Heartland Community Elementary School Multicultural Report Updated 2015-2016 school year

The following information represents some of the multicultural activities and concepts being carried out in the elementary school.

Preschool

At Heartland Preschool, we use the “Creative Curriculum System for Preschool” by Teaching Strategies. This is the same curriculum adopted by the Head Start programs across the country. The curriculum has a strong emphasis on multicultural awareness and English and dual language learners. There is a Home Language survey that gathers information about the language use in an ELL child’s home. Children meeting the criteria of ELL are then assessed using the “Teaching Strategies GOLD” in the additional area of English Language Acquisition, both listening/understanding English as well as speaking English. The “Creative Curriculum” provides informational letters to parents in both English and Spanish. If other letters are sent home to parents from Heartland Preschool, they are translated using Google Translate, which has many languages available for translation. The Nebraska Department of Education also has available translated forms for parents if their child is receiving special education services.

Heartland Preschool has many multicultural materials available to children. Each “study” or unit in the curriculum has multicultural books that connect the concepts and vocabulary to the unit of study. Some of the books are written in both English and Spanish. There is also a portion of each study that emphasizes “partnering with families”, connecting the culture and customs of families to the curriculum.

The play centers in the Heartland Preschool classroom contain materials that incorporate different cultural perspectives. For example, the “kitchen and dress-up” center has dolls of different races, dress-up clothing representing different customs, and pretend food items from different cultures. The music center has musical instruments and songs on the iPod from different cultures. Toys show people of different races as part of the doll house and “mainstreet” play sets. The Heartland Preschool is evaluated through the Early Childhood Environmental Rating Scale (ECERS) as required by the Nebraska State Department of Education. Through this program evaluation, multicultural awareness and sensitivity is monitored through the subscale item of “promoting acceptance of diversity.”

Kindergarten

Students and teachers read a variety of books throughout the year that show racial and ethnic diversity.

Through unit studies, students learn about Native Americans, Christmas in other countries, and Martin Luther King Jr. Students learn the impact that MLK had on American history and discuss what segregation means and looked like. The treatment of African American individuals is tied to the study of money when the students learn about President Lincoln and slavery.

First Grade

First graders are exposed to a variety of multicultural lessons through literature, Scholastic News and supplemental resources. Topics covered include the exploration events of Christopher Columbus, the development of the Thanksgiving tradition, Christmas customs and traditions in various countries, the equality movement of Martin Luther King, the civil rights movement of Abraham Lincoln and the contributions of various individuals during Black History Month (Rosa Parks, Ruby Bridges, etc.).

Second Grade

Second grade students will learn to appreciate different communities (rural and urban) in the story "The Twin Club," explore the culture and traditions of cowboys in the story "Cowboys" and "A Cowboy's Life," read and discuss the important contributions of famous African Americans George Washington Carver, Harriet Tubman and Martin Luther King Jr., study traditions and celebrations that involve our country's flag in the story "Red, White, and Blue: The Story of the American Flag," and they will also learn that the colors and pictures on the flags of different countries send a message and that people hang flags to show support of their country (patriotism).

Second grade students explore different family traditions and celebrations (birthdays, Thanksgiving, Hanukkah, Kwanzaa, Fourth of July and family reunions) in the story "Celebrations and Family Traditions," learn about family birthday celebrations in different countries in the story "A World of Birthdays," read words in another language (Spanish) while reading the stories "Rosa and Blanca", "A Birthday Basket for Tia", and "The First Tortilla," learn that family celebrations and traditions are important to all cultures and to family groups too in the story "Magda's Tortillas," explore the value of family ties in the story "Rosa and Blanca," learn about food from other countries in the story "The International Food Fair," and read and rewrite the story "An Early American Christmas" and discuss the customs and traditions of a family that celebrates Christmas in the early 1800's.

Third Grade

Through the use of trade books and Scott Foresman's Reading Street textbooks, third graders integrate literature into their study of other cultures. They read stories and learn about the Snohomish people that live in the area of the Northwest and the customs of Asian Americans. An important part of the third grade studies is the concept of discrimination in the story of Ruby Bridges. The

students also learn about Inupiat Eskimos in Alaska through the story “Kumak’s Fish.”

Fourth Grade

Reading and Nebraska Studies are the two areas in which we incorporate multicultural skills.

Through reading, students read the story “Coyote School News” which is about a Hispanic family from Mexico living in Arizona, “Adelina’s Whales” which is about a girl living in Mexico, “Navajo Code Talkers” which is about a group of Native Americans who wrote a secret code during WWII, “My Brother Martin” which is about Martin Luther King Jr., “Jim Thorpe’s Bright Path” is the story of a Native American who goes to the Olympics, and “How Tia Lola Came to Visit” is a story about a family from the Dominican Republic.

Through read-alouds, students listen to “Listen for the Whipperwill” which is a story about Harriet Tubman and the underground railroad, “Who was Anne Frank” which is the story of her life, and “Mississippi Mansion” which also deals with the underground railroad.

During Nebraska Studies, a lot of time is spent discussing the history of the Native Americans in Nebraska and the changes that came as the result of white settlers. Fourth grade also discusses important Native American leaders and learn about Native American reservations and their lifestyle today.

Fifth Grade

Fifth graders study Martin Luther King Day and observe the importance of the contribution of Civil Rights. They study the Civil War and the Revolutionary War and pay particular attention to the contributions made by African Americans and Native Americans. One of the more interesting studies done by fifth graders include Christmas customs and traditions that have found their way to the United States and now are part of our culture. Folk tales and fables are a part of literature at this level and this lends itself to learning about the variations we find in this type of literature in many lands and cultures. Students learn about facing challenges through readings about Satchel Paige/Negro League and Asian immigrants during the building of transcontinental railroad. Through reading, students also learn about the following artists: Leonardo da Vinci, Mahalia Jackson, Music of Harlem, etc.

Sixth Grade

The social studies curriculum includes the study of the Greeks, Romans, and ancient Egypt. These studies lend themselves to helping students learn about the cultures of Egyptians, Jews, and Arabs. This means more than the study of languages and customs as students learn about ancient and present day ideologies that concern this region of the world. Sixth graders spend time studying world religions and learn about these religions as they are practiced

today. Language writing activities at certain times of the year are centered on specific multicultural related topics such as Martin Luther King Day and Cinco de Mayo. Sixth graders also closely observe the Iditorod dog sled race in Alaska each winter. This is an interactive event in which students track individual participant using the Internet. They not only learn about the race, but also learn about the Inuit Native people in Alaska. 6th grade students also read about the following topics: Saving the rain forests, Taj Mahal, Rosetta Stone, and Mayan/Aztec culture

In addition to the specific activities listed above, we keep the concept of accepting diversity in people amongst our staff. Other methods include discussions, news articles, books, and staff participation on multiculturalism committees and committees for students with special needs.

Heartland 7-12 Multicultural Report 2015-2016

Social Studies

- 7th grade Social Studies, 8th grade Social Studies, 9th grade World History, 11th grade American History, 12th grade American Government, Psychology, Sociology
 - All the Social Studies classes listed above incorporate the use of current events where applicable to the lessons. Current events are present day history in the making and also used to show past historical events similar in context. Current events are used to show an understanding of all the social science classes.
 - In American Government, current events involving politics and the United States are used to give "real life" meaning to what is being taught in that class.
 - In 8th grade social studies, 9th grade world history, and 11th grade American History current events are used to show how lessons learned from the past are affecting our country and the world in the present day.
 - In psychology and sociology, current events are used to give understanding and meaning to the information learned in the classroom.
 - Students in 7th grade Geography and Fundamentals of Government, will use current events as well as historically significant moments to learn and recognize that the world was built upon and strengthened by the contributions of all peoples, including those of varying ethnic and cultural backgrounds. Students will learn about different cultures as they study the news of the world and why certain events take place from each cultural point of view (global awareness). Specifically, the Fundamentals of Government class will complete a project that highlights the contributions of ethnic minorities to politics of America. An example would be Cesar Chavez. In 7th grade Geography, students will complete a multitude of assignments that illustrate how cultural diffusion has changed and contributed to human progress.
 - All the Social Studies classes listed above teach, where applicable, information about various culture groups, ethnic groups, racial groups, religious groups, gender groups, age groups, etc. and their contributions to history and/or society (U.S./regional/world).
 - In American Government, the US political and economic systems are contrasted and compared to other political and economic systems found throughout the world.

Students in Government use two culturally informed narrative voices---“Voices on Government” and “Spotlight on Multiculturalism” that highlight the contributions to government by Americans from different backgrounds.

- In 7th grade social studies, 8th grade social studies, and 11th grade American History, information from history is studied and taught to show similarities and differences among various countries, as well as contributions to both American and world history from other cultural, ethnic, racial, religious, and gender groups.
- Students in geography will learn that every group of people has a special way of doing things. They have particular set of beliefs and values. All of these things are affected by geography. Students will learn that culture can unite people, and it can separate them. Students will study culture in each unit as it is one of the seven strands in geography.
- In both psychology and sociology, lessons are studied and taught in relationship to how both individuals and groups are affected by their own cultures as well as those found throughout the world.
- Students in World History will learn human beings create, learn, and adapt culture. Human cultures are dynamic systems of beliefs, values, and traditions that exhibit both commonalities and differences. Understanding culture helps us understand ourselves and others. Students will use the “Human Experience” section in their textbooks to incorporate culture.
- Students in American History will learn about culture many different ways, America a Melting Pot. Students will learn how each culture helped influence and build America through the decades. One example the students will study in depth is the Native Americans fight to survive then and now. Another example is to celebrate Black History Month.

Agriculture (Grades 8-12)

- Multiculturalism in the Heartland Agricultural Education/FFA Program
 - When it comes to addressing multiculturalism in the classroom, there are some topics that we discuss to make sure that every student understands that diversity is important.
 - In class we:
 - Discuss Nebraska’s economy and compare and contrast it to third world country economies. We talk about the need for a country to feed itself and explain how appropriate production can be easily accomplished in the United States and not as easily in third world countries.
 - Explain how agriculture is more than farming and production agriculture. It encompasses agribusiness, floriculture, hydroponics, agro tourism, companion animals and non-traditional crops. These topics lead us into discussion about careers and non-traditional careers in agriculture.
 - Compare rural Nebraska FFA Chapters to metro based FFA Chapters and explain how all people can be a part of FFA. It is important to note

this because local students begin to understand the differences in populations, FFA chapters and careers in agriculture.

- Converse about the importance of women in the agricultural world. We discuss how women can play a vital role in many agricultural fields and have played a large role in the development and updating of agriculture over the years. We also note that many State and National FFA Officers are and have been female.

Family and Consumer Science

- 7th and FCS I

- They examine patterns, masks, and designs used by early civilizations.
- Students have the opportunity to view different works inspired by other governments, religions, and personal views.
- Each student is given the opportunity to develop their own individual style through inspiration of techniques used in art throughout history.
- Each semester famous artists from the past are chosen to study and relate to projects for K-12 students.

Math (Grades 7-12)

*Some topics can be applied in two or more classes besides those listed

- Statistics

- Explore unemployment rates around the world and show the shape, center, and spread of the data using a graphical representation
- Research the United States population statistics of different multicultural groups, and create pie charts depicting the data.
- Using census data, figure the statistics for the highest and lowest poverty rates for different races. Also, compare these numbers with Nebraska's poverty rates for the same races.
- 7th & 8th Grade, Algebra, Math Standards
 - Use fractions and percentages to express what part each ethnic group is of the total population of Nebraska.
 - Use foreign currency to determine the value in relationship to the United States dollar.
 - Use the enrollment statistics of the University of Nebraska to find the fraction and percent each ethnic group is of the total enrollment. Discuss why having a variety of ethnic groups is valuable to all students.
- Geometry
 - Find flags of foreign countries that display rotational and/or reflectional symmetry.
 - When talking about the history of Geometry we relate how the Greeks viewed mathematics as shapes and areas - and although some of the symbols look different, mathematics is constant between cultures
- Pre-calculus & Calculus
 - We talk about some famous mathematicians from France, Greece, and Rome and how they devised the theorems we have and use today. And, many of the same symbols they used are still used today.

Science (Grades 7-12)

- Multiculturalism can be easily ignored within the Science curriculum due to the impersonal aspect of this discipline. Though there is one class, Biology, that contains several areas where it may be infused. The principles covered in Biology about Ecology lend to concepts that are universal to the interaction of humans with nature. These universals of Nature and man's interrelationship are not restricted to a time scale. They have occurred throughout history and will continue to take place. It is because of the interaction that enables multiculturalism to be initiated into the curriculum.
- Topics are:
 - The carrying capacity of the plains of Africa and the limiting factors of the man and the best have imposed onto it due to cultural and tribal customs.
 - The instability and imbalance of homeostasis within Russia's Northland, Siberia and how deforestation is now affecting the people and their culture.
 - Students will investigate the effects of migratory birds and their value within certain cultures (Japan, American Indian, African, South American, and

- American).
- Students will investigate their own cultures and it's influences upon the land they live from aspect of the past and project potentials for the future.
- The stability of energy and the effects of declining producer population with in Ethiopia.
 - Study the effects of an imbalance ecosystem due to the introduction of a new species into the habitat of Hawaii and Australia.
- Students will investigate genetic pressures of Sickle Cell Anemia in Africa in relation to other pressures created from this genetic disorder in different regions of the world.
- Other Classes:
 - Students will investigate German societal influences on discoveries in Physics and the atom during the early 1900's.
 - Students will research the lives of scientists involved in the study of cells, genes and gene technology, and genetics and determine what impact their discoveries had on society.
 - Students will investigate the effects of natural disasters (earthquakes, tsunamis, volcanic eruptions) on different cultures/societies.
 - Students will research important steps made in space travel and discuss the competition between the U.S. and U.S.S.R during the space race, as well as contributions made by other countries.

Library Media Center

- The library media center supports the curriculum by providing multicultural materials for use in the classroom by students and teachers. In addition, it is our policy to select children's literature that reflects the contributions, lifestyles, and values of different ethnic groups and that will promote a global outlook and understanding that we have more similarities than differences.
- In addition, these guidelines (from Multiethnic Children's Literature by Gonzalo Ramirez, Jr. and Jan Lee Ramirez, 1994 and Children's Literature, Briefly by Tunnell, Jacobs, Young & Bryan, 2012) are also considered when selecting materials for the library media centers.
 - Cultural details need to be represented accurately in literature.
 - The material attempts to amend historical errors and omissions by providing accurate information about people from the group portrayed who have made contributions to the United States and the world.
 - Present a positive and reassuring representation of the reader's own cultural group. The material contains illustration and/or photos that provide a true reflection of the way of life of the group.

Spanish

- The goal of this course is to provide the opportunity for a foreign language learning with

emphasis on communication, culture, comparisons to their own language and culture as well as using the language outside the classroom in the community.

- Projects
 - Promote a Spanish speaking country

Physical Education

- TLW use the Olympics as a means to understand and appreciate cultural differences.
- TLW use games played by children in other countries as a means to gain a better understanding of that particular country's culture.
- TLW choose a professional player from another country to report on. Explaining the avenues that individual took in order to make it into professional sports. (Training program, schools attended, diet, etc.)

Health Education

- Time is spent on exploring the cultural differences and similarities, and how they affect our students at HCS.
- Material is covered on prejudice and how it affects those students involved.
- Activities are used to help show forms of prejudice.
- "Cultural-Bias" is discussed to help students understand the ramifications.

Business Department

- Introduction to Business, Marketing, Accounting I & II, Business Law
 - Explain how cultural differences affect doing business internationally.
 - Identify ways in which government and business deal with diversity.
