All such placements shall be approved in advance by the District.

8. Article 8.6 Removes AYP language and replaces it with current state measures.

8.6 In addition to assuring that students participating in the statewide assessments achieve at or above students in the same grade level as District students as outlined above, the Charter School shall also pursue Annual Measurable Objectives (AMO) ~~Adequate Yearly Progress (AYP)~~ as established by the state of Oregon under Common Core State Standards (CCSB) of 2013 and as measured by participation rates and scores on the Oregon Statewide Assessments, attendance and other criteria used by the state to determine AMO for all public schools. AGREEMENT

1. **Grant of the Charter**. The Corporation is granted, in accordance with ORS Chapter 338 and the terms and conditions of this Contract, a charter to operate the Charter School as described herein.
2. **Conditions Precedent to Operation of Charter School**. In order for the Corporation to operate the Charter School during the school years 2014-2019 the following conditions shall be met:
 - 2.1 Before the first day of classes for students the Corporation shall secure a building to operate within the district boundaries and obtain the appropriate and necessary occupancy and safety permits for the facility and deliver proof of these permits to the District.
 - 2.2 By the date set forth in Section 2.1 the Corporation shall secure insurance in accordance with Section 13.1 and deliver proof of that insurance to the District.

- 2.3 By the date set forth in Section 2.1 the Corporation shall prepare and deliver to the District a revised 2014-2015 budget, which accounts for the costs associated with the facility and required insurance policies and demonstrates financial stability using the most current State School Fund Grant estimate and enrollment projections.
- 2.4 By the date set forth in Section 2.1 the Corporation shall provide to the District evidence of compliance with Section 12.1 on Staff Qualifications.
3. **Effective Date.** As soon as all conditions precedent in Section 2.1 through 2.4 are met, this Contract shall commence; the expiration date of the initial term shall be June 30, 2019.
4. **Renewal.** During the fifth year of the term of this contract, the Charter School may request a renewal of the charter for a minimum of five years and no more than ten years (ORS 338.065(4)(c)). The request for a renewal may be submitted to the District at any time after October 1, 2018. The request will state the requested length of the renewal term.
5. **Grade Range, Educational Program, Curriculum, and Student Assessment.**
- 5.1 **Age and Grade Range.** The Charter School may provide instruction to students in grades K through five (5). The age requirements for students in any grade shall be the same as applicable state law, if any.
- 5.2 **Student Population Cap.** The total number of full-time students enrolled at the Charter School while it serves K-5 shall be no greater than 110 students. At no time during the term of this contract shall the Charter School's student population exceed 110 full-time equivalent students without written approval from the district.
- 5.3 **Curriculum.**
- 5.3.1 The District agrees to waive its curricular requirements, to the extent permitted by state law, but subject to the implementation of the Charter School's instructional programs outlined in its application, and as amended herein. The Charter School shall have the authority and responsibility of designing and implementing its educational program, subject to the conditions of this Contract, in a manner that is consistent with state law, unless the law is inapplicable to charter schools.
- 5.3.2 The educational program, pupil performance standards and curriculum designed and implemented by the Charter School shall meet or exceed any content standards adopted by the State of Oregon and shall be designed to enable each pupil to achieve such standards. The Charter School agrees to comply with all state requirements concerning academic content areas as defined in ORS 329.045.
- 5.3.3 The Charter School agrees to obtain prior approval from the District before making a fundamental change to the educational program outlined in its application. A fundamental change is defined as basic changes, other than minor changes, to the core curriculum or the academic focus of the Charter School.

- 5.4 **Student Assessment.** All students enrolled and attending the Charter School shall participate and take part in all statewide assessments developed by the Oregon Department of Education under ORS 329.485.
- 5.5 **Records.** The Charter School shall comply with all applicable federal and state laws concerning the maintenance, retention, disclosure and security of student records, including, without limitation, the Oregon Public Records Law and the Family Educational Rights and Privacy Act. The Charter School shall cooperate with the District by providing any reports or records to the District that the parties mutually agree are necessary to meet the District's reporting obligations to the Oregon Department of Education or the U.S. Department of Education. The District shall provide the Charter School with a list of records and information it believes are required for the District to meet its state reporting requirements, and the parties will agree on the scope and form of such records and information and when to provide it. The Charter School will work with the District to meet the District's requirements, and the Charter School recognizes that it has the responsibility for the input of such data into District or state computer systems, subject to termination for noncompliance as provided in Section 11.6. All records established and maintained in accordance with this Contract shall be open to inspection by the District. The District shall be responsible for training staff in use of District systems and for costs of using District-specified special software for such record keeping.
- 5.6 **Nonreligious and Nondiscrimination.** In compliance with ORS 338.035(8), the Charter School shall not be affiliated with a nonpublic sectarian school or a religious institution. In compliance with ORS 338.115(4), the Charter School shall not violate the Establishment Clause of the First Amendment to the United States Constitution or Section 5, Article I of the Oregon Constitution, or be religion based. In compliance with ORS 338.115(1)(s) and ORS 659.850, no person of the Charter School shall be subjected to discrimination on the basis of age, citizenship, color, disability, national origin, race, parental or marital status, religion, sex, or sexual orientation. In compliance with ORS 338.125(2)(c), the Charter School shall not limit student admission based on ethnicity, national origin, disability, gender, income level, proficiency in the English language, or athletic ability, but the Charter School may limit admission to students within a given age group or grade level.
- 5.7 **Open Enrollment.**
- 5.7.1 **Voluntary Enrollment, Who is Eligible.** Student enrollment in the Charter School will be voluntary. All students who meet age requirements applicable to a particular grade level will be eligible for enrollment subject to the requirement that the Corporation shall give preference to the students who are a resident in the District. Other than the age of a student and the preferences allowed by law, there will be no criteria for selection of students. A student will be deemed admitted to and enrolled in the Charter School when the student's application has been unconditionally accepted by the Charter School following completion of a phase of the enrollment process described below and after conditions to such acceptance have been satisfied. Enrollment of special education students will be governed as described in Section 5.7.5.

5.7.2 Enrollments. Each year, the Charter School will set deadlines by which such applications must be received for each phase of the enrollment process. These deadlines may change from year to year at the discretion of the Charter School. The Charter School Board will approve any forms and policies that may otherwise be needed to govern the enrollment process, and may change those from time to time as they determine what works best. The Charter School shall conduct the first stage of the enrollment process early enough to provide an estimate to the District of enrollment by the date the District uses in its choice process and monthly thereafter report changes in enrollment through the month of September. Each month for the calendar year prior to September of each year, the Charter School shall furnish the District the name and address of each student who has enrolled in the Charter School for September of that year.

5.7.3 Application Process, First Phase of Enrollment Process. On a date set the Charter School Board, prospective students may apply for admission to the Charter School for the school year that begins the following September. For the first phase of the enrollment process, if the number of applications received by the deadline for the first phase is less than or equal to the maximum number of students allowed adjusted for Full Time Equivalent (FTE), then all the applications will be accepted (including applications from nonresidents).

If the number of applications received is greater than the maximum number of students allowed, then the Charter School will conduct an equitable lottery, in a manner determined by the Charter School and consistent with state law, to admit the maximum allowed number of students. A waiting list may be created for subsequent admission should a space become available later. Order of priority on the waiting list also will be determined through the lottery process.

5.7.4 Enrollment Preferences. The Charter School may give admission preference to (1) students who were enrolled in the Charter school in the prior year, and (2) applicants who have siblings who are presently enrolled in the Charter School and who were enrolled in the Charter school in the prior year.

5.7.5 Special Education Students.

(a) The Charter School registration form will ask if the applicant has an Individualized Education Program ("IEP") under the Individual with Disabilities Education Act ("IDEA"). For any prospective student with an IEP, the Charter School will notify the District's Special Education Coordinator as soon as possible, and a representative from the Charter School will attend the IEP team meeting after the student's application is accepted and enrolls in the Charter School, at which the team will determine whether or not the Charter School is the appropriate placement for the student. Any student with an IEP whose application is accepted will be enrolled; the acceptance and enrollment will become final when the IEP team has determined that the Charter School is the appropriate placement.

(b) The Charter School will admit students without regard to their status as students needing special education services. The parties intend by this process to ensure that the Charter School does not unintentionally discriminate against enrolling special education students or otherwise violate applicable laws.

(c) For a special education student who is not a resident of the District, the school district in which the public charter school is located must implement the individualized education program and follow the terms of the individualized education program until a new individualized education program is developed.

5.8 Education of Students with Disabilities. The Charter School shall comply with all District policies and regulations and the requirements of federal and state law concerning the education of children under the Individual with Disabilities Education Act (“IDEA”). Compliance by the Charter School includes, but is not limited to, the following:

- 5.8.1** The Charter School shall comply with all District policies regarding discipline of special education students.
- 5.8.2** The Individual Education Plan/Program (IEP) team is determined by federal law. The parties expect that the Charter School will have at least one certified classroom teacher serve on the IEP team for Charter School students.
- 5.8.3** The student’s IEP team will determine the appropriate educational program and placement for the student. The Charter School shall abide by the IEP team’s decision on program and placement.
- 5.8.4** For those services that the IEP team, the District and the Charter School mutually agree would be best delivered by District employees, the Charter School will make every reasonable effort to work closely with District staff to assist in the effective delivery of the services. This might include either inclusion or “pull-out” service delivery. The Charter School will see to it that its staff has received special training when necessary for the delivery of special education services that will be conducted by its staff, as agreed to by the District, the IEP team, and the Charter School.
- 5.8.5** The funds from the Oregon Department of Education representing the Average Daily Membership weighted (ADMw) for special education for Charter School special education students shall be retained by the District, if the student is a resident of the District. To illustrate, if the District’s General Purpose Grant were \$5,000 per ADMw, the District would receive 2.0 times that amount, or \$10,000, for each special education student under the current formula; the amount payable to the Charter School for each special education student (using the 80 percent formula under Section 9.2.2(b)) would be \$4,000; the District would retain the remainder of \$6,000.
- 5.8.6** The District has the discretion to determine which specialized programs will be offered on site at the Charter School site.

5.8.7 The student's IEP team may recommend any appropriate placement for the student based on the student's needs, whether in or out of the Charter School. The Charter School shall not change the student's placement or IEP without IEP team approval.

5.8.8 Special education transportation will only be provided to a Charter School special education student if it is a related service on the Charter School student's IEP.

5.8.9 The Charter School shall provide substitutes for the Charter School staff who are required by law to attend IEP meetings or other meetings related to a Charter School special education student during the instructional day at the Charter School expense.

5.8.10 If, after a student is enrolled and attending the Charter School, the staff and employees of the Charter School suspect a student may be eligible for special education and related services under IDEA, the Charter School shall comply with the District practices and policies for referral of the student for evaluation. Specifically, the Charter School shall notify the student's resident district and shall cooperate with the District if a Charter School student may need evaluation to determine eligibility for special education. Any student referred for evaluation shall remain enrolled at the Charter School until an IEP team determines that the Charter School is not the appropriate placement for that student.

5.9 **Minimum Enrollment.** The minimum enrollment for each school year shall be 25 full-time students. The District may terminate this Contract if student enrollment in the Charter School falls under 25 students during any school year, as provided in Board Policy LBE-AR Section V.F., by application of the termination process. For purposes of this Contract full-time student means a student who is receiving more than one-half of his or her instructional program at the Charter School.

5.10 **Dual Enrollment.** The Charter School shall not permit a Charter School student to attend on a full-time or part-time basis, both the Charter School and another public school, another public Charter School, or non-public school, or enroll as a home-schooled student, without prior approval of the District. If the Charter School becomes aware that any student at the Charter School is enrolled and attending another public school, another public Charter School, a non-public school on such a full-time basis or part-time basis, or is enrolled as a home-schooled student, the Charter School will notify the District and will request that the parent of such student take appropriate action to change the student's enrollment and attendance to one school.

5.11 **Student Attendance, Conduct, and Discipline.** The Charter School shall maintain on a monthly basis accurate enrollment data and daily records of student attendance and shall utilize the District computer program, provided by the District, for this purpose. (Refer to Section 9.2 of this Contract for detail.) The Charter School Board may amend its policies from time to time as provided in Section 11.3. The Charter

School shall notify the District immediately upon the Charter School's determination to expel a student. The Charter School and the District shall extend full faith and credit to the suspension and expulsion of a student of the other, unless both parties agree in writing to a variance from this requirement.

5.12 Student Welfare and Safety.

5.12.1 The Charter School shall comply with all applicable state and federal laws concerning student welfare, safety, and health, including, without limitation, the reporting of child abuse, accident prevention and disaster response, and any local, state, or federal regulations governing the operation of school facilities.

5.12.2 The Charter School is responsible for the reporting of child abuse and neglect in accordance with state law.

5.12.3 The Charter School shall immediately inform the District Liaison of any incident regarding child abuse and/or neglect.

5.12.4 The Charter School shall comply with state and federal law relating to drug administration to students.

5.12.5 The Charter School shall comply with OAR 584-020-0041, the Teacher Standards and Practices Commission requirements that the chief administrator report certain acts of gross neglect of duty by licensed staff.

5.13 School Year, School Day, Hours of Operation. However, the Charter School anticipates that its annual calendar will generally match the calendar of the District, and the Charter School may maintain a typical nine-month school year for its regular academic program. The number of instructional hours during each school year will comply with requirements of state law.

5.14 Alternative Education Model. Subject to applicable state law, federal law, and the terms of this Contract, the Charter School shall be allowed to promote and implement learning situations that are flexible with regard to environment, time, structure, and pedagogy and may include the use of online programs to supplement learning. If the Charter School determines to send a student to a fee-based alternative education program, such as on-line classes or tutoring programs, the Charter School shall pay the full cost of such program.

5.15 Transportation of Students.

5.15.1 The public Charter School shall be responsible for providing transportation for its students who reside within the school district and may negotiate with the District for provision of transportation services. As interpreted by ODE, the Charter School can meet this responsibility by posting on a bulletin board for those interested in carpooling or other means of transportation.

5.15.2 The District shall provide transportation for public Charter School students pursuant to ORS 327.043. Resident public Charter School students will be transported under the same conditions as students attending private or parochial schools located along or near established District bus routes. The District shall not be required to add or extend existing bus routes.

5.15.3 Public Charter School students who reside outside the District may use existing bus routes and transportation services of the district in which the public Charter School is located.

5.15.4 Any home to school transportation costs incurred by the District shall be considered approved transportation costs.

6. **Development of School Improvement Plan.** The Charter School shall develop a written School Improvement Plan that includes measurable student achievement goals, strategies to meet the student achievement goals, timelines to meet the student achievement goals, and short-term and long-term professional development plans for staff. The plan may also include other measurable goals that are important to the culture and philosophy of the Charter School. The plan shall be reviewed annually and forwarded to the District by November 1 of each school year.

7. **Curriculum Alignment.** The learning goals for the Charter School students in reading/language arts and mathematics will be aligned to the Common Core Standards. All additional curriculum and content will be aligned to Oregon Standards. All additional assessments used by the Charter School to measure and monitor student progress will be based on Common Core or Oregon Standards.

8. **Evaluation of Student Performance.**

8.1 The Charter School shall ensure that its students participating in the statewide assessments achieve at or above students in the same grade level as District students participating in the statewide assessment. (For example, if 80 percent of the District's third grade students meet standards on mathematics, 80 percent or more of the Charter School's third grade students would need to meet standards in mathematics.)

8.2 If students of the Charter School do not meet or exceed the student achievement standards of students in the same grade level as District students or do not meet Annual Measurable Objectives (AMO, an evaluation of the factors contributing to these results will be undertaken by the District and Charter School personnel with expertise in teaching, learning, assessment, and evaluation to determine the likely causative factors. This determination will utilize principles of evaluation including a review of whether differences between grade level comparison groups as described in Section 8.1 are statistically significant. Should the determination related to grade level comparisons defined in Section 8.1 find that it is likely the factors contributing to the differences are not attributable to teaching and/or curricular programs, no further action will be taken. However, should it be found that the difference in grade level comparisons is likely based on instructional and/or curricular program issues or the school did not meet AMO then the District and the Charter School shall review and update its School Improvement Plan,

required under Section 6 of this Charter School Contract, to address the issues interfering with students achieving at a rate commensurate with other district students in comparable grades and/or failing to meet AMO. The District shall review and provide input to Charter School on its revised School Improvement Plan to be implemented to ensure student achievement standards of the Charter School students meet or exceed student achievement standards of students in the same grade level as District students on the following year's statewide assessments and/or meeting AMO.

- 8.3 If students of the Charter School do not meet or exceed the achievement standards of students in the same grade level as District students on the following statewide assessment or do not meet AMO for two consecutive years the District and the Charter School shall jointly revise the School Improvement Plan to address the issues interfering with students meeting benchmarks at a rate commensurate with other district students at the same grade level or meeting AMO. The School Improvement Plan will specifically address teaching to the standards, effective teaching strategies, professional development, and leadership practices to focus on the Charter School students achieving at or above the rate at which students in the same grade level as District students achieve and/or meeting AMO.
- 8.4 The Charter School shall report to the District the Charter School's student scores on any of the statewide assessments within 10 business days of receiving the scores.
- 8.5 The District shall report to the Charter School the same state assessment result information as all District schools with disaggregated data for comparison and goal-setting purposes as soon as possible but not beyond 30 business days of receiving those scores.
- 8.6 In addition to assuring that students participating in the statewide assessments achieve at or above students in the same grade level as District students as outlined above, the Charter School shall also pursue Annual Measurable Objectives (AMO) as established by the state of Oregon under Common Core State Standards (CCSS) of 2013 and as measured by participation rates and scores on the Oregon Statewide Assessments, attendance and other criteria used by the state to determine AMO for all public schools. The Charter School shall be subject to applicable federal and state sanctions for any failure to make AMO targets and shall review and update its School Improvement Plan as described in Section 6.
- 8.7 Each subgroup identified in CCSS will make AMO , as established above and measured by the Oregon Statewide Assessments.

9. **Financial Matters, Funding, Annual Budgets, Annual Audit.**

- 9.1 **No Tuition, Fees.** The Charter School will not charge tuition to students, except as may be allowed under ORS 339.155 or other applicable law. In accordance with state law, the Charter School may charge reasonable fees for the processing of applications, instructional materials (other than standard prescribed textbooks), after-school programs, and student extracurricular activities, those items described in ORS 339.155 and other items where not prohibited by applicable law.

The Charter School shall waive all fees for students who meet requirements under ORS 339.147 or applicable federal law.

9.2 Annual Funding.

9.2.1 Student Enrollment, Attendance Records. The Charter School shall identify and count, and maintain timely and accurate records of, its number of enrolled students and their days present and absent; attendance; special education students; students eligible for and enrolled in an English as a Second Language program under ORS 336.079; and other data required in order to calculate average daily membership, weighted average daily membership (ADMw), and related terms necessary to determine funding under state law, particularly ORS 338.155 and 327.013.

9.2.2 Calculating ADMw and Funding.

(a) For each school year, the District shall provide funding to the Charter School in accordance with ORS 338.155(1) and (2), as that formula may be changed from time to time, subject to any modifications made by the parties in this Contract. Until the law is changed or the parties otherwise agree by amendment of this Contract, the funding shall be the sum of the following subparagraphs (b) and (c).

(b) Funding related to Kindergarten through Grade 5 students shall be 80 percent of the amount of the District's General Purpose Grant per ADMw as calculated under ORS 327.013, or the minimum under State law, whichever is greater.

(c) State School Fund Grant payments will be made to the Charter School by the District based on the following assumptions:

(ii) Subsequent payments that fiscal year will be made based on the ADMw in the Student Information System on the last day of the preceding month.

(iii) An additional amount will be paid to incorporate the District's Poverty Factor adjustment by prorating the District's poverty factor between the Charter School and the District based on the number of ADMr and the most recent State School Fund estimate for the District.

(iv) A school may qualify as a remote small elementary school if the average daily membership is grades one through eight for an elementary school teaching five grades is below 140 ADMa. If an elementary school in a school district qualifies as a remote small elementary school, the district shall have an additional amount added to the districts ADMw. This additional amount will also be funded at 80%.

(v) An additional amount of 5 percent will be paid for out-of-district students from the District's General Purpose Grant per ADMr.

(vi) Charter School will be reimbursed for actual audit costs not to exceed \$2500.

(vii) Adjustments for actual ADMw, poverty factor, and State School Fund Grant will be made in May of the subsequent fiscal year following the release of the final State School Fund Grant estimate by Oregon Department of Education. Reimbursement for overpayments will be withheld from new State School Fund payments.

(d) In accordance with ORS 338.155(8), the District will send State School Fund Grant payments to the Charter School within 10 days after receiving payments from the State School Fund.

The Corporation may charge fees to the District to provide administrative and support services that are in the mutual interest of the District and the Corporation as mutually agreed upon on a basis of actual Corporation cost of services. In either case, invoices will offer detail to document the expense and be sent quarterly.

9.2.5 Information to District. The Charter School shall provide to the District the data set forth in Section 9.2 above through the District's Student Information System for each month on or before the 16th day of the subsequent month, for each school year. Nothing in this section shall limit the District's right to require additional relevant reports as necessary for the District to meet its duties imposed by law consistent with Section 5.6.

The fiscal year-end audit shall also be forwarded to the State Board of Education and the Department of Education. IX.B. Unaudited Financial Statements - March 31, 2014

FOR INFORMATION

BOARD MEETING DATE: May 5, 2014

SUBJECT: March 31, 2014 Financial Statement (Unaudited)

The General Fund is reported on a monthly basis and other funds on a quarterly or semi-annual basis. As March is the end of the third quarter of the fiscal year, you will find reports on the following funds in addition to the General Fund: Food Service, District Donation, Designated Facilities, Student Body, Designated Revenue, Early Retirement, Insurance and Grants.

Current Highlights – General Fund

Revenues

The March 2014 year-to-date revenues total \$46.9 million or 88.6 percent of total revenue budgeted as compared to 2012-13 of \$43.1 million or 87.1 percent, an increase of \$3.8 million.

In April, ODE provided an update to the 2013-14 estimated State School Fund revenues. Overall, an increase of approximately \$750,000 is now expected due to several key factors. Funding estimates are projected on the higher of extended ADMw from the current year or the prior year. Due to declining enrollment, in recent years District projections have been based on the prior year. In the April update, a switch was made in the formula to use the 2013-14 ADMw (7,210.18) as it has increased by 79.14 ADMw over 2012-13 (7,131.04). In addition, state teacher experience moved from 0.24 to 0.27, as well as total formula revenues per extended ADMw increased by \$27 to \$6,797. The \$750,000 increase represents approximately 75 percent due to enrollment and 25 percent due to formula rate adjustments. These funds will help towards offsetting local option levy compression and the HP refund, all-day kindergarten at Mt. View and Wilson, facilities costs, and the 2014-15 budget.

Expenditures

The March 2014 year-to-date expenditures total \$37.8 million or 69.7 percent of budget as compared to 2012-13 of \$36.1 million or 69.8 percent, an increase of \$1.7 million.

Previously Reported Highlights

The Instructional Services category reflects the 2013-14 addition of tuition for two out of state special education placements to meet student needs with year-to-date expenditures of \$135,502. The district pursues additional funding to help offset these expenditures through the High Cost Disability Grant process and other targeted funding. The Supporting Services category reflects increased costs for utilities, transportation and facility and maintenance repairs of approximately \$155,827 as compared to this time last year. Seasonality, weather, contract increases and needed maintenance have impacted the timing of these costs. Budgets and opportunities to fund repairs elsewhere are under review.

The November 2013 report showed property and local option tax revenues down \$2.4 million as compared to the prior year. Staff had estimated the withholding of \$1.8 million in November due to the Hewlett Packard (HP) and Comcast refunds and tax deferrals. As local tax revenues are a factor in the state school formula, the district will see an offset in state revenues received.

Staff analyzed the variance in expected versus actual tax collections and queried Benton County for further details. It was discovered that the County had withheld the HP reduction twice from November turnovers in error. Benton County corrected this error by issuing a turnover on December 23, 2013, in the amount of \$1.7 million for the General Fund portion and \$.5 million for the Debt Service portion. Factoring in this adjustment, November year-to-date collections for 2013-14 were \$.7 million less than the prior year. This latest report reflects the corrected tax receipts from Benton County.

With the influx of property tax receipts in November that is used over the course of the fiscal year to fund operations, the district's investment opportunities within policy guidelines were examined. The Local Government Investment Pool (LGIP) rate of return as of March 2014 is 0.54 percent as compared to a three-month U.S. Treasury Bill bond equivalent yield of 0.03 percent. Staff evaluated rates for maturities over the course of the fiscal year and determined that the LGIP provided the best rate and liquidity at this time. The district's balance of funds in LGIP remains below the maximum allowed by the State Treasurer's Office and therefore we are not required to invest funds outside of the LGIP.

March year-to-date state revenues for general support for 2013-14 are \$22.1 million as compared to \$17.0 million for the prior year. This reflects both the increase in the statewide K-12 education budget and an increase to the district's portion of state revenues due to the HP appeal that reduced projected local revenue. The district planned the 2013-14 State School Fund budget accordingly and the revenue is on track with budgeted expectations at 89.3 percent as of the end of March.

The district received the county assessors' Notification of Property Taxes Imposed for 2013-14. The Local Option Levy continues to be impacted by compression due to decreases in the gap between real market values and assessed values. The district budgeted \$3,890,200 for Local Option Levy, and the imposed amount is \$3,933,826. This is \$288,014 less than last year's imposed amount. Furthermore, as a result of the property tax refund to Hewlett-Packard (HP) and deferred taxes to HP and Comcast, collections are projected to be \$3,535,768 which is \$354,432 below budget. This will be watched closely throughout the year and into the future as it impacts the next fiscal year.

General Fund expenditures through March are higher than the prior year by \$1.7 million. In addition to current highlights, contracted salary increases as well as several program changes are reflected in the year-to-date increase. Expenditures also include 1: World, and software and license purchases for the STARS reading and math programs. In 2013-14, the Supporting Services category does not include a funding transfer to the Early Retirement Fund as the program is now fully funded, a decrease of \$480,650 from the prior year.

The Schedule of Investments and Cash Disbursements for March 2014 are included as part of this report. If you have any questions or would like additional information please contact me.

Notes:

The Food Service Fund is a self-supporting fund.

Revenues to support the program are generated from student participation in food programs, federal and state programs, and a catering operation.

Operations are evaluated to see where costs can be reduced to align with revenues. Staff actively promote the federally subsidized free and reduced breakfast and lunch programs to increase participation and revenues received from these programs.

The District also provides food service programs to other agencies and districts such as Philomath School District, Alsea School District, and several day cares.

The \$184,128 increase in federal sourced revenue is a result of the District receiving deposits from the Oregon Department of Education electronically. This method has significantly reduced the time between billing and the receipt of funds. This timing difference is the reason for the large margin between this year and last year.

Salaries and benefits are up \$94,683. A portion of this increase is a result of implementing the breakfast program at Lincoln and Garfield Schools. Contracted increases in normal salary and benefits account for the remainder of the increase.

A monthly transfer is made from the Corvallis Public Schools Foundation to the District Donation Fund to cover expenditures.

During FY 2013-14 Foundation leadership has made a calculated effort to encourage the schools to use the money that has been donated to specific programs and activities. Expenditures are up \$84,997 as a result of that effort.

The sale of Fairplay School was completed in August 2013 and the Pleasant View Fruit Farm property sale was finalized in March 2014.

The Construction Excise Tax revenue is down \$65,626. The City of Corvallis had a significant increase in construction activity during the second half of 2012. Construction Excise Tax revenues this year are in line with receipts received in 2011 and 2010.

Support Service expenditures for FY 2013-14 includes fees for a facilities assessment project consultant of \$130,706, along with several facility improvement projects creating the increase of \$197,673 over the prior year.

Notes:

This fund pays for supplemental retirement benefits provided to retired teachers.

The last payment for non-represented and classified staff was made June 30, 2008.

In February 2005, certified employees agreed to end the early retirement program effective June 30, 2017. Only employees hired before Sept 1, 1988 will have ERI benefits. A lump sum payout was made on April 30, 2005 to end the ERI rights of employees hired between Sept 1, 1988 and June 30, 1998. An additional lump sum payment was made to those hired before Sept 1, 1988 in recognition of reduced ERI benefits available after their retirement.

Teacher retirees after April 1, 2005 will not receive any medical insurance coverage. Benefits decreased from 7 years to 5 years and effective July 1, 2008 any new retirees will receive only 4 years of stipends. No teachers hired after August 31, 1988 are eligible for any post retirement benefits if they retired after April 1, 2005. As of July 1, 2013 there were 38 eligible retired teachers receiving benefits.

Retiree expenditures account for monthly retirement stipends and lump sum retirement payouts as per the agreement. Comparison of expenditures between years will vary due to the variances in the time of retirement and eligibility for lump sum payouts.

Notes:

The District has approximately 34 grant awards from federal, state, and private sources estimated at \$6.2 million. The larger awards typically span a several year time period.

Indirect costs are administrative costs such as audit, legal, business, human resources, and technology that are paid for by the General Fund but also utilized by the grant funds. Board policy calls for the District to recover indirect costs related to grants. This amount shows as a revenue in the General Fund and is used to offset General Fund operations. The District indirect cost rate is the maximum allowed by the State and varies from year to year. The State approves this rate each year. The rate for FY 2013-14 decreased to 4.52% from 5.63% in the prior year.

Grant revenues are recognized after there have been grant expenditures. This is why the increase in revenue and expenses are comparable. State grant revenue is up because of the receipt of new grants, which include State Mentoring (\$77,214); Farm to School (\$15,941); and the School District Collaboration (\$288,206).

Federal grant revenues are also up substantially. The reason for this is twofold. First, the new 21st Century Community Learning Center Grant has recognized \$256,668 in new revenue. Second, IDEA Part B grants have recognized \$733,773 in revenue this year as compared to \$354,834 during FY 2012-13 due to payment timing differences between years.

Notes:

The Insurance Fund is used to account for health benefits, worker's compensation and property/liability activity.
The fund also includes reserves for the dental/vision and property liability self-insured programs.

The Facilities expenditures decrease in FY 2013-14 reflects the completion of the roof replacement at Crescent Valley High School that was planned for in the FY 2012-13 adopted budget.

The bleachers at CVHS were condemned and had to be replaced so normal school activities could continue.
