Corvallis School District 509J
Board of Directors

BOARD MEETING DATE: June 18, 2012

FOR ACTION

SUBJECT: Corvallis Education Association Bargaining Agreement

Issue:

Ratification of the contract between Corvallis Education Association (CEA) and the Corvallis School District. The agreement is for two years with opener in year 1 for salary, days, PERS and health insurance and up to two additional items. (See document noting contract changes under separate cover.)

Recommendation:

Ratify the contract.

Involvement:

The Board has met multiple times in Executive Session to set parameters for bargaining and provide guidance to the District Bargaining Team. Contract negotiations with CEA have been ongoing since February 21, 2012. On May 17, 2012, CEA and District Bargaining Teams reached tentative agreement on a contract agreement that fell within the financial parameters set by the Board.

ACTION REQUESTED: Approve the contract.

CONTACT PERSON(S): Jennifer Duvall, Human Resources Director

Article 1—Status of Agreement

A. Recognition

This Agreement is entered into by and between the Board of Directors of the Corvallis School District 509J (hereinafter referred to as the "District") and the Corvallis Education Association (hereinafter referred to as the "Association").

The District recognizes the Association as the exclusive representative for all teachers of the Corvallis School District within the bargaining unit defined as all full and part-time TSPC-licensed teaching personnel (including counselors and librarians), speech therapists, and nurses employed by the District on matters of salaries, related economic policies, and other conditions of employment. Excluded from the bargaining unit are: all principals and assistant principals, administrators in positions that require a TSPC administrator license, supervisors and substitute teachers. All bargaining unit members are referred to as "teacher" or "teachers."

B. Waiver/Maintenance of Standards

This document represents the full agreement between the parties and shall modify, replace, or add to any policies, rules, regulations, procedures, or practices of the District which are contrary to these terms. Both the District and the Association waive the right to bargain upon any subject or matter during the life of this Agreement, even though such subject or matter may not have been within the knowledge or contemplation of the parties at the time this Agreement was executed except as described below in this paragraph. Furthermore, all terms and conditions of employment not covered by this Agreement shall continue to be subject to the direction and control of the District. ~~During the term of this two-year agreement the parties agree each has the right to demand bargaining and the duty to bargain the terms of Article 11 subsection B. on Academic Freedom and Article 18 on Working Conditions subsection E. on Work Week/work Day. The terms of the salary schedule in Article 19 subsection A., Step Advancement in Article 19 subsection B. and Fringe Benefits in Article 19 subsection H. all end effective 6/30/12 and therefore each party as the right to demand bargaining and the duty to bargain the successor terms for these economic conditions.~~

However, neither the foregoing, nor anything else in this Agreement, shall be interpreted and/or applied in a way that deprives members of the bargaining unit of any established benefit which is a mandatory subject of bargaining, unless the benefit has been specifically eliminated by this Agreement.

C. Savings

If any provision of this Agreement is held to be invalid by operation of law or by any court of competent jurisdiction, or if compliance with or enforcement of any provision should be restrained by any such court, the remainder of the Agreement shall not be affected thereby and, upon request of either the District or the Association, the parties shall enter into negotiations for the purpose of attempting to arrive at a mutually satisfactory replacement for such provision.

D. Individual Contracts

The provisions of this Agreement take precedence over inconsistent provisions of individual teacher contracts.

E. Termination

This Agreement takes effect on July 1, 201~~2~~⁴ and remains in effect through June 30, 201~~4~~⁴.

For the 2013-14 contract year, the parties agree to re-open the contract for the limited purpose of bargaining salary and compensation including health care benefits. Each party may also elect to bring up to two (2) additional language items up for the limited negotiations. These language items will be exclusive of any current Memorandum of Agreement issues.

By January 15 of the year in which this Agreement terminates, both parties agree to have assembled bargaining teams and to have conducted a first meeting to identify issues of concern to each party. Proposals will be exchanged by March 1 thus commencing the 150 days of table bargaining required by ORS 243.712. The timelines in this paragraph may be amended by mutual agreement of the parties and should not be construed to limit the parties' ability to enter into any non-traditional bargaining processes or to adjust as necessary to meet unexpected challenges such as delayed state school funding projections.

This Agreement shall automatically be extended unless either the District or the Association gives ten days' notice terminating the Agreement or its successor is put into effect.

F. Temporary Teachers

The terms in the Agreement Articles 14 (Transfers and Vacancies), 15 (Layoff and Recall), and 16.H. (Other Leaves) do not apply to temporary teachers.

Article 3-Payroll Deductions

B. Pay Installments

Teachers will receive their annual compensation in ten equal monthly installments. Teachers may individually elect to receive their annual compensation in ten or twelve equal monthly

~~installments. Unless the District payroll office is notified in writing of the selection of the twelve month option on or before the first teacher workday, ten payments will be deemed to have been selected. Teachers who are hired after the start of the teacher work year shall be allowed to make the above specified election within five days of their hire. The option for twelve equal monthly installments shall not be available if, by reason of the operation of law, the District would incur financial obligations not applicable to ten equal monthly installments. Temporary teachers who are not working a full contract year will receive their pay on a monthly basis over the term of their contract.~~

Article 18—Working Conditions

A. School Work Year

1. The typical school year shall not exceed 190 days, including five paid holidays. The paid holidays shall be Labor, Veterans, Thanksgiving, New Year's, and Memorial days. The work year shall include a minimum of four days, to be designated in a combination of whole and/or half-day increments that are devoted exclusively to teacher preparation activities, i.e., building work days. When an adopted school calendar includes parent/teacher conferences, the school administrator will work with the school's teachers to determine a parent conference schedule. A school's conference schedule may be reviewed by the Joint Cooperation Committee. The work year shall also include four days to be designated in a combination of whole and/or half-day increments that are to be devoted to District-assigned in-service activities.
2. ~~The 2011-2012 school year has been reduced by two teacher preparation days, for a total of 188 contract days. The district and association will work together to identify the two specific teacher preparation days for each grade level.~~

The 2012-2013 school year is reduced by three days. The reduced days shall be three instructional days (June 13, 14 and 17, 2013) for a total of 187 contract days. Pay reductions for these reduced days shall be prorated and deducted over the course of all ten paychecks. The District and the Association shall provide joint press releases to announce the budget reduction days prior to them occurring. These press releases shall indicate that the budget reduction days were necessary due to inadequate state school funding.

3. Starting in 2011-2012, as a result of the new 2011-2012 high school schedule and for as long as it continues, high school teachers will receive one additional preparation day.
4. If there are school or district-related opportunities available for teachers beyond the 190 day contract year, participation shall be voluntary. If the teacher is to be compensated it will be at a rate agreed upon by the teacher and the district, unless

expressly covered by the terms of this contract. The Association will be informed the compensation agreement unless it is expressly covered by the terms of this contract.

Article 18—Working Conditions

E. Work Week/Work Day:

The normal teacher work week is 40 hours. However, the parties recognize the desirability of flexible scheduling, and it is their intent to continue reasonable flexibility in the work day and the work week.

1. Teachers may conduct occasional personal business off campus during the regular paid work day without using any paid leave time.
2. The teacher is not required to describe the personal business. The expectation, however, is that the teacher will use good professional judgment.
3. This time off campus must not interfere with any of the teacher's professional responsibilities such as scheduled staff meetings or IEP meetings, and a substitute cannot be used to cover the teacher's time off campus.
4. Teachers will notify the school office regarding the duration of their time off campus.
5. An effort shall be made to schedule IEP meetings during the regular work day.
6. The district will make a reasonable effort to limit the number of meetings a teacher is expected to attend each month. School events such as open house, and curriculum nights can be scheduled outside the contract day.
7. The district honors and respects the commitment and professionalism of its teachers and values their need to balance work and personal life. Teachers will attend meetings during their work day unless excused by their supervisor. For meetings that extend beyond the teacher's normal workday, teachers will work with their supervisor if circumstances preclude their attendance.
8. As long as there is district structured collaboration time (eg. PLC) it will typically occur during the normal workday when students are not present.

G. Part-time Teachers

Part-time teachers will be compensated for hours beyond their normal work schedule for fall and end-of-year preparation days if so authorized by the principal.

Part time teachers who are required to participate in district structured collaboration time

(eg. PLC) beyond their normal work schedule will be compensated at their per diem rate up to one hour/week. Part time teachers whose normal schedule is not contiguous and/or part of the district structured collaboration time (eg. PLC) are not required to attend. However, if these teachers wish to participate, they may be compensated as above, based on mutual agreement between teacher and administrator.

Part-time kindergarten teachers will receive compensation for all conferences scheduled on the district calendar based on class size.

1. Part-time kindergarten teachers with 16-23 students will receive half-day pay.
2. Part-time kindergarten teachers with 24-30 students will receive full-day pay.

Article 19—Compensation

A. Licensed Schedule

Teachers shall be paid in accordance with Appendix A (Licensed Salary Schedule) for 2011-12. Salary and pay apply to work performed between dates of July 1 through June 30 of each year.

B. Salary Advancement

1. During the term of this contract salaries of all teachers employed before July 1, 2011 for at least 135 days of the 190-day prior teacher work year will be advanced one step effective November 1, 2011 in accordance with Appendix A. (This provision is suspended for the 2012-13 contract year due to the step freeze for all teachers and subject to negotiation for 2013-14.)
2. A teacher must submit an application to Human Resources for salary and column advancement by September 1 to advance a column and steps in that work year due to additional education or certification that meets the requirements for advancement. Transcripts and/or proof of certification must be submitted to Human Resources by October 1. Payment on the new salary column will be included in the October paycheck.

Two steps shall be granted to those teachers who earned a masters degree and one step will be granted for teachers who earned a PhD or National Board Certification.

3. Temporary teachers who are employed by Corvallis School District 509J for 135 days or more in a school year and are rehired in the next consecutive school year as a teacher (regardless of the status of this assignment), will be advanced one step on the salary scale. Advance shall occur on the salary schedule in the same

manner as other teachers. (This provision is suspended for the 2012-13 contract year due to the step freeze for all teachers and subject to negotiation for 2013-14.)

4. ~~During the 2011-2012 school year full time FTE teachers on the top step of the salary schedule, as of June 30, 2011, who are no longer eligible for step increases, will be provided \$720 paid from the insurance reserves. The \$720 will be prorated based on teacher's FTE. The \$720 will be applied to reduce health insurance out of pocket costs first, then any balance available will be applied as district contribution to a 403(b) account. This payment is for the 2011-2012 school year only.~~
5. ~~After June 30, 2011 step movement is not automatic and is therefore not a status quo working condition.~~ Teachers will receive no step movement for the 2012-13 contract year. Step movement will not be considered a status quo working condition for the 2013-14 contract year. Effective June 30, 2014, step movement shall be a status quo working condition.

VII.C. Resolution No. 12-0602 To Levy and Categorize Ad Valorem Taxes

BOARD MEETING DATE: June 18, 2012

FOR ACTION

SUBJECT: Resolution 12-0602 To Levy and Categorize Ad Valorem Taxes

BACKGROUND INFORMATION:

The Board annually levies a tax rate to raise taxes for general operating purposes of the school district. The tax rate for the General Fund is a permanent rate computed by the Oregon Department of Revenue expressed in dollars per thousand of assessed value. No action of the School Board can increase this limit. This tax rate is \$4.4614/\$1,000 and was approved by the Budget Committee. If the permanent rate is not levied in full, the amount will be deducted from the amount received from the state through the State School Fund formula.

The FY2012-13 proposed budget was developed based on a Local Option Levy of \$1.50/\$1,000. The \$1.50/\$1,000 Local Option Levy rate was approved by the Budget Committee. FY2012-13 is the first year of the new 5-year levy approved by voters in November 2010. The maximum rate is \$1.50/\$1,000. The Board may choose a lower rate for the Local Option Levy as it did in FY2007-08 and FY2008-09, which will require a commensurate reduction of appropriations for services funded by the Local Option Levy.

Approval of a general obligation bond by voters carries with it authority to levy taxes to pay the bond principal and interest. The amount levied is intended to meet the principal and interest due in FY2012-13 and includes an estimate of taxes not to be received due to the discount and uncollectible amounts. The total FY2012-13 tax levy for the New Schools Construction approved by the Budget Committee was \$8,726,500, including an estimate for discounts and uncollectible amounts.

Oregon Revised Statute 294.435 prescribes that the governing body shall enact resolutions to adopt the budget, to make the appropriations, and to determine, make and declare the ad valorem property tax rate or amounts as provided in ORS 310.060. The format and wording is based on recommendations from the Oregon Department of Revenue.

RECOMMENDATION:

Adopt resolution number 12-0602 to levy and categorize ad valorem taxes.

Notwithstanding anything in this Agreement to the contrary, the District is hereby given the option to terminate this Agreement in the event that the Superintendent shall become permanently disabled during the term of this Agreement or any extension thereof. Permanent disability is a disability which incapacitates the Superintendent from performing the duties under this Agreement on a regular and continuing basis. Such option shall be exercised by the District giving twenty (20) days written notice to Superintendent by registered mail and addressed to Superintendent at the District office or at such other address as Superintendent shall furnish in writing to the District.

During any such period of disability and until final termination, Superintendent's compensation shall be in the amount provided in the disability insurance policy to be provided by the District. The District shall provide the names of three approved physicians; the Superintendent may choose any of the three physicians to conduct said examination. The examination shall be done at the expense of the District. The physician shall limit the report to the issue of whether the Superintendent has a permanent disability as defined herein.

The uncertainty of indefinite leave may create an undue hardship upon the District.

SECTION 14. DISCHARGE FOR CAUSE:

Discharge for cause may include: neglect of duty, breach of contract, inefficiency, immorality, insubordination, conviction of a crime involving moral turpitude, inadequate performance, failure to comply with such reasonable requirements as the Board may prescribe to show normal improvement, evidence of professional training and growth, and failure to maintain in good standing a valid and appropriate license to act as Superintendent of Schools as required by the State of Oregon. Other reasons may constitute cause of dismissal, but other such reasons, for purposes of this contract, will be interpreted to include or cover only those reasons which are the same general nature or class as those reasons which are set forth above.

Notice of the District's consideration for discharge for cause shall be given in writing. Such notice shall include a statement of the reasons constituting cause and shall be given not less than ten (10) days prior to the date that Superintendent shall be entitled to appear before the Board to discuss such causes. Such meeting may be conducted in executive session as provided by Oregon law. Superintendent shall be provided a written decision describing the results of the meeting.

SECTION 15. APPLICABLE LAW

This Agreement is to be construed under the laws of the State of Oregon. The venue for resolving all legal disputes under this contract is the Circuit Court of the State of Oregon, for Benton County.

IN WITNESS WHEREOF, the District, pursuant to the authority of its Board of Directors, by resolution duly and regularly adopted has caused two originals of this Agreement to be signed in the name of the District by the Chairperson of the School Board and the Superintendent.

III. SUPERINTENDENT'S BUDGET MESSAGE

Erin Prince and Roy Burling presented the information to supplement the printed Superintendent's Budget Message. (The Proposed Budget Document is Filed as Supplemental Item 1 in the official 2011-12 Budget Committee Minutes; the PowerPoint Presentation is Filed as Supplemental Item 2.)

A summary of the presentation:

- Funding from the state is like a rollercoaster, and Corvallis has suffered from decreases in enrollment, less funding from the State, cost increases from the Public Employees Retirement System (PERS), and a slow economic recovery state wide.
- The budget process started early and community members were encouraged, along with staff and students, to provide input.
- The Budget Task Force utilized the board's guiding principles as well as their related set of guidelines to shape their work. Recommendations from the Task Force were implemented into the proposed budget with few changes.
- Updated yearend estimates for FY2011-12, projected use of reserves, and updates to the long-range financial guesstimates were shared.

A summary of questions and discussion items from the group:

- We're down another 170 students this year, when will this hit us? (C. Rochester)
 - In 2012-13. (R. Burling)
- Figures for the Task Force and the Budget showed some discrepancy regarding savings for alignments - \$720,000 to \$856,000. Why is this? (M. Yeager)
 - One was an average cost for the task force, the other we were able to use actual figures to represent retiring staff members. (R. Burling)
- There was a discrepancy with the Rainy Day Reserve recommendation of \$1 million and the proposed budget of \$1.1 million. Can you explain? (T. Sauret)
 - The figure shown in the budget also includes contingency adjustments. We're still using about 42% of the Rainy Day Reserve. (R. Burling)
- With an 11.2% decrease in enrollment over the past ten years have the FTE adjustments been made proportionally? (C. Rochester)
 - We're playing catch-up in two ways: 1. Adjusted for targets identified at FY12 start, and 2. Added 2-3 students per class. We are getting closer to convergence (R. Burling)
- In November we estimated some reductions in FTE, but it looks much greater now. (A. Larson)
 - Yes. (R. Burling)
- A significant savings appears to be coming from the 4 day reduction currently proposed and subject to bargaining. What's the backup plan? (M. Yeager)
 - Further reductions in classroom teachers. (R. Burling)

- How many contract days are we required to have? Will we be okay in reducing this by 4? (M. Yeager)
 - The State actually counts instructional minutes; we do have some leeway to negotiate what kinds of days will be designated as reduction days – they may not all be instructional. We may also be able to apply for a waiver from the State. If not, we'll need to revisit cuts and reduction to staff. Cutting instructional days would be a last resort – our students need the instructional time. (E. Prince)
- What will we lose with the \$200,000 reduction to technology? (J. Ball)
 - Most of this is a reduction from Microsoft licensing fees that will not impact service to staff or students. (R. Burling)
- What happens when we run out of reserves? (A. Schuster)
- We're also assuming we won't see any further reductions in enrollment. (J. McCullough)
 - Yes. (R. Burling)
- Are the three reserve accounts equally available? (C. Rochester)
 - No. The Rainy Day Fund is accessible; the other two – contingencies and unappropriated ending fund balance – provide a safety net to cover our expenses for about one month. I would not recommend utilizing those. (R. Burling)
- The assumptions also show an expected 2% increase to the State School Fund. If this doesn't happen, we'll see a greater gap. (T. Sauret)
 - Yes. (R. Burling); 2% seems like a reasonable long-term assumption to me. (C. Rochester)

IV. ATHLETICS & ACTIVITIES FUNDING AT HIGH SCHOOLS

Matt Boring, Principal, and Bob Holt, Athletic Director, of Corvallis High School, along with Cherie Stroud, Principal, and Craig Ellingson, Athletic Director, of Crescent Valley High School addressed the committee regarding the funding of athletics and activities at the high school level. A summary of the conversation and questions from the committee:

- The summary provided to the committee by Roy Burling prior to the meeting (Filed as Supplemental Item #3 in the official 2011-12 Budget Committee Minutes) was a good tool to show where funds come from. There's never enough money to support athletics and activities; available funds are allocated based on student interest and safety. Funds are first allocated to athletics and activities governed by OSAA, so some club sports must fundraise for the bulk of their funding. (C. Stroud)
- We fund stipends, transportation and officials; teams fundraise for uniforms and supplies. We're leaner here than other districts, but we try to preserve as many opportunities as possible. (M. Boring)
- What is the out-of-state transportation policy for athletics and activities? Is this policy consistent by activity and school? (C. Rochester)
 - Out-of-state transportation costs are minimized as we can't fund what we aren't reimbursed by the State for – most groups going out of state fundraise. OSAA reimburses for playoff activities. (M. Boring; B. Holt)
 - Our league classification may be changing again which could increase transportation costs. (C. Ellingson)
- Are there any OSAA sports that we do not have? (L Baker)
 - No. Additionally, we have club sports like lacrosse and skiing. (B. Holt)

- The main concern we had last year was around equity issues. Two questions: 1. Do participation fees stay with the sport/activity, or are they pooled, and, 2. What factors drive staffing? (B. Rodman)
 - Fees are pooled. All students pay \$150 per sport; the third sport is \$100. These fees cover transportation and officials. (B. Holt) The only exception is Robotics, where the fees follow the activity. (C. Stroud)
 - Staffing varies with the sport/activity based on safety and numbers of participants. High contact sports may have more coaches, for example, than others. (C. Ellingson) The district pays for one coach at each level as dictated by participation – varsity, junior varsity, etc. Additional assistant coaches are fundraised or volunteers.
- How do the groups get advisors and coaches – who hires them and how do you verify safety? (A. Larson)
 - We hire the ones we pay for; non-district funded positions are often recruited and filled by parents. Regardless, all background checks and application materials required by the district to hire a teacher are also required of coaches. (C. Stroud)
- Is there a horizontal pay scale? (C. Rochester)
 - Those hired by the district follow the extra duty pay scale based on years of experience and other factors. For those not hired by the district, this pay scale is advised but many are volunteers. (C. Stroud)
- What about activities like band? (A. Larson)
 - Band, choir, and drama are classes and are also OSAA recognized activities. Because it's a class, these are assigned teachers. (C. Stroud)
- The proposed budget calls for a \$25,000 reduction at each school for athletics and activities. What will be missing next year based on this reduction? (A. Schuster)
 - Nothing. We'll fund it from other place. (C. Stroud) We may see some reductions in big trips, especially around finding substitutes to teach while the coach/advisor is away. We'll figure it out. (M. Boring)
- Are students charged \$150 at both schools? Is that also true for activities? Which ones don't pay fees? How is that decision made? (T. Sauret)
 - Yes, students at both schools pay the same amount and these funds are pooled for each school. Band and choir are classes and do not pay a fee. Robotics requested and were granted the opportunity to charge a fee that would follow that activity group. (C. Stroud)
- Only the \$150 fee and the gate receipts go into the pool, correct? (L. Pearce)
 - Yes, all fundraising follows the individual group. (B. Holt)
- Do students on free and reduced lunch pay the same fee? (C. Rochester)
 - No. We ask for a reduced fee of \$75, but work with individual families to make sure they can participate. (B. Holt) Coaches also work closely with these families to make sure other expenses (uniforms, etc.) are covered, too. (C. Stroud)
- Do they keep their uniforms? (L. Baker)
 - Some activities – like dance and cheerleading – require personalized uniforms. Others are passed down. Real participation costs can vary by activity. (C. Stroud)

- At what point do you stop trying to do it all? (J. Ball)
 - When the kids and the community lose interest. The General Fund contribution of \$457,000 (from R. Burling's summary sheet) is less than 1 percent of the whole General Fund budget. With that, we're serving over 50 percent of our student body in athletics alone. (B. Holt)

Chair Yeager, seeing no further discussion or questions from the group, thanked the presenters for their testimony and released the committee for a break at 8:05 p.m.

Chair Yeager called the group to order at 8:12 p.m.

V. PUBLIC TESTIMONY

Chair Yeager opened the meeting to public testimony and seeing no parties interested in testifying, closed public testimony.

VI. QUESTIONS/REQUESTS FOR MORE INFORMATION

Chair Yeager opened the meeting to questions and requests for more information from the committee. A summary of the requests is as follows:

- In all of my years on the board, I can't remember a time when no one testified at the first budget committee meeting – I think this is testimony to Erin and Roy's efforts to get the community involved early in the process this year. (B. Rodman)
- Regarding p. A23, line 29: Reducing Special Education administrators and classified personnel – is there a federal requirement to maintain funding? (L. Pearce)
 - Yes, we must maintain a level of funding from year to year to meet our "Maintenance of Effort" requirement. Although we are reducing administrators here, we will be adding teachers on special assignment (TOSA) staff, so we will still be able to meet our requirements. (E. Prince)
- Regarding p. A23, lines 24 and 27: A cut to purchased services is referenced. Is this a true cut or a shift to another fund? (T. Sauret)
 - We'll look into it. (R. Burling)
- Regarding p. C15, function 1220: There is an increase in FTE, yet the dollar figure increase for salaries and associated payroll costs don't seem to follow logically with this change. (R. Arnold)
 - We'll look into it. (R. Burling)
- A process question: Will there be additional presentations on specific areas? (J. Ball)
 - No. If you would like further information, however, please let us know. (R. Burling)

- Regarding p. D35, function 1272: There is a reduction of \$305,000, but only a reduction of 0.13 FTE. How does this work? (M. Donohue)
 - We'll look into it. However, I can say that grants were previously allocated at a higher level than what we anticipated; this year we made a conscious effort to move to a budget we can more closely manage with. Staffing is based on actuals rather than anticipated awards. (R. Burling)
- Regarding p. D40, function 2540, object 410: Is this amount for planned maintenance activities? (M. Donohue)
 - We'll look into it. (R. Burling)
- Regarding p. D51, function 2140: This is quite a change from last year – can you explain? (M. Donohue)
 - We'll look into it. (R. Burling)
- Is the 7 percent PERS assessment mentioned earlier tonight locked in or is it subject to revision? (C. Rochester)
 - PERS rates are set for each biennium. The mentioned 7 percent increase of qualified payroll is a figure based on a recent meeting with the PERS actuary. This will likely begin in 2014 and should be the rate for the next biennium. However, the PERS Board will meet in late September to solidify this number. Additionally, the spring legislative session may bring some reform. (R. Burling)
- Are they trying to make up the [PERS] gap quickly? (J. McCullough)
 - Funding for PERS is based on two revenue sources: investment gains and employer contributions. With investment gains waning, employer contributions have needed to increase. They've amortized the amount over twenty some years. (R. Burling)
- Regarding p. A20: With the reduction in collections for the local option levy, what will we see for future reductions in services? (L. Corrigan)
 - Likely classroom teachers. (R. Burling)
- Regarding p. A24: Increases are noted for transportation and property insurance. What else is included here? (A. Larson)
 - Also included intervention coaches, a Charter School increase (remote school correction), etc. We'll look into it. (R. Burling)
- Regarding Section C and Staffing Appendices: I'm having trouble trying to reconcile the FTE from section C and the staffing noted in the Appendices. (R. Arnold)
 - We'll look into it. (R. Burling)
- I have questions regarding the total cost per student at each level. It seems that middle school is significantly less than the other levels. Is this by design? (J. Ball)
 - We'll look into it. (R. Burling)
- Where are the intervention coaches in this budget? (J. Ball)
 - We'll look into it. (R. Burling)
- Regarding p. D11 and D21: Why were the literacy coaches reduced? (L. Baker)
 - This was not a statement of value, rather of change in model. Since these positions were not in front of classrooms, we moved to a coaching model to save classroom teachers. (E. Prince)

- Regarding Appendix D: \$7.8 million in potential capital improvement projects. Where are we going to get the money to do this, or will this be deferred? (A. Schuster)
 - This schedule was included to raise awareness regarding the facility needs in excess of revenues. We have proposed a roof replacement for Crescent Valley High School out of collected funds in the Insurance Fund and while the Construction Excise Tax is not what we'd hoped it would be, it is still a valuable source of funds. (R. Burling)
- Regarding Appendix C and F: I'm having trouble reconciling student counts shown here. Is there a trend we should be seeing? (T. Sauret)
 - We'll look into it. (R. Burling)
- Regarding the PowerPoint assumptions regarding long-range planning: The payroll figures shown included no cost of living and no step increases? (L. Pearce)
 - Yes, it's basically a snapshot for guesstimate/planning purposes. (R. Burling)

VI. PUBLIC TESTIMONY

Bruce Sorte, 526 NW 35th St, Corvallis. Mr. Sorte is the Vice President of the Harding Neighborhood Association. Seventy-seven people showed up for previous meeting. The association passed by-laws and appointed positions. The grounds of College Hill High School are very important. The Harding Neighborhood Association hopes that the School Board will consult with them regarding decisions that will impact the area. He would like to restart the

picnics that used to be held at Harding. The association will also be discussing town density and other issues with OSU.

Carmen Allen, student. Ms. Allen read aloud a portion of the student's rights and responsibilities policy to the Board.

Craig Allen, P.O. Box 1416, Corvallis. Mr. Allen expressed concerns about Board policies regarding student placement. He read aloud from policy JBE and policy AC. Mr. Allen feels policies are being violated by the school district and asked the Board to take action and abide by them.

Denise Cardinali, 6017 SW Grand Oaks Drive, Corvallis. Ms. Cardinali asked the Board to carefully look at which four days will be cut from the 2012-13 school year. She asked that those days be publicized as furlough days and that the entire District be shut down on those days. Last two days of the school year could be used as furlough/make-up days. Ms. Cardinali commended the high school team for their work of the schedule, but feels it is important to look at the K-12 continuum. Next year's schedule will not allow collaboration between staff at different grade levels. She encouraged the Board to change the continuation of late start on Wednesday.

VII. STAFF TESTIMONY

Marc Rosegold, Counselor at Crescent Valley High School. Mr. Rosegold read from a prepared statement opposing changes to the current policy regarding high school graduation exercises (Board Policy—IKFB). (Filed in Section V of the Official 2011-12 Board Minutes.)

VIII. SPECIAL REPORTS

A. Alternative Education Advisory Committee

College Hill Counselor Chuck Holst, along with students Schyler Edwards, Katelynn Monroe, Steffen Crilly, and Lauren Marlow gave a presentation regarding College Hill High School and the Alternative Education Advisory Committee. (Filed as Supplemental Item #VII-22 in the Official 2011-12 Board Minutes.)

A summary of the presentation along with answers from presenters to questions from the Board follows:

- An original song was performed by Chuck Holst, accompanied by Schyler Edwards on guitar.
- Each student shared his or her personal educational experience at College Hill.
- Community 101 Project resulted in a student-made documentary film on homeless awareness in Corvallis.
- Policy has allowed College Hill to stay at a manageable size. Numbers have been kept at a manageable pace, especially for at-risk students.
- College Hill emphasizes being part of the community; is currently working on campus beautification, and possible partnering with the Harding Neighborhood Association.

- Currently College Hill has no sign on the building, indicating the school that is inside.
- The perception of College Hill is improving, but there is still a ways to go. It is important to let the community know that there is an alternative option for students and their education.
- Students feel that there is less bullying at College Hill then at other high schools in the district.
- College Hill has many volunteers from OSU; this means that there is more attention paid to individual students, and more help in the classroom.
- College Hill allows for great progression for students.
- The Alternative Education Advisory Committee is a zero budget line committee.

II. ADOPTION OF APRIL 30, 2012 MINUTES

Tom Sauret motioned to adopt the April 30, 2012 committee minutes. Blake Rodman seconded the motion. Seeing no desire for discussion, Chair Yeager called for a vote and the motion passed unanimously.

III. FOLLOW-UP TO PREVIOUS MEETING'S QUESTIONS

Chair Yeager asked if the group had any follow up questions or requests for clarification in regards to the follow-up to questions asked at the last meeting. (The Committee Questions and Answers are Filed as Supplemental Item 4 in the official 2011-12 Budget Committee Minutes)

A summary of questions and discussion items from the group:

- Regarding question 13 on page 2: I found the ten year change in enrollment and number of certified FTE to be interesting. (M. Yeager)
 - The data reflects our community's interest in keeping class sizes low. (R. Burling)
 - The impact of the Local Option Levy can also be seen. There were a couple of years when this didn't exist – the increase for FY08 shows the impact of both an increase in state dollars plus a renewal of the Local Option Levy. (L. Martin)
 - We did, however, have a Local Option Levy in the beginning of this ten year period, so the overall trend is significant. (A. Larson)
 - And, we did target very specific goals for the levy funds starting in FY08 – addressing concerns around class sizes, PE, music, and athletics. (M. Donohue)
- Regarding question 26 on page 5: What is Step 7 MA? (M. Yeager)
 - This was the salary level used for our assumptions – step 7, master's degree. (R. Burling)
- Regarding the chart shown on page 10 under question 52: What does this refer to? (M. Yeager)
 - This was an error – that chart should have been located under question 55 on page 11. (J. Schroeder)
- Regarding question 48 on page 10: This appears as though the purchased services are still being purchased, but the funding source is being shifted to another fund. How is that a cut? (T. Sauret)
 - It is a reduction to the general fund and therefore not tied to the state school fund or local option levy revenue streams. (R. Burling)
 - We'll make sure the chart is more clearly labeled as reductions to the general fund. (L. Martin)
- In regards to question 36 on page 7: How, specifically, is this formula different from last year? (J. Ball)
 - In years past, we previously weighted elementary students more heavily in addition to staffing at lower class sizes. This year, all students are weighted equitably at all grades (with the exception of kindergarteners, weighted at 0.5), with an additional weighting only for students in poverty. (R. Burling)
- How many FTE are funded out of Special Education funds? (J. Ball)
 - I'll get that number to you. (L. Martin)
- I am troubled by the conclusion that our allocation to Muddy Creek Charter School (MCCS) isn't going to increase in this next year; the Portland State enrollment estimate is lower than what MCCS staff are expecting. (J. Ball)
 - The enrollment at MCCS has been steady for the last few years. Again, kindergarteners are weighted at 0.5, so if MCCS staff were quoting an overall enrollment figure that might be part of the discrepancy. The increase would likely not be material even if MCCS increased enrollment to the maximum allowed in their contract. (R. Burling)
- In regards to question 44, page 9: To clarify – is the \$1.55 million noted really going to plant services or is this just a convenient parking spot?
 - I would suggest that this would be an amount that has been parked there. These funds are for targeted purposes only and the Executive Team will be reviewing requests for their use carefully. As plans for use become more solid, it may be that

staff will come back to the board for any necessary adjustment of allocations. (R. Burling)

- Again in regards to question 44: Will the \$150,000 noted for each level be sufficient for technology needs in particular? (J. Ball)
 - What is shown here is targeted for textbook adoption. This is a relatively light year in regards to needs. Technology is shown in a separate line item. (E. Prince)
- I had requested a presentation regarding how the budget aligns with district goals. Am I correct that this will not be taking place? (J. Ball)
 - The budget document, discussion items, and presentations planned for these meetings were intentionally kept at a high level based on this group's OSBA training. Some of those specific achievement plans would be a board discussion. (E. Prince)
- Part of the OSBA training noted that the committee should be looking at how the budget reflects the goals and priorities of the board. I'd like to see something like that in the budget document itself. (J. Ball)
 - There are actions being taken to restructure our organization, including changes to special programs, different allocation methods for discretionary funds, and a change in focus for intervention efforts at the secondary levels. We can certainly add some language about those efforts into the document. (E. Prince)
 - It would be helpful to know what we're doing to change our practices and structure in an effort to be more efficient – we know a lot about the cuts and increases in class size, but not much about the other actions. (J. Ball)
- Roy did a nice trend analysis in response to my question about the discrepancies between spending levels at elementary, middle, and high school levels. My concern is that the decrease in spending at the middle school level may be cause for necessary remediation efforts at the high school level. (J. Ball)
 - The trend analysis was interesting. A couple things that came to mind for me were that the costs for comprehensive high school programs are by nature more expensive and the elementary level has been weighted more heavily in the past to address concerns about class sizes. (E. Prince)
 - Some follow-up analysis would be interesting, especially around the varying costs of classified versus certified staff at the different levels, as well as experience ratings. (R. Burling)

IV. PUBLIC TESTIMONY

Chair Yeager opened the meeting for public comment. A summary of the testimony:

Bacelisa Cisneros, 980 NW Hobart #4, Corvallis

Ms. Cisneros testified that parents who do not speak English have relied heavily upon the services provided by Monica Schlechter, ELL Student/Family Advocate. She expressed that Ms. Schlechter has been very supportive of her daughter, very easy to work with, and is very necessary in the district.

Alejandro Medina; 940 NW Hobart #4, Corvallis

Mr. Medina expressed his desire to echo the comments of Ms. Cisneros.

Denise Cardinali, 6017 SW Grand Oaks, Corvallis

Ms. Cardinali expressed her concern that the document was very difficult to follow and also very vague – a parent's experience doesn't necessarily match what is published. She expressed concern that only average class sizes are discussed while she has students in classes of forty and routinely is concerned that there won't be enough textbooks to go around.

She also expressed concern over the types of users who are allowed in our buildings – many of those groups are not taking care of the facilities and we should be more aware of this.

Enriqueta Carrajul, 2481 SW Pickford, Corvallis

Ms. Carrajul also expressed her concern about the planned reduction in services to families who do not speak English. She echoed sentiments of previous testimony, stating that she would offer whatever support she could to support the retention of this position.

Chair Yeager, seeing no further requests for testimony, thanked the presenters and closed public testimony.

V. COMMITTEE DELIBERATION

Chair Yeager asked for discussion items from the committee regarding the proposed budget. A summary of the discussion is as follows:

- What background information is available regarding the testimony we've received tonight about translation services? (J. Ball)
 - The position discussed is an ELL Student/Family Advocate position that has been eliminated as part of our district-wide efforts to better align staffing with student enrollment. Corvallis High School staff are working to shift duties to other individuals so that services will still be available to families. (E. Prince)
 - Bi-lingual staff members at Corvallis High School will be given time to cover these services for families. (A. Ward-Satey)
 - I'd recommend that clear communication be provided to parents as to where they will need to go to access these services. In addition to meetings, it may be wise to prepare a written document to explain changes to parents. (M. Donohue)
- Are any of the counselors at CHS bilingual? (A. Schuster)
 - Currently, no. As positions open in the future that would be a skill set we would be interested in. (A. Ward-Satey)
- May we take time to provide feedback for improvements in the clarity and transparency of the budget and the process to assist in preparing us for next year? (J. Ball)
- I feel that this document doesn't represent all of the meetings from November through now – it may be the nature of this cycle and the timing of the process. (L. Corrigan)
- This is the biggest reduction I've been through – it's a painful budget. I'd like to thank the staff and recognize the efforts of everyone impacted by these cuts. (L. Corrigan)
- I've appreciated the process – there wasn't a lot of testimony due to the efforts over the past few months to solicit input. I think the Budget Task Force was a great addition and the school and community forms were helpful. (A. Schuster)
- We've gone through many ebbs and flows of budget documentation through my tenure on the committee. Some of it is overwhelming and preparation doesn't happen over night.

We may not know how budgets will impact schools; it's hard for me to determine if the lack of public testimony is based on the fact that people have already felt heard or if they don't know enough about what will be cut to testify about it. (M. Yeager)

- I also appreciated the work of the Budget Task Force. I also think that a budget, by its nature is always going to be a book of numbers. If this were a document solely for the use of the committee during its deliberations, I think that this would be an adequate presentation. However, it's not just that – we have a responsibility to communicate to our community as well. And, this document falls short of meeting those interests. There is some very bad news, but there are also some positive things happening in terms of planned restructuring and different ways of looking at the way we do business that are not adequately reflected by this document. (J. Ball)
- I agree. While there are certain legal requirements this document must meet, the presentation also depends on the audience. I think that there have been some great attempts to reach out to people to let them know what we're facing that may not be reflected in this paper document. I'd also like to recognize the balancing act of the staff in putting this together in a very short period of time. (M. Yeager)
- I've found the comments from the citizen members of this committee to be very valuable to me and would encourage comments from those members at this time. (B. Rodman)
- Will there be a backlash if we recommend the budget as is tonight in light of the informational meetings being held at the school level? (J. McCullough)
 - Now that staffing has been completed, information is being shared by principals with their individual school communities. I've not seen a schedule of these meetings. (J. Duvall)
 - We've shared our staffing plan with staff and with parent groups with the caveat that it could change; we have to move forward and plan for next year regardless of the timing of the budget meetings. (G. Penrose)
 - There will be an opportunity for the public to make additional comments to the board when the budget is discussed again in June. My guess is that, yes, as more is known about the specific impacts, we may see additional testimony. (B. Rodman)
- We should also be mindful that we're still in the middle of contract negotiations with both unions. This is a juggling act. (A. Schuster)
- Is there going to be a school by school effort as far as communicating to parents what this means? (R. Osborn)
 - Yes, schools do make individual efforts. I've already sent out information to staff regarding some impacts to the District Office staff. (E. Prince)
 - I suspect that on one hand, you realize that in our situation things must change; on the other, this is a hard document to read and I suspect that as things become more real to parents, communication will be very important – especially with increased class sizes being more obvious in the fall. (R. Osborn)
- Can you clarify what you meant about this being a hard document to read? Do you mean tough news or the document itself? (A. Schuster).
 - Tough news. (R. Osborn)
- The entire process is, by its very nature, difficult to understand. And, as per our OSBA training, this process is meant by law to be done at a higher level. The concern I have is that one of our major goals as a board is a sustainable budget. While I greatly appreciate

the process and the work of the Budget Task Force, I'm not sure that the budget proposed is sustainable. We'll be facing some very large challenges next year – many of the cuts proposed are one-time or short-term in nature. (T. Sauret)

- I agree that is my biggest concern. We need some additional long-range planning. (J. McCullough)
- I agree. What was missing for me would be more information regarding how we're working more efficiently. How are we going to further move to doing more with less. Additional narration of why we pay less for middle schoolers while we're seeing performance issues at the high school level would be helpful. I would like to see a better picture of the vision of how we're going to adapt and change to reach our goals while also ensuring that we can maintain buildings and meet requirements when the Rainy Day Fund is gone. (L. Baker)
- I think we're on our way to a sustainable budget, but I'm wondering how we can marry the district improvement plan process to the budget – perhaps it would be helpful for the citizen members to have a better understanding of that piece of the process. (M. Donohue)
 - This is something that will be happening at a state level. It is hopeful that this will be a more natural connection next year. (E. Prince)
 - I agree that would be helpful. (R. Osborn; L. Baker)
- I feel we have a special obligation in this community where we receive 9 percent of our funding through a local option levy to communicate effectively with our patrons. Even though the community has been very supportive, we need to make communication a priority. It would be helpful to have footnotes in the document to explain when money is moved from one location to another. (A. Larson)
- It is going to be a huge loss to the district when Carol [Communications Specialist] leaves. She has done a fabulous job in communicating with the public and I'm not sure how we're going to continue at that level. (A. Schuster)
- We are at the mercy of the state; OSU and the City of Corvallis are working to improve the opportunity for affordable housing, but our enrollment is declining. Something will need to be done at a state level. (A. Schuster)
- One way to perhaps enhance the communication would be to categorize expenditures in terms of services rather than the functional way they've been categorized by the state. We also need to be mindful of cuts that we have made to our maintenance and facilities – those may come back to bite us and we must plan for long-term maintenance. (M. Yeager)
- Can we get more information about the waiver (referring to the questions and answers again on page 10, question 28)? This has really upset me over the past two weeks. Is it common for districts to request a waiver? (L. Baker)
 - Yes, unfortunately many districts have requested a waiver. We're still looking at what impacts this will have for us – this is a one-time, short-term solution that doesn't feel good. We're looking at non-instructional time, but that will need to be negotiated with the unions. (E. Prince)
 - Redmond is cutting 17-20 days this next year. In other areas it has been very difficult. All districts are being stretched to the maximum. (K. Bogatin).
- Several years ago, the state came up with a Quality Education Model and determined the level of funding that was believed to be necessary to meet that level of service. Then,

then legislature promptly ignored it and our funding is nowhere near that required level. We're coming to the point where systematic state and federal reductions to education are really impacting our ability to do business. We need to advocate at a state level for changes. (M. Donohue)

- To reflect on this budget, Corvallis has not been in the past and is still not in the terrible situation that many of the districts are. From one point of view, we're in a very deep hole, but in another we're in an extraordinary position due to our reserves and local option levy. However, our savings will soon run out. We need to prioritize and establish a sustainable budget. (J. Ball)

VI. APPROVE TAX RATES, TAX AMOUNT, AND 2012-13 BUDGET

Seeing no further deliberation from the group regarding this year's budget, Chair Yeager asked if there was a desire from the group to make a motion.

It was moved by Blake Rodman to levy the tax rate of \$1.50 per \$1,000 of assessed value for the Local Option Levy for the General Fund. Tom Sauret seconded the motion. The motion passed without opposition.

It was moved by Jim McCullough to levy the permanent tax rate of \$4.4614 per \$1,000 of assessed value in support of the General Fund. Tom Sauret seconded the motion. The motion passed without opposition.

Matt Donohue made a motion that Corvallis School District proposed budget for FY2012-13 in the aggregate amount of \$103,369,633 be approved as proposed. Tom Sauret seconded the motion. The motion passed without opposition.

Matt Donohue made the motion that a tax levy of \$8,726,500 be approved for the Debt Service Fund for the purpose of retiring bonded debt owed by the school district. The debt service levy is expected to raise \$8,447,213. Lisa Corrigan seconded the motion which passed without opposition.

VII. NEXT MEETINGS, OTHER BUSINESS, ADJOURNMENT

Chair Yeager thanked the group for the process discussion and expressed appreciation in particular to Rich Arnold and Arne Larson, citizen members whose terms will expire this year. He noted that since all required business of the committee was now complete, the May 29, 2012 meeting would not be necessary and would be canceled.

The meeting was adjourned at 8:33 p.m.

III. SPECIAL REPORTS

A. Career and Technical Education (CTE)

Presenters: Kevin Bogatin; Adam Kirsch; Rob Duvall; Kevin Skillings; Jan Boley; Mark Baldwin

The group worked from two PowerPoint presentations and a handout covering the topics of wood, metal, pre-engineering, and information management. (All are filed as Supplemental Item #VII-23 in the Official 2011-12 Board Minutes.) Their presentations included: the importance of funding from the Carl Perkins Grant; the need for teamwork; the appeal of certain courses to

girls; the awards their students have won over the years; the apprenticeship opportunities students have; how CTE helps students understand the need to know the information and gives them valuable real-world, hands-on experience.

Board members offered compliments and comments, and asked questions of the presenters. As a result, Board members received information about:

- the flow of students between the two high schools to access the various classes each offers;
- the constraints on programs due to facilities and equipment access issues;
- the predictability of success for students who are able to drive themselves to/from each high school vs. those who rely on public transportation or the District's shuttle;
- the numbers of students in the various courses at each school;
- student safety;
- how staff encourages students to take any form of post-secondary education;
- how staff tries to help students find out what trades they're passionate about;
- how the skills learned by students who have taken CTE courses helps them stand out from their peers when applying to post-secondary educational institutions;
- why schools can only sell at cost the items students create;
- projects involving green building;
- how the District's CTE program is one of only five model programs in the state;
- the Oregon Department of Education recently did a 3-day study of the District's CTE programs with the goal of replicating their efforts statewide.

Chair Schuster recessed the meeting at 8:00 p.m. and reconvened it at 8:10 p.m.

Held for discussion: Science Digital Curriculum Adoption (Middle School and CVHS).
(Filed as Supplemental Item #IV-9 in the Official 2012-12 Board Minutes.)

Director Donohue explained his concerns regarding the resource links on the CK-12 science curriculum web site, including Wikipedia and .com sites; he questioned how staff will manage those aspects of the online curriculum.

Discussion ensued between Board members and staff that yielded information including:

- the curriculum adopted is a starting point and the primary aim is to meet core standards;
- how the curriculum and materials are used to get to the standards varies by class;
- as standards are rapidly changing, textbooks cannot keep up;
- Wikipedia is more reviewed than any of our textbooks;
- students will be taught about media safety, media literacy, and the influence of media;
- state rules require a district-wide adoption vs. adopting different curriculum for different teachers;
- “curriculum adoption” should probably be renamed “resource adoption”;
- staff will report next year about the results of this curriculum – positive and negative – and any changes that

- will be made to better the results;
- there will still have to be textbook adoptions;
- technology is an investment in a tool that will allow access to unlimited content;

VI. ACHIEVEMENT COMPACT DISCUSSION

Presenter: Dr. Erin Prince

Dr. Prince reported that staff is still waiting on data to fill in all of the blanks of the draft achievement compact sent by the state. She sought support from the Board regarding her desire to submit the document in June without all of the data; then complete it in the fall and resubmit it. She noted that the superintendents in the region sent a letter to the Governor's Office; staff there understand that districts won't be able to put a lot of attention and thought into the achievement compact until they have complete data.

Dr. Prince clarified that the Board doesn't need to approve this round of the achievement compact because complete data won't be available by the June 30 submission deadline. She noted that the targets in the draft aren't the ones that will be in the final achievement compact because they are based on false data. Dr. Prince said that, as a superintendent, she couldn't in good conscience submit targets when she doesn't have data to base them on; the targets in the draft are merely placeholders, which is legal. She added that the current format of the achievement compact will likely change because it is very different than what the Oregon Education Investment Board (OEIB) initially envisioned; more information will be available once the state education officer is hired. Dr. Prince noted that the Board will work on the achievement compact at its September retreat.

Director Ball shared information she obtained from attending meetings of the OEIB, opining that the achievement compact is an opportunity for the Board to become involved with promoting student achievement.

The Board reached consensus to support Dr. Prince's plan.

VII. BOARD SELF-EVALUATION RESULTS

Chair Schuster noted the change of the word "mean" to "mode" in the table of results the Board had received. Staff will provide Board members with expanded survey data, which the Board will use as a starting point for the discussion at the September retreat.

The agenda for the retreat was briefly discussed and resulted in the following suggestions and comments: split the time evenly between achievement compacts and the Board self-evaluation; two hours won't be adequate for the self-evaluation; Board leadership will discuss the retreat agenda with Dr. Prince after receipt of the expanded data; perhaps set up a structure for collecting responses.

VIII. EXECUTIVE SESSION – The Board met in Executive Session at 5:15 p.m. under ORS 192.660 (2)(d) – To consult with persons designated for labor negotiations.

IX. ADJOURNMENT

There being no further business before the Board, Chair Schuster adjourned the meeting at 8:50 p.m.

XIV.H. Paid Lunch Equity: School Year 2012-2013

BOARD MEETING DATE: June 18, 2012

FOR ACTION

SUBJECT: Paid Lunch Equity: School Year 2012-2013

Issue: Corvallis School District Food Service is required to amend meal revenues according to the Healthy, Hungry-Free Kids Act of 2010 to ensure sufficient funds are provided to the nonprofit school food service account for meals served to students not eligible for free or reduced price meals. The calculations were determined through data submitted to the Oregon Department of Education through monthly reports.

Recommendation: Raise the cost of student lunch prices by \$0.10 for secondary schools and \$0.25 for elementary schools to be in compliance with other Oregon school districts our size.

<u>Current:</u>	<u>Breakfast</u>	<u>Lunch</u>	<u>2012-2013</u>	<u>Breakfast</u>	<u>Lunch</u>
Elementary	\$1.00	\$2.00	Elementary	\$1.00	\$2.25
Middle	\$1.50	\$2.65	Middle	\$1.50	\$2.75
High	\$1.50	\$2.90	High	\$1.50	\$3.00

Options Considered: There are two ways to meet this requirement: either through the prices charged for “paid” meals or through other non-Federal sources (General Fund) provided to the nonprofit school food service account.

Involvement: Food Services, Corvallis School District

Consequences: This is a required action. Federal reimbursement through the National School Lunch Program would be withheld until meal prices were updated.

ACTION REQUESTED: Authorize Food Services to make requested changes in Lunch pricing.

XIV.I. Custodial Supplies Contract Award

Corvallis School District 509J
Board of Directors

BOARD MEETING DATE: **June 18, 2012**

FOR ACTION

SUBJECT: Custodial Supplies Contract Award

Issue:

A joint solicitation was conducted by Corvallis School District, Albany School District and Linn Benton Community College for custodial supplies. As far back as 1997, Corvallis School District has conducted a Request for Proposal (RFP) for custodial supplies in such a joint solicitation. The proposals have each been for contracts of five year terms and include all custodial supplies for the district.

Other public agencies desiring to use this contract may do so upon approval of Corvallis School District. During the most recent year of this contract, 43 such agencies have used the contract to make their custodial supply purchases. In addition to the improved purchasing power that this contract provides us, we also are entitled to an annual administrative fee for the management of this purchasing agreement equal to 1.8% of all purchases by all user groups except the other two host agencies. This year's RFP set contract terms from July 1, 2012 thru June 30, 2017.

Two vendors submitted proposals: AmSan and Coastwide Laboratories.

Involvement:

The review team included Julie Foss and Gary Dahlquist from Albany School District, Kevin Lacey from Linn Benton Community College, and John Meyer from Corvallis School District. The team considered the merits of both proposals against the requirements of the RFP. Reference checks were completed on both vendors. AmSan requested the ability to submit additional clarification in order to prevent the rejection of their proposal.

The review team was unanimous in deeming the proposal from Coastwide Laboratories to be most responsive to the needs of all the agencies.

ACTION REQUESTED: Award the contract for Custodial Supplies 2012 to Coastwide Laboratories.

XIV.K. Science Textbook Adoption (Franklin and CHS)

BOARD MEETING DATE: June 18, 2012

FOR ACTION

SUBJECT: Science Textbook Adoption (Franklin and CHS)

Issue: Our science curriculum at the middle and high school levels is outdated and up for re-adoption according to Corvallis School District's current textbook adoption plan. Most of the textbooks students are using are from the 1990s.

Note: Our current textbook adoption plan is not in sync with the Oregon Department of Education's (ODE) adoption cycle. This is a topic Instructional Services is aware of and exploring remedies for, because it is best to be on the same adoption cycle as ODE.

Options Considered:

Renew the adoption of current textbooks. No purchase required.

Purchase newer textbooks and purchase used textbooks whenever possible.*

Purchase digital textbooks and hardware/devices for those texts.

Purchase hardware/devices and utilize free digital curriculum.

*This is the option Instructional Services Department recommends

Involvement:

Sally McAfee and Bryan Traylor worked with secondary science teachers across the district beginning in the fall, mostly via PLC meetings, department meetings and email. All science teachers previewed a large variety of textbooks in their specific content area, including digital texts. The district alerted the teachers in the fall that we would likely support a digital textbook option, but acknowledged that it would be a pilot and would work best with high teacher buy-in. Thus, the science teachers' recommendation for adoption and purchase of a traditional textbook is understandable and acceptable.

AP Biology and AP Physics courses require use of a textbook that must meet a large list of criteria, one of which is that the textbooks must be no more than 10 years old. Our current texts do not meet those criteria, so to continue offering AP science classes, we must purchase new textbooks. Franklin middle-level science teachers also discussed their options in depth and have recommended a plan that involves purchasing one cart of iPads and one set of textbooks.

This spring, the science teachers presented to the Instructional Services Department a list of textbooks they would like purchased as part of this textbook adoption year. Because it is not a science adoption year, many of the textbooks are not on the approved textbook list through ODE. This requires some additional steps, including an in-depth examination of each textbook to ensure standards alignment, diversity, and accessibility.

All texts on the list we are recommending meet the requirements set forth by ODE.

Textbook Titles - CHS	Course
Modern Chemistry	Chemistry
Life on an Ocean Planet	Marine Science
Life on an Ocean Planet - Teacher Guides and Materials	
Life on an Ocean Planet - Lab Activity Manual	
Holt Science Spectrum: Physical Science	Biophysical Foundations
Campbell Biology	AP Biology
Introductory Horticulture	Horticulture
Introductory Horticulture Lab Manual	
Fundamentals of Physics Extended	AP Physics

Textbook Titles – Franklin	Course
CPO Life Science	MS Life Science
CPO Physical Science	MS Physical Science
CPO Earth Science	MS Earth Science

Consequences:

Current science textbooks are very old and outdated. Some have copyright dates from the 1980s, although most of them are from the 1990s. Continuing to educate students using outdated textbooks is unfair for students and puts more work on teachers to add materials that align to standards.

Cost Impact:

The anticipated cost is \$65,000; however we will not exceed \$80,000. We don't have an exact number because we are attempting to purchase as many quality, used textbooks as possible. Prices range from \$18 per used textbook to \$150 per new textbook.

ACTION REQUESTED: Approve the above recommended texts for science courses at Franklin and CHS.

XIV.L. Social Science Textbook Adoption (Crescent Valley High School)

BOARD MEETING DATE: June 18, 2012

FOR ACTION

SUBJECT: Social Science Textbook Adoption (Crescent Valley High School)

Issue: 2011-12 is the Social Science adoption year on the ODE textbook adoption cycle. Currently, our district is not in alignment with the state adoption cycle. However, because of the recent social science standards adoption (October 2011) and the fact that this is the social science adoption year in the state's cycle, instructional services department staff asked high school staff to complete a needs assessment in this area. From that assessment there was concern about the current status of some social science textbooks (aged and not aligned to standards) so a decision was made to allot a portion of the instructional materials budget for social science at the high school level.

Note: After reviewing the new standards as part of PLC work, the middle school social science teachers quickly realized that their current texts are not in alignment. We are working on ways to adapt for minimal cost until we are able to budget for a full adoption in social science. This group is very interested in how the iPad pilot works for science this year and would be eager to move to digital texts.

Options Considered:

Renew the adoption of current textbooks. No purchase required.*

Purchase newer textbooks and purchase used textbooks whenever possible.*

Purchase digital textbooks and hardware/devices for those texts.

Purchase hardware/devices and utilize free digital curriculum.

*These are the options Instructional Services Department recommends

Involvement:

The social science teams at both high schools began the textbook adoption process in the fall – reviewing standards, previewing textbooks, analyzing current textbooks, etc. Knowing there were not enough funds for a full adoption, they were asked to prioritize their needs. CHS teachers were very intrigued with digital textbooks and spent several PLC sessions previewing digital material; however, they found a lack of free curriculum, and the digital curriculum they found was too expensive to purchase along with a device.

The social science team at CHS chose to hold off spending its allotted funds this year; the team is very hopeful that the coming year will bring more affordable/free social science curriculum. Each of those teachers will be utilizing an iPad to be able to pilot the curriculums as they become available during the upcoming year.

CV teachers prioritized replacing textbooks in two areas: Psychology and World Geography.

Textbook Title – CVHS Social Sciences	Course
Thinking about Psychology: The Science of Mind and Behavior	Psychology
World Geography(Prentice Hall)	World Geography

Consequences:

Both textbooks recommended for replacement by CV teachers are very outdated. It is important to have current information to use with students. Continuing to educate students with outdated textbooks is unfair for students and puts more work on teachers to add materials that align to standards.

Cost Impact:

The total cost for new textbooks for CVHS Social Science is \$35,000.

ACTION REQUESTED: Approve the above recommended texts for Psychology and World Geography at Crescent Valley High School.

XIV.M. CVHS Roof Replacement Contract Award

BOARD MEETING DATE: June 18, 2012

FOR ACTION

SUBJECT: CVHS Roof Replacement Contract Award

Issue: Crescent Valley High School's roof has exceeded its useful life. In 2009 and 2010, district staff attempted a restoration project that was expected to extend the useful life of the roof by 7-10 years. The restoration process was very time consuming and district staffing levels could not support restoration of the roof at a rate that successfully addressed the leaks and prevented further damage to the facility.

In the spring of 2011, Rowell Brokaw Architects were hired to provide an architectural roof assessment to determine if the District should continue the restoral process or seek a roof replacement. The architects found that the drainage on the roof was not adequate to keep standing water off of the roof. Pooling occurred on most of the buildings and caused damage to the roof membrane and insulation, and created leaks into classrooms and hallways throughout the campus. Rowell Brokaw Architects recommend a complete roof replacement that addresses drainage and slope of the roof and provides an extended life of the structure.

The district hired Rowell Brokaw Architects to proceed with design of the roof replacement in February 2012. In addition to Rowell Brokaw, staff worked with Catena Consulting Engineers to assess seismic upgrades directly related to the roof replacement and PBS Environmental to consult on hazardous materials abatement.

Requests for bids were advertised in the Daily Journal of Commerce and Corvallis Gazette Times on May 15, 2012. A pre-bid conference was held on May 23rd and many roofing contractors and general contractors were present at the meeting. The following bids were received:

<u>Contractor</u>	<u>Base Bid</u>
2G Construction	\$3,363,000
Anderson Construction	\$3,937,189
Snyder Roofing	\$4,427,318
Gerding Builders	\$3,459,000

Of the total cost of the project, \$3.5 million will be paid out of the District's Insurance Fund; appropriations were already in the 2012-13 budget for this. Contract award to 2G Construction will be requested of the Board at the June 18, 2012 meeting.

XIV.N. Renewal of Property/Liability Insurance for 2012-13

BOARD MEETING DATE: June 18, 2012

FOR ACTION

SUBJECT: Renewal of Property/Liability Insurance for 2012-13

ISSUE: Each fiscal year, the District must bind insurance coverage for property and liability. In 2011-12 we purchased property insurance from Travelers Insurance, liability and auto insurance from Property and Casualty Coverage for Education (PACE), surety bond coverage from Hartford, and storage tank coverage from Great American Insurance.

The District's Agent of Record, Barker-Uerlings Insurance solicited quotes from carriers in the appropriate markets for FY2012-13.

Cost Impact: The property insurance renewal from Travelers Insurance came in at **\$280,000**, an increase in their rate over FY2011-12 (\$272,872). Travelers Insurance renewal premium is higher this year after several years with no change to their property rates. In addition, the building and contents values were trended by 2 percent each for this renewal. To offset this increase, it is recommended the District continue with the current \$25 million limit for Earthquake coverage, but reduce the Flood coverage limit to \$1 million (from the current \$5 million). A separate Travelers policy provides the Equipment Breakdown coverage that includes the State of Oregon mandated boiler inspection program on a separate policy for an annual premium of **\$15,517**, an increase of \$217 over FY2011-12.

The quote from Property and Casualty Coverage for Education (PACE) for liability, automobile and crime came in at **\$122,751**. This is an increase of \$9,224 compared to last year's PACE premium of \$113,527. The premium increase is a result of escalating claim costs in the PACE Trust and higher overall liability rates for all members. The District also has Storage Tank Pollution Liability coverage for the two tanks located at Lines Pauling Middle School. There was no increase from Great American Insurance in their premium quote of **\$700** for FY2012-13.

The Public Official Bonds for the District's Superintendent and the Director of Business Services with limits of \$500,000 are currently insured by Hartford Insurance Company. Total premium for both Public Official Bonds is **\$2,800**, with no increase over FY2011-12.

Involvement: Agent of Record, Barker-Uerlings Insurance, solicited quotes and provided a review and recommendation to the District.

Recommendation: Place property insurance (including earthquake coverage) with Travelers Insurance, liability/auto insurance and crime coverage with PACE, storage tank pollution liability with Great American, and bond coverage with Hartford.

ACTION REQUESTED: Approve purchase of property insurance (including earthquake coverage) from Travelers Insurance, liability/automobile insurance and crime coverage from PACE, storage tank pollution liability from Great American, and bond coverage from Hartford.

XIV.O. Renewal of Workers Compensation Insurance for 2012-13

BOARD MEETING DATE: June 18, 2012

FOR ACTION

SUBJECT: Renewal of Workers' Compensation Insurance for 2012-13

Issue: Each fiscal year, the District must bind insurance coverage for workers' compensation. In 2011-12 we purchased our coverage from SAIF. Through the District's Agent of Record, Barker-Uerlings Insurance, we are requested quotes from carriers in the appropriate markets for the 2012-13 fiscal year.

Over the years our District has had poor claims experience from injuries on the job. Injuries experienced by employees included shoulder and back trauma from lifting, knee and back injuries from slips and falls, and hand injuries from accidents. Risk Management continues to implement safety changes and has worked with employees on the importance of safety in our District.

Quotes were solicited by the District's Agent of Record, Barker-Uerlings Insurance. Quotes were only received from SAIF Corporation and were reviewed by Debbie Bell and Karen Selander.

SAIF Corporation has substantial experience working with school districts in Oregon; and they have had long term stability in the marketplace along with their excellent claims and loss control services. The annual premium offered by SAIF Corporation is \$212,548, including assessments. This is a decrease of 4.06 percent (\$8,990) over the FY2011-12 premium.

Involvement: Agent of Record, Barker-Uerlings Insurance, solicited quotes and provided a review and recommendation to the District.

Recommendation: Place workers' compensation insurance with SAIF Corporation.

ACTION REQUESTED: Approve purchase of workers' compensation insurance from SAIF Corporation for 2012-13 fiscal year.

Members of Confederation of Oregon School Administrators (COSA) from the Beaverton, Portland, Salem-Keizer, and Eugene school districts have prepared the following Achievement Compact "White Paper." It outlines a number of recommendations and considerations about Achievement Compacts presented to the OEIB for consideration.

Recommendations for Setting Achievement Compact Targets

This is a pivotal moment for education in Oregon. For the first time in over a decade, state and federal leaders are overhauling the way Oregon schools are held accountable and supported. As Oregon seeks a waiver from the No Child Left Behind legislation, we are presented with the opportunity to set aside the misleading and counterproductive aspects of the federal law and replace them with better, more accurate tools to measure school and district success.

We want to build a system that will motivate educators and community members around a new way to support student achievement. This system should increase capacity across the schools and districts to share best practices, learn from each other, and ultimately ensure that our students are successful. Oregon's new accountability system needs to focus on this collaboration and continuous improvement in order to propel student achievement forward.

The achievement compacts are an opportunity for the state and districts to define ambitious, yet achievable goals for performance on such outcomes as third grade reading proficiency, high school graduation rates, and the closing of the achievement gap. The compacts will allow us to identify the schools that are "beating the odds" and those that are in need of additional supports. Without the punitive measures required under NCLB, there is the opportunity to raise achievement by providing individualized interventions for schools and districts tailored to meet their students' needs.

Through the achievement compacts and a complementary new state report card, we need to take a deeper look at how schools are doing in terms of proficiency, student growth, graduation, and college readiness when we are assessing whether we are meeting student needs. It is essential that we quickly define what measures are better suited going forward in the report card to ensure that the achievement compacts remain focused on identifying and aligning the resources necessary for improvement on a few key indicators.

We are pleased with the positive gains that many of our districts have continued to make even in these tough economic times, and are excited by the prospect of a strong vision for education in Oregon. Through the achievement compacts, districts will be able to focus on common goals, and leverage resources to have the greatest impact on student success as we move forward toward the destination of 100% of students graduating from high school or completing the equivalent of a diploma in 2025 (40/40/20).

Over successive years, our districts have faced a significant gap between our ability to maintain current service levels and our revenue. As a state, we have a moral obligation to expect better outcomes for

our students and to prepare them to be college and career ready, but the reality of that expectation is called into question when K-12 education continues to receive a smaller portion of the state budget.

Our districts' targets must be focused on meeting the needs of our students to ensure they make continuous progress over time. However, we also must consider the dramatic impact that declining budgets are having on our ability to achieve these targets. There must be a greater investment in education in order to prepare our students well and enable them to be capable and competitive in an ever more challenging economic future. Without adequate funding, districts will not be able to make the improvements necessary to continually raise achievement to reach that 40/40/20 goal.

We recommend that 2011-12 data be viewed as the baseline for going forward. Many of our districts had already developed their budgets for 2012-13 by the time the achievement compact metrics were finalized. We anticipate that in coming years, we will be able to better align resources to the indicators and create greater opportunities for our communities to participate in the consideration of targets and the alignment of budgets to achieve those targets.

Below is a recommended methodology that we have developed for setting the achievement compact targets for this first year. We have also included a number of questions and concerns that arose as we began to fill in the compact targets with district data.

Recommended Methodology for Setting Achievement Compact Targets:

1. **Timing:** We are currently setting targets for the 2012-13 school year with only the 2010-11 data. As we will not receive final data for this current year from the Oregon Department of Education until August, this will continue to be a concern every year if districts are expected to complete their achievement compacts as part of the budget process in the spring. Additionally, we will not receive 9th grade credit data (as it includes summer school) or graduation rate data until the fall or even later in the following year. Unless a different timeline is implemented for either the Achievement Compact targets or receiving data from the ODE, targets and data will always be based on at least one year-old data. We will be setting targets for two years ahead of our last data points and accountability for those targets will be delayed for two years. This timeline makes the Achievement Compact less useful for making program or budget adjustments. **Recommendation:** Districts will set their targets based on the data currently available and will review and potentially revise targets using the recommended methodology on the updated data when they are available.
2. **College and Career Readiness Outcomes:**
 - a. **5-Year Completion Rate:** We are pleased that the 5-year completion rate indicator is included on the Achievement Compacts. There are a number of students within our districts who receive GEDs and Extended and Modified Diplomas as appropriate completions for high school. We also appreciate that a 5-year cohort is included on the Achievement Compacts. Data across the districts demonstrate that a 5-Year

graduation rate more fully captures the achievements of all of our students.

Methodology: Looking at the 40/40/20 goal, districts will determine the annual growth rate necessary to reach 100% on the 5-year completion rate for 9th graders entering high school in 2016-17 through a back mapping process. We also recommend applying this same process (determining necessary growth rate to reach 100% by 2021 for 5-year completion) to the “disadvantaged group” and the subgroups. An Achievement Compact Target Calculator is available for this purpose.

- b. **Cohort Graduation rates, 9+ College credits, Post-secondary enrollment:** Given the interrelated nature of these outcomes to the 5-year completion rate outcome and the State’s 40-40-20 goals, we recommend applying the same annual growth rates calculated for the 5-year completion outcome to the other college and career readiness outcomes and for the “disadvantaged” and subgroups.

3. **On Track Outcomes (3rd Grade Reading and Math Proficiency, 6th Grade on Track, 9th grade on Track):** For each of these indicators, as well as those for the subgroups, we recommend setting targets for a 10% decrease in students who are not proficient. We will utilize the following methodology to set targets:

- a. identify the percentage of students (in 2010-11) who are not meeting the outcome (if 70% of students are meeting the outcome, then 30% are not meeting)
- b. Take 10% of students not meeting the outcome (10% of 30% is 3%)
- c. Apply that 10% to identify the target (70% + 3% is 73% as the target)

This growth model sets targets that:

- Require greater gains the lower a district’s starting percentage
- Close of the achievement gaps with the subgroup targets
- Are realistic for higher achieving districts

An Achievement Compact Target Calculator is available to assist districts with the calculations.

4. **Priority & Focus Schools:** Because the state has yet to provide us with a list of current priority and focus schools, we are unable to recommend a 2012-13 goal. The number of priority and focus schools statewide in 2011-12 will be approximately the same as the number of schools that are identified for Title I school improvement in 2011-12. Our understanding is that this information will be made available to school districts in August.

5. **Considerations:**

- a. **6th Grade On-Track:** Attendance may be appropriate for an indication of health and stability and should be tracked. However, without substantial resources devoted to school health and attendance services, it will be challenging to move this measure forward. In addition, this indicator does not track academic progress. Depending

on the baseline data, districts may wish to consider setting more conservative targets for this indicator. **Recommendation:** We recommend the inclusion of an academic measure for middle school rather than attendance for a 6th Grade On-Track indicator.

- b. **9th Grade On-Track:** We are excited to see that the definition for the 9th grade on track indicator included an entire calendar year in which to earn credits as many of our students are able to enter 10th grade with 6 credits because of summer school opportunities, however this does present timing challenges as these data will not be complete until September. Additionally, as mentioned above, attendance can be variable from year to year and difficult to improve. We believe that even in cases where we have increases in students entering 10th grade with 6 or more credits, we will see less growth in this data point because of the inclusion of attendance. **Recommendation:** We recommend that these two data points, attendance and credits, be separated.
- c. **Earning 9+ College Credits:** We have received guidance from ODE that districts will be responsible for collecting these data on their own. A number of districts do not have processes in place to collect these data and so for this year there will be disparate levels of reporting on this indicator. Statewide comparisons of districts would be inappropriate in this first year. Given that the data comes from multiple sources that are not centrally stored in most districts, the requirement for reporting baseline data and targets for this outcome poses a significant time commitment for districts. **Recommendation:** We recommend that:
- 1) districts make clear as a part of their achievement compact how they have defined and calculated this data point during this compressed timeline
 - 2) collective work must be done to put systems in place to collect and report the highest quality data possible in subsequent years.

Additionally, colleges and universities have different requirements for college credit attainment (e.g. some schools accept a 3 on the AP exam for college credit while others require a 4 or 5 and different schools may give 2 or 3 credits for the same score). Please see the attached tables for AP and IB test scores and college credits. We are proposing that this indicator be based on the Oregon University System.

Recommendation: We would recommend that the OUS and Oregon Community Colleges and all postsecondary institutions in Oregon maintain consistent policy and practice in accepting and awarding college credit that was obtained by high school students during their high school years.

- d. **Disadvantaged Subgroup:** We are pleased to see that achievement compacts will disaggregate data for students. However, as a team, we are uncomfortable with the

term “disadvantaged” to describe students of color, ESL and students with disabilities. Titles such as this continue to reinforce a deficit model.

Recommendations:

- 1) We recommend using the term, “historically underserved”.¹
- 2) In keeping with the original intent of the achievement compacts to identify a few key indicators, we recommend that districts should identify a single aggregate subgroup or an individual subgroup measure, whichever has the most significant gap based on a sufficient number in the sample.
- 3) There are other racial groups that must be included in the subgroup data. It is imperative that white student data are also included for reporting purposes (not as an indicator for setting targets). In order to truly be able to identify the opportunity and achievement gaps within our districts, we must have the data for the white students as a point of comparison.
- 4) Multi-racial students should also be included for reporting purposes.

- e. **Student Numbers Per Cell Recommendation:** The permanent rule on Achievement Compacts should align the cell size that triggers the requirement for goal setting by districts with the cell size for ratings in other accountability reports (generally 30-40 student). Requiring a district to set achievement goals for student groups comprised of 6, 8, or 10 students undermines the face validity of the compacts and in some instances will violate ODE’s rules about protecting student confidentiality.
- f. **Numerical Targets:** Under the temporary rule, 705-010-0035 Completion and Execution of Achievement Compacts, the OEIB “may waive the requirement to identify both a target number and percentage of students and require either a number or percentage for specific outcome measures, depending on the specifications of the compacts it approves.” **Recommendation:** We recommend that districts not be required to set numeric targets for the indicators. Numeric targets can be established by applying the percentage target proposed in the Achievement Compact to the size of the group once that size has been identified. To establish numeric targets requires districts to predict group sizes from year to year. These numeric targets are meaningless as soon as the actual group size diverges from the predicted group size.

¹ New England Comprehensive Center provides the following definition: underserved students are students who do not receive equitable resources in the same manner that other students do and as a consequence are less likely to achieve to high levels of academic performance. Another way of thinking of underserved students is to consider the quality and degree of access they have to programs, services, and resources that offer them the support to succeed in school. In other words, do they show an “achievement gap” as a result of “opportunity gaps” in their educational experience?

- g. **Ready for School Recommendation:** An academic measure should be identified for this indicator.
- h. **4-Year Goals and Local Priorities Recommendation:** At this point, we recommend delaying the establishment of 4-year goals and local priorities to provide districts time to reflect on the goal setting process and obtain an additional year of data on the measures, particularly for measures that are new to districts (e.g., graduates with 9+ college credits). With continued budget reductions this year, we believe it will be important to see how districts prioritize resources and develop strategies to meet the current indicator targets prior to expanding the scope. A number of districts already have established measures reflecting local priorities that are in support of the Achievement Compact and will continue to be reported to local boards and communities.

XIV.Q. Intergovernmental Agreement with the City of Corvallis for Easements for
the Corvallis to Albany Trail Project

Corvallis School District 509J
Board of Directors

BOARD MEETING DATE:

June 18, 2012

FOR ACTION

SUBJECT: Intergovernmental Agreement with the City of Corvallis for Easements for the Corvallis to Albany Trail Project

Issue: The City of Corvallis plans to construct phase one of the Albany to Corvallis Multi-Use Path between Circle Boulevard and Manchester Street during the summer of 2012. The project is funded by the Transportation Enhancement Program (federally).

Construction of said path will require easements rights in favor of the City over and across real property owned by the District at Cheldelin Middle School and Williams Field.

Involvement: Staff has coordinated details of fencing along the path to ensure that we maintain security at our campuses. The Boys & Girls Club of Corvallis leases Williams field from the District; they have been involved and agree to the easements proposed by the City.

Consequences: Without easements, the City will not be able to proceed with the construction of the path.

ACTION REQUESTED: Authorize staff to enter into an intergovernmental agreement with the City of Corvallis granting easement of property at Cheldelin Middle School and Williams field for construction of the Albany to Corvallis Multi-use Path.

XV.B. Unaudited Financial Statements

BOARD MEETING DATE: June 18, 2012

FOR INFORMATION

SUBJECT: May 31, 2012 Financial Statements (Unaudited)

Explanation:

General Fund

The Statement of Revenues and Expenditures for the periods ending May 31, 2011, and May 31, 2012, follows this report. Overall revenues and expenditure totals continue to track as expected.

FY2011-12 year-to-date revenues are \$50.3 million, or 98.6 percent of budget. In FY2010-11, revenue was \$49.4 million, or 96.5 percent. We believe that overall General Fund revenues will meet the total budgeted revenue despite what appears will be an expected shortfall of Local Option Levy tax revenues of approximately \$300,000.

FY2011-12 year-to-date expenditures are \$43.3 million as compared to the prior year of \$42.9 million, an increase of \$0.4 million. The Instruction function decline of \$0.2 million from FY2010-11 to FY2011-12 is due mainly to reductions in supplies expenditures. The Supporting Services function reflects an approximate increase \$0.6 million which incorporates a \$125,000 year-to-date reclassification of TAG salaries and benefits from the Instruction function to the Supporting Service function to better align with the state chart of accounts, and a payment timing difference between the fiscal years for First Student Transportation for core services of approximately \$200,000.

If you have any questions regarding the financial statements or would like additional information please contact Debbie Bell.

XV.C. Board Policy—EBB—Integrated Pest Management—New—First Reading

Corvallis School District 509J
Board of Directors

BOARD MEETING DATE: June 18, 2012

FOR INFORMATION

SUBJECT: Board Policy—EBB—Integrated Pest Management—New—First Reading

Issue: The 2009 Legislature passed Senate Bill 637 requiring districts to adopt an integrated pest management (IPM) plan and policy that identifies an Integrated Pest Management Plan Coordinator and their responsibilities. The IPM plan adopted in the policy becomes the internal integrated pest management plan.

Options Considered: Not adopting the policy.

Involvement: District office staff

Consequences: The district will be out of compliance with Oregon law.

Cost Impact: None

CONTACT PERSON(S): John Meyer, Kerry Richey

Integrated Pest Management

To ensure the health and safety concerns of student, staff, and community members, the district shall adopt an integrated pest management plan (IPM) which emphasizes the least possible risk to students, staff, and community members and shall adopt a list of low-impact pesticides for use with the IPM plan.

The IPM plan is a proactive strategy that:

1. Focuses on the long-term prevention or suppression of pest problems through economically sound measures that:
 - a. Protect the health and safety of students and staff;
 - b. Protect the integrity of district buildings and grounds;
 - c. Maintain a productive learning environment; and
 - d. Protect local ecosystem health.
2. Focuses on the prevention of pest problems by working to reduce or eliminate conditions of property construction, operation, and maintenance that promote or allow for the establishment, feeding, breeding, and proliferation of pest populations or other conditions that are conducive to pests or that create harborage for pests;
3. Incorporates the use of sanitation, structural remediation, or habitat manipulation or of mechanical, biological, and chemical pest control measures that present a reduced risk or have a low-impact and, for the purpose of mitigating a declared pest emergency, the application of pesticides that are not low-impact pesticides;
4. Includes regular monitoring and inspections to detect pests, pest damage, and unsanctioned pesticide usage;
5. Evaluates the need for pest control by identifying acceptable pest population density levels;
6. Monitors and evaluates the effectiveness of pest control measures;
7. Excludes the application of pesticides on a routine schedule for purely preventive purposes, other than applications of pesticides designed to attract or be consumed by pests;
8. Excludes the application of pesticides for purely aesthetic purposes;

9. Includes school staff education about sanitation, monitoring, inspection and pest control measures;
10. Gives preference to the use of nonchemical pest control measures;
11. Allows the use of low-impact pesticides if nonchemical pest control measures are ineffective; and
12. Allows the application of a pesticide that is not a low-impact pesticide only to mitigate a declared pest emergency or if the application is by, or at the direction or order of, a public health official.

The district shall designate the Custodial Supervisor as the Integrated Pest Management Plan Coordinator and give them the authority for overall implementation and evaluation of the IPM plan.

Integrated Pest Management Plan Coordinator

The IPM Plan Coordinator shall:

1. Attend not less than six hours of IPM training each year. The training shall include at least a general review of integrated pest management principles and the requirements of IPM as required by Oregon statute;
2. Ensure appropriate prior notices are given and posted warnings have been placed when pesticide applications are scheduled;
3. Oversee pest prevention efforts;
4. Ensuring identification and evaluation of pest situation;
5. Determine the means of appropriately managing pest damage that will cause the least possible hazard to people, property and the environment;
6. Ensure the proper use and application of pesticide applications when non-pesticide controls have been unsuccessful;
7. Evaluate pest management results; and
8. Keep for at least four years following the application date, records of applied pesticides that include:
 - a. A copy of the label;
 - b. A copy of the Material Data Safety Sheet;
 - c. The brand name and USEPA registration number of the product;

- d. The approximate amount and concentration of pesticide applied;
 - e. The location of where the pesticide was applied;
 - f. The type of application and whether the application was effective;
 - g. The name(s) of the person(s) applying the pesticide;
 - h. The pesticide applicator's license numbers and pesticide trainee or certificate numbers of the person applying the pesticide;
 - i. The dates and times for the placement and removal of warning signs; and
 - j. Copies of all required notices given, including the dates the IPM Coordinator gave the notices.
9. Respond to inquiries about the IPM plan and refer complainants to Board policy KL—Public Complaints;
10. Conduct outreach to district staff about the district's IPM plan.

XV.E. 2012-13 Calendar Update

Corvallis School District 509J
Board of Directors

BOARD MEETING DATE: June 18, 2012

FOR INFORMATION

SUBJECT: 2012-13 School Calendar Update

Issue:

At the May 9, 2011 Board meeting, the Board approved a two year calendar: 2011-12 and 2012-13. The 2012-13 calendar was approved based on using the 2011-12 calendar framework with key dates identified: first day of school September 5; winter break December 24 through January 4; and spring break March 25-29. In March 2012, the Board received written information providing an update on the development of the 2012-13 school calendar. The district then posted the school calendars on the website and sent out through ListSrvs.

Due to negotiations with employee groups, there have been a few updates to the school calendar:

- 1) Align the last day of school for all three levels. This was done by moving a teacher prep day on November 20 at the high school level to November 1, and moving the November 1 instructional day to June 14.
- 2) Move the staff development day from November 19 to October 11. This moves the October 11 instructional day to June 17.
- 3) District staff are taking three cut days, which will be the last three days of school (June 13, 14 and 17). The last day for students will now be June 12.

The updated school calendars will be published following the June 18, 2012 Board meeting.
