FBLA Report

Mrs. Yantzie requested that a small group of FBLA students present to the Board during our February meeting. The group would review some of the things that our FBLA students / chapter have done over the past year. The opportunity is also helpful to a qualification that the chapter is seeking to earn. The brief presentation will occur during the Reports section of the agenda.

Career & Technical Education

We visited this past week with Cheryl Brown, CEO at Henderson Health Care for the purpose of gaining insight about their immediate and long-term workforce development needs. This is part of a process of looking at local workforce development needs for the purpose of contextualizing and focusing CTE opportunities for our students. We'll have similar conversations with other local, workforce stakeholders. Largely we wanted to get a sense of what their needs were and what collaborative opportunities might exist for providing our students with career and career education opportunities through the context of their organization's established workforce and their workforce needs. The conversation was quite fruitful in touching upon some high-quality opportunities for our students. The diversity of HHC's workforce and their location make them a great potential partner for broadening CTE opportunities for our students whether formal or informal. Going forward, I'll work with my team and Cheryl Brown to examine what practical, meaningful, and sustainable steps can be taken to partner with HHC based upon that conversation. Among others, I anticipate having an ongoing conversation with HHC in this regard.

Legislative Items

Like all years, there are a number of items to examine and engage in relating to potential school-related legislation being contemplated in the Unicameral. I have attached the most recent NRCSA bill summary to this report. Two items of note that recently went through their hearings were LB 1038 (Hughes) and LB 765 (Holdcroft).

LB 1038 relates to significant changes in TEEOSA and school finance. I have concerns with the potential impacts of 1038 for our district as it is likely to negatively impact our district's taxpayers due to the funding mechanism and formulary determinations in the bill. There are a lot of details to yet be understood. Senator Hughes provided modeling a couple of weeks ago and NDE was only able to provide modeling in the past week. I'll keep you informed, but early indications point to a potential negative impact for the patrons of districts like Heartland. I anticipate that approximately one-fourth of Nebraska's districts could face the same potential impacts. I have discussed my concerns with Senator Hughes. As my understanding around the mechanics improves I will keep you informed.

LB 765 is aimed at creating more restrictions around bond elections. The central change would be a requirement that at least 50.1% of all voters participate in the election.

NRCSA Legislative Forum

Let me know if you'd like me to get you registered for the NRCSA Legislative Forum. It takes place at the Cornhusker Hotel in Lincoln. It will be held on Thursday, February 26th and will begin at 8:20 AM.

LB31	Conrad	Education	<p>Requires the State Board of Education to create a model policy governing school districts' use of student surveillance technology by December 1, 2025. This policy will require schools to transparently inventory such technologies, including costs, vendors, and privacy protections, and make this information publicly available. The bill cites concerns about student privacy, parental rights, and the responsible use of taxpayer funds. School boards must then adopt compliant policies by May 1, 2026, ensuring that the use of surveillance technology aligns with the state's model policy and protects students' rights. The bill emphasizes the importance of balancing security and efficiency goals with the protection of personal liberty and transparency. Requires the State Board of Education to develop and distribute a model policy regarding student surveillance, monitoring, and tracking technology by December 1, 2025. Each school board must then adopt a written policy consistent with the model policy by May 1, 2026. This policy will be implemented at the start of the 2026-2027 school year. The minimum requirements for the policies are: (1) School districts must identify and inventory all types of surveillance tools and student surveys that gather personal information. This inventory must include: (a) The name and contact information for each private company, vendor, or government entity that provides the technology, (b) The cost to purchase and maintain each surveillance, monitoring, and tracking technology tool, (c) A description of each student surveillance, monitoring, and tracking technology tool, including a description of privacy protection measures for each tool and data collection, data sharing, and usage activities, (d) Whether or not parents may opt their student out of being subjected to a student surveillance, monitoring, and tracking tool, (e) If and how the data will be shared with law enforcement or implicate punitive actions under the Student Discipline Act, (f) How student surveillance, monitoring, and tracking technology tools ensure proper accommodations for students with disabilities or individualized education programs, (g) How biometric or personally identifiable information is stored, shared, or sold with the private companies, vendors, or governmental entities providing such tools, (h) What remedies are available to students and parents for violations of personal privacy related to surveillance, monitoring, and tracking technology tools, including under the Consumer Protection Act, the Political Subdivisions Tort Claims Act, and state statute.</p> <p>School districts must post the inventory and information related to surveillance, monitoring, and tracking technology on the school district's website and ensure that it is available in hard copy upon request.</p> <p>School boards may include additional provisions in their policies that conform to the spirit and intent of the law.</p>	oppose	2/4	NCSA testified on behalf of several groups, including NRCSA	General File

Reduces property tax levy limits for school districts, eliminates the Property Tax Credit Act and School District Property Tax Relief Credit Fund after 2025, and terminates related funds. State aid calculations for schools are revised, with new formulas for equalization aid and adjustments to how property valuations are used in funding calculations. The bill also provides a mechanism for school districts to levy additional property taxes if state aid is insufficient, and sets new limits for special building fund levies. Although some political subdivisions publish the notice in a newspaper, most post the notice in three public places. Notice provided by political subdivisions also shall be given "at least twice a year of the regular meeting schedule, location, and the method designated by the public body to provide reasonable advance publicized notice. Such notice shall be given by publication in a legal newspaper of general circulation within the public body's jurisdiction." This publication requirement does not apply to cities of the second class, villages, and rural or suburban protection fire districts since they typically post notice of their meetings in three public places.
