Recognitions

A. **February Employees of the Month – Plymouth Creek**

Plymouth Creek was proud to recognize two of their second grade teachers as the February Wayzata Employees of the Month. Anne and Ruth came to Plymouth Creek when the school opened in 1989. They have been working together in some capacity ever since providing leadership in literacy and learning. Anne and Ruth are described by their peers as “gentle souls, who are always so positive, supportive, warm and encouraging with students and colleagues.” They are truly great assets to the Plymouth Creek community. They are talented and committed teachers and role models with a great sense of humor, a quick smile, and a gift for helping others.

Anne Martin taught in Wisconsin for twelve years before coming to Wayzata as a Reading Teacher at Oakwood Elementary. Anne said, “I love teaching because every year is different and there is always something new and exiting to learn. I also appreciate the many wonderful mentors I have worked with and the colleagues who always put students first.” After receiving her award, Anne said, “I’m fortunate to have landed in Wayzata. I am humbled by this recognition by our colleagues. I’d like to thank our second grade team, we are better teachers because of them!” Congratulations Anne!

Ruth Scheef started her career in Chicago as a Special Education Teacher. After moving to Minnesota she started at Plymouth Creek as a paraprofessional and then a first and second grade teacher. Ruth was an early leader in the Writers Workshop and continues to lead by her example. She is grateful for her colleagues and said she would rather have the most challenging students and a team to collaborate with than not have a team. These relationships have been life giving and what she loves most about Plymouth Creek. Congratulations Ruth!

Today, the department offers nutritious meals with engaging merchandising and programs that have increased student participation at breakfast and lunch. Efficiency and financial management has been important in allowing Mary to make many improvements such as inventory systems, internet payment systems and cafeteria equipment upgrades. Mary stated, “We serve 500 breakfasts and

1. Approval of Proposed School District Calendar – 2011-2012

When constructing a school calendar, many issues have to be considered. It is important to balance, as closely as possible, the number of days among the quarters and between semesters. Other things to consider are testing and conferencing schedules, and quarter breaks in a manner that reflects sound educational practice.

The length of winter break, the timing of spring break, and the last day of classes for students and staff, must be manipulated so that we have 172 student contact days and 184 teacher workdays.

We have maintained our commitment to have two years of calendars available to our staff and community.

A motion was made by Mr. Hesby and seconded by Ms. Cohen to approve the Proposed School District Calendar for 2011-2012 as presented. The motion passed unanimously.

2. Approval of Plymouth Creek Elementary Shared Decisions Agreement

Dr. Karla Thompson, principal at Plymouth Creek Elementary, and members of the Plymouth Creek Elementary administration and site council presented the proposed Shared Decisions Agreement between Plymouth Creek and the Wayzata School Board for the 2010 – 2012 school years.

The proposed agreement was reviewed by the Superintendent, Executive Directors of Curriculum and Instruction, Finance & Business, Human Resources, and by the Wayzata Education Association leadership to ensure compliance with statutes, contracts, policies and administrative regulations.

3. Resolution Providing for Issuance of Capital Facilities Bond

Principal and interest payments will be made from existing general fund revenues dedicated by statutes for capital purposes and as such, an issuance of these bonds will not have an increase on our taxpayers.

A motion was made by Ms. Gleason and seconded by Mr. Hesby to waive the reading and authorize the Resolution Providing for Issuance of Capital Facilities Bonds, Series 2010A as presented. A roll call vote was taken and the following voted in favor thereof; Mr. Jay Hesby, Mr. John Moroz, Ms. Linda Cohen, Ms. Susan Droegemueller, Ms. Susan Gaither, Ms. Patricia Gleason and Ms. Carter Peterson; and the following voted against the same; no one; whereupon the motion passed on a 7-0 vote.

ITEM: A. Employee of the Month

COMMENTS BY: Superintendent Anderson

Kimberly Lane is proud to name **Carol Dunsmore-Clement** as the March Employee of the Month. Carol, a 25 year teacher in Wayzata schools, has been a member of Kimberly Lane's faculty since its doors opened in 1991. As is the case with many schools, our faculty has a few unsung heroes and Carol probably fits that category. Carol has been a special education instructor for her entire career. Over the years she has helped scores of students overcome their disabilities and become successful learners.

Words that describe Carol are calm, prepared, purposeful, dependable and always professional. She creates relationships with her students and their families in a caring and concerned manner. She also communicates with staff effectively so that everyone clearly understands each student's IEP. Carol earned the respect of her colleagues years ago and that respect continues to grow. Carol is a professional we admire. We are thankful for what she has done and what we know she will do each and every day.

Congratulations Carol!

COMMENTS BY: Superintendent Anderson

Hari Ganti, a junior at Wayzata High School, earned top awards at the Twin Cities Regional Science Fair held February 12-13 in Minneapolis. Hari will now advance with his project to the state science fair held in St. Paul at the end of March.

Hari also received one of the region's top awards and was selected to represent Minnesota at the International Sustainable World Engineering, Energy and Environment Project Olympiad in Texas in April.

Hari's project, Optimizing and Airfoil for Inviscid Airflow, modeled the efficiency of a NACA 0012 airfoil and evaluated a series of possible improvements that could be made to increase the airfoil's performance. His research was conducted with guidance from University of Minnesota and NASA scientists.

Student Achievement Goals 2008-2010

2008-2009 Site Goal: 68.5 percent of Birchview Elementary students in grades 3-5 will meet or exceed their RIT score growth target as measured by the NWEA MAP reading assessment.

Goal Achieved: 73.4 percent of Birchview Elementary students in grades 3-5 met or exceeded their RIT score growth target as measured by the NWEA MAP reading assessment.

2008-2009 Elementary Equity Goal: Increase the reading mean RIT growth for Black students from 8.76 to 10.76 as measured on the NWEA MAP reading assessment.

Goal Achieved: Mean growth for black students 12.2 RIT points as measured on the NWEA MAP reading assessment.

2009-2010 Site Goal: 72.1 percent of all students in grades 3-5 at Birchview Elementary will achieve or exceed their individual RIT score growth target on the reading NWEA Map in spring 2010.

The grade-level percentage of students that achieved or exceeded their individual RIT score growth target (fall to spring) from the 2008/2009 school year was 72.0% of third going to fourth, 65.9% of the fourth going to fifth grade. The percent of students who achieved or exceeded their individual RIT score growth target in third grade 2008/2009 will be used to forecast for third grade 2010. Using this cohort model we identified 70.1% for our growth performance in 2008/2009. The cohort model growth performance in 2008/2009 is based on a weighted average, reflecting 107 students in grade 3, 102 students in grade 4 and 97 students in grade 5. Reaching the goal will result in at least 6 more students achieving or exceeding their individual RIT score growth target. Given the enrollment increase at Birchview Elementary, this is a challenging goal.

2009-2010 Elementary Equity Goal:

The percent of elementary black students who meet the MCA projected proficiency level as measured by the NWEA MAP spring 2010 reading assessment will increase from 73% to 78%.

Summary/Interpretation of Data Analysis:

- When comparing Birchview Elementary School to other schools in the nation that administer the NWEA MAP test, the school percentile rank for the percentage of students meeting or exceeding their RIT point growth target in reading is as follows:
 - Third grade students approximately the 90th percentile
 - Fourth grade students approximately the 80th percentile
 - Fifth grade students above the 95th percentile
- Note: Students can show growth without meeting or exceeding their targeted RIT growth target.
- There was a decrease in the number of students who were below projected proficiency that did not meet targeted growth when comparing the 07-08 school year to the 08-09 school year. In the 08-09 school year, a total of 20 students were below projected proficiency.
- The greatest opportunity for growth continues to be with the students whose MAP scores identify them as projected proficient on the MCA, yet are not making targeted growth.
- Strand analysis in reading identified vocabulary development and word analysis as an appropriate area of concentration for professional development and instructional focus.
- Strand analysis in mathematics identified spatial sense as an area of concentration.

Action Plan to Achieve Goals:

Birchview Elementary Sponsored Academy Course – This course will explore an expanded use of word analysis and vocabulary development strategies to support increases in our students’ language arts skills across the elementary grades. There will be an emphasis on creating learning environments that reflect promising practice as described in Dr. Michael F. Graves’ work in this area, from the University of Minnesota. The course will emphasize instructional practice that conscientiously reflects on the standards, benchmarks, and essential learning that children develop in Wayzata academic settings. Participants will consider promising practices that reflect the following:

- 1) Analysis of student formative assessment data
- 2) Identify the instructional needs of students
- 3) Implementation of current promising practice in word analysis and vocabulary development
- 5) Instructional planning to locate curricular content and instructional strategies in lessons
- 6) Development or access on instructional technology to enhance engagement
- 7) Implementation
- 8) Ongoing assessment practices
- 9) Outcome analysis

The exploration will include contextualizing concepts to Birchview Elementary students and the developmental progression these students demonstrate as they mature in their academic abilities. Teachers will use the Minnesota Academic Standard and Benchmarks in language arts to consider instructional experiences that promote growth.

Culturally Responsive Literacy Training – Staff leadership week-long train the trainer session focused on literacy instructional strategies that support diverse learners. Development of two cohorts that will explore culturally responsive literacy instruction and learning climates.

Literacy Institute Training for Birchview Elementary Teacher Team – Staff representative instructional team attends the Hamline Literacy Institute to further explore promising practices with an emphasis on identifying how classroom practices can target word analysis and vocabulary learning and further focus instruction on essential outcomes.

Site Based Professional Development – Site based professional development days will focus on analyzing assessment student baseline data to curriculum based measures and target area benchmarks to refine instructional focus areas and classroom based efforts. Culturally Responsive Instruction will also be explored to consider professional resources and reflection.

Peer Coach Sessions – Peer coach model will continue both formative and summative observations of teachers and provide reflections and feedback on effective literacy instruction.

Staff Meetings – Regular staff meetings will focus on grade-level and specialist teams organizing formative assessments to provide data on the impact of efforts at improving word analysis and vocabulary outcomes.
