GENERAL INFORMATION: Tax Code Section 26.04(c) requires an officer or employee designated by the governing body to calculate the no-new-revenue (NNR) tax rate and voter-approval tax rate for the taxing unit. These tax rates are expressed in dollars per \$100 of taxable value calculated. The calculation process starts after the chief appraiser delivers to the taxing unit the certified appraisal roll and the estimated values of properties under protest. The designated officer or employee shall certify that the officer or employee has accurately calculated the tax rates and used values shown for the certified appraisal roll or certified estimate. The officer or employee submits the rates to the governing body by Aug. 7 or as soon thereafter as practicable.

School districts do not use this form, but instead use Comptroller Form 50-859 *Tax Rate Calculation Worksheet, School District without Chapter 313 Agreements* or Comptroller Form 50-884 *Tax Rate Calculation Worksheet, School District with Chapter 313 Agreements*.

Water districts as defined under Water Code Section 49.001(1) do not use this form, but instead use Comptroller Form 50-858 *Water District Voter-Approval Tax Rate Worksheet for Low Tax Rate and Developing Districts* or Comptroller Form 50-860 *Developed Water District Voter-Approval Tax Rate Worksheet*.

The Comptroller's office provides this worksheet to assist taxing units in determining tax rates. The information provided in this worksheet is offered as technical assistance and not legal advice. Taxing units should consult legal counsel for interpretations of law regarding tax rate preparation and adoption.

SECTION 1: No-New-Revenue Tax Rate

The NNR tax rate enables the public to evaluate the relationship between taxes for the prior year and for the current year based on a tax rate that would produce the same amount of taxes (no new taxes) if applied to the same properties that are taxed in both years. When appraisal values increase, the NNR tax rate should decrease.

The NNR tax rate for a county is the sum of the NNR tax rates calculated for each type of tax the county levies.

While uncommon, it is possible for a taxing unit to provide an exemption for only maintenance and operations taxes. In this case, the taxing unit will need to calculate the NNR tax rate separately for the maintenance and operations tax and the debt tax, then add the two components together.

28.	COUNTIES ONLY. Add together the NNR tax rates for each type of tax the county levies. The total is the current year county NNR tax rate. ²⁴	\$ _____ /\$100

SECTION 2: Voter Approval Tax Rate

The voter-approval tax rate is the highest tax rate that a taxing unit may adopt without holding an election to seek voter approval of the rate. The voter-approval tax rate is split into two separate rates:

- Maintenance and Operations (M&O) Tax Rate:** The M&O portion is the tax rate that is needed to raise the same amount of taxes that the taxing unit levied in the prior year plus the applicable percentage allowed by law. This rate accounts for such things as salaries, utilities and day-to-day operations.
- Debt Rate:** The debt rate includes the debt service necessary to pay the taxing unit's debt payments in the coming year. This rate accounts for principal and interest on bonds and other debt secured by property tax revenue.

The voter-approval tax rate for a county is the sum of the voter-approval tax rates calculated for each type of tax the county levies. In most cases the voter-approval tax rate exceeds the no-new-revenue tax rate, but occasionally decreases in a taxing unit's debt service will cause the NNR tax rate to be higher than the voter-approval tax rate.

SECTION 3: NNR Tax Rate and Voter Approval Tax Rate Adjustments for Additional Sales Tax to Reduce Property Taxes

Cities, counties and hospital districts may levy a sales tax specifically to reduce property taxes. Local voters by election must approve imposing or abolishing the additional sales tax. If approved, the taxing unit must reduce its NNR and voter-approval tax rates to offset the expected sales tax revenue. This section should only be completed by a county, city or hospital district that is required to adjust its NNR tax rate and/or voter-approval tax rate because it adopted the additional sales tax.

SECTION 4: Voter Approval Tax Rate Adjustment for Pollution Control

A taxing unit may raise its rate for M&O funds used to pay for a facility, device or method for the control of air, water or land pollution. This includes any land, structure, building, installation, excavation, machinery, equipment or device that is used, constructed, acquired or installed wholly or partly to meet or exceed pollution control requirements. The taxing unit's expenses are those necessary to meet the requirements of a permit issued by the Texas Commission on Environmental Quality (TCEQ). The taxing unit must provide the tax assessor with a copy of the TCEQ letter of determination that states the portion of the cost of the installation for pollution control.

This section should only be completed by a taxing unit that uses M&O funds to pay for a facility, device or method for the control of air, water or land pollution.

SECTION 5: Voter Approval Tax Rate Adjustment for Unused Increment Rate

The unused increment rate is the rate equal to the sum of the prior 3 years Foregone Revenue Amounts divided by the current taxable value.⁴² The Foregone Revenue Amount for each year is equal to that year’s adopted tax rate subtracted from that year’s voter-approval tax rate adjusted to remove the unused increment rate multiplied by that year’s current total value.⁴³

The difference between the adopted tax rate and adjusted voter-approval tax rate is considered zero in the following scenarios:

- a tax year in which a taxing unit affected by a disaster declaration calculates the tax rate under Tax Code Section 26.042;⁴⁴
- a tax year in which the municipality is a defunding municipality, as defined by Tax Code Section 26.0501(a);⁴⁵ or
- after Jan. 1, 2022, a tax year in which the comptroller determines that the county implemented a budget reduction or reallocation described by Local Government Code Section 120.002(a) without the required voter approval.⁴⁶

This section should only be completed by a taxing unit that does not meet the definition of a special taxing unit.⁴⁷

SECTION 6: De Minimis Rate

The de minimis rate is the rate equal to the sum of the no-new-revenue maintenance and operations rate, the rate that will raise \$500,000, and the current debt rate for a taxing unit.⁴⁸ This section should only be completed by a taxing unit that is a municipality of less than 30,000 or a taxing unit that does not meet the definition of a special taxing unit.⁴⁹

SECTION 7: Voter Approval Tax Rate Adjustment for Emergency Revenue Rate

In the tax year after the end of the disaster calculation time period detailed in Tax Code Section 26.042(a), a taxing unit that calculated its voter-approval tax rate in the manner provided for a special taxing unit due to a disaster must calculate its emergency revenue rate and reduce its voter-approval tax rate for that year.⁵⁰

Similarly, if a taxing unit adopted a tax rate that exceeded its voter-approval tax rate, calculated normally, without holding an election to respond to a disaster, as allowed by Tax Code Section 26.042(d), in the prior year, it must also reduce its voter-approval tax rate for the current tax year.⁵¹

This section will apply to a taxing unit other than a special taxing unit that:

- directed the designated officer or employee to calculate the voter-approval tax rate of the taxing unit in the manner provided for a special taxing unit in the prior year; and
- the current year is the first tax year in which the total taxable value of property taxable by the taxing unit as shown on the appraisal roll for the taxing unit submitted by the assessor for the taxing unit to the governing body exceeds the total taxable value of property taxable by the taxing unit on January 1 of the tax year in which the disaster occurred or the disaster occurred four years ago. This section will apply to a taxing unit in a disaster area that adopted a tax rate greater than its voter-approval tax rate without holding an election in the prior year.

Note: This section does not apply if a taxing unit is continuing to calculate its voter-approval tax rate in the manner provided for a special taxing unit because it is still within the disaster calculation time period detailed in Tax Code Section 26.042(a) because it has not met the conditions in Tax Code Section 26.042(a)(1) or (2).

Rio Vista ISD Meal Pricing Report 2025–2026 School Year

As a participating district in the **National School Lunch Program (NSLP)** and the **School Breakfast Program (SBP)**, Rio Vista ISD is required to follow the meal pricing regulations established by the **Texas Department of Agriculture (TDA)**. These regulations ensure compliance with federal requirements and guarantee that revenue from the Child Nutrition Program is applied equitably and responsibly.

How Prices Are Established

- TDA requires districts to set student and adult meal prices in line with federal reimbursement rates and program cost standards.
- Prices must be high enough to cover the value of federal reimbursements and USDA food entitlements and cannot result in student or federal funds subsidizing adult meals (ARM_Section19_Meal Pricing_2502)
- To ensure accuracy, Rio Vista ISD used the **TDA Adult Meal Calculator Worksheet** and guidance from **Section 19 of the Administrator’s Reference Manual**.

Adult Meal Prices

Federal regulations prohibit the subsidizing of adult meals with student program funds. Therefore, adult prices are recalculated each year to ensure they exceed the combined value of:

- Federal paid reimbursement rates,
- Any additional performance-based or severe need reimbursements, and
- The USDA Foods value per meal.

For 2025–2026, this resulted in an **increase in adult breakfast and lunch prices**.

Student Meal Prices

- **Elementary Lunch:** Increased by \$0.25 to align with **Paid Lunch Equity (PLE)** requirements and maintain compliance with TDA’s pricing standards.
- **Middle School & High School Lunch:** Prices remain the same as the prior year, as the current rates meet the required thresholds.
- **Student Breakfast Prices:** No change, as they remain in compliance with SBP pricing requirements.

Summary

- Adult Breakfast & Lunch: Increased per TDA calculator requirements.
- Elementary Lunch: Increased by \$0.25.
- MS/HS Lunch: No increase.

- Breakfast (all students): No increase.

These adjustments ensure that Rio Vista ISD remains in compliance with **TDA regulations** and the **federal NSLP/SBP guidelines**, while continuing to provide nutritious, affordable meals for students.

Meal Type	2024-2025 Price	2025-2026 Price	Change
Elementary Lunch	\$3.00	\$3.25	+\$0.25
MS/HS Lunch	\$3.50	\$3.50	No Change
Student Breakfast	\$2.00 ES/ \$2.50 MS & HS	\$2.00 ES/ \$2.50 MS & HS	No Change
Adult Lunch	\$4.00	\$5.00	Increase (per TDA)
Adult Breakfast	\$3.00	\$4.00	Increase (per TDA)

Adult Meal Calculator Worksheet

This worksheet provides the information needed to calculate adult meal prices using both approved methods. Choose the method of calculation (see the *Administrator's Reference Manual (ARM)*, Section 13, *Meal Pricing* for additional information on which method to use). If the rate applies, record the rate in the *Amount CE Receives* cell. If using Method 1, record the local student paid charge in the designated *Local Student Paid Charge* cell. If using Excel, this worksheet will automatically calculate the amounts in the *Minimum Adult Charge* and *Total Federal Funds* cells. All amounts are carried to 4 digits and must be rounded up when determining the adult meal price. Non-pricing programs must always use Method 2. TDA posts the current reimbursement rates at SquareMeals.org.

Use the applicable rates for the school year when the adult meal prices will apply.
