Framework for Addressing Protocols Due to Infectious Diseases

This framework of procedures and school safety measures are subject to change based upon consultations with our local health officials, Directed Health Measures, or advice from the Nebraska Department of Education. Students will only be excused from attendance in person if a medical professional makes that recommendation in writing based upon that student's medical history.

In general:

Green	All students will attend school in person. Masks suggested, but not required.
Yellow	All students will attend school in person with heightened attention to disinfecting and social distancing. Masks required for staff and strongly encouraged for students.
Orange	All students will attend school in person, potentially with an alternate schedule and hybrid learning that involves online. Masks required for students and staff.
Red	All buildings are closed and remote learning is implemented.

COVID-19 Risk Dial And Tiered Response The following factors will be considered for identification of the risk level within the school			
COVID Green - DHM Phase IV Low Risk of COVID-19 Spread	COVID Yellow - DHM Phase III Moderate Risk of COVID-19 Spread	COVID Orange - DHM Phase II Elevated Risk of COVID-19 Spread	COVID Red - DHM Phase I High Risk of COVID-19 Spread
- No confirmed active cases within the school - No Directed Health Measure (DHM) limiting capacity	- Confirmed active case(s) in the school - Consultation with local Health Department - Directed Health Measures - Governor or Commissioner of Education Guidance	- Several confirmed active case(s) in the school - Consultation with local Health Department - Directed Health Measures - Governor or Commissioner of Education Guidance	- Confirmed case(s) in the school and/or community - Consultation with local Health Department - Directed Health Measures - Governor or Commissioner of Education Guidance

A confirmed case is that which is verified as a positive indication on a test by a medical professional.

Below are shared core principles that local health departments (LHDs) in Nebraska consider when making recommendations and advising our local schools about how to safely reopen and stay open during the COVID-19 pandemic.

When a positive COVID-19 case is confirmed in a school, that individual will be excluded and allowed to return based upon current guidance from CDC at the time. LHDs will work with schools to consider the following questions when determining how that case will impact others in their classroom and/or school building.

- What is the level of community spread outside the school building?
- Was the individual with COVID-19 wearing a mask most of the time?
- Were other students and staff who were within 6 feet of the individual with COVID-19 for more than 15 minutes masked?
- Was the individual with COVID-19 part of a cohort within the building or did they interact with a large number of students and staff throughout their day?
- To what extent is the school community implementing other non-pharmaceutical interventions (hand washing, hand sanitizers, etc.)?

The answers to these questions will determine 1) the number of close contacts, 2) if the close contacts who are not symptomatic may stay in the classroom, and 3) the number of other students and staff who will need to be quarantined.

Heartland Community Schools

Framework for Addressing Protocols Due to Infectious Diseases

Parent Guidance

This document is provided as a “quick look” at our general plans. It is certainly not exclusive, nor is it limited to protocols only listed within each risk level. For example, we may implement strategies from the Orange column while still at the Yellow risk level, depending upon the circumstances. We will be setting the risk level in consultation with local health officials, but it may or may not mirror our local health department.

Considering all of the information that we have seen from physicians, pediatric groups, the CDC, and local health departments, the best advice to keep your child in school and to keep school open are:

- **Stay at home if you don't feel well;**
- **Try to remain at least 6 feet from another person as much as possible;**
- **Wear a face mask when distancing is not possible;**
- **Wash your hands several times each day for at least 20 seconds.**

If a child becomes ill at school, they will put on a mask and taken to an area in the lobby to be picked up.

Thank you for your assistance and for your support during a difficult time!

NONRESIDENT STUDENTS/OPTION ENROLLMENT

Students who are eligible to attend a Nebraska public school but who are not legal residents of the school district may be admitted into the school district in accordance with the option enrollment program authorized by state statutes. Option enrollment students shall be accepted without charge. If the student has previously had an option enrollment accepted in any district, the application shall be rejected unless a statutory exception to this rule applies for that student.

Application for option enrollment should be made between September 1 and March 15 for enrollment during the following and subsequent school years. Upon agreement of the school boards of the resident district and the option (receiving) district, deadlines for application and approval of the option may be waived. Following the March 15 deadline, applications requesting admittance must contain a release approval from the resident district prior to the option district's consideration for acceptance.

The application for option enrollment does not require a release from the resident district and the receiving district has forty-five days to issue acceptance or rejection if:

1. after February 1 the student relocated to a different resident district, or
2. the student's option district merged with another district effective after February 1, and
3. the student's attendance would occur during the next immediate and subsequent school years.

For applications submitted by the March 15 deadline, written notification of approval or rejection of the application will be made before April 1 to the student's parent/guardian and the resident district. If the district rejects an application for a student to option in or out, the district will provide notification by certified mail to the parent/guardian of the reasons for rejection and the process for appealing the decision to the State Board of Education.

The board shall adopt standards and conditions for acceptance or rejection of a request for release of a resident student submitting an option application after March 15. Such standards shall not include the failure to meet the March 15 deadline. For those applications, the option district shall notify the parent/guardian and the resident district whether the application is accepted or rejected within sixty days after submission. False or substantively misleading information submitted by a parent/guardian on an application to an option district may be cause for the option district to reject a previously accepted application prior to the student's attendance.

The board shall adopt a resolution setting forth its specific standards for acceptance and rejection of applications as an option school. Standards will conform to those set forth by

state statute. These may include the capacity of a program, class, grade level, or school building or the availability of appropriate special education programs operated by the district. The standards shall not include previous academic achievement, athletic or other extracurricular ability, disabilities, proficiency in the English language, or previous disciplinary proceedings except as allowed by law.

An option district shall give first priority for enrollment to siblings of option students within the requirements of state statutes. The board shall follow statutes regarding the application of a student who relocates in a different district but wants to continue attending his or her original resident district or current option district.

Nonresident students not going through option enrollment may also be admitted under a contract with the student's resident district at the discretion of the superintendent upon application and payment of tuition as stated in the contract. The tuition rate shall be the current per-pupil cost of the school district as computed by the superintendent.

Students whose residency in the district ceases during a school year may continue attending school for the remainder of the school year without payment of tuition.

The district may choose to provide transportation to the option student in the same manner as for resident students and may choose whether or not to charge the parents of those option students a fee to recover the district's costs for the transportation. All option students who qualify for free lunches are eligible for either free transportation or the reimbursement of transportation costs from the school district as provided by state statute. Students receiving special education services shall receive transportation services as provided in the student's Individualized Education Plan.

The district shall establish a return to learn protocol for students that have sustained a concussion. The furnishing of a locker, desk or other facility or space owned by the school and provided as a courtesy to a student, even if the student provides the lock for it, shall not create a protected student area and shall not give rise to an expectation of privacy with respect to the locker, desk, or other facility.

School authorities may seize any illegal, unauthorized or contraband materials discovered in the search. Possession of such items will be grounds for disciplinary action including suspension or expulsion and may be reported to local law enforcement officials. The superintendent or building principal shall only release minor students into the custody of a law enforcement officer upon presentation of a court order or warrant for the student's arrest, or under conditions for temporary custody of a juvenile without a warrant as provided by state statutes.

The principal or designee will attempt to notify the parent/guardian or responsible relative prior to the student's release and the place to which the student is reportedly to be taken, except in cases of child abuse.
