2025-2026 Wellness Policy Report

Highlights: As a District we are following recommendations set forth by the DPI through the implementation of the Wellness Policy Assessment Tool on a triennial schedule. The triennial assessment was completed last year. The assessment tool is divided into 7 categories of evaluation: public involvement, nutrition education, nutrition promotion, nutrition guidelines, physical activity, other school-based wellness activities, and progress report.

Public Involvement

- NGSD has met all areas of membership and structure: admin., school board members, food service director, school health professional, PE teachers, parents/public
Members: Cassie Ballweg, Zack Colby, Gary Beutler, Jon Goodness, Rebecca Derke, Tammy Marty, Kari Morrison, Jen Talarczyk, Kayla Zimmerman

Nutrition Education

- NGSD is meeting recommendation at all levels through curriculum across content areas (Science, ELA, health)

Nutrition Promotion

- NGSD is in compliance with the DPI guidelines

Nutrition Guidelines

- NGSD adheres to specified guidelines as determined by DPI and Federal Govt.- implemented and supervised by Taher, Food Service Director, Rebecca Derke.

Physical Activity

- NGSD meets physical education requirements, and the wellness policy includes physical activity goals
- Physical activity is encouraged throughout the day, as well as before/after school through WIAA sponsored sports, After-School Adventures in the MS, summer school courses: volleyball, basketball, swimming, hiking, track/field, biking, active games, weight training.
- MS/HS movement breaks at athletic complex
- HS lunch break at athletic complex
- **New:** [MS walking break built into schedule](#)

Other School-Based Wellness Activities

- NGSD complies with guidelines and facilitates community partnerships, including: CPR training for staff, NGPD/NG EMS collaborations, Green County P.A.R.T.Y. Program, U-KNIGHTED Group, Jump for Heart, Presidential Physical Fitness program, on-site athletic training services, NAMI programs, Raise Your Voice Club, After School Adventures Programs, Breathe for Change, on-site school-based mental health services, Caring for Kids social/emotional coaching contract, and Mindful Mondays.

- Advanced first aid training and expanded emergency medication training for First Response Teams
- NGSD supports communication for involvement for other community-based activities that enhance and encourage physical fitness/wellness through activity.
- School Garden- supported by staff and students
- Implemented Staff Wellness Committee; initiating staff physical and mental health activities/goals.

2025-2026 Member Highlights (new info in RED)

- increased community activities- adult volleyball, adult basketball 2 x week, **community pickleball, hall-walkers**
- **Mental Game Training curriculum purchased for NGVB**
- **Addition of Emergency Boxes at all AED locations throughout the district**
- **Addition of NEFFY intranasal emergency medication for allergic anaphylaxis at all AED cabinets**
- **Training / Tour night with NGFD and Sugar River EMS**

Progress Reporting

- Report to NGSD School Board- annually

Future Discussion Items:

- Can this committee be a branch of an existing committee? Staff Wellness committee?
- After school programs for wellness (physical and social/emotional) for Students and Staff

- C. CESA 2 Delegate Report
- D. Consider Adding Public Library to Bus Stops for 2026-27 School Year 41

School District of New Glarus

Unusually Hazardous Transportation Plan June 2026

Students living two miles or more from the public school of their attendance are entitled to transportation, according to Wisconsin law. Students living less than two miles from the public school of their attendance area, may be eligible for transportation if unusually hazardous situations exist on their way to school.

In order for students living less than two miles from their public school of attendance to be eligible for transportation, the School Board must designate the areas the students would travel to or from school as being unusually hazardous

Within the New Glarus Village limits, the areas to the north of State Highway 39 and east of State Highway 69 are considered hazardous for students to travel to and from school because they would be required to cross busy highways. Areas near the Tower Heights subdivision, the Old Grade School apartments, and the Candy Cane Park area would also be safety concerns for students as there are no continuous sidewalks.

Our rural highways within 2 miles and outside the village limits do not have sidewalks available for students to use.

We are looking to add our new Village Library to our list of bus stops. We drop off at the library's current location under our current UHT plan.

On the next page you will find a listing of the areas we would like to continue having listed in our UHT plan as well as one new location for our library.

On the last page you will find a map of the bus stops.

School District of New Glarus

Areas North of HWY 39 and within 2 miles of the schools. Marked in **RED**

1. Heidi Court area (established in 1989)
2. Village Park/Police Station (established in 2007)
3. Village Library (new stop for 2026)
4. Hillside Circle (established in 2018)

Areas East of HWY 69 and within 2 miles of the schools. Marked in **BLUE**

1. Valle Tell area (established in 2009)
2. Prairie Haus Apartments (established in 2021)

Areas South of HWY 39 and West of HWY 69 and within 2 miles of the schools. These locations do **NOT** have continuous sidewalks to allow for safe student travel. Marked in **GREEN**

1. Old Grade School Apartments (established in 2001)
2. Tower Heights Area (established in 1989)
3. Candy Cane Park (established in 2007)

All roads outside of the Village limits but within 2 miles of the schools.

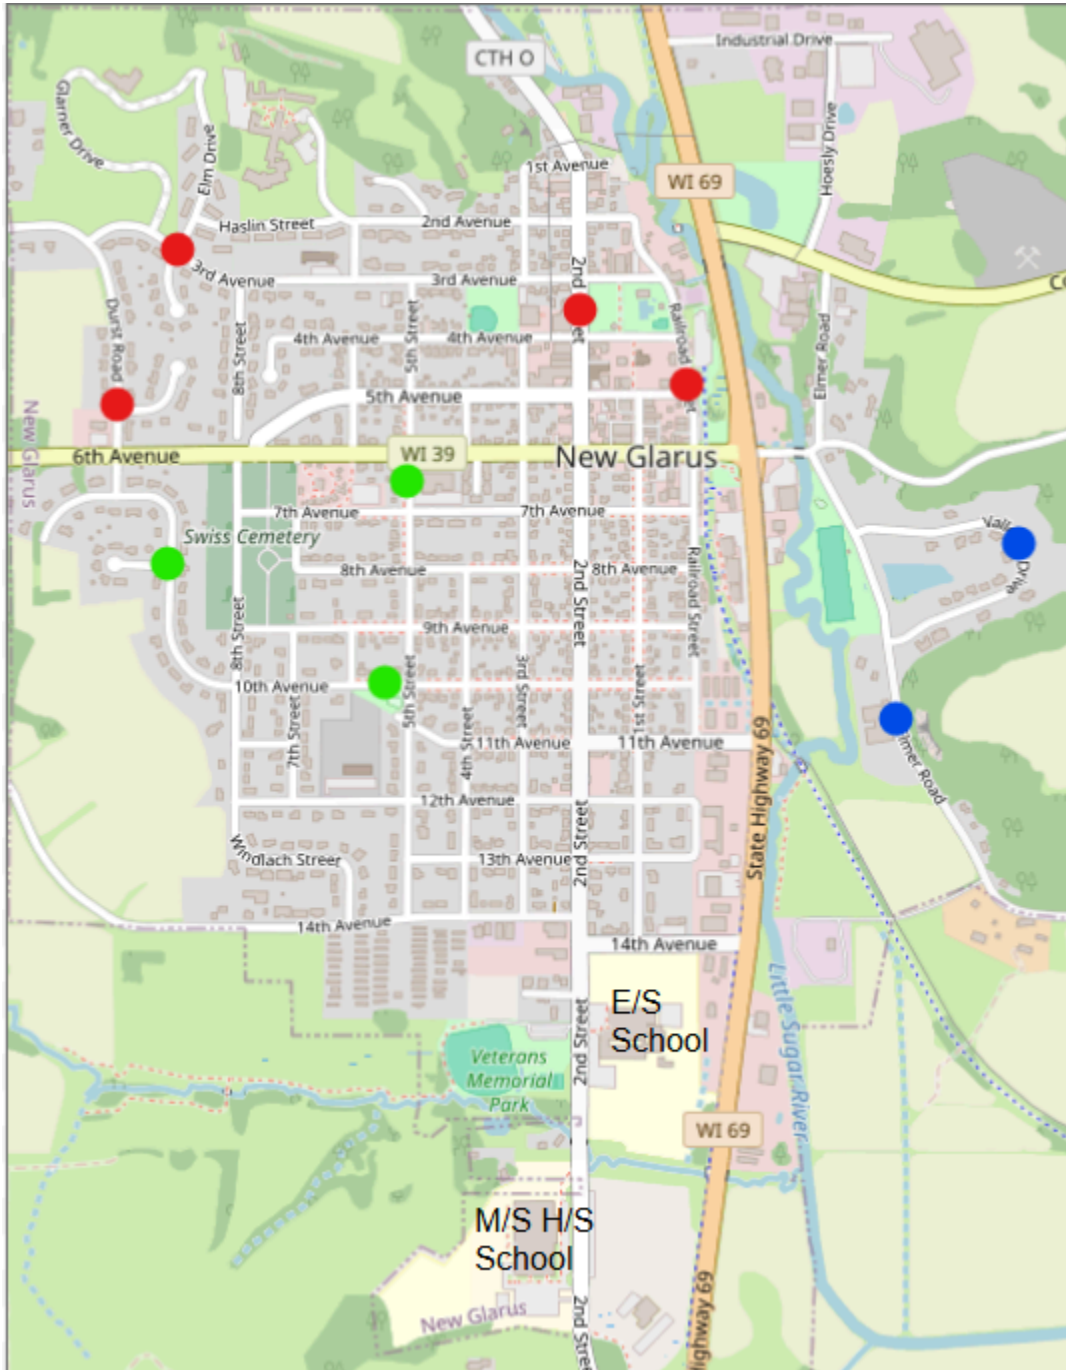

These roads do **NOT** have continuous sidewalks to allow for safe student travel.

The roads are including but not limited to

1. County Road O
2. Elmer Road
3. County Road H
4. Hwy 39
5. County Road N
6. Legler Valley Road
7. Durst Road

School District of New Glarus

Axiom Learning New Initiative Proposal

1. Basic Information

Through staff discussions and ongoing reflection on student growth and readiness, New Glarus Middle School has identified a need to provide students with additional support and instruction in developing executive functioning and life skills. Staff identified several areas where students would benefit from more intentional skill development to support independence, academic success, and preparation for future expectations in high school and beyond.

Identified areas of need include time management, study habits, organization of materials and digital platforms, assignment tracking, meeting deadlines, completing work with best effort, preparedness for learning, motivation, perseverance, accountability, active listening, note-taking, collaboration, appropriate classroom behaviors, and student leadership. Staff also emphasized the importance of helping students develop grit—the ability to persevere through challenges, learn from mistakes, and improve outcomes.

Axiom Learning provides a structured, student-centered approach to developing executive functioning and life skills through practical lessons and activities. The program focuses on building skills in organization, time management, goal setting, self-regulation, motivation, study habits, collaboration, perseverance, and independence. These skills align directly with the areas staff identified and support students in applying positive habits across both academic and social environments.

Implementing Axiom Learning would provide students with intentional opportunities to strengthen the habits and skills necessary for becoming more independent, engaged, and successful learners.

2. Strategic Alignment

This initiative aligns with Goal #1 of the district strategic plan: Increase the number of students who are college and career-ready.

Students who develop strong executive functioning skills are better prepared to meet increasing expectations for independence, responsibility, and self-management. Skills such as organization, goal setting, perseverance, collaboration, and time management contribute directly to academic

achievement and future readiness. Axiom Learning supports students in developing habits that prepare them for success in high school, postsecondary pathways, and future careers.

3. Scope & Coherence

Axiom Learning: Skills for Life and Learning

Axiom Learning will provide a structured and intentional approach to developing executive functioning and life skills that support student growth across academic, social, and personal contexts. Rather than focusing on isolated interventions, the program is designed to teach students practical, transferable skills that strengthen independence and prepare them for increasing expectations throughout middle school and beyond.

The initiative focuses on building habits and competencies connected to how students learn, organize, communicate, collaborate, and persevere. Through short, consistent lessons and activities, students will develop common language and strategies related to time management, organization, goal setting, work completion, accountability, motivation, self-regulation, and problem-solving. These skills reinforce existing classroom expectations while providing students with explicit instruction and opportunities to practice behaviors that support long-term success.

Implementation through homeroom allows Axiom lessons to be integrated into the school day in a manageable and sustainable way while maintaining alignment across grade levels and classroom environments. By embedding instruction into existing structures and connecting lessons to classroom practice, students are more likely to transfer these skills into daily learning routines and develop habits that contribute to greater independence and readiness for future academic and career expectations.

This initiative supports a whole-student approach by intentionally strengthening the life and learning skills that contribute to academic achievement, positive school experiences, and future readiness.

4. Need and Problem Statement

Middle school students are increasingly expected to demonstrate greater independence in managing assignments, organizing materials, completing work, collaborating with peers, and regulating behaviors. Staff have identified consistent areas where students require additional support, including organization, time management, work completion, preparedness, motivation, perseverance, and accountability.

Providing direct instruction in executive functioning and life skills creates opportunities for students to develop habits that strengthen both academic and personal success.

5. Research & Evidence Base

Executive functioning skills, including organization, planning, time management, self-regulation, goal setting, perseverance, and metacognition, are strongly associated with student engagement, academic success, independence, and long-term readiness for postsecondary pathways and careers. Research and educational practice increasingly emphasize that these skills should be explicitly taught rather than assumed.

Axiom Learning provides a structured approach to developing executive functioning and life skills through intentional instruction, assessment, and practical application embedded into existing school routines. Implementation examples from school districts using Axiom demonstrate strong educator engagement, high adoption rates, and measurable early indicators of student growth.

District implementation experiences highlight several consistent outcomes:

- **Strong engagement and adoption:** Schools and districts reported rapid expansion from pilot implementation to broader use driven by educator interest and demand.
- **High levels of implementation:** Assessment completion rates and lesson completion data reflected strong participation from both teachers and students.
- **Low implementation burden:** Axiom’s no-prep model and integration into existing instructional structures allowed educators to focus on facilitating learning and building student connections rather than adding preparation demands.
- **Early student growth:** Students demonstrated increased metacognitive awareness within weeks and began independently applying executive functioning strategies while using common language to describe their learning and problem-solving processes.

Examples from district implementation illustrate these outcomes. In DuPage County School District 57, Axiom’s executive functioning curriculum and assessment tools were implemented with middle school students to strengthen planning, organization, attention, and self-regulation skills. Results included high assessment completion rates, strong teacher and student engagement, completion of hundreds of lessons, and evidence of students independently applying executive functioning strategies within 2 months.

Similarly, Forsyth County School District expanded implementation from pilot sites to district-wide adoption within a short timeframe. Educators reported strong buy-in, ease of implementation, and practical application of executive functioning instruction that directly addressed classroom challenges and supported student readiness.

These examples suggest that Axiom Learning offers a scalable and sustainable model for intentionally developing executive functioning skills while supporting student independence, engagement, and readiness for future academic expectations.

6. Stakeholder Involvement & Readiness

Staff input identified the following areas as priorities for student growth:

- Time management and balancing work expectations
- Study skills and effective learning strategies
- Developing intrinsic motivation
- Perseverance through challenges
- Work completion and meeting deadlines
- Giving full effort and improving quality of work
- Organization of materials and digital platforms (Google Drive, Canvas, assignment tracking)
- Preparedness for class and learning
- Student leadership
- Note-taking and active listening
- Accountability and appropriate classroom behavior
- Collaboration and inclusion
- Developing grit by revisiting and improving work after mistakes
- Being prepared and ready to learn

Staff feedback demonstrates readiness to support a consistent approach focused on strengthening these student skills.

7. Cost and Resource Impact

Implementation would begin as a pilot initiative with an estimated cost of \$3,000.

8. Time and Workload Impact

Time Commitment:

- Two 15-minute lessons per week during homeroom.

Impact on Current Practices:

- Lessons will intentionally connect to classroom expectations and reinforce current practices.

Workload:

- Minimal preparation required for staff.
 - Staff will team-teach lessons with another staff member.
-

9. Implementation Plan

Implementation would begin in the fall as a middle school pilot initiative.

Lessons would occur during homeroom and focus on the practical application of executive functioning and life skills. Instruction will align directly with expectations already established across classrooms to promote consistency and skill transfer.

10. Evaluation & Accountability

The effectiveness of implementation will be monitored through multiple measures, including:

- SAEBRS data
- Academic performance indicators
- Student engagement measures
- Monitoring of missing work and assignment completion
- Staff feedback and reflection

Data will be compared to baseline information to determine program impact and guide future implementation decisions.

11. Sustainability

This initiative is designed to be sustainable given limited instructional time, minimal staff preparation, and direct alignment with existing school practices. Continued staff reflection and discussion will support ongoing improvement and long-term implementation.

FFA Officer Retreat

When: August 10-12, 2026

Where: Smokey Hollow Campground – Lodi, Wi.

Accommodations: 3 Bedroom Duplex

Who: 6 students, plus advisor. 4 girls/2 boys.

Cost: FFA will cover all costs.

 - B. August 10, 2026 - Discussion & Regular Board Meeting - 7:15 p.m.
- XI. **ADJOURN**

PURSUANT TO APPLICABLE LAW, NOTICE IS HEREBY GIVEN THAT A QUORUM OR A MAJORITY OF THE NEW GLARUS SCHOOL DISTRICT BOARD MEMBERS MAY ATTEND THIS MEETING. INFORMATION PRESENTED AT THIS MEETING MAY HELP FORM THE RATIONALE BEHIND FUTURE ACTIONS THAT MAY BE TAKEN BY THE NEW GLARUS SCHOOL DISTRICT BOARD.

UPON REQUEST TO THE DISTRICT OFFICE, SUBMITTED TWENTY-FOUR (24) HOURS IN ADVANCE, THE DISTRICT SHALL MAKE REASONABLE ACCOMMODATIONS INCLUDING THE PROVISION OF INFORMATIONAL MATERIAL IN AN ALTERNATIVE FORMAT FOR A DISABLED PERSON TO BE ABLE TO ATTEND THIS MEETING.
