed to:

1. Enable the student to:
    a. To the extent practicable, perform at the student's grade level at the conclusion of the next regular school term; or
    b. Attain a standard of annual growth specified by a district and reported by the district to the Texas Education Agency (TEA); and
2. If applicable, carry out the purposes of Education Code 28.0211. [See EIE]

Students Receiving Special Education Services

For a student in a special education program who does not perform satisfactorily on an assessment instrument administered under Education Code 39.023(a), (b), or (c), the student's admission, review, and dismissal committee shall design the program to:

1. Enable the student to attain a standard of annual growth on the basis of the student's individualized education program (IEP); and
2. If applicable, carry out the purposes of Education Code 28.0211. [See EIE]

Compensatory Education Allotment

Census Block

Dropout Prevention Strategies

A district with a high dropout rate, as determined by the commissioner, shall submit a plan to the commissioner describing the manner in which the district intends to use its compensatory education allotment for developing and implementing research-based strategies for dropout prevention.

A district shall submit the plan not later than December 1 of each school year preceding the school year in which the district will receive the compensatory education allotment to which the plan applies.

A district may not spend or obligate more than 25 percent of the district's compensatory education allotment unless the commissioner approves the plan.

A district's plan shall:

1. Design a dropout recovery plan that includes career and technology education courses or technology applications courses that lead to industry or career certification;
2. Integrate into the dropout recovery plan research-based strategies to assist students in becoming able academically to pursue postsecondary education, including:
    a. High-quality, college readiness instruction with strong academic and social supports;
    b. Secondary to postsecondary bridging that builds college readiness skills, provides a plan for college completion, and ensures transition counseling; and

Districts may use the following approved methods for the purpose of receiving the compensatory education allotment pursuant to Education Code 48.104:

The assessments also include a Spanish assessment for emergent bilingual students but exclude an assessment instrument developed or adopted based on alternative academic achievement standards.

19 TAC 104.1001; Education Code 28.0211(a-1)

Exceptions

        (1) 15 hours; or
        (2) 30 hours for a student whose performance on the applicable assessment instrument was significantly below satisfactory, as below; and
    b. Unless the instruction is provided fully during summer, include instruction no less than once per week during the school year, except as otherwise provided by commissioner rule to account for school holidays or shortened school weeks;
4. Be designed to assist the student in achieving satisfactory performance in the applicable grade level and subject area;

TEA shall develop and provide to districts a model notice in plain language for use under this provision. *Education Code 28.0211(a-14)*

In each instance in which a district is specifically required to provide notice or a written copy to a parent or guardian of a student, the district shall make a good faith effort to ensure that such notice or copy is provided either in person or by regular mail and that the notice or copy is clear and easy to understand and is written in English or the parent or guardian's native language. *Education Code 28.0211(h)*

Education Code 28.0211 does not require the administration of a fifth or eighth grade assessment instrument in a subject under Education Code 39.023(a) to a student enrolled in the fifth or eighth grade, as applicable, if the student:

1. Is enrolled in a course in the subject intended for students above the student's grade level and will be administered an assessment instrument adopted or developed under Education Code 39.023(a) [see EKB] that aligns with the curriculum for the course in which the student is enrolled; or

2. Is enrolled in a course in the subject for which the student will receive high school academic credit and will be administered an end-of-course (EOC) assessment instrument [see EKB] for the course.

Notwithstanding any other provision of Education Code 28.0211, the student may not be denied promotion on the basis of failure to

perform satisfactorily on an assessment instrument not required to be administered to the student, nor may a student in grade 5 or grade 8 be denied promotion to the next grade on the basis of failure to perform satisfactorily on a reading or mathematics assessment instrument intended for use above the student's grade level.

Education Code 28.0211(o)-(p)

Students At Risk

A district shall provide accelerated instruction to an enrolled student who has taken an EOC assessment instrument and has not performed satisfactorily or who is at risk of dropping out of school [see EHBC].

A district shall offer before the next scheduled administration of the assessment instrument, without cost to the student, additional accelerated instruction to each student in any subject in which the student failed to perform satisfactorily on an end-of-course assessment instrument required for graduation.

A district that is required to provide accelerated instruction must separately budget sufficient funds for that purpose. [See CE]

A district shall evaluate the effectiveness of accelerated instruction programs and annually hold a public hearing to consider the results.

Education Code 29.081(b), (b-1), (b-2), (b-3), 39.025(b-1)

Effectiveness

A district shall evaluate and document the effectiveness of the accelerated instruction in reducing any disparity in performance on state assessment instruments or disparity in the rates of high school completion between students at risk of dropping out of school and all other district students. *Education Code 29.081(c)*

No Available Test Score

The superintendent of each district shall establish procedures to ensure that each eligible student who is absent or does not receive a test score for any test administration shall receive appropriate supplemental accelerated instruction as warranted on an individual student basis. This provision may not be used to excuse a student from appropriate accelerated instruction. *19 TAC 104.1001(b)(4)*

Accelerated Education Plan

For each student who does not perform satisfactorily on a state assessment instrument specified above for two or more consecutive school years in the same subject area, the district the student attends shall develop an accelerated education plan and provide the student at least 30 hours of supplemental instruction. *19 TAC 104.1001; Education Code 28.0211(b)*

Not later than the start of the subsequent school year, a district shall develop an accelerated education plan for the student that

provides the necessary accelerated instruction to enable the student to perform at the appropriate grade level or course by the conclusion of the school year.

The plan must:

1. Identify the reason the student did not perform satisfactorily on the applicable assessment instrument; and

2. Require the student to be provided with no less than 30 hours, or a greater number of hours if appropriate, of supplemental instruction for each consecutive school year in which the student does not perform satisfactorily on the assessment instrument in the applicable subject area.

The plan may require that, as appropriate to ensure the student performs satisfactorily on the assessment instrument in the applicable subject area at the next administration of the assessment instrument:

1. The district expand the times in which supplemental instruction is available to the student;

2. The student be assigned for the school year to a specific teacher who is better able to provide accelerated instruction; and

3. The district provide any necessary additional resources to the student.

The accelerated education plan must be documented in writing, and a copy must be provided to the student's parent or guardian.

During the school year, the student shall be monitored to ensure that the student is progressing in accordance with the accelerated education plan.

The board shall adopt a policy consistent with the grievance procedure adopted under Education Code 26.011 [see FNG] to allow a parent to contest the content or implementation of an accelerated education plan.

Education Code 28.0211(f)-(f-3)

Parent Conference

A district shall make a good faith attempt to provide to the parent or guardian of a student to whom an accelerated education plan applies a parent-teacher conference with the student's primary teacher at the start and end of the subsequent school year.

At the conference, the district shall provide the student's parent or guardian with:

1. The notice required under Education Code 28.0211(a-14); and

2. An explanation of:

   a. The accelerated instruction to which the student is entitled under this provision, and

   b. The accelerated education plan that must be developed for the student and the manner in which the parent or guardian may participate in developing the plan.

Education Code 28.0211(b-1); 19 TAC 104.1001(e)

Classroom Assignment

Except as requested under Education Code 28.0211(a-5), a student for whom an accelerated instructional plan must be developed must be assigned, in each school year and subject covered by the accelerated education plan, to an appropriately certified teacher who meets all state and federal qualifications to teach that subject and grade.

In a manner consistent with federal law and notwithstanding any other law, the commissioner may waive the requirement regarding the assignment of a student to an appropriately certified classroom teacher on the request of a district.

Education Code 28.0211(n)-(n-1)

ARD Committee Review

The admission, review, and dismissal (ARD) committee of a student who does not perform satisfactorily on a state assessment instrument described above shall, at the student's next annual review meeting, review the student's participation and progress in, as applicable, accelerated instruction, supplemental instruction, or an accelerated education plan.

The student's parent may request, or the district may schedule, an additional committee meeting if a committee member believes that the student's individualized education program needs to be modified based on the accelerated instruction requirements. If the district refuses to convene a committee meeting requested by the student's parent, the district shall provide the parent with written notice explaining the reason the district refuses to convene the meeting.

Education Code 28.0211(i)

Repeating a High School Course

For courses taken for high school credit, a student who is required to repeat any course in which the student was enrolled in during the previous school year and who is eligible for accelerated instruction for the current school year is exempt from accelerated instruction requirements for that specific course if that course is retaken in

its entirety (i.e., to earn a full credit). However, a student who is participating in credit recovery is still required to receive accelerated instruction.

For the purpose of this provision, credit recovery means completing a certain number of assignments to satisfy the course requirements after failure or a certain number of seat hours after excessive absences.

19 TAC 104.1001(i)

Commissioner Waiver

The commissioner may waive the requirements regarding accelerated instruction for a district for each school year in which at least 60 percent of the students who received accelerated instruction during the school year immediately preceding the previous school year, including at least 60 percent of students whose performance on the applicable assessment instrument was significantly below satisfactory, as defined by commissioner rule, performed satisfactorily in the previous school year on the assessment instrument in each subject in which the student previously failed to perform satisfactorily. For purposes of determining whether a school district qualifies for a waiver, the commissioner shall:

1. If a student received accelerated instruction in more than one subject during the applicable school year, consider the student's performance on the assessment instrument in each subject separately from the student's performance on the assessment instrument for each other subject; and

2. By rule provide that a district may not qualify for a waiver if students who are receiving special education services or are educationally disadvantaged are overrepresented among the students in the district who received accelerated instruction during the school year immediately preceding the previous school year and did not perform satisfactorily in the previous school year on the assessment instrument in each applicable subject.

Ratio Waiver

A district may provide accelerated instruction using a product on the Ratio Waiver List on the TEA website with information related to accelerated instruction. The 4:1 student-to-teacher ratio requirement above does not apply to a district using a listed product to provide accelerated instruction to its students.

The Ratio Waiver List consists of products that use an automated, computerized, or other augmented method for providing accelerated instruction under Education Code 28.0211(a-1)(2), that may be used in lieu of some or all of the individual or group supplemen-

tal instruction, as appropriate for the applicable grade level and subject area and a student's academic deficiency.

A district shall:

1. Notify the parent or guardian of the use of a product on the Ratio Waiver List for providing the required accelerated instruction;

2. Ensure that the required hours of supplemental instruction are completed prior to the subsequent State of Texas Assessments of Academic Readiness (STAAR®) administration;

3. Use a product on the Ratio Waiver List remotely, regardless of primary mode of instruction (i.e., in-person, virtual, or hybrid) only if the district ensures that time spent by the student engaged in the product is aligned with approved product usage expectations documented by the district;

4. Adhere to the product usage fidelity requirements by product as approved by TEA to waive ratio requirements. A district not fulfilling usage fidelity with a product will be required to revert to the 4:1 ratio for supplemental instruction; and

5. Be responsible for contracting and funding the selected vendors included on the TEA list of approved vendors.

A district that receives funds under Title I or Title III to provide a language instruction educational program shall, not later than 30 days after the beginning of the school year, inform the parents of an English learner identified for participation in such a program of the information required by 20 U.S.C. 6312(e)(3). *20 U.S.C. 6312(e)(3)*

Definitions

Alternative Methods

"Alternative methods" means a temporary instructional plan that meets the affective, linguistic, and cognitive needs of emergent bilingual (EB) students and equips the teacher under a bilingual exception or an English as a second language (ESL) waiver to align closely to the required bilingual or ESL program through the comprehensive professional development plan.

Certified Bilingual Program Teacher

"Certified bilingual program teacher" means a teacher holding bilingual certification and appropriately certified for the grade level and content area. The term "certified bilingual program teacher" is synonymous with the term "professional bilingual educator" used in Education Code 29.063.

Certified English as a Second Language Teacher

"Certified English as a second language teacher" means a teacher appropriately certified in ESL as well as for the grade level and content area. The term "certified English as a second language teacher" is synonymous with the term "professional transitional language educator" used in Education Code 29.063.

Dual Language Immersion Program

"Dual language immersion (DLI) program" means a state-approved bilingual program in accordance with Education Code 29.066 that uses English and a partner language. The two state-approved DLI program models are one-way DLI and two-way DLI.

Emergent Bilingual

"Emergent bilingual (EB)" means a student whose primary language is other than English and whose English language skills are such that the student has difficulty performing ordinary classwork in English. "Emergent bilingual" also means a student identified by the Language Proficiency Assessment Committee (LPAC) who is in the process of acquiring English and has another language as the student's home language. This term is interchangeable with English learner as used in federal regulations and replaces the term "limited English proficient student."

English as a Second Language Program

"English as a second language (ESL) program" means a special language program in accordance with Education Code, Chapter 29, Subchapter B, to include both content-based and pull-out pro-

	gram models. Another related term for an ESL program is "English as an additional language program."
English Proficient Student	"English proficient student" means a former EB student who has met reclassification as English proficient by the LPAC.
Exit	"Exit" refers to the point when an EB student is reclassified as English proficient and ends bilingual or ESL program participation with LPAC recommendation and parental approval. The term "exit" is synonymous with the description in Education Code, Chapter 29, Subchapter B, of a student having been "transferred out" of bilingual or special language programming. For the purpose of meeting the goals of a DLI program, the LPAC recommends that the EB student is reclassified as English proficient but continues participation in the program to further develop biliteracy for the duration of the program for prekindergarten through grade 12.
Language Proficiency Assessment Committee	"Language Proficiency Assessment Committee" means a designated group of committee members as described in 19 Administrative Code 89.1220 (relating to Language Proficiency Assessment Committee) and Education Code 26.063 that ensures the appropriate identification, placement, assessment, services, reclassification, and monitoring of EB students. The LPAC also meets in conjunction with all other committees related to programs and services for which an EB student qualifies.
Parent	"Parent" includes the parent or legal guardian of the student in accordance with Education Code 29.052(2).
Reclassification	"Reclassification" means the process by which the LPAC determines that an EB student has met the appropriate criteria to be classified as English proficient, and the student enters year 1 of monitoring as indicated in the Texas Student Data System Public Education Information Management System.

District Responsibility

Each district shall:

1. Identify EB students based on criteria established by the state;
2. Provide bilingual education, including bilingual and ESL programs as integral parts of the general program;
3. Seek appropriately certified teaching personnel to ensure that EB students are afforded full opportunity to master the essential knowledge and skills; and

4. Assess academic achievement and linguistic progress in accordance with Education Code Chapter 29, Subchapter B, to ensure accountability for EB students and the schools that serve them.

19 TAC 89.1201(a)

Identification of Emergent Bilingual Students

Within the first four weeks of the first day of school, the LPAC shall determine and report to the board the number of EB students on each campus and shall classify each student according to the language in which the student possesses primary proficiency. A board shall report that information to the Texas Education Agency (TEA) before November 1 each year. *Education Code 29.053(b)*

Language Proficiency Assessment Committees

A district shall by local board policy establish and operate one or more LPACs. The district shall have on file a policy and procedures for the selection, appointment, and orientation of members of the LPAC(s).

A district shall establish and operate a sufficient number of LPACs to enable them to discharge their duties within four calendar weeks of the enrollment of an EB student.

19 TAC 89.1220(a), (e)

Membership of LPAC

The LPAC shall include:

1. An appropriately certified bilingual educator (for students served through a bilingual program);
2. An appropriately certified ESL educator (for students served through an ESL program);
3. A parent of an (EB) student participating in a bilingual or ESL program; and
4. A campus administrator.

A district may add other members to the committee.

All required members of an LPAC must be present either in person or virtually to make individualized student decisions.

No parent serving on the LPAC shall be an employee of the district.

All members of the LPAC, including parents, shall be acting for the district and shall observe all laws and rules governing confidentiality of information concerning individual students. A district shall be responsible for the orientation of all members, including the parents, of the LPAC.

Meetings

The LPAC may use alternative meeting methods, such as phone or video conferencing and the use of electronic signatures that adhere to district policy.

19 TAC 89.1220(b)-(d), (f); Education Code 29.063(a)-(b);

Duties

The LPAC shall have the duties set forth at Education Code 29.063(c) and 19 Administrative Code 89.1220(g)-(i), (k), including duties to review information, classify students, notify parents, and monitor student academic progress.

Home Language Survey

For each new student enrolling for the first time in a Texas public school in any grade from prekindergarten through grade 12, the TEA-developed home language survey shall be administered. This home language survey will serve as the original and only home language survey throughout the student's educational experience in Texas public schools.

The district shall:

1. Ensure that the student's parent understands the language used in the survey and its implications;
2. Require that the survey be signed by the student's parent for each student in prekindergarten through grade 8 or by the student in grades 9-12;
3. Ensure the student's parent is aware of the benefits of bilingual and ESL programs; and
4. Maintain the original copy of the survey in the student's permanent record and transfer it to any subsequent Texas public school districts in which the student enrolls.

If the response on the home language survey indicates that a language other than English is or was used for communication, the student shall be tested in accordance with 19 Administrative Code 89.1226 (Testing and Classification of Students).

If a parent determines an error was made when completing the original home language survey, the parent may request a correction only if the student has not yet been assessed for English proficiency; and corrections are made within two calendar weeks of the student's initial enrollment date in Texas public schools.

19 TAC 89.1215(a), (c), (e)

English Language Proficiency Testing

Within four calendar weeks of initial enrollment in a Texas public school, a student with a language other than English indicated on the home language survey shall be administered the state-approved English language proficiency test in accordance with 19 Ad-

ministrative Code 89.1226(c) and shall be identified as an EB student and recommended for placement into the required bilingual or ESL program in accordance with the testing and classification requirements in 19 Administrative Code 89.1226(f). *19 TAC 89.1226(b)*

Emergent Bilingual Classification

The LPAC may classify a student as EB if:

1. The student's ability in English is so limited or the student's disabilities are so severe that assessment procedures cannot be administered;
2. The student's score or relative degree of achievement on the TEA-approved English proficiency test is below the levels established by TEA as indicative of reasonable proficiency;
3. The student's primary language proficiency score as measured by a TEA-approved test is greater than the student's proficiency in English; or
4. The LPAC determines, based on other information, including a teacher evaluation, parental viewpoint, or student interview, that the student's primary language proficiency is greater than the student's proficiency in English or that the student is not reasonably proficient in English.

Education Code 29.056(c)

Parental Notice and Consent

Not later than the 10th day after the date of the student's classification as an EB student, the LPAC shall give written notice to the student's parent. *Education Code 29.056(d)*

The district shall notify the parent in English and in the parent's home language that their child has been identified as an EB student and recommended for placement in the required bilingual or ESL program using the TEA-developed identification and placement letter.

The parent shall be provided information describing the bilingual or ESL program recommended, its benefits and goals, and its being an integral part of the school program to ensure that the parent understands the purposes and content of the program and their parental rights.

The placement of a student in the bilingual or ESL program must be approved in writing by the student's parent or through allowable alternatives described in 19 Administrative Code 89.1220, in order to have the student included in the bilingual education allotment (BEA). The parent's approval shall be considered valid for the student's continued participation in the required bilingual or ESL pro-

gram until the student meets the reclassification criteria described in 19 Administrative Code 89.1226(i) (Testing and Classification of Students), the student graduates from high school, or a change occurs in program placement. A change between bilingual and ESL program placement requires new parental approval using the TEA-developed continuation of language program services letter.

If a parent denies program placement at any point, the TEA-developed parental denial of program services letter shall be used to ensure parents are informed of the implications of program denial, including understanding that the child will continue to be identified as an EB student and will continue to be assessed annually using the Texas English Language Proficiency Assessment System (TELPAS) until reclassification criteria have been met.

19 TAC 89.1240(a)

Pending completion of the identification process, receipt of LPAC documentation for transferring students, or parental approval of an identified EB student's placement into the bilingual education or ESL program recommended by the LPAC, a district shall place the student in the recommended program. Only EB students with parental approval for program participation will be included in the bilingual education allotment.

A district may place a student in or exit a student from a program without written approval of the student's parent if:

1. The student is 18 years of age or has had the disabilities of minority removed;

2. The parent provides approval through a phone conversation or email that is documented in writing and retained; or

3. An adult who the district recognizes as standing in parental relation to the student provides written approval. This may include a foster parent or employee of a state or local governmental agency with temporary possession or control of the student.

19 TAC 89.1220(j), (m)

Reclassification and Exit Approval

The district shall use the TEA-developed parent notification of reclassification and approval of program exit letter to give written notification to the student's parent of the student's reclassification as English proficient and acquire written approval for their exit from the bilingual or ESL program.

The district shall use the TEA-developed parent notification of reclassification and option to continue in a dual language immersion

program letter to give written notification to the student's parent of the student's reclassification as English proficient and acquire written approval for continued program participation as an English proficient student.

Students meeting reclassification criteria who have been recommended for exit by the LPAC may only exit the bilingual or ESL program with parental approval.

19 TAC 89.1240(b); Education Code 29.056(a)

Participation of Other Students

With the approval of a district and a student's parents, a student who is not LEP may also participate in a bilingual education program. *Education Code 29.058*

The number of participating non-EB students shall not exceed 40 percent of the number of students enrolled in those bilingual or ESL program models district-wide. *19 TAC 89.1233(c)*

Students with Disabilities

For students with disabilities, a district shall utilize the state's criteria for identification of EB students as described in 19 Administrative Code 89.1226(f) (relating to Testing and Classification of Students) and shall establish placement procedures that ensure that the placement recommendation by the LPAC, in conjunction with the admission, review, and dismissal (ARD) committee, in a bilingual or English as a second language program is not refused based on the student's disabling condition.

LPAC members shall meet in conjunction with ARD committee members to review progress and provide recommendations regarding the educational needs of each EB student who also qualifies for services in the district's special education program. [See EHBAB] *19 TAC 89.1230*

Bilingual and ESL Programs

Each district that has an enrollment of 20 or more students identified as EB students in any language classification in the same grade level district-wide shall offer a bilingual program for the EB students in prekindergarten through the elementary grades with that language classification. "Elementary grades" shall include prekindergarten through grade 5; grade 6 shall be included when clustered with elementary grades.

A district required to provide a bilingual program shall offer dual-language instruction (English and home or partner language) in prekindergarten through the elementary grades, using one of the four bilingual program models described in 19 Administrative Code 89.1210 (relating to Program Content and Design).

A district shall provide an ESL program to all EB students for whom a district is not required to offer a bilingual program, regardless of the students' grade levels and home language, and regardless of the number of such students, except in cases where a district exercises the option to provide a bilingual education program that is not required by law [see below]. A district required to provide an ESL program shall provide an ESL program using one of the two models described in 19 Administrative Code 89.1210.*19 TAC 89.1205(c)-(d)*

A district is authorized to establish a bilingual program even if the district has fewer than 20 students identified as EB bilingual students in any language classification in the same grade level district-wide and at grade levels in which the bilingual program is not required under 19 Administrative Code 89.1205(a). If a district does operate such a program under this authorization, the district shall adhere to all program requirements in 19 Administrative Code 89.1210, .1227, .1228, and .1229. *19 TAC 89.1205(f)-(g)*

Exceptions and Waivers

A district shall comply with the requirements for bilingual exceptions and ESL waivers under 19 Administrative Code 89.1207. *Education Code 29.054; 19 TAC 89.1207*

TEA may require a district that is granted an exception to include in the district's Public Education Information Management System (PEIMS) report additional information specified by TEA and relating to alternative language education methods used by the district and classify alternative language education methods under the PEIMS report as specified by TEA. *Education Code 29.054(e)*

A district that is unable to employ a sufficient number of teachers, including part-time teachers, who meet the certification requirements for the bilingual and ESL programs shall apply on or before November 1 for an exception to the bilingual program or a waiver for the ESL program as provided in 19 Administrative Code 89.1207. *19 TAC 89.1245(b)*

Program Design

A district that is required to offer bilingual education through bilingual or ESL program models shall provide each EB student the opportunity to be enrolled in the required program at their grade level.

A district's bilingual and ESL program models shall comply with the program content and design requirements of 19 Administrative Code 89.1210. A district shall ensure ongoing collaboration between bilingual and ESL programs and the general education programs to provide equitable educational access for all learners.

EB students shall participate with their non-EB peers in general education classes provided in subjects such as art, music, and physical education. A district shall provide students enrolled in the program a meaningful opportunity to participate fully with other non-EB peers in all extracurricular activities. Elective courses included in the curriculum may be taught in a language other than English. *Education Code 29.055, .057(b); 19 TAC 89.1210(f)*

1. Transitional bilingual/early exit;
2. Transitional bilingual/late exit;
3. Dual language immersion/one-way; or
4. Dual language immersion/two-way.

19 TAC 89.1210(c)

ESL Program Models

The ESL program shall be implemented through one of the following program models:

1. An ESL/content-based program model is an English acquisition program that serves students identified EB students through English instruction by a teacher appropriately certified in ESL under Education Code 29.061(c), using content-based language instruction in reading and language arts, mathematics, science, and social studies. The goal of content-based ESL is for program participants to attain full proficiency in English in order to participate equitably in school.
2. An ESL/pull-out program model is an English acquisition program that serves identified EB students through English instruction using content-based language instruction methods provided by an appropriately certified ESL teacher under Education Code 29.061(c), in reading and language arts in a pull-out or inclusionary delivery setting. The goal of ESL pull-out is for program participants to attain full proficiency in English in order to participate equitably in school.

A DLI program shall meet the minimum requirements described in 19 Administrative Code 89.1227.

19 TAC 89.1227(b)

Two-Way DLI Program Enrollment
