EPS Building Needs Assessment

Each school site's needs will be continually analyzed by the building principal and staff members. Formal needs assessment will be completed in the areas listed below.

Staffing: Early each spring (Feb-March), staffing needs will be assessed by the HR Director, Federal Programs Director, Special Services Director and Assistant Superintendent. Staffing needs will be determined by projected student enrollment numbers and an evaluation of current staff vacancies/attrition.

Facility Improvements: As schools enter into the summer break (May), principals will work with the CFO/COO, Director of Information and Technology and Director of Property Services on what facility improvements need to be completed during the summer break. Examples of potential improvements could include: painting classrooms/hallways, replacing HVAC units, flooring needs, technology improvements and various other items.

Federal Programs: As we begin each school year (early July or August), and once Federal Program allocations are released to us from the Oklahoma State Department of Education, our EPS Federal Programs Director will begin working with all EPS school sites on their specific allocation looks like. Furthermore, a Needs Assessment will be conducted by all EPS building principals, as they finalize their federal programs budget for the upcoming school year.

Volunteer Needs: Building principals will assess volunteer needs with teachers and staff during their OKTLE formal observations and annual evaluation.

Analyzing Needs Assessment:

Please understand that the above is simply a framework that will be analyzed annually. Although, all immediate needs will be addressed immediately by the building principal, assistant superintendent and superintendent.

Examples:

- If our student population increases at a school site, we will staff accordingly.
- Federal funds will have a little flexibility during the school year.
- Physical needs will always be addressed immediately.
 - Example: Adams was struck by lightning right before school started. We obviously hustled around and addressed their needs asap.

Dropout

Why do we measure this?

Research shows that students who drop out of school or otherwise fail to graduate from high school face lifelong consequences including fewer job opportunities, lower wages, and poorer health outcomes. This report fulfills both federal and state dropout reporting requirements while also providing stakeholders with actionable information about their communities.

What was measured?

Dropout rates are calculated by dividing the number of students identified as a dropout in the current reporting year by the number of students that were enrolled at your school at the beginning of the school year (the October 1 count).

EPS Gifted and Talented Plan
Edits and Revisions
October 2025

The EPS Gifted and Talented Plan has been revised for submission to the OSDE in November 2025. Changes made are as follows:

- The plan's format was changed from an outline style to a narrative style.
- Repetitive language was removed to provide brevity.
 - Elementary, Middle, and High School all previously each had a page for their gifted plan, however the plans were all similar and included repetitive language. The three were combined into one section entitled "Gifted and Talented Student Services."
- Specific language was replaced with more generic phrasing, for example,
 - Previously the elementary section read, "The district currently provides opportunities to participate in activities such as: Science Fair, Spelling Bees, and Academic Teams." The middle and high school sections included "district and regional vocal and band contests"
 - The plan now reads, "Students will be placed in programming options based on their abilities, needs, and interests. These options may include but are not limited to creative and academic competitions including at district, regional, and state levels."
- The Local Advisory Committee previously utilized will be shifted to a Curriculum Advisory Committee
- Working documents such as letters sent home to parents, nomination surveys, and assessment documentation were removed from the formal policy.

Gifted Educational Plan 2025-2026

Introduction

The goal of Enid Public Schools is to identify and provide appropriate education experiences for students who demonstrate evidence of high performance capability in a variety of areas, such as intellect, creativity, artistry, leadership, or academics. EPS recognizes these students require learning opportunities and experiences, not ordinarily provided by the school, in order to fully develop their individual capabilities.

Initiatives to provide those appropriate educational opportunities and experiences will include:

- Assessing the instructional level of identified students, including consideration of the unique learning characteristics of each student,
- Expanding curriculum opportunities to allow gifted students to move through the core curriculum at the appropriate, flexible pace,
- Appropriately matching the programs and support services to individual students,
- Providing a variety of enrichment opportunities to explore areas of their program of study in depth.

Curriculum Advisory Committee

Enid Public Schools utilizes a Curriculum Advisory Committee to formulate goals, and develop plans for gifted and talented student identification, programming, and program evaluation. The Curriculum Advisory Committee is co-chaired by the Directors of Secondary and Elementary Curriculum at the direction of the Superintendent. Additional committee members include site administrators, regular education teachers, gifted education teachers, and at least one parent of a student identified as gifted and talented.

The Curriculum Advisory Committee meets each school year in the month of September, and follows up with additional meetings as needed to execute duties assigned. Agendas and sign in sheets from meetings are kept on file for documentation purposes.

Gifted and Talented Student Identification

Procedures used in the identification process will be nondiscriminatory with respect to race, economic background, national origin, English Language status, or disability.

Nomination

All stakeholders have an opportunity to nominate students for gifted and talented programming. Nominations could be made by parents, teachers, administrators, counselors, students, and others as appropriate. Identification and nomination of gifted students is an ongoing process extending from school entry through grade twelve. Stakeholders should contact the school counselor to nominate a student for gifted evaluation.

Identification Procedures

Once students are nominated for a gifted evaluation, they will be administered a nationally standardized test of intellectual ability. Additionally the school counselor, in collaboration with other stakeholders, will compile data about the student to determine if the student qualifies for gifted services.

Students scoring at or above the 97th percentile on any nationally standardized test of intellectual ability automatically qualify for gifted services. In this case, the student meets the Oklahoma state gifted criteria for Category 1. Students enrolling in Enid Public Schools who have taken a nationally standardized test of intellectual ability in a previous school district, can provide those results for consideration rather than taking an additional assessment.

In addition to the nationally standardized test of intellectual ability, student data from a variety of sources will also be considered. These sources include but are not limited to:

- standardized achievement tests
- intelligence tests
- creativity tests
- standardized academic measures, such as universal screening assessments
- language acquisition tests
- teacher observation
- parent rating scales
- student performances or auditions

Collected data may be reviewed by the school counselor, site administration, or district gifted coordinators to determine if the student meets the local criteria for gifted services under Category 2.

Student data will be entered into the EPS Multiple Measures Matrix. Those students with a matrix score of 14 points or higher qualify as gifted under Category 2, Multi Criteria Evaluation. Placement will be made in programming options appropriate to the student's educational needs, interests and/or abilities with parental approval.

Students who were identified as gifted and talented in another school district, but did not score above the 97th percentile on a nationally standardized test of intellectual ability, will be considered for gifted placement in a timely manner.

Gifted and Talented Student Services

EPS is dedicated to developing and supporting all attributes of gifted learners including academics, unique talents, and social emotional needs. Services include multiple programming options and curriculum which is modified in pace, breadth, and depth to meet the individual needs of students identified as gifted.

Programming Options

Programming options for gifted students will be coordinated through a collaboration between district and site personnel. Students will be placed in programming options based on their abilities, needs, and interests. These options may include but are not limited to:

- Differentiated instruction in the regular classroom, including varying group sizes
- Curricular enrichment through pull out programs
- Creative and academic competitions including at district, regional, and state contests
- Flexible pacing of curriculum using strategies such as compacting or acceleration
- Cross grade grouping
- Advanced courses (i.e. enriched, honors, pre-AP, AP)
- Independent study
- Concurrent enrollment
- Proficiency Based Promotion, as outlined in EPS Board Policy EIA: Promotion and Retention

Students may be removed from a programming option which is not meeting their education needs following a conference with parents.

Guidance and Counseling

Gifted students will be given opportunities to explore and plan their academic and post-secondary careers. Through collaboration with parents, teachers, and counselors, students will utilize appropriate technology and advisory support to make plans for after high school and college. This may include but is not limited to planning sessions, advisory discussions, career fairs, and college visits.

Counseling will be available to help with specific social-emotional needs of gifted students. Counseling topics may include but are not limited to managing stress and anxiety, understanding their uniqueness, study skills, underachievement, and time management.

Timing

Educational programming for gifted students is ongoing and part of the regular school schedule. While some enrichment activities, contests, and events may be outside of school hours, all gifted students will have the opportunity to participate in gifted services during regular school hours.

Gifted services should be in place within one week of the beginning of the school year. Students identified as gifted throughout the school year will have services in place within two weeks of identification.

Site Gifted Plans

Gifted programming options are coordinated by each site's gifted education committee to guide the development of gifted students from the time they are identified through graduation from high school. Sites will complete gifted plans annually that reflect the programs, services, and classes designated for gifted students. Site plans will be kept on file by the district gifted coordinator.

Parental Involvement

EPS values our partnership with parents or guardians of all students, including those of gifted students. Parent or guardian involvement in the gifted education program for their students includes,

- The opportunity to nominate their student for gifted programming consideration
- Notification in writing if their student has been nominated for gifted program consideration
- Consent is required for students to be administered a nationally standardized test of intellectual ability
- An opportunity to complete a parent rating scale as part of the gifted identification process
- Consent is required for students to be pulled out of the regular classroom for gifted services
- Notification of gifted services being provided to their student
- The opportunity to refuse gifted services for their student
- An opportunity to conference with gifted teachers regarding students' gifted services
- An opportunity to provide annual feedback regarding the gifted program
- An opportunity to serve on the Curriculum Advisory Committee for EPS Gifted and Talented Education

Gifted Program Evaluation

Each year the Gifted and Talented Education Curriculum Advisory Committee will review:

- Criteria for student identification to ensure every effort is made to properly identify gifted students
- Professional Development offered to teachers
- Programming options and curriculum for each grade level
- Level of community and parent involvement

Gifted students, staff, and parents will be given the opportunity to provide input about the gifted program through an annual survey. Additionally, feedback can be provided verbally or in writing at any time throughout the school year.

Student data will be reviewed annually to evaluate effectiveness of gifted programming instruction.

Gifted Education Staff

Teacher Responsibilities

All teachers tasked with instructing gifted students will hold a valid Oklahoma teaching certificate appropriate for the grade level and/or content area in which they offer instruction. Additionally these teachers will annually participate in professional development or college training designed to educate and assist them in the area of gifted education. Administrators responsible for gifted educational programming will also attend professional development related to the educational needs of gifted students annually.

Additional Responsibilities

The superintendent or the district gifted coordinator will be responsible for working with the curriculum advisory committee, overseeing site teams and site plans for gifted instruction, and filing reports and information as required by the State Department of Education relative to gifted educational programming.

The principal or counselor for gifted education will be responsible for working with the site committee, coordinating gifted educational programming related to the site gifted plan, and completing reports as required by the district gifted coordinator.

Budget and Expenditures

The district gifted coordinator, in collaboration with the Chief Financial Officer and other administrators, will develop an annual budget for gifted programming. Expenditures may include but are not limited to salaries, curriculum, professional development, and other materials as needed to implement gifted education programs.

Budget and expenditure reports will be submitted to the Oklahoma State Department of Education as required by the district gifted coordinator annually. Reports will include appropriate codes and classifications as required by the Oklahoma Cost Accounting System.

ITEM FOR DECISION

IV. C. Resolution 686 calling for the Annual Election.

Background Information :

Several years ago, our district made (by a vote of the public) the annual millage permanent in order to save on election expense in the event that only a single candidate files for the offices that are scheduled for election. Therefore, the election resolution no longer calls for a vote on the ad valorem tax levy.

Administrative Considerations :

We have two office's scheduled for election this year. Office No. Four (Joe Blackwood) for a full term of four years, Office No. Five (Matt Lohman) for a full term of four years. State law requires this call for an election and publication of filing information. We will publish this information in our local newspaper and on our internet website.

We have incorporated the newly re-drawn (2022) Board Office boundary line descriptions in this resolution as required by law. Board Office boundary lines must be re-drawn after each census to keep the number of office constituents as balanced as possible.

Administrative Recommendation:

Your administration recommends approval of Resolution 686.

Board Action Required.
