Communications and Records Policy Series

The following is a list of current 287 Board policies that contain some aspect of the Board's vision for communications and records in the District:

1111	District Sponsored Media
1112	Other Media: Communications from Outside the District
1112.1	Media Relations
1314	Advertising in the District
4118	Technology Acceptable Use and Safety Policy
4132.2	Copyright of District Materials
1610	Private School Relations

In preparation for revising the current policies, I reviewed the following sources of requirements and information: Federal Statutes, Federal Regulations, Minnesota Statutes, Intermediate District 287 policies and procedures, policies of 287's member districts, and MSBA model policies. Of the policies related to Communications and Records, the following policy is mandated: Technology Acceptable Use and Safety.

After reviewing the aforementioned sources of requirements and information, I drafted two policies. First, I drafted a general policy that describes the overarching goals of the Board's policies within the Communications and Records bucket. It incorporates four policies: Other Media, Advertising in the District, Media Relations and District-Sponsored Media. In light of their inclusion in the goals policy, I recommend elimination of those four policies.

Second, I drafted a Technology Acceptable Use and Safety Policy that is consistent with recently-promulgated federal requirements. See Children's Internet Protection Act, 47 C.F.R. 54.520(c)(1)(i). Portions that are more appropriate for inclusion within a procedure were removed from the policy and will be retained for a procedure of the same name.

The current Copyright of District Materials policy does not express the Board's vision, beliefs or ideas. It merely states that district employees will follow federal laws and rules, which is an assumption of fact. A policy regarding copyrights is not required under federal law, but a procedure is. See Circular 21, Reproduction of Copyrighted Works by Educators and Librarians; Copyright Act, 17 U.S.C. §§ 107, 110. There is a district procedure on copyrights in existence but will need review to ensure that it is up to date.

The current policy regarding Private School Relations also does not express the Board's vision, beliefs or ideas. It also is not required under state or federal law. Therefore, I recommend that this policy be eliminated.

ADVERTISING

I. PURPOSE

The purpose of this policy is to provide clear restrictions on advertising in the District.

II. GENERAL STATEMENT OF POLICY

- A. In order to maintain an educational environment with minimal distractions, it is the District's policy that students, staff, the name or facilities of the District, or any part thereof shall not be used as a means for advertising or promoting the interests of a commercial or nonprofit organization.
- B. Any non-District affiliated organization's materials distributed via the District to students must not contain advertising beneficial to a particular group or business.

III. EXCEPTIONS

- A. This policy does not prevent student publications published by student organizations from accepting and publishing advertisements if the contact is approved by administration. Advertisements may be rejected by administration if determined to be inconsistent with the educational objectives of the District or inappropriate for inclusion in the publication. The inclusion of advertisements in student publications does not constitute approval or endorsement of any product, service, organization or activity.
- B. This policy does not prohibit the use of commercially-sponsored free teaching materials. Although the materials may contain advertising, this feature should be inconspicuous and the commercial purposes of the sponsor should not be dominant in the material. The content of the materials must be approved by administration.

SUBJECT:

BOARD APPROVED:

REVISION DATE:

GOALS

I. PURPOSE

The purpose of this policy is to ensure that the District maintains regular and ongoing communication with member districts and the public and to encourage the use of media and technology to maintain such communication.

II. GENERAL STATEMENT OF POLICY

The Board recognizes that regular and ongoing communication with member districts and the public about the District helps improve the quality of education for our students. The Board also recognizes that these interests must be balanced with efforts to protect student and staff safety, privacy and general well-being.

III. COMMUNICATIONS AND RECORDS GOALS

The Board seeks to accomplish the following goals:

- A. Promote public interest of the District through the use of District-sponsored media;
- B. Maintain a learning environment that minimizes distractions from solicitation and advertising and to have the Board review all requests from non-District affiliated organizations to advertise within the District;
- C. Provide procedures for communicating with the media and to designate the Public Relations Liaison as the point person for media inquiries, in order to ensure consistent and accurate information about the District;
- D. Provide staff and students with opportunities to access the resources available through District technology for the purposes of teaching and learning, and to ensure its safe and appropriate use; and

- E. Encourage the incorporation of media sources in the curriculum and teaching materials while maintaining proper compliance with copyright laws.

DRAFT POLICY

POLICY SERIES: Communications and Records

SUBJECT: Media Relations

BOARD APPROVED:

REVISION DATE:

MEDIA RELATIONS

I. PURPOSE

The purpose of this policy is to ensure consistency and fairness in dealing with media representatives, to present accurate information, to minimize the possibility of errors or conflicting information, to protect the privacy rights of students, staff, and families, and to ensure that media relations efforts support and promote the mission and objectives of the District.

II. GENERAL STATEMENT OF POLICY

- A. The superintendent is encouraged to use all available District-sponsored media to keep the goals, programs, achievements and needs of the District before the public.
- B. The Board supports the right of the media and public to receive accurate and timely information regarding District programs, services, governance and events. The District is encouraged to establish respectful, cooperative and constructive relationships that build trust and credibility with the media.
- C. Public relations activities should not disrupt or distract student learning and should respect the privacy rights of students, their families and District staff.

III. OFFICIAL COMMUNICATIONS

- A. The public is best served by a consistent, accurate and fully informed message about the District and its programs. Therefore, Community Information Services is responsible for official communications between the District and the news media. All other District employees shall refer media requests for information regarding the school, its staff or students, interviews of staff or students at school, or media visits to a school site or location to Community Information Services.

- B. The Public Relations Liaison shall ensure proactive communication with media representatives, including publicizing events, activities and accomplishments. The Public Relations Liaison shall also promptly respond to media inquiries or provide media representatives with access to personnel most knowledgeable about the issue, when necessary and appropriate.
- C. The Superintendent is the primary spokesperson for the District. The School Board Chair or designee is the spokesperson for the School Board. Building Principals are the spokespersons for their respective schools.

_____ Technology Acceptable Use and Safety Policy

I. PURPOSE

The purpose of this policy is to set forth guidelines for the safe and acceptable use of the District's technology. The District's technology includes but is not limited to desktop computers, laptops, netbooks, telephones, voicemail, mobile phones, other wireless devices, mobile computing devices and the applications they support and/or access.

II. GENERAL STATEMENT OF POLICY

In making decisions regarding student and employee access to the District's technology, the District considers its own stated educational mission, goals and objectives. Electronic information research skills are now fundamental to the preparation of citizens and future employees. The District expects instructional staff to integrate thoughtful use of the District's technology throughout the curriculum and to provide guidance and instruction to students to use these resources safely and wisely.

III. LIMITED EDUCATIONAL PURPOSE

The District provides students and employees with access to its technology for a limited educational purpose. This limited educational purpose includes use of the District's technology for classroom activities, educational research, and professional or career development activities consistent with the mission of the District and its policies. Use of the internet may include using electronic mail, creating Internet Web pages, and sending, receiving, storing and sharing documents. Students will receive information about safe and responsible use of the internet, including how to protect their personal information when communicating on the internet, cyberbullying and harassment. Uses, which might be acceptable on a user's private personal account on another system, may not be acceptable on this limited-purpose network.

IV. USE OF TECHNOLOGY IS A PRIVILEGE

A. The use of District technology is a privilege, not a right. When using District technology, students and staff shall not utilize language that is inappropriate in the educational setting or is disruptive to the educational process; engage in activities that are illegal; engage in plagiarism or copyright infringement or engage in actions that jeopardize the security of the technology. District

technology shall not be used to: vandalize, damage or disable the property of another person or organization; deliberately degrade or disrupt equipment, software or system performance by spreading computer viruses or by any other means; tamper with, modify or change the District software, hardware or wiring or take any action to violate the District's security system; or disrupt the use of the system by other users. District technology shall be used in a manner that protects the confidentiality of information about students and staff and is fully in accord with the student and staff confidentiality protection requirements of federal law, state law, and District policy. A complete list of unacceptable uses may be found in the District's procedure on Technology Acceptable Use and Safety.

B. The District has the authority to impose consequences on and take disciplinary measures against any student or employee who engages in an act that has the effect of harassing, intimidating, or otherwise advocating violence or discrimination against other people that takes place through the use of District technology, use of a personal electronic device on District property, or any off-campus activities that cause or threaten to cause a substantial or material disruption at school or interference with the rights of students and employees to be secure. Depending on the nature and degree of the violation and the number of previous violations, unacceptable use of the District technology or the Internet may result in one or more of the following consequences: suspension or cancellation of use or access privileges; payments for damages and repairs; discipline under other appropriate District policies, including suspension, expulsion, exclusion or termination of employment; or civil or criminal liability under applicable laws.

V. FILTER

A. With respect to any of its technology, the District may at any time monitor the online activities of minors and employ technology protection measures during any use of such computers by minors and adults. The technology protection measures utilized will block or filter internet access to any visual depictions that are 1) obscene; 2) child pornography; or 3) harmful to minors.

B. The term "harmful to minors" means any picture, image, graphic image file, or other visual depiction that: 1. taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion; or 2. depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals; and 3. taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.

Due to the nature of the internet, there can be no absolute guarantee that the

technology protection measures implemented will fully protect students against access to material or people that may be considered inappropriate or potentially harmful. The District will not be responsible for any damage students may suffer if they accidentally or intentionally are exposed to such materials or people.

VI. LIMITED EXPECTATION OF PRIVACY

By authorizing use of its technology, the District does not relinquish control over materials on the District's system. Users should expect only limited privacy in the materials (including personal files) on the District's system.
