2018-2023 Board Goals - Provisional¹

(Provisionally adopted on 08-16-18.)

Goal 1: Student Achievement

All students will read grade level texts by 3rd grade and stay on grade level; successfully complete Algebra I by the end of 9th grade; be on track with required credits by the end of 9th grade; and graduate with a post-secondary plan. Student identity (race, culture, socioeconomic status, language, ability, gender, or sexual orientation) does not predict or predetermine success in school.

Strategies:

1. Monitor students' reading progress in grades pre-K - 3rd grade using a system of sound instruction, assessment, and intervention so that all students are reading at grade level by 3rd grade.
2. Prepare students to successfully complete Algebra I by the end of 9th grade.
3. Develop a system that ensures each 9th grade student is on track to graduate.
4. All students graduate with a post-secondary plan.

Goal 2: Equitable Systems

Student identity (race, culture, socioeconomic status, language, ability, gender, or sexual orientation) does not predict or predetermine success in school. Disaggregated data will be used to measure progress on goal.

Strategies:

1. Recruit and retain racially and culturally diverse staff.
2. Increase and support student voice, empowerment, and leadership in our schools.
3. Expand parent and community partnerships.
4. Increase racial consciousness of staff through professional development focused on race, culture and culturally relevant instruction.

Goal 3: Real-World Learning

All students participate in real-world learning, with a global perspective, that prepares them for an ever-changing future. Student identity (race, culture, socioeconomic status, language, ability, gender, or sexual orientation) does not predict or predetermine success in school.

Strategies:

1. Support cultural responsiveness and biliteracy in our students and staff.
2. Create additional learning pathways toward graduation and life beyond high school.
3. Integrate real-world, experiential learning in all grades.
4. Integrate communication, critical thinking, collaboration, creativity, and problem solving skills into learning experiences.
5. Integrate environmental, social, and economic-sustainability in learning experiences.

Goal 4: Health & Wellness

Improve the health and wellness of district students and staff. Student identity (race, culture, socioeconomic status, language, ability, gender, or sexual orientation) does not predict or predetermine success in school.

Strategies:

1. Support and enhance programs that promote student mental wellness and safety.
2. Support and enhance programs that promote student physical wellness and safety.
3. Support a robust worksite wellness program for district staff.

Goal 5: Long Range Facility Planning

Transform aging school facilities to provide safe, effective, efficient, innovative, and equitable learning opportunities for every student. Student identity (race, culture, socioeconomic status, language, ability, gender, or sexual orientation) does not predict or predetermine success in school.

Strategies:

1. Communicate the needs for improved infrastructure and facilities with the Corvallis community.
2. Engage staff, parents, students and community in execution of facility improvements consistent with the district's core values for educational design.
3. Complete construction projects through a voter-approved bond levy.

¹ The provisional status of this document was determined as a way for the superintendent and district staff to pursue improved outcomes for the district. These goals and strategies will be reviewed in the fall of 2018. The board will seek input from the community at that time.

SCHOOL DISTRICT

Agenda

- Introductions
- Learning Targets
- Bond Management Plan
- Roles & Responsibilities
- Bond Budget
- Program Phases
- Architect Selection
- The Design Process
- Construction Phase
- Summer Updates
- Questions

Learning Targets

- You will learn how our school bond program aligns to and supports our Core Values.
- You will be able to communicate key ideas regarding the bond program.
- You will be able to better understand your role and responsibilities as school board directors specific to a bond program.

Core Values – Bond Impact

The District's Core Values provide the basis of process and decisions.

The District and Wenaha will ensure all partners in the work are aligned to these education and equity outcomes.

- Dave Fishel, Co-Owner, Bond Program Director

- Dr. Melanie Quaempts, Director of Educational Planning

- Dale Kuykendall, Senior Project Manager

- Eric Eckfield, Project Manager

- Kaliska Day, Project Manager

What Does a Project Management Firm Do?

- Equity leadership support
- Schedule preparation and management
- Master bond budget and cost management
- Process facilitation
- Public and staff outreach
- Procurement management
- Design process management
- Construction oversight – Schedule, Budget & Quality
- Coordinate with school operations
- Learning opportunities
- Move/start-up management
- Project management versus construction management

Consider Wenaha Group an extension of your staff.

What is the Facilities Department role?

- Ensure Core Values alignment
- Lead for equity-driven decision making processes
- Bond program communication to all stakeholder groups
- Procurement oversight and signing authority
- Liaison for project manager and district staff
- Infrastructure choices / continuity of design
- Ensure adherence to bond commitments
- Tim Trivett and Paul Jennison will be deeply involved through-out the process.

Bond Program Goals

- Develop and renovate facilities to ensure that our school environments are aligned with the district's core values for education design.
- Manage bond proceeds diligently and prudently.
- Create equitable opportunities in public purchasing and contracting.
- Integrate real-world learning opportunities for students into the bond program.
- Establish a Bond Oversight Committee to monitor bond program execution and to report its observations to the School Board.
- Engage stakeholders throughout the bond program.

Bond Program Management Plan

Strategies and procedures implemented to successfully execute the Bond Program

- Organizational framework
- Roles and responsibilities of key participants
- Decision making protocols
- Cost management strategies
- Reporting requirements

Updated on a regular basis

Roles & Responsibility Chart

Developed to ensure an equitable, inclusive and effective process.

Group Descriptions and Responsibilities

Board	RESERVE FUNDS	Bond Premium Bond Interest	Scope Changes

Financial Decisions

- Site Teams

- Each Site Team must live within the budget allocation established in the bond campaign for their individual school.

- Bond Leadership Team

- Authority to increase or decrease individual school allocations to maintain intended scope of work so long as total does not exceed \$199.9 million.
 - Authority over seismic grant and OSCIM grant amounts, and Oregon Energy Trust incentives.
 - Authority over Program Contingency funds.

- School Board

- Authority to allocate bond premium amount and interest income .
 - Authority to change scope from what was included in bond campaign.

Bond Program Cost Management Strategies

- Project quality, maintainability, and life cycle cost considerations are **more important** than the first cost to construct.
- The project management team will use strategies such as **value engineering, alternative procurement methods, and bid package sizing and timing** to maximize the budget.
- Project budget **surpluses will be placed in contingency budget** to ensure that all voter promises are met. Once promises met, contingency will be placed in program reserves.

Bond Program Reporting

Monthly Bond Financial Status Report

- Current forecasted costs of the total Bond Program matched up with the current total amount of funding available
- Bond Program Reserve balance (funding available but not yet allocated to any project budget)
- Combination of Program Reserve and Project Contingencies also reported to provide a key perspective of the financial status of the overall Bond Program

Draft Master Bond Schedule

- PROGRAM – Refers to the Bond Program and includes all packages and projects. (Dave Fishel)
- PACKAGE A, B, C – All school are divided into three groups:
 - Package A: New Schools (Dale Kuykendall)
 - Package B: Elementary Renovations (Eric Eckfield)
 - Package C: Middle & High School Renovations (Kaliska Day)

Draft Master Bond Schedule

What happens after passing the bond?

Project sequence is equity-driven.

Design process takes time.

Permitting and construction climate can affect start dates.

Bond sale split to accommodate potential 4th year.

Communication Methods

- Year-long activities that include the following:
 - Regular Bond Program Updates
 - Staff meetings
 - Monthly School Board Meetings
 - District Families
 - Greater Community
 - Bond program details on website-including procurement
 - Social Media – highlight school projects
 - Press releases to local media
 - Signage – school sites

Community Engagement Opportunities

In partnership with our Architects, we will design a community engagement process for design.

Criteria for Selecting Architect Firm(s)

- Core Value Alignment
- Bonding Capacity & Required Certifications
- Past & Current K12 Projects
- Firm's Staffing Capacity
- Firm's Approach to Design and Construction
- Firm's References Regarding Strengths and Concerns

Methods for Selecting Architect Firm(s)

- RFP Proposal
- Interview Question & Answer
- Community Engagement
- Reference Checks
- Additional Follow-Up Questions & Clarification with Firm(s)
- Selection Committee Recommendation
- Board Approval

Design Phases – Board Reviews Each Phase

Educational Specifications – Ed Specs

- Establishes design parameters for different building types

Schematic Design – SD

- SD documents are based on upon program, schedule, and budget. The conceptual design of the project is established showing a conceptual site plan and preliminary building plans, sections and elevations. This is the phase of maximum input and feedback.

Design Development – DD

- DD documents are based on the SD documents and updated budget. These documents shall show the refinement of the design by means of plans, sections and elevations, typical construction details, and equipment layouts. This phase is where you'll really get into the nuts & bolts details.

Construction Documents – CD

- CD documents are finished design product and consist of drawings and specifications with the details of materials and systems. This is the set that Contractors will bid and build from, and the City will review for permits. There is reduced input and feedback during this phase as all major decisions have been made.

Always remember: “The cost of change always increases as you get further into the process.”

The Design Process – Engaging Community

- Typical Design Timeline 9-12 months
- Establish Site Team at each school to represent school needs through design to construction.
- Design Guidance Team provide specialty feedback through the design process.

For example:

- ✓ Classroom
- ✓ Food Service
- ✓ Library/Media
- ✓ SPED
- ✓ CTE / STEM
- ✓ Community Usage

The Realities of Construction

- Safety and security
- Student learning opportunities
- Impact to on-going school operations
