e-Funds for Schools - Endorsed by NASB

<http://www.efundsforschools.com>

School Benefits

Cost Savings -this unique program has been designed specifically for schools and can be implemented at virtually no cost to the school.

The program allows parents to pay the school by having their personal checking account or credit card electronically debited, thereby eliminating checks and cash they now send to the school with their students; saving the school time and money.

Enhancement to School's Accounting Program - the program has a fully automated collection, tracking, and recording of funds received for all school functions. e-Funds for Schools also includes an interface into the school's accounting system. Student activity and payment history reports are standard. Cash flow projections and payment forecasting reports are also included. All payment files and reports are Internet accessible.

Multiple Payment Options Available To Parents - parents can select payments by credit card, debit card, or from their checking account. The parent can initiate each payment or they can select the automated, recurring payment service.

Credit Card Acceptance - the school may accept payment via credit card. Because the e-Funds for Schools service is a third party program, arrangements can be made allowing the school to receive the full amount due, eliminating fees a school would normally pay when accepting payment via credit card.

Declining Balances and Recurring Payments - this program can be integrated into the school's lunch program. When a student's lunch fund account runs low, a pre-determined amount will be transferred from the parent's checking or credit card account automatically. The parent is advised of the payment by e-mail.

Parent Benefits

- Parents can eliminate the worry that their children could lose checks or cash for payment of school activities.
- The service requires a simple, one-time registration and has continued ease of use for the parent.
- Payments can be made 24 hours a day from the parent's checking account or from their credit card. This allows flexibility of payments and gives the parent alternate payment choices.
- During a single visit, parents can fund lunch accounts and pay for other school activities for all their children in one payment.
- Automated payments can be activated by parents which assures lunch fund(s) are replenished on a scheduled basis, preventing their child's lunch account from being short of funds.
- Each time a payment is made, the system sends an e-mail to the parent providing them with a payment confirmation.
- Parents may view online payment history for the entire school year.

Policy GBRJ - SUBSTITUTE TEACHERS

Substitute teachers will be paid on a daily rate to be determined by the Board of Education at the June meeting.

If a substitute teaches the same class or for the same teacher for a period longer than ten (10) days, a higher daily rate shall be paid, retroactive to the first day taught.

Such extended service rate of pay shall be ~~based upon the substitute teacher's placement on the salary schedule and wages actually paid shall be computed on a per diem rate of 1/185th of the negotiated base salary for the current year.~~
