ALEDO ISD BOARD MEETING TEMPLATE

MEETING DATE: March 21, 2022

AGENDA ITEM: Consider Approval of Staff Development Minutes Waiver

BACKGROUND INFORMATION:

- In past years, Aledo ISD has filed *Staff Development Minutes Waivers* with TEA in an effort to establish necessary professional learning days for staff in the instructional calendar.
- This waiver allows the district to train staff on various educational strategies designed to improve student performance in lieu of student instruction during the school year. Effective with the 2018-2019 school year, the *Staff Development Minutes Waiver* provides for a maximum of 2,100 total waiver minutes to be counted toward the required 75,600 instructional minutes. Staff development minutes may not be used prior to the first day of student instruction or after the last day of student instruction.

Daniel Ninth Grade:
9th Grade ELAR, Ms. Redding

Using mental images, inferences, and connections from the chapter readings in *Night* by Elie Wiesel, students created storyboards that deepened their understanding of important events, details, and interactions between characters in the memoir.

Note: A platform is a series of positions or beliefs supported by a group or political party.

We earnestly condemn the policy of the present national administration in the Philippines. It seeks to extinguish the spirit of 1776 in those islands. We deplore the sacrifice of our soldiers and sailors, whose bravery deserves admiration even in an unjust war. We denounce the slaughter of the Filipinos as a needless horror. We protest against the extension of American sovereignty by Spanish methods....

President William McKinley, "Citizens Association, January 22, 1899.

I walked the floor of the White House night after night until midnight, I am not ashamed to tell you gentlemen, that I went down on my knees and prayed (to) Almighty God for light and guidance more than one night. And one night late it came to me this way - I know how it was but it came:
(1) that we could not give (the Philippines) back to Spain - that would be cowardly and dishonorable;
(2) that we could not turn them over to France and Germany - our commercial rivals in the Orient - that would be bad business and disgraceful;
(3) that we could not leave them over to France and Germany - our self-government - and they would soon have slavery and misrule over there worse than Spain's was;
(4) that there was nothing left for us to do but to take them all, and to educate the Filipinos, and uplift and civilize and Christianize them, and by God's grace do the very best we could by them, as our forefathers for whom Christ also died.
And then I went to bed, and went to sleep and slept soundly.

Relevance Rubric

Support teachers in building effective instruction based on relevance of experiences to learners. The three indicators for relevance are: meaningful work, authentic resources, and learning connections.

Meaningful Work	1 – Beginning	2 – Emerging	3 – Developed	4 – Well Developed
Student Learning	- Student work is procedural and structured, reflecting a basic understanding of information learned during the lesson/unit. - Student work focuses on class-specific content, with an emphasis on building skills, developing comprehension, or other foundational skills.	- Students think critically about content and apply information learned to address a specific task. Student work demonstrates originality. - Student work requires application of knowledge learned during the lesson/unit.	- Students think critically about content and apply information learned to address a range of cross-disciplinary tasks. Student work demonstrates creativity and originality. - Student work requires real-world predictable and/or unpredictable application that has a direct connection to a career in the related field of study.	- Students think and act critically to curate content and apply information learned to address a range of cross-disciplinary tasks which are both creative and original. - Student work requires the ability to select, organize, and present content through relevant products with multiple solutions.
Instructional Design	Lesson provides students an opportunity to demonstrate foundational understanding of content.	Lesson provides students an opportunity to complete a specific task that requires application of knowledge.	Lesson provides students an opportunity to select from a range of real-world, relevant tasks, using critical thinking about new learning to complete the task.	Lesson inspires students with an opportunity to think critically about new learning to create their own real-world, relevant tasks.
Authentic Resources	1 – Beginning	2 – Emerging	3 – Developed	4 – Well Developed
Student Learning	- Students mainly engage with one source of information for the lesson and/or unit. - Students use one source to complete tasks focused on making simple connections to content.	- Students engage with one primary source of information for the lesson and/or unit, and use secondary resources to support it. - Students use one or more sources to complete real-world tasks focused on making simple connections to content.	- Students engage with multiple sources of information, both primary and secondary, during a lesson/unit. - Students use multiple sources of information to complete real-world tasks involving comparisons, analysis, argument, and research.	- Students engage with multiple sources of information, both primary and secondary, during a lesson/unit, including multi-format resources. - Students select and use a variety of resources to solve predictable or unpredictable real-world scenarios.
Instructional Design	Lesson relies on one source of information. The unit/lesson is organized around the structure of the content-specific text.	Lesson is structured around an essential understanding/question, uses primary and secondary sources, and includes opportunities for students to connect content to a content-specific text and an additional resource.	Lesson is structured around an essential understanding/question and relies on students to select multiple authentic texts and resources to conduct comparisons, analysis, arguments, research, and other relevant, real-world tasks.	Lesson is structured around an essential understanding/question and relies on students to select multiple authentic texts and resources to engage in real-world problem solving.
Learning Connections	1 – Beginning	2 – Emerging	3 – Developed	4 – Well Developed
Student Learning	- Students seldom have the opportunity to engage in content that has explicit connection to real-world application. - Some students may attempt to make connections between content learned and real-world application, but these connections are volunteered rather than included as part of the lesson.	- Students occasionally engage in content that has explicit connection to real-world application. - Some students begin to articulate the connections between content learned and real-world application.	- Students engage in content that has explicit connections to real-world applications. - Some students clearly articulate the connections between content learned and real-world application.	- Students discover opportunities to apply content to their lives as well as real-world application. - Students independently make thoughtful connections between content learned and real-world unpredictable situations.
Instructional Design	Lesson provides appropriate content, but without explicit connections to real-world application.	Lesson provides some opportunities to connect content learned to real-world application.	Lesson provides multiple explicit opportunities for students to connect content learned to real-world applications.	Lesson inspires students to create their own opportunities to connect content learned to their lives, as well as real-world applications.

Hexagonal Thinking- The Early Republic

Essential Question: How did the visionary leadership of the first five presidents produce a nation of stability and power?

HEXAGONAL THINKING: THE EARLY REPUBLIC

With your group, create two different hexagonal thinking clusters.

1. Foreign Policy during the Early Republic
2. Domestic Policy during the Early Republic

Be sure to write your explanations detailing how each of the hexagons "link" together!

If you are working from home, you will complete the hexagonal cluster on your own and must include 8 terms for each cluster! Those working in groups must link at least 12 hexagons for each cluster!

American Progress and Manifest Destiny

Essential Question: Texas joins the United States in 1845 and formed a new state government. Relations between the United States and Mexico became more intense and war broke out in 1846. The Mexican-American War changed North America, politically and socially, creating new challenges for Texans. Was the goal of Manifest Destiny, in the name of progress, actually progress for all Americans?

What impact has westward expansion had on our society?

Explain the differences between westward expansion in the 1800's and its effects on society in 2022?

MEETING DATE: March 21, 2022

AGENDA ITEM: 2021-2022 General Fund Budget Update

PRESENTER: Earl Husfeld, Chief Financial Officer

BACKGROUND INFORMATION:

- As we discussed during the development of the 2021-2022 General Fund budget, and during the March 3, 2022 board workshop, the District adjusted projections for many revenue and expenditure items this budget year as compared to the preceding 2020-2021 budget year. A few of these projections were related to student enrollment, average daily attendance (ADA), and current year tax collection percentage.
- As we are at the six month point in the District's 2021-2022 budget cycle, this evening we will review a few of these budget projections/assumptions as compared to actual-to-date numbers to get a "feel" for the current status and the potential impact on the 2021-2022 General Fund budget.

- Per Board Policy CH (Legal/Local), purchase of goods or services valued at \$50,000, or more, shall require Board approval before a transaction may take place.

ALEDO ISD BOARD MEETING TEMPLATE

MEETING DATE: March 21, 2022

AGENDA ITEM: SAVVAS enVision Math Curriculum Materials

PRESENTER: Candace Summerhill, Director of Assessment and Accountability

BACKGROUND INFORMATION:

- Per Board Policy CH (Legal/Local), purchase of goods or services valued at \$50,000, or more, shall require Board approval before a transaction may take place.
- Proclamation 2014 was the last K-8 math adoption for the state of Texas. In Spring of 2014, the Board of Trustees approved the adoption of the SAVVAS (formerly Pearson) enVision Math Curriculum to be implemented in the fall of 2014 with purchased materials lasting through the 2021-2022 school year.
- As a result of the state pushing back the math adoption timeline, districts will need to consider supplementing the original purchase to account for the next four years leading up to the next math adoption.
- The enVision Math Curriculum is a quality resource that is utilized consistently across the district. For continuity, the district would like to purchase student instructional materials that align with the teacher editions that teams are already familiar with and were purchased in the previous adoption.
- For districts who adopted the enVision Math Curriculum, SAVVAS is offering a 56% discount to assist districts that choose to provide the same teacher and student materials throughout the 4-year gap.
- The cost associated with purchasing K-5 grade enVision Math Curriculum materials for the 2022-2023 school year is as follows:
 - enVision Math Digital Courseware 4-Year License Extension: \$15,426.84
 - enVision Math Student Edition 4-Year Subscription + Digital Courseware 4-Year License Extension: \$98,246.06
 - Total Purchase: \$113,672.90

ALEDO ISD BOARD MEETING TEMPLATE

MEETING DATE: March 21, 2022

AGENDA ITEM: Consider Approval of Purchase of Library/Media Center Materials for McAnally Middle School

PRESENTER: Earl Husfeld, Chief Financial Officer

BACKGROUND INFORMATION:

- Per Board Policy CH (Local), any single, budgeted purchase of goods or services that costs \$50,000 or more, regardless of whether the goods or services are competitively purchased, shall require Board approval before a transaction may take place.
- As you are aware, construction of McAnally Middle School (MMS) was included within the District's 2019 Bond Program. Included within these bond project costs were funds allocated for the purchase of materials and equipment to outfit this building to the same standard as the Aledo Middle School campus.
- As we discussed during the February 28, 2022 board meeting, for the past several weeks, Ms. Melissa Quisenberry, District Instructional Technology Specialist/Head of Library Services, and the librarians from Aledo Middle School and McAnally Intermediate School have undertaken the process of determining the initial library book collection for MMS.
- Follett Content Solutions (Follett) provided this group a "starting point" book collection for a "typical" 6-8 middle school.
- This "starting point" collection was reviewed in detail and customized to reflect the book types, styles, etc. that are desired for Aledo ISD. Also considered was alignment of the library collections between the two middle schools and age appropriateness of titles to reflect the grade levels being served.
- To ensure the best pricing and value, the District utilized the TASB BuyBoard purchasing cooperative to obtain this quote.

FISCAL INFORMATION:

The \$202,901.23 cost of this library/media center materials purchase will be paid from 2019 Bond Program funds allocated for McAnally Middle School.

Quote from Follett Content Solutions

ADMINISTRATIVE RECOMMENDATION:

The Administration recommends the Board of Trustees approve the quote submitted by Follett Content Solutions for the purchase of library/media center materials for McAnally Middle School as presented.

ALEDO ISD BOARD MEETING TEMPLATE

MEETING DATE: March 21, 2022

AGENDA ITEM: Consider Approval of Purchase of Athletic Weight Room Equipment for McAnally Middle School and Aledo Middle School

PRESENTER: Earl Husfeld, Chief Financial Officer and Tyler Boswell, Director of Construction and Facilities

BACKGROUND INFORMATION:

- Per Board Policy CH (Local), any single, budgeted purchase of goods or services that costs \$50,000 or more, regardless of whether the goods or services are competitively purchased, shall require Board approval before a transaction may take place.
- As you are aware, construction of Middle School No. 2 (McAnally Middle School) (MMS) and renovations/additions to Aledo Middle School (AMS) were included within the District's 2019 Bond Program.
- As we discussed during the February 28, 2022 board meeting, included within these bond project costs were funds allocated for the purchase of athletic weight room equipment for the new weight room areas of these campuses.
- Mr. Steve Wood, Athletic Director, solicited input from staff in the athletic department regarding the weight room equipment items needed to support their programs.
- Since the February board meeting, district staff refined the types and quantities of weight room equipment items needed and finalized the attached quotes.
- To ensure the best pricing and value, the District utilized the TASB BuyBoard purchasing cooperative to obtain these quotes.

FISCAL INFORMATION:

The \$144,060.40 cost of these weight room equipment purchases will be paid from 2019 Bond Program funds allocated for McAnally Middle School and Aledo Middle School.
