Under NRC Zoning Regulations, does the STRUCTURE conform to the requirements of NRC Zoning? And if it does not conform to the requirements, why?

Is the STRUCTURE a conforming structure? **No**

If it is not, then why is it considered non-conforming? **The building is constructed too close to the property line and does not meet the required 25' front yard setback**

And under NRC Zoning Regulations, is the USE of the facility either permitted use or conditional use that is listed in NRC regulations? And if the USE is non-conforming, what makes it that way?

Is the USE permitted or conditional use? **Yes**

If it is, what section of NRC regs allows it: **Single family dwelling**
If it is not, what makes the use non-conforming?

Other Issues - Structural

NOTICE OF PROPOSED REZONING

along the Chestnut Street Corridor

In 2020, the City of Wahoo completed the construction of the \$6M Chestnut Street Corridor improvement project, converting the old state highway into a community street.

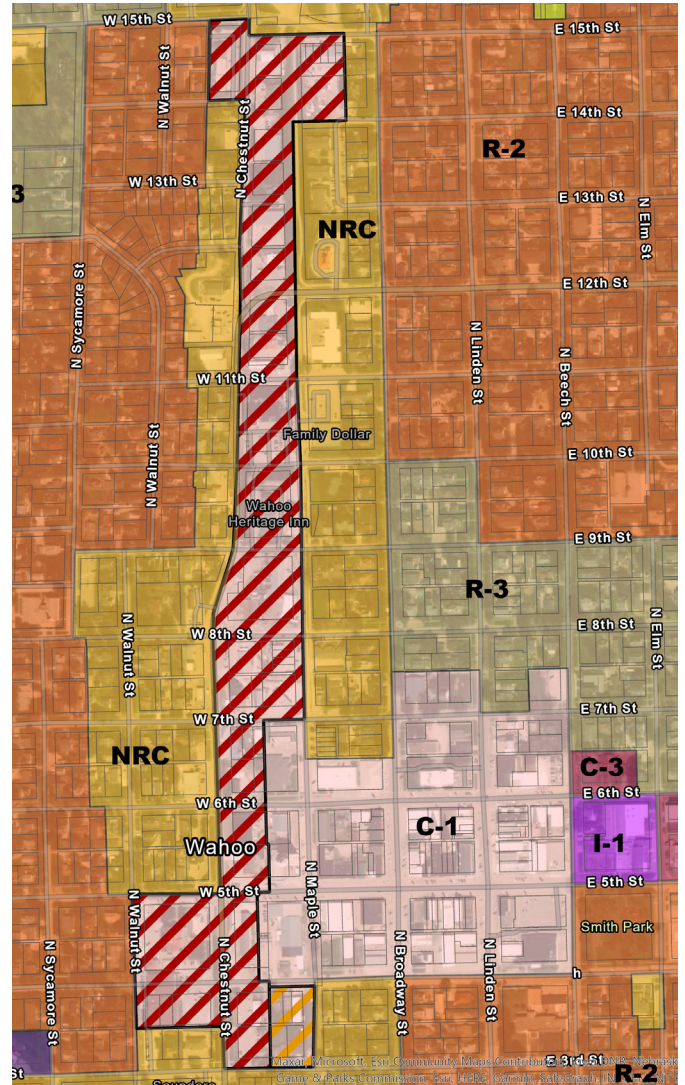

The Planning Commission is currently proposing a rezoning along Chestnut Street to protect the community's recent investment in the corridor.

- » The proposed rezoning would change the area along Chestnut St. currently zoned C-1 (Downtown Commercial) to C-3 (General Commercial), with a half block on Maple St., between 3rd and 4th streets, rezoned to NRC (Neighborhood Residential Commercial).
- » This proposed change would impact about 45 properties but would not require any change of existing uses. Rather, the change would guide future development in this area.
- » It is anticipated the proposed rezoning will appear on the October 7, 2021, Planning Commission agenda with an additional hearing before the City Council on October 26, 2021. If approved, the zone change would go into effect immediately.

Functionally, the difference between C-1 and C-3 is subtle, but there are a few features of C-3 that make it more suitable for the Chestnut Street corridor. (See page 2 for a more detailed listing.)

- » C-3 zoning requires all parking to be on premise versus publicly-provided stalls.
- » C-3 zoning has a front yard setback requirement that will help protect recently completed street improvements by requiring new structures to be at least 25 feet from the property line.
- » C-3 zoning design standards provide more aesthetic appeal through landscaping requirements.

PROPOSED ZONING MAP

Proposed Changes

- C-1 to NRC
- C-1 to C-3

Zoning		Neighborhood Residential Commercial (NRC)
	Transitional Agricultural (TA)	Downtown Commercial (C-1)
	Large Lot Residential (LLR)	Highway Commercial (C-2)
	Residential (R-1)	General Commercial (C-3)
	Residential (R-2)	Light Industrial (I-1)
	Residential (R-3)	Heavy Industrial (I-2)
	Mobile Home Residential (RM)	Residential / Mixed Use Development (RMD)

What is the difference between C-1 and C-3?

	Zone C-1 Downtown Commercial	Zone C-3 General Commercial
Overview	C-1 is designed to provide for a wide range of retail, office, social, and service uses normally found in a downtown area.	C-3 is intended to establish standards that will foster and maintain an area within the district boundaries that will benefit the retail trade, business, cultural, and social activities of the entire community.
On-Street Parking	Provided	No on-street; on-premise only
Setback Requirements	None	25-foot front yard minimum setback with landscaping and planting to provide effective screening, where needed
Design Standards	Established	Established, including landscaping and fencing standards <ul style="list-style-type: none"> • Screening not less than 6 feet and no taller than 8 feet in height along the abutting residential property line(s) must be provided. • The owner(s) of the property in the Commercial District shall maintain said fence or wall in good condition.

To review the Wahoo Zoning Regulations, visit the Planning and Zoning section of the city's website at www.wahoo.ne.us

How does this impact properties along Chestnut Street?

The City of Wahoo is reaching out to individual property owners along Chestnut Street to clarify if or how the proposed change in zoning would impact their property. Existing uses will be identified as permitted, nonpermitted, or conditional, and existing structures determined to be conforming or nonconforming in regard to the setback requirements. However, all current uses and existing structures will be grandfathered into the new C-3 zoning classification. Future development, or the redevelopment of a property, will be subject to the C-3 regulations.

Residential Impacts

Impacted residential properties are in the half-block portion proposed to be rezoned NRC, which supports residential uses. Additionally, the proposed C-3 General Commercial District will be a more compatible use for adjacent residential areas.

Zoning Terms, Defined

Permitted: The current use of your property is an allowed use of the property as listed in the Zoning Regulations.

Not Permitted: The current use of your property is not permitted. However, you would be grandfathered in and allowed to continue this use as it exists today.

Conditional: The current use of your property is considered a conditional use. Your use will be considered grandfathered if you do not already have a conditional use permit, but any expansion of your use will require approval by the Council.

Conforming: Your current structure conforms to the structure requirements (setback, parking, etc.) of the proposed change in zoning.

Non-Conforming: Your current structure does not conform to the structure requirements (setback, parking, etc.) of the proposed change in zoning. However, your property will be considered grandfathered in and allowed to continue until substantially damaged.

For more information, or for property-specific questions, contact Travis Beavers, the Wahoo Zoning Administrator, at 402-443-3222.

Scan this QR code with your phone's camera to visit the city's website and review current zoning regulations.

The City of Wahoo will be hosting an Open House to address the proposed rezoning of the Chestnut Street Corridor

(Map)

You are receiving this information because your property is one that would be affected by this proposed rezoning.

What does this mean for you today?

- There is NO immediate affect to you or to your property.
 - o Current non-conforming structures will not have to be altered
 - o Current non-conforming uses will be permitted to continue

Why are we rezoning?

- The current zoning for this area is C1- Downtown Commercial. This zoning area has specific requirements and restrictions that conflict with property uses along Chestnut Street. The City is proposing this change in zoning to address the large number on non-conforming uses of those properties and bring the majority of the properties into conformity with our Zoning Regulations

When will this change effect property owners?

- There are two instances in which this change in zoning could impact property owners:
 1. If the current structure is damaged beyond 50%
 - If this were to happen the structure would have to be built back in a manner that removes any non-conformity.
 2. If the property has a gap in non-conforming use that exceeds twelve months. Then the non-conforming use would no longer be allowed.

If you have additional questions or would like more information, please attend the Open House on May

WAHOO PLANNING COMMISSION

Meeting Minutes

June 4, 2026

The Wahoo Planning Commission met in regular session and in accordance with the agenda posted at City Hall, the Post Office, and First Bank of Nebraska with each board member being notified of the agenda prior to the meeting. The meeting was called to order at 7:00 p.m. by Chair Tracy Pfligler and opened with the Pledge of Allegiance. The Chair advised the public of the posted information regarding Nebraska Open Meetings Act and Title VI. The Chair then directed the City Administrator to call the roll: Egr: Present, Fick: Present, Gabel: Present, Lentfer: Present, Pearson: Present, Pfligler: Present, Wilcox: Absent. Brooks: Absent, Miyoshi: Absent. (Note: Wilcox entered the meeting at 7:04 p.m.)

The Chair called for comments from the public on items not listed on the agenda and none were presented.

The public hearing on a proposed amendment to the City Zoning Regulations regarding single family dwelling definition that would require a minimum of 50 percent of the total square foot area of a single-family dwelling to be habitable was declared open at 7:02 p.m. The provisions of the amendment were reviewed and the Chair called for comments from the public; none were presented. A motion was made by Pearson to close the public hearing at 7:03 p.m., seconded by Gabel. Roll Call vote: Pearson: yes, Gabel: yes, Fick: yes, Lentfer: yes, Egr: yes, Pfligler: yes. Wilcox, Brooks, and Miyoshi: absent and not voting. Motion carried.

Wilcox entered the meeting at 7:04 p.m.

A motion was made by Fick to recommend approval to the City Council of the proposed amendment to Zoning Regulations regarding single family dwelling definition that would require a minimum of 50 percent of the total square foot area of a single-family dwelling to be habitable, seconded by Wilcox. Roll Call vote: Fick: yes, Wilcox: yes, Gabel: yes, Lentfer: yes, Egr: yes, Pearson: yes, Pfligler: yes. Brooks and Miyoshi: absent and not voting. Motion carried.

Chair Pfligler indicated discussion would now be held on a possible amendment to the City of Wahoo Design Standards to exempt industrial zoned areas from the application of Design Standards when in the Transportation Corridor Overlay Area. City Administrator Harrell reported that following the City Council meeting on May 26, City staff reviewed current Zoning Regulations with the Design Standards, and the report of that comparison was included in the Planning Commission packet, with each of the specific focus areas of Design Standards compared. This comparison was reviewed by Harrell with the Planning Commission. Additionally, Harrell presented a staff proposed amendment to the Design Standards that would add industrial uses in industrially zoned areas as exempted from the Design Standards in Section 1.3 of the Design Standards. Discussion was held by the Planning Commission members covering topics including zoning violation enforcement, impact of the Design Standards to economic development, location of industrial zoned areas in Wahoo, and concern with creating a precedent by exempting industrial zoned areas for other zoned areas. Harrell reviewed the marketing process of industrial lots and emphasized that the site selection process for industrial investment is very cutthroat and influenced by the bottom line for an investor. The Planning

Commission was reminded that all future platting will come to the Planning Commission and the City Council for review, and if there is concern about appearance along transportation corridors, that can be controlled by zoning (i.e. not allowing industrial zoning along Hwy 77/92). Questions were raised on items that are specifically addressed by the performance standards in Zoning Regulations that apply to industrial uses. Harrell also explained that some of the items of concern can be addressed through a redevelopment agreement if tax increment financing were applied for. Mayor Johnson spoke in favor of the proposed amendment.

A motion was made Wilcox to recommend to the City Council an amendment to the Design Standards to add industrial uses in industrially zoned areas as exempt from the Design Standards in Section 1.3(F). Motion was seconded by Lentfer. Roll Call vote: Wilcox: yes, Lentfer: yes, Gabel: yes, Fick: yes, Egr: yes, Pearson: yes, Pfligler: no. Pfligler stated that she firmly believed going down this road was a mistake. Brooks and Miyoshi: absent and not voting. Motion carried.

Administrator Harrell asked for clarification on the date of the July Planning Commission. It was agreed the meeting would be held on Tuesday, July 7 instead of Thursday, July 2 due to conflict with the 4th of July holiday.

Harrell reported on the Downtown Revitalization Committee kickoff meeting held on June 1 and explained the group of about 25 volunteers was a good representation of the community and all very passionate about our downtown. Questions were asked about the Market Suites project located on the old Wahoo Super lot - discussion was held about the redevelopment agreement that was previously approved and the status of that project. Questions were raised about the amphitheater project located on Lake Wanahoo property and those questions were answered by Mayor Johnson. Harrell also reported on the utility looping project that is under contract to extend water, electricity, and natural gas around the west portion of Wahoo. It was also reported on Windstream/Kinetic's project to get fiber infrastructure access to all locations in Wahoo which will be happening over the next couple months.

A motion was made by Pfligler to table the approval of the minutes due to how late they were made available for review, seconded by Egr. Roll Call vote: Pfligler: yes, Egr: yes, Gabel: yes, Fick: yes, Lentfer: yes, Wilcox: no, Pearson: yes. Brooks and Miyoshi: absent and not voting. Motion carried.

Meeting adjourned at 8:12 p.m.

Approved:

Melissa Harrell
City Administrator
City of Wahoo

WAHOO PLANNING COMMISSION

Meeting Minutes

May 7, 2026

The Wahoo Planning Commission met in regular session and in accordance with the agenda posted at City Hall, the Post Office, and First Bank of Nebraska with each board member being notified of the agenda prior to the meeting. The meeting was called to order at 7:00 p.m. by Chair Tracy Pfligler and opened with the Pledge of Allegiance. The Chair advised the public of the posted information regarding Nebraska Open Meetings Act and Title VI. The Chair then directed the City Clerk to call the roll: Brooks: Present, Egr: Present, Fick: Present, Gabel: Present, Lentfer: Present, Miyoshi: Present, Pearson: Present, Pfligler: Present, Wilcox: Absent.

A public hearing regarding an application for conditional use permit for used car sales located at Lots 7-8 Blk 36 south Wahoo Addition with offices at 130 S Walnut Street. The applicant Dennon Hladik spoke to the application. A motion was made by Pearson, seconded by Miyoshi to close the public hearing at 7:02pm. Roll Call vote: Brooks: yes, Egr: yes, Fick: yes, Gabel: yes, Lentfer: yes, Miyoshi: yes, Pearson: yes, Pfligler: yes, Wilcox: Absent and not voting. Motion carried.

Questions were asked regarding curbing, parking and the use of the adjacent alley for access. It was suggested that a condition to the permit be that the parking area should be rocked and well maintained. A motion was made Pfligler and seconded by Fick to recommend approval of the Conditional Use Permit with conditions that the parking area be rocked and kept weed free and that no parking be permitted within the alley. Roll Call vote: Brooks: yes, Egr: yes, Fick: yes, Gabel: yes, Lentfer: yes, Miyoshi: yes, Pearson: yes, Pfligler: yes, Wilcox: Absent and not voting. Motion carried.

A public hearing was opened at 7:16pm regarding an application for the rezone of Krumel Industrial Subdivision. Kevin Anderson from JEO Investments gave a broad overview of the whole project and the application for rezone. They are proposing the area be zoned I2 – Heavy Industrial and C-2 Highway Commercial. He stated that I2 would be a better fit in the area verse I1 because I2 allows for outdoor storage and I1 does not. A motion was made by Pfligler, seconded by Pearson to close the public hearing at 7:19pm. Roll Call vote: Brooks: yes, Egr: yes, Fick: yes, Gabel: yes, Lentfer: yes, Miyoshi: yes, Pearson: yes, Pfligler: yes, Wilcox: Absent and not voting. Motion carried.

Pfligler noted that there had been a change from the original plat that had been presented. Originally the smaller internal lots had been presented as being zoned commercial. Beavers asked for clarification on what was meant by outdoor storage. Anderson commented that the intention was for business to store their own equipment and not to allow something like camper storage to operate on those lots.

Fick asked about landscaping buffer along old Hwy 77. Anderson noted that along old Hwy 77 there is a plated drainage out lot and that that would limit what could be planted along that area. Beavers spoke to the landscaping and screening requirements for I2 that are within zoning especially if the industrial lot abuts residential or office space. Beavers also noted that there are fencing requirements detailed in the zoning regulations also. A motion was made by Miyoshi,

seconded by Lentfer to recommend approval of the rezone of Krumel Industrial Subdivision from TA and C3 to I2 and C2. Roll Call vote: Brooks: yes, Egr: yes, Fick: yes, Gabel: yes, Lentfer: yes, Miyoshi: yes, Pearson: yes, Pfligler: yes, Wilcox: Absent and not voting. Motion carried.

Discussion was had regarding a waiver to the of the Expressway Corridor Design Standards changing it from 1/4 mile to 1/8 mile within the Krumel Subdivision. Kevin Anderson from JEO Investments addressed the waiver. He stated there is a conflict between industrial and the design standards and that there are a lot of different ways to address that issue. Anderson presented a site layout for basic building designs that depict the difference for lots with and without the design standards.

Pfligler commented on the design standards as being a points system. She stated that the once the City loses the design standards as a planning tool it isn't something that the City could get back. She acknowledged that industrial is not the most visually appealing in nature but that shouldn't mean that they aren't held to a standard especially in a major access point to Wahoo.

Pearson commented that she would rather have Industrial removed from the design standards than to shirk down the size of it from 1/4 mile to an 1/8 mile. Pfligler disagreed. She suggested that there is another way to compromise. Pfligler suggested making an exception for outdoor storage for outdoor storage could be a compromise. A large amount of conversation was directed to landscape and site barriers that shield the industrial area.

Kevin Anderson asked for direction as to what the Planning Commission would be more amiable to. The Planning Commission is generally in favor of finding a mechanism to accomplish the same outcome without wavering on the design standards. A motion was made by Gabel, seconded by Brooks to deny the waiver to the of the Expressway Corridor Design Standards, changing it from 1/4 mile to 1/8 mile within the Krumel Subdivision. Roll Call vote: Brooks: yes, Egr: yes, Fick: yes, Gabel: yes, Lentfer: yes, Miyoshi: yes, Pearson: yes, Pfligler: yes, Wilcox: Absent and not voting. Motion carried.

Kevin Anderson from JEO Investments spoke to the final plat for Krumel Industrial Subdivision. He stated that the access points indicated on the plat at 27th and 29th streets have been approved by NDOT. Questions were asked regarding drainage in the area. The drainage outlots are oversized to address future drainage for future development to the East. Beavers verified that there were no requests for waivers regarding street widths or right of way widths. A motion was made by Pearson, seconded by Fick to approve the final plat of Krumel Industrial Subdivision. Roll Call vote: Brooks: yes, Egr: yes, Fick: yes, Gabel: yes, Lentfer: yes, Miyoshi: yes, Pearson: yes, Pfligler: yes, Wilcox: Absent and not voting. Motion carried.

Discussion was held regarding proposed amendment to section 2.03.160 of the zoning regulations regarding single family dwelling. Action on this item will be brought to the Planning Commission at the next meeting.

Beavers reported on projects throughout the city. Miyoshi asked questions about fill within the floodplain for the Dry Run Commons subdivision. Beavers explained the difference between floodway and floodplain.

A motion was made by Pearson, seconded by Miyoshi to approve the minutes from March 5, 2026 meeting of the Planning Commission. Roll Call vote: Brooks: yes, Egr: yes, Fick: yes, Gabel: yes, Lentfer: yes, Miyoshi: yes, Pearson: yes, Pfligler: yes, Wilcox: Absent and not voting. Motion carried.

A motion was made by Fick, seconded by Egr to approve the minutes from the April 2, 2026 meeting of the Planning Commission. Roll Call vote: Brooks: yes, Egr: yes, Fick: yes, Gabel: yes, Lentfer: yes, Miyoshi: yes, Pearson: yes, Pfligler: yes, Wilcox: Absent and not voting. Motion carried.

Meeting adjourned at 8:39pm.

Approved:

Christina Fasel
City Clerk
City of Wahoo
