May Board Report

1. Financial Report

We have received all PO's from staff and are looking through them all and will get those approved or denied in the coming weeks. The school district is well taken care of so most purchases are focused on curriculum and some minor classroom material upgrades. Overall, we are sitting right where we need to be for finances at this time of the year.

2. Transportation, Buildings, and Grounds

We have a plan for HVAC which they will be here next week to work on after the elementary concert. We are also scheduled for all the crews to be in on May 26th to plan and do all the mapping out to make the project as efficient as possible.

I am finalizing the summer work list as we speak so that our staff has ample time to plan on what needs to be prioritized or what might need to wait based on location due to other projects.

3. Vacancy Update

We are currently looking for a 1st grade teacher and have three applicants possibly a fourth. We are conducting interviews this week and will be sending an update to you all once we have that solidified.

4. Superintendent goals and development

We will be discussing this later during the meeting but I really appreciate the feedback and I look forward to improving and learning from my first year!

5. Superintendents Development

One major accomplishment that happened in April was the completion of the Rule 10 State Audit process. This work required extensive review and organization of district policies, procedures, documentation, and compliance measures to ensure the district continues to meet all state accreditation and accountability expectations. I appreciate the cooperation of staff members throughout the process and their commitment to maintaining high standards for our schools.

In addition, significant time was dedicated to the development and completion of the district's Targeted Improvement Plan for Special Education. This process involved reviewing student performance data, identifying areas of need, collaborating with staff and service providers, and establishing action steps designed to improve outcomes and supports for students receiving special education services. The completed plan provides a focused framework for continued growth and accountability in serving all learners.

Beyond these larger initiatives, April also included the many day-to-day responsibilities associated with district leadership and operations. These responsibilities included staff supervision and support, student discipline matters, budget and financial oversight, planning for staffing and scheduling needs for the upcoming school year, communication with families and community members, attendance at school activities and events, and ongoing collaboration with administrators, teachers, and the Board of Education to address district needs and priorities.

As we move into the final weeks of the school year, the district remains focused on finishing the year strong while continuing preparations for summer projects and the 2026–2027 school year.

Thanks!
