## BOARD OF EDUCATION MEETINGS AND NOTIFICATION PROCEDURES

The Harrah Board of Education shall transact all business at official meetings of the board. A "meeting" is defined as the gathering of a majority of members of a public body to discuss school business. Board meetings shall be regarded as public meetings. No meetings will be held by teleconference. These may be either regular, special, or emergency meetings, defined as follows:

Regular Meeting - the usual, official legal action meeting held regularly.

The regular meeting of the Harrah Board of Education shall be the second Monday of each month at 6:00 p.m. in the Administration Office of the school district.

Special Meeting - an official legal action meeting called between scheduled regular meetings to consider specific topics as listed on the agenda.

Special meetings of the board may be called by the President or upon request of a majority of the members of the Board at any time.

Emergency Meeting - an official legal action meeting held only for dealing with situations involving either injury to persons or damage to public or personal property or an immediate financial loss so severe that the 48-hour notice period of a special meeting would be impractical and increase the likelihood of injury or damage or immediate financial loss.

### Notification of Meetings

Notice of all meetings of the board of education shall be made in accordance with the Oklahoma Open Meeting Law except that federal confidentiality laws take precedence and except that a board of education is not considered a public body and is not subject to the Oklahoma Open Meeting Law when the board meets for the sole purpose of considering recommendations of a multidisciplinary team and deciding the placement of any child who is the subject of such recommendations. Otherwise, a written notice of the date, time and place of the meeting will be mailed and delivered to each person, newspaper, wire service, radio station, and television station that has filed a written request for such notice. Procedures for insuring proper notice, preparing agendas, etc., are as follows:

1. Prior to December 15 each year, the board of education shall provide the county clerk a listing of the time, date, and place of all regular meetings for the coming calendar year.
2. Any change in the date, time, or place of a regular meeting shall be provided in writing to the county clerk at least ten days prior to implementing the change.
3. At least 24 hours prior to a regular or special meeting, a paper copy of an agenda shall be posted which shall include the date, time, and place of the meeting and the business to be undertaken at the meeting. Or at least 24 hours prior to a regular or special meeting an agenda shall be posted electronically on the school website. For districts choosing only to do an electronic posting, the district will be required to provide an email distribution system for delivery of the agenda to those who have requested email delivery. Those wishing to receive advance copies of the agenda in compliance with the Oklahoma Open Meeting Act will submit a written request to the superintendent at least three (3) days in advance of the meeting. The school shall distribute the agenda for regular meetings via email delivery at least 24 hours in advance of a regular meeting and at least 48 hours in advance of a special meeting.

4. Notice of the time, date, and place of a special meeting shall be provided to the county clerk in person, in writing, or by telephone at least 48 hours, **excluding weekends and state holidays**, prior to the meeting.
5. Emergency meetings may be held without the required public notice if it is reasonably believed that delay would increase the likelihood of personal injury, property damage, or immediate financial loss to the district. The person calling an emergency meeting shall give as much advance notice as is possible in person or by telephone.
6. Any person, newspaper, wire service, radio station, and/or television station may file a written request with the board clerk to receive written notice of meetings of the board of education. Such requests must be renewed annually. Persons or entities requesting written notification will not be charged a notification fee.

## EXTENDED SCHOOL YEAR PROGRAM STANDARDS (REGULATIONS)

In accordance with the policy of the board of education, the following regulations shall govern the standards for the Extended School Year (ESY) program. The school district will strictly follow the requirements as set forth in *Policies and Procedures for Special Education in Oklahoma* and the technical assistance document *Extended School Year (ESY) Services for Children and Youth With Disabilities*.

Individuals over the age of twenty-one and under the age of twenty-six years, who are legal residents of this school district, may be entitled to receive educational privileges and opportunities in order to complete a secondary education program when they have been unable to complete the twelfth grade due to physical disability or military service. Legal residents of this school district nineteen years of age or older, who are not enrolled in a high school program and have not completed the twelfth grade, may attend adult high school completion programs if such programs are established by the school district and approved by the Oklahoma State Department of Education (SDE).

This school district is responsible for providing Free Appropriate Public Education (FAPE) for ages 3 through 21 years when it is determined, on an individual basis, by the individualized education program (IEP) team that the services are needed to receive FAPE.

Extended school year (ESY) services are defined as special education and related services provided by this school district to children with disabilities beyond the regular instructional year as a necessary part of FAPE. The type, amount, or duration of ESY services may not be unilaterally limited, but must be determined on an individual basis by the IEP team. Even the time period during which ESY may be offered may not be restricted, but will be determined on an individual basis by each student's IEP team.

A **disabled** ~~handicapped~~ student will be eligible for ESY services when it is determined that in the absence of such services the student will regress to such a marked degree that the student will be unable to recoup the loss within a reasonable time. Many factors will be considered in evaluating a student's need for an ESY program. Some of these factors are:

1. **Nature of the Handicapping Condition:** Certain children, by the nature of their handicap, may be predisposed to severe regression and limited recoupment. ~~Such handicapping conditions include autism, severe emotional disturbance, severe or profound mental retardation, degenerative impairments with mental involvement, and severe multiple handicaps.~~ However, ESY services will not be limited based upon particular categories of disabilities.
2. **Severity of Handicapping Condition:** Children more severely handicapped are most likely to need services.
3. **Availability of Home Stimulus During Summer Months:** In many instances it is feasible for a parent to monitor and implement a child's program during the summer break. When such a non-school program can be implemented by the student's parents and/or peers, it may provide a child the dual benefit of a vacation break from school without severe regression.
4. **Other Factors:** Other factors to be considered in determining the need for ESY include, but are not limited to: the degree of the child's disability; the parents' ability to provide education in the home; the child's rate of progress; the child's need for interaction with nondisabled peers and vocational training; and whether the requested services are an integral part of a program for children with similar disabilities.

**EXTENDED SCHOOL YEAR PROGRAM STANDARDS, REGULATIONS (Cont.)**

The following factors **must** be considered by the Individual Education Program (IEP) team in determining need for ESY programming:

- Degree of impairment;
- Degree of regression;
- Recovery time from this regression;
- Ability of parents to provide educational structure at home;
- Child's rate of progress;
- Child's behavioral problems;
- Child's physical problems;
- Availability of alternative resources;
- Ability of the child to interact with children and youth who are not disabled;
- Area(s) in curriculum that need continuous attention;
- Child's vocational needs;
- Whether the requested service is extraordinary for the child's condition, as opposed to an integral part of a program for those with the child's condition; and
- Other relevant factors as determined by the IEP team.

Determination of the need for ESY services must be made on an individual basis and addressed appropriately on the IEP.

ESY services may also be appropriate for some children who have received SoonerStart services. To determine need for ESY services, the Individualized Family Service Plan (IFSP) and IEP teams (including family members) will meet and consider all pertinent information including background information, current evaluations, and information provided by SoonerStart. IEP team participants will include:

- an administrator or administrative representative;
- the child's regular education teacher;
- a special education teacher qualified to provide special education in the area of the suspected disability;
- the child's parent(s);
- the child, as appropriate;
- other individuals at the discretion of the parent(s) or this district; and
- a member of the multidisciplinary evaluation team or a representative of the district or some other person who is knowledgeable about the evaluation procedures and the results.

**ESY Review Procedures**

The IEP review may occur at any time the team member(s) considers appropriate. However, a review must occur on or before the anniversary date of the IEP (i.e., at least once a year). The review requires participation of team members as described under Team Participants in this section. Any team member, including a parent, may initiate a review of placement when revision of the IEP is needed. The IEP should reflect the specific amount and type of special education and related services provided to a child at all times.

**EXTENDED SCHOOL YEAR PROGRAM STANDARDS, REGULATIONS (Cont.)**

The educational progress and appropriateness of the placement for each eligible child shall be reviewed on at least an annual basis. The review of the IEP shall be accomplished with reference to the schedules and procedures for evaluation of the goals and objectives specified in the IEP. The IEP team continues to provide: ongoing review of the effectiveness and appropriateness of the child's special education and related services; need for changes in type, frequency, or duration of services; and whether the child's placement continues to be the least restrictive environment or needs to be changed.

A review of placement meeting should occur following reevaluation or consideration of new information concerning the educational program of the child. The purpose of this meeting would be to review the present placement, services and any necessary change in services in relation to the new information.

Extended School Year (ESY) services are provided to children with disabilities who meet requirements of this ESY policy. ESY services must be determined and documented through the IEP. Special education and related services shall be provided beyond the regular instructional year as a necessary part of a free appropriate public education, for individual children determined eligible for ESY. Such determinations shall be made on an individual basis.

All special education students will be considered for an ESY program and screened upon request of a parent or other member of the IEP team. ~~However, because of their propensity toward severe regression and slow recoupment, multi-handicapped and trainable mentally handicapped students will automatically be screened, each year, for the need of ESY.~~

Data and Evaluation Information to Determine ESY Needs

The IEP team must determine a child's need for ESY services by collecting, reviewing, and analyzing existing information and pertinent data, including, but not limited to, the child's disability, educational history, and present levels of performance/educational functioning and needs. Examples of data and information could involve a review of the following:

Criterion-referenced and standardized tests, including pretest and posttest data of a student's progress;

Functional assessments used in natural environments (e.g., home, community, work, school);

Analysis of data collected on a regular basis;

Evaluations and progress records for related services;

Parent, student, and/or service provider information;

Attendance records;

Behavior and disciplinary records;

**EXTENDED SCHOOL YEAR PROGRAM STANDARDS, REGULATIONS (Cont.)**

Health/medical information;

Interviews with teachers and parents, students; and

Progress reports and assessments to determine the child's performance of IEP annual goals and objectives or benchmarks across time.

Screening Process

1. All special education students will be considered for an ESY program at their annual IEP team meeting and provision will be made on the IEP at that time if the team determines that an ESY program is necessary. Likewise, notation will be made on the IEP if a determination has been made that the student does not need or desire an ESY program.
- ~~2. In February, all multi handicapped and trainable mentally handicapped students will be screened by their teachers and therapists using forms provided by the district.~~
- ~~3. February screening of students with other handicaps will be conducted upon special request by a parent, teacher, or other service provider.~~
- ~~4. All screening forms must be returned prior to the end of the second week in March.~~
- ~~5. The district will compile a list of those students requiring additional consideration and analyze possible service needs.~~
2. February screening of students will be conducted upon special request by a parent, teacher, or other service provider.
3. All screening forms must be returned prior to the end of the second week in March.
4. The district will compile a list of those students requiring additional consideration and analyze possible service needs.
5. For those students identified as in need of ESY, the district will prepare recommendations as to the nature, duration, and frequency of services needed to assure that significant regression will not occur to such a degree that recoupment cannot be accomplished within a reasonable period of time.
6. For those students identified as in need of ESY, the district will prepare recommendations as to the nature, duration, and frequency of services needed to assure that significant regression will not occur to such a degree that recoupment cannot be accomplished within a reasonable period of time.
- ~~7. At either the spring IEP review or a specially convened IEP team meeting, the team shall be advised of the referral for ESY and the recommendation, if any, that the student be placed in an ESY program for the summer. The advantages and disadvantages of such a program shall be explained to the parent as well as the basis for the referral and recommendation.~~

If the parent rejects the ESY, such should be recorded on the IEP. If the parent accepts the recommendation for an ESY, the IEP team should complete an amendment to the IEP with regard to services to be provided.

ESY services may be necessary for a free appropriate public education; therefore, procedural safeguards include the right to request a due process hearing. Parents or guardians may request a hearing to challenge the identification, evaluation, or educational placement. Mediation must be available as an option whenever a hearing is requested. However, parents and schools may use mediation to resolve a dispute regarding ESY without a request for a due process hearing.

*Revised*

**STUDENT DISCIPLINE**

The board of education believes that the school's primary goal is to educate, not discipline. However, when the behavior of an individual student interferes with the rights of others, corrective action may be necessary for the benefit of the individual as well as the school. A student who has been suspended for a violent offense directed towards a teacher shall not be allowed to return to that teacher's classroom without the approval of that teacher.

Oklahoma Law, Title 70, Section 6-114, provides teachers with the same rights as parents to control and discipline school children in accordance with local school policies. The following schedule of infractions is provided as an aid to teachers in exercising control and discipline of students. The schedule is not intended to include all possible infractions. Therefore, behavior that is not included in the following schedule may warrant appropriate disciplinary measures. The following schedule shall not be used in determining discipline for any child on an IEP or Section 504 plan until such time as the student's IEP team has determined that the infraction is in no way a manifestation of that student's disability.

<u>Infractions</u>	<u>Minimum Action &lt;</u>	<u>&gt; Maximum Action</u>
1. Unexcused tardiness		---- Refer to Attendance Policy ----
2. Disruption of class or assembly	School Conference	Parent Conference Suspension
3. Lunchroom misconduct	School Conference	Parent Conference Suspension
4. Bus/playground misconduct		---- Refer to Bus Conduct Policy ----
5. Negligence in completing classwork	School Conference	Parent Conference Suspension
6. Cutting class		---- Refer to Attendance Policy ----
7. Leaving school without permission		---- Refer to Leaving School Grounds (Closed Campus) Policy ----
8. Truancy		---- Refer to Attendance Policy ----
9. Tobacco on school grounds	School Conference	Parent Conference Suspension <sup>1</sup>
10. Drugs or Alcohol possession	Parent Conference	Suspension <sup>1,2</sup>
11. Gambling	School Conference	Parent Conference Suspension
12. Theft	Parent Conference	Suspension <sup>1,2</sup>
13. Assault-physical or verbal	Parent Conference	Suspension <sup>1,2</sup>
14. Fighting	Parent Conference	Suspension
15. Destruction of property, vandalism	Parent Conference	Suspension <sup>1,2</sup>
16. Threats/Harassment	School Conference	Parent Conference Suspension <sup>2</sup>
17. Extortion	School Conference	Suspension <sup>1,2</sup>
18. Refusal to obey school officials	School Conference	Parent Conference Suspension
19. Possession of weapons or other items with the potential to cause harm		Suspension <sup>2</sup>

<sup>1</sup> May require counseling and rehabilitative efforts before reinstated in school programs

<sup>2</sup> May require notification of legal authorities

Other possible corrective actions include warning students that continued infraction may result in more severe consequences, removing students from class, before or after school detention, alternative placements, financial restitution, if necessary, and referral to social agencies, if appropriate. The administration may impose punishment that would prevent a student from participation in and attendance at extracurricular activities. In addition, student discipline consequences may include an inability to participate in the graduation ceremony, prom, prom activities, school dances, and/or a class trip.

Suspension alternatives may include in-house suspension or out-of-school suspension. Refer to the Suspension Policy (see policy FOD) for requirements for short-term suspensions (1-10 days) and long term suspensions (11 or more days).
