404 EMPLOYMENT BACKGROUND CHECKS

[Note: The provisions of this policy substantially reflect statutory requirements.]

I. PURPOSE

The purpose of this policy is to maintain a safe and healthful environment in the school district in order to promote the physical, social, and psychological well-being of its students. To that end, the school district will seek a criminal history background check for applicants who receive an offer of employment with the school district and on all individuals, except enrolled student volunteers, who are offered the opportunity to provide athletic coaching services or other extracurricular academic coaching services to the school district, regardless of whether any compensation is paid, or such other background checks as provided by this policy. The school district may also elect to do background checks of other volunteers, independent contractors, and student employees in the school district.

II. GENERAL STATEMENT OF POLICY

- A. The school district shall require that applicants for school district positions who receive an offer of employment and all individuals, except enrolled student volunteers, who are offered the opportunity to provide athletic coaching services or other extracurricular academic coaching services to the school district, regardless of whether any compensation is paid, submit to a criminal history background check. The offer of employment or the opportunity to provide services shall be conditioned upon a determination by the school district that an individual's criminal history does not preclude the individual from employment with, or provision of services to, the school district.
- B. The school district specifically reserves any and all rights it may have to conduct background checks regarding current employees, applicants, or service providers without the consent of such individuals.
- C. Adherence to this policy by the school district shall in no way limit the school district's right to require additional information, or to use procedures currently in place or other procedures to gain additional background information concerning employees, applicants, volunteers, service providers, independent contractors, and student employees.

III. PROCEDURES

- A. Normally an individual will not commence employment or provide services until the school district receives the results of the criminal history background check. The school district may conditionally hire an applicant or allow an individual to provide services pending completion of the background check but shall notify the individual that the individual's employment or opportunity to provide services may be terminated based on the result of the background check. Background checks will be performed by the Minnesota Bureau of Criminal Apprehension (BCA). The BCA shall conduct the background check by retrieving criminal history data as defined in Minn. Stat. §Minnesota Statutes section 13.87. The school district reserves the right to also have criminal history background checks conducted by other organizations or agencies.

- B. In order for an individual to be eligible for employment or to provide athletic coaching services or other extracurricular academic coaching services to the school district, except for an enrolled student volunteer, the individual must sign a criminal history consent form, which provides permission for the school district to conduct a criminal history background check, and provide a money order or check payable to either the BCA or to the school district, at the election of the school district, in an amount equal to the actual cost to the BCA and the school district of conducting the criminal history background check. The cost of the criminal history background check is the responsibility of the individual, unless the school district decides to pay the costs for a volunteer, an independent contractor, or a student employee. If the individual fails to provide the school district with a signed Informed Consent Form and fee at the time the individual receives a job offer, or permission to provide services, the individual will be considered to have voluntarily withdrawn the application for employment or request to provide services.

[Note: If the school district elects to receive payment, it may, at its discretion, accept payment in the form of a negotiable instrument other than a money order or check and then pay the superintendent of the BCA directly to conduct the background check.]

- C. The school district, in its discretion, may elect not to request a criminal history background check on an individual who holds an initial entrance license issued by the Minnesota Professional Educator Licensing and Standards Board or the [Minnesota Commissioner of Education](#) within the 12 months preceding an offer of employment or permission to provide services.
- D. The school district may use the results of a criminal background check conducted at the request of another school hiring authority if:
1. the results of the criminal background check are on file with the other school hiring authority or otherwise accessible;
 2. the other school hiring authority conducted a criminal background check within the previous 12 months;
 3. the individual executes a written consent form giving the school district access to the results of the check; and
 4. there is no reason to believe that the individual has committed an act subsequent to the check that would disqualify the individual for employment or provision of services.
- E. For all nonstate residents who are offered employment with or the opportunity to provide athletic coaching services or other extracurricular academic coaching services to the school district, the school district shall request a criminal history background check on such individuals from the superintendent of the BCA and from the government agency performing the same function in the resident state or, if no government entity performs the same function in the resident state, from the Federal Bureau of Investigation. The offer of employment or the opportunity to provide services shall be conditioned upon a determination by the school district that an individual's criminal history does not preclude the individual from employment with, or provision of services to, the school district. Such individuals must provide an executed criminal history consent form.
- F. When required, individuals must provide fingerprints to assist in a criminal history

background check. If the fingerprints provided by the individual are unusable, the individual will be required to submit another set of prints.

- G. Copies of this policy shall be available in the school district's employment office and will be distributed to applicants for employment and individuals who are offered the opportunity to provide athletic coaching services or other extracurricular academic coaching services upon request. The need to submit to a criminal history background check may be included with the basic criteria for employment or provision of services in the position posting and position advertisements.
- H. The individual will be informed of the results of the criminal background check(s) to the extent required by law.
- I. If the criminal history background check precludes employment with, or provision of services to, the school district, the individual will be so advised.
- J. The school district may apply these procedures to other volunteers, independent contractors, or student employees.
- K. At the beginning of each school year or when a student enrolls, the school district will notify parents and guardians about this policy and identify those positions subject to a background check and the extent of the school district's discretion in requiring a background check. The school district may include this notice in its student handbook, a school policy guide, or other similar communication. A form notice for this purpose is included with this policy.

IV. CRIMINAL HISTORY CONSENT FORM

A form to obtain consent for a criminal history background check is included with this policy.

506 STUDENT DISCIPLINE

[Note: School districts are required by statute to have a policy addressing these issues.]

I. PURPOSE

The purpose of this policy is to ensure that students are aware of and comply with the school district's expectations for student conduct. Such compliance will enhance the school district's ability to maintain discipline and ensure that there is no interference with the educational process. The school district will take appropriate disciplinary action when students fail to adhere to the Code of Student Conduct established by this policy.

II. GENERAL STATEMENT OF POLICY

The school board recognizes that individual responsibility and mutual respect are essential components of the educational process. The school board further recognizes that nurturing the maturity of each student is of primary importance and is closely linked with the balance that must be maintained between authority and self-discipline as the individual progresses from a child's dependence on authority to the more mature behavior of self-control.

All students are entitled to learn and develop in a setting which promotes respect of self, others, and property. Proper positive discipline can only result from an environment which provides options and stresses student self-direction, decision-making, and responsibility. Schools can function effectively only with internal discipline based on mutual understanding of rights and responsibilities.

Students must conduct themselves in an appropriate manner that maintains a climate in which learning can take place. Overall decorum affects student attitudes and influences student behavior. Proper student conduct is necessary to facilitate the education process and to create an atmosphere conducive to high student achievement.

Although this policy emphasizes the development of self-discipline, it is recognized that there are instances when it will be necessary to administer disciplinary measures. The position of the school district is that a fair and equitable district-wide student discipline policy will contribute to the quality of the student's educational experience. This discipline policy is adopted in accordance with and subject to the Minnesota Pupil Fair Dismissal Act, ~~Minn. Stat. §§ Minnesota Statutes sections~~ 121A.40-121A.56.

In view of the foregoing and in accordance with ~~Minn. Stat. §Minnesota Statutes section~~ 121A.55, the school board, with the participation of school district administrators, teachers, employees, students, parents, community members, and such other individuals and organizations as appropriate, has developed this policy which governs student conduct and applies to all students of the school district.

III. AREAS OF RESPONSIBILITY

- A. The School Board. The school board holds all school personnel responsible for the maintenance of order within the school district and supports all personnel acting within the framework of this discipline policy.

- B. Superintendent. The superintendent shall establish guidelines and directives to carry out this policy, hold all school personnel, students, and parents responsible for conforming to this policy, and support all school personnel performing their duties within the framework of this policy. The superintendent shall also establish guidelines and directives for using the services of appropriate agencies for assisting students and parents. Any guidelines or directives established to implement this policy shall be submitted to the school board for approval and shall be attached as an addendum to this policy.
- C. Principal. The school principal is given the responsibility and authority to formulate building rules and regulations necessary to enforce this policy, subject to final school board approval. The principal shall give direction and support to all school personnel performing their duties within the framework of this policy. The principal shall consult with parents of students conducting themselves in a manner contrary to the policy. The principal shall also involve other professional employees in the disposition of behavior referrals and shall make use of those agencies appropriate for assisting students and parents. A principal, in exercising his or her lawful authority, may use reasonable force when it is necessary under the circumstances to correct or restrain a student or prevent bodily harm or death to another.
- D. Teachers. All teachers shall be responsible for providing a well-planned teaching/learning environment and shall have primary responsibility for student conduct, with appropriate assistance from the administration. All teachers shall enforce the Code of Student Conduct. In exercising the teacher's lawful authority, a teacher may use reasonable force when it is necessary under the circumstances to correct or restrain a student or prevent bodily harm or death to another.
- E. Other School District Personnel. All school district personnel shall be responsible for contributing to the atmosphere of mutual respect within the school. Their responsibilities relating to student behavior shall be as authorized and directed by the superintendent. A school employee, school bus driver, or other agent of a school district, in exercising his or her lawful authority, may use reasonable force when it is necessary under the circumstances to restrain a student or prevent bodily harm or death to another.
- F. Parents or Legal Guardians. Parents and guardians shall be held responsible for the behavior of their children as determined by law and community practice. They are expected to cooperate with school authorities and to participate regarding the behavior of their children.
- G. Students. All students shall be held individually responsible for their behavior and for knowing and obeying the Code of Student Conduct and this policy.
- H. Community Members. Members of the community are expected to contribute to the establishment of an atmosphere in which rights and duties are effectively acknowledged and fulfilled.

VII. DISCIPLINARY ACTION OPTIONS

The general policy of the school district is to utilize progressive discipline to the extent reasonable and appropriate based upon the specific facts and circumstances of student

misconduct. The specific form of discipline chosen in a particular case is solely within the discretion of the school district. At a minimum, violation of school district rules, regulations, policies, or procedures will result in discussion of the violation and a verbal warning. The school district shall, however, impose more severe disciplinary sanctions for any violation, including exclusion or expulsion, if warranted by the student's misconduct, as determined by the school district. Disciplinary action may include, but is not limited to, one or more of the following:

- A. Student conference with teacher, principal, counselor, or other school district personnel, and verbal warning;
- B. Confiscation by school district personnel and/or by law enforcement of any item, article, object, or thing, prohibited by, or used in the violation of, any school district policy, rule, regulation, procedure, or state or federal law. If confiscated by the school district, the confiscated item, article, object, or thing will be released only to the parent/guardian following the completion of any investigation or disciplinary action instituted or taken related to the violation.

VIII. REMOVAL OF STUDENTS FROM CLASS

- A. The teacher of record shall have the general control and government of the classroom. Teachers have the responsibility of attempting to modify disruptive student behavior by such means as conferring with the student, using positive reinforcement, assigning detention or other consequences, or contacting the student's parents. When such measures fail, or when the teacher determines it is otherwise appropriate based upon the student's conduct, the teacher shall have the authority to remove the student from class pursuant to the procedures established by this discipline policy. "Removal from class" and "removal" mean any actions taken by a teacher, principal, or other school district employee to prohibit a student from attending a class or activity period for a period of time not to exceed five (5) days, pursuant to this discipline policy.

Grounds for removal from class shall include any of the following:

1. Willful conduct that significantly disrupts the rights of others to an education, including conduct that interferes with a teacher's ability to teach or communicate effectively with students in a class or with the ability of other students to learn;
2. Willful conduct that endangers surrounding persons, including school district employees, the student or other students, or the property of the school;
3. Willful violation of any school rules, regulations, policies or procedures, including the Code of Student Conduct in this policy; or
4. Other conduct, which in the discretion of the teacher or administration, requires removal of the student from class.

Such removal shall be for at least one (1) activity period or class period of instruction for a given course of study and shall not exceed five (5) such periods.

A student must be removed from class immediately if the student engages in assault or violent behavior. "Assault" is an act done with intent to cause fear in another of immediate bodily harm or death; or the intentional infliction of, or attempt to inflict, bodily harm upon another. The removal from class shall be for a period of time deemed appropriate by the principal, in consultation with the teacher.

- B. If a student is removed from class more than ten (10) times in a school year, the school district shall notify the parent or guardian of the student's tenth removal from class and make reasonable attempts to convene a meeting with the student's parent or guardian to discuss the problem that is causing the student to be removed from class.

IX. DISMISSAL

- A. "Dismissal" means the denial of the current educational program to any student, including exclusion, expulsion, and suspension. Dismissal does not include removal from class.

The school district shall not deny due process or equal protection of the law to any student involved in a dismissal proceeding which may result in suspension, exclusion, or expulsion.

The school district shall not dismiss any student without attempting to provide alternative educational services before dismissal proceedings, except where it appears that the student will create an immediate and substantial danger to self or to surrounding persons or property.

- B. Violations leading to suspension, based upon severity, may also be grounds for actions leading to expulsion, and/or exclusion. A student may be dismissed on any of the following grounds:

1. Willful violation of any reasonable school board regulation, including those found in this policy;
2. Willful conduct that significantly disrupts the rights of others to an education, or the ability of school personnel to perform their duties, or school sponsored extracurricular activities; or
3. Willful conduct that endangers the student or other students, or surrounding persons, including school district employees, or property of the school.

- C. Suspension Procedures

1. "Suspension" means an action by the school administration, under rules promulgated by the School Board, prohibiting a student from attending school for a period of no more than ten (10) school days; provided, however, if a suspension is longer than five (5) school days, the suspending administrator shall provide the superintendent with a reason for the longer term of suspension. This definition does not apply to dismissal for one (1) school day or less where a student with a disability does not receive regular or special education instruction during that dismissal period.
2. If a student's total days of removal from school exceed ten (10) cumulative days in a school year, the school district shall make reasonable attempts to convene a meeting with the student and the student's parent or guardian before subsequently removing the student from school and, with the permission of the parent or guardian, arrange for a mental health screening for the student at the parent or guardian's expense. The purpose of this meeting is to attempt to determine the student's need for assessment or other services or whether the parent or guardian should have the student assessed or diagnosed to determine whether the student needs treatment for a mental health disorder.
3. Each suspension action may include a readmission plan. The plan shall include, where appropriate, a provision for implementing alternative educational services upon readmission which must not be used to extend the current suspension. A readmission plan must not obligate a parent or guardian to provide psychotropic

drugs to their student as a condition of readmission. School administration must not use the refusal of a parent or guardian to consent to the administration of psychotropic drugs to their student or to consent to a psychiatric evaluation, screening, or examination of the student as a ground, by itself, to prohibit the student from attending class or participating in a school-related activity, or as a basis of a charge of child abuse, child neglect, or medical or educational neglect. The school administration may not impose consecutive suspensions against the same student for the same course of conduct, or incident of misconduct, except where the student will create an immediate and substantial danger to self or to surrounding persons or property or where the school district is in the process of initiating an expulsion, in which case the school administration may extend the suspension to a total of fifteen (15) days.

4. A child with a disability may be suspended. When a child with a disability has been suspended for more than five (5) consecutive days or ten (10) cumulative school days in the same year, and that suspension does not involve a recommendation for expulsion or exclusion or other change in placement under federal law, relevant members of the child's IEP team, including at least one of the child's teachers, shall meet and determine the extent to which the child needs services in order to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals in the child's IEP. That meeting must occur as soon as possible, but no more than ten (10) days after the sixth (6th) consecutive day of suspension or the tenth (10th) cumulative day of suspension has elapsed.
5. The school administration shall implement alternative educational services when the suspension exceeds five (5) days. Alternative educational services may include, but are not limited to, special tutoring, modified curriculum, modified instruction, other modifications or adaptations, instruction through electronic media, special education services as indicated by appropriate assessments, homebound instruction, supervised homework, or enrollment in another district or in an alternative learning center under ~~Minn. Stat. §~~Minnesota Statutes section 123A.05 selected to allow the student to progress toward meeting graduation standards under Minnesota Statutes section~~Minn. Stat. §~~ 120B.02, although in a different setting.
6. The school administration shall not suspend a student from school without an informal administrative conference with the student. The informal administrative conference shall take place before the suspension, except where it appears that the student will create an immediate and substantial danger to self or to surrounding persons or property, in which case the conference shall take place as soon as practicable following the suspension. At the informal administrative conference, a school administrator shall notify the student of the grounds for the suspension, provide an explanation of the evidence the authorities have, and the student may present the student's version of the facts. A separate administrative conference is required for each period of suspension.
7. After school administration notifies a student of the grounds for suspension, school administration may, instead of imposing the suspension, do one or more of the following:
 - a. strongly encourage a parent or guardian of the student to attend school with the student for one day;
 - b. assign the student to attend school on Saturday as supervised by the

principal or the principal's designee; and

- c. petition the juvenile court that the student is in need of services under ~~Minn. Stat. Ch.~~Minnesota Statutes chapter 260C.
8. A written notice containing the grounds for suspension, a brief statement of the facts, a description of the testimony, a readmission plan, and a copy of the Minnesota Pupil Fair Dismissal Act, ~~Minn. Stat. §§~~Minnesota Statutes sections 121A.40-121A.56, shall be personally served upon the student at or before the time the suspension is to take effect, and upon the student's parent or guardian by mail within forty-eight (48) hours of the conference. (See attached sample Notice of Suspension.)
9. The school administration shall make reasonable efforts to notify the student's parent or guardian of the suspension by telephone as soon as possible following suspension.
10. In the event a student is suspended without an informal administrative conference on the grounds that the student will create an immediate and substantial danger to surrounding persons or property, the written notice shall be served upon the student and the student's parent or guardian within forty-eight (48) hours of the suspension. Service by mail shall be complete upon mailing.
11. Notwithstanding the foregoing provisions, the student may be suspended pending the school board's decision in an expulsion or exclusion proceeding, provided that alternative educational services are implemented to the extent that suspension exceeds five (5) days.

D. Expulsion and Exclusion Procedures

1. "Expulsion" means a school board action to prohibit an enrolled student from further attendance for up to twelve (12) months from the date the student is expelled. The authority to expel rests with the school board.
2. "Exclusion" means an action taken by the school board to prevent enrollment or re-enrollment of a student for a period that shall not extend beyond the school year. The authority to exclude rests with the school board.
3. All expulsion and exclusion proceedings will be held pursuant to and in accordance with the provisions of the Minnesota Pupil Fair Dismissal Act, ~~Minn. Stat. §§~~Minnesota Statutes sections 121A.40-121A.56.
4. No expulsion or exclusion shall be imposed without a hearing, unless the right to a hearing is waived in writing by the student and parent or guardian.
5. The student and parent or guardian shall be provided written notice of the school district's intent to initiate expulsion or exclusion proceedings. This notice shall be served upon the student and his or her parent or guardian personally or by mail, and shall contain a complete statement of the facts; a list of the witnesses and a description of their testimony; state the date, time and place of hearing; be accompanied by a copy of the Pupil Fair Dismissal Act, ~~Minn. Stat. §§~~Minnesota Statutes sections 121A.40-121A.56; describe alternative educational services accorded the student in an attempt to avoid the expulsion proceedings; and inform the student and parent or guardian of their right to:

(1) have a representative of the student's own choosing, including legal counsel at the hearing; (2) examine the student's records before the hearing; (3) present evidence; and (4) confront and cross-examine witnesses. The school district shall advise the student's parent or guardian that free or low-cost legal assistance may be available and that a legal assistance resource list is available from the Minnesota Department of Education (MDE).

6. The hearing shall be scheduled within ten (10) days of the service of the written notice unless an extension, not to exceed five (5) days, is requested for good cause by the school district, student, parent, or guardian.
7. All hearings shall be held at a time and place reasonably convenient to the student, parent, or guardian and shall be closed, unless the student, parent, or guardian requests an open hearing.
8. The school district shall record the hearing proceedings at district expense, and a party may obtain a transcript at its own expense.
9. The student shall have a right to a representative of the student's own choosing, including legal counsel, at the student's sole expense. The school district shall advise the student's parent or guardian that free or low-cost legal assistance may be available and that a legal assistance resource list is available from MDE. The school board may appoint an attorney to represent the school district in any proceeding.
10. If the student designates a representative other than the parent or guardian, the representative must have a written authorization from the student and the parent or guardian providing them with access to and/or copies of the student's records.
11. All expulsion or exclusion hearings shall take place before and be conducted by an independent hearing officer designated by the school district. The hearing shall be conducted in a fair and impartial manner. Testimony shall be given under oath and the hearing officer shall have the power to issue subpoenas and administer oaths.
12. At a reasonable time prior to the hearing, the student, parent or guardian, or authorized representative shall be given access to all school district records pertaining to the student, including any tests or reports upon which the proposed dismissal action may be based.
13. The student, parent or guardian, or authorized representative, shall have the right to compel the presence of any school district employee or agent or any other person who may have evidence upon which the proposed dismissal action may be based, and to confront and cross-examine any witnesses testifying for the school district.
14. The student, parent or guardian, or authorized representative, shall have the right to present evidence and testimony, including expert psychological or educational testimony.
15. The student cannot be compelled to testify in the dismissal proceedings.
16. The hearing officer shall prepare findings and a recommendation based solely upon substantial evidence presented at the hearing, which must be made to the

school board and served upon the parties within two (2) days after the close of the hearing.

17. The school board shall base its decision upon the findings and recommendation of the hearing officer and shall render its decision at a meeting held within five (5) days after receiving the findings and recommendation. The school board may provide the parties with the opportunity to present exceptions and comments to the hearing officer's findings and recommendation provided that neither party presents any evidence not admitted at the hearing. The decision by the school board must be based on the record, must be in writing, and must state the controlling facts on which the decision is made in sufficient detail to apprise the parties and the Commissioner of [the Minnesota Department of Education](#) (Commissioner) of the basis and reason for the decision.
18. A party to an expulsion or exclusion decision made by the school board may appeal the decision to the Commissioner within twenty-one (21) calendar days of school board action pursuant to [Minnesota Statutes section Minn. Stat. § 121A.49](#). The decision of the school board shall be implemented during the appeal to the Commissioner.
19. The school district shall report any suspension, expulsion or exclusion action taken to the appropriate public service agency, when the student is under the supervision of such agency.
20. The school district must report, through the MDE electronic reporting system, each expulsion or exclusion within thirty (30) days of the effective date of the action to the Commissioner. This report must include a statement of alternative educational services given the student and the reason for, the effective date, and the duration of the exclusion or expulsion. The report must also include the student's age, grade, gender, race, and special education status. The dismissal report must include state student identification numbers of affected students.
21. Whenever a student fails to return to school within ten (10) school days of the termination of dismissal, a school administrator shall inform the student and his/her parent or guardian by mail of the student's right to attend and to be reinstated in the school district.

X. ADMISSION OR READMISSION PLAN

A school administrator shall prepare and enforce an admission or readmission plan for any student who is excluded or expelled from school. The plan may include measures to improve the student's behavior, including completing a character education program consistent with [Minn. Stat. § Minnesota Statutes section 120B.232, subdivision Subd. 1](#), and require parental involvement in the admission or readmission process, and may indicate the consequences to the student of not improving the student's behavior. The readmission plan must not obligate parents to provide a sympathomimetic medication for their child as a condition of readmission.

XI. NOTIFICATION OF POLICY VIOLATIONS

Notification of any violation of this policy and resulting disciplinary action shall be as provided herein, or as otherwise provided by the Pupil Fair Dismissal Act or other applicable law. The teacher, principal or other school district official may provide additional notification as deemed appropriate.

In addition, the school district must report, through the MDE electronic reporting system, each physical assault of a school district employee by a student within thirty (30) days of the assault. This report must include a statement of the alternative educational services or other sanction, intervention, or resolution given to the student in response to the assault and the reason for, the effective date, and the duration of the exclusion or expulsion or other sanction, intervention, or resolution. The report must also include the student's age, grade, gender, race, and special education status.

XII. STUDENT DISCIPLINE RECORDS

The policy of the school district is that complete and accurate student discipline records be maintained. The collection, dissemination, and maintenance of student discipline records shall be consistent with applicable school district policies and federal and state law, including the Minnesota Government Data Practices Act, [Minn. Stat. Ch. Minnesota Statutes chapter 13](#).

XIII. ~~DISABLED STUDENTS~~ WITH DISABILITIES

Students who are currently identified as eligible under the IDEA or Section 504 will be subject to the provisions of this policy, unless the student's IEP or 504 plan specifies a necessary modification.

Before initiating an expulsion or exclusion of a student with a disability, relevant members of the child's IEP team and the child's parent shall, consistent with federal law, conduct a manifestation determination and determine whether the child's behavior was (i) caused by or had a direct and substantial relationship to the child's disability and (ii) whether the child's conduct was a direct result of a failure to implement the child's IEP. If the student's educational program is appropriate and the behavior is not a manifestation of the student's disability, the school district will proceed with discipline – up to and including expulsion – as if the student did not have a disability, unless the student's educational program provides otherwise. If the team determines that the behavior subject to discipline is a manifestation of the student's disability, the team shall conduct a functional behavioral assessment and implement a behavioral intervention plan for such student provided that the school district had not conducted such assessment prior to the manifestation determination before the behavior that resulted in a change of placement. Where a behavioral intervention plan previously has been developed, the team will review the behavioral intervention plan and modify it as necessary to address the behavior.

When a student who has an IEP is excluded or expelled for misbehavior that is not a manifestation of the student's disability, the school district shall continue to provide special education and related services during the period of expulsion or exclusion.

XIV. OPEN ENROLLED STUDENTS

The school district may terminate the enrollment of a nonresident student enrolled under an Enrollment Option Program ([Minn. Stat. §Minnesota Statutes section 124D.03](#)) or Enrollment in Nonresident District ([Minn. Stat. §Minnesota Statutes section 124D.08](#)) at the end of a school year if the student meets the definition of a habitual truant, the student has been provided appropriate services for truancy ([Minn. Stat. Ch. Minnesota Statutes chapter 260A](#)), and the student's case has been referred to juvenile court. The school district may also terminate the enrollment of a nonresident student over the age of seventeen (17) enrolled under an Enrollment Options Program if the student is absent without lawful excuse for one or more periods on fifteen (15) school days and has not lawfully withdrawn from school.

XV. DISTRIBUTION OF POLICY

The school district will notify students and parents of the existence and contents of this policy

in such manner as it deems appropriate. Copies of this discipline policy shall be made available to all students and parents at the commencement of each school year and to all new students and parents upon enrollment. This policy shall also be available upon request in each principal's office.

XVI. REVIEW OF POLICY

The principal and representatives of parents, students and staff in each school building shall confer at least annually to review this discipline policy, determine if the policy is working as intended, and to assess whether the discipline policy has been enforced. Any recommended changes shall be submitted to the superintendent for consideration by the school board, which shall conduct an annual review of this policy.

517 STUDENT RECRUITING

I. PURPOSE

The purpose of this policy is to prevent school district employees from exerting undue influence for purposes of securing or retaining the attendance of a student in a school.

II. GENERAL STATEMENT OF POLICY

- A. It is the policy of the school district to encourage employees to make available to all interested people information regarding the school district, its schools, programs, policies, and procedures. The purpose of such activity is to assist in the process of fully informed decision making regarding school enrollment and to enhance the visibility and image of the school district.
- B. At the same time, the school district recognizes that the scope of such activity is limited by statutory authority and bylaws of the Minnesota State High School League. Accordingly, it shall be a violation of this policy for employees to exert undue influence for purposes of securing or retaining the attendance of a student in a school or to compete with another school district for the enrollment of students.
- C. Employees are further prohibited from encouraging others to engage in such conduct on behalf of the school district.

III. DEFINITION

- A. The terms "undue influence" or "competing for enrollment" shall include initiating any oral or written contact with a student from another school district who participates in a school-sponsored sport or activity which solicits the student's transfer to participate in a sport or activity.
- B. The terms shall also include the awarding of tuition, allowance for board and/or room, allowance for transportation, priority in assignments of jobs, cash or gifts in any form, or any other privilege or consideration if not similarly available to all students.

IV. PROCEDURES

- A. The school board shall adopt, by resolution, specific standards for acceptance and rejection of applications for open enrollment. Standards may include the capacity of a program, class, school building, or the statutory limits to nonresident enrollment in a particular grade level, or whether the student is currently expelled for (1) possessing a dangerous weapon, as defined under federal law, at a school or school function; (2) possession or using an illegal drug at school or at a school function; (3) selling or soliciting the sale of a controlled substance while at school or a school function; or committing a first, second or third degree assault as described in state law. Standards for acceptance and rejection of open-enrollment applications are subject to the Graduation Incentives Program and may not include previous academic achievement, athletic or other extracurricular ability, disabling conditions, proficiency in the English language, previous disciplinary proceedings, or the student's district of residence.

- B. Employees who violate the provisions of the policy shall be subject to disciplinary action as appropriate. Any such disciplinary action shall be made pursuant to and in accordance with applicable statutory authority, collective bargaining agreements, school district policies, and the bylaws of the Minnesota High School League, as applicable.

532 USE OF PEACE OFFICERS AND CRISIS TEAMS TO REMOVE STUDENTS WITH IEPs FROM SCHOOL GROUNDS

[Note: School districts are required by statute to have a policy addressing these issues.]

[Note: Minnesota Laws 2009, Chapter 96, made a number of changes to the laws and rules governing the use of "conditional procedures" with respect to special education students. Specifically, Chapter 96 repealed, EFFECTIVE AUGUST 1, 2011, Minnesota Statutes sections 121A.66, 121A.67, Subd. 1, as well as Minnesota Rules 3525.0210, Subparts 5, 6, 9, 13, 17, 29, 30, 46, 47, and 3525.2900, Subp. 5. These laws and rules were replaced, effective August 1, 2011, with a restrictive procedures law which generally addresses the restraint of special education students. Also note that the restrictive procedures law contains a significant staff training component, found at Minnesota Statutes section 125A.0942, Subds. 1, 2, and 5. Staff who intend to use restrictive procedures must be trained in the areas specified in Subd. 5 to use these procedures.]

I. PURPOSE

The purpose of this policy is to describe the appropriate use of peace officers and crisis teams to remove, if necessary, a student with an individualized education program (IEP) from school grounds.

II. GENERAL STATEMENT OF POLICY

The school district is committed to promoting learning environments that are safe for all members of the school community. It further believes that students are the first priority and that they should be reasonably protected from physical or emotional harm at all school locations and during all school activities.

In general, all students, including those with IEPs, are subject to the terms of the school district's discipline policy. Building level administrators have the leadership responsibility to maintain a safe, secure, and orderly educational environment within which learning can occur. Corrective action to discipline a student and/or modify a student's behavior will be taken by staff when a student's behavior violates the school district's discipline policy.

If a student with an IEP engages in conduct which, in the judgment of school personnel, endangers or may endanger the health, safety, or property of the student, other students, staff members, or school property, that student may be removed from school grounds in accordance with this policy.

III. DEFINITIONS

For purposes of this policy, the following terms have the meaning given them in this section:

- A. "Student with an IEP" or "the student" means a student who is eligible to receive special education and related services pursuant to the terms of an IEP or an individual interagency intervention plan (IIIP).
- B. "Peace officer" means an employee or an elected or appointed official of a political subdivision or law enforcement agency who is licensed by the Board of Peace Officer Standards and Training, charged with the prevention and detection of crime and the enforcement of general criminal laws of the state and who has the full power of arrest. The term "peace officer" includes a person who serves as a sheriff, a deputy sheriff, a police officer, or a state patrol trooper.

- C. "Police liaison officer" is a peace officer who, pursuant to an agreement between the school district and a political subdivision or law enforcement agency, is assigned to a school building for all or a portion of the school day to provide law enforcement assistance and support to the building administration and to promote school safety, security, and positive relationships with students.
- D. "Crisis team" means a group of persons, which may include teachers and non-teaching school personnel, selected by the building administrator in each school building who have received crisis intervention training and are responsible for becoming actively involved with resolving crises. The building administrator or designee shall serve as the leader of the crisis team.
- E. The phrase "remove the student from school grounds" is the act of securing the person of a student with an IEP and escorting that student from the school building or school activity at which the student with an IEP is located.
- F. "Emergency" means a situation where immediate intervention is needed to protect a child or other individual from physical injury.
- G. All other terms and phrases used in this policy shall be defined in accordance with applicable state and federal law or ordinary and customary usage.

IV. REMOVAL OF STUDENTS WITH IEPs FROM SCHOOL GROUNDS

A. Removal By Crisis Team

If the behavior of a student with an IEP escalates to the point where the student's behavior endangers or may endanger the health, safety, or property of the student, other students, staff members, or school property, the school building's crisis team may be summoned. The crisis team may attempt to de-escalate the student's behavior by means including, but not limited to, those described in the student's IEP and/or behavior intervention plan. When such measures fail, or when the crisis team determines that the student's behavior continues to endanger or may endanger the health, safety, or property of the student, other students, staff members, or school property, the crisis team may remove the student from school grounds.

If the student's behavior cannot be safely managed, school personnel may immediately request assistance from the police liaison officer or a peace officer.

B. Removal By Police Liaison Officer or Peace Officer

If a student with an IEP engages in conduct which endangers or may endanger the health, safety, or property of the student, other students, staff members, or school property, the school building's crisis team, building administrator, or the building administrator's designee, may request that the police liaison officer or a peace officer remove the student from school grounds.

If a student with an IEP is restrained or removed from a classroom, school building, or school grounds by a peace officer at the request of a school administrator or school staff person during the school day twice in a 30-day period, the student's IEP team must meet to determine if the student's IEP is adequate or if additional evaluation is needed.

Whether or not a student with an IEP engages in conduct which endangers or may endanger the health, safety, or property of the student, other students, staff members, or school property, school district personnel may report a crime committed by a student with an IEP to appropriate authorities. If the school district reports a crime committed by a student with an IEP, school personnel shall transmit copies of the special education and disciplinary records of the student for consideration by appropriate authorities to whom it reports the crime, to the extent that the transmission is permitted by the Family

Education Rights and Privacy Act (FERPA), the Minnesota Government Data Practices Act, and school district's policy, Protection and Privacy of Pupil Records.

[Note: If the school district uses a different reference name for its student records policy, insert that name in place of the reference to Protection and Privacy of Pupil Records, which is the title of MSBA/MASA Model Policy 515.]

The fact that a student with an IEP is covered by special education law does not prevent state law enforcement and judicial authorities from exercising their responsibilities with regard to the application of federal and state law to crimes committed by a student with an IEP.

C. Reasonable Force Permitted

In removing a student with an IEP from school grounds, a building administrator, other crisis team members, or the police liaison officer or other agents of the school district, whether or not members of a crisis team, may use reasonable force when it is necessary under the circumstances to correct or restrain a student or prevent bodily harm or death to another.

In removing a student with an IEP from school grounds, police liaison officers and school district personnel are further prohibited from engaging in the following conduct:

1. Corporal punishment prohibited by Minnesota Statutes section 121A.58;
2. Requiring a child to assume and maintain a specified physical position, activity, or posture that induces physical pain;
3. Totally or partially restricting a child's senses as punishment;
4. Denying or restricting a child's access to equipment and devices such as walkers, wheelchairs, hearing aids, and communication boards that facilitate the child's functioning except when temporarily removing the equipment or device is needed to prevent injury to the child or others or serious damage to the equipment or device, in which case the equipment or device shall be returned to the child as soon as possible;
5. Interacting with a child in a manner that constitutes sexual abuse, neglect, or physical abuse under Minnesota Statutes Chapter 260E;
6. Physical holding (as defined in Minnesota Statutes section 125A.0941) that restricts or impairs a child's ability to breathe, restricts or impairs a child's ability to communicate distress, places pressure or weight on a child's head, throat, neck, chest, lungs, sternum, diaphragm, back, or abdomen, or results in straddling a child's torso;
7. Withholding regularly scheduled meals or water; and/or
8. Denying a child access to toilet facilities.

D. Parental Notification

The building administrator or designee shall make reasonable efforts to notify the student's parent or guardian of the student's removal from school grounds as soon as possible following the removal.

E. Continued Removals; Review of IEP

Continued and repeated use of the removal process described herein must be reviewed in the development of the individual student's IEP or IIIP.

F. Effect of Policy in an Emergency; Use of Restrictive Procedures

A student with an IEP may be removed in accordance with this policy regardless of whether the student's conduct would create an emergency.

If the school district seeks to remove a student with an IEP from school grounds under this policy due to behaviors that constitute an emergency and the student's IEP, IIIP, or behavior intervention plan authorizes the use of one or more restrictive procedures, the crisis team may employ those restrictive procedures, in addition to any reasonable force that may be necessary, to facilitate the student's removal from school grounds, as long as the crisis team members who are implementing the restrictive procedures have received the training required by Minnesota Statutes section 125A.0942, Subd. 5, and otherwise comply with the requirements of § 125A.0942.

G. Reporting to the Minnesota Department of Education (MDE)

Annually, stakeholders may recommend, as necessary, to the Commissioner of MDE (Commissioner) specific and measurable implementation and outcome goals for reducing the use of restrictive procedures. The Commissioner must submit to the Legislature a report on districts' progress in reducing the use of restrictive procedures that recommends how to further reduce these procedures and eliminate the use of seclusion. By January 15, April 15, July 15, and October 15 of each year, districts must report, in a form and manner determined by the Commissioner, about individual students who have been secluded. By July 15 each year, districts must report summary data. The summary data must include information on the use of restrictive procedures for the prior school year, July 1 through June 30, including the use of reasonable force by school personnel that is consistent with the definition of physical holding or seclusion of a child with a disability.

533 WELLNESS

[Note: All school districts that participate in the National School Lunch and School Breakfast Programs are required by the Healthy, Hunger-Free Kids Act of 2010 (Act) to have a wellness policy that includes standards and nutrition guidelines for foods and beverages made available to students on campus during the school day, as well as specific goals for nutrition promotion and education, physical activity, and other school-based activities that promote student wellness. The Act requires the involvement of parents, students, representatives of the school food authority, teachers of physical education, school health professionals, the school board, school administrators, and the public in the development, implementation, and periodic review and update of the wellness policy. The Act also requires a plan for measuring implementation of the policy and reporting wellness policy content and implementation issues to the public, as well as the designation of at least one person charged with responsibility for the implementation and oversight of the wellness policy to ensure the school district is in compliance with the policy.]

I. PURPOSE

The purpose of this policy is to set forth methods that promote student wellness, prevent and reduce childhood obesity, and assure that school meals and other food and beverages sold and otherwise made available on the school campus during the school day are consistent with applicable minimum local, state, and federal standards.

II. GENERAL STATEMENT OF POLICY

- A. The school board recognizes that nutrition promotion and education, physical activity, and other school-based activities that promote student wellness are essential components of the educational process and that good health fosters student attendance and learning.
- B. The school environment should promote students' health, well-being, and ability to learn by encouraging healthy eating and physical activity.
- C. 1. Students need opportunities for physical activity and to fully embrace regular physical activity as a personal behavior. Toward that end, health and physical education will reinforce the knowledge and self-management skills needed to maintain a healthy lifestyle and reduce sedentary activities, such as watching television;
2. Opportunities for physical activity will be incorporated into other subject lessons, where appropriate; and
3. Classroom teachers will provide short physical activity breaks between lessons or classes, as appropriate.

2. All competitive foods will meet the USDA Smart Snacks in School (Smart Snacks) nutrition standards and any applicable state nutrition standards, at a minimum. Smart Snacks aim to improve student health and well-being, increase consumption of healthful foods during the school day, and create an environment that reinforces the development of healthy eating habits.

420 STUDENTS AND EMPLOYEES WITH SEXUALLY TRANSMITTED INFECTIONS AND DISEASES AND CERTAIN OTHER COMMUNICABLE DISEASES AND INFECTIOUS CONDITIONS

[Note: School districts are not required by statute to have a policy addressing these issues. However, Minnesota Statutes section 121A.23 provides that school districts must have a program that incorporates the provisions contained in this policy.]

I. PURPOSE

Public concern that students and staff of the school district be able to attend the schools of the district without becoming infected with serious communicable or infectious diseases, including, but not limited to, Human Immunodeficiency Virus (HIV), Acquired Immunodeficiency Syndrome (AIDS), Hepatitis B, and Tuberculosis, requires that the school board adopt measures effectively responding to health concerns while respecting the rights of all students, employees, and contractors, including those who are so infected. The purpose of this policy is to adopt such measures.

II. GENERAL STATEMENT OF POLICY

A. Students

The policy of the school board is that students with communicable diseases not be excluded from attending school in their usual daily attendance setting so long as their health permits and their attendance does not create a significant risk of the transmission of illness to students or employees of the school district. A procedure for minimizing interruptions to learning resulting from communicable diseases will be established by the school district in its IEP and Section 504 team process, if applicable, and in consultation with community health and private health care providers. Procedures for the inclusion of students with communicable diseases will include any applicable educational team planning processes, including the review of the educational implications for the student and others with whom the student comes into contact.

B. Employees

The policy of the school board is that employees with communicable diseases not be excluded from attending to their customary employment so long as they are physically, mentally, and emotionally able to safely perform tasks assigned to them and so long as their employment does not create a significant risk of the transmission of illness to students, employees, or others in the school district. If a reasonable accommodation will eliminate the significant risk of transmission, such accommodation will be undertaken unless it poses an undue hardship to the school district.

C. Circumstances and Conditions

1. Determinations of whether a contagious individual's school attendance or job performance creates a significant risk of the transmission of the illness to students or employees of the school district will be made on a case by case basis. Such decisions will be based upon the nature of the risk (how it is

transmitted), the duration of the risk (how long the carrier is infectious), the severity of the risk (what is the potential harm to third parties), and the probabilities the disease will be transmitted and will cause varying degrees of harm. When a student is disabled, such a determination will be made in consultation with the educational planning team.

2. The school board recognizes that some students and some employees, because of special circumstances and conditions, may pose greater risks for the transmission of infectious conditions than other persons infected with the same illness. Examples include students who display biting behavior, students or employees who are unable to control their bodily fluids, who have oozing skin lesions, or who have severe disorders which result in spontaneous external bleeding. These conditions need to be taken into account and considered in assessing the risk of transmission of the disease and the resulting effect upon the educational program of the student or employment of the employee by consulting with the Commissioner of Health, the physician of the student or employee, and the parent(s)/guardian(s) of the student.

D. Students with Special Circumstances and Conditions

The school (title), along with the infected individual's physician, the infected individual or parent(s)/guardian(s), and others, if appropriate, will weigh risks and benefits to the student and to others, consider the least restrictive appropriate educational placement, and arrange for periodic reevaluation as deemed necessary by the state epidemiologist. The risks to the student shall be determined by the student's physician.

E. Extracurricular Student Participation

Student participation in nonacademic, extracurricular, and non-educational programs of the school district are subject to a requirement of equal access and comparable services.

F. Precautions

The school district will develop routine procedures for infection control at school and for educating employees about these procedures. The procedures shall be developed through cooperation with health professionals taking into consideration any guidelines of the Minnesota Department of Education and the Minnesota Department of Health. (These precautionary procedures shall be consistent with the school district's procedures regarding blood-borne pathogens developed pursuant to the school district's employee right to know policy.)

G. Information Sharing

1. Employee and student health information shall be shared within the school district only with those whose jobs require such information and with those who have a legitimate educational interest (including health and safety) in such information and shall be shared only to the extent required to accomplish legitimate educational goals and to comply with employees' right to know requirements.
2. Employee and student health data shall be shared outside the school district only in accordance with state and federal law and with the school district's policies on employee and student records and data.

H. Reporting

If a medical condition of student or staff threatens public health, it must be reported to the Minnesota Commissioner of Health.

I. Prevention

The school district shall, with the assistance of the Commissioners of Health and Education, implement a program to prevent and reduce the risk of sexually transmitted diseases in accordance with Minnesota Statutes section 121A.23 that includes:

1. planning materials, guidelines, and other technically accurate and updated information;
2. a comprehensive, developmentally appropriate, technically accurate, and updated curriculum that includes helping students to abstain from sexual activity until marriage;
3. cooperation and coordination among school districts and Service Cooperatives;
4. a targeting of adolescents, especially those who may be at high risk of contracting sexually transmitted diseases and infections, for prevention efforts;
5. involvement of parents and other community members;
6. in-service training for district staff and school board members;
7. collaboration with state agencies and organizations having a sexually transmitted infection and disease prevention or sexually transmitted infection and disease risk reduction program;
8. collaboration with local community health services, agencies and organizations having a sexually transmitted infection and disease risk reduction program; and
9. participation by state and local student organizations.
10. The program must be consistent with the health and wellness curriculum.
11. The school district may accept funds for sexually transmitted infection and disease prevention programs developed and implemented under this section from public and private sources, including public health funds and foundations, department professional development funds, federal block grants, or other federal or state grants.

J. Vaccination and Screening

The school district will develop procedures regarding the administration of Hepatitis B vaccinations and Tuberculosis screenings in keeping with current state and federal law. The procedures shall provide that the Hepatitis B vaccination series be offered to all who have occupational exposure at no cost to the employee.

508 EXTENDED SCHOOL YEAR FOR CERTAIN STUDENTS WITH INDIVIDUALIZED EDUCATION PROGRAMS

[Note: The provisions of this policy substantially reflect statutory and regulatory requirements.]

I. PURPOSE

The purpose of this policy is to ensure that the school district complies with the overall requirements of law as mandated for certain students subject to individualized education programs (IEPs) when necessary to provide a free appropriate public education (FAPE).

II. GENERAL STATEMENT OF POLICY

- A. Extended School Year Services Must Be Available to Provide a FAPE. The school district shall provide extended school year (ESY) services to a student who is the subject of an IEP if the student's IEP team determines the services are necessary during a break in instruction in order to provide a FAPE.
- B. Extended School Year Determination. At least annually, the IEP team must determine that a student is in need of ESY services if the student meets any of the following conditions:
 - 1. There will be significant regression of a skill or acquired knowledge from the student's level of performance on an annual goal that requires more than the length of the break in instruction to recoup unless the IEP team determines a shorter time for recoupment is more appropriate; OR
 - 2. Services are necessary for the student to attain and maintain self-sufficiency because of the critical nature of the skill addressed by an annual goal, the student's age and level of development, and the timeliness for teaching the skill; OR
 - 3. The IEP team otherwise determines, given the student's unique needs, that ESY services are necessary to ensure the pupil receives a FAPE.
- C. Required Factors Schools Must Consider in Making ESY Determinations. The IEP team must decide ESY eligibility using information including:
 - 1. Prior observations of the student's regression and recoupment over the summer;
 - 2. Observations of the student's tendency to regress over extended breaks in instruction during the school year; and
 - 3. Experience with other students with similar instructional needs.
- D. Additional Factors to Consider, Where Relevant. In making its determination of ESY needs, the following factors must be considered, where relevant:

1. The student's progress and maintenance of skills during the regular school year.
2. The student's degree of impairment.
3. The student's rate of progress.
4. The student's behavioral or physical problems.
5. The availability of alternative resources.
6. The student's ability and need to interact with nondisabled peers.
7. The areas of the student's curriculum which need continuous attention.
8. The student's vocational needs.

E. No Unilateral Decisions.

In the course of providing ESY services to children with disabilities, the school district may not unilaterally limit the type, amount, or duration of those services.

F. Services to Nonresident Students Temporarily Placed in School District.

A school district may provide ESY services to nonresident children with disabilities temporarily placed in the school district in accordance with applicable state law.

509 ENROLLMENT OF NONRESIDENT STUDENTS

[Note: The provisions of this policy substantially reflect statutory requirements.]

I. PURPOSE

The school district desires to participate in the Enrollment Options Program established by Minnesota Statutes section 124D.03. The purpose of this policy is to set forth the application and exclusion procedures used by the school district in making said determination.

II. GENERAL STATEMENT OF POLICY

- A. Eligibility. Applications for enrollment under the Enrollment Options (Open Enrollment) Law will be approved provided that acceptance of the application will not exceed the capacity of a program, excluding special education services; class; grade level; or school building as established by school board resolution and provided that:
1. space is available for the applicant under enrollment cap standards established by school board policy or other directive; and
 2. in considering the capacity of a grade level, the school district may only limit the enrollment of nonresident students to a number not less than the lesser of: (a) one percent of the total enrollment at each grade level in the school district; or (b) the number of school district resident students at that grade level enrolled in a nonresident school district in accordance with Minnesota Statutes section 124D.03.
 3. the applicant is not otherwise excluded by action of the school district because of previous conduct in another school district.
- B. Standards that may be used for rejection of application. In addition to the provisions of Paragraph II.A., the school district may refuse to allow a pupil who is expelled under Minnesota Statutes section 121A.45 to enroll during the term of the expulsion if the student was expelled for:
1. possessing a dangerous weapon, including a weapon, device, instruments, material, or substance, animate or inanimate, that is used for, or is readily capable of, causing death or serious bodily injury, with the exception of a pocket knife with a blade less than two and one-half inches in length, at school or a school function;
 2. possessing or using an illegal drug at school or a school function;

3. selling or soliciting the sale of a controlled substance while at school or a school function; or
4. committing a third-degree assault involving assaulting another and inflicting substantial bodily harm.

C. Standards that may not be used for rejection of application. The school district may not use the following standards in determining whether to accept or reject an application for open enrollment:

1. previous academic achievement of a student;
2. athletic or extracurricular ability of a student;
3. disabling conditions of a student;
4. a student's proficiency in the English language;
5. the student's district of residence except where the district of residence is directly included in an enrollment options strategy included in an approved achievement and integration program; or
6. previous disciplinary proceedings involving the student. This shall not preclude the school district from proceeding with exclusion as set out in Section F. of this policy.

D. Application.

The student and parent or guardian must complete and submit a School District Enrollment Options Program application developed by the Minnesota Department of Education and available on their website (education.mn.gov). Go to "Students and Families," then, under "School Choice," select "Open Enrollment." The form is entitled, "General Statewide Enrollment Options Application for K-12 and Early Childhood Special Education."

E. Lotteries.

If a school district has more applications than available seats at a specific grade level, it must hold an impartial lottery following the January 15 deadline to determine which students will receive seats. The district must give priority to enrolling siblings of currently enrolled students, students whose applications are related to an approved integration and achievement plan, children of the school district's staff, and students residing in that part of a municipality (a statutory or home rule charter city or town) where:

1. the student's resident district does not operate a school building;
2. the municipality is located partially or fully within the boundaries of at

least five school districts;

3. the nonresident district in which the student seeks to enroll operates one or more school buildings within the municipality; and
4. no other nonresident, independent, special, or common school district operates a school building within the municipality.

The process for the school district lottery must be established by school board policy and posted on the school district's website.

F. Exclusion

1. Administrator's initial determination. If a school district administrator knows or has reason to believe that an applicant has engaged in conduct that has subjected or could subject the applicant to expulsion or exclusion under law or school district policy, the administrator will transmit the application to the superintendent with a recommendation of whether exclusion proceedings should be initiated.
2. Superintendent's review. The superintendent may make further inquiries. If the superintendent determines that the applicant should be admitted, he or she will notify the applicant and the school board chair. If the superintendent determines that the applicant should be excluded, the superintendent will notify the applicant and determine whether the applicant wishes to continue the application process. Although an application may not be rejected based on previous disciplinary proceedings, the school district reserves the right to initiate exclusion procedures pursuant to the Minnesota Pupil Fair Dismissal Act as warranted on a case-by-case basis.

G. Termination of Enrollment

1. The school district may terminate the enrollment of a nonresident student enrolled under an enrollment options program pursuant to Minnesota Statutes section 124D.03 or 124D.08 at the end of a school year if the student meets the definition of a habitual truant, the student has been provided appropriate services for truancy under Minnesota Statutes chapter 260A, and the student's case has been referred to juvenile court. A "habitual truant" is a child under 17 years of age who is absent from attendance at school without lawful excuse for seven school days in a school year if the child is in elementary school or for one or more class periods on seven school days in a school year if the child is in middle school, junior high school, or high school, or a child who is 17 years of age who is absent from attendance at school without lawful excuse for one or more class periods on seven school days in a school year and who has not lawfully withdrawn from school under Minnesota Statutes section 120A.22, subdivision 8.

2. The school district may also terminate the enrollment of a nonresident student over 17 years of age if the student is absent without lawful excuse for one or more periods on 15 school days and has not lawfully withdrawn from school under Minnesota Statutes section 120A.22, subdivision 8.
 3. A student who has not applied for and been accepted for open enrollment pursuant to this policy and does not otherwise meet the residency requirements for enrollment may be terminated from enrollment and removed from school. Prior to removal from school, the school district will send to the student's parents a written notice of the school district's belief that the student is not a resident of the school district. The notice shall include the facts upon which the belief is based and notice to the parents of their opportunity to provide documentary evidence, in person or in writing, of residency to the superintendent or the superintendent's designee. The superintendent or the superintendent's designee will make the final determination as to the residency status of the student.
- H. Notwithstanding the requirement that an application must be approved by the board of the nonresident district, a student who has been enrolled in a district, who is identified as homeless, and whose parent or legal guardian moves to another district, or who is placed in foster care in another school district, may continue to enroll in the nonresident district without the approval of the board of the nonresident district. The approval of the board of the student's resident district is not required.

525 VIOLENCE PREVENTION [APPLICABLE TO STUDENTS AND STAFF]

I. PURPOSE

The purpose of this policy is to recognize that violence has increased and to identify measures that the school district will take in an attempt to maintain a learning and working environment that is free from violent and disruptive behavior.

The school board is committed to promoting healthy human relationships and learning environments that are physically and psychologically safe for all members of the school community. It further believes that students are the first priority and they should be protected from physical or emotional harm during school activities and on school grounds, buses, or field trips while under school district supervision.

II. GENERAL STATEMENT OF POLICY

- A. The policy of the school district is to strictly enforce its weapons policy (Policy 501).
- B. The policy of the school district is to act promptly in investigating all acts, or formal or informal complaints, of violence and take appropriate disciplinary action against any student or staff member who is found to have violated this policy or any related policy.
- C. The administration will periodically review discipline policies and procedures, prepare revisions if necessary, and submit them to the school board for review and adoption.
- D. The school district will implement approved violence prevention strategies to promote safe and secure learning environments, to diminish violence in our schools, and to aid in the protection of children whose health or welfare may be jeopardized through acts of violence.

III. IMPLEMENTATION OF POLICY

- A. The school board will review and approve policies to prevent and address violence in our schools. The superintendent or designee will develop procedures to effectively implement the school weapons and violence prevention policies. It shall be incumbent on all students and staff to observe all policies and report violations to the school administration.
- B. The school board and administration will inform staff and students annually of policies and procedures related to violence prevention and weapons.
- C. The school district will act promptly to investigate all acts and formal and informal complaints of violence and take appropriate disciplinary action against any student or staff member who is found to have violated this policy or any related policy.
- D. The consequences set forth in the school weapons policy (Policy 501) will be imposed upon any student or nonstudent who possesses, uses or distributes a weapon when in a school location.
- E. The consequences set forth in the school hazing policy (Policy 526) will be imposed upon any student or staff member who commits an act against a student or staff member; or coerces a student or staff member into committing an act, that creates a

substantial risk of harm to a person in order for the student or staff member to be initiated into or affiliated with an organization, or for any other purpose.

- F. Students who engage in assault or violent behavior will be removed from the classroom immediately and for a period of time deemed appropriate by the principal, in consultation with the teacher, pursuant to the student discipline policy (Policy 506).
- G. Students with disabilities may be expelled for behavior unrelated to their disabilities, subject to the procedural safeguards required by the Individuals with Disabilities Education Act (IDEA), Section 504 of the Rehabilitation Act of 1973, and the Pupil Fair Dismissal Act.

- I. Students who wear objectionable emblems, signs, words, objects, or pictures on clothing communicating a message that is racist, sexist, or otherwise derogatory to a protected minority group or which connotes gang membership or that approves, advances, or provokes any form of religious, racial, or sexual harassment or violence against other individuals as defined in the harassment and violence policy (Policy 413) will be subject to the procedures set forth in the student dress and appearance policy (Policy 504). "Gang" as used in this policy means any ongoing organization, association, or group of three or more persons, whether formal or informal, having as one of its primary activities the commission of one or more criminal acts, which has an identifiable name or identifying sign or symbol, and whose members individually or collectively engage in or whose members engaged in a pattern of criminal gang activity. A "pattern of gang activity" means the commission, attempt to commit, conspiring to commit, or solicitation of two or more criminal acts, provided the criminal acts were committed on separate dates or by two or more persons who are members of or belong to the same criminal street gang.
- J. This policy is not intended to abridge the rights of students to express political, religious, philosophical, or similar opinions by wearing apparel on which such messages are stated. Such messages are acceptable as long as they are not lewd, vulgar, obscene, defamatory, profane, denote gang affiliation, advocate harassment or violence against others, are likely to disrupt the education process, or cause others to react in a violent or illegal manner (Policy 504).

IV. PREVENTION STRATEGIES

The school district has adopted and will implement the following prevention strategies to promote safe and secure learning environments, to diminish violence in our schools, and to aid in the protection of children whose health or welfare may be jeopardized through acts of violence.

STUDENT PARKING PERMIT REQUEST

I, the undersigned student of this school district, do hereby request permission to park a motor vehicle in a designated student parking area. I understand that this is a privilege and that the interior of the motor vehicle, including, but not limited to, glove and trunk compartments, is subject to search upon reasonable suspicion by school officials without my consent, without a search warrant, and with no notice to me. I understand that if I refuse a request by a school official to open a locked motor vehicle under my control or its compartments, my parking privileges may be withdrawn and I may be subject to discipline. Finally, I acknowledge receipt of the school district's motor vehicle policy.

527 STUDENT USE AND PARKING OF MOTOR VEHICLES; PATROLS, INSPECTIONS, AND SEARCHES

I. PURPOSE

The purpose of this policy is to provide guidelines for use and parking of motor vehicles by students in school district locations, to maintain order and discipline in the schools, and to protect the health, safety, and welfare of students and school personnel.

II. GENERAL STATEMENT OF POLICY

The policy of this school district is to allow the limited use and parking of motor vehicles by students in school district locations. The position of the school district is that a fair and equitable district-wide student motor vehicle policy will contribute to the quality of the student's educational experience, will maintain order and discipline in the schools, and will protect the health, safety, and welfare of students and school personnel. This policy applies to all students in the school district.

III. DEFINITIONS

- A. "Contraband" means any unauthorized item possession of which is prohibited by school district policy and/or law. It includes, but is not limited to, weapons and "look-alikes," alcoholic beverages, controlled substances and "look-alikes," overdue books and other materials belonging to the school district, and stolen property.
- B. "Reasonable suspicion" means that a school official has grounds to believe that the search will result in evidence of a violation of school district policy, rules, and/or law. Reasonable suspicion may be based on a school official's personal observation, a report from a student, parent, or staff member, a student's suspicious behavior, a student's age and past history or record of conduct both in and out of the school context, or other reliable sources of information.
- C. "Reasonable scope" means that the scope and/or intrusiveness of the search is reasonably related to the objectives of the search. Factors to consider in determining what is reasonable include the seriousness of the suspected infraction, the reliability of the information, the necessity of acting without delay, the existence of exigent circumstances necessitating an immediate search and further investigation (e.g., to prevent violence, serious and immediate risk of harm, or destruction of evidence), and the age of the student.
- D. "School district location" means property that is owned, rented, leased, or borrowed by the school district for school purposes, as well as property immediately adjacent to such property that may be used for parking or gaining access to such property. A school district location also shall include off school property at any school-sponsored or school-approved activity, event, or function, such as a field trip or athletic event, where students are under the jurisdiction of the school district.

IV. STUDENT USE OF MOTOR VEHICLES IN SCHOOL DISTRICT LOCATIONS

Students generally are not permitted to use motor vehicles during the school day in any school district location. Students may use motor vehicles on the high school campus[es] during the school day only if there is an emergency and permission has been granted to the student by (designated school official) to use a motor vehicle. Students are permitted to use motor vehicles in school district locations outside of the school day only on the high school campus[es].

***[Note: This portion of the policy may need to be modified depending upon the designation of the high school campus as open or closed. For example, the school district may choose to adopt language for an open campus in the second sentence such as "Students may use motor vehicles on the high school campus[es] during the school day only during the student's designated lunch period or if there is an emergency and permission has been granted to the student by (designated school official) to use a motor vehicle during the school day."*]**

V. STUDENT PARKING OF MOTOR VEHICLES IN SCHOOL DISTRICT LOCATIONS

- A. Students are permitted to park in a school district location as a matter of privilege, not of right. Students driving a motor vehicle to a high school campus may park the motor vehicle in the parking lot designated for student parking only. Students will not park vehicles in driveways, on private property, or in ***[other designated areas, e.g., parking lots designated for use only by staff or by the general public]***.
- B. When there are unauthorized vehicles parked on school district property, school officials may:
 - 1. move the vehicle or require the driver or other person in charge of the vehicle to move it off school district property; or
 - 2. if unattended, provide for the removal of the vehicle, at the expense of the owner or operator, to the nearest convenient garage or other place of safety off of school district property.

VI. PATROLS, INSPECTIONS, AND SEARCHES

School officials may conduct routine patrols of school district locations and routine inspections of the exteriors of the motor vehicles of students. In addition, the interiors of motor vehicles of students in school district locations may be searched when school officials have a reasonable suspicion that the search will uncover a violation of law and/or school policy or rule.

A. Patrols and Inspections

School officials may conduct routine patrols of student parking lots and other school district locations and routine inspections of the exteriors of the motor vehicles of students. Such patrols and inspections may be conducted without notice, without student consent, and without a search warrant.

B. Search of Interior of Student Motor Vehicle

The interiors of motor vehicles of students in school district locations, including glove or trunk compartments, may be searched when school officials have a reasonable suspicion that the search will uncover a violation of law and/or school policy or rule.

The search will be reasonable in its scope and intrusiveness. Such searches may be conducted without notice, without consent, and without a search warrant. A student will be subject to withdrawal of parking privileges and to discipline if the student refuses to open a locked motor vehicle under the student's control or its compartments upon the request of a school official.

C. Prohibition of Contraband and Interference with Patrols, Inspections, Searches, and/or Seizures

A violation of this policy occurs when students store or carry contraband in motor vehicles in a school district location or interfere with patrols, inspections, searches, and/or seizures as provided by this policy.

D. Seizure of Contraband

If a search yields contraband, school officials will seize the item and may turn it over to legal officials for ultimate disposition when appropriate.

E. Dissemination of Policy

A copy of this policy will be printed in the student handbook or disseminated in any other way which school officials deem appropriate.

VII. DIRECTIVES AND GUIDELINES

The superintendent is granted authority to develop and present for school board review and approval reasonable directives and guidelines which address specific needs of the school district related to student use and parking of motor vehicles in school district locations, such as a permit system and parking regulations. Approved directives and guidelines shall be attached as an addendum to this policy.

[Note: Some school districts may choose to allow students to park their cars in school district locations, such as designated student parking lots, by permit only. Such a permit system can be used to assist in the dissemination and enforcement of the motor vehicle policy. For example, school districts instituting a permit system can advise students who apply for a permit that the motor vehicle policy exists and that their motor vehicles are subject to inspection and search by school officials. An acknowledgment form, such as the sample attached to this policy, can then be utilized to document the notice given and the student's receipt of the policy.]

[Note: If a school district institutes a permit system and intends to charge students a fee for parking permits, the procedures in Minnesota Statutes section 123B.38 must be followed before the fees are implemented.]

VIII. VIOLATIONS

A student found to have violated this policy and/or the directives and guidelines implementing it shall be subject to withdrawal of parking privileges and/or to discipline in accordance with the school district's Student Discipline Policy, which may include suspension, exclusion, or expulsion. In addition, the student may be referred to legal officials when appropriate.

528 STUDENT PARENTAL, FAMILY, AND MARITAL STATUS NONDISCRIMINATION

[Note: The provisions of this policy substantially reflect statutory requirements.]

I. PURPOSE

Students are protected from discrimination on the basis of sex and marital status pursuant to Title IX of the Education Amendments of 1972 and the Minnesota Human Rights Act. This includes discrimination on the basis of pregnancy. The purpose of this school district policy is to provide equal educational opportunity for all students and to prohibit discrimination on the grounds of sex, parental, family, or marital status.

II. GENERAL STATEMENT OF POLICY

- A. The school district provides equal educational opportunity for all students, and will not apply any rule concerning a student's actual or potential parental, family, or marital status which treats students differently on the basis of sex.
- B. The school district will not discriminate against any student, or exclude any student from its education program or activity, including any class or extracurricular activity, on the basis of such students' pregnancy, childbirth, false pregnancy, termination of pregnancy or recovery therefrom, unless the student requests voluntarily to participate in a separate portion of the program or activity of the recipient.
- C. The school district may require such a student to obtain the certification of a physician that the student is physically and emotionally able to continue participation in the normal education program or activity so long as such a certification is required of all students for other physical or emotional conditions requiring the attention of a physician.
- D. The school district will ensure that any separate and voluntary instructional program is comparable to that offered to non-pregnant students.
- E. It is the responsibility of every school district employee to comply with this policy.
- F. The school board has designated _____ [title, name, office address, and telephone number] as its Title IX coordinator. This employee coordinates the school district's efforts to comply with and carry out its responsibilities under Title IX.
- G. Any student, parent or guardian having questions regarding the application of Title IX and its regulations and/or this policy should discuss them with the Title IX coordinator. Questions relating solely to Title IX and its regulations may be referred to the Assistant Secretary for Civil Rights of the United States Department of Education. In the absence of a specific designee, an inquiry or complaint should be referred to the superintendent or the school district human rights officer.
- H. Any reports of unlawful discrimination under this policy will be handled, investigated, and acted upon in the manner specified in Policy 522.

529 STAFF NOTIFICATION OF VIOLENT BEHAVIOR BY STUDENTS

[Note: School districts are not required to adopt a policy regarding staff notification of violent behavior by students. State law does, however, require school districts to provide classroom teachers with notice of the placement of students with a history of violent behavior in their classrooms. Thus, school districts may decide the manner in which they provide such notice. In 2003, the Minnesota Legislature required a committee, including a representative from the Minnesota School Boards Association (MSBA), to develop a model policy for schools to notify staff about violent behavior by students. That model policy is available on the Minnesota Department of Administration's website. MSBA has modified the committee-developed policy for consistency with its other model policies and to reflect management perspectives. MSBA recommends this policy.]

I. PURPOSE

In an effort to provide a safe school environment, the assigned classroom teacher and certain staff members should know whether a student to be placed in the classroom has a history of violent behavior. Additionally, decisions should be made regarding how to manage such a student.

The purpose of this policy is to address the circumstances in which data should be provided to classroom teachers and other school staff members about students with a history of violent behavior and to establish a procedure for notifying staff regarding the placement of students with a history of violent behavior.

II. GENERAL STATEMENT OF POLICY

- A. Any staff member or other employee of the school district who obtains or possesses information concerning a student in the building with a history of violent behavior shall immediately report said information to the principal of the building in which the student attends school.
- B. The administration will meet with the assigned classroom teacher and other appropriate staff members for the purpose of notifying and determining how staff will manage such student.
- C. Only staff members who have a legitimate educational interest in the information will receive notification.

III. DEFINITIONS

For purposes of this policy, the following terms have the meaning given them.

- A. Administration

"Administration" means the superintendent, building principal, or other designee.

- B. Classroom Teacher

"Classroom teacher" means the instructional personnel responsible for the course or room to which a student is assigned at any given time, including a substitute hired in place of the classroom teacher.

C. History of Violent Behavior

1. A student will be considered to have a history of violent behavior if incident(s) of violence, including any documented physical assault of a school district employee by the student, have occurred during the current or previous school year.
2. If a student has an incident of violence during the current or previous school year, that incident and all other past related or similar incidents of violence will be reported.

D. Incident(s) of Violence

"Incident(s) of violence" means willful conduct in which a student endangers or causes physical injury to the student, other students, a school district employee, or surrounding person(s) or endangers or causes significant damage to school district property, regardless of whether related to a disability or whether discipline was imposed.

E. Legitimate Educational Interest

"Legitimate educational interest" includes interest directly related to classroom instruction, teaching, student achievement and progress, discipline of a student, student health and welfare, and the ability to respond to a request for educational data. It includes a person's need to know in order to:

1. Perform an administrative task required in the school or the employee's contract or position description approved by the school board;
2. Perform a supervisory or instructional task directly related to the student's education; or
3. Perform a service or benefit for the student or the student's family such as health care, counseling, student job placement, or student financial aid.
4. Perform a task directly related to responding to a request for data.

F. School Staff Member

"School staff member" includes:

1. A person duly elected to the school board;
2. A person employed by the school board in an administrative, supervisory, instructional, or other professional position;
3. A person employed by the school board as a temporary substitute in a professional position for the period of his or her performance as a substitute; and
4. A person employed by, or under contract to, the school board to perform a special task such as a secretary, a clerk, a public information officer or data practices compliance official, an attorney, or an auditor for the period of his or her performance as an employee or contractor.

[Note: School districts may wish to reference other school staff members such as paraprofessionals, bus drivers, occupational therapists, or police liaison officers in the definition of a "school staff member." However, the definition of a "school staff member" in this policy should be identical to the school district's definition of a "school official" in Policy 515, Protection and Privacy of Pupil Records.]

IV. PROCEDURE FOR STAFF NOTIFICATION OF STUDENTS WITH VIOLENT BEHAVIOR

A. Reports of Violent Behavior

Any staff member or other employee of the school district who becomes aware of any information regarding the violent behavior of an enrolling student or any student enrolled in the school district shall immediately report the information to the building principal where the student is enrolled or seeks to enroll.

B. Recipients of Notice

Each classroom teacher of a student with a history of violent behavior (see Section III.C., above) will receive written notification from the administration prior to placement of the student in the teacher's classroom. In addition, written notice will be given by the administration to other school staff members who have a legitimate educational interest, as defined in this policy, when a student with a history of violent behavior is placed in a teacher's classroom. The administration will provide notice to anyone substituting for the classroom teacher or school staff member, who has received notice under this policy, that the substitute will be overseeing a student with a history of violent behavior.

The administration may provide other school district employees or individuals outside of the school district with information regarding a student, including information regarding a student's history of violent behavior, in accordance with Policy 515, Protection and Privacy of Pupil Records.

C. Determination of Who Receives Notice

4. Reminder of the private nature of the data provided.

E. Record of Notice

1. The administration will retain a copy of the notice or other documentation provided to classroom teachers and school staff members notified under this section.
2. Retention of the written notice or other documentation provided to classroom teachers and school staff members is governed by the approved Records Retention Schedule.

F. Meetings Regarding Students with a History of Violent Behavior

1. If the administration determines, in his or her discretion, that the classroom teacher and/or school staff members with a legitimate educational interest in such data reasonably require access to the details regarding a student's history of violent behavior for purposes of school safety and/or intervention services for the student, the administration also may convene a meeting to share and discuss such data.
2. The persons present at the meeting may have access to the data described in Section IV.D., above.

G. Law Enforcement Reports

617 SCHOOL DISTRICT ENSURANCE OF PREPARATORY AND HIGH SCHOOL STANDARDS

[Note: With the repeal of the Profile of Learning, school districts no longer are required to comply with the procedures set forth in this policy. School districts which retain any portion of the Profile of Learning graduation requirements, however, may choose to retain all or a portion of this policy and may implement and manage the Profile of Learning content standards in whatever manner they deem appropriate.]

I. PURPOSE

The purpose of this policy is to ensure that all locally adopted preparatory and high school content standards of the Profile of Learning are addressed directly in both curriculum and assessment for all students, including those with special needs.

II. GENERAL STATEMENT OF POLICY

- A. The policy of the school district is to implement the Minnesota Graduation Standards, including local adoption of the former Profile of Learning content standards, during the transition to the implementation of the required Minnesota Academic Standards.
- B. This policy ensures that all students who qualify and elect to satisfy their graduation requirements through the Profile of Learning content standards will continue to receive instruction, curriculum and assessment which address the preparatory and high school content standards of the Profile of Learning. This policy also defines how technology will be integrated across student learning areas. ***[Note: With the repeal of the Profile of Learning, school districts are not required to integrate technology across learning areas and may, in their discretion, delete this provision.]*** In implementing the preparatory and high school content standards, the school district will work to improve the scope and sequences of curriculum, research-based instructional skills of teachers and other district staff who work with students, and alternative assessments of student achievement while making the transition to the required Minnesota Academic Standards.

III. ESTABLISHMENT OF CURRICULUM AND INSTRUCTION

A. Preparatory Content Standards

[To the extent school districts retain preparatory content standards as part of their locally adopted academic standards, school districts should insert in this section how their curriculum and instructional opportunities for all students will address the preparatory content standards, including the primary, intermediate and middle level standards. This section should contain an outline of each learning area's sequence in a manner which provides notice as to when various achievements are expected.]

B. High School Content Standards

The school district will follow Policy 613, Graduation Requirements, as it implements the graduation standards. This policy ensures that all students will receive instruction, curriculum and assessment which addresses the high school content standards of the

Profile of Learning in all learning areas and that the uses of technology are integrated across student learning areas. ***[Note: With the repeal of the Profile of Learning, school districts are not required to integrate technology across learning areas and may, in their discretion, delete this provision.]***

[Note: School districts should examine existing graduation requirements and align them to the new requirements.]

C. Assessment of Content Standards

[School districts should insert their procedure for determining where student achievement of preparatory and high school content standards will be assessed.]

D. Additional Requirements

[School districts may wish to consider including additional graduation requirements beyond those required by the Minnesota Academic Standards.]

E. Special Needs Students

[School districts should insert their procedure for addressing preparatory and high school content standards for students with special needs.]

F. Integration of Technology

[School districts may insert their procedure for addressing how technology will be integrated across the learning areas. With the repeal of the Profile of Learning, school districts are not required to integrate technology across learning areas and may, in their discretion, delete this provision.]

G. Evaluation and Remediation of Student Difficulties and Achievement

[School districts should insert their procedure for addressing how diagnosis of student difficulties and remediation will be accomplished as well as how diagnosis of student achievement and acceleration or continuous progress will be accomplished.]

618 ASSESSMENT OF STUDENT ACHIEVEMENT

I. PURPOSE

The purpose of this policy is to institute a process for the establishment and revision of assessments to measure achievement toward meeting the Minnesota Academic Standards, track academic progress over time, and provide Minnesota graduates information related to career and college readiness.

II. GENERAL STATEMENT OF POLICY

The school district has established a procedure by which students shall complete Graduation Requirements. This procedure includes the adoption of performance assessment methods to be used in measuring student performance. The school district strives to continually enhance student achievement of Graduation Requirements.

III. DEFINITIONS

- A. "Above-grade level" test items contain subject area content that is above the grade level of the student taking the assessment and is considered aligned with state academic standards to the extent it is aligned with content represented in state academic standards above the grade level of the student taking the assessment. Notwithstanding the student's grade level, administering above-grade level test items to a student does not violate the requirement that state assessments must be aligned with state standards.
- B. "Academic standard" means a summary description of student learning in a required content area or elective content area.
- C. "Below-grade level" test items contain subject area content that is below the grade level of the student taking the test and is considered aligned with state academic standards to the extent it is aligned with content represented in state academic standards below the student's current grade level. Notwithstanding the student's grade level, administering below-grade level test items to a student does not violate the requirement that state assessments must be aligned with state standards.
- D. "Benchmark" means the specific knowledge or skill that a student must master to complete part of an academic standard by the end of the grade level or grade band.
- E. "Career and college ready," for purposes of statewide accountability, means a high school graduate has the knowledge, skills, and competencies to successfully pursue a career pathway, including postsecondary credit leading to a degree, diploma, certificate, or industry-recognized credential and employment. Students who are career and college ready are able to successfully complete credit-bearing coursework at a two- or four-year college or university or other credit-bearing postsecondary program without need for remediation.
- F. "Computer-adaptive assessments" means fully adaptive assessments.

- G. "Cultural competence," for purposes of statewide accountability, means the ability and will to interact effectively with people of different cultures, native languages, and socioeconomic backgrounds.
- H. "Elective standards" means a locally adopted expectation for student learning in career and technical education and world languages.
- I. "Experiential learning" means learning for students that includes career exploration through a specific class or course or through work-based experiences such as job shadowing, mentoring, entrepreneurship, service learning, volunteering, internships, or other cooperative work experience, youth apprenticeship, or employment.
- J. "Fully adaptive assessments" include on-grade level test items and items that may be above or below a student's grade level. ***[Note: Fully adaptive mathematics and reading assessments must be used for grades 3 through 7 beginning in the 2015-2016 school year and later.]***
- K. "On-grade level" test items contain subject area content that is aligned to state academic standards for the grade level of the student taking the assessment.
- L. "Required standard" means a statewide adopted expectation for student learning in the content areas of English language arts, mathematics, science, social studies, physical education, and the arts, or a locally adopted expectation for student learning in health or the arts.

IV. ESTABLISHMENT OF CRITERIA FOR ASSESSMENT

- A. The ***[school board/superintendent/director of instruction]*** shall establish criteria by which student performance of local academic standards and elective standards are to be evaluated and approved. The criteria will be submitted to the school board for approval. Upon approval by the school board, the criteria shall be deemed part of this policy.
- B. The superintendent shall ensure that students and parents or guardians are provided with notice of the process by which academic standards will be assessed.
- C. Staff members will be expected to utilize staff development opportunities to the extent necessary to ensure effective implementation and continued improvement of the implementation of assessments under the Minnesota Academic Standards.

V. STANDARDS FOR MINNESOTA ACADEMIC STANDARDS PERFORMANCE ASSESSMENTS

A. Benchmarks

The school district will offer and students must achieve all benchmarks for an academic standard to satisfactorily complete that state standard. These benchmarks will be used by the school district and its staff in developing tests to measure student academic knowledge and skills.

[School districts are required to formally establish a periodic review cycle for academic standards and related benchmarks in health, world languages, and career and technical education.]

B. Statewide Academic Standards Testing

- 1. The school district will utilize statewide assessments developed from and aligned with the state's required academic standards as these tests become available to

evaluate student progress toward career and college readiness in the context of the state's academic standards.

2. The school district will administer annually, in accordance with the process determined by the Minnesota Department of Education, the state-constructed tests aligned with state standards to all students in grades 3 through 8 and at the high school level as follows:
 - a. computer-adaptive reading and mathematics assessments in grades 3 through 8;
 - b. high school reading in grade 10, mathematics in grade 11, and a high school writing test, when it becomes available; and
 - c. science assessments in one grade in the grades 3 through 5 span, the grades 6 through 8 span, and a life science assessment in the grades 9 through 12 span (a passing score on high school science assessments is not a condition of receiving a diploma).
3. The school district will develop and administer locally constructed tests in social studies, health and physical education, and the arts to determine if a student has met the required academic standards in these areas.
4. The school district may use a student's performance on a statewide assessment as one of the multiple criteria to determine grade promotion or retention. The school district also may use a high school student's performance on a statewide assessment as a percentage of the student's final grade in a course, or place a student's assessment score on the student's transcript.
5. For students in grade 8 in the 2012-2013 school year and later, the school district must record on the high school transcript a student's progress toward career and college readiness. For other students, this record of progress must be made as soon as practicable. In addition, the school district may include a notation of high achievement on the high school diplomas of those graduating seniors who, according to established school board criteria, demonstrate exemplary academic achievement during high school.
6. Students who do not meet or exceed the Minnesota Academic Standards, as measured by the Minnesota Comprehensive Assessments administered in high school, must be informed that admission to a public school is free and available to any resident under 21 years of age. The school district will determine how this notice is given.

C. Student Participation

1. The Commissioner of Education must create and publish a form for parents and guardians that:
 - a. explains the need for state academic standards;
 - b. identifies the state assessments that are aligned with state standards;
 - c. identifies the consequences, if any, the school or student may face if a student does not participate in state or locally required standardized assessments;

- d. states that students who receive a college ready benchmark on the high school Minnesota Comprehensive Assessment are not required to take a remedial, noncredit course at a Minnesota state college or university in the corresponding subject area;
 - e. summarizes the provisions in Minnesota Statutes section 120B.301(a) and (c); and
 - f. notifies a parent of the right to not have the parent's child participate in the state and locally required assessments and asks a parent that chooses to not have a child participate in the assessments the basis for the decision.
2. The school district must post the form created by the Commissioner on the school district website and include it in the school district's student handbook.

VI. RIGOROUS COURSE OF STUDY WAIVER

- A. Upon receiving a student's application signed by the student's parent or guardian, the school district must declare that a student meets or exceeds a specific academic standard required for graduation if the school board determines that the student:
 - 1. is participating in a course of study, including an advanced placement or international baccalaureate course or program; a learning opportunity outside the curriculum of the school district; or an approved preparatory program for employment or post-secondary education that is equally or more rigorous than the corresponding state or local academic standard required by the school district;
 - 2. would be precluded from participating in the rigorous course of study, learning opportunity, or preparatory employment or post-secondary education program if the student were required to achieve the academic standard to be waived; and
 - 3. satisfactorily completes the requirements for the rigorous course of study, learning opportunity, or preparatory employment or post-secondary education program.
- B. The school board also may formally determine other circumstances in which to declare that a student meets or exceeds a specific academic standard that the site requires for graduation under this section.
- C. A student who satisfactorily completes a post-secondary enrollment options course or program or an advanced placement or international baccalaureate course or program is not required to complete other requirements of the academic standards corresponding to that specific rigorous course of study.

VII. CAREER EXPLORATION ASSESSMENT

- A. Student assessments, in alignment with state academic standards, shall include clearly defined career and college readiness benchmarks and satisfy Minnesota's postsecondary admissions requirements. Achievement and career and college readiness in mathematics, reading, and writing must also be assessed. When administering formative or summative assessments used to measure the academic progress, including the oral academic development, of English learners and inform their instruction, schools must ensure that the assessments are accessible to the students and students have the

modifications and supports they need to sufficiently understand the assessments.

- B. On an annual basis, the school district must use the career exploration elements in these assessments, beginning no later than grade 9, to help students and their families explore and plan for postsecondary education or careers based on the students' interests, aptitudes, and aspirations. The school district must use timely regional labor market information and partnerships, among other resources, to help students and their families successfully develop, pursue, review, and revise an individualized plan for postsecondary education or a career. This process must help increase students' engagement in and connection to school, improve students' knowledge and skills, and deepen students' understanding of career pathways as a sequence of academic and career courses that lead to an industry-recognized credential, an associate's degree, or a bachelor's degree and are available to all students, whatever their interests and career goals.
- C. All students, except those eligible for alternative assessments, will be encouraged to participate on a nationally normed college entrance exam in grade 11 or 12. A student under this paragraph who demonstrates attainment of required state academic standards on these assessments, which include career and college readiness benchmarks, is academically ready for a career or college and is encouraged to participate in courses awarding college credit to high school students. Such courses and programs may include sequential courses of study within broad career areas and technical skill assessments that extend beyond course grades.

To the extent state funding for college entrance exam fees is available, the school district will pay the cost, one time, for an interested student in grade 11 or 12, who is eligible for a free or reduced-priced meal, to take a nationally recognized college entrance exam before graduating. The school district may require a student who is not eligible for a free or reduced-priced meal to pay the cost of taking a nationally recognized college entrance exam. The school district will waive the cost for a student who is unable to pay.
- D. As appropriate, students through grade 12 must continue to participate in targeted instruction, intervention, or remediation and be encouraged to participate in courses awarding college credit to high school students.
- E. In developing, supporting, and improving students' academic readiness for a career or college, the school district must have a continuum of empirically derived, clearly defined benchmarks focused on students' attainment of knowledge and skills so that students, their parents, and teachers know how well students must perform to have a reasonable chance to succeed in a career or college without need for postsecondary remediation.

624 ONLINE LEARNING OPTIONS

[Note: The provisions of this policy substantially reflect the statutory requirements of Minnesota Statutes section 124D.095, the Online Learning Option Act.]

I. PURPOSE

The purpose of this policy is to recognize and govern online learning options of students enrolled in the school district for purposes of compulsory attendance and address enrollment of students with an online learning provider for supplemental or full-time online learning.

II. GENERAL STATEMENT OF POLICY

- A. The school district shall not prohibit an enrolled student from applying to enroll in online learning.
- B. The school district shall grant academic credit for completing the requirements of an online learning course or program.
- C. The school district shall allow an online learning student to have the same access to the computer hardware and education software available in the school district as all other students in the school district. An online learning provider must assist an online learning student whose family qualifies for education tax credit to acquire computer hardware and educational software for online learning purposes.
- D. The school district shall continue to provide non-academic services to online learning students.
- E. Online learning students may participate in the extracurricular activities of the school district on the same basis as other enrolled students.

[Note: The school district may itself offer digital learning to its enrolled students. Such digital learning does not generate online learning funds. To the extent digital learning is offered by the school district only to its enrolled students, it is not subject to the Minnesota Department of Education (MDE) reporting or review requirements unless the school district is a full-time online learning provider. See Minnesota Statutes section 124D.095, subdivision. 4(d) and (e).]

To the extent the school district provides to resident students curriculum that has both physical and electronic components, the school district must make the electronic component accessible to a resident student in a home school at the request of the home-schooled student or student's parent or guardian, provided that the school district does not incur more than an incidental cost as a result of providing access electronically. See Minnesota Statutes section 123B.42.]

III. DEFINITIONS

- A. "Blended learning" is a form of digital learning that occurs when a student learns part time in a supervised physical setting and part time through digital delivery of instruction, or a student learns in a supervised physical setting where technology is used as a primary method to deliver instruction.
- B. "Digital learning" is learning facilitated by technology that offers students an element of control over the time, place, path, or pace of their learning and includes blended and online learning.

- C. "Enrolling district" means the school district or charter school in which a student is enrolled under Minnesota Statutes section 120A.22, subdivision 4, for purposes of compulsory education.
- D. "Full-time online learning provider" means an enrolling school authorized by MDE to deliver comprehensive public education at any or all of the elementary, middle, or high school levels.
- E. "Online learning course syllabus" is a written document that an online learning provider transmits to the enrolling school district using a format prescribed by the Commissioner of MDE (Commissioner) to identify the state academic standards embedded in an online learning course, the course content outline, required course assessments, expectations for actual teacher contact time, and other student-to-teacher communications, and the academic support available to the online learning student.
- F. "Online learning" is a form of digital learning delivered by an approved online learning provider under Paragraph III.H.
- G. "Online learning student" is a student enrolled in an online learning course or program delivered by an authorized online learning provider.
- H. "Online learning provider" is a school district, an intermediate school district, or an organization of two or more school districts operating under a joint powers agreement, or a charter school located in Minnesota that provides online learning to students and is approved by MDE to provide online learning courses.
- I. "Student" is a Minnesota resident enrolled in a public school, a nonpublic school, church or religious organization, or home school in which a child is provided instruction in compliance with Minnesota Statutes sections 120A.22 and 120A.24.
- J. "Supplemental online learning" means an online learning course taken in place of a course period at a local district school.

IV. PROCEDURES

- A. Dissemination and Receipt of Information
 - 1. The school district shall make available information about online learning to all interested people. The school district may utilize the list of approved online learning providers and online learning courses and programs developed, published, and maintained by MDE.
 - 2. The school district will receive and maintain information provided to it by online learning providers.
 - 3. The online learning provider must report or make available information on an individual student's progress and accumulated credit to the student, the student's parent, and the enrolling district in a manner specified by the Commissioner unless the enrolling district and the online learning provider agree to a different form of notice and notify the Commissioner.
 - 4. The enrolling district must designate a contact person to help facilitate and monitor the student's academic progress and accumulated credits toward graduation.
- B. Student Enrollment
 - 1. A student may apply for full-time enrollment in an approved online learning program. The student must have the written consent of a parent or guardian to do so if the student is under eighteen (18) years of age.

2. The student and the student's parents must submit an application to the online learning provider and identify the student's reason for enrolling. An online learning provider that accepts a student under this section must notify the student and the enrolling district in writing within ten days if the enrolling district is not the online learning provider. The student and the student's parent must notify the online learning provider of the student's intent to enroll in online learning within ten days of being accepted, at which time the student and the student's parent must sign a statement indicating that they have reviewed the online course or program and understand the expectations of enrolling in online learning. The online learning provider must use a form provided by MDE to notify the enrolling district of the student's application to enroll in online learning.
3. The supplemental online learning notice to the enrolling district when a student applies to the online learning provider will include the courses or program, credits to be awarded, and the start date of the online learning course or program. An online learning provider must make available the supplemental online learning course syllabus to the enrolling district. Within 15 days after the online learning provider makes information in this paragraph available to the enrolling district, the enrolling district must notify the online learning provider whether the student, the student's parent, and the enrolling district agree or disagree that the course meets the enrolling district's graduation requirements. A student may enroll in a supplemental online learning course up to the midpoint of the school district's term. The school district may waive this requirement for special circumstances with the agreement of the online learning provider.
4. An online learning course or program that meets or exceeds a graduation standard or the grade progression requirement of the enrolling district as described in the provider's online learning course syllabus meets the corresponding graduation requirements applicable to the student in the enrolling district. If the enrolling district does not agree that the course or program meets its graduation requirements, then the enrolling district must make available an explanation of its decision to the student, the student's parent, and the online learning provider; and the online learning provider may make available a response to the enrolling district, showing how the course or program meets the graduation requirements of the enrolling district.
5. An online learning student may enroll in supplemental online learning courses equal to a maximum of 50 percent of the student's full schedule of courses per term during a single school year, and the student may exceed the supplemental online learning registration limit if the enrolling district permits for supplemental online learning enrollment above the limit or if the enrolling district and the online learning provider agree to the instructional services. To enroll in more than 50 percent of the student's full schedule or courses per term in online learning, the student must qualify to exceed the supplemental online learning registration limit or apply to enroll in an approved full-time online learning program consistent with Paragraph IV.B.2. above. Full-time online learning students may enroll in classes at a local school under a contract for instructional services between the online learning provider and the school district.
6. An online learning student may complete course work at a grade level that is different from the student's current grade level.
7. An online learning student may enroll in additional courses with the online learning provider under a separate agreement that includes terms for paying any tuition or course fees.

C. Classroom Membership and Teacher Contact Time

1. The enrolling district may reduce an online learning student's regular classroom instructional membership in proportion to the student's membership in online learning courses.
2. The school district may reduce the course schedule of an online learning student in proportion to the number of online learning courses the student takes from an online learning provider other than the school district.
3. A teacher with a Minnesota license must assemble and deliver instruction to enrolled students receiving online learning from an enrolling district. The delivery of instruction occurs when the student interacts with the computer or the teacher and receives ongoing assistance and assessment of learning. The instruction may include curriculum developed by persons other than a teacher holding a Minnesota license.
4. The online learning provider, other than a digital learning provider offering digital learning to its enrolled students only under Minnesota Statutes section 124D.095, Subd. 4(d), must give the Commissioner written assurance that all courses meet state academic standards and the online learning curriculum, instruction, and assessment expectations for actual teacher contact time or other student-teacher communications and academic support meet nationally recognized standards and are described as such in an online learning course syllabus that meets the Commissioner's requirements.

D. Academic Credit; Graduation Standards or Requirements

1. The school district shall apply the same graduation requirements to all students, including online learning students.
2. The school district shall use the same criteria for accepting online learning credits or courses as it does for accepting credits or courses for nonresident transfer students under Minnesota law.
3. The school district may challenge the validity of a course offered by an online learning provider. Such a challenge will be filed with MDE.
4. The school district shall count secondary credits granted to an online learning student toward its graduation and credit requirements.
5. If a student completes an online learning course or program that meets or exceeds a graduation standard or grade progression requirement at the school district, that standard or requirement will be met.
6. Weighted grades will also be applicable if the school district has adopted a policy to offer weighted grades.

707 TRANSPORTATION OF PUBLIC SCHOOL STUDENTS

[Note: The obligations stated in this policy are largely governed by statute. A school district may choose to add obligations to the model policy.]

I. PURPOSE

The purpose of this policy is to provide for the transportation of students consistent with the requirements of law.

II. GENERAL STATEMENT OF POLICY

- A. The policy of the school district is to provide for the transportation of students in a manner which will protect their health, welfare, and safety.
- B. The school district recognizes that transportation is an essential part of the school district services to students and parents but further recognizes that transportation by school bus is a privilege and not a right for an eligible student.

III. DEFINITIONS

- A. "Child with a disability" includes every child identified under federal and state special education law as deaf or hard of hearing, blind or visually impaired, deafblind, or having a speech or language impairment, a physical impairment, other health disability, developmental cognitive disability, an emotional or behavioral disorder, specific learning disability, autism spectrum disorder, traumatic brain injury, or severe multiple impairments, and who needs special education and related services, as determined by the rules of the Commissioner of the Minnesota Department of Education ("Commissioner"). A licensed physician, an advanced practice nurse, a physician assistant, or a licensed psychologist is qualified to make a diagnosis and determination of attention deficit disorder or attention deficit hyperactivity disorder for purposes of identifying a child with a disability. In addition, every child under age three, and at the school district's discretion from age three to seven, who needs special instruction and services, as determined by the rules of the Commissioner, because the child has a substantial delay or has an identifiable physical or mental condition known to hinder normal development is a child with a disability. A child with a short-term or temporary physical or emotional illness or disability, as determined by the rules of the Commissioner, is not a child with a disability.
- B. "Home" is the legal residence of the child. In the discretion of the school district, "home" also may be defined as a licensed day care facility, school day care facility, a respite care facility, the residence of a relative, or the residence of a person chosen by the student's parent or guardian as the home of a student for part or all of the day, if requested by the student's parent or guardian, or an afterschool program for children operated by a political subdivision of the state, if the facility, residence, or program is within the attendance area of the school the student attends. Unless otherwise specifically provided by law, a homeless student is a resident of the school district if enrolled in the school district.
- C. "Homeless student" means a student, including a migratory student, who lacks a fixed,

regular, and adequate nighttime residence and includes: students who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; are abandoned in hospitals; are awaiting foster care placement; have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings; are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings, and migratory children who qualify as homeless because they are living in any of the preceding listed circumstances.

- D. "Nonpublic school" means any school, church, or religious organization, or home school wherein a resident of Minnesota may legally fulfill the compulsory instruction requirements of Minnesota Statutes section 120A.22, which is located within the state, and which meets the requirements of Title VI of the Civil Rights Act of 1964.
- E. "Nonresident student" is a student who attends school in the school district and resides in another district, defined as the "nonresident district." In those instances when the divorced or legally separated parents or parents residing separately share joint physical custody of a student and the parents reside in different school districts, the student shall be a resident of the school district designated by the student's parents. When parental rights have been terminated by court order, the legal residence of a student placed in a residential or foster facility for care and treatment is the district in which the student resides.
- F. "Pupil support services" are health, counseling, and guidance services provided by the public school in the same district where the nonpublic school is located.
- G. "School of origin," for purposes of determining the residence of a homeless student, is the school that the student attended when permanently housed or the school in which the student was last enrolled.
- H. "Shared time basis" is a program where students attend public school for part of the regular school day and who otherwise fulfill the requirements of Minnesota Statutes section 120A.22 by attendance at a nonpublic school.
- I. "Student" means any student or child attending or required to attend any school as provided in Minnesota law and who is a resident or child of a resident of Minnesota.

IV. ELIGIBILITY

- A. Upon the request of a parent or guardian, the school district shall provide transportation to and from school, at the expense of the school district, for all resident students who reside two miles or more from the school, except for those students whose transportation privileges have been revoked or have been voluntarily surrendered by the student's parent or guardian.
- B. The school district may, in its discretion, also provide transportation to any student to and from school, at the expense of the school district, for any other purpose deemed appropriate by the school board.

[Note: In this section, school districts may wish to outline those discretionary areas where they intend to provide transportation. For example, some school districts may provide that transportation shall be provided for all resident elementary students who reside one mile or more from the school.]

- C. In the discretion of the school district, transportation along regular school bus routes may also be provided, where space is available, to any person where such use of a bus does not interfere with the transportation of students. The cost of providing such transportation must be paid by those individuals using these services or some third-party payor. Bus transportation also may be provided along school bus routes when space is available for participants in early childhood family education programs and school readiness programs if these services do not result in an increase in the school district's expenditures for transportation
- D. For purposes of stabilizing enrollment and reducing mobility, the school district may, in its discretion, establish a full-service school zone and may provide transportation for students attending a school in that full-service school zone. A full-service school zone may be established for a school that is located in an area with higher than average crime or other social and economic challenges and that provides education, health or human services, or other parental support in collaboration with a city, county, state, or nonprofit agency.

V. TRANSPORTATION OF NONRESIDENT STUDENTS

- A. If requested by the parent of a nonresident student, the school district shall provide transportation to a nonresident student within its borders at the same level of service that is provided to resident students.
- B. If the school district decides to transport a nonresident student within the student's resident district, the school district will notify the student's resident district of its decision, in writing, prior to providing transportation.
- C. When divorced or legally separated parents or parents residing separately reside in different school districts and share physical custody of a student, the parents shall be responsible for the transportation of the student to the border of the school district during those times when the student is residing with the parent in the nonresident school district.
- D. The school district may provide transportation to allow a student who attends a high-need English language learner program and who resides within the transportation attendance area of the program to continue in the program until the student completes the highest grade level offered by the program.

VI. TRANSPORTATION OF RESIDENT STUDENTS TO NONDISTRICT SCHOOLS

- A. In general, the school district shall not provide transportation between a resident student's home and the border of a nonresident district where the student attends school under the Enrollment Options Program. A parent may be reimbursed by the nonresident district for the costs of transportation from the pupil's residence to the border of the nonresident district if the student is from a family whose income is at or below the poverty level, as determined by the federal government. The reimbursement may not exceed the pupil's actual cost of transportation or 15 cents per mile traveled, whichever is less. Reimbursement may not be paid for more than 250 miles per week. (Minn. Stat. § 124D.03, Subd. 8)
- B. Resident students shall be eligible for transportation to and from a nonresident school district at the expense of the school district, if in the discretion of the school district, inadequate room, distance to school, unfavorable road conditions, or other facts or conditions make attendance in the resident student's own district unreasonably difficult

or impracticable. The school district, in its discretion, may also provide for transportation of resident students to schools in other districts for grades and departments not maintained in the district, including high school, for the whole or a part of the year or for resident students who attend school in a building rented or leased by the school district in an adjacent district.

- C. In general, the school district is not responsible for transportation for any resident student attending school in an adjoining state under a reciprocity agreement but may provide such transportation services at its discretion.

VII. SPECIAL EDUCATION STUDENTS/STUDENTS WITH A DISABILITY/ STUDENTS WITH TEMPORARY DISABILITIES

- A. Upon a request of a parent or guardian, the board must provide necessary transportation, consistent with Minnesota Statutes section 123B.92, subdivision 1(b)(4), for a resident child with a disability not yet enrolled in kindergarten for the provision of special instruction and services. Special instruction and services for a child with a disability not yet enrolled in kindergarten include an individualized education program (IEP) team placement in an early childhood program when that placement is necessary to address the child's level of functioning and needs.
- B. Resident students with a disability whose disabling conditions are such that the student cannot be safely transported on the regular school bus and/or school bus route and/or when the student is transported on a special route for the purpose of attending an approved special education program shall be entitled to special transportation at the expense of the school district or the day training and habilitation program attended by the student. The school district shall determine the type of vehicle used to transport students with a disability on the basis of the disabling condition and applicable laws. This provision shall not be applicable to parents who transport their own child under a contract with the school district.
- C. Resident students with a disability who are boarded and lodged at Minnesota state academies for educational purposes, but who also are enrolled in a public school within the school district, shall be provided transportation, by the school district to and from said board and lodging facilities, at the expense of the school district.
- D. If a resident student with a disability attends a public school located in a contiguous school district and the school district of attendance does not provide special instruction and services, the school district shall provide necessary transportation for the student between the school district boundary and the educational facility where special instruction and services are provided within the school district. The school district may provide necessary transportation of the student between its boundary and the school attended in the contiguous district, but shall not pay the cost of transportation provided outside the school district boundary.
- E. When a student with a disability or a student with a short-term or temporary disability is temporarily placed for care and treatment in a day program located in another school district and the student continues to live within the school district during the care and treatment, the school district shall provide the transportation, at the expense of the school district, to that student. The school district may establish reasonable restrictions on transportation, except if a Minnesota court or agency orders the child placed at a day care and treatment program and the school district receives a copy of the order, then the school district must provide transportation to and from the program unless the court or agency orders otherwise. Transportation shall only be provided by the school district

during regular operating hours of the school district.

- F. When a nonresident student with a disability or a student with a short-term or temporary disability is temporarily placed in a residential program within the school district, including correctional facilities operated on a fee-for-service basis and state institutions, for care and treatment, the school district shall provide the necessary transportation at the expense of the school district. Where a joint powers entity enters into a contract with a privately owned and operated residential facility for the provision of education programs for special education students, the joint powers entity shall provide the necessary transportation.
- G. Each driver and aide assigned to a vehicle transporting students with a disability will be provided with appropriate training for the students in their care, will assist students with their safe ingress and egress from the bus, will ensure the proper use of protective safety devices, and will be provided with access to emergency health care information as required by law.
- H. Any parent of a student with a disability who believes that the transportation services provided for that child are not in compliance with the applicable law may utilize the alternative dispute resolution and due process procedures provided for in Minnesota Statutes chapter 125A.

VIII. HOMELESS STUDENTS

- A. Homeless students shall be provided with transportation services comparable to other students in the school district.
- B. Upon request by the student's parent, guardian, or homeless education liaison, the school district shall provide transportation for a homeless student as follows:
 - 1. A resident student who becomes homeless and is residing in a public or private shelter location or has other non-shelter living arrangements within the school district shall be provided transportation to and from the student's school of origin and the shelter or other non-shelter location on the same basis as transportation services are provided to other students in the school district.
 - 2. A resident student who becomes homeless and is residing in a public or private shelter location or has other non-shelter living arrangements outside of the school district shall be provided transportation to and from the student's school of origin and the shelter or other non-shelter location on the same basis as transportation services are provided to other students in the school district, unless the school district and the school district in which the student is temporarily placed agree that the school district in which the student is temporarily placed shall provide transportation.
 - 3. If a nonresident student is homeless and is residing in a public or private homeless shelter or has other non-shelter living arrangements within the school district, the school district may provide transportation services between the shelter or non-shelter location and the student's school of origin outside of the school district upon agreement with the school district in which the school of origin is located.
 - 4. A homeless nonresident student enrolled under Minnesota Statutes section 124D.08, subdivision 2a, must be provided transportation from the student's district of residence to and from the school of enrollment.

IX. AVAILABILITY OF SERVICES

Transportation shall be provided on all regularly scheduled school days or make-up days. Transportation will not be provided during the summer school break. Transportation may be provided for summer instructional programs for students with a disability or in conjunction with a learning year program. Transportation between home and school may also be provided, in the discretion of the school district, on staff development days.

X. MANNER OF TRANSPORTATION

The scheduling of routes, establishment of the location of bus stops, manner and method of transportation, control and discipline of school children, the determination of fees, and any other matter relating thereto shall be within the sole discretion, control and management of the school board. The school district may, in its discretion, provide room and board, in lieu of transportation, to a student who may be more economically and conveniently provided for by that means.

XI. RESTRICTIONS

Transportation by the school district is a privilege and not a right for an eligible student. A student's eligibility to ride a school bus may be revoked for a violation of school bus safety or conduct policies, or violation of any other law governing student conduct on a school bus pursuant to the school district's discipline policy. Revocation of a student's bus riding privilege is not an exclusion, expulsion, or suspension under the Pupil Fair Dismissal Act. Revocation procedures for a student who is an individual with a disability under 20 United States Code section 1415 (Individuals with Disabilities Act), 29 United States Code section 794 (the Rehabilitation Act), and 42 United States Code section 12132, (Americans with Disabilities Act) are governed by these provisions.

XII. FEES

- A. In its discretion, the school district may charge fees for transportation of students to and from extracurricular activities conducted at locations other than school, where attendance is optional.
- B. The school district may charge fees for transportation of students to and from school when authorized by law. If the school district charges fees for transportation of students to and from school, guidelines shall be established for that transportation to ensure that no student is denied transportation solely because of inability to pay. The school district also may waive fees for transportation if the student's parent is serving in, or within the past year has served in, active military service as defined in Minnesota Statutes section 190.05.
- C. The school district may charge reasonable fees for transportation of students to and from post-secondary institutions for students enrolled under the post-secondary enrollment options program. Families who qualify for mileage reimbursement may use their state mileage reimbursement to pay this fee
- D. Where, in its discretion, the school district provides transportation to and from an instructional community-based employment station that is part of an approved occupational experience vocational program, the school district may require the payment of reasonable fees for transportation from students who receive remuneration for their participation in these programs.
