EXECUTIVE SUMMARY

In February 2013, the Wayzata School Board appointed a 16-member Community Task Force on Facilities comprised of a broad cross section of interests from the Wayzata School District – existing residents, District alumni, new residents, parents, and grandparents.

The Task Force's purpose was to study the effect of District growth on the District's educational facilities needs over the next 8-10 years and make recommendations to the School Board based on its findings.

To accomplish this task, the Task Force analyzed, among other things, current student enrollment, projected enrollment growth, current District facilities capacities, and projected future capacities and related costs.

The Task Force met five times between March and May 2013, spending 10 hours in large and small group sessions, plus additional "homework time" outside the meetings. The discussions were open and honest and, at times, heated – with different Task Force members playing devil's advocate to probe a position further.

As a result of its thorough and deliberate efforts, the Task Force reached consensus on the following recommendations, all of which will be further detailed in this *Report*, for consideration by the School Board:

1. Build an Addition to the High School to Accommodate Forecasted Population Growth: As its next major building project, the District should build an addition to the High School to accommodate 900 more students. The High School is over capacity now and, based on projected growth, it is forecasted to be further over capacity by the 2013-14 school year, and significantly over capacity by 2017-18 (430 students over), reaching 900 students over capacity in 2020-21. This recommended addition to the current High School will allow the District to better accommodate projected residential growth for the next 10 years. The addition should allow for the current capacity need and the movement of the adults into the High School from Central Middle School.
2. Expand Parking and Outdoor Facilities at the High School: As part of the expansion of the High School, there will be a need for additional parking and outdoor facilities. The Task Force supports the purchase of the adjacent 36 acres made available by a local developer. Redevelopment of this land should occur to support the needs of District and the community.
3. Move Adults from Central Middle School to the Expanded High School to Accommodate Expanding Middle School Population: The District should continue to create additional Middle School capacity by moving out the adults at Central Middle School so additional space can be made available for classrooms. Like the High School, the Middle Schools also currently have a pressing need for capacity relief. The Middle Schools are forecasted to have an additional capacity need of 173 in 2015 that can be accommodated at Central Middle School. The adults will need to move, as an interim step, to the High School in 2015 to allow for this additional capacity.
4. Update Security and Energy Efficiency: The District should continue to seek to improve greeter / secure entrances at affected schools, improve security systems, utilize energy savings arrangements, and upgrade IT network redundancy, all of which will enhance District operations.
5. Update Media Centers and Classroom Space to Meet New Educational Methodologies: The District should upgrade its Media Centers and classroom furniture to support changing learning methodologies and make them "best practice".
6. Purchase Additional Land in Preparation for Potential Additional Elementary School Need: To maximize future District flexibility, the District should buy additional land sufficiently sized to build a potential future school north of Highway 55 and within the District boundaries.
7. Prepare for Potential Need for Additional Elementary School: Because the next capacity concern is likely to be the Elementary Schools, the School Board should consider convening another Task Force in the future to study that issue.

National School Board Association 2013 Conference

April 13 – 15, 2013, San Diego, CA

RECOMMENDATIONS:

1. Attend this conference next year
2. Monthly updates on our Strategic Plan
3. Site visits both in state and out of state: Examples:
 - a. Local: Farmington:
<http://www.rschoolday.com/se3bin/clientschool.cgi?schoolname=school589>
 - b. Elsewhere: Klein ISD, TX:
<http://www.kleinisd.net>
4. Spend more time on the phone asking questions of those that have had a technology initiative for at least 5 years to ask them what are they doing with their Media Centers and why. One idea is Klein ISD in Texas (see above) which has had a technology initiative for 10 years.
5. Student Surveys - many districts use these surveys to receive accurate feedback
6. Websites to check out:
 - c. Success for All Foundation: <http://www.successforall.org>
 - d. The Center for Public Education:
<http://www.centerforpubliceducation.org>
 - e. National Student Clearing House:
