Planning and implementation of such programs shall be done cooperatively by administration, teachers and parent advisory groups. Special effort shall also be given to administrators and/or supervisors in training pursuant to their obligations in the evaluation of the teacher.

STUDENTS:

Attendance and Excuses:

It has been well demonstrated that regular attendance is a key factor in the success a student achieves in school. Much of what a student learns and is graded on deals with facts, concepts, and theories which are presented and discussed in class. In addition, other learning processes take place in class which may not be measurable, but are most important to a student's overall growth and education.

The Board of Education discourages students from missing school when school is in session. Upon return to school it will be the student's responsibility to complete any work missed due to absence and the parent's responsibility to ensure the work is completed **within five school days.**

Connecticut State law requires parents to cause their children to attend school regularly during the hours and terms the public school is in session. A student, therefore, should not be absent from school without a parent's knowledge and consent.

Connecticut state law requires parents to cause their children, ages five through eighteen inclusive, to attend school regularly during the hours and terms the public school is in session. Parents or persons having control of a child five years of age have the option of not sending the child to school until ages six or seven. Mandatory attendance terminates upon graduation or withdrawal with written parent/guardian consent at age seventeen.

The Board of Education requires that accurate records be kept of the attendance of each child. It also requires that parents and students are provided with policies on attendance, including tardiness, for each school building.

A student is considered to be "in attendance" if present at his/her assigned school, or an activity sponsored by the school (e.g., field trip), for at least half of the regular school day. A student who is serving an out-of-school suspension or expulsion should always be considered absent. A student not meeting the definition of "in attendance" shall be considered absent.

~~It is the policy of the Board of Education that all students shall be in attendance during such days as school is in session. The administration shall be the sole judge as to whether an absence is excused or unexcused. An excused absence is defined as:~~

A. For absences one through nine, a student's absences from school are considered "excused" when the student's parent/guardian approves such absence and submits appropriate documentation to school officials.

Such documentation includes a signed note from the student's parent/guardian, a signed note from a school official that spoke in person with the parent/guardian regarding the absence, or a note confirming the absence by the school nurse or by a licensed medical professional, as appropriate. Documentation should explain the nature of and the reason for the absence as well as the length of the absence. Separate documentation must be submitted for each incidence of absenteeism.

B. For the tenth absence and all absences thereafter, a student's absences from school are considered excused for the following reasons:

1. Student illness (must be verified by a licensed medical professional to be deemed excused, regardless of the length of the absence);
2. Student's observance of a religious holiday;
3. Death in the student's family or other emergency beyond the control of the student's family;
4. Mandated court appearances (documentation required);
5. The lack of transportation that is normally provided by a district other than the one the student attends (no parental documentation required);
6. Extraordinary educational opportunities pre-approved by District administration and to be in accordance with Connecticut State Department of Education guidance.

C. A student's absence from school shall be considered unexcused unless:

1. The absence meets the definition of an excused absence and meets the documentation requirements; or
2. The absence meets the definition of a disciplinary absence, which is the result of school or District disciplinary action and are excluded from these State Board of Education approved definitions.

When the school in which a child is enrolled receives no notification from a parent or other person having control of the child is aware of the child's absence, a reasonable effort shall be made by school personnel or volunteers under the direction of school personnel to notify by telephone and by mail such parent or other person having control of the child.

- 1) Personal illness or injury
- 2) Medical/professional/legal appointments which cannot be made outside the regular school day
- 3) Religious obligation
- 4) Emergency family situations
- 5) An emergency caused by weather conditions
- 6) Administrative suspension from school
- 7) Other circumstances which, in the judgment of the Principal, may be taken into consideration

If the student absence has not been verified by the parent via telephone, a written note signed by the parent must be submitted when the student returns to school.

At Somers High School credit for courses taken is conditional on the satisfaction of attendance requirements specified in the relevant Administration Regulations approved by the Board of Education. The attendance requirements for credit will be affected by the total number of absences, excused and unexcused.

**Instruction****Physical Activity**

The Board believes every student shall develop the knowledge and skills necessary to perform a variety of physical activities, maintain physical fitness, regularly participate in physical activity, understand the short and long-term benefits of physical activity, and value and enjoy physical activity as an ongoing part of a healthful lifestyle. In addition, staff is encouraged to participate in and model physical activity as a valuable part of daily life.

District schools have a responsibility to help students and staff establish and maintain lifelong habits of being physically active. Regular physical activity is one of the most important things people can do to maintain and improve their physical health, mental health, and overall well-being.

School authorities shall encourage and develop schedules that provide time within every school day for preschool, kindergarten, and elementary school students to enjoy supervised recess. Recess shall complement, not substitute for, physical education classes. Staff shall not deny a student's participation in recess or other physical activity as a form of discipline or punishment, nor should they cancel it for instructional makeup time.

**Physical Activity and Discipline**

### **Weapons and Dangerous Instruments**

The Board of Education determines that possession, concealment, and/or use of a weapon by a student is detrimental to the welfare and safety of the students and school personnel within the district. Possession and/or use of any dangerous or deadly weapon, firearm, or destructive device in any school building on school grounds, in any school vehicle, or at any school-sponsored activity is prohibited.

Such weapons include but are not limited to any pistol, revolver, rifle, shotgun, air gun or spring gun; slingshot; bludgeon; brass knuckles or artificial knuckles of any kind; knives having a blade of greater than two inches, any knife the blades of which can be opened by a flick of a button or pressure on the handle, or any pocketknife where the blade is carried in a partially opened position; martial arts weapon; destructive device.

A “dangerous weapon” is any weapon, device, instrument, material or substance, which under the circumstances in which it is used, attempted to be used or threatened to be used is readily capable of causing death or serious injury. A “deadly weapon” is any instrument, article or substance specifically designed for and presently capable of causing death or serious injury.

Pursuant to federal law, the term firearm includes, but is not limited to, any weapon designed to or may readily be converted to expel a projectile by the action of an explosive, the frame or receiver of any such weapon, a muffler or silencer for such a weapon, or destructive device. A student who violates this policy will be reported to law enforcement authorities.

A “destructive device” is considered any device with an explosive, incendiary or poison gas component or any combination of parts either designed or intended for use in converting any device into any destructive device or from which a destructive device may be readily assembled. A destructive device does not include any device which is designed primarily for use as a signaling, pyrotechnic, line-throwing, safety or similar device.

The possession or use of any such weapon or devices will require that the proceedings for the suspension and/or expulsion of the student involved will be initiated immediately by the principal. If the student is found to have possessed a firearm or other dangerous weapon as defined in Connecticut General Statutes 53a-3 in violation of 29-35 or 53-206, in or on the real property of a school or at any school activity as defined in Connecticut General Statutes 10-233a, he/she must be expelled for one calendar year. The Board of Education or hearing board may modify the period of expulsion on a case by case basis. To comply with federal law, any finding of an exception shall be reduced to writing. All legal restrictions and requirements will be adhered to pertaining to special education students.

The Board shall consider a student's conduct off school grounds that is seriously disruptive of the educational process or is violative of publicized policies of the Board as grounds for expulsion.

## **BOE Summer School Report 2013**

For the first time this year, we piloted a summer school at Somers High School using the online Odysseyware program. The response by both students and parents was extremely positive resulting in more students taking summer school than in most recent years. Below is a breakdown.

- 13 students enrolled in 16 courses.
- 11 students earned credit in 13 courses resulting in 2 students receiving their diplomas
- 2 students have been given an incomplete and have been given a specified amount of time to complete

As a result of enrollment, SHS was able to purchase 5 additional Odysseyware licenses for the 2013/14 academic year. The program is used in our Alternative Program and can now be used for other students as a result of more licenses.
