Initiations and Hazing

Initiations and hazing by members of classes, clubs, athletic teams, or any other organization affiliated with the district are prohibited except as otherwise permitted by this policy. Any student engaging in hazing or non-approved initiations is subject to discipline as permitted by policy and law.

Initiations are defined as any ritualistic expectations, requirements, or activities placed upon new members of a school organization for the purpose of admission into the organization, even if those activities do not rise to the level of "hazing" as defined below. Initiations are prohibited except by permission of the superintendent.

Hazing is defined as any activity by which a person intentionally or recklessly endangers the physical or mental health or safety of an individual for the purpose of initiation into, admission into, affiliation with, or continued membership in any school organization. 5031 Student Appearance

The board directs the Administration to develop and maintain a dress code that governs student appearance and that shall be included within the student handbook(s). The Administration may elect to adopt different versions of the dress code for different schools, buildings, or grades (e.g., elementary dress code, high school dress code, etc.).

General Regulations. Dress codes adopted in conformance with this policy may prohibit student attire or appearance that:

- Causes or is reasonably likely to cause a material and substantial disruption to the District's programs and activities.
- Invades the rights of others.
- Promotes, depicts, or refers to violence, drugs, alcohol, vulgarity, obscenity, illegal activity, hate speech, bullying speech, lewd speech, indecent speech, or harassing speech.
- Includes words, gestures, or images that contain or imply sexual content or innuendo.
- Otherwise undermines the District's mission to inculcate the habits, manners, and values fundamental to civility, community, and the educational environment.

Students may be required to adhere to uniform standards and/or wear district-approved or issued uniforms in order to participate in activities.

Specific Limitations on Dress Codes. Except as provided in the *Health and Safety Standard* below, the specific dress codes enacted pursuant to this policy may not:

- Target, disproportionately impact, discriminate, or be applied in a discriminatory manner against any students on the basis of race, religion, sex, disability, or national origin;
- Prohibit a student from wearing attire associated with race, national origin, or religion (including religious attire, natural and protective hairstyles, adornments or other such characteristics); or
- Require a student's hair be permanently or temporarily altered.

Health and Safety Standard. Notwithstanding these *Specific Limitations on Dress Codes*, this policy allows for dress codes to regulate characteristics associated with race, national origin, or religion under the following circumstances:

- In the absence of regulating the student's appearance or attire, it is reasonably certain that the health and safety of the student or another individual will be impaired;
- Regulating the student's appearance or attire is for nondiscriminatory reasons;
- Regulation of the student appearance or attire is applied equally;
- The administrator (or his or her designee) engages in a good-faith effort to reasonably accommodate the student and notifies the student's parent or guardian, in a language that such parent or guardian understands, of the school district's attempt to accommodate the student's appearance or attire; and
- The school district uses a process to obtain written or oral consent from a student's parent or guardian prior to altering a student's appearance or removing or altering a student's attire.

Record Retention. When the *Health and Safety Standard* is used, the school must keep records on each effort to reasonably accommodate a student's appearance or attire, hairstyle, adornment, or other characteristics associated with race, national origin, or religion occurring at school, on school grounds, or at a school-sponsored event and ensure that such records allow for analysis of related data and delineate:

- The reason for such student's referral relating to the dress code; and
- Federally identified demographic characteristics of such student.

Dress Code Enforcement. School personnel are authorized to request immediate changes in the appearance or attire of student so as to remedy any dress code violations. Enforcement of dress code violations must be done in a manner that is consistent with a school's overall discipline plan and in a consistent manner. A student's violation of the dress code shall not subject the student to long-term suspension, expulsion, or mandatory reassignment as provided in NEB. REV. STAT. § 79-267. A violation of the dress code may not require the student to miss substantial classroom time, instruction time, or school activities.

Under no circumstances is any administrator, teacher, other member of the school district's staff, or any school district contractor allowed to permanently or temporarily alter or cut a student's hair.

No student shall be disproportionately affected by dress code enforcement because of the student's gender, race, color, religion, disability, or national origin.

Health and Safety Considerations. Students may be required to wear protective clothing or equipment or otherwise modify their attire or secure their hair to ensure the safety of themselves and others. In

such cases, a good faith effort to reasonably accommodate students will be made to ensure safety without compromising religious beliefs, grooming practices, or requiring students to permanently alter their appearance. The least restrictive means appropriate to address the identified health or safety concern shall be used.

Health and Safety Accommodation Process. If a health and safety standard accommodation is necessary, the District will:

1. Engage in a good-faith effort to reasonably accommodate the student and
2. Notify the student's parent or guardian of such an attempt to accommodate the student's appearance or any attire, tribal regalia, hairstyles, adornment, or other characteristic associated with race, national origin, or religion
3. Attempt to obtain consent from a student's parent or guardian prior to altering a student's appearance or removing or altering a student's attire, tribal regalia, hairstyle, adornment, or other characteristic associated with race, national origin, or religion.

5035 Student Discipline

Administrative and teaching personnel may take actions regarding student behavior, other than those specifically provided in this policy and the Student Discipline Act, which are reasonably necessary to aid the student, further school purposes, or prevent interference with the educational process. Such actions may include, but need not be limited to, counseling of students, parent conferences, referral to restorative justice practices or services, rearrangement of schedules, requirements that a student remain in school after regular hours to do additional work, restriction of extracurricular activity, or requirements that a student receive counseling, psychological evaluation, or psychiatric evaluation upon the written consent of a parent or guardian to such counseling or evaluation. Disciplinary consequences may also include in-school suspension, Saturday School, and any other consequence authorized by law. District administrators may develop building-specific protocols for the imposition of student discipline.

Any disciplinary action taken by staff must be consistent with the requirements of other applicable laws, including but not limited to the IDEA, Section 504, and Title IX.

In this policy, references to "Principal" shall include building principals, the principal's designee, or other appropriate school district administrators.

Any statement, notice, recommendation, determination, or similar action specified in this policy shall be effectively given at the time written evidence thereof is delivered personally to or upon receipt of certified or registered mail or upon actual knowledge by a student or his or her parent or guardian.

Any student who is suspended or expelled from school pursuant to this policy may not participate in any school activity during the duration of that exclusion including adjacent school holidays and weekends. The student activity eligibility of a student who is mandatorily reassigned shall be determined on a case-by-case basis by the principal of the building to which the student is reassigned.

Pre-Kindergarten through Second Grade Students

Notwithstanding any other provision of this policy, an elementary school shall not suspend a student in pre-kindergarten through second grade unless the student brings a deadly weapon as defined in section 28-109 on school grounds, in a vehicle owned, leased, or contracted by a school being used for a school purpose or in a vehicle being driven for a school purpose by a school

employee or his or her designee, or at a school-sponsored activity or athletic event. As an alternative to suspension, the school district may take any action authorized by law, including those provided in section 79-258.

Makeup Work for Suspended Students

Any student who is suspended must be given an opportunity to complete any classwork and homework missed during the period of suspension, including, but not limited to, examinations ("makeup work"). Any makeup work must be completed and turned in within 2 school days after completion of the suspension. This makeup guideline shall be provided to the student and a parent or guardian at the time of suspension. Suspended students may not be required to attend the school's alternative program for expelled students in order to complete classwork or homework.

Short-Term Suspension

The Principal may exclude students from school or any school function for a period of up to five school days (short-term suspension) on the following grounds:

1. Conduct constituting grounds for expulsion as hereinafter set forth; or,
2. Other violations of rules and standards of behavior adopted by the Board of Education or the administrative or teaching staff of the school, that occur on or off school grounds, if such conduct interferes with school purposes or there is a connection between such conduct and school.

The following process applies to short-term suspension:

1. The Principal shall make a reasonable investigation of the facts and circumstances. Short-term suspension shall be imposed only after a determination that the suspension is necessary to help any student, to further school purposes, or to prevent an interference with school purposes.
2. Prior to commencement of the short-term suspension, the student will be given oral or written notice of the charges against the student. The student will be advised of what he or she is accused of having done, be given an explanation of the evidence the authorities have, and be given an opportunity to explain the student's version of the facts.
3. Within 24 hours or such additional time as is reasonably necessary, not to exceed an additional 48 hours, following the suspension, the Principal will send a written statement to the student,

and the student's parent or guardian, describing the student's conduct, misconduct or violation of the rule or standard and the reasons for the action taken. An opportunity will be given to the student, and the student's parent or guardian, to have a conference with the Principal ordering the short-term suspension before or at the time the student returns to school and shall document such effort in writing. The Principal shall determine who, in addition to the parent or guardian, is to attend the conference.

4. Students who are short-term suspended must be given the opportunity to complete classwork and homework missed during the period of suspension, including but not limited to examinations, as provided herein.

Exceptions Regarding Firearms and Weapons. The only exceptions for a student to bring or possess a weapon, including a firearm, are as follows:

1. The issuance of firearms to or possession of firearms by members of the Reserve Officers Training Corps when training or
2. Firearms which may lawfully be possessed by the person receiving instruction under the immediate supervision of an adult instructor who may lawfully possess firearms.

Consequences - Firearm. Any student who brings a firearm, as that term is defined in 18 United States Code 921, to school will be expelled from school for one calendar year. The superintendent of schools and the board of education shall have the authority to modify the expulsion requirement on a case-by-case basis.

Consequences – Weapon. State law and this policy provide that any student who violates this policy by knowingly bringing, possessing, handling or transmitting a weapon, other than a firearm, on school grounds, in a school owned vehicle, or at a school activity or event off school grounds may be suspended on a long-term basis, mandatorily reassigned, or expelled for the remainder of the school year in which the expulsion takes effect (if the misconduct occurs during the first semester) or the remainder of the second semester, summer school, and the first semester of the following school year (if the misconduct occurs during the second semester).

Confiscation of Firearms and Weapons. Administrative and teaching personnel are statutorily authorized, without a warrant, to confiscate any firearm or weapon possessed in violation of this policy. Long-Term Suspension

Students may be excluded by the Principal from school or any school function for a period of more than five school days but less than twenty school days (long-term suspension) for any conduct constituting grounds for expulsion as hereinafter set forth. The process for long-term suspension is set forth below.

Expulsion

1. **Meaning of Expulsion.** Expulsion means exclusion from attendance in all schools, grounds and activities of or within the system for a period not to exceed the remainder of the semester in which it took effect unless the misconduct occurred (a) within ten school days prior to the end of the first semester, in which case the expulsion shall remain

in effect through the second semester, or (b) within ten school days prior to the end of the second semester, in which case the expulsion shall remain in effect for summer school and the first semester of the following school year, or (c) unless the expulsion is for conduct specified in these rules or in law as permitting or requiring a longer removal, in which case the expulsion shall remain in effect for the period specified therein. Such action may be modified or terminated by the school district at any time during the expulsion period.

2. **Summer Review.** Any expulsion that will remain in effect during the first semester of the following school year will be automatically scheduled for review before the beginning of the school year. The review will be conducted by the hearing officer who conducted the initial expulsion hearing, or a hearing officer appointed by the Superintendent in the event no hearing was previously held or the initial hearing officer is no longer available or willing to serve, after the hearing officer has given notice of the review to the student and the student's parent or guardian. This review shall be limited to newly discovered evidence or evidence of changes in the student's circumstances occurring since the original hearing. This review may lead to a recommendation by the hearing officer that the student be readmitted for the upcoming school year. If the school board or board of education or a committee of such board took the final action to expel the student, the student may be readmitted only by action of the board. Otherwise the student may be readmitted by action of the Superintendent.

3. **Suspension of Enforcement of an Expulsion:** Enforcement of an expulsion action may be suspended (i.e., "stayed") for a period of not more than one full semester in addition to the balance of the semester in which the expulsion takes effect, and as a condition of such suspended action, the student may be assigned to a school, class, or program/plan and to such other consequences which the school district deems appropriate.

4. **Alternative School or Pre-expulsion Procedures.** The school shall either provide an alternative school, class or educational program for expelled students, or shall follow the pre-expulsion procedures outlined in NEB. REV. STAT. 79-266.

5. **Conclusion of Expulsion.** At the conclusion of an expulsion, the school district will reinstate the student and accept nonduplicative, grade-appropriate credits earned by the student during the term of expulsion from any Nebraska accredited institution or institution accredited by one of the six regional accrediting bodies in the United States.

Self-Management of Diabetes or Asthma/Anaphylaxis

Upon receiving the written request of a student's parent or guardian and the written medical authorization described in the applicable provisions below, , the school district will work with the parent or guardian in consultation with appropriate medical professionals to develop a medical management plan for a student with diabetes, asthma, or anaphylaxis (referred to herein as "medical condition").

A student with diabetes must obtain written authorization to self-manage from the student's physician. The plan for a student with diabetes will (a) identify the health care services the student may receive at school, (b) evaluate the student's understanding of and ability to self-manage his or her medical condition, (c) permit regular monitoring of the student's self-management by an appropriately credentialed health care professional, and (d) be signed by the student's parent or guardian and the physician responsible for the student's medical condition.

A student with asthma or anaphylaxis must obtain written authorization to self-manage from the student's physician or from the health care professional who prescribed the medication for treatment of the student's condition. The plan for a student with asthma or anaphylaxis will (a) identify the health care services the student may receive at school, (b) evaluate the student's understanding of and ability to self-manage his or her medical condition, (c) permit regular monitoring of the student's self-management by an appropriately credentialed health care professional, (d) include the name, purpose, and dosage of the prescription asthma or anaphylaxis medication prescribed for such student, (e) include procedures for storage and access to backup supplies of such prescription asthma or anaphylaxis medication, and (f) be signed by the student's parent or guardian and the physician or other health care professional responsible for the student's medical condition.

The plan will permit the students to self-manage his or her medical condition in any part of the school or on school grounds during any school-related activity, or in a private location. The parent or guardian of a student for whom such a medical management plan has been developed shall sign a statement acknowledging that (a) the school and its employees and agents are not liable for any injury or death arising from a student's self-management of his or her medical condition and (b) the parent or guardian will indemnify and hold harmless the school district and its employees and agents against any claim arising from a student's self-management of his or her medical condition. The student's parent or guardian will be personally responsible for any and all costs associated with any injury to school personnel or another student resulting

from the a student’s misuse of necessary medical supplies.

The district may prohibit a student who is self-managing his or her diabetic condition from possessing medical supplies for self-management and may establish other necessary and appropriate restrictions or conditions when the district determines that the student has endangered himself, herself, or others through misuse or threatened misuse of such medical supplies. The district will promptly notify the parent or guardian of any such prohibition, restriction, or condition.

The district may impose disciplinary consequences on a student with asthma or anaphylaxis who uses his or her prescription asthma or anaphylaxis medication other than prescribed. 5054 Student Bullying

Definition of Bullying. Nebraska statute defines bullying as “an ongoing pattern of physical, verbal or electronic abuse.” The Centers for Disease Control and Prevention defines bullying as “any unwanted aggressive behavior(s) by another youth or group of youths who are not siblings or current dating partners that involves an observed or perceived power imbalance and is repeated multiple times or is highly likely to be repeated.” The school district’s administrators will consider these definitions when determining whether any specific situation constitutes bullying. These definitions include both in-person and cyberbullying behaviors.

Bullying Prohibited. Students are prohibited from engaging in any form of bullying behavior.

Reporting Bullying. Students who experience or observe bullying behavior must immediately report what happened to a teacher or administrator. Students can use the district’s Incident Reporting Form to make this report. Students may always confer with their parents or guardians about bullying they experience or witness, but the students must also ultimately report the situation to a teacher or administrator.

Bullying Investigations. School district staff will investigate allegations of bullying using the same practices and procedures that the district observes for student disciplinary matters. In no circumstance will school district staff be deliberately indifferent to allegations of bullying.

Disciplinary Consequences. The disciplinary consequences for bullying behavior will depend on the frequency, duration, severity and effect of the behavior.

A student who engages in bullying behavior on school grounds, in a vehicle owned, leased, or contracted by a school being used for a school purpose by a school employee or his or her designee, or at school-sponsored activities or school-sponsored athletic events may be subject to disciplinary consequences including but not limited to long-term suspension, expulsion, or mandatory reassignment.

Without limiting the foregoing, a student who engages in bullying behavior that materially and substantially interferes with or disrupts the educational environment, the district’s day-to-day operations, or the

education process, regardless of where the student is at the time of engaging in the bullying behavior, may be subject to discipline to the extent permitted by law.

Bullying Based on Protected Class Status. Bullying based on protected class status is unique and may require additional investigation. The appropriate district staff member or coordinator will promptly investigate bullying complaints that violate the district’s anti discrimination policies.

Support for Students Who Have Experienced Bullying. Regardless of where the bullying occurred, the district will consider whether victims of bullying are suffering an adverse educational impact and, if appropriate, will refer those students to the district’s student assistance team.

Bullying Prevention and Education. Students and parents are encouraged to inform teachers or administrators orally or in writing about bullying behavior or suspected bullying behavior. School employees are required to inform the administrator of all such reports. The appropriate administrator shall promptly investigate all such reports. Each building shall engage in activities which educate students about bullying, bullying prevention and digital citizenship.

Policy Review. The school district shall review this policy annually.

The board is authorized to preserve order so that the system may function properly.

Students may not engage in any expressive conduct that causes a material and substantial disruption to the educational program; that is lewd, obscene, profane, defamatory, threatening or contains "fighting words;" that advocates the use of substances that are illegal to minors; that incites violence or constitutes a "true threat;" or that urges the violation of law or school rules. District Title I Parent and Family Engagement Policy

The school district will jointly develop with parents a School-Parent-Student Compact that outlines how the parents, school staff, and students will share the responsibility for improved student academic achievement and the means by which the school and parents will build and develop a partnership to help children achieve the State's high standards.

The written District Parent and Family Engagement Policy will be jointly developed and distributed to parents and family members of participating children and the local community in an understandable format and to the extent practicable, in a language the parents can understand. An annual evaluation of the content and effectiveness of the Parent and Family Engagement Policy will be used to design evidence-based strategies for more effective parental involvement, to revise the Parent and Family Engagement Policy and to remove barriers to participation.

The school district recognizes the unique needs of students who are being served in its Title I program, and the importance of parent and family engagement in the Title I program. Parent and family engagement in the Title I Program shall include, but is not limited to:

1. An annual meeting to which all parents of participating children will be invited to inform parents of their school's participation under this part, to explain the requirements of this part, and the right of the parents to be involved. Invitations may take the form of notes sent with students or announcements in the school newsletter. Additional meetings may be scheduled, based upon need and interest for such meetings.
2. An explanation of the details for the child's and parents' participation, including but not limited to: curriculum objectives, the forms of academic assessment used to measure student progress and the achievement levels of the challenging State academic standards, type and extent of participation, parental input in educational decisions, coordination and integration with other Federal, State, and district programs, and evaluations of progress.
3. Opportunities for participation in parent involvement activities such as training to help parents work with their children to

improve achievement. A goal of parent activities is to provide parents with opportunities to participate in decisions relating to the education of their students, where appropriate.

4. The district will, to the extent practicable, provide parents of limited English proficiency, parents with disabilities, parents with limited literacy, are economically disadvantaged, are of a racial or minority background or parents of migratory children with opportunities for involvement in the Title I Program. Communication to parents about student progress and the district's other Title I Program communications will be provided in the language used in the home to the extent practicable. Responses to parent concerns will be provided in a timely manner.
5. Opportunities for parent-teacher conferences, in addition to those regularly scheduled by the school district, if requested by the parents or as deemed necessary by school district staff.
6. The district will coordinate and integrate parental involvement programs and activities with other programs in the community. These may include cooperation with other community programs such as Head Start and preschools and other community services such as the public library.
7. Educate teachers, specialized instructional support personnel, principals, and other school leaders, with the assistance of parents in the value and utility of contributions of parents, how to reach out to, communicate with and work with parents as equal partners.

This policy shall be reviewed annually at the annual meeting where concerned parties can have a conversation about possible changes to the Parent and Family Engagement Policy.

The school district is not qualified under law to comply with directives to physicians limiting medical treatment and will not accept such directives. 5063 Audio and Video Recording

Students and their parents or guardians should assume that any class in which students are enrolled may be recorded by the school district or other students for legitimate educational purposes. Recordings permitted pursuant to this policy may only be used for authorized purposes and may not be republished without additional, written consent from a school administrator. For purposes of this policy “recording” includes still photographs, video, audio, and other similar data captured in any medium.

Recordings Made by The District. The district may use cameras or other devices for purposes of making security, safety, or other recordings without a specific purpose or for a specific purpose when such recordings are deemed necessary or appropriate by the administration. The district will not maintain the recordings unless the recording is purposefully copied and saved, and the recordings will only be available for review for a limited time based on the district’s then-current recording capacity. The district administrators estimate that this is approximately 10 days but may change at any time.

Classroom Recordings by Staff. Staff members may make audio and video recordings of classroom instruction and school activities upon authorization of the superintendent or supervising administrator.

Prohibited Recordings by Students. Unless otherwise authorized by this policy or law, students are prohibited from making audio or video recordings during the school day on school grounds; when being transported to and from school activities or programs in a vehicle owned, leased, or contracted by a school being used for a school purpose by a school employee or by his or her designee; or at a school-sponsored activity or athletic event, unless the recording is made in a manner permitted by the school for members of the public. In such an instance, the students remain subject to the district’s appropriate use and student discipline policies.

For example, this policy does not prohibit students from making recordings of an athletic event for their personal use similar to a parent or other patron, subject to other applicable board policy. However, this policy generally prohibits students from using smart-speakers or other devices which actively or passively create or transmit audio or video recordings, including Google Home, Amazon Alexa, Apple HomePod, and AngelSense devices.

Permitted Classroom Recordings by Students. Students may make audio or video recordings of classroom lectures or discussions:

- (1) For their convenience after providing notice to the classroom teacher and receiving the teacher’s permission;
- (2) For the benefit of another student who is absent after providing notice to the classroom teacher and receiving the teacher’s permission;
- (3) If recording is necessary to accommodate the student’s disability and is required by the student’s Individualized Education Plan (IEP) or Section 504 Plan.

Staff may revoke permission to record if the recording distracts from or disrupts the classroom environment, unless the recording is necessary to accommodate a student’s disability.

Permitted Non-classroom Recordings. Students may make audio or video recordings otherwise prohibited by this policy outside the classroom only with the permission of a teacher or school administrator, provided that such recordings otherwise comply with any applicable state and federal laws and district policy. In no event shall photographs or video recordings be taken or made in restrooms, locker rooms, or other areas where there is a reasonable expectation of privacy.

Students found to have bed bugs will be removed from the classroom and inspected by the school nurse. Any bugs found should be removed and collected for identification. Any other students residing in the same household or otherwise at risk of infection should be inspected as soon as possible after the initial diagnosis.

The student will be excluded from school on the day of the diagnosis and will continue to be excluded from school until the parent(s) or guardian(s) have confirmed that successful treatment has occurred.

If bed bugs are found in a classroom or elsewhere in the building, the school will notify parent(s) and guardian(s) of all students so that the students' clothing and other belongings may be inspected before bringing them into the home. 5066 Early Graduation

General Policy. Students most effectively obtain the skills and experience necessary to graduate from high school by completing grades 9 through 12 over the course of 4 years. Unless otherwise permitted by Board policy or other applicable law, students must finish all 4 grade levels in order to graduate.

Requirements for Application. In unique circumstances, the Board may waive the four-year attendance requirement for high school graduation, provided that the student has met the requirements of this policy.

Students must make an application to the high school principal before they may seek permission to graduate early from the Board. The principal may consult with appropriate instructional and guidance staff members in making the determination. The student's application must include:

1. Proof that the student will meet all academic requirements necessary to graduate on or before the proposed graduation date;
2. A transcript showing that the student has no grade lower than "C" in any required course at the time of application;
3. A detailed essay that (a) addresses the reasons for seeking early graduation and (b) articulates the student's post-graduation plans, including goals and objectives justifying the need to graduate early; and
4. A letter from a parent/guardian supporting the application.

The student may submit any additional materials which support the student's efforts to graduate early. Such materials may include, but are not required to include: letters of support from staff and community members; proof of admission in a postsecondary program; and/or any other materials which the student believes to support the student's application.

Consideration by the Board of Education. The principal will make a written recommendation to the Board based on the submitted application from the student. The Board will consider but is not bound by the principal's recommendation. Along with the application, the Board may consult with members of the administration, staff, or anyone else the Board deems appropriate. The Board will grant a student's application only if it determines that the student is best served by permitting the student to graduate early.

Participation in District Activities. Early graduates will be considered graduates of the district at the time the Board confers such status upon them. Therefore, early graduates will no longer be considered members of the student body and will forfeit those rights and privileges accorded such students. Participants will be allowed to walk at graduation.

Student Assistance Team or Comparable Problem Solving Team

Pursuant to the Rules of the Nebraska Department of Education, the school district uses a general education student assistance team ("SAT") or a comparable problem solving team ("Team"). The SAT or Team will use and document problem-solving and intervention strategies to assist teachers in the provision of general education and to meet the needs of students who may be struggling in the general curriculum or who are struggling to comply with the student code of conduct or to meet acceptable behavioral and social norms.

If the SAT or Team feels that all viable alternatives have been explored, a referral for multidisciplinary evaluation shall be completed. The referral shall comply with the requirements of the Rules of the Nebraska Department of Education.

All teaching staff must:

- 1) Support the SAT or Team process by appropriately referring students who may benefit from the SAT or Team process; and
- 2) Faithfully and consistently implementing the intervention strategies recommended by the SAT or Team.

The failure to support the SAT or Team process is a serious matter and may constitute just cause for terminating or canceling a teacher's employment.
