The Board of Trustees will hold a Regular Meeting on Monday, January 9, 2017, at 6:30 PM in the Natalia Jr. High Cafeteria, Natalia Junior High School.

AGENDA

1. Call to Order, Pledge of allegiance, Prayer, Welcome, and Recognition of Visitors
2. Roll Call, Establish Quorum
3. Acceptance of Agenda
4. Approval of Minutes
 - A. Regular Meeting - December 12, 2016 4
5. Public Comments
6. **Presentations:**
 - A. School Board Appreciation Month
 1. Proclamation
 2. High School - Mariachi Performance
 3. Junior High Presentation
 4. Elementary / ECC Presentation
 5. Central Office Presentation
 - B. Teacher of the Month - Elementary - Ms. Lopez
 - C. Student of the Month - ECC - Ms. Lopez
 - D. Staff of the Month - Junior High - Dr. Camacho
 - E. Recognition of Campuses for Student Attendance - Dr. Cone
 - F. Recognition of Campus with Top Staff Attendance - Dr. Cone
 - G. Presentation of TASB Staffing Review - Ms. Garcia 7
7. **Executive Session:** The Board of Trustees will convene in closed session pursuant to Texas Government Code, Chapter 551 Pursuant to Section 551.071 and 551.074 of Texas Govt. Code, deliberations regarding:
 - A. Consultation with legal counsel regarding EEOC complaint by A. Sutton
 - B. Consultation with legal counsel regarding legal issues pertaining to Superintendent evaluation instrument 59
 - C. Discussion and consideration of employment for Community Liaison 68
 - D. Discuss employee reassignment of Gilbert Del Torro. 75
 - E. Discuss and consider personnel resignations 76
8. **Action Items:** The Board returns to open session.
 - A. Discussion and possible action regarding the employment of Community Liaison - Dr. Cone
 - B. Discussion and possible action regarding EEOC complaint by A. Sutton. Dr. Cone
 - C. Discussion and possible action regarding the 2015-2016 Financial Audit as presented in the December 12, 2016 Regular Board Meeting - Ms. Garcia 78
 - D. Discussion and possible action to adopt or develop Superintendent's evaluation instrument - Mr. Smith

"Building Lives, Utilizing Education"

- E. Discussion and possible action to hereby invite proposals from licensed independent contractors that offer HVAC Maintenance and Repair Services on an "as needed" basis as specified in a Request for Proposal (RFP) - Claudia Garcia
- F. Discussion and possible action regarding adding Dr. Edgar Camacho as a NISD 2016-2017 TTESS Evaluator - Dr. Cone

9. **Administrative Reports:**

- A. Business Manager Report - Ms. Garcia
 - 1. Asset Report 153
 - 2. Vouchers and Payments 154
 - 3. Tax Report 170
 - 4. Financial Report 171
 - 5. Cafeteria Report 177
- B. Assistant Superintendent of Curriculum and Instruction Report - Mr. Stewart
 - 1. A-F Rating System 178
- C. Superintendent of Schools - Dr. Cone
 - 1. 5 Year Strategic Planning 683

10. **Announcements:**

- A. Board Training - Monday, January 16th, 2017
- B. Medina County Junior Livestock Show - January 25th-28th, 2017
- C. Professional Learning Day - Friday, January 27th, 2017
- D. Regular Board Meeting - February 13, 2017
- E. Winter Governance & Legal Seminar , Corpus Christi, TX - March 2-4

11. **Adjournment**

If during the course of the meeting covered by this Notice, the Board should determine that a closed session of the Board should be held or is required in relation to any item included in this Notice, then such closed session as authorized by Section 551.001 et. Seq. of the Texas Government code (Open Meetings Act) will be held by the Board after the commencement in open session of the meeting covered by this Notice. Such closed session may concern any or all of the subjects and be conducted for any and all purposes permitted by Sections 551.071 through and including Section 551.084 of the Texas Open Meetings Act, including, but not limited to, private consultation with the Board's attorney on any or all subjects or matters authorized by law. Should any action, decision or vote be required in the opinion of the Board with regard to any matter considered in such closed session, then such action, decision or vote shall be either at the open meeting covered by this Notice, upon the adjournment of this closed session, or at a subsequent public meeting of the Board, upon notice thereof, the Board shall determine.

Eric Smith
NISD Board President

Date & Time: Friday, January 6, 2017 @ 5:00pm

THE STATE OF TEXAS	X	NATALIA INDEPENDENT SCHOOL DISTRICT
COUNTY OF MEDINA	X	REGULAR MEETING, BOARD OF TRUSTEES

1. Board President Eric Smith called the Regular Board meeting to order on Monday, December 12, 2016, at 6:30 p.m. Pledge of Allegiance was recited; and Tiffany Rodriguez led in prayer and welcomed the visitors.
2. Roll Call, Establish Quorum

 Present: Eric Smith – President
 Paul Almendarez – Vice President
 Jack Bradley –Secretary
 Eric Owens
 Fernando Garza
 Tiffany Rodriguez
 Andrew Besa
3. Motion was made by Eric Smith and seconded by Tiffany Rodriguez to accept the agenda as presented with exception of moving item 8E (Audit Contract) under item 6H. Motion carried 7 – 0
4. Motion was made by Jack Bradley and seconded by Andrew Besa to approve minutes as presented : Regular Board Meeting November 14, 2016
5. Public Comments - None
6. Presentation(s) – Dr. Hensley Cone, Superintendent of Schools
 - A. Student of the Month, High School
 - B. Teacher of the Month, Junior High
 - C. Staff of the Month, Maintenance
 - D. Recognition of Campuses for Student Attendance
 - E. Recognition of Campus with Top Staff Attendance
 - F. Athletics Update - Cross Country, Volleyball, Football - Coach Graves
 - G. Agricultural Science Department Update - M. Woodall
 - H. Presentation of 2015- 2016 Financial Audit Report - Stephen Horton
 - I. Status of Board Continuing Education Requirement Hours - Eric Smith

Into Executive Session at 7:06pm

7. EXECUTIVE SESSION: The Board of Trustees will convene in closed session pursuant to Texas Government Code, Chapter 551 Pursuant to Section 551.071 and 551.074 of Texas Gov't. Code, deliberations regarding

- A. Discuss and consider employment of Junior High Principal
- B. Discuss and consider employment of District Instructional Facilitator
- C. Discuss and consider employment of Community Liaison

8. *The Board Returns to Open Session at 8:14 p.m.*

- A. Discussion and possible action regarding the employment of Junior High Principal - Dr. Cone - ***Motion was made by Paul Almendarez and seconded by Eric Owens to approve Edgar Camacho , motion carried 7-0***
- B. Discussion and possible action regarding the employment of District Instructional Facilitator – Dr. Cone- ***Motion was made by Paul Almendarez and seconded by Jack Bradley with Tiffany Rodriguez abstaining to approve L. Robinson, motion carried 6-1***
- C. Discussion and possible action regarding the employment of Community Liaison - Dr. Cone – ***will revisit in January***
- D. Discussion and possible action regarding Preliminary 2015-2016 School FIRST Rating - Ms. Garcia -***Motion was made by Tiffany Rodriguez and seconded by Eric Owens, motion carried 7-0***
- E. Discussion and possible action regarding renewal of Audit Contract for 2016-2017 with Coleman & Horton - Ms. Garcia - ***(Item moved) Motion was made by Fernando Garza and seconded by Andrew Besa to approve as presented. Motion carried 7-0***
- F. Discussion and possible action regarding updating bank signatures to reflect 2016-2017 NISD Board Members and enroll in E- Banking through Security State Bank on the following accounts: 14605, 14699, 9905375, 14648 and 7336233 CGarcia - ***Motion was made by Eric Smith and seconded by Jack Bradley to approve action as presented, motion carried 7-0***
- G. Discussion and possible action regarding requesting to establish a new 6 - month Certificate of Deposit in the amount of \$250,000.00 with Security State Bank. Signers on this account will be Eric Smith, Dr. Hensley Cone and Claudia Garcia. - Ms. Garcia ***Motion was made by Eric Smith and seconded by Eric Owens with Tiffany Rodriguez abstaining to approve action as presented, motion carried 6-1***
- H. Discussion and possible action regarding requesting to update the signers on the following Certificate of Deposits with Security State Bank (28217 & 28448), Prosperity Bank (9600000297) and Community National Bank (18775). * Remove former Superintendent(s) and update to reflect the following individuals: Dr. Hensley Cone, Eric Smith and Claudia Garcia - Ms. Garcia - ***Motion was made by Eric Smith and seconded by Jack Bradley to approve action as presented, motion carried 7-0***

9. Administrative Reports:

- A. Business Manager Report - Ms. Garcia

1. Vouchers and Payments
2. Tax Report
3. Financial Report
4. Cafeteria Report
- B. Assistant Superintendent of Curriculum and Instruction Report - Mr. Stewart

10. Announcements:

- A. December 16 - Early Release - Staff Luncheon a 12:30 in JH Cafeteria
- B. December 17 to January 1 - Winter Break
- C. ~~December~~ 2 - Professional Learning Day / Student Holiday (Jan2)
- D. January 9 - Regular Board Meeting
- E. Team of 8 Training Dates (options- Jan 5, 12th, and 16th)
- F. SPRING - ESC20 & ESC13 Strategic Planning Collaboration

11. Adjournment- Motion was made by Tiffany Rodriguez and seconded by Andrew Besa to adjourn, motion carried 7-0
Meeting adjourned at 8:45pm

Introduction to TASB HR Services

HR (Human Resource) Services is a specialized program of the Texas Association of School Boards (TASB), serving Texas public schools since 1984. TASB HR Services offers several types of consulting specialties to our members, over 980 public school districts and regional education service centers. Since 2003, we have conducted staffing reviews for hundreds of school districts across Texas.

What is a TASB Staffing Review?

A TASB Staffing Review will assist district leaders in making informed decisions about staffing allocations and budgets by providing a detailed and objective evaluation of current staffing practices compared to external standards and benchmarks. We use a database of common staffing practices in Texas schools, state PEIMS data, recommended standards from professional organizations, and consultants with staffing experience in Texas schools. TASB consultants will identify opportunities available to right-size your district staffing whether it is adding, reducing, or moving staff to achieve district goals. An estimate of the cost impact will be calculated for each option identified.

Scope of a TASB Staffing Review

A staffing review conducted by TASB HR Services will evaluate staffing needs and practices in the following categories:

- **Instructional and Administrative Support Staff**
 - District administrators
 - Campus administrators
 - District clerical support
 - Campus clerical support
 - Professional support (i.e., counselors, diagnosticians, curriculum specialists, etc.)
 - Health services staff
 - Library staff
 - Technology support
 - Instructional aides
- **Teachers and Coaches**
 - Elementary School Teachers (includes bilingual education)
 - Middle School Teachers (includes master schedule analysis)
 - High School Teachers (includes master schedule analysis)
- **Special Education Staff**
 - Teachers
 - Special Education Aides
 - Diagnosticians / LSSPs
 - Speech Language Pathologists

- **Facilities Maintenance Staff**
 - Facilities
 - Skilled trades
 - General maintenance
 - Grounds maintenance
 - Custodial Services

Data Sources

We use a variety of data sources, standards, and benchmarks in a TASB Staffing Review along with the expertise of our staffing consultants. Data sources for benchmark indicators include the following:

- State TAPR data for peer districts
- Common practices in Texas schools.
- Class size comparisons at the grade, course, and campus level.
- Pupil/staff ratios and caseloads for special education.
- Facilities square footage for maintenance and custodial staffing.
- TASB surveys of pay and staffing for selected positions.

Staffing Review Process

Phase One - Data collection and analysis

- District will provide the following data to TASB consultants
 - Staffing guidelines or formulas currently in use
 - Employee rosters
 - PEIMS role ID reports
 - Master schedules by campus with sorts by course and by teacher
 - Staffing questionnaires completed by principals and department heads

Phase Two - On-site interviews with management personnel

- On-site interviews over two or three days are conducted by the consultant(s) to understand current staffing practices, instructional needs and priorities, and unique conditions that impact staffing practices.
- Personal interviews are conducted with principals, central administrative staff, and the superintendent to understand special population and program needs.

Phase Three – Analyze staffing data, class loads, and master schedules

- Develop a concise and accurate summary of current staffing practices.
- Analyze staffing across campuses for class loads, utilization efficiency, adequacy and internal equity. Evaluate the effect of alternative secondary master schedules and elementary class size on staffing needs.
- Analyze special education populations served, staffing ratios, and caseloads.
- Compare administrative, clerical, professional support, and paraprofessional staffing to common practices in other districts.
- Review maintenance, and custodial staffing against external standards.

Phase Four - Develop staffing models and complete preliminary analysis

- Identify opportunities to right-size staffing through adding, reducing, or moving staff with cost impact estimates.

Phase Five– Review, refine, and deliver final analysis to the district

- Provide a working draft of preliminary data analysis and findings to the Superintendent or designee and review by conference call
- Complete final report documenting the process, findings and options, and data analysis for each staffing category.
- Present the final report as directed by the Superintendent.

TASB Staffing Consultants

Zachary Hobbs

Zachary Hobbs is a staffing consultant for TASB HR Services and a former high school principal. Mr. Hobbs began his education career as a math teacher in Brownsboro ISD followed by administrative service in Sunnyvale ISD where he served in the roles of assistant principal, middle school principal, and high school principal. Prior to his education career, Mr. Hobbs worked for Mercer Human Resource Consulting in Dallas, Texas. Mr. Hobbs earned a master's degree in education administration from the University of Texas at Tyler and superintendent certification from Texas A&M University at Commerce.

Karen Dooley

Karen Dooley is a staffing and HR consultant for TASB HR Services. Prior to joining TASB HR Services, Mrs. Dooley spent 8 years as Assistant Superintendent of HR for Georgetown ISD, a district of 11,000 plus students and more than 1,500 employees. During her 29 year education career, Mrs. Dooley also served in several administrative roles for Bastrop ISD, including Assistant Superintendent of HR, Assistant Principal, and Counselor, as well as a counselor and teacher in two districts in the Houston area. In addition to her school district positions, Mrs. Dooley has conducted management reviews, staffing reviews, independent investigations and other human resource services as an independent consultant since 2005 in several Texas and Oklahoma school districts. She is active in TASA and in TASPAA where she served as the District 3 Representative for four years. She earned a master's degree in education with certification in counseling as well as her principal and superintendent certification from Prairie View A&M University. She graduated from Southwest Texas State University with a bachelor's degree in education.

Richard Lane

Richard Lane is a staffing consultant for TASB HR Services. He has conducted over 200 district staffing reviews for TASB since 2003 and is a recognized expert and instructor on school staffing practices and master schedule design. Mr. Lane's administrative career includes 14 years of experience as a human resource administrator in Galveston and Clear Creek ISDs and 12 years as a high school principal in Cedar Hill and Galveston ISDs. Mr. Lane retired as Associate Superintendent for Human Resources at Clear Creek ISD where he was responsible for staffing formulas and budgets for over 3,000 employees.

Natalia ISD engaged the HR Services Division of the Texas Association of School Boards (TASB) to conduct an employee staffing review. The HR Services Division has been providing human resources consulting and support service to Texas schools for more than 30 years and staffing reviews since 2003. This report presents a summary of the findings and suggestions for alternative models from this project, as well as the estimated cost impact and supporting data.

Our emphasis in this review is focused on comparing district staffing to benchmarking data from peer districts, as well as best practice standards for optimizing student achievement where those exist. The optimal staffing patterns for each district are dependent on local resources and instructional needs and priorities. TASB HR Services' suggestions for alternative models are intended only as information for decision makers.

It should be noted that this study represents a snapshot in time. The primary data sets were pulled in October 2016. Thus, student counts listed in the data tables might have changed from the original values. Projected student enrollment provided by the district has been used when relevant. Also, to a smaller extent, changes do occur in staff due to resignations and retirements.

Background

Natalia ISD is located about 30 miles southwest of San Antonio, in the Education Service Center Region 20. The district serves approximately 1,126 students and employs approximately 180 employees.

Natalia ISD operates with 3 academic campuses. The district provides services to EE–5 at Natalia Elementary School, 6–8 at Natalia Junior High School, and 9–12 at Natalia High School.

Natalia ISD, in partnership with the community, is committed to providing a safe and challenging environment that promotes productive and successful life-long learners. As a 3A school district, the students participate in most UIL academic and athletic competitions. The district invests in activities that support a strong bond between itself and the community.

Staffing a school district usually encompasses 80 percent of the district's budget. A goal of the Natalia ISD administration is to gain insight into the district's staffing patterns to determine if funds being spent are in line with state averages and peer districts.

Following are initiatives for Natalia ISD in the upcoming year that may result in a budget impact:

- Implementation of a Kindergarten through 12th grade Advancement Via Individual Determination (AVID) program
- Ensuring market competitiveness for staff compensation through strong pay increases
- Investing in technology infrastructure to ensure proper access for student learning initiatives
- Creating coherent sequence of courses for the Career and Technology Education program

Identifying efficiencies and inefficiencies in district staffing may allow the district to support these initiatives without increasing the current budget.

Project Activities

- **Initial planning and data collection**

Consultants conferred with district administrators to ensure a clear understanding of the concerns and objectives for the study. Staffing data and master schedules were collected and individual interviews were conducted with district personnel at the start of the project. Data from the Texas Academic Performance Report (TAPR) and the Public Education Information Management System (PEIMS) Standard Report for the 2015-16 school year were used to compare district staffing with peer districts.

- **Site visit and interviews**

Individual interviews were conducted on October 25 and 26, 2016 with the Superintendent, Assistant Superintendent of Curriculum & Instruction, Business Manager, Special Program Director, Maintenance & Operations Director, Technology Director, Transportation Coordinator, Food Service Director, Special Education Facilitator, Athletic Director, and all campus principals. Interviewees completed detailed questionnaires related to staffing issues in their area of responsibility. The interview process provided the opportunity to share any staffing concerns and well as clarification of responses to questionnaires.

- **Benchmarking data sources**

The district data was compared to the following benchmarks, or standards:

- The Texas Student Data System (TSDS) – provides aggregated PEIMS data
- Public Education Information Management System (PEIMS) data
- The Texas Academic Performance Report (TAPR) – this report provides staffing data for peer districts as well as staffing averages for specific positions state-wide
- Recommendations by professional organizations [Association of Physical Plant Administrators (APPA), Association of School Business Officials (ASBO), Texas Counseling Association, Texas Association of Secondary School Principals (TASSP), National Association of School Nurses, etc.]
- Common Practice in Texas (CPTx) – these standards represent staffing averages based on our own database from consulting experience in Texas schools

- **Design staffing alternatives**

Alternative staffing models were developed to address the needs identified. District pay data was used to assess the cost and impact of implementing the alternative models.

- **Review draft of findings and recommendations and deliver final report**

The consultant conferred with administrators to review the initial draft of findings and recommendations before preparing the final report.

Historical Staffing

The following data shows a five-year trend of district personnel for Natalia ISD. School district data was obtained from the PEIMS Standard Report for Staff Full Time Equivalent (FTE) and Student Enrollment for the corresponding school year.

EXHIBIT 1 – HISTORICAL PERSONNEL REPORT

	<u>2011-12</u>	<u>2012-13</u>	<u>2013-14</u>	<u>2014-15</u>	<u>2015-16¹</u>
STUDENT ENROLLMENT	1,120	1,135	1,098	1,127	1,072
TOTAL TEACHING STAFF	81.95	82.87	83.44	83.83	79.37
TEACHERS PER 1,000 STUDENTS	73.20	73.00	76.00	74.40	74.00
TOTAL SUPPORT STAFF	13.18	9.00	6.05	5.93	6.89
SUPPORT STAFF PER 1,000 STUDENTS	11.80	7.90	5.50	5.30	6.40
TOTAL ADMINISTRATIVE STAFF	5.88	4.00	6.15	7.15	5.48
ADMIN STAFF PER 1,000 STUDENTS	5.30	3.50	5.60	6.30	5.10
TOTAL PARAPROFESSIONAL STAFF	17.00	0.00	17.75	12.00	
PARAPROF STAFF PER 1,000 STUDENTS	15.20	0.00	16.20	10.60	
AUXILIARY	71.75	80.88	63.22	71.25	82.03
AUXILIARY STAFF PER 1,000 STUDENTS	64.10	71.30	57.60	63.20	76.50
TOTAL PERSONNEL	189.76	176.75	176.62	180.17	173.77
PERSONNEL PER 1,000 STUDENTS	169.40	155.70	160.90	159.90	162.10
¹ No data was reported for paraprofessional staff in the 2015-16 school year.					
*Data Source: PEIMS Standard Report for Staff FTE and Student Enrollment					

Natalia ISD has seen a 4.3 percent decrease in student enrollment from the 2011–12 school year to the 2015–16 school year. Exhibit 1 identifies a total personnel decrease of 8.4 percent from 189.76 employees in 2011–2012 to 173.77 employees for 2015–2016. Teaching staff reflects a decrease from 81.95 teachers in 2011–2012 to 79.37 in 2015–2016. Total support staff shows a significant decrease from 13.18 employees in 2011–2012 to 6.89 employees in 2015–2016. An increase of 14.3 percent has occurred over the last five years in auxiliary staff. A slight decrease occurred in total administrative staff.

Peer District Comparisons

The following districts were used as the comparison districts to assess benchmarking standards. Comparison districts were selected on the basis of enrollment, student demographics, academic performance, and funding levels. School district data was obtained from the PEIMS Standard Report for the 2015–16 school year.

EXHIBIT 2 – COMPARISON DISTRICTS

	District	ESC Region	Student Enrollment	Number of FTE	UIL Class
1	Banquete ISD	02	930	149	3A
2	Bishop CISD	02	1,375	166	3A
3	Cotulla ISD	20	1,361	213	3A
4	Dilley ISD	20	1,048	170	3A
5	Ingram ISD	20	1,079	174	3A
6	Luling ISD	13	1,408	174	3A
7	Nixon-Smilely CISD	13	1,068	192	3A
8	Odem-Edroy ISD	02	1,023	163	3A
9	San Diego ISD	02	1,373	181	3A
10	Stockdale ISD	20	826	144	3A
	<i>Natalia ISD</i>	<i>20</i>	<i>1,127</i>	<i>182</i>	<i>3A</i>

Based on the PEIMS Standard Report, Natalia ISD employs 6.4 staff per 1,000 students compared to 9.7 for the peer district average and 13.0 for the state average in the area of professional support. This equates to three less positions employed in Natalia ISD in this capacity compared to the peer district average and seven less positions than the state average.

Natalia ISD employs 2.8 campus administrators per 1,000 students compared to 4.4 for the peer district average and 3.6 for the state average. This equates to 2 less positions as compared to the peer district average and one less position than the state average.

Natalia ISD employs 2.3 central administrators per 1,000 students while the peer district average is 3.3. The state average is 1.6 staff per 1,000 students.

Natalia ISD employs 74.0 teachers per 1,000 students compared to 72.1 teachers per 1,000 students for the average of the peer districts selected and 65.5 for the state average. This equates to approximately two teachers more than the peer district average and nine more teachers than the state average.

The chart displays that the district employs 76.6 auxiliary staff per 1,000 students compared to 40.8 for the peer districts average and 34 for the state average. Some inconsistencies might occur in this area due to districts that outsource services such as transportation, nutrition services, custodial, and maintenance.

The district employs 162.1 total staff per 1,000 students compared to 146.7 per 1,000 students for the average of the peer districts and 130.1 for the state average. This is approximately 34 positions above the peer district average and 16 positions above the state average.

Educational aides or paraprofessionals are not addressed in this section of the report due to lack of data on both data sources used.

Administrative and Instructional Support Staff

The benchmark is staffing one assistant principal for each 450 students, including both elementary and secondary schools.

EXHIBIT 3 – ASSISTANT PRINCIPAL COMPARISON

Campus	Students	A.P.	Benchmark	Difference
Secondary Schools				
Natalia HS	308	0.0	0.5	(0.5)
Natalia JH	251	0.0	0.5	(0.5)
Elementary Schools				
Natalia ES	529	1.0	1.0	0.0
Total	1,088	1.0	2.0	(1.0)

Currently, Natalia ISD employs one assistant principal at Natalia Elementary School. Based on the benchmark, the district has a shortage of 1 FTE for assistant principals for the 2016–17 school year. The shortage is a half of a position at Natalia High School and a half of a position at Natalia Junior High School. Neither campus currently has support from an assistant principal.

Peer information pulled from the TASB Salary Survey database showed five of the eleven peer district elementary schools and junior high schools employ an assistant principal. Six out of the eleven peer district high schools employ an assistant principal.

No administrative concerns are evident at this time at Natalia High School or Natalia Junior High School. Configuration and location of Natalia Elementary School supports the decision to staff it with an assistant principal. If student enrollment begins to increase in the district, the addition of a shared secondary assistant principal would be justified.

The benchmark for staffing counselors is one counselor for each 350 students in grades six through 12 as recommended by the Texas Counseling Association. A benchmark of one counselor for each 450 students in grades PK through five is used based on common practice in Texas.

EXHIBIT 4 – COUNSELOR COMPARISON

Campus	Students	Counselor	Benchmark ¹	Difference
Secondary Schools				
Natalia HS	308	1.0	1.0	0.0
Natalia JH	251	1.0	0.5	0.5
Elementary Schools				
Natalia ES	529	1.0	1.0	0.0
Total	1,088	3.0	2.5	0.5

¹A ratio of 1:350 is used for grades 6-12. A ratio of 1:450 is used for grades PK-5.

According to benchmark data, the district is properly staffed in the area of counseling. Natalia Junior High School is over by half of an FTE.

Peer district information from the TASB Salary Survey database indicates six of the 11 peer district elementary schools, five of the 11 junior high schools, and five of the 11 high schools have one counselor. One of the 11 elementary schools and 2 of the 11 high schools have two counselors.

No recommendation is being made at this time in this area.

Neither state nor federal statute requires that a school librarian be on every campus. State law does require that if a district does report the presence of a school librarian, that librarian must be certified. Districts commonly staff a librarian and/or library aide at each campus.

EXHIBIT 5 – LIBRARIAN COMPARISON

Campus	Students	Librarian	Library Aide
Secondary Schools			
Natalia HS	308	0.0	0.0
Natalia JH	251	0.0	1.0
Elementary Schools			
Natalia ES	529	0.0	2.0
Total	1,088	0.0	3.0

Natalia ISD does not currently employ a certified librarian in the school district. Two full-time library aides serve Natalia Elementary School. The junior high is staffed with one library aide and no aide was reported at Natalia High School.

It appears that Natalia Elementary School is overstaffed by one FTE. The split configuration of this campus along with the age of the students that are served at this level justifies the need for two library aides. Although Natalia High School does not have a designated aide, individuals split duties in the library when needed to serve students.

The district should evaluate the library services provided to its high school students. If additional support is needed, the model used at the elementary school as well as the junior high school could be implemented.

Clerical/Paraprofessional Support

The benchmark for clerical staff at secondary campuses is a minimum of three positions with adjustments based on student enrollment. The corresponding benchmark at the elementary level is a minimum of two positions with adjustments based on student enrollment.

EXHIBIT 6a – CAMPUS CLERICAL

Secondary Schools	Students	Clerk, Receptionist	Bookkeeper, Registrar	Campus Secretary	Sub- Total Clerical	Benchmark ¹	Difference
Natalia HS	308	1.0	1.0	1.0	3.0	3.0	0.0
Natalia JH	251	1.0	0.0	1.0	2.0	3.0	-1.0
Secondary Total	559	2.0	1.0	2.0	5.0	6.0	-1.0

¹Clerical positions per 1,000 Secondary students = 5.5 (with a minimum of 3 positions)

Elementary Schools	Students	Clerk, Receptionist	Bookkeeper, Registrar	Campus Secretary	Sub - Total Clerical	Benchmark ²	Difference
Natalia ES	529	2.0	0.0	1.0	3.0	2.5	0.5
Elementary Total	529	2.0	0.0	1.0	3.0	2.5	0.5

²Clerical positions per 1,000 elementary students = 4.5 (with a minimum of 2 positions)

A review of campus clerical assignments indicates that the district is short half of a campus clerical position compared to the benchmark provided. There is a shortage of one position at the junior high school. The elementary campus is overstaffed by half of a position.

With a current student enrollment of 251, the junior high school is not currently experiencing any difficulties with the clerical workload. As mentioned earlier, the configuration and location impacts staffing levels at Natalia Elementary School. The half of a position is justified at this time.

If in the future Natalia Junior High School does need assistance, it could be provided by a clerical staff member at Natalia Elementary School.

Non-campus clerical positions include secretaries, clerks, and specialists. The benchmark for non-campus clerical positions is four per 1,000 students which equates to 4.5 positions using the district's current enrollment. The district currently staffs 6.5 individuals in the job titles listed above as noted on Exhibit 6b.

EXHIBIT 6b – NON-CAMPUS CLERICAL

Department or Office	Position	% FTE	Benchmark ¹	Difference
Administration	Superintendent Admin Assistant	1.0		
Administration	Asst Supt Secretary	1.0		
Special Education	Sp Ed Secretary	1.0		
Child Nutrition	CN Secretary	1.0		
Personnel	HR Specialist	1.0		
Business	AP Clerk	1.0		
Operations	Mtc/Trans Secretary	0.5		
Total		6.5	4.5	2.0

The district is currently operating with two positions more than identified as needed per benchmark data. Although the district appears to be overstaffed, concerns were raised regarding the assignments of duties as related to PEIMS responsibilities. Currently, the Superintendent's Secretary is responsible for this task.

An evaluation of workload and responsibilities is recommended in this area to properly distribute the workload. If additional cost savings are needed, the district could reduce at least one clerical position. A consideration may be to assign the PEIMS responsibilities to the Assistant Superintendent Secretary.

The benchmark in 2015–16 shows staffing 12.5 instructional aides per 1,000 students. This benchmark includes all instructional aides, both general education and special education.

EXHIBIT 7 – INSTRUCTIONAL AIDES

Secondary Schools	Students	Aide, Bil, ESL	Aide, Computer	Aide, ISS	Aide, Library	Aide, PE	Aide, SpEd	Aide, Other	Sub-Total Aide, Instruct.	Benchmark ¹	Difference
Natalia HS	308	0.0	0.4	0.3	0.3	0.0	3.0	0.0	4.0	4.0	0.0
Natalia JH	251	0.0	0.0	0.0	1.0	1.0	2.0	0.0	4.0	3.0	1.0
Secondary Total	559	0.0	0.4	0.3	1.3	1.0	5.0	0.0	8.0	7.0	1.0
Elementary Schools	Students	Aide, Bil, ESL	Aide, Computer	Aide, ISS	Aide, Library	Aide, PE	Aide, SpEd	Aide, Other	Sub-Total Aide, Instruct.	Benchmark ¹	Difference
Natalia ES	529	7.0	0.0	1.0	2.0	1.0	1.0	1.0	13.0	6.5	6.5
Elementary Total	529	7.0	0.0	1.0	2.0	1.0	1.0	1.0	13.0	6.5	6.5
Total	1,088	7.0	0.4	1.3	3.3	2.0	6.0	1.0	21.0	13.5	7.5

¹Instructional Aide positions per 1,000 students = 12.4

Natalia ISD currently staffs 15 instructional aides for regular educational services and six instructional aides for special education services for a total of 21 instructional aides.

Educational aides are used in several different manners at the elementary and secondary campuses throughout the district as displayed in Exhibit 7. The areas being served include ESL, PK/Head Start, ISS, library, physical education, and special education.

As noted earlier, the elementary campus has two library aides and the junior high school has one. This is necessary because of the current librarian model used by the school district as well as the configuration of the elementary campus. For safety purposes, the elementary PE class has one aide. The junior high school also has one PE aide due to a coaching vacancy that occurred at the start of the school year.

Overall as a school district, Exhibit 7 reflects an overage of 7.5 instructional aides. The secondary level is displaying an overage of one position using benchmark data, specifically at the junior high school level, while the elementary campus is showing an excess of 6.5 instructional aides.

Although justification can be made for the additional PE aide at the junior high school level, the analysis of teaching staff at that level will not warrant it. It appears every PK/Head Start classroom currently has a teacher and an aide. Typically, sharing instructional aides between PK classrooms occurs, especially considering the current teacher-to-student ratio at this grade level.

The recommendation is to conduct an analysis of existing use of instructional aides at the elementary campus. Considering the current elementary configuration, and the challenge that poses, a reduction of at least three instructional aide positions could be made at the elementary level and at least one

instructional aide at the secondary level. The overall reduction could be three instructional aides if the district chose to re-direct the additional instructional aide to Natalia High School to serve as a library aide.

School nurse-to-student ratios were first recommended in the 1970s. However, evidence to support staffing ratios has been limited. The National Association of School Nurses (NASN) and some states have historically recommended one school nurse to 750 students in healthy populations (American Nurses Association [ANA]/NASN, 2011). Current recommendations by NASN and National Association of State School Nurse Consultants (NASSNC) assert that every student needs direct access to a school nurse so that all students have the opportunity to be healthy, safe, and ready to learn.

In addition, the Texas Education Agency defines a school nurse in 19 Texas Administrative Code (TAC) § 153.1022 (a) (1) (D) as "... an educator employed to provide full-time nursing and health care services and who meets all the requirements to practice as a registered nurse (RN) pursuant to the Nursing Practice Act and rules and regulations relating to professional nurse education, licensure, and practice and has been issued a license to practice professional nursing in Texas."

EXHIBIT 8 – CLINIC STAFFING

Campus	Students	RN	LVN
Secondary Schools			
Natalia HS	308	0.4	0.0
Natalia JH	251	0.3	0.0
Elementary Schools			
Natalia ES	529	0.3	0.0
Total	1,088	1.0	0.0

Natalia ISD currently staffs one full-time Registered Nurse (RN) in the district. In addition, Natalia Elementary School staffs a Certified Nurse Assistant (CNA) to assist at this level and to float to other campuses when a need arises.

Considering the size of the district, direct access to an RN for all students is available with the additional assistance of the CNA. No recommendation is being made in this area at this time.

Special Education Staff

The Natalia ISD special education program provides assistance to 84 students at the time of this study. This equates to 7.7 percent identification of special education students district-wide.

EXHIBIT 9a – SPECIAL EDUCATION PERCENT IDENTIFICATION

Campus	Total Students	Total SpEd Students	Actual Percent SpEd
Secondary Schools			
Natalia HS	308	34.0	11.0%
Natalia JH	251	26.0	10.4%
Elementary Schools			
Natalia ES	529	24.0	4.5%
Total	1,088	84.0	7.7%

The district should continue its efforts used for Response to Intervention (RtI). The district's intervention strategies, implementation procedures, and accountability for implementation and results will continue to have a positive impact on student academic performance.

EXHIBIT 9b – PRIMARY DISABILITY IDENTIFICATION

Disability Category	Statewide		Natalia ISD	
	Count*	Percent	Count	Percent
Orthopedic Impairment	4,037	0.9%	-	0.0%
Other Health Impairment	59,508	13.2%	8	8.5%
Auditory Impairment	6,980	1.5%	-	0.0%
Visual Impairment	4,025	0.9%	-	0.0%
Deaf/Blind	220	0.0%	-	0.0%
Intellectual Disability	43,228	9.6%	12	12.8%
Emotional Disturbance	26,115	5.8%	-	0.0%
Learning Disability	161,385	35.7%	43	45.7%
Speech Impairment	89,639	19.8%	24	25.5%
Autism	49,799	11.0%	7	7.4%
Developmental Delay	56	0.0%	-	0.0%
Traumatic Brain Injury	1,340	0.3%	-	0.0%
Noncategorical Early Childhood	5,274	1.2%	-	0.0%
Total	451,606	100.0%	94	100.0%

According to the 2015–16 PEIMS standard report, an analysis of identification percentages among disability categories indicates Natalia ISD is below the state average in Other Health Impairment (OHI) and Autism. Intellectual Disability (ID), Learning Disability (LD), and Speech Impairment (SI) are above the state average.

The state average for special education programs is 15 students per teacher and seven students per special education staff (teachers and instructional aides).

EXHIBIT 9c – SPECIAL EDUCATION STAFF BY PROGRAM

Program	Students Receiving Services Beyond Speech Therapy	Teachers	Student/Teacher Ratio	Instruct. Aides	Total Special Ed Staff	Total Student/Staff Ratio
Resource/Inclusion/CM/VAC - 08, 40, 41, 42						
Natalia HS	29	1.0	2.0	1.0	2.0	14.5
Natalia JH	24	1.0	2.0	1.5	2.5	9.6

Sub Total	0	0.0		0.0	0.0	
PPCD - 45						
Natalia ES	0	1.0	0.0		1.0	0.0
Sub Total	0	1.0	0.0	0.0	1.0	0.0
Total	84	7.0	12.0	5.5	12.5	6.7
NISD at Benchmark	84	5.6	15.0	6.4	12.0	7.0
Difference		-1.4		0.9	-0.5	

Total student count does not include speech only.

The Special Education department staffs 7 teachers for 84 students for an average of 12.0 students per teacher. This number is slightly lower than the state average of 15 special education students per special education teacher. In addition, Natalia ISD employs 5.5 special education aides. This produces an average of 6.7 students per special education staff member compared to the state average of 7.0 students per special education staff member.

Although there is approximately one and a half teacher position shortage for special education, the district is calculating almost a whole instructional aide position overage. Looking at the overall staffing, the district is right on target for special education staffing.

The school district employs a Special Programs Director and a Special Education Facilitator. Considering the overall size of the school district, number of special education students served, and the total at-risk population, the district is overstaffed by one position in this area. Special Education oversight duties can be absorbed by the Special Programs Director.

The recommendation is to reduce the Special Education Facilitator position and assign existing duties to the Special Programs Director.

A weighted caseload method is available through the Educational Service Center in order to determine basic staffing needs to serve students with disabilities on each campus. Each special education student receives a weight based on the number of weekly support hours, amount of instructional support, and the level of behavioral support needed. Inclusion of the weighted caseload method as part of this review would be cost prohibitive for the district. The district may explore this calculating process further if they wish to analyze the data as it relates to specific student needs.

EXHIBIT 9d – SPECIAL EDUCATION ASSESSMENT AND SPEECH SERVICES

Program	Staff	Adj %	Adjusted FTE
Assessment			
Diagnostician	1.0	90%	1.0
LSSP		0%	<u>0.0</u>

Speech Pathologist	1.0	100.0	
Speech Assistant	0.0		
Speech Therapy Teacher			
Total Service Providers	0.0		
	Students	Staff	Average
Natalia ISD	42	1.0	42.0
Benchmark Case Load			45–50

Natalia ISD currently staffs one diagnostician to serve 84 students. No adjustments were needed based on information provided by the district. The district is currently within the benchmark caseload range of 80–85 students.

Natalia ISD contracts for speech services. The individual currently provides services to 42 students in the district. This student case load is also within the benchmark range as displayed on Exhibit 9d.

No recommendations are being made at this time for district assessment staff.

Teachers

Elementary Teachers

Natalia ISD currently serves 529 students at the elementary level in grades PK–5th. Students are served in a regular setting with an inclusion model for English as a Second Language and Special Education. The elementary comprises two campuses resulting in some duplication of staff as noted earlier in the report.

The table below compares class size averages for grades Kindergarten to 5th grade for Natalia ISD with the peer district average as well as the state average.

EXHIBIT 10a – ELEMENTARY CLASS SIZE COMPARISON

	Natalia ISD	State Average	Average of Peer Districts
DISTRICT INFORMATION			
Kindergarten	21.4	19.2	19.0
Grade 1	20.0	19.3	18.3
Grade 2	16.1	19.3	18.6
Grade 3	18.6	19.1	19.6
Grade 4	16.4	19.1	17.8
Grade 5	19.6	20.8	20.2

*Data Source: 2014-15 TAPR (Texas Academic Performance Report)

According to Exhibit 10a, Natalia ISD was below the state and peer district average at grades 2–5 in the comparison. The district was above the state and peer district average in Kindergarten and 1st grade.

TEC 25.112 states that a school district may not enroll more than 22 students in a Kindergarten through 4th grade classroom. If a classroom exceeds the 22:1 ratio for more than a twelve-week period, the school district must file a class size waiver for that grade level.

The current staffing evaluation indicates that Natalia ISD has leveled out all PK–4th grade classrooms to comply with the class size ratio. According to Exhibit 10b, PK is the only grade level that appears to be overstaffed.

EXHIBIT 10b – ELEMENTARY TEACHER ANALYSIS

Natalia ISD	Pre-K			Kindergarten			Grade 1			Grade 2			Grade 3			Grade 4			Grade 5			Total

	(1)																					(1)		

Additionally, calculations for the 2017–18 school year have been made to Exhibit 10b using historical data. Students were rolled up from one grade to the next to make the calculations. The recommendation is to reduce one elementary teacher at PK through attrition.

Additional teaching staff include an elective teacher for PE, Art, and Music, as well as a Reading Specialist and a Gifted/Talented Teacher. Responsibilities for math intervention and serving dyslexia students are also assigned to the Gifted/Talented Teacher and the Reading Specialist.

Junior High School Teachers

Natalia ISD operates one junior high school campus servicing students in grades six through eight. The campus operates on an eight-period master schedule, with students taking eight classes per day. Teachers instruct seven classes per day, with one conference period.

The total teacher count includes all teachers, except those in special education assignments. The theoretical average represents the most efficient utilization of current staff and is based on the assumption that all available periods are utilized by the current teaching staff given the student enrollment and master schedule of 8/7.

The table below compares actual class size averages to theoretical averages for the junior high school campus.

EXHIBIT 11a – JUNIOR HIGH SCHOOL CLASS SUMMARY

Junior High School Class Size Summary	
	NJHS
Current Enrollment	210
Teacher FTEs	18.3
Actual Core Class Average	16.2
Actual Intervention Class	14.9
Current Master Schedule	8/7
Theoretical Average 8/7	13.1
Theoretical 7/6	13.4

Statewide, junior high school classes typically average 22–24 students per class based on a 7/6 master schedule. Conversion of the junior high school campus from an 8/7 master schedule to a 7/6 master schedule has been performed for comparison purposes. Overall, Natalia Junior High School would have a theoretical class average of 13.4 on a 7/6 master schedule, which is well below the benchmark range. The current 8/7 master schedule produces slightly lower class sizes compared to a 7/6 master schedule with the same number of teachers.

According to the information provided in Exhibit 11a, the junior high school is well below the average. Applying a 22:1 ratio (the low side of the benchmark range) to the current enrollment, would result in the reduction of 7.5 teachers at the junior high school level.

Exhibits 11b shows the budget implication for adjusting the ratio currently used of 13.1 to a range of 19.0 to 22.0.

EXHIBIT 11b – PROJECTED JUNIOR HIGH SCHOOL TEACHERS (8/7 MASTER SCHEDULE)

Benchmark = 22 to 24	Total Students	Total Teacher	SpEd Teacher	Net Teachers	Student Periods	Teacher Periods	P/T Ratio	Tchr @ Avg	(+/-) Tchrs	Savings at \$46,612 per Position
Natalia JH base line	210	19.3	1.0	18.3	8	7	13.1			
Projected enrollment change	0									
MS Base Line with projected enrollment	210	19.3	1.0	18.3	8	7	13.1			
Natalia JH at 19.0 Avg.	210	19.3	1.0	18.3	8	7	19.0	12.6	-5.7	\$264,216
Natalia JH at 19.5 Avg.	210	19.3	1.0	18.3	8	7	19.5	12.3	-6.0	\$279,313
Natalia JH at 20.0 Avg.	210	19.3	1.0	18.3	8	7	20.0	12.0	-6.3	\$293,656
Natalia JH at 20.5 Avg.	210	19.3	1.0	18.3	8	7	20.5	11.7	-6.6	\$307,298
Natalia JH at 21.0 Avg.	210	19.3	1.0	18.3	8	7	21.0	11.4	-6.9	\$320,291
Natalia JH at 21.5 Avg.	210	19.3	1.0	18.3	8	7	21.5	11.2	-7.1	\$332,680
Natalia JH at 22.0 Avg.	210	19.3	1.0	18.3	8	7	22.0	10.9	-7.4	\$344,505

Consideration should be given to the absorption of the excess teaching positions at the junior high school campus in order to increase the average class to the lower end of the benchmark level. The absorption of these positions would provide a cost savings of approximately \$344,505 for the 8/7 master schedule.

An 8/7 is the most efficient schedule that may be used by a junior high school. The junior high school has done a great job of balancing the number of sections of core classes, electives, and intervention classes. However, the total number of FTEs allocated to the campus is set well below the state average resulting in an opportunity to make reductions that would free-up funds to be used for other district initiatives.

High School Teachers

Natalia ISD operates a traditional high school campus servicing students in grades 9 through 12. The campus currently operates on an eight-period day maximizing its staff with an 8/7 master schedule. Students take eight classes per day while teachers instruct seven periods per day.

A theoretical class average has been calculated for the campus based on the 8/7 master schedule and availability of teachers. The total teacher count includes all teachers, except those in special education and the athletic trainer. If a teacher reports to another campus for part of their day, this portion has been removed from the Teacher FTE count for the high school. The theoretical average represents the most efficient utilization of current staff and is based on the assumption that all available periods are utilized by the current teaching staff given the student enrollment and master schedule of 8/7.

The table below compares actual class size averages to theoretical averages for the high school campus.

EXHIBIT 12a – HIGH SCHOOL SUMMARY

High School Class Size Summary	
	NHS
Current Enrollment	308
Teacher FTEs	22.7
Actual Core Class Average	16.5
Current Master Schedule	8/7
Theoretical Average 8/7	15.5
Theoretical 7/6	15.8

Statewide, high school classes typically average 22–24 students per class based on a 7/6 master schedule. Conversion of the high school campus from an 8/7 master schedule to a 7/6 master schedule has been performed for comparison purposes. Overall, the campus would have a theoretical class average of 15.8 on a 7/6 master schedule which is well below the range of 22–24 students per class. The current 8/7 master schedule produces lower class sizes compared to a 7/6 master schedule with the same number of teachers.

The overall actual average for the high school campus is 16.5 students per section in core academic subject areas, which is very similar to the theoretical average of 15.5 students. An actual core academic class average that is similar to the theoretical average is evidence of a balanced master schedule.

Based upon projected enrollment provided by district administration, the high school campus enrollment is likely to remain stable for 2017–18 school year.

Similar to the junior high school, Exhibit 12a shows the high school to be below the statewide average. Applying a 22:1 ratio to the current enrollment, would result in the reduction of almost seven teachers at the high school based on an 8/7 master schedule.

Consideration should be given to the absorption of the excess teaching positions at the high school campus, through attrition, in order to increase the average class to the lower end of the benchmark level. The absorption of these positions would provide a cost savings of approximately \$312,300 (Exhibit 12b) for the 8/7 master schedule (based on an average teacher salary of \$46,612).

EXHIBIT 12b – BUDGET IMPACT FOR HS TEACHER ANALYSIS

Benchmark = 22 to 24	Total Students	Total Teacher	SpEd Teacher	Net Teachers	Student Periods	Teacher Periods	P/T Ratio	Tchr @ Avg	(+/-) Tchrs	Savings at \$46,612 per Position
Natalia HS base line	308	24.7	2.0	22.7	8	7	15.5			
Projected enrollment change	0									
Base Line with projected enrollment	308	24.7	2.0	22.7	8	7	15.5			
Natalia HS at 19.0 Avg.	308	24.7	2.0	22.7	8	7	19.0	18.5	-4.2	\$194,544
Natalia HS at 19.5 Avg.	308	24.7	2.0	22.7	8	7	19.5	18.1	-4.6	\$216,686
Natalia HS at 20.0 Avg.	308	24.7	2.0	22.7	8	7	20.0	17.6	-5.1	\$237,721
Natalia HS at 20.5 Avg.	308	24.7	2.0	22.7	8	7	20.5	17.2	-5.5	\$257,730
Natalia HS at 21.0 Avg.	308	24.7	2.0	22.7	8	7	21.0	16.8	-5.9	\$276,786
Natalia HS at 21.5 Avg.	308	24.7	2.0	22.7	8	7	21.5	16.4	-6.3	\$294,956
Natalia HS at 22.0 Avg.	308	24.7	2.0	22.7	8	7	22.0	16.0	-6.7	\$312,300

Athletics

The junior high school campus has two athletic periods during the school day. The athlete per coach average for athletics should at least approach the core academic class average for each campus. The junior high school campus is staffed at an average of 12.3 athletes per coach overall. This is slightly below the core academic average class size of students per teacher of 16.2.

EXHIBIT 13a – JUNIOR HIGH SCHOOL ATHLETICS

Natalia Junior High School									
Campus	Period 1			Period 5			Totals		
	Students	Coach	Avg	Students	Coach	Avg	Students	Coach	Avg
Boys	27	3	9.0	39	3	13.0	66	6	11.0
Girls	32	2	16.0	25	2	12.5	57	4	14.3
Total	59	5	11.8	64	5	12.8	123	10	12.3

The high school campus also has two athletic periods per day. The high school athlete per coach average for athletics should at least approach the core academic class average for the campus. The high school campus is staffed at an average of 12.2 athletes per coach overall based on the data received. This is below the core academic average class size of 16.5.

EXHIBIT 13b – HIGH SCHOOL ATHLETICS

Natalia High School									
Campus	Period 8 Boys			Period 8 Girls			Totals		
	Students	Coach	Avg	Students	Coach	Avg	Students	Coach	Avg
	73	5	14.6	49	5	9.8	122	10	12.2
Total	73	5	14.6	49	5	9.8	122	10	12.2

If the district adjusts the student to teacher ratio at the junior high school and the high school, it could impact the ratio of coaches to athletes. Using the core academic standard to make adjustments to this ratio will balance the impact of the master schedule change.

The district currently has fourteen individuals in coaching assignments excluding the athletic director and trainer. The recommendation is not to reduce the number of overall coaching staff, but to staff the athletic periods more efficiently by increasing the student to coach ratio, resulting in a gain of academic periods taught by coaches at the high school and junior high school. This would not impact the coaching support afterschool per sport for the district.

Maintenance

The staffing in the Natalia ISD Maintenance Department is 2.5 positions above the benchmark level as recommended by the Association of Physical Plant Administrators (APPA). Exhibit 14 reflects the FTE overage in the area of general maintenance by 1.5 positions, 0.5 in plumbing, 0.5 in carpentry, and 0.5 in grounds. The department is understaffed in the area of painting by 0.5 position. All other areas are at the recommended level.

EXHIBIT 14 – MAINTENANCE

Position	Gross Square Footage	Acres	APPA* Standard	APPA Staffing	Current Staffing	Difference
General Maintenance Workers	217,117		1 : 500,000 GSF	0.5	2.0	1.5
HVAC Technicians	217,117		1 : 450,000 GSF	0.5	0.5	0.0
Plumbers, Kitchen Equipment	217,117		1 : 390,000 GSF	0.5	1.0	0.5
Electricians, Communication Techs	217,117		1 : 380,000 GSF	0.5	0.5	0.0
Carpenters, Locksmiths, Masons	217,117		1 : 300,000 GSF	0.5	1.0	0.5
Painters, Flooring, IPM	217,117		1 : 300,000 GSF	0.5	0.0	(0.5)
Groundsmen & Athletic Fields		50	1 : 35 acres	1.5	2.0	0.5
Sub-Total				4.5	7.0	2.5
Director					1.0	
Administrative Assistant					0.25	
Total					8.25	

*Association of Physical Plant Administrators, (APPA) standards per Gross Square Foot (GSF) are used for projections

The recommendation is to first evaluate the current general maintenance and grounds staff for a skillset that matches the deficiency in painting and flooring. After this task is complete, the maintenance department should be reduced by two positions through attrition.

Custodial Services

Natalia ISD currently staffs at an average of one custodian per 17,480 square feet, compared to the Association of School Business Officials (ASBO) standard of one custodian per 19,000 square feet. Therefore, the custodial department is approximately .8 of a position above benchmark levels (11.8 positions versus the recommendation of 11.0 positions).

EXHIBIT 15 – CUSTODIAL STAFF

Campuses	Square Footage	Custodial Supervisor	Day Custodians	Evening Custodians	Night Custodians	Total Custodians	Recommended* Custodians	Variance
High School								
Natalia HS	86,001		2.0	1.0		3.0	4.5	1.5
Natalia JH	70,811		1.8	1.0		3.0	3.5	0.5
Elementary Schools								
Natalia ES	60,305		5.8			5.8	3.0	(2.8)
Other Facilities								
Sub-Total	217,117	0.0	9.6	2.0	0.0	11.8	11.0	0.8
Total	217,117	0.0	9.6	2.0	0.0	11.8		

*Recommended custodians based on ASBO projection of 1 custodian per 19,000 Adjusted Square Feet (ASF)

(ASF = 95% of actual square footage)

Current staffing = 1 custodian per 17,480 gross square feet

Natalia High School and Natalia Junior High School appear to be understaffed by 1.5 positions and 0.5 position, respectively. Natalia Elementary School appears to be overstaffed by 2.8 positions. As mentioned earlier, the elementary campus is actually made up of two campuses. This configuration affects the staffing ratio.

The district should monitor the high school and junior high school workload. If it is determined that these campuses, specifically the high school, is not being sufficiently maintained, the recommendation would be to move at least one custodian position from the elementary school to the high school.

Transportation

Natalia ISD runs nine regular education bus routes, one special education bus route, and two Head Start (ECC) bus routes on a daily basis. The special education and ECC routes each have a driver and a monitor in the morning and in the afternoon. All but one of the nine regular routes have a monitor each afternoon.

Staffing regular education routes is not a typical practice for school districts. The director in transportation discussed his focus on training and bus discipline was one area mentioned. With this in mind, the need to staff every route with a monitor does not align with most staffing models.

If existing regular route monitors are employed in the district, they may serve as a substitute monitor or a back-up if special circumstances arise that would require a monitor on an existing route. One regular route is currently being staffed with a monitor due to a specific issue.

Most district employees are eight hour per day employees in their primary job. If they act in the capacity as a bus monitor, all hours in this job would require overtime pay. This practice can result in an hourly rate being paid to a monitor that might exceed that of a bus driver on a daily basis.

The recommendation is to reduce all regular route monitors unless a circumstance arises that warrants the additional staffing.

Child Nutrition

Natalia ISD is currently conducting an evaluation of its child nutrition practices based on revenues and expenditures of the department. Although the department is operating more efficiently than it did in the past year, the evaluation is not complete. Once the analysis is complete, the administration should evaluate the effectiveness of the current staffing levels to compare the proficiency level of all four cafeterias regarding meals per labor hour.

The district has an opportunity to offer a more efficient staffing model due to the proximity of the high school and junior high school campus. Combining these two campuses into one cafeteria may result in excess staff. Reductions in this area would generate additional cost savings for the district, if they chose this model.

Option 1

Consider the reduction of four instructional aides (three elementary, one junior high)

- Benchmark data shows Natalia Elementary School overstaffed by 6.5 positions.
- Configuration of Natalia Elementary impacts the efficiency of its staffing model.
- Benchmark data shows Natalia Junior High School overstaffed by one position.

Option 2

Consider the reduction of the Special Education Facilitator

- Natalia ISD serves 84 special education students with seven teachers and 5.5 instructional aides.
- The district currently employs a Director of Special Programs.

Option 3

Consider the reduction of one PK teacher

- The class size ratio at PK is currently 16 students per teacher.
- Staffing PK at a 22:1 ratio would increase the ratio to 20 students per teacher.

Option 4

Consider the reduction of seven junior high school teachers

- Natalia Junior High School serves 210 students.
- The core class average is 16.2 students per teacher.
- Increasing the student to teacher ratio to 22:1 would result in the reduction of 7.5 positions.

Option 5

Consider the reduction of seven high school teachers

- Natalia High School serves 308 students.
- The core class average is 16.5 students per teacher.
- Increasing the student to teacher ratio to 22:1 would result in the reduction of 7 positions.

Option 6

Consider the reduction of two maintenance positions

- The district currently has seven positions in the maintenance department.
- According to benchmark data, the department is overstaffed by 2.5 positions.

Option 7

Consider the reduction of eight afternoon bus monitors

- The district currently staffs all afternoon bus routes with a monitor.
- Monitors are needed on the one special education route and two Head Start routes but not on the remaining regular education routes unless a special circumstance warrants it.

The estimated cost impact of options are itemized in the chart below.

Alternative Staffing Models	#	Individual personnel cost	Cost increase / (savings)
Administrative/Professional Staff			
Absorb, by attrition, one Special Education Facilitator	-1.0	\$64,254	(\$64,254)
Instructional Support Staff			
Absorb, by attrition four instructional aides	-4.0	\$19,613	(\$78,452)
Teachers			
Absorb, by attrition, one elementary teacher	-1.0	\$46,612	(\$46,612)
Absorb, by attrition, up to seven junior high school teachers	-7.0	\$46,612	(\$326,284)
Absorb, by attrition, up to seven high school teachers	-7.0	\$46,612	(\$326,284)
Auxiliary			
Absorb, by attrition, two maintenance positions	-2.0	\$30,331	(\$60,662)
Absorb, by attrition, eight bus monitors	-8.0	\$3,133	(\$25,064)
Total Cost Increase/Savings			-\$927,612

Staffing Review

Natalia ISD

January 2017

This information is provided for educational purposes only to facilitate a general understanding of the law or other regulatory matter. This information is neither an exhaustive treatment on the subject nor is this intended to substitute for the advice of an attorney or other professional advisor. Consult with your attorney or professional advisor to apply these principles to specific fact situations.

Purpose

Compare Data

Activities included:

- Planning and Collection

- Interviews

- Benchmarking

 - Texas Student Data System (TSDS)

 - Public Education Information Management System (PEIMS)

 - Texas Academic Performance Report (TAPR)

 - Professional Organizations (APPA, ASBO, TASSP, etc.)

- Common Practice in Texas (CPTx)

Background

- Identify current staffing patterns
- Implement K-12 AVID Program
- Market competitiveness for district pay
- Technology infrastructure
- Coherent sequence of courses for CTE

Clerical & Paraprofessional

Absorption

- Option 1 – 4 instructional aides

Professional Support

Absorption

- Option 2 – Special Education Facilitator

Teachers

Absorption

- Option 3 – one elementary teacher
- Option 4 – seven junior high teachers
- Option 5 – seven high school teachers

Auxiliary

Addition

- Option 6 – two maintenance positions
- Option 7 – eight afternoon bus monitors

Administrator Appraisal Record

Natalia Independent School District

SUPERINTENDENT

Appraisal Period from _____, 2016 to _____, 2017

Mission Statement:

District Goals:

1. Provide staff development programs that prepare employees to provide an exemplary teaching and learning environment.
2. Foster a culture that prepares students for higher education and workforce readiness.
3. Effectively and efficiently use all district resources to maintain sound fiscal policies and practices.
4. Create innovative instructional facilities that engage the evolving needs of students.
5. Embrace community involvement and effectively promote the Natalia ISD.

Rating Scale

- 5 Distinguished (DI) Performance is superior to normal expectations.
- 4 Accomplished (A) Performance is consistently above standard.
- 3 Proficient (P) Performance is within standard and presents no significant problems.
- 2 Developing (DE) Performance is below standards and problems exist.
- 1 Needs Improvement (NI) Performance is consistently unacceptable.

RATING				
DI	A	P	DE	NI
5	4	3	2	1

Please include written comments if any item score is 1, 2, or 5.

Goal 1:

Provide staff development programs that prepare employees to provide an exemplary teaching and learning environment.	
The Superintendent:	Rating
1. Oversees the recruitment, selection, placement and mentorship of a diverse and highly effective staff.	
2. Coaches and gives individual feedback and aligned professional development opportunities.	
3. Establishes a collaborative structure and provides leadership opportunities for staff.	
4. Provides clear expectations of performance and conducts rigorous evaluations, using multiple data sources.	
5. Encourages personal and professional growth and leadership among staff.	
6. Proactively seeks and acts on feedback, reflects on personal growth areas, and seeks development opportunities.	
7. Assesses and plans improvement of the school, school district, and community environment.	
8. Collaborates with the Board of Trustees to develop, implement, and sustain a shared vision of high expectations for all students and staff.	
	Total Rating
	Divided by 8 =

Job Title: Community Liaison

Exemption Status/Test: Exempt/Administrative

Reports to: Director of Special Programs

Pay Grade: 2

Dept./School: Central Office

Date Revised: December 2016

EDUCATION:

- High school diploma or GED

KNOWLEDGE, SKILLS & ABILITIES:

- Knowledge of government and community resources and services.
- Knowledge of the definition, policies, and strategies for implementing programs for student assistance.
- Skill in operating standard computer and software applications, including but not limited to electronic mail, word processing, and spreadsheets.
- Skill in delivery of services throughout the learning community including, but not limited to, public speaking and oral presentations.
- Skill in organizational, communication, public and interpersonal relations.
- Skill in organization and planning.
- Skill in communicating effectively, both verbally and in writing.
- Skill in conducting research and analyzing program area information.
- Ability to prioritize and organize work responsibilities.

PHYSICAL & MENTAL DEMANDS:

- Work with frequent interruptions.
- Maintain emotional control under stress.
- Use computer for prolonged period resulting in repetitive hand motions.
- Lift and/or move up to 20 lbs. occasionally.
- Sit for extended periods of time.
- Travel district wide frequently and statewide occasionally.
- Work occasional prolonged and irregular hours as work demands dictate.

ENVIRONMENTAL FACTORS:

- Work is normally performed in a typical interior/office work environment.

BASIC FUNCTION & RESPONSIBILITY: Provide information and assistance to the families of students. Serve as liaison between school staff and students and enhance parent involvement efforts within the schools. Ensure effective identification, recruitment, and service coordination for homeless students. Collaborate with counselors to identify needs and provide referral resources. Assist students in meeting academic standards.

CHARACTERISTIC DUTIES & RESPONSIBILITIES: The essential functions, pursuant to the Americans with Disabilities Act, may include the characteristic duties, responsibilities, knowledge, skills, and abilities noted herein; however, this is not a comprehensive listing of all functions and tasks performed by positions found in this job description.

Instructional Management

- Provide materials and training to help Title I campuses work with parents to improve student achievement through literacy training and using technology as appropriate to foster parental involvement.
- Research, plan and lead district educational and informational workshops on topics of interest to families based on comprehensive needs assessment data.
- Support the implementation, monitoring and/or evaluation of assigned programs for elementary and secondary education, curriculum, and/or instructional support, and ensure that assigned programs are efficiently and effectively administered.
- Support and participate in meeting the objectives of the district/campus/department improvement plans.

Student Management

- Work with stakeholders to build the district's capacity for strong parental involvement.
- Assist campus administration and site-based team with the planning, review and improvement of the school parental involvement policy and school compact.
- Assist campuses in resolving parent/student issues and concerns in a timely manner.
- Assist in managing student behavior in accordance with Student Code of Conduct and student handbook.

Management of Administrative, Fiscal and/or Facilities Functions:

- Assist the Director of Accountability in ensuring Title I parental involvement and McKinney-Vento Act requirements are met.
- Develop a plan of action to collaborate with District departments to provide district and community resources to benefit and serve the diverse needs of Title I parents and families.
- Identify and work to remove the barriers to greater participation by parents in activities with particular attention to parents who are economically disadvantaged, are disabled, are English Language Learners, have limited literacy, or are of any racial or ethnic minority background.
- Collaborate with Parent Teacher Association (PTA) and other parent organizations and staff to provide a variety of parent volunteer opportunities.
- Provide a variety of information/assistance regarding District and community services, monthly meetings, parent training opportunities, conferences, workshops, etc.
- Provide training and support to Title I campuses in developing and implementing parental involvement strategies and McKinney-Vento Act requirements.
- Provide service coordination for all eligible homeless students attending all District schools.
- Develop and maintain a family resource center and library at each Title I campus.
- Organize and facilitate parent support groups.
- Make home visits to parents, as appropriate.
- Conduct formal/informal presentations at conferences, workshops, and support groups within and outside the district.
- Assist with student progress in the classroom by providing support and information to school staff and parents.
- Assist stakeholders inquiring into or concerned about the Title I, homeless, or foster care services.
- Participate in conferences pertaining to student behavior, social adjustment, and academic performance.
- Identify, inform, and refer school staff and parents to appropriate resources and services in the community.
- Identify and design strategies to address homeless student needs.
- Make referrals and coordinate services for identified homeless students and families.
- Assist in removing obstacles that might prevent a family's participation in the school/programs.
- Arrange for the transportation of homeless children and youth, at the request of the parent or guardian, to and from the homeless child's or youth's school of origin.
- Model positive behavior that is professional, ethical, and responsible when interacting with colleagues, students, parents, and community.

- Coordinate departmental activities with other District offices and administrators and provide assistance to requesting departments.
- Maintain records of parent involvement activities, roster of parent volunteers, agendas and sign-in sheets from district-led events and workshops.
- Serve on district committees related to the parental involvement of Title I parents.
- Comply, maintain, and file all reports, records and other documents as required.
- Coordinate departmental activities with other District offices and administrators and provide assistance to requesting departments.
- Follow District and department policies and procedures.

Human Resources Management:

- Provide direction and guidance to assigned staff.
- Provide input on performance of assigned staff.
- Recognize exemplary performance of assigned staff.

Organization Improvement:

- Analyze critical needs in assigned areas and work collaboratively to implement and improve programs.

Professional Growth and Development:

- Participate in professional development that increases effectiveness and improves District performance.

School/Community Relations:

- Interface with governmental agencies, business and civic organizations, and the community to provide needed information and to promote the District's initiatives.

Organization Morale:

- Foster positive morale by participating in team building activities and the decision-making process.
- Communicate and collaborate with campus/department staff to enhance service delivery, program development, and customer satisfaction.

Other Responsibilities:

- Comply with policies established by federal and state law, including but not limited to State Board of Education and local Board policy.
- Perform other job-related duties as assigned.

This document describes the general purpose and responsibilities assigned to this job and is not an exhaustive list of all responsibilities and duties that may be assigned or skills that may be required.

Re: 2016-2017 Assignment Change

This memo is a follow-up to a conversation that we had on January 2, 2017. As we discussed, a position in the Technology Department has recently been vacated. After evaluating the situation and considering solutions, we have determined that a reassignment is our best solution for the students, the district, and specifically the Technology Department.

As of January 16, 2017, you will change assignments from Maintenance to Computer Technician. For the remainder of the 2016-17 school year your annual salary and hourly rate will remain the same. Because the 2017-2018 calendars have not been established, your last duty date will remain August 31, 2017 at this time. Please contact your supervisor, Mrs. Delia Loza, and Payroll/Human Resources to discuss any questions you may have concerning your new assignment.

Your cooperation in this assignment change is greatly appreciated. The district, and the students, will benefit from the expertise and experience that you will bring to the Technology Department.

If you have any questions regarding this change, do not hesitate to let me know.

Sincerely,

Hensley Cone, PhD
Superintendent of Schools
Natalia Independent School District

Independent Auditor's Report

To the Board of Trustees of
Natalia Independent School District
Natalia, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Natalia Independent School District as of and for the year ended August 31, 2016, and the related notes to the financial statements, which collectively comprise the Natalia Independent School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Natalia Independent School District as of August 31, 2016, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of the District's proportionate share of the net pension liability, and schedule of District contributions on pages 7-13 and 43-45 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Natalia Independent School District's basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedule of expenditures of federal awards is the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedule of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Texas Education Agency requires school districts to include certain information in the Annual Financial and Compliance Report in conformity with laws and regulations of the State of Texas. This information is in Exhibits identified in the Table of Contents as J-1 through J-3. These schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 9, 2016 on our consideration of the Natalia Independent School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Natalia Independent School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The annual financial report of Natalia Independent School District (the District) is presented in six sections, management's discussion and analysis (this part), basic financial statements, required supplementary information, combining and other schedules, T.E.A. required schedules and federal section. This section of the District's annual financial report presents our discussion and analysis of the financial performance during the fiscal year ending August 31, 2016. Please read it in conjunction with the District's financial section, which follows.

Overview of the Basic Financial Statements

The basic financial statements include two kinds of statements that present different views of the District:

- * The first two statements are *government-wide financial statements* that provide both *long-term* and *short-term* information about the District's *overall* financial status.
- * The remaining statements are *fund financial statements* that focus on *individual parts* of the government, reporting the District's operations in *more detail* than the government-wide statements.
- * The *governmental funds* statements tell how *general government* services were financed in the *short term* as well as what remains for future spending.
- * *Fiduciary fund* statements provide information about the financial relationships in which the District acts solely as a *trustee or agent* for the benefit of others, to whom the resources in question belong.

The financial statements also include *notes* that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the information in the financial statements.

Government-wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes *all* of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's *net position* and how they have changed. Net position—the difference between the District's assets and deferred outflows and liabilities and deferred inflows—is one way to measure the District's financial health or *position*.

- * Over time, increases or decreases in the District's net position are an indicator of whether its financial health is improving or deteriorating, respectively.
- * To assess the overall health of the District, you need to consider additional nonfinancial factors such as changes in the District's tax base.

The government-wide financial statements of the District include the *Governmental activities*. Most of the District's basic services are included here, such as instruction, extracurricular activities, curriculum and staff development, health services, and general administration. Property taxes and grants finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant *funds*, not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes.

- * Some funds are required by State law and by bond covenants.
- * The Board of Trustees establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The District has two kinds of funds:

- * *Governmental funds*-Most of the District's basic services are included in governmental funds, which focus on (1) how *cash and other financial assets* that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed *short-term* view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, then explain the relationship (or differences) between them.
- * *Fiduciary funds*-The District is the trustee, or *fiduciary*, for certain funds. It is also responsible for other assets that-because of a trust agreement-can be used only for the trust beneficiaries. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position. We exclude these activities from the District's government-wide financial statements because the District cannot use these assets to finance its operations.

Financial Highlights

- * The District's combined net position was \$12,919,883 at August 31, 2016, an increase of \$293,268 from the prior year.
- * The general fund transferred \$159,851 to the food service fund.
- * The Series 2006 bonds of \$1,145,000 were refunded resulting in a future cash flow savings of \$63,904.
- * Three new buses were purchased for \$273,955.
- * During the year, the District's revenues were \$12,677,476 as reflected below:

		<u>Governmental Activities</u>	
		<u>Current Year</u>	<u>Prior Year</u>
a)	Taxes	\$ 2,278,437	\$ 2,350,346
b)	State Aid	8,432,833	8,562,002
c)	Federal Aid	1,455,696	1,698,916
d)	Investment Earnings	16,658	20,321
e)	Other	<u>493,852</u>	<u>233,510</u>
Total Revenues		<u><u>\$12,677,476</u></u>	<u><u>\$12,865,095</u></u>

- * During the year, the District's expenses were \$12,384,208 as reflected below:

		Governmental Activities	
		Current Year	Prior Year
a)	Instruction and instructional related	\$ 6,599,867	\$ 6,946,349
b)	Instructional leadership/school administration	704,929	685,154
c)	Guidance, social work, health, transportation	978,227	867,499
d)	Food services	887,824	810,029
e)	Extracurricular activities	540,605	514,791
f)	General administration	688,176	621,629
g)	Plant maintenance and security	1,644,536	1,596,479
h)	Data processing services	221,560	118,430
i)	Community services	276	531
j)	Debt services	104,642	89,792
k)	Payments to fiscal agent/member districts - shared service	<u>13,566</u>	<u>19,992</u>
Total Expenses		<u>\$12,384,208</u>	<u>\$12,270,675</u>

- * The general fund reported a fund balance of \$5,621,065, an increase of \$452,052.
- * The debt service fund reported a fund balance of \$290,894, an increase of \$73,476.
- * The capital projects fund reported a fund balance of \$766,808, an increase of \$3,269.

General Fund Budgetary Highlights

Over the course of the year, the District revised its budget several times. Even with these adjustments, actual expenditures were \$529,799 below final budget amounts. The most significant positive variance resulted from staffing and budget efficiencies. Additionally, resources available were \$130,162 above the final budgeted amount.

- * Local revenue sources were greater than expected.
- * State revenue earned was greater than expected.
- * Federal revenue earned was greater than expected.

- * The District's combined net position was \$12,919,883 at August 31, 2016, as reflected below:

	Governmental Activities	
	<u>Current Year</u>	<u>Prior Year</u>
Current and other assets	\$ 7,828,751	\$ 6,971,625
Capital and non-current assets	<u>9,143,089</u>	<u>9,242,455</u>
Total Assets	<u>16,971,840</u>	<u>16,214,080</u>
Deferred resource outflow	<u>1,275,755</u>	<u>337,097</u>
Current liabilities	898,335	569,691
Long term liabilities	<u>4,244,544</u>	<u>2,994,870</u>
Total Liabilities	<u>5,142,879</u>	<u>3,564,561</u>
Deferred resource inflow	<u>184,833</u>	<u>360,001</u>
Net position:		
Net investment in capital assets	7,382,425	7,424,436
Restricted	290,894	217,418
Unrestricted	<u>5,246,564</u>	<u>4,984,761</u>
Total Net Position	<u>\$12,919,883</u>	<u>\$12,626,615</u>

- * Property tax rates decreased by 4.77¢ for the past year. The tax base decreased during the past year by \$1,204,365. The tax levy decreased by \$98,916.
- * State aid decreased for the year by \$129,169.
- * Federal aid decreased for the year by \$243,220.

Capital Assets and Debt Administration

Capital Assets

Capital assets for the District at the end of the fiscal year August 31, 2016 amounted to \$9,143,089. It is the District's policy to charge off as a current expenditure any purchases less than \$5,000. The total capital assets recorded were land and its improvements, buildings, equipment and vehicles as reflected below:

	District's Capital Assets	
	Governmental Activities	
	Current Year	Prior Year
Land	\$ 145,668	\$ 145,668
Buildings and improvements	15,099,503	15,099,503
Equipment	2,709,082	2,582,695
Property under capital lease	<u>273,955</u>	<u>-</u>
Totals at historical cost	18,228,208	17,827,866
Total accumulated depreciation	<u>(9,085,119)</u>	<u>(8,585,411)</u>
Net capital assets	<u><u>\$ 9,143,089</u></u>	<u><u>\$ 9,242,455</u></u>

Long-term Liabilities

The District continued its scheduled bond retirements of \$318,000 and capital lease retirement of \$57,949 for the year just ended. The Series 2006 bonds of \$1,145,000 were refunded during the year reducing the average interest rate from 4.08% to 2.6%.

	District's Long Term Liabilities	
	Governmental Activities	
	Current Year	Prior Year
Bonds payable	\$ 1,468,000	\$ 1,786,000
Capital lease	216,006	-
Unamortized bond		
Premium/discount	<u>76,658</u>	<u>32,019</u>
Totals	<u><u>\$ 1,760,664</u></u>	<u><u>\$ 1,818,019</u></u>

Contacting the District's Financial Management

This financial report is designed for customers, investors, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District's Business Services department.

NATALIA INDEPENDENT SCHOOL DISTRICT
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE
STATEMENT OF NET POSITION
AUGUST 31, 2016

Total Fund Balances - Governmental Funds	\$ 6,678,767
1 Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds. At the beginning of the year, the cost of these assets was \$17,827,866 and the accumulated depreciation was \$(8,585,411). In addition, long-term liabilities, including bonds and capital leases payable of \$(1,786,000), are not due and payable in the current period, and, therefore are not reported as liabilities in the funds. The net effect of including the beginning balances for capital assets (net of depreciation) and long-term debt in the governmental activities is to increase net position.	7,456,455
2 Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of including the 2016 capital outlays of \$400,342 and debt principal payments of \$375,949 is to increase net position.	776,291
3 Included in the items related to debt is the recognition of the District's proportionate share of the net pension liability required by GASB 68 in the amount of \$(2,483,880), a Deferred Resource Inflow related to TRS in the amount of \$(184,833) and a Deferred Resource Outflow related to TRS in the amount of \$1,275,755. The net effect of these recognitions is to decrease net position.	(1,392,958)
4 The 2016 depreciation expense increases accumulated depreciation. The net effect of the current year's depreciation is to decrease net position.	(499,708)
5 Various other reclassifications and recognitions are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing unavailable tax revenue of \$257,955 as revenue, recognizing the liabilities associated with maturing long-term debt interest of \$(6,306), bond premium of \$(76,658), and capital lease proceeds of \$(273,955). The net effect of these reclassifications and recognitions is to decrease net position.	(98,964)
19 Net Position of Governmental Activities	\$ 12,919,883

The notes to the financial statements are an integral part of this statement.

NATALIA INDEPENDENT SCHOOL DISTRICT
RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED AUGUST 31, 2016

Total Net Change in Fund Balances - Governmental Funds	\$ 528,797
Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of removing the 2016 capital outlays of \$400,342 and debt principal payments of \$375,949 is to increase net position.	776,291
Depreciation is not recognized as an expense in governmental funds since it does not require the use of current financial resources. The net effect of the current year's depreciation is to decrease net position.	(499,708)
The reporting of GASB 68 for the current year resulted in an increase in the Net Pension Liability of \$(1,307,029), a decrease in Deferred Resource Inflows of \$175,168, and an increase in Deferred Resource Outflows of \$938,658. The impact of these items is to decrease net position.	(193,203)
Various other reclassifications and recognitions are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing the change in unavailable tax revenue of \$3,054, recognizing the change in liabilities associated with maturing long-term debt interest of \$(3,369), bond premium/discount change of \$(44,639), and capital lease debt issued of \$(273,955). The net effect of these reclassifications and recognitions is to decrease net position.	(318,909)
Change in Net Position of Governmental Activities	\$ 293,268

NATALIA INDEPENDENT SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED AUGUST 31, 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Natalia Independent School District (the “District”) is a public educational agency operating under the applicable laws and regulations of the State of Texas. It is governed by a seven member Board of Trustees (the “Board”) elected by registered voters of the District. The District prepares its basic financial statements in conformity with generally accepted accounting principles (GAAP) promulgated by the Governmental Accounting Standards Board (GASB) and other authoritative sources identified in **GASB Statement No. 76**, and it complies with the requirements of the appropriate version of Texas Education Agency’s ***Financial Accountability System Resource Guide*** (the “Resource Guide”) and the requirements of contracts and grants of agencies from which it receives funds.

Pensions. The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS’s fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

As of August 31, 2016, Natalia Independent School District retrospectively/prospectively applied Government Accounting Standards Board (“GASB”) Statement No. 72, Fair Value Measurement and Application. GASB Statement No. 72 provides guidance for determining fair value measurement for reporting purposes and applying fair value to certain investments and disclosures related to all fair value measurements.

A. REPORTING ENTITY

The Board of Trustees (the “Board”) is elected by the public and it has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. Therefore, the District is a financial reporting entity as defined by the Governmental Accounting Standards Board (“GASB”) in its Statement No. 14, “The Financial Reporting Entity.” There are no component units included within the reporting entity.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The Statement of Net Position and the Statement of Activities are government-wide financial statements. They report information on all of the Natalia Independent School District nonfiduciary activities with most of the interfund activities removed. *Governmental activities* include programs supported primarily by taxes, State foundation funds, grants, and other intergovernmental revenues.

The Statement of Activities demonstrates how other people or entities that participate in programs the District operates have shared in the payment of the direct costs. The “charges for services” column includes payments made by parties that purchase, use, or directly benefit from goods or services provided by a given function or segment of the District. Examples include tuition paid by students not residing in the district, school lunch charges, etc. The “operating grants and contributions” column includes amounts paid by organizations outside the District to help meet the operational or capital requirements of a given function. Examples include grants under the Elementary and Secondary Education Act. If a revenue is not a program revenue, it is a general revenue used to support all of the District’s functions. Taxes are always general revenues.

Interfund activities between governmental funds appear as due to/due froms on the Governmental Fund Balance Sheet and as other resources and other uses on the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balance. All interfund transactions between governmental funds are eliminated on the government-wide statements. Interfund activities between governmental funds and fiduciary funds remain as due to/due froms on the government-wide Statement of Position.

The fund financial statements provide reports on the financial condition and results of operations for two fund categories - governmental and fiduciary. Since the resources in the fiduciary funds cannot be used for District operations, they are not included in government-wide statements. The District considers some governmental funds major and reports their financial condition and results of operations in a separate column.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting, as do the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. The District considers all revenues available if they are collectible within 60 days after year end.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible to accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as unearned revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount.

The Fiduciary Funds are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting.

D. FUND ACCOUNTING

The District reports the following major governmental funds:

1. **The General Fund** - The general fund is the District's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.

Additionally, the District reports the following fund type(s):

Governmental Funds:

2. **Special Revenue Funds** - The District accounts for resources restricted to, or designated for, specific purposes by the District or a grantor in a special revenue fund. Most Federal and some State financial assistance is accounted for in a Special Revenue Fund, and sometimes unused balances must be returned to the grantor at the close of specified project periods.
3. **Debt Service Fund** - The District accounts for resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds in a debt service fund.
4. **Capital Projects Fund** - The proceeds from long-term debt financing and revenues and expenditures related to authorized construction and other capital asset acquisitions are accounted for in a capital projects fund.

Fiduciary Funds:

5. **Agency Funds** - The District accounts for resources held for others in a custodial capacity in agency funds. The District's Agency Fund is the Student Activity Account.

E. FUND BALANCE POLICY

Natalia Independent School District reports fund balance for governmental funds in classifications based primarily on the extent to which the district is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The **nonspendable** classification represents assets that will be consumed or "must be maintained in tact" and therefore will never convert to cash, such as inventories of supplies. Provisions of laws, contracts, and grants specify how fund resources can be used in the **restricted** classification. The nature of these two classifications precludes a need for a policy from the Board of Trustees. However, the Board has adopted fund balance policies for the three unrestricted classifications – committed, assigned, and unassigned.

From time to time, the Board of Trustees may commit fund balances by a majority vote in a scheduled meeting. The Board's commitment may be modified or rescinded by a majority vote in a scheduled meeting. Board commitments cannot exceed the amount of fund balance that is greater than the sum of nonspendable and restricted fund balances since that practice would commit funds that the district does not have. Commitments may be for facility expansion or renovation, program modifications, wage and salary adjustments, financial cushions and other purposes determined by the Board.

The Board of Trustees may delegate authority to specified persons or groups to make assignments of certain fund balances by a majority vote in a scheduled meeting. The Board may modify or rescind its delegation of authority by the same action. The authority to make assignments shall be in effect until modified or rescinded by the Board by majority vote in a scheduled meeting.

When it is appropriate for fund balance to be assigned, the Board delegates authority to the Superintendent or the Business Manager.

When the District incurs expenditures that can be made from either restricted or unrestricted balances, the expenditures should be charged to restricted balances. When the District incurs expenditures that can be made from either committed, assigned, or unassigned balances, the expenditures should be charged to committed, assigned then unassigned.

Restricted

Debt service	<u>\$ 290,894</u>
Total restricted	<u>290,894</u>
Committed construction	1,766,808
Unassigned	<u>4,621,065</u>
Total Fund Balances	<u>\$6,678,767</u>

The District's financial goal is to maintain a yearly fund balance in the general operating fund of 50% of the total operating expenditures.

F. PENSIONS

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

G. OTHER ACCOUNTING POLICIES

1. The District records purchases of supplies as expenditures.
2. The District records its investments in certificates of deposit at cost, which approximates fair value.
3. Unearned revenue accounted for on the balance sheet of the general fund relates to excess funds received from the Texas Education Agency over earned amounts.
4. The District provides risk management obligations by carrying appropriate insurance. Risk of loss is not retained by the District.
5. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.
6. In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts, if material, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as a current expense under GASB #62.

In the fund financial statements, governmental fund types recognized bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

7. There is no liability for unpaid accumulated sick leave since the District does not have a policy to pay any amounts when employees separate from service with the government.
8. Capital assets, which include land, buildings, furniture and equipment are reported in the applicable governmental column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Buildings, furniture and equipment of the District is depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	40
Equipment	5 - 10

9. When the District incurs an expense for which it may use either restricted or unrestricted assets, it uses the restricted assets first unless unrestricted assets will have to be returned because they were not used.
10. The Data Control Codes refer to the account code structure prescribed by TEA in the ***Financial Accountability System Resource Guide***. Texas Education Agency requires school districts to display these codes in the financial statements filed with the Agency in order to insure accuracy in building a Statewide data base for policy development and funding plans.
11. In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The amount reflected on Exhibit A-1 relate to the TRS net pension liability.
12. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The District has one type of item which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Uncollected property taxes which are assumed collectible are reported in this category on the balance sheet for governmental funds. They are not reported in this category on the government wide statement of net position. The amount reflected on Exhibit A-1 relate to the TRS net pension liability.

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. BUDGETARY DATA

The Board of Trustees adopts an “appropriated budget” for the General Fund, Debt Service Fund and the Food Service Fund which is included in the Special Revenue Funds. The District is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds. The District compares the final amended budget to actual revenues and expenditures. The General Fund Budget report appears in Exhibit G-1 and the other two reports are in Exhibit J-2 and J-3.

The following procedures are followed in establishing the budgetary data reflected in the basic financial statements:

1. Prior to August 20 the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least ten days’ public notice of the meeting must be given.
3. Prior to September 1, the budget is legally enacted through passage of a resolution by the Board. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end. Because the District has a policy of careful budgetary control, several amendments were necessary during the year. However, none of these were significant.
4. Each budget is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board. All budget appropriations lapse at year end. A reconciliation of fund balances for both appropriated budget and nonappropriated budget special revenue funds is as follows:

August 31, 2016
Fund Balance

Appropriated Budget Funds - Food Service Special Revenue Fund	\$ -
Nonappropriated Budget Funds	<u>-</u>
All Special Revenue Funds	<u><u>\$ -</u></u>

B. BUDGETARY COMPLIANCE

As noted on Exhibit J-2 and J-3, the child nutrition fund had expenditures in excess of budgeted amounts of \$16,586, and the debt service fund had expenditures in excess of budgeted amounts totaling \$43,231.

III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS

A. CASH, CASH EQUIVALENTS AND INVESTMENTS

Cash and Cash Equivalents

District Policies and Legal and Contractual Provisions Governing Deposits

Custodial Credit Risk for Deposits State law requires governmental entities to contract with financial institutions in which funds will be deposited to secure those deposits with insurance or pledged securities with a fair value equaling or exceeding the amount on deposit at the end of each business day. The pledged securities must be in the name of the governmental entity and held by the entity or its agent. Since the District complies with this law, it has no custodial credit risk for deposits.

The District had funds on deposit at year-end of \$5,672,954 in excess of FDIC coverage, secured by pledged securities of the depository bank.

As of August 31, 2016, the following are the District's cash and cash equivalents with respective maturities and credit rating:

<u>Type of Deposit</u>	<u>Fair Value</u>	<u>Maturity in Less than 1 Year</u>	<u>Maturity in 1-10 Years</u>	<u>Maturity in Over 10 Years</u>	<u>Credit Rating</u>
Cash	\$ 7,000,628	\$ 7,000,628	\$ -	\$ -	N/A

District Policies and Legal and Contractual Provisions Governing Investments

Compliance with the Public Funds Investment Act

The **Public Funds Investment Act** (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports, and establishment of appropriate policies. Among other things, it requires a governmental entity to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit.

Statutes authorize the entity to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas and its agencies, (2) guaranteed or secured certificates of deposit issued by state and national banks domiciled in Texas, (3) obligations of states, agencies, counties, cities and other political subdivisions of any state having been rated as to investment quality not less than an "A", (4) No load money market funds with a weighted average maturity of 90 days or less, (5) fully collateralized repurchase agreements, (6) commercial paper having a stated maturity of 270 days or less from the date of issuance and is not rated less than A-1 or P-1 by two nationally recognized credit rating agencies OR one nationally recognized credit agency and is fully secured by an irrevocable letter of credit, (7) secured corporate bonds rated now lower than "AA-" or the equivalent, (8) public funds investment pools, and (9) guaranteed investment contracts for bond proceeds investment only, with a defined termination date and secured by U.S. Government direct or agency obligations approved by the Texas Public Funds Investment Act in an amount equal to the bond proceeds. The Act also requires the entity to have independent auditors perform test procedures related to investment practices as provided by the Act. Medina Valley Independent School District is in substantial compliance with the requirements of the Act and with local policies.

The investment pools used by the District are organized under the authority of the Interlocal Cooperation Act, Chapter 791, Texas Government Code, and the Public Funds Investment Act, Chapter 2256, Texas Government Code. The investment pools are public funds investment pools created to provide a safe environment for the placement of local government funds in authorized short-term investment.

The District's investment in investment pools, which are exempt from regulation by the Securities and Exchange Commission, have as one of their objectives the maintenance of stable net asset value of \$1. The book value of the position in the pools is the same as the number of the shares in each pool; the market value of a share should approximately equal the book value of a share.

Additional policies and contractual provisions governing deposits and investments of Natalia Independent School District are specified below:

Credit Risk To limit the risk that an issuer or other counterparty to an investment will not fulfill its obligations the District limits investments to those allowed by Government Code 2256. As of August 31, 2016, the District's investments were limited to investment pools.

Custodial Credit Risk for Investments To limit the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in possession of an outside party. The District requires counterparties to register the securities in the name of the District's custodian and hand them over to the District or its designated agent. All of the securities are held by the District's agent.

Concentration of Credit Risk To limit the risk of loss, the District's investment portfolio is diversified in terms of investment instruments, maturity schedule, and financial institutions.

Interest Rate Risk To limit the risk that changes in interest rates will adversely affect the fair value of investments, the District's investment portfolio has various maturities.

Foreign Currency Risk for Investment The District has no foreign currency investments.

The District categorizes its fair value measurements with the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy below. In instances where inputs used to measure fair value fall into different levels in the above fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The District's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

As of August 31, 2016, Natalia Independent School District has no investments measured at fair value or Net Asset Value (NAV) per Share (or its equivalent).

B. PROPERTY TAXES

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the school fiscal year.

C. DELINQUENT TAXES RECEIVABLE

Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible tax receivables within the General and Debt Service Funds are based on historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

D. INTERFUND BALANCES AND TRANSFERS

Interfund balances at August 31, 2016 consisted of the following amounts:

Due to General Fund From:

Intrafund	\$ 107,081
Special Revenue Funds	99,424
Debt Service Fund	4,900
Agency Fund	<u>25,532</u>
Total Due to General Fund	<u>\$ 236,937</u>

Due to Capital Projects Fund From:

General Fund	<u>\$ 16,155</u>
Total Due to Capital Projects Fund	<u>\$ 16,155</u>

Interfund balances are recorded primarily for payroll clearing and investment income allocation.

Transfers from General Fund To:

Food Service Fund	<u>\$ 159,851</u>
Total Transferred from General Fund	<u>\$ 159,851</u>

Interfund transfers were in support of food service operations.

E. DISAGGREGATION OF RECEIVABLES AND PAYABLES

Receivables at August 31, 2016 were as follows:

	<u>Property Taxes</u>	<u>Other Governments</u>	<u>Due From Other Funds</u>	<u>Total Receivables</u>
Governmental Activities:				
General Fund	\$ 269,342	\$ 352,311	\$ 236,937	\$ 858,590
Nonmajor Governmental Funds	<u>36,152</u>	<u>175,335</u>	<u>16,155</u>	<u>227,642</u>
Total - Governmental Activities	<u>\$ 305,494</u>	<u>\$ 527,646</u>	<u>\$ 253,092</u>	<u>\$1,086,232</u>
Amounts not scheduled for collection during the subsequent year	<u>\$ 30,549</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 30,549</u>

Payables at August 31, 2016 were as follows:

	<u>Accounts Payable</u>	<u>Salaries and Benefits</u>	<u>Due To Other Funds</u>	<u>Due To Other Governments</u>	<u>Total Payables</u>
Governmental Activities:					
General Fund	\$ 157,241	\$ 310,723	\$ 123,236	\$ -	\$ 591,200
Nonmajor Gov. Funds	<u>58,384</u>	<u>47,941</u>	<u>104,324</u>	<u>-</u>	<u>210,649</u>
Total - Gov. Activities	<u>\$ 215,625</u>	<u>\$ 358,664</u>	<u>\$ 227,560</u>	<u>\$ -</u>	<u>\$ 801,849</u>
Amounts not scheduled for payment during the subsequent year	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>

F. CAPITAL ASSET ACTIVITY

Capital asset activity for the year ended August 31, 2016 was as follows:

	<u>Beginning Balance</u>	<u>Reclassifications/ Additions</u>	<u>Reclassifications/ Retirements</u>	<u>Ending Balance</u>
Governmental activities:				
Land	\$ 145,668	\$ -	\$ -	\$ 145,668
Buildings and improvements	15,099,503	-	-	15,099,503
Equipment	2,582,695	126,387	-	2,709,082
Property under Capital Lease	<u>-</u>	<u>273,955</u>	<u>-</u>	<u>273,955</u>
Total at historical cost	<u>17,827,866</u>	<u>400,342</u>	<u>-</u>	<u>18,228,208</u>
Less accumulated depreciation				
Buildings and improvements	(6,277,165)	(350,096)	-	(6,627,261)
Equipment	(2,308,246)	(122,215)	-	(2,430,461)
Property under Capital Lease	<u>-</u>	<u>(27,397)</u>	<u>-</u>	<u>(27,397)</u>
Total accumulated depreciation	<u>(8,585,411)</u>	<u>(499,708)</u>	<u>-</u>	<u>(9,085,119)</u>
Governmental activities capital assets, net	<u>\$ 9,242,455</u>	<u>\$ (99,366)</u>	<u>\$ -</u>	<u>\$ 9,143,089</u>

Depreciation expense was charged to governmental activities as follows:

Instruction	\$ 291,416
Instructional Resources & Media Services	7,900
Instructional Leadership	8,677
School Leadership	30,724
Guidance and Counseling	16,870
Student (Pupil) Transportation	20,324
Food Services	41,338
General Administration	21,168
Plant Maintenance and Operations	55,729
Data Processing	<u>5,562</u>
Total depreciation expense	<u>\$ 499,708</u>

G. BONDS PAYABLE

Bonded indebtedness of the District is reflected in the Statement of Net Position. Current requirements for principal and interest expenditures are accounted for in the Debt Service Fund. The bonds mature serially through the year 2021, with interest rates of 2.00% to 3.25%.

A summary of changes in general long-term debt for the year ended August 31, 2016 is as follows:

Description	Interest Rate Payable	Amounts Original Issue	Interest Current Year	Payable Amounts Outstanding 9/1/15	Issued	Refunded/ Retired	Amounts Outstanding 8/31/16	Due Within One Year
Unlimited Tax Building & Refunding Bonds Series 2006	4.00% 4.125%	\$3,660,000	\$ 30,345	\$1,345,000	\$ -	\$1,345,000	\$ -	\$ -
Unlimited Tax Refunding Bonds Series 2013	3.00% 3.25%	654,000	13,800	441,000	-	105,000	336,000	108,000
Unlimited Tax Refunding Bonds Series 2016	2.00% 3.00%	1,145,000	9,954	-	1,145,000	13,000	1,132,000	215,000
Total			<u>\$ 54,099</u>	<u>\$1,786,000</u>	<u>\$1,145,000</u>	<u>\$1,463,000</u>	<u>\$1,468,000</u>	<u>\$ 323,000</u>

On April 15, 2016, the District issued \$1,145,000 of Unlimited Tax Refunding Bonds, Series 2016. The proceeds of the bonds were used for refunding the Series 2006 maturities of August 15, 2017 through August 15, 2021 totaling \$1,145,000, with an average interest rate of 4.08%. The Series 2006 bonds were refunded with the 2016 Series Bonds having an average interest rate of 2.6%. The cash flow savings to the District as a result of this refunding was \$63,904. The net present value savings is \$62,206. The proceeds of the refunding bonds were used to purchase U.S. Government securities. The securities were deposited in an irrevocable trust with an escrow agent to provide for certain debt service payments on the Series 2006 bonds. As a result, those portions of the Series 2006 bonds were considered defeased and the liability for those bonds has been removed from the District's long-term debt account group. The defeased 2006 bonds were callable on August 15, 2016.

Debt service requirements are as follows:

Year Ended August 31,	General Obligations		Total Requirements
	Principal	Interest	
2017	\$ 323,000	\$ 40,250	\$ 363,250
2018	331,000	32,710	363,710
2019	344,000	24,715	368,715
2020	229,000	14,100	243,100
2021	<u>241,000</u>	<u>7,230</u>	<u>248,230</u>
TOTAL	<u>\$1,468,000</u>	<u>\$ 119,005</u>	<u>\$1,587,005</u>

There are a number of limitations and restrictions contained in the general obligation bond indenture. Management has indicated that the District is in compliance with all significant limitations and restrictions at August 31, 2016.

H. CAPITAL LEASE

On November 9, 2015, the District entered into a capital lease obligation for the purchase of three school buses. The interest rate is 3.34%. The contract is under the provisions of the Public Property Finance Act, Chapter 271, Subchapter A, Texas Local Government Code.

Capital lease obligations are as follows:

Year Ended August 31,	Capital Lease Obligations		Total Requirement
	Principal	Interest	
2017	\$ 51,370	\$ 7,215	\$ 58,585
2018	53,086	5,499	58,585
2019	54,859	3,726	58,585
2020	<u>56,691</u>	<u>1,894</u>	<u>58,585</u>
Total	<u>\$ 216,006</u>	<u>\$ 18,334</u>	<u>\$ 234,340</u>

Interest paid for the current year was \$635.

I. CHANGES IN LONG-TERM LIABILITIES

Long-term activity for the year ended August 31, 2016 was as follows:

	Balance 9/1/15	Additions	Refunded/ Retired	Balance 8/31/16	Due Within One Year
Governmental Activities:					
Bonds	\$1,786,000	\$1,145,000	\$1,463,000	\$1,468,000	\$ 323,000
Capital lease	-	273,955	57,949	216,006	51,484
Unamortized bond					
Premium/Discount	<u>32,019</u>	<u>54,415</u>	<u>9,776</u>	<u>76,658</u>	<u>-</u>
Total	<u>\$1,818,019</u>	<u>\$1,473,370</u>	<u>\$1,530,725</u>	<u>\$1,760,664</u>	<u>\$ 374,484</u>

J. ACCUMULATED UNPAID VACATION AND SICK LEAVE BENEFITS

The State of Texas has created a minimum personal leave program consisting of five days per year leave with no limit on accumulation and transferability among districts for every teacher regularly employed in Texas public schools.

Each district's local Board of Education is required to establish a leave plan. Local school districts may provide additional leave beyond the state minimum. Natalia Independent School District provides an additional five days leave with substitute reimbursement above the state granted five days per year. Personal leave is not vested, therefore, upon resignation, termination or nonrenewal of contract, accumulated personal leave is not paid.

K. DEFINED BENEFIT PENSION PLAN

Plan Description. The Natalia Independent School District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). TRS's defined benefit pension plan is established and administered in accordance with the Texas Constitution, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position. Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512)542-6592. The information provided in the Notes to the Financial Statements in the 2015 Comprehensive Annual Financial Report for TRS provides the following information regarding the Pension Plan fiduciary net position as of August 31, 2015.

<u>Net Pension Liability</u>	<u>Total</u>
Total Pension Liability	\$163,887,375,172
Less: Plan Fiduciary Net Position	<u>(128,538,706,212)</u>
Net Pension Liability	<u>\$ 35,348,668,960</u>
Net Position as percentage of Total Pension Liability	78.43%

Benefits Provided TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

Contributions. Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 thru 2017. The 83rd Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2014 and 2015. The 84th Texas Legislature, General Appropriations Act (GAA) established the employer rates for fiscal years 2016 and 2017.

Contribution Rates

	<u>2015</u>	<u>2016</u>
Member	6.7%	7.2%
Non-Employer Contributing Entity (State)	6.8%	6.8%
Employers	6.8%	6.8%

Natalia ISD 2016 Employer Contributions	\$ 256,035
Natalia ISD 2016 Member Contributions	486,239
Natalia ISD 2015 NECE On-Behalf Contributions	341,841

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers including public schools are required to pay the employer contribution rate in the following instances:

- * On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- * During a new member's first 90 days of employment.
- * When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to.

- * When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- * When a school district does not contribute to the Federal Old-Age, Survivors and Disability Insurance (OASDI) Program for certain employees, they must contribute 1.5% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

Actuarial Assumptions. The total pension liability in the August 31, 2015 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2015
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Market Value
Single Discount Rate	8.0%
Long-term expected Investment Rate of Return	8.0%
Inflation	2.5%
Salary Increases Including Inflation	3.5% to 9.5%
Payroll Growth Rate	2.5%
Benefit Changes During the Year	None
Ad hoc Post Employment Benefit Changes	None

The actuarial methods and assumptions are based primarily on a study of actual experience for the four year period ending August 31, 2014 and adopted on September 24, 2015.

Discount Rate. The discount rate used to measure the total pension liability was 8.0%. There was no change in the discount rate since the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term rate of return on pension plan investments is 8.0%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2015 are summarized below:

Asset Class	Target Allocation	Long-Term Expected Geometric Rate of Return	Expected Contribution to Long-Term Portfolio Returns*
Global Equity			
U.S.	18%	4.6%	1.0%
Non-U.S. Developed	13%	5.1%	0.8%
Emerging Markets	9%	5.9%	0.7%
Directional Hedge Funds	4%	3.2%	0.1%
Private Equity	13%	7.0%	1.1%
Stable Value			
U.S. Treasuries	11%	0.7%	0.1%
Absolute Return	0%	1.8%	0.0%
Hedge Funds (Stable Value)	4%	3.0%	0.1%
Cash	1%	-0.2%	0.0%
Real Return			
Global Inflation Linked Bonds	3%	0.9%	0.0%
Real Assets	16%	5.1%	1.1%
Energy and Natural Resources	3%	6.6%	0.2%
Commodities	0%	1.2%	0.0%
Risk Parity			
Risk Parity	<u>5%</u>	<u>6.7%</u>	<u>0.3%</u>
Inflation Expectations			2.2%
Alpha			1.0%
Total	100%		8.7%

* The Expected Contribution to Returns incorporates the volatility drag resulting from the conversion between Arithmetic and Geometric mean returns.

Discount Rate Sensitivity Analysis. The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (8%) in measuring the 2015 Net Pension Liability.

	1% Decrease in Discount Rate (7%)	Discount Rate (8%)	1% Increase in Discount Rate (9%)
Natalia ISD's proportionate share of the net pension liability:	<u>\$3,891,772</u>	<u>\$2,483,880</u>	<u>\$1,311,194</u>

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At August 31, 2015, Natalia Independent School District reported a liability of \$2,483,880 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to Natalia Independent School District. The amount recognized by Natalia Independent School District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with Natalia Independent School District were as follows:

District's proportionate share of the collective net pension liability	\$2,483,880
State's proportionate share that is associated with the District	<u>4,079,661</u>
Total	<u>\$6,563,541</u>

The net pension liability was measured as of August 31, 2015 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2014 thru August 31, 2015.

At August 31, 2015, the employer's proportion of the collective net pension liability was .000070268% which was an increase of .000026210% from its proportion measured as of August 31, 2014.

Changes Since the Prior Actuarial Valuation - The following are changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period:

Economic Assumptions

1. The inflation assumption was decreased from 3.00% to 2.50%.
2. The ultimate merit assumption for long-service employees was decreased from 1.25% to 1.00%.
3. In accordance with the observed experience, there were small adjustments in the service-based promotional/longevity component of the salary scale.
4. The payroll growth assumption was lowered from 3.50% to 2.50%.

Mortality Assumptions

5. The post-retirement mortality tables for non-disabled retirees were updated to reflect recent TRS member experience. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.
6. The post-retirement mortality tables for disabled retirees were updated to reflect recent TRS member experience. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.
7. The pre-retirement mortality tables for active employees were updated to use 90% of the recently published RP-2014 mortality table for active employees. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.

Other Demographic Assumptions

8. Previously, it was assumed 10% of all members who had contributed in the past 5 years to be an active member. This was an implicit rehire assumption because teachers have historically had a high incidence of terminating employment for a time and then returning to the workforce at a later date. This methodology was modified to add a more explicit valuation of the rehire incidence in the termination liabilities, and therefore these 10% are no longer being counted as active members.
9. There were adjustments to the termination patterns for members consistent with experience and future expectations. The termination patterns were adjusted to reflect the rehire assumption. The timing of the termination decrement was also changed from the middle of the year to the beginning to match the actual pattern in the data.
10. Small adjustments were made to the retirement patterns for members consistent with experience and future expectations.
11. Small adjustments to the disability patterns were made for members consistent with experience and future expectations. Two separate patterns were created based on whether the member has 10 years of service or more.
12. For members that become disabled in the future, it is assumed 20% of them will choose a 100% joint and survivor annuity option.

Actuarial Methods and Policies

13. The method of using celled data in the valuation process was changed to now using individual data records to allow for better reporting of some items, such as actuarial gains and losses by source.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the year ended August 31, 2016, Natalia Independent School District recognized pension expense of \$581,286 and revenue of \$341,841 for support provided by the State.

At August 31, 2016, Natalia Independent School District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual economic experience	\$ 15,136	\$ 95,458
Changes in actuarial assumptions	63,620	88,614
Differences between projected and actual investment earnings	341,954	-
Changes in proportion and differences between the employer's contributions and the proportionate share of contributions	599,010	761
Contributions paid to TRS subsequent to the measurement date	<u>256,035</u>	<u>-</u>
Total	<u>\$1,275,755</u>	<u>\$ 184,833</u>

The net amounts of the employer's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ended August 31</u>	<u>Pension Expense Amount</u>
2017	\$ 149,105
2018	149,105
2019	149,105
2020	239,028
2021	85,151
Thereafter	63,393

L. MEDICARE PART D - ON BEHALF PAYMENTS

The Medicare Prescription Drug, Improvement and Modernization Act of 2003, which was effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. Payments made on behalf to Natalia Independent School District for fiscal years 2014, 2015, and 2016 were \$16,395, \$27,848, and \$25,861, respectively.

M. SCHOOL DISTRICT RETIREE HEALTH PLAN

Plan Description. - The Natalia Independent School District contributes to the Texas Public School Retired Employees Group Insurance Program (TRS-Care), a cost-sharing multiple-employer defined benefit postemployment health care plan administered by the Teacher Retirement System of Texas. TRS-Care provides health care coverage for certain persons (and their dependents) who retired under the Teacher Retirement System of Texas. The statutory authority for the program is Texas Insurance Code, Chapter 1575. Section 1575.052 grants the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants. The Teacher Retirement System of Texas issues a publicly available financial report that includes financial statements and required supplementary information for TRS-Care. That report may be obtained by visiting the TRS Website at www.trs.state.tx.us under the TRS Publications heading, by calling the TRS Communications Department at 1-800-223-8778, or by writing to the Communications Department of the Teacher Retirement System of Texas at 1000 Red River Street, Austin, Texas 78701.

Funding Policy. - Contribution requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. Texas Insurance Code, Sections 1575.202, 203, and 204 establish state, active employee and public school contributions, respectively. Funding for free basic coverage is provided by the program based upon public school district payroll. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than 0.25% or greater than 0.75% of the salary of each active employee of the public school. Funding for optional coverage is provided by those participants selecting the optional coverage. Contribution rates and amounts are shown in the table below for fiscal years 2016-2015. Historical information will be provided in future years.

Contribution Rates						
<u>Year</u>	<u>Active Member</u>		<u>State</u>		<u>School District</u>	
	<u>Rate</u>	<u>Amount</u>	<u>Rate</u>	<u>Amount</u>	<u>Rate</u>	<u>Amount</u>
2016	.65%	\$ 43,903	1.0%	\$ 67,541	.55%	\$ 37,179
2015	.65%	\$ 44,327	1.0%	\$ 68,196	.55%	\$ 37,508
2014	.65%	\$ 35,105	1.0%	\$ 54,008	.55%	\$ 29,704

N. SIGNIFICANT COMMITMENTS AND CONTINGENCIES

The District participates in numerous state and Federal grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, if any, refunds of any money received may be required and the collectability of any related receivable at August 31, 2016 may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

Natalia Independent School District is occasionally involved in litigation issues in the normal course of business. No provision has been made in these financial statements regarding legal matters.

O. UNEARNED REVENUE

Unearned revenue at year end consisted of the following:

	<u>General Fund</u>	<u>Special Revenue Fund</u>	<u>Debt Service Fund</u>	<u>Total</u>
State Entitlements	\$ 308,210	\$ -	\$ 9,530	\$ 317,740
Federal Grants	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>
Total Unearned Revenue	<u>\$ 308,210</u>	<u>\$ -</u>	<u>\$ 9,530</u>	<u>\$ 317,740</u>

P. RECEIVABLES FROM OTHER GOVERNMENTS

The District participates in a variety of federal and state programs from which it receives grants to partially or fully finance certain activities. In addition, the District receives entitlements from the State through the School Foundation and Per Capita Programs. Amounts due from federal and state governments as of August 31, 2016, are summarized below. All federal grants shown below are passed through the TEA and are reported on the combined financial statements as Due from State Agencies.

<u>Fund</u>	<u>State Entitlements</u>	<u>Federal Grants</u>	<u>Total</u>
General Fund	\$ 352,311	\$ -	\$ 352,311
Special Revenue Fund	<u>9,585</u>	<u>165,750</u>	<u>175,335</u>
Total	<u>\$ 361,896</u>	<u>\$ 165,750</u>	<u>\$ 527,646</u>

Q. REVENUE FROM LOCAL AND INTERMEDIATE SOURCES

During the current year, revenues from local and intermediate sources consisted of the following:

	<u>General Fund</u>	<u>Special Revenue Fund</u>	<u>Debt Service Fund</u>	<u>Capital Projects Fund</u>	<u>Total</u>
Property Taxes	\$2,028,299	\$ -	\$ 247,084	\$ -	\$2,275,383
Penalties, Interest and Other Tax-related Income	60,018	-	8,300	-	68,318
Investment Income	12,952	-	437	3,269	16,658
Food Sales	-	116,497	-	-	116,497
Co-curricular Student Activities	27,327	-	-	-	27,327
Other	<u>8,483</u>	<u>5,425</u>	<u>15</u>	<u>-</u>	<u>13,923</u>
Total	<u>\$2,137,079</u>	<u>\$ 121,922</u>	<u>\$ 255,836</u>	<u>\$ 3,269</u>	<u>\$2,518,106</u>

NATALIA INDEPENDENT SCHOOL DISTRICT
SCHEDULE OF THE DISTRICT'S PROPORTIONATE SHARE OF THE NET PENSION LIABILITY
TEACHER RETIREMENT SYSTEM OF TEXAS
FOR THE YEAR ENDED AUGUST 31, 2016

EXHIBIT G-2

	2016	2015
District's Proportion of the Net Pension Liability (Asset)	0.000070268%	0.000044058%
District's Proportionate Share of Net Pension Liability (Asset)	\$ 2,483,880	\$ 1,176,851
State's Proportionate Share of the Net Pension Liability (Asset) associated with the District	4,079,661	3,439,131
Total	<u>\$ 6,563,541</u>	<u>\$ 4,615,982</u>
District's Covered-Employee Payroll	\$ 6,855,025	\$ 6,383,347
District's Proportionate Share of the Net Pension Liability (Asset) as a Percentage of its Covered-Employee Payroll	36.23%	18.44%
Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	78.43%	83.25%

Note: GASB 68, Paragraph 81 requires that the information on this schedule be data from the period corresponding with the periods covered as of the measurement dates of August 31, 2015 for Year 2016 and August 31, 2014 for 2015.

Note: In accordance with GASB 68, Paragraph 138, only two years of data are presented this reporting period. "The information for all periods for the 10-year schedules that are required to be presented as required supplementary information may not be available initially. In these cases, during the transition period, that information should be presented for as many years as are available. The schedules should not include information that is not measured in accordance with the requirements of this Statement."

NATALIA INDEPENDENT SCHOOL DISTRICT
SCHEDULE OF DISTRICT CONTRIBUTIONS
TEACHER RETIREMENT SYSTEM OF TEXAS
FOR FISCAL YEAR 2016

EXHIBIT G-3

	2016	2015
Contractually Required Contribution	\$ 256,035	\$ 242,400
Contribution in Relation to the Contractually Required Contribution	(256,035)	(242,400)
Contribution Deficiency (Excess)	\$ -0-	\$ -0-
District's Covered-Employee Payroll	\$ 6,754,138	\$ 6,855,025
Contributions as a Percentage of Covered-Employee Payroll	3.79%	3.54%

Note: GASB 68, Paragraph 81 requires that the data in this schedule be presented as of the District's respective fiscal years as opposed to the time periods covered by the measurement dates ending August 31, 2014 for Fiscal Year 2015 and August 31, 2015 for Fiscal Year 2016.

Note: In accordance with GASB 68, Paragraph 138, only two years of data are presented this reporting period. "The information for all periods for the 10-year schedules that are required to be presented as required supplementary information may not be available initially. In these cases, during the transition period, that information should be presented for as many years as are available. The schedules should not include information that is not measured in accordance with the requirements of this Statement."

NATALIA INDEPENDENT SCHOOL DISTRICT
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED AUGUST 31, 2016

Changes of benefit terms.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

Changes of assumptions.

The following are changes to the actuarial assumptions or other inputs that affected the measurement of the total pension liability since the prior measurement period.

Economic Assumptions

1. The inflation assumption was decreased from 3.00% to 2.50%.
2. The ultimate merit assumption for long-service employees was decreased from 1.25% to 1.00%.
3. In accordance with the observed experience, there were small adjustments in the service-based promotional/longevity component of the salary scale.
4. The payroll growth assumption was lowered from 3.50% to 2.50%.

Mortality Assumptions

5. The post-retirement mortality tables for non-disabled retirees were updated to reflect recent TRS member experience. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.
6. The post-retirement mortality tables for disabled retirees were updated to reflect recent TRS member experience. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.
7. The pre-retirement mortality tables for active employees were updated to use 90% of the recently published RP-2014 mortality table for active employees. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.

Other Demographic Assumptions

8. Previously, it was assumed 10% of all members who had contributed in the past 5 years to be an active member. This was an implicit rehire assumption because teachers have historically had a high incidence of terminating employment for a time and then returning to the workforce at a later date. This methodology was modified to add a more explicit valuation of the rehire incidence in the termination liabilities, and therefore these 10% are no longer being counted as active members.
9. There were adjustments to the termination patterns for members consistent with experience and future expectations. The termination patterns were adjusted to reflect the rehire assumption. The timing of the termination decrement was also changed from the middle of the year to the beginning to match the actual pattern in the data.

10. Small adjustments were made to the retirement patterns for members consistent with experience and future expectations.
11. Small adjustments to the disability patterns were made for members consistent with experience and future expectations. Two separate patterns were created based on whether the member has 10 years of service or more.
12. For members that become disabled in the future, it is assumed 20% of them will choose a 100% joint and survivor annuity option.

Actuarial Methods and Policies

13. The method of using celled data in the valuation process was changed to now using individual data records to allow for better reporting of some items, such as actuarial gains and losses by source.

**Independent Auditor's Report on Internal Control Over Financial Reporting and on
Compliance and Other Matters Based on an Audit of Financial Statements Performed in
Accordance With *Government Auditing Standards***

To the Board of Trustees of
Natalia Independent School District
Natalia, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Natalia Independent School District, as of and for the year ended August 31, 2016, and the related notes to the financial statements, which collectively comprise the Natalia Independent School District's basic financial statements, and have issued our report thereon dated December 9, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Natalia Independent School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Natalia Independent School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Natalia Independent School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Natalia Independent School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance for Each Major Federal Program; Report on Internal Control Over Compliance; and Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

To the Board of Trustees of
Natalia Independent School District
Natalia, Texas

Report on Compliance for Each Major Federal Program

We have audited the Natalia Independent School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Natalia Independent School District's major federal programs for the year ended August 31, 2016. The Natalia Independent School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Natalia Independent School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Natalia Independent School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Natalia Independent School District's compliance.

Opinion on Each Major Federal Program

In our opinion, the Natalia Independent School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2016.

Report on Internal Control Over Compliance

Management of the Natalia Independent School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Natalia Independent School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Natalia Independent School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

See Accompanying Notes to the Schedule of Expenditures of Federal Awards

NATALIA INDEPENDENT SCHOOL DISTRICT
NOTES ON ACCOUNTING POLICIES FOR FEDERAL AWARDS
YEAR ENDED AUGUST 31, 2016

- For all Federal programs, the District uses the fund types specified in Texas Education Agency's ***Financial Accountability System Resource Guide***. Special revenue funds are used to account for resources restricted to, or designated for, specific purposes by a grantor. Federal and state financial assistance generally is accounted for in a Special Revenue Fund.
- The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Governmental Fund types are accounted for using a current financial resources measurement focus. All Federal grant funds were accounted for in a Special Revenue Fund which is a Governmental Fund type.

With this measurement focus, only current assets and current liabilities and the fund balance are included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets. The modified accrual basis of accounting is used for the Governmental Fund types. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on General Long-Term Debt, which is recognized when due, and certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and, accordingly, when such funds are received, they are recorded as deferred revenues until earned.

- The period of availability for federal grant funds for the purpose of liquidation of outstanding obligations made on or before the ending date of the federal project period extended 30 days beyond the federal project period ending date, in accordance with provisions of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.
- CFDA number 10.550 pertains to food commodities distributed by USDA under the following categorical programs (as applicable): the National School Lunch Program (CFDA 10.555), the Child and Adult Care Food Program (CFDA 10.558), the Summer Food Service Program (CFDA 10.559), the Commodity Supplemental Food Program (CFDA 10.565), and the Food Distribution Program on Indian Reservations (CFDA 10.567). USDA deleted this number from the CFDA on May 6, 2008. The audit covering Natalia Independent School District fiscal year beginning September 1 2015, and future audits, will therefore identify commodity assistance by the CFDA numbers of the programs under which USDA donated the commodities.

SCHOOLS FIRST QUESTIONNAIRE

Natalia Independent School District

Fiscal Year 2016

SF2	Were there any disclosures in the Annual Financial Report and/or other sources of information concerning nonpayment of any terms of any debt agreement at fiscal year end?	No
SF4	Was there an unmodified opinion in the Annual Financial Report on the financial statements as a whole?	Yes
SF5	Did the Annual Financial Report disclose any instances of material weaknesses in internal controls over financial reporting and compliance for local, state, or federal funds?	No
SF6	Was there any disclosure in the Annual Financial Report of material noncompliance for grants, contracts, and laws related to local, state, or federal funds?	No
SF7	Did the school district make timely payments to the Teachers Retirement System (TRS), Texas Workforce Commission (TWC), Internal Revenue Service (IRS), and other government agencies?	Yes
SF8	Did the school district not receive an adjusted repayment schedule for more than one fiscal year for an over allocation of Foundation School Program (FSP) funds as a result of a financial hardship?	No

Executive Summary

The ratings in this report are based on the development of the A–F system as of December 2016. Development of the new accountability system will continue—with additional input from stakeholders—until spring 2018, when the final rules are expected to be adopted. See additional caveats beginning on page 12.

House Bill 2804

[House Bill \(HB\) 2804](#) (84th Texas Legislature, 2015) requires changes to the state public school academic accountability system, effective with the 2017–18 school year. The changes include creating five domains of indicators to measure district and campus progress toward meeting three main goals:

- Preparing students for postsecondary success
- Reducing achievement gaps among students from different racial and ethnic groups and socioeconomic backgrounds
- Informing parents and the community about district and campus performance

Beginning in August 2018, districts and campuses will receive a rating of *A*, *B*, *C*, *D*, or *F* for overall performance, as well as for performance in each of these five domains:

- Domain I: Student Achievement
- Domain II: Student Progress
- Domain III: Closing Performance Gaps
- Domain IV: Postsecondary Readiness
- Domain V: Community and Student Engagement

Requirements for the Provisional A–F Ratings Report

The bill requires the agency to release a report to the Texas Legislature by January 1, 2017, showing the ratings that each district and campus would have received for Domains I–IV for the 2015–16 school year if the A–F rating system had been in place. This report fulfills that requirement.

The bill also requires the commissioner of education to adopt the set of indicators that will be used in the A–F system by December 1, 2016. On that date, TEA sent correspondence to each Texas public school district with the indicators that will be used to evaluate district and campus performance. This correspondence is available on the [TEA website](#). The indicator document released on December 1, is included as Appendix A in this report.

Process for Determining Domain Indicators and Construction

The commissioner considered recommendations from two accountability advisory committees that reviewed both the construction of and the indicators used in the new accountability system. The Accountability Technical Advisory Committee (ATAC), comprised of representatives from districts and regional education service centers (ESCs), made recommendations for major policy decisions and technical issues. The Accountability Policy Advisory Committee (APAC), comprised of representatives from legislative offices, school districts, parent groups, and the business community, identified issues critical to the accountability system and reviewed ATAC recommendations.

In addition to collaborating with ATAC and APAC, the commissioner met with ESC directors and district superintendents to identify performance goals and indicators that will be used to determine ratings. Between January and December 2016, the commissioner visited each of the twenty ESCs at least once to gather information and recommendations on the design of the new accountability system. The ratings provided in this report reflect the commissioner's decisions on the rating criteria and methodology.

A-F Overview

The 84th Legislature passed **HB 2804**, changing the Texas school accountability system so that every campus and district receives one of five ratings from A-F. Much like students receive grades in individual subjects and those are combined for a GPA, the law requires schools and districts to be issued grades based on five different areas of performance or “domains,” and those five grades must be combined into a single overall rating.

The ratings will be issued for the first time in August 2018. But the law requires a preliminary work-in-progress report noting potential grades by domain to be issued to the legislature by January 1, 2017. Given the limitations of data available, this report will feature possible grades for four of the five domains, and will not include an overall rating for any campus or district. That being said, the agency has a preliminary approach for how the overall grade may eventually be calculated from the five domains. Given the agency’s current work-in-progress, the domains would be combined as reflected in the chart below:

In this way, the A-F rating for any campus would be based on the best of student achievement or growth, combined with how well a school performs relative to its level of poverty, how well kids are prepared for college, career, or the military, and how the local school system grades itself. **The system reflects a commitment to recognizing high achievement, but also recognizing the impact of highly effective educators.**

It is important to note that the current work-in-progress A-F system attempts to support a focus on continuous improvement of student outcomes by following two guiding principles:

Current Work-In-Progress Model: Overall Grade Calculation

The system should not be built on a forced distribution so that some set percentage of campuses must get an A or an F. It should be based on criteria meaningful to ensure our students are prepared for success, and it should be mathematically possible that all campuses achieve an A rating.

Rather than facing a constantly changing goal post that makes it harder and harder to demonstrate improvement each year, the ratings should be based on stable criteria, so you can make apples-to-apples performance comparisons from year to year.

Detailed descriptions of the calculation methods used for each domain are available separately. But the following overview is intended to provide some background.

Domain I: Student Achievement

To determine an appropriate goal for would constitute an “A”, the agency tried to identify an appropriate benchmark based on what would best position our students for success. The state’s **60X30TX** plan provides that benchmark and is aligned both to work being done in colleges throughout Texas and to the needs of the workforce. The goal of the plan is straightforward: by the year 2030, 60% of Texans aged 25-34 should possess some form of post-secondary credential. To align with this plan, the bar for high student achievement – performance at an “A” rating in Domain I – **is set at 60%** of students being on pace for likely success in a post-secondary setting, be it a trade school, community college, or four-year university. The STAAR® provides a valid method of identifying this.

The STAAR test was built and validated by actual student performance so that achieving a Final Level II proficiency rate is indicative of a student who, if that proficiency level is maintained through high school, has a better than 60% chance of passing freshman college level math & English courses. The Advanced Level III proficiency rate is indicative of a student who has a better than 75% chance of passing those courses. (This latter standard is used by SAT & ACT). The Phase-in Level II rate is about 1 standard deviation below Final Level II, and as such works to indicate a student who has not quite reached grade level proficiency.

In an attempt to add clarity, the agency is proposing to change these terms. You can see the changes to the right:

As part of the guiding principles for A-F, the agency is also proposing to lock in the formerly Phase-in Level II rate at its current rate of rigor. So rather than constantly raising the bar, the newly named Approaching standard will remain a constant proficiency level, allowing for easier year over year comparisons.

Domain I: Proposal To Measure Proficiency

Current PLD		Current Public Label		New PLD/Public Label
Level 1	➡	Unsatisfactory	➡	Does Not Meet
Phase-In Level 2	➡	Satisfactory	➡	Approaches
Final Level 2	➡	Postsecondary Ready*	➡	Meets
Level 3	➡	Advanced	➡	Masters

* This label has not been featured on Confidential Student Reports for parents.

Domain II: Student Progress

The current proposal for Domain II examines each child’s scale score on STAAR this year versus last year. Students who gain enough scale score points to maintain the same level of proficiency as the year before are designated as having met expected growth. Students who gain enough scale score points to gain a proficiency level (ex: from Meets grade level to Masters grade level) are designated as having accelerated growth. In the current approach, points are tallied for each student who reaches expected growth (one point) or accelerated growth (two points), and points are added up for all students and for various sub-populations. The agency has begun examining several alternative approaches to ensure we have the most effective method for recognizing student growth, but at present, no changes have been proposed.

Domain II: How Growth Is Currently Calculated

Domain III: Closing the Gaps

There are many ways to determine how effectively campuses are closing achievement gaps. The proposed approach examines how well campuses throughout Texas are doing today in terms of student achievement for their economically disadvantaged students given how many economically disadvantaged students they have. This chart to the right illustrates the approach. Schools that perform well above the average line appear to be closing achievement gaps, and would be given an A rating. A benchmark cut point would be set based on the 2016-2017 school year, and those cut points would remain fixed over time, to ensure all campuses have an opportunity to improve to an A over time.

Domain IV: Postsecondary Readiness

Domain IV, which is 35% of a campus's overall grade, relies on indicators other than STAAR.

At the elementary and middle school level this will involve the use of chronic absenteeism. Middle school will also incorporate the middle school drop-out rate. The agency engaged in extensive stakeholder conversations to determine whether additional indicators could be used in elementary and middle school, but no suitable additional indicators could be found.

At high school, Domain IV will be based partially on the graduation rate and partially on the percentage of students graduating with a higher level graduation plan. But it will also examine the percentage of students who graduate ready for college, career, or the military, as evidenced by SAT/ACT/AP/IB/dual credit, an industry credential or appropriate CTE course sequence, or military enlistment. Ratings in this domain will be built so that schools will receive the same level of recognition for students who enter the military as they do for students who achieve industry-recognized credentials and as they do for students who achieve high SAT/ACT scores.

Domain IV: Calculating Domain IV Score

This page is intentionally blank

A–F Accountability System

Domain I: Student Achievement

Domain I measures STAAR assessment results combined across all grades and subjects. One point is awarded for each percentage of assessment results that are at or above the following:

- Level II Satisfactory Standard
- Postsecondary Readiness Standard
- Level III Advanced Standard

Domain II: Student Progress

Domain II measures progress at the STAAR satisfactory and postsecondary readiness standards on ELA/reading and mathematics assessments. One point is awarded for each percentage of assessment results that meet or exceed progress measure expectations and one point for each percentage of assessment results that exceed progress measure expectations. Performance is calculated for ten student groups:

• All students	• Pacific Islander
• African American	• White
• American Indian	• Two or more races
• Asian	• Students served by special education
• Hispanic	• English language learners

The performance of all ten groups is combined to determine the Domain II score.

Domain III: Closing Performance Gaps

Domain III measures academic performance differentials among students from different socioeconomic backgrounds. The Domain III score is based on the relationship of a district or campus's Domain I score and the percentage of its students who are economically disadvantaged. Using statewide data from the 2015–16 school year, TEA determines a predicted Domain I score (using assessment results of only the economically disadvantaged subgroup), based on district or campus type and the percentage of students who are economically disadvantaged. For the purposes of calculating the Domain III score, this specialized Domain I score is referred to as the Domain I_{DIII} score. The difference between a district or campus's Domain I_{DIII} score and the predicted Domain I_{DIII} score is the district or campus's Domain III score. TEA provides a formula for districts and campuses to use to calculate their predicted Domain I_{DIII} score.

Domain IV: Postsecondary Readiness

Domain IV measures whether students are on track for success in postsecondary life: in college, a career, or the military. The indicators used to measure postsecondary readiness vary by campus type.

Elementary

Domain IV scores for elementary schools are based on the chronic absenteeism rate calculated by student group.

Middle Schools

Domain IV scores for middle schools are based on the chronic absenteeism rate and the annual grade 7 and 8 dropout rate, if available. If a dropout rate is not available, the Domain IV score will be based solely on the chronic absenteeism rate.

High Schools, K–12 Campuses, and Districts

Domain IV scores for high schools, K–12 campuses, and districts are based on graduation/dropout rates, graduation plan rates, and college and career readiness indicators.

- The graduation rate component is based on the best result of the four- or five-year longitudinal graduation rate. If a longitudinal graduation rate is unavailable, the annual 9–12 dropout rate is used.
- The graduation plan score is based on a longitudinal cohort of students. Two percentages are calculated:
 - The percentage of students graduating under the Recommended High School Program or the Distinguished Achievement Program (RHSP/DAP)
 - The percentage of students graduating under either the RHSP/DAP or the Foundation High School Program with an endorsement (FHSP-E) or the distinguished level of achievement (FHSP-DLA).

The percentage that contributes the most points to the Domain IV score will be used. If no longitudinal rate is available, the annual graduation rate will be used.

- The college and career readiness indicator score is calculated as the percentage of annual graduates who accomplish at least one of the following:
 - Meet or exceed the Texas Success Initiative (TSI) criteria in both English language arts (ELA) and mathematics on the TSI assessment, SAT, or ACT
 - Complete one or more AP or IB courses
 - Earn 12 or more hours of postsecondary credit
 - Complete a coherent sequence of CTE courses (including courses in a tech prep program)

Additional Indicators Considered

HB 2804 grants the commissioner the authority to use indicators in Domain IV in addition to those established in statute, specifically “any additional indicators of student achievement not associated with performance on standardized assessment instruments determined appropriate for consideration by the commissioner in consultation with educators, parents, business and industry representatives, and employers.”

Two accountability advisory groups began considering additional indicators for Domain IV in fall 2015. The table below lists the indicators that were considered for use for elementary and middle school campuses. For each indicator, committee members reviewed options for the definition and data-collection requirements including the advantages/disadvantages of each option. Most of these did not receive further consideration due to concerns with their reliability as indicators of postsecondary readiness, validity as a measure of student achievement, or inherent data collection constraints.

Campus Type	Proposed Indicators	
Elementary Schools Only	Early Childhood Participation	
Middle Schools Only	High School Course Credit Prior to Grade 9	
Elementary and Middle Schools	• A/B Honor Roll • Academic Enrichment (participation in clubs, fine arts, UIL, G/T, science fair, etc.) • Disciplinary Data • Extra- or Co-Curricular Activity • Fifth- and Eighth-Grade Inventory • Fitness achievement data • Participation in Accelerated Instruction • Participation in Language Instruction	• Professional Development Opportunities for Teachers • Retention Rates for Students • School Climate Survey • STAAR Participation Rates • Student Engagement Survey • Student Success Initiative • Teacher Turnover Rate

In spring 2016, Commissioner Morath requested that additional consideration be made of two indicators: student discipline rates and extra- or co-curricular participation. He asked ESC directors to coordinate a review of these indicators with superintendents and principals in their respective regions.

The review of the student discipline rates as a Domain IV indicator concluded that using discipline as an accountability measure could have unintended consequences. If discipline rates were evaluated in Domain IV, school personnel may be reluctant to address disruptive or dangerous actions, which could ultimately affect student/staff safety and learning opportunities for students. It was also noted that districts have some flexibility in determining the nature of the offence which may lead to districts and campuses not consistently reporting incidents.

At the request of Commissioner Morath, the agency convened a work group of Texas educators to develop a proposal for an extra- and co-curricular indicator for review and approval by the Information Task Force (ITF) as a potential data indicator in the Texas Student Data System. The work group prepared a working definition of extra- and co-curricular activity as participation in a school-sponsored activity that was facilitated by an LEA employee. The indicator would be collected as a *Yes/No* value for each student enrolled and in membership. Districts would indicate whether the student participated in at least one extra- or co-curricular activity anytime from the first day of school through the collection due date. However, the specific extra- or co-curricular activity would not be collected. The work group envisioned the indicator would be evaluated in Domain IV in terms of growth or improvement in extra- and co-curricular participation over time.

In September 2016, the ITF met to review the work group proposal and raised a number of questions and concerns. They noted the difficulty in identifying extra- and co-curricular activities for elementary school students and discussed whether non-school sponsored activities that students participate in could be reliably collected. They also worried that districts would have different standards for extra- and co-curricular activities (e.g., an after-school dance sponsored by the Student Council could be counted as an extra- or co-curricular activity in one district but not in another). They also were concerned that the unknown use of the indicator in the Domain IV measure could lead to unanticipated consequences of the data collection. Based on these concerns, the agency determined that an extra- and co-curricular indicator would not be added to the TSDS data collection for the 2017–18 school year.

2017–18 Accountability Development Timeline

*When new data standards are published, districts and vendors update their data collection systems in time for the first required collection.

2017–18 Accountability Development Timeline

*When new data standards are published, districts and vendors update their data collection systems in time for the first required collection.

Caveats

The ratings in this report are for informational purposes to meet a legislative requirement. No inferences about district or campus performance in the 2015–16 school year should be drawn from these ratings, and these ratings should not be considered predictors of future district or campus performance ratings. Campus and district ratings for 2017–18 will use different data and different indicators than were used for this report. Please keep the following caveats in mind.

- 1) This is a model only and is based on the 2016 Consolidated Accountability File (CAF) data received on July 29, 2016, and used for 2016 accountability ratings.
 - The provisional ratings in this report are not accompanied by the full system of explanatory materials, data tables, and data downloads that will accompany the A–F ratings assigned in 2017–18. To the extent possible, additional calculation tables and reports will be provided to districts in early 2017 to assist with understanding the computation of the ratings shown in this report.
 - Additional tools will be made available online when the final A–F system is designed to help educators and the public understand how the A–F ratings are determined in 2017–18.
 - The Domain I–IV targets used to determine the A–F ratings in this report are based on rating cut points determined by the commissioner for the purpose of demonstrating one possible, but not necessarily the final, approach. The final targets will be determined for each domain based on additional stakeholder input to determine the level of performance required to achieve each grade so that every school has the opportunity to achieve the higher grades.
 - The final targets used for the A–F ratings assigned in 2017–18 are expected to be adopted in the Texas Administrative Code in spring 2018. The rule-making process will include a 30-day public comment period.
 - This report does not include data for all the indicators planned for 2017–18. See the A–F List of Indicators planned for 2017–18 on page A-1.
 - The legislative requirement for this report limited the assignment of A–F labels to Domains I–IV only. An overall rating cannot be computed without the locally determined ratings that will be assigned by districts and campuses for Domain V.
 - The final methodology to determine the overall rating label, including the process to convert the domain outcomes to a scale that can be weighted across the five domains, will be developed with further stakeholder input and is expected to be adopted in the Texas Administrative Code in spring 2018.
 - Changes to student demographics, campus allocations, and rescored essays processed after July 29, 2016, are not included.
 - Campuses and districts that were not rated in 2016 are not rated in this A–F model for any domain.
 - Campuses and districts with fewer than 40 assessments in Domain I are not rated on any domain.
- 2) Domain I
 - The data include more ELL and STAAR Alternate 2 assessment outcomes than does Index 1 in the current system.
 - These ratings include outcomes for assessments at advanced level standards that are not explicitly required by statute.

3) Domain II

- The data used is the same data used for Index 2 in 2016.
- The growth measure used for this report may not be the same in the 2017–18 school year.
- The Domain II methodology will be reviewed with accountability advisory groups and other stakeholders for possible modifications prior to use in the 2017–18 rating system.

4) Domain III

- These ratings include only students who are economically disadvantaged; it does not specifically include any racial or ethnic group.
- Additional technical refinements to the Domain III methodology will continue prior to use in the 2017–18 rating system.
- The Domain III targets are based on the 2015–16 performance data. Targets for 2017–18 will be held constant based on the formulas derived from the 2016–17 assessment data.

5) Domain IV

- This report does not include data for all the indicators planned for 2017–18. See the A–F List of Indicators planned for 2017–18 on page A-1.
- Districts and campuses that do not have data for any one of the Domain IV components will not be rated in Domain IV.
- While the data for chronic absenteeism used to rate elementary and middle school is from the 2015–16 school year (making it a current indicator), for the 2017–18 ratings and beyond, chronic absenteeism will be a lagging indicator. For example, the chronic absenteeism rates used for the 2017–18 ratings will use attendance data from the 2016–17 school year.
- Domain IV for districts and high schools is comprised of three components: graduation rate, college- and career-ready graduates, and graduation plan. In the 2017–18 ratings, the graduation rate will 10% of the overall grade, and the remaining two components will make up the remaining 25% of what Domain IV contributes to the overall grade. Even though overall grades are not part of the 2015–16 ratings, each component of Domain IV was weighted according to this statutory requirement. The following table illustrates this:

Component	Weight in Overall Grade	Weight in Domain IV Grade *
Graduation Rate	10%	28.6%
College- and Career-Ready Graduates	20%	57.1%
Graduation Plan	5%	14.3%

*These are the weights in the Domain IV score needed to have each component contribute the correct weight to the overall score.

6) Other caveats

- The statutory constraint that a district cannot earn a rating of *A* in a domain if one of its campuses earns a *D* or *F* in that domain has not been applied to the ratings included in this report. It will be applied to the 2017–18 ratings.
- The system used for this report does not attempt to meet the accountability requirements of the Every Student Succeeds Act (ESSA) requirements as specified in the final regulations released on November 30, 2016.
- This report does not include additional indicators that the commissioner may consider for augmenting *A* or *B* ratings at the campus level. For example, elementary schools that earn an overall rating of *B* could earn a *B+* based on outstanding student performance on the grade 3 reading assessment. Similarly, middle schools that earn an overall rating of *A* could earn an *A+* for having a higher percentage of their students complete a high school course than do other middle schools. High schools and K–12 campuses that earn an overall rating of *B* could earn a *B+* if the percentage of their graduates who successfully complete their first year of college or university the year after high school graduation is higher than that of other high schools.
- STAAR performance levels used for this report may not be the same in the 2017–18 school year.
- Assessment data may incorporate a modified ELL inclusion policy to align with ESSA.
- The data used in the calculation of this report did not change after the 2016 appeals process, nor does it include results of any assessments rescored after the calculation of 2016 accountability ratings.
- Campus type designations used to assign these A–F ratings as the same as those used for 2016 accountability.
- Paired campuses are not rated on any domain. Paired campuses will share overall grades only.

Appendix A:

Indicators for A–F Accountability System

This page is intentionally blank

A–F List of Indicators

Domain	Indicator	2015–16 (used for January 1, 2017, report)	2017–18
I, II, and III	- STAAR - STAAR A - STAAR L - STAAR Alternate 2 - STAAR substitute assessments (EOC only)	- Grade 3 reading and mathematics - Grade 4 reading, mathematics, and writing - Grade 5 reading, mathematics, and science - Grade 6 reading and mathematics - Grade 7 reading, mathematics, and writing - Grade 8 reading, mathematics, science, and social studies - EOC English I and English II - EOC Algebra I - EOC Biology - EOC U.S. History	- Grade 3 reading and mathematics - Grade 4 reading, mathematics, and writing - Grade 5 reading, mathematics, and science - Grade 6 reading and mathematics - Grade 7 reading, mathematics, and writing - Grade 8 reading, mathematics, science, and social studies - EOC English I and English II - EOC Algebra I - EOC Biology - EOC U.S. History
IV	Graduation Rate (high schools and K–12)	- Class of 2015 four-year longitudinal graduation rate - Class of 2014 five-year longitudinal graduation rate	- Class of 2017 four-year longitudinal graduation rate - Class of 2016 five-year longitudinal graduation rate
IV	Dropout Rate (high schools and K–12)	Annual 9–12 dropout rate (if longitudinal graduation rates are not available)	Annual 9–12 dropout rate (if longitudinal graduation rates are not available)
IV	College- and Career-Readiness (high schools and K–12)	2014–15 annual graduates who do at least one of the following: - Complete CTE-Coherent Sequence of courses - Complete one or more AP/IB courses - Complete 12 hours or more of earned postsecondary credit - Achieve TSI benchmark on the TSIA, SAT, or ACT	2016–17 annual graduates who do at least one of the following: - Complete CTE-Coherent Sequence of courses/earn industry (nationally recognized) certification - Perform at or above criterion score on one or more AP/IB examinations - Complete 12 hours or more of earned postsecondary credit - Achieve TSI benchmark on the TSIA, SAT, or ACT - Enlist in the U.S. armed forces

A–F List of Indicators

Domain	Indicator	2015–16 (used for January 1, 2017, report)	2017–18
IV	Graduation Plan Rate (high schools and K–12)	Class of 2015 longitudinal graduates who graduate under one of the following plans: • Recommended High School Plan (RHSP) • Distinguished Achievement Plan (DAP) • Foundation High School Plan with Endorsement (FHSP-E) • Foundation High School Plan with Distinguished Level of Achievement (FHSP-DLA)	Class of 2017 longitudinal graduates who graduate under one of the following plans: • Foundation High School Plan with Endorsement (FHSP-E) • Foundation High School Plan with Distinguished Level of Achievement (FHSP-DLA)
IV	Attendance (elementary and middle schools)	Chronic absenteeism rate	Chronic absenteeism rate
IV	Dropout Rate (middle schools)	Annual 7–8 dropout rate	Annual 7–8 dropout rate
IV	Preparation Course (middle schools)	Not Available	Percentage of students—in either seventh or eighth grade—who receive instruction in preparing for high school, college, and career, as mandated by HB 18 (84th Texas Legislature, 2015)
V	Community and Student Engagement (CaSE)	Not Applicable	Three as chosen, locally determined, and reported for each district and campus. All three CaSE indicators as well as the overall Domain V indicator will be rated A, B, C, D, or F

Appendix B:

Domain I–IV Targets for 2015–16 A–F Ratings

This page is intentionally blank

Domain I–IV Targets for 2015–16 A–F Ratings*

	Grade	Domain I	Domain II	Domain III**	Domain IV
Elementary School	A	60	53	10.8 or greater	98.0
	B	51	47	2.2 to 10.7	96.0
	C	40	41	–2.2 to 2.1	93.0
	D	34	37	–10.8 to –2.3	90.0
	F	Less than 34	Less than 37	Less than –10.8	Less than 90.0
Middle School	A	60	45	9.6 or greater	99.0
	B	48	41	1.9 to 9.5	97.0
	C	37	36	–1.9 to 1.8	94.0
	D	31	33	–9.6 to –2.0	91.0
	F	Less than 31	Less than 33	Less than –9.6	Less than 91.0
High School/K–12	A	60	40	12.5 or greater	98
	B	51	33	2.5 to 12.4	92
	C	40	25	–2.5 to 2.4	82
	D	33	20	–12.5 to –2.6	74
	F	Less than 33	Less than 20	Less than –12.5	Less than 74
AEA Campus	A	35	35	11.4 or greater	73
	B	29	28	2.3 to 11.3	54
	C	19	18	–2.3 to 2.2	40
	D	13	11	–11.4 to –2.4	33
	F	Less than 13	Less than 11	Less than –11.4	Less than 33
District (Non-AEA)	A	60	42	7.0 or greater	96
	B	47	39	1.4 to 6.9	91
	C	39	36	–1.4 to 1.3	81
	D	35	33	–7.0 to –1.5	73
	F	Less than 35	Less than 33	Less than –7.0	Less than 73
AEA District	A	35	36	9.5 or greater	80
	B	29	29	1.9 to 9.4	64
	C	20	19	–1.9 to 1.8	35
	D	15	15	–9.5 to –2.0	33
	F	Less than 15	Less than 15	Less than –9.5	Less than 33

* The Domain I–IV targets used to determine A–F ratings for the January 1, 2017, report are based on the rating cut points determined by the commissioner of education for the purpose of demonstrating one possible, but not necessarily the final, approach. The final targets used for the A–F ratings assigned in 2017–18 are scheduled to be adopted in the Texas Administrative Code in spring 2018.

** Tools to enable districts to calculate A–F values in this domain will be available in early 2017. Domain III targets for 2017–18 will be held constant based on the formulas derived from the 2016–17 assessment data.

*** The Domain IV scores for elementary and middle schools will be calculated to the tenth of a point.

Appendix C:

Variables and Methodologies

This page is intentionally blank

A–F Ratings Report Description of Variables

District/Campus Name: The district or campus name.

District Number: A unique six-digit number assigned to every public school district. It is comprised of a three-digit county number (assigned alphabetically from 001 to 254) followed by a three-digit district number (9XX for traditional districts, 8XX for charter operators).

Campus Number: A unique nine-digit number assigned to every public school. It is comprised of a three-digit county number (assigned alphabetically from 001 to 254), followed by a three-digit district number (9XX is used primarily for traditional campuses, 8XX for charter campuses), and ending with a three-digit campus number (typically 00X for high schools, 04X for middle schools, and 1XX for elementary schools).

School Type: A specific label given to a campus for the purposes of determining its A–F targets. How it is labeled—elementary, middle, elementary/secondary, or high—is determined by the grades served by the campus as reported in the fall PEIMS enrollment snapshot. School types for districts are blank. For more information about school types, see Chapter 2 of the *2016 Accountability Manual*.

% Eco Disadv: The percentage of students eligible for free or reduced-price lunch or eligible for other public assistance.

% ELL: The percentage of students whose primary language is other than English and who are in the process of acquiring English. The terms “English Language Learner,” “English Learner,” and “Limited English Proficient” (LEP) are used interchangeably.

2016 Rating: The labels assigned to districts and campuses by the state academic accountability system that indicate acceptable and unacceptable performance, that a district or campus is not rated, or that a campus was paired with another campus or the district. Possible 2016 ratings for this report (for comparison to A–F ratings) are as follows:

- M = Met Standard or Met Alternative Standard
- IR = Improvement Required
- NR = Not Rated
- P = Paired campus

Domain I Score: The score given for Domain I.

Domain I Letter Grade: The letter grade given based on the Domain I score and associated targets. See *Domain I–IV Targets* document for more details.

Domain II Score: The score given for Domain II.

Domain II Letter Grade: The letter grade given based on the Domain II score and associated targets. See *Domain I–IV Targets* document for more details.

Domain III Score: The score given for Domain III.

Domain III Letter Grade: The letter grade given based on the Domain III score and associated targets. See *Domain I–IV Targets* document for more details.

Domain IV Score: The score given for Domain IV.

Domain IV Letter Grade: The letter grade given based on the Domain IV score and associated targets. See *Domain I–IV Targets* document for more details.

Domain III: Closing Performance Gaps

Construction

- All Tests
- All Subjects
- All Grades
- Economically Disadvantaged Students Only
- Minimum Size: 40
- No Small-Numbers Analysis

Indicators*

- STAAR Satisfactory Standard
- STAAR Postsecondary Readiness Standard
- STAAR Advanced Standard

Calculation

- Calculate the Domain I score using assessment results from only the economically disadvantaged student group.
 - One Point for Each Percentage of Test Results at the Satisfactory Standard or Above
 - One Point for Each Percentage of Test Results at the Postsecondary Readiness Standard or Above
 - One Point for Each Percentage of Test Results at the Advanced Standard
 - Total Points Earned Divided by Total Possible Points (300)
- Calculate the predicted Domain I score (based on district or campus type and the percentage of economically disadvantaged) using the provided formulas for the appropriate district or campus type.
- The difference between the actual Domain I score and the predicted Domain I score is the Domain III score.

*Please see page C-6 for additional information on inclusion of assessment results

Formulas

- Based on slope-intercept form: $y = mx + b$
- Set using statewide data from the 2015–16 school year
- Targets for 2017–18 will be held constant based on the formulas derived from the 2016–17 assessment data
- Two Variables
 - y is the predicted Domain I score.
 - x is the percentage of students who are economically disadvantaged.
- Formulas by District and Campus Type

Elementary Campus	$y = -.10992x + 47.31887$
Middle School Campus	$y = -.18288x + 47.49244$
High School/K–12 Campus	$y = -.1281x + 46.78849$
AEA Campus	$y = -.09541x + 29.52348$
Non-AEA District	$y = -.15666x + 45.89303$
AEA District	$y = -.14709x + 34.41915$

Grade

- Calculating the Domain III score requires two data points:
 - The percentage of students who are economically disadvantaged in a campus or district
 - The specific type of campus or district
- Calculate the predicted Domain I score using percentage of economically disadvantaged and the appropriate formula.
- Calculate the actual Domain I score based on the results of students in the economically disadvantaged subgroup.
- Subtract the predicted Domain I score from the actual Domain I score to get the Domain III score.

Three Sample Calculations

1) Sample Elementary Campus

- Formula for an elementary school is $y = -.10992x + 47.31887$.
- Its percentage of economically disadvantaged students is 4.8.
- Plugging this number into the formula and rounding to the first decimal point gives $y = -.10992(4.8) + 47.31887 \rightarrow y = 46.8$.
- This campus's actual Domain I score for economically disadvantaged students is 39; subtracting the predicted from actual $39 - 46.8 = -7.8$.
- Using the chart of domain targets, we see that this campus has earned a Domain III letter grade of D.

2) Sample AEA Campus

3) Sample Non-AEA District

Domain IV: Postsecondary Readiness

Construction

- Ten Student Groups*
 - All Students
 - Seven Racial/Ethnic Groups
 - Students Receiving Special Education Services
 - ELLs (Current and Monitored)

Indicators

Elementary Schools

- Chronic Absenteeism Rate**

Middle Schools

- Chronic Absenteeism Rate**
- Annual 7–8 Dropout Rate

High Schools (similar to that used for the current Index 4)

- Class of 2015 4-year Longitudinal Graduation Rate
- Class of 2014 5-year Longitudinal Graduation Rate
- Class of 2013 6-year Longitudinal Graduation Rate (for AEAs)
- Annual 9–12 Dropout Rate (if longitudinal graduation rate is not available)
- Graduates Who Completed a Coherent Sequence of CTE Courses
- Graduates Who Completed 12 or More Hours of Postsecondary Credit
- Graduates Who Completed One or More AP/IB Courses
- Graduates Who Met the TSI Benchmark on TSIA, SAT, or ACT
- Graduates Who Graduated Under RHSP, DAP, FHSP-E, or FHSP-DLA Graduation Plans (AEA uses All Students group only.)

Methodology

Chronic Absenteeism

- Using days in membership divided by days taught, determine which students are at or above 83% (non-mobile).
- Of those non-mobile students, determine the percentage who were absent at least 10% of the days they were eligible to attend.
- Subtract this percentage from 100 to determine the score for this indicator.
- Though it's called *chronic absenteeism*, the score is the percentage of students who are not chronically absent.

Calculation

Elementary Schools

Chronic Absenteeism Rate

Middle Schools

- Chronic Absenteeism Rate
- Annual 7–8 Dropout Rate

High Schools/Districts (similar to calculation of current Index 4)

- Graduation Rate
- 2014–15 Annual Graduates Who Accomplished at Least One of the Following
 - Completed a CTE-Coherent Sequence of Courses
 - Completed 12 or More Hours of Postsecondary Credit
 - Completed One or More AP/IB Courses
 - Met the TSI Benchmark on TSIA, SAT, or ACT
- Graduation Plan Rate

* Minimum size is 10 for All Students group, 25 for each subgroup.

** Absenteeism is based on final attendance in PEIMS for the 2015–16 school year.

Example 1—Domain IV Calculation for Elementary School													
Component	All Students	African American	Hispanic	White	American Indian‡	Asian	Pacific Islander	Two or More Races	Special Education	ELL	Total Points	Max Points	Domain IV Points
Chronic Absenteeism Rate-Converted	90.9%	86.4%	90.8%	90.9%	—	—	—	—	84.9%	94.1%	538	600	89.7
Chronic Absenteeism Score (100% of Domain IV Score)												89.7	
Domain IV Score													89.7

Example 2—Domain IV Calculation for Middle School													
Component	All Students	African American	Hispanic	White	American Indian	Asian	Pacific Islander	Two or More Races	Special Education	ELL	Total Points	Max Points	Domain IV Points
Chronic Absenteeism Rate-Converted	92.0%	92.9%	91.6%	92.4%	—	—	—	—	87.7%	92.3%	548.9	600	45.8
Chronic Absenteeism Score (50% of Domain IV Score)												91.5	
Annual 7–8 Dropout Rate-Converted	100.0%	100.0%	100.0%	100.0%	—	—	—	—	100.0%	100.0%	600	600	50.0
Annual 7–8 Dropout Rate Score (50% of Domain IV Score)												100.0	
Domain IV Score													95.8

Example 3—Domain IV Calculation for District, High School, or K–12													
Component	All Students	African American	Hispanic	White	American Indian	Asian	Pacific Islander	Two or More Races	Special Education	ELL	Total Points	Max Points	Domain IV Points
Graduation Rate**													
4-year Longitudinal Graduation Rate	96.2%	96.0%	90.7%	97.6%	‡	97.8%	‡	97.9%	85.7%	83.8%	745.7	800	27.1
5-year Longitudinal Graduation Rate	97.3%	94.1%	96.0%	97.6%	*	100.0%	*	95.2%	88.9%	90.3%	759.4	800	
Graduation Rate Score (28.6% of Domain IV Score)												94.9	
College- and Career-Ready Graduates													
Postsecondary Ready Graduates	80.9%	64.7%	73.2%	83.2%	*	92.2%	*	82.6%			476.8	600	45.4
Postsecondary Ready Graduates Score (57.1% of Domain IV Score)												79.5	
Graduation Plan***													
Longitudinal RHSP/DAP Graduates	86.6%	77.1%	76.2%	89.5%	*	97.8%	*	83.0%			510.2	600	12.2
Longitudinal RHSP/DAP/FHSP-E/FHSP-DLA Graduates	86.5%	77.1%	76.2%	89.4%	‡	97.8%	‡	83.0%			510.0	600	
Graduation Plan Score (14.3% of Domain IV Score)												85.0	
Domain IV Score													

* Subgroup does not meet minimum size of 25 students.

*** AEA graduation plan component is based only on the All Students group.

** AEA campuses also have a 6-year longitudinal rate.

‡ Dash indicates that subgroup does not have any students.

A-F Accountability Explained

2016-2017

A-F Targets

Domain I–IV Targets for 2015–16 A–F Ratings*

	Grade	Domain I	Domain II	Domain III**	Domain IV
Elementary School	A	60	53	10.8 or greater	98.0
	B	51	47	2.2 to 10.7	96.0
	C	40	41	–2.2 to 2.1	93.0
	D	34	37	–10.8 to –2.3	90.0
	F	Less than 34	Less than 37	Less than –10.8	Less than 90.0
Middle School	A	60	45	9.6 or greater	99.0
	B	48	41	1.9 to 9.5	97.0
	C	37	36	–1.9 to 1.8	94.0
	D	31	33	–9.6 to –2.0	91.0
	F	Less than 31	Less than 33	Less than –9.6	Less than 91.0
High School/K–12	A	60	40	12.5 or greater	98
	B	51	33	2.5 to 12.4	92
	C	40	25	–2.5 to 2.4	82
	D	33	20	–12.5 to –2.6	74
	F	Less than 33	Less than 20	Less than –12.5	Less than 74
AEA Campus	A	35	35	11.4 or greater	73
	B	29	28	2.3 to 11.3	54
	C	19	18	–2.3 to 2.2	40
	D	13	11	–11.4 to –2.4	33
	F	Less than 13	Less than 11	Less than –11.4	Less than 33
District (Non-AEA)	A	60	42	7.0 or greater	96
	B	47	39	1.4 to 6.9	91
	C	39	36	–1.4 to 1.3	81
	D	35	33	–7.0 to –1.5	73
	F	Less than 35	Less than 33	Less than –7.0	Less than 73

Natalia ISD 2015-2016 Preliminary Rating

Domain 1 Calculation

Domain I: Student Performance

December 16, 2016

Construction

- All Tests
- All Subjects
- All Grades
- Minimum Size: 40
- No Small-Numbers Analysis

Indicators* (Equally Weighted)

- STAAR Satisfactory Standard
- STAAR Postsecondary Readiness Standard
- STAAR Advanced Standard

Calculation

- One Point for Each Percentage of Test Results at the Satisfactory Standard or Above
- One Point for Each Percentage of Test Results at the Postsecondary Readiness Standard or Above
- One Point for Each Percentage of Test Results at the Advanced Standard
- Total Points Earned Divided by Total Possible Points (300)

	All Students
Total Tests	3,212
# Satisfactory Standard or Above	2,811
# Postsecondary Readiness Standard or Above	2,182
# Advanced Standard	878
% Satisfactory Standard or Above	87.5%
% Postsecondary Readiness Standard or Above	67.9%
% Advanced Standard	27.3%

$$\frac{87.5 + 67.9 + 27.3}{300} = .609 \xrightarrow{\text{Rounds to}} .61$$

Domain I Score **61**

Domain 2 Calculation

Domain II: Student Progress

December 16, 2016

Construction

- Evaluates Ten Student Groups
 - All Students
 - Seven Racial/Ethnic Groups
 - Students Receiving Special Education Services
 - ELLs (Current and Monitored)
- Combined Across ELA/Reading and Mathematics
- Minimum Size for All Students Group: 10
- Minimum Size for Each Subgroup: 25
- Index 2 Small-Numbers Analysis Rules
(See page 41 of the 2016 Accountability Manual)

Indicators

- STAAR Progress Measure Expectations
- ELL Progress Measure Expectations

Calculation

- One Point for Each Percentage of Test Results Meeting or Exceeding Progress Measure Expectations
- One Point for Each Percentage of Test Results Exceeding Progress Measure Expectations
- Total Points Earned Divided by Maximum Total Possible Points
(200 points per student group meeting minimum-size requirements)

	All Students	African American	Hispanic	White	American Indian	Asian	Pacific Islander	Two or More Races	Special Ed	ELL (current & monitored)
Total Tests	1,005	119	297	394	4	153	0	38	105	81
# Met or Exceeded Progress	510	49	141	191	3	106	0	20	42	37
# Exceeded Progress	53	6	10	17	1	17	0	2	3	7
% Met or Exceeded Progress	51%	41%	47%	48%	75%	69%	—	53%	40%	46%
% Exceeded Progress	5%	5%	3%	4%	25%	11%	—	5%	3%	9%
Domain II Points	56	46	50	52		80		58	43	55

$$\frac{56+46+50+52+80+58+43+55}{200 \times 8} = .275 \xrightarrow{\text{Rounds to}} .28 \xrightarrow{\text{Domain II Score}} \text{28}$$

Domain 3 Calculation

Domain III: Closing Performance Gaps

December 16, 2016

Construction

- All Tests
- All Subjects
- All Grades
- Economically Disadvantaged Students Only
- Minimum Size: 40
- No Small-Numbers Analysis

Indicators*

- STAAR Satisfactory Standard
- STAAR Postsecondary Readiness Standard
- STAAR Advanced Standard

Calculation

- Calculate the Domain I score using assessment results from only the economically disadvantaged student group.
 - One Point for Each Percentage of Test Results at the Satisfactory Standard or Above
 - One Point for Each Percentage of Test Results at the Postsecondary Readiness Standard or Above
 - One Point for Each Percentage of Test Results at the Advanced Standard
 - Total Points Earned Divided by Total Possible Points (300)
- Calculate the predicted Domain I score (based on district or campus type and the percentage of economically disadvantaged) using the provided formulas for the appropriate district or campus type.
- The difference between the actual Domain I score and the predicted Domain I score is the Domain III score.

*Please see page 2 of Domain I methodology for additional information on inclusion of assessment results

Texas Education Agency | Academic Performance Reporting

Formulas

- Based on slope-intercept form: $y = mx + b$
- Set using statewide data from the 2015–16 school year
- Targets for 2017–18 will be held constant based on the formulas derived from the 2016–17 assessment data
- Two Variables
 - y is the predicted Domain I score.
 - x is the percentage of students who are economically disadvantaged.
- Formulas by District and Campus Type

Elementary Campus	$y = -.10992x + 47.31887$
Middle School Campus	$y = -.18288x + 47.49244$
High School/K–12 Campus	$y = -.1281x + 46.78849$
AEA Campus	$y = -.09541x + 29.52348$
Non-AEA District	$y = -.15666x + 45.89303$
AEA District	$y = -.14709x + 34.41915$

Grade

- Calculating the Domain III score requires two data points:
 - The percentage of students who are economically disadvantaged in a campus or district
 - The specific type of campus or district
- Calculate the predicted Domain I score using percentage of economically disadvantaged and the appropriate formula.
- Calculate the actual Domain I score based on the results of students in the economically disadvantaged subgroup.
- Subtract the predicted Domain I score from the actual Domain I score to get the Domain III score.

Domain 4 Calculation

Domain IV: Postsecondary Readiness

December 16, 2016

Construction

- Ten Student Groups*
 - All Students
 - Seven Racial/Ethnic Groups
 - Students Receiving Special Education Services
 - ELLs (Current and Monitored)

Indicators

Elementary Schools

- Chronic Absenteeism Rate**

Middle Schools

- Chronic Absenteeism Rate**
- Annual 7–8 Dropout Rate

High Schools (similar to that used for the current Index 4)

- Class of 2015 4-year Longitudinal Graduation Rate
- Class of 2014 5-year Longitudinal Graduation Rate
- Class of 2013 6-year Longitudinal Graduation Rate (for AEAs)
- Annual 9–12 Dropout Rate (if longitudinal graduation rate is not available)
- Graduates Who Completed a Coherent Sequence of CTE Courses
- Graduates Who Completed 12 or More Hours of Postsecondary Credit
- Graduates Who Completed One or More AP/IB Courses
- Graduates Who Met the TSI Benchmark on TSIA, SAT, or ACT
- Graduates Who Graduated Under RHSP, DAP, FHSP-E, or FHSP-DLA Graduation Plans (AEA uses All Students group only.)

* Minimum size is 10 for All Students group, 25 for each subgroup.

Methodology

Chronic Absenteeism

- Using days in membership divided by days taught, determine which students are at or above 83% (non-mobile).
- Of those non-mobile students, determine the percentage who were absent at least 10% of the days they were eligible to attend.
- Subtract this percentage from 100 to determine the score for this indicator.
- Though it's called *chronic absenteeism*, the score is the percentage of students who are not chronically absent.

Calculation

Elementary Schools

Chronic Absenteeism Rate

Middle Schools

- Chronic Absenteeism Rate
- Annual 7–8 Dropout Rate

High Schools/Districts (similar to calculation of current Index 4)

- Graduation Rate
- 2014–15 Annual Graduates Who Accomplished at Least One of the Following
 - Completed a CTE-Coherent Sequence of Courses
 - Completed 12 or More Hours of Postsecondary Credit
 - Completed One or More AP/IB Courses
 - Met the TSI Benchmark on TSIA, SAT, or ACT
- Graduation Plan Rate

** Absenteeism is based on final attendance in PEIMS for the 2015–16 school year.

I. Reasons for A-F Accountability System

To increase the ease of a communities understanding of local school performance the 84th (2015) Texas Legislature created an A-F accountability system. The system will rank schools in 5 areas and assign a set of ratings for each of the five.

II. How were the Domains Calculated? (Domain V not yet rated)

Current Work-In-Progress Model: Overall Grade Calculation

Domain I: Student Achievement (STAAR)

- ❖ 1 point for each percent of students scoring approaches, 1 point for each percentage of students scoring meets and 1 point for each percentage of students scoring masters.

Domain I: Proposal To Measure Proficiency

Current PLD		Current Public Label		New PLD/Public Label
Level 1	→	Unsatisfactory	→	Does Not Meet
Phase-In Level 2	→	Satisfactory	→	Approaches
Final Level 2	→	Postsecondary Ready*	→	Meets
Level 3	→	Advanced	→	Masters

Domain II: Student Progress (STAAR)

Domain II: How Growth Is Currently Calculated

Domain III: Closing the Performance Gaps (STAAR)

Domain IV: Post-Secondary Readiness (No longer using STAAR)

Domain IV: Calculating Domain IV Score

What does this really mean for Natalia ISD?

Accountability changes in cycles, therefore it is expected. However, the response needed often requires the below actions to be successful and assist students to succeed academically.

- I. District and Campus Administrators must master their understanding of the A-F accountability system.
- II. Data driven decisions must relate back toward the ability to improve on accountability.
- III. Teacher and other staff members must understand the role their efforts will play regarding exceeding accountability standards.
- IV. Consistent and effective progress monitoring for accountability indicators.
- V. Communicate all accountability initiatives to the community.

March 6th

5 YR SP PROCESS

Board Work Session (January 16)	Identify 4-6 focus strands for the next 3-5 years
Identification of Steering Committee/Facilitator	- Comprised of 20-25 school/community stakeholders - Each focus strand will have one facilitator that is nominated by the superintendent/school board
Identification of Action Planning Committee/Facilitator	- Comprised of 20-25 carefully selected members to represent knowledge of each strand - Facilitators from steering committee

Steering Committee Meeting #1

- 1 ½ to 2 day session, preferably off-site
- Activities include: **review of focus strands; review/modify vision, mission, core values; develop one goal per strand; SWOT analysis; draft objectives to support goals**

Action Planning Committee Meeting #1

- 1 full day session, preferably off-site
- Steering Committee work will be presented and incorporated into action plan
- Goals and objectives will be reviewed and additional objectives may be added
- Action Planning committee will **add strategies, develop task analysis, set timelines, and identify necessary resources and designate responsibility**

Action Planning Committee Meeting #2

- ½ day session, preferably off-site
- **Each strand facilitator will present their work to the Action Planning committee via a PowerPoint**
- **Feedback** on each strand's work will be given by the Action Planning committee
- Individual strand teams will **review the feedback and add to the plan**, if appropriate

Steering Committee Meeting #2

- **Draft Strategic Planning presentation will be presented to and reviewed by the Steering Committee for approval.** Presentations are conducted by the Action Planning Committee

5 YR SP PROCESS

Board Approval
(March 6th, 2017)

- **The Strategic Plan will be presented to the school board by strand facilitators for approval**
- Budget will be presented during this session

STRATEGIC PLANNING ACTIVITY FLOWCHART

ACTIVITY	DETAILS
1. Board Work Session	- School board will receive 3 hours in Team Building <i>or</i> Tier 3 Board Training credit - Conduct SWOT analysis to identify 4-6 areas of focus (strands) for the next 3-5 years
2. Identification of Steering Committee/Facilitator	- Comprised of 20-25 school/community stakeholders - Each strand will have one facilitator that is nominated by the superintendent/school board - Region 13 will provide training to the facilitator (face-to-face or via webinar)
3. Identification of Action Planning Committee/Facilitators	- Comprised of 20-25 carefully selected members to represent knowledge of each strand - Each strand will have one facilitator (may or may not be the same strand facilitators from the Steering Committee) - Region 13 will provide training to the facilitator (face-to-face or via webinar)
4. First Steering Committee Meeting	1 ½ to 2 day session, preferably off-site - Meeting facilitation and materials provided by Region 13 staff - Activities include: review of focus strands; review/modify vision, mission, core values; develop one goal per strand; SWOT analysis; draft objectives to support goals - Region 13 and the strand facilitators will create a document summarizing the work of the steering committee
5. First Action Planning Committee Meeting	1 full day session, preferably off-site - Steering Committee work will be presented and incorporated into action plan - Goals and objectives will be reviewed and additional objectives may be added - Action Planning committee will add strategies, develop task analysis, set timelines, and identify necessary resources and designate responsibility - Each strand will schedule time to meet together in order to finish this work over the coming weeks - Once finished, the facilitator will send the group's work to Region 13 to update the draft Strategic Planning document
6. Second Action Planning Committee Meeting	½ day session, preferably off-site - Each strand facilitator will present their work to the Action Planning committee via a PowerPoint (developed jointly by facilitator and Region 13) - Feedback on each strand's work will be given by the Action Planning committee - Individual strand teams will review the feedback and add to the plan, if appropriate - Strand facilitators will work with Region 13 to update the draft of the Strategic Planning document
7. Second Steering Committee Meeting (to include Action Planning Committee)	- Draft Strategic Planning presentation will be presented to and reviewed by the Steering Committee for approval. Presentations are conducted by the Action Planning Committee - If accepted, Region 13 will create the final Strategic Planning document - Superintendent will schedule a meeting for school board presentation
8. Board Approval	- The Strategic Plan will be presented to the school board for approval - Superintendent will determine presentation format - Budget will be presented during this session
9. Improvement Planning/Budget Approval	- Region 13 is available to assist with aligning of the District/Campus Improvement Plans to the district's Strategic Plan - Budget requests and approvals finalize the steps of this process
