7. UNFINISHED BUSINESS

7.1. CHARTER BOARD DISPUTE

Director Drago moves to reject Superintendent Watkins response and move forward with asking the charter to work on the conflicting language and have work sessions between the two boards. This motion, made by Meleah Drago, Unseconded. Director Eastburn moves to affirm the superintendents response and to have an OSBA facilitated discussion to review the contract in a joint session with the Charter Board for language and compliance with Oregon Law. This motion, made by Jeff Eastburn and seconded by Dwight Coon, Carried.

Meleah Drago: Nay, Jeff Thiessen: Nay, Dwight Coon: Yea, Jeff Eastburn: Yea, Derek

Pennel: Yea, Bev Schiesser: Yea, Lenae Sjostrom: Yea

Yea: 5, Nay: 2 Meleah Drago: Nay, Jeff Thiessen: Nay

Board Chair Pennel asked Ms. Wagner to share her written response to the prior response given to the charter board by Superintendent Watkins in regards to the charter board's dispute. Board Chair Pennel summarizes why we are on this subject today. He shares that within the contract between the charter and the district there is a process to deal with disputes. He shares that, more than likely, here at the board level, we are the final decision on this dispute. Yes, the dispute can move on to the state, but they do not choose to handle most disputes presented to them. He shares the documents provided to the board, which are the current charter contract. Next is the original dispute submitted by the charter board to the district with the responses from the district representative, Superintendent Watkins. The last document is Ms. Wagner's response to the response from the district. He starts by saying in the contractual document there are really 3 different documents imbedded within, which were created at different times. There is the legal piece, roles and responsibilities matrix, and then there is the objectives, missions, key deliverables, curriculum. He just wants everyone to understand there are 3 separate pieces to this contract. The unfortunate part about this is the contract doesn't stipulate what to do if there are conflicts between the three pieces. He feels this is the main issue leading to the grounds of this dispute. Example is class size: one document speaks to class sizes, another speaks to grade level, another speaks to attending "at" while the other

speaks to attending the school. He feels that in many respects this contract is really only workable if there are no disputes. As long as the issues never surfaced, both the district and the charter never really noticed. We did have an OSBA attorney that drafted this document. You will see fraises that reference that the District may, in several places. He feels the 3 areas of issue are: day to day operation and control, changes to the educational program, and the largest right now is capacity and if the size of our school meets the contractual agreement. There have also been significant changes to the laws of charters. There are some changes that we have not addressed over the years as they have come up.

Board Chair Pennel feels that we should have a motion to either affirm or reject the Superintendents answer to this dispute. He then feels we need to move as soon as possible to retain help to reconstruct the charter contract. We have a representative within OSBA that he feels would be a good resource moving forward.

Director Coon asks if the Oregon Law arbitrates this contract. Board Chair Pennel feels Oregon Law is built into the contract. He also shares that Kristin Miles had started doing some work to review and correct some things within this contract. He also believes that moving forward we will try to obtain 1 contract with no appendix or separate documents within one contract.

Director Eastburn feels that the language of the contract is poor and contradicts not only itself and also some of our school policy. He feels that going forward with a blank contract and working together to re-write another might be the best approach.

Director Schiesser asks if this current contract could be modified prior to the year 2025 when this contract is through. Superintendent Watkins shares that both parties have to agree to that in order to be able to move forward prior to 2025.

Director Coon feels that we need to look at any areas that are in direct conflict with Oregon Law and make sure we are correcting it right away. He feels there are some areas that are not accurate with current law.

Director Drago asks, hasn't the Charter board been asking to meet with the board many times to come together to discuss this? Board Chair Pennel shares that yes they have, but we did answer that we had to get some other items off the table first, and stated they would come to this towards June, which is happening.

Director Coon asks what the original makeup of the charter board was. Board Chair Pennel answers 1 board member, 3 employees and 1 community/community member.

Director Sjostrom asks if other charter schools have a charter board and a district board. Board Chair Pennel shares that when we originally became a charter, that yes, there was a need for another board. In 2017, the state did away with the need to have a second board. To his knowledge, we and one other district have a dual structure. No other charters do that he is aware of. Superintendent Watkins shares that a majority of those have shifted to a site advisory committee.

The board members discussed the need for a motion moving forward.

Director Thiessen asks if the district board has the ability to dissolve the charter contract. Board Chair Pennel says there are certain provisions that would allow us to do so, but he doesn't know that we have the grounds to do so at this time. There would also need to be specific notification to the charter board as well.

The clarification of the motion is that the Charter Board will be asked to join in the session with OSBA. We will work with the charter board and the district board and OSBA to schedule a joint meeting.

8. NEW BUSINESS

There is no new business.

9. THE BOARD MAY RECESS THE REGULAR MEETING AND CONVENE EXECUTIVE SESSION

10. RECONVENE REGULAR SESSION

Director Thiessen moves to accept the contract as presented for the 2023-2026 school years. This motion, made by Jeff Thiessen and seconded by Bev Schiesser, Carried.

Dwight Coon: Yea, Meleah Drago: Yea, Jeff Eastburn: Yea, Derek Pennel: Yea, Bev Schiesser: Yea, Lenae Sjostrom: Yea, Jeff Thiessen: Yea

Yea: 7, Nay: 0

Board Chair Pennel reconvenes the meeting at 8:00 pm. The board comes out of the executive session with a motion to be put forward.

11. ANNOUNCEMENTS

11.1. UPCOMING BOARD MEETING

Superintendent Watkins shares that we have asked the board members if they are okay with moving the June meeting up a week to the 14th. We have also discussed moving forward with setting the second week of the month for moving forward to next year. There are several breaks and timeframes that cause us to move our meetings to the second Wednesday of the month. This would allow us to stay more consistent.

The next upcoming board meeting will be held on Wednesday, June 14th at 6 pm.

Reminder that Open House starts tomorrow at 5:30 pm and goes to 7 pm. There will be dinner served.

Board Chair Pennel is going to bring an amendment of previous minutes to the table at the next meeting.

Social Services Board Report June 2023

With our recent graduation, I am working on finishing the ODE June exit report and should have it finished by the end of the month. We have had 11 students exit our sped program this year. These 11 students, were exited for several reasons students graduated, moved, or were exited from special education services. We now have 41 active students on IEPs for our district.

On June 13th the special education team went to view Siuslaw's special education program, this was very informative. We came back with some great ideas we plan on implementing next year.

We have started work on a school-wide PBIS behavioral matrix.

Over this last month, we have seen a decrease in the number of behavioral referrals and an increase in positive referrals.

I am excited to be finishing up my first here at Triangle Lake Charter School, I look forward to many more.

SUPERINTENDENT'S MESSAGE

As a District we are so proud of the amazing school and community we have here in Blachly. Through the Blachly SD visioning process, it was obvious our school is the central point for our community. By most measures, we have one of the strongest school districts in the state. We believe that every student has their own path and can find success here at Triangle Lake Charter School.

In August of 2021, Blachly School District engaged our stakeholders around the development of our Graduate Profile. This process included several engagement sessions, surveys and focal group meetings where we discussed the key elements and skills we want Triangle Lake graduates to possess upon graduation.

A task force was assembled to synthesize and prioritize the feedback from our engagement sessions and information gathered with the goal of identifying the key elements and skills for our Portrait of a Graduate. This process and group were facilitated by Michelle Swanson and Theron Cosgrave, experienced educators and leaders who have led several school districts across the country in development of their districts Portrait of a Graduate. It was an inspiring process to listen to the hopes, dreams, and skills our community desires for our students.

The Portrait of a Graduate work led us to engage in the process of developing a Strategic Plan for our District. We utilized the same task force to synthesize and analyze data and feedback from multiple focal groups and stakeholder engagement sessions. Through this work, we identified key goals, outcomes, and activities that will move the district forward and align the Portrait of a Graduate with the District Strategic Plan.

This Strategic Plan is a living document. This plan is intended to be updated on an annual basis as the district strives to enhance teaching and learning. It also serves the vital necessity of strengthening the connection with our students and community. The Strategic Plan is the driving force behind future decisions made by the district as we work to execute our plan in supporting our students, staff, and school community.

Blachly School District and Triangle Lake Charter School thanks you for your ongoing support. It is only together that we will be able to fully accomplish our mission of success for all students and a school community that is dedicated to educational excellence, belonging, and future ready students.

Sincerely,

Adam Watkins, Superintendent

WHO WE ARE

Blachly School District is located in the rural community of Triangle Lake. The District serves students from the local community, as well as neighboring communities through their Charter School programs. Blachly School District has a strong sense of community which leads to our students feeling known, seen, and supported academically, socially, and emotionally. Staff have authentic and meaningful connections with their students; these connections reinforce a sense of support, connectedness, and caring amongst our students and school community.

Blachly School District supports K-12 Triangle Lake Charter School. Triangle Lake Charter School (TLCS) serves 220 students for in-person learning in grades K-12. TLCS On-Line serves 210 students in grades K-12. Students attending TLCS in-person come from a variety of communities including Triangle Lake, Elmira, Veneta, Mapleton, Deadwood, Swisshome, Junction City and Monroe.

WHAT WE BELIEVE

Blachly School District believes we can provide a hands-on real and relevant educational environment for our students while staying true to our small town and rural culture of caring and connectedness. We believe our students will need to see the big picture in our ever-changing world. They must be able to solve problems, relate well to others, and think creatively. Our staff genuinely care about our students and go above and beyond to help our students find their strengths and passions. We believe our students have the confidence and capacity to change the world. We believe every student has a unique future and can be successful. We are fortunate to live in a unique and special community that makes us stronger and vice versa.

STRATEGIC PLANNING PROCESS

The Strategic Planning process was initiated at the October 19, 2022 Blachly School Board Meeting by Board Members and Adam Watkins, Superintendent. The process began by meeting with the Strategic Planning Task Force members. Members of the Task Force were thoughtfully selected to be representative of a diverse group of stakeholders including staff, students, parents, school board members, and community members.

Strategic Planning Task Force Members include:

Viggo Beck - TLCS High School Student
Brittany Bottensek - Principal
Bobby Jo Brewster - Parent and Community Member
Julie Brooks - Parent and Community Member
Gwen Coons - High School Certified Teacher
Jeff Eastburn - Parent, School Board Member
Veronica Jensen - High School Registered Teacher, Assistant
Jenisa Mather - TLCS High School Student
Jodi O'Mara - Consultant
Derek Pennel - Parent, School Board Member
Kathleen Rodden-Nord - Consultant
Bev Schiesser - School Board Member
Bri Simington - Executive Secretary, Parent
Katherine Tripp - Assistant Principal, Special Education Director
Lisa Wagner - High School Registered Teacher, Charter Board
Adam Watkins - Superintendent

The district hosted focus group meetings for parents/community members, staff, and students. Thirty-five stakeholders, in addition to every board member, participated in either a virtual or in-person focus group meeting. There were six different focus group meetings, three virtual meetings, and three in-person meetings. For those not

able to participate in a focus group meeting, a district/community survey was provided both online and on paper. Forty-three students, staff, parents, and community members completed the survey.

Data collected was presented to the Task Force and School Board in a Key Findings Document which included focus group findings, survey results, and a review of additional data collected. The Key Findings highlighted district strengths and challenges facing the district, as well as suggested improvements. After the Key-Findings were identified from the data collected, the team, various members of the staff, and the consultants started developing individual components of the report.

DISTRICT CORE VALUES

Core values support the ethics and ideals of an organization that form the foundation of its culture. The three core values listed below were developed after collaboration with the Strategic Planning Task Force, review of the Key Findings, and in alignment with the District Integrated Guidance Plan.

★ **Career, College, and Future Ready Students**

Create a culture of career and college readiness that increases opportunities to ensure academic excellence for all.

★ **Safe and Inclusive Environment**

Create a learning environment where students feel safe and supported educationally, emotionally, socially, and mentally.

★ **Culture of Belonging and Engagement**

Create a culture of belonging that is inclusive of diverse staff, learners, and all students allowing families and the community to feel welcome and a part of the school environment.

Over the five-year implementation of this plan, the Board and their constituents will be tasked with ensuring the District Vision and Mission align with the core values.

DISTRICT MISSION & VISION

The Blachly School District's mission statement identifies the purpose, indicates why it exists, and why it was originally founded. It is intended to clearly communicate what has heart and meaning in the District in one brief statement. The statement is more about what the District wants to be known for as opposed to providing a detailed road map for the mission execution.

The mission of the Blachly School Board of Education is to pursue educational excellence and enhance individual learning through information technology, natural resources, and health and fitness.

The Blachly School District's vision was created and designed to capture the District's intended culture in a few carefully selected words. The purpose of the vision is to inspire, energize, motivate, and support all facets of the Blachly School District.

STRATEGIC GOALS, STRATEGIES & MEASURES

STRATEGIC GOALS:

Blachly School District's Strategic Goals are a roadmap for achievement of the vision over the next five (2023-2028) school years. The Strategic Planning Task Force recognized that if this plan is to be successful, the goals must be challenging but reachable. Goal development was a lengthy and important process. As a small school district, it is important to be mindful of the number of different initiatives being implemented in relation to the number of staff tasked with implementing the initiatives. The Task Force limited the number of goals to three in alignment with the Integrated Guidance Plan that supports six Oregon Department of Education Initiatives: High School Success, Student Investment Account, Continuous Improvement Planning, Career and Technical Education, Every Day Matters, Early Indicator and Intervention Systems.

Goals are written as broad, long-term outcomes that are reasonable to achieve with a time frame and available resources. Several objectives are developed within each of the three goals. These objectives are specific and break down the goals into more explicit directions by providing quantitative measurements. Within each objective are the specific strategies the district will complete to meet the objectives and goals.

DISTRICT - LEVEL MEASURES OF SUCCESS

In addition to the Measures of Success listed for each objective, District Academic Success Indicators from the Oregon Department of Education Accountability Detail Report can be used to measure district level success towards meeting the goals and objectives in the Strategic Plan.

Academic Success Indicators include but are not limited to:

- Regular Attenders Rate
- English Language Arts Achievement at grades 3-8 and 11
- Math Achievement at grades 3-8 and 11
- Measures of Academic Progress (MAPs) at grades K-11
- 9th grade On Track
- 4-year Graduation Rate
- 5-year Completion Rate

It is recommended that the Strategic Planning Committee review district level measures annually prior to revising the Strategic Plan. The review should include a formal report presented annually to the School Board regarding the progress towards implementation of the Strategic Plan.

It is recommended the district use Academic Success Indicators from 2022-2023 school year as a baseline.

IMPLEMENTATION & ACCOUNTABILITY

Accountability measures must be put in place to ensure fidelity in implementation and steady progress. During the implementation process it is essential to monitor the success and challenges of the objectives, strategies, timelines, and measures. From time to time (annually at a minimum) it will be necessary to revise, update, and improve this plan. It is important to acknowledge that this plan is a living, breathing document that should be adjusted and updated along with the changing climate, culture, and needs of the district, schools, staff, and community.

District leadership are responsible for collecting and analyzing data to measure progress towards meeting the objectives and completing the strategies set forth in this plan. The District School Board should receive periodic progress reports, both formal and informal, for each of the goals and objectives.

Superintendent's Budget Message
2023 – 2024 School Year**

"You've got to think about big things while you're doing small things, so that all the small things go in the right direction."
– Alvin Toffler

Overview

The 2023-2025 biennium we are anticipating appreciated support from our governor and legislation at a \$9.9 Billion State School Fund (SSF) investment with a fully funded status for the Student Success Act (SSA) and High School Success (M98). However, as we are aware, this is still a shortfall of \$4.0 Billion to meet current service levels for all state-funded programs. The deficit has impacted our ability to identify additional programs and opportunities for our students. We continue to seek opportunities to cover increased programming and student opportunities through pursuing grants from the local, state and federal levels that have been provided to school districts. Also, we have yet to see the ripples of effect from the current legislation being considered and the impact economically this could have on our district.

As this is the first year of the biennium, the budget we have prepared is anticipated to be at 49% of the \$9.9 billion in SSF K-12 funding. We have also included \$97,146 in High School Success Act Funds (M98), and an additional \$342,060.68 in SSA Student Investment Account fund. Majority of these funds go towards supporting staffing and implementation of activities listed as requirements of the grants.

The \$345,036 in federal Elementary and Secondary School Emergency Relief Funds (ESSER) we received over the past 2 years were used and completely spent to meet the requirements that were identified by the state for Return to Safe Student Learning (RSSL). This included our main office relocation and playground restructuring. This has been and will continue to be a great addition and resource for our district for years to come.

The Integrated Guidance (IG) has taken the place of the planning and reporting of SSA and M98. We will continue to receive these funds and they continue to be a funding source that the district relies on. These funds will be distributed once again for the beginning in the 2023-2024 school year. The Student Investment Account (SIA) is funded through the corporate activity tax and lottery funds which has shown continued growth during the past year.

In response to the state not funding the State School Fund fully for necessary operational levels to support our in-person instruction, we have spent the year improving and promoting our TLCS Online Program. This reaches out to students and families across our state, and has provided essential funding in our State School Fund allocation, and additionally increased our SIA and M98 allocations and several other ADM driven grants. This will continue to help off-set possible declining funding levels in the State School Fund provided by the state.

Although it is highly unlikely we will see the State School Fund reach the levels needed for public education to be fully funded this biennium, this is what we project to provide a balanced budget for our district expenditures. This was made possible with the increase of the lottery and corporate tax estimates, as well as the increased ADM from the online program.

Therefore, our budget recommendation represents a status quo of staffing to support our in-person instruction and online program. We understand that we could face cuts if the state changes the student calculation ratio for the next budget biennium, and if the legislation does not meet the projected budget requested to them from state officials that have been prepared. The proposed budget does include estimated costs related to cost of living adjustments, step increases for salaries, as well as increase in health insurance.

We continue to feel the impact in education and in our school district from the results of COVID 2 years later. These impacts are felt both in the mental, emotional and academic areas of our staff and students. We will be dealing with these impacts to our staff and students for years to come. Our focus continues to be how we support our students and staff in all areas of wellness.

“A community is known by the schools it keeps”

There are many accomplishments from our staff and students that bring a great source of pride to our District. Part of these accomplishments include: our new main office; playground expansion; the expansion of our enrollment district-wide due to the online program; the development of our Portrait of a Graduate; and this Spring our District Strategic Plan. We will continue to explore how to connect all of our goals, outcome and activities lead to student success.

This proposed budget expresses our efforts to continue to honor the charge of the district to provide small class sizes; provide students with a comprehensive and challenging educational program; meeting graduation requirements; providing continued opportunities for co- and extra-curricular activities; providing increased social, emotional and mental supports; and providing the necessary supplies and materials needed for staff and students to excel.

I would like to thank all our administrators and staff for their assistance in putting this budget together. Special thanks to Pat Rufo and Molly Rust. It was due to their many hours put into this budget and my constant request for changes. The 2023-2024 proposed budget document has been prepared in accordance with the requirements of the Local Budget Law, ORS 294.391. The budget is to provide information to the budget committee, patrons and staff of Blachly School District #90 regarding the district's financial plan for the operation of the school district for the 2023-2024 school year. The Proposed Budget Document, as presented, reflects the best financial information that the district had at the time this document went to press. Once the budget committee approves the Proposed Budget Document, a funding level for the budget will be established. It will then be the responsibility of the administration, under direction of the school board, to make adjustments in the budget to deal with changes in resources and requirements.

Respectfully,

Adam Watkins, CAA
Superintendent

REQUIRED FORMS

BLACHLY SCHOOL DISTRICT 90
Blachly SD Resolution No. #2022-23-005

RESOLUTION COMPLYING WITH GASB 54

BE IT RESOLVED, that the Board of Directors, Blachly School District #90 will comply with Government Accounting and Standards Board (GASB) Statement 54 in order to:

1. Protect the district from unnecessary borrowing in order to meet cash-flow needs;
2. Provide prudent reserves to meet unexpected emergencies and protect against catastrophic events;
3. Meet the uncertainties of state and federal funding.

The GASB 54 requires fund balances to be reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to observe constraints imposed upon the use of governmental funds. This requirement is effective for the fiscal year ending 30 June 2023.

The ending balance for all funds must be designated per the following categories set forth by GASB 54:

- *Non-spendable* -- Funds which cannot be spent.
- *Restricted* -- Amounts subject to externally enforceable legal restrictions (imposed by grantors, contributors, governmental regulations, etc.).
- *Committed* -- *Amounts whose use is constrained by limitations that a governing board imposes upon itself.*
- *Assigned* -- *Intended use of resources established by the governing body itself, or by an official or officers to which authority is delegated by the governing body.*
- *Unassigned*-- *Available for any purpose. (Reported only in the General Fund.)*

Assignment of Fund Balances

Authority to classify portions of ending fund balance as Assigned is hereby granted to the Superintendent and Business Manager

Spending Hierarchy

Where appropriate and necessary, the Blachly School Board has determined that the categories of fund balances will be spent with the following priority:

1. Restricted

Person Making Complaint: Lisa Wagner

Phone Number: 541-927-3222; 541-654-6275

Email: lisalwagner@yahoo.com

Nature of Complaint:

False and inaccurate account contained in the Blachly District Board Meeting Minutes of April 19, 2023. The publicly approved minutes, specifically regarding the "Public Comment" section, states inaccurately the events that occurred and makes a false statement regarding the public commenter. There are statements in those minutes that are an inaccurate description of behavior, action and verbiage regarding those who are speaking during the public comment portion of that April meeting. The meeting minutes, as approved, libel the public commenter (myself) as one who was "violating the law" as well as "crossing a line". I do not believe that I was at any time in violation of the law and I do not believe that the Board Chair stated that I was doing so during the exchange that took place in that meeting. However, the minutes that were publicly published and approved by the Board at the May 17, 2023 District Board Meeting stated that I was doing so.

Who should we talk to and what evidence should we consider?

The Board should review the recorded minutes and investigate where the narrative that was presented originated. The District Board can compare the narrative approved to that recording.

Suggested Solution/Resolution/Outcome:

The Board should take corrective action in the next possible public meeting to redact and correct the minutes that were presented to correctly portray the events that occurred.

April 19th Public Comment

Transcription of the interaction between Charter Board President, Lisa Wagner and Board Chair Derek Pennel during Ms. Wagner's public comment in the regular board meeting. This transcription was done off of the zoom recording from April 19th.

Lisa: Unfortunately the district and administration has chosen not to keep the appointment that the district had planned for April Where the district team and charter team would work together. That work was canceled and replaced with a document which I believe you will be receiving tonight.

At my request the superintendent did allow for a response clarification session with myself alone when I expressed my dismay at the cancellation.

Upon review of the document that replaced our meeting it was apparent that trust had been broken. Even after asking clarifying questions it became clear that the actions of the administration on behalf of the board, the veracity of their version of events, and the interpretation of the issues presented in his response, showed us clearly that there was no will to work together on his side. In the version of events and the document

Derek: Lisa, Lisa, is this a complaint cause it sounds like a complaint

Lisa: making sure I was heard

Derek: You said complaint I thought this was a dispute

Lisa: It is in response to a complaint

Derek: We don't have a complaint in front of us we have a dispute, a dispute resolution there's a big difference.

Lisa: Ok so I called it a complaint because the contract was called a complaint do you want me to restate that?

Derek: The contract speaks to a dispute resolution process

Lisa: Yes and that will be spoken to in this

Derek: So are you issuing a complaint I guess that's my question

Lisa: I'm going to tell, inform you, of the process that will be pursued next

Derek: Ok because if this is a complaint we can't do that in public session, that's against the law

Lisa: A complaint about the process, or ok so

Derek: You used the term veracity of the superintendent, thats pretty clearly a complaint

Lisa: Veracity of the document

Derek: So you need to really steer clear of a complaint that would impune the superintendent in a public session

Lisa: Oh ya I can see that, that I point well made, can I continue though

Derek: Just please stay away from that cause it is illegal to do that in the public session

Lisa: Ok, I got your message so I will be careful of how that is stated, I believe though that the document is a public document so ya so i have to speak to that document but i will try to steer clear of that verbiage but yes I understand thank you for that clarification I appreciate it.
