Attendance Impact Due to Severe Weather Event Request for TEA Consideration

Summary:

On April 28, 2026, our community experienced a significant tornado event that caused widespread damage and disruption. While school operations remained open, the impact on our students and families was substantial.

Key Impacts:

- Over 80 students directly affected by the tornado
- Two major local employers sustained severe damage or total loss, impacting family stability and employment
- Multiple families experienced:
 - Loss of housing
 - Extended power outages
 - Displacement and temporary living situations
- Increase in students experiencing homelessness or housing instability

Attendance Impact:

- Attendance declined on April 29, 2026, though not exceeding the 10% threshold typically required for a formal waiver under TEA guidelines
- The decline was directly tied to:
 - Lack of electricity
 - Family crisis response and relocation needs

District Response:

- Schools remained open to provide stability, meals, and access to support services
- Campus staff worked to identify and support impacted students and families
- Coordination with community resources to assist displaced families

Next Steps:

Although the district did not meet the standard waiver threshold, administration will:

- Submit documentation to the Texas Education Agency requesting special consideration
- Provide detailed evidence of community-wide impact and student hardship

Board Note:

This submission reflects the district's commitment to advocating for our students and ensuring that extraordinary circumstances are considered in accountability measures.
