Bond and Equity

The bond management team is convening this Friday to reflect on bond program outcomes in our buildings, community, and professional lives. When voters passed our bond, we deliberately carved out time to develop processes to ensure we made value-driven decisions aligned with our district, our community, and our bond promises. We will review key documents that guided our decision-making throughout the bond, including our Core Values for Educational Design, Design Guidance Principles, and tools like our Sustainability Guidelines and Equity Look Fors. We are excited to hear from our partners and will report our findings to you in a future bond report.

CORVALLIS SCHOOL DISTRICT BOND PROGRAM UPDATE April 13, 2023

GENERAL PROGRAM UPDATES

The past month, including the Spring Break week, yielded good progress on our projects. Please see the reports below for our most active projects; Adams Elementary, Franklin K-8, Mt. View Elementary and College Hill High School, for a look at the progress. Construction teams and project managers are working hard to make sure things are well-planned for a successful conclusion to the last summer of work.

Minor adjustments were made to the financial forecasting, indicating that bond program will complete within available funds, delivering all bond promises. The Corvallis School District should be proud of this accomplishment, especially in these days of economic and labor uncertainty. Kudos to the entire bond team!

Franklin looking good, with a new roof, new windows, new reader board and new paint!

CURRENT ACTIVITIES

SPRING BREAK WORK ACCOMPLISHED

- We installed 99% of the chair rail at the main hallway down to the library (just a few sections were too short).
- Installed additional tack board in the main hallway as far as we could go with the time we had. Unfortunately, this work went much slower than anticipated. We focused on adding the new rather than replacing the old so more of the school had usable tackable materials.
- We replaced the 300 sf of kitchen area roof completing our new roof efforts leaving only a couple of detail items to resolve.
- All HDMI extenders were installed throughout the school (parts finally arrived).
- Acoustical sound panels, FRL, 3 new basketball hoops and wood base were installed in the gym.
- The sliding transaction window into the office manager’s space was installed.
- We installed both new fans in the old temporary office flex room.

CORVALLIS SCHOOL DISTRICT BOND PROGRAM UPDATE April 13, 2023

- We were able to chip away at some interior repaint, repair of finishes and a sizable amount of exterior paint and blue trim work.
- The temporary heat source that was blowing through the science window was removed, as well as the heating unit and propane tank outside. Bike racks to be installed in this location.
- All missing glass pieces were installed, including the desired restroom mirrors.
- We replaced the six unit ventilators in the north elementary wing.
- Hallway TV mount should happen behind the scenes shortly.

ACTIVITIES SCHEDULED FOR NEXT QUARTER

SUMMER WORK:

- We expect delivery of the new RTU (Roof Top Unit) and ERV for science heat in April and will install these units during the first couple weeks of summer.
- We will complete all the exterior painting and blue trim.
- The district will be painting the interior of the classrooms over summer break.
- Bollard installation and the paving patching around the transformer vault will happen soon. In late August, the 3-phase power transformer will install. This will allow us to remove several old electrical panels and transition to the new panels and circuiting and further clean up the look in the hallways.
- Installation of the refinished wood wainscot will still occur over summer break. This work will coincide with repair of currently installed tackable wall covering and any final FRL installations and trim work.

HIGHLIGHTS

- In a continued effort to reduce site supervision costs we have scheduled all remaining work activities to occur over summer break.
- The school district is using all spaces of the school at this time and will continue to do so through the start of summer break.

High School World Language Curriculum

ACTION REQUIRED

Background

It has been over a decade since the district has adopted a new world language curriculum. The intention of adopting new materials is to ensure that our students participating in world language courses have access to rigorous, relevant and authentic materials. In this report we will provide a background on the materials we plan to adopt, a timeline for the adoption, and next steps for implementation.

At the beginning of the adoption process, we connected with high school teachers and asked them about their hopes for *students, teachers and community*. Teachers shared that they wanted to adopt curricula that:

- Embedded best practices for language acquisition,
- Supported students to develop cultural competency, and
- Asked students to use language for a purpose.

Overview of Adoption Process and Beyond:

- Fall 22/Winter 23: Convene committee, visioning, alignment work
- Fall 22/Winter 23: Continued alignment work
- Fall 22/Winter 23: Select materials for pilot
- Spring 2023: Pilot
- Spring 2023: Student feedback
- April 3-April 8: Instructional materials available for public viewing and comment.
- Fall of 23/24
 - New materials in classrooms in fall
 - Fall/ winter: Rounds and fidelity observations

Future Steps to Ensure Successful Materials Implementation

Once adopted by the school board materials will be purchased immediately.

Professional learning will be provided in Summer and Fall of 2023. On-going grade level collaboration will take place throughout the school year with the purpose of improving instructional practice and student learning.

High school Spanish language teachers will also collaborate with middle school Spanish language teachers on essential knowledge and skills for successful transition into high school Spanish courses.

All language teachers will participate in Learning Walks. These learning walks are short and informal

visits to classrooms, where educators can focus on a specific instructional practice and provide feedback. In addition, learning walks allow for continued collaboration and alignment between and among educators.

Building leaders will do regular walkthroughs through middle school Spanish classrooms and focus feedback on the quality of student talk.

Corvallis

SCHOOL DISTRICT

Prepared for: Corvallis School Board
Prepared by: Melissa Harder & Kristin Mahoney
Meeting Date: April 13, 2023

ACTION REQUESTED

Board Request—Non-Resident Transfer Spots

Background

Annually, the Board shall establish the number of nonresident student transfer requests into the district, to which consent will be given for the upcoming school year. Board Policy [JECB-Admission of Nonresident Students](#) and Administrative Regulation [JECB-AR-Admission of Nonresident Students](#) serve as guidance for the process by which transfers may be approved by Interdistrict Transfer Agreement.

Resident transfer requests are currently in progress between April 3-16, 2023 for grades K-12 via an online application process. Based on projected enrollments, the following announcement was made for resident transfers regarding space:

Adams Elementary: Siblings Only as space allows
Bessie Coleman Elementary: Open as space allows
Garfield Elementary: Open as space allows (language capacity for grades 2 through 5)
Kathryn Jones Harrison Elementary: Siblings Only as space allows
Letitia Carson Elementary: Siblings Only as space allows
Lincoln Elementary: Open as space allows (language capacity for grades 2 through 5)
Mt. View Elementary: Open as space allows
Cheldelin Middle School: Open as space allows
Linus Pauling Middle School: Siblings Only as space allows
Franklin K-8 School: Open as space allows
Corvallis High School: Siblings Only as space allows
Crescent Valley High School: Open as space allows

After closing the application on April 16, letters for approval, denial, or waitlist status will be sent to families within a week or two. Nonresident spots will appear tomorrow on the District website and the Non-Resident application will open May 1. Should the number of applications exceed the number of approved spots, an equitable lottery process will be applied.

In addition to the spots by grade level that are announced, non-resident siblings of current transfer students and students who have moved out of the District may apply to continue at their current school as space is available. Priority will be given to students requesting announced spots who have attended a public charter school located in the same district for which the student seeks admission.

For approved non-resident transfer students, an interdistrict transfer form (from the resident district) must be completed, submitted, and approved by the resident school

district in order to be released to attend a CSD school. Students approved for a transfer may remain until they finish the highest grade level in their current school. A subsequent application will be required when students move from elementary to middle and middle to high school. Students approved for transfer into the Dual Language Immersion (DLI) Program may continue in the DLI Program without applying for subsequent transfer requests.

A quorum was present, and due notice had been published.

II. EXECUTIVE SESSION

The Board met in Executive Session at 5:15 p.m. under ORS 192.660(2)(i) regarding the superintendent’s performance evaluation.

III. READING OF RESOLUTION NO. 22-0205 - ACKNOWLEDGEMENT OF DEVELOPMENTAL DISABILITY AWARENESS MONTH

Board Chair Finger McDonald, Board members Jones, Al-Abdrabbuh, and Adams, and student representative Zoe DeAmicis took turns reading aloud from the resolution, which the Board adopted in February 2022.

IV. BOARD MEMBER REPORTS

Director Al-Abdrabbuh reported on a middle school open chess tournament held at CHS, in which Cheldelin won second place. Unfortunately, gender was not equitably represented because there were only three girls out of approximately 100 students from Corvallis and Albany.

Chair Finger McDonald reported on a tour she and Director Al-Abdrabbuh took of the College Hill construction program. She remarked that the students took pride in their work.

V. OREGON SCHOOL BOARDS ASSOCIATION (OSBA) AND NATIONAL SCHOOL BOARDS ASSOCIATION (NSBA) UPDATES

The Board received a written report prior to the meeting. (The report is posted online with the informational packet of this meeting and will be filed with the official 2022-23 Board records.) Director Al-Abdrabbuh shared highlights from the report.

VI. SUPERINTENDENT'S REPORT

Superintendent Noss read from a report and gave a slide presentation to support it. (The Superintendent's report and slide presentation are posted online with the informational packet of this meeting and will be filed with the official 2022-23 Board records.) Some of the topics included:

- New Food and Nutrition Services Director Kathy Pitzer.
- Classified Appreciation Week to recognize the 450 staff who keep the District running and support many aspects of what school is about.
- Weather makeup days and adjustments in the school calendar.
- Art by Crescent Valley Students Maureen Villalobos-Vargas and Kayna Smith was accepted into a gallery showcase by the National Council of Education in Ceramics Arts.

Director Al-Abdrabbuh expressed appreciation for classified staff, noting the importance of their work and the sacrifices they make. He noted the Board's and Superintendent's ongoing support for these staff members.

VII. STUDENT REPRESENTATIVE REPORTS

Student representatives highlighted events and activities that happened or are upcoming for their schools.

Chair Finger McDonald expressed gratitude to the student representatives for their work on Board Policy BCBA – Student Representatives to the Board.

Superintendent Noss echoed that appreciation, noting that the students' input improved the policy.

VIII. PUBLIC COMMENT

Kara Janney, teacher at Cheldelin Middle School, expressed concerns regarding student safety in Corvallis Middle schools. She said Corvallis is the only district without a behavior program, and she saw more violence in the 2021-22 school year than in previous years. She urged implementing special programs to assist struggling students; the lack of a program and clear policies is why inequity persists. Educational assistants are implementing a proxy behavior program, something they are not even supposed to be doing, and the students do not get the help they need to be successful. Designing systems largely on their own is wearing teachers down.

Director Tominey joined the meeting at approximately 7:20 p.m.

Emily Pedersen, teacher at Kathryn Jones Harrison Elementary School (KJH), noted that March is Disability Awareness Month and said 58 students at KJH receive special education services, including 25 in the Life Skills program. She said hiring and retaining staff is critical to supporting students on IEPs. Most people who attend, volunteer at, or visit KJH say there is a sense of community; it is from the staff that works relentlessly to support all the students.

Jason Young, 2605 NW Roosevelt Drive, Corvallis, expressed concerns regarding bias incident reporting, saying that he has heard from teachers and staff regarding their fear about accidentally saying something wrong and having an anonymous report made on them; it is anonymity without accountability and education of staff, and the use of QR codes should be discontinued. He is concerned that the District is fostering a culture of tattling, and he urged the District to double down on education.

Director Al-Abdrabbuh pointed out that State law drives bias reporting. He asked Mr. Young to email the Board about the changes he recommends.

CVHS Student Representative DeAmicis asked whether the QR codes could lead first to an opportunity for a discussion. She supports the idea of anonymity because not all kids feel comfortable talking with their teachers.

Mr. Young concurred that having difficult conversations and figuring out how to move forward is a good solution.

Alexis McQuillan, teacher at Cheldelin Middle School, read from a prepared statement. (Her comments are posted online with the informational packet of this meeting and will be filed with the official 2022-23 Board records.) She advocated for creating an alternative pathway for middle school students who are not learning and succeeding in a traditional classroom. She also advocated for creating a comprehensive student behavior program. Both require time for staff to plan ways to support students, to plan follow-through, and to communicate to families what will happen. She said it is critically important to include student voice – beyond that obtained by the Youth Truth Survey – about what students are seeing and feeling at school; Cheldelin staff are preparing a climate survey to improve on obtaining student voice.

In response to a question posed by Director Tominey, Ms. McQuillan said a good start would be to survey to gather data and let kids tell their stories, then create focus groups for students. She noted that sometimes kids are more comfortable talking to each other about how they feel rather than talking with a teacher; it would be more productive for students to have a more comfortable environment, to include students who know each other well, and to have a trusted adult in the building.

Director Al-Abdrabbuh asked Ms. McQuillan to identify one leveraging action/solution that needs the most urgency or the highest investment. Ms. McQuillan said it is well known that not all students are going to learn in a traditional setting, regardless of the strategies put in place.

She added that there are many root problems, and staff must look at whatever alternative programs they can put in place; the District has the people and experience to make it happen.

Alex Gough, a student at Crescent Valley High School and a member of student government, said students are not getting enough practice in writing. He mentioned artificial intelligence (AI) apps students use to do school work. He is not against using AI, which he uses to brainstorm, but he feels it stops some students from thinking and causes them to sacrifice academic integrity, individuality, personality, and originality. He said multiple teachers believe that what the students do is not damaging their learning. He suggested the Board act proactively to make improvements in policies regarding the use of AI.

IX. SUSTAINABILITY UPDATE

The Board received a written report prior to the meeting. (The report is posted online with the informational packet of this meeting and will be filed with the official 2022-23 Board records.)

Kim Patten, Director of Facilities and Transportation, and Becca Stock from Brendle Group provided a slide presentation on this topic. (The slides are posted online with the informational packet of this meeting and will be filed with the official 2022-23 Board records.)

Topics covered included:

- Review of Sustainability Management Plan.
- Timeline of sustainability efforts at the District.
- Successes and challenges over the last four years and progress toward goals.
- School Sustainability Leaders 2023 Action Framework.
- Next steps.

Ms. Patten noted that she would bring a final report and an updated plan to the Board in the fall.

Ms. Patten introduced Dana Monroe, Lincoln Elementary School Art Teacher and School Sustainability Specialist, and students Charis Childress (5th grade) and Ellery Brian (3rd grade) to share how they have excelled in their sustainability efforts.

They shared information on such efforts as:

- Providing reusable lunch trays.
- Providing an inexpensive recycling system for waste and leftover food, differentiated by grade level.
- Collecting unwanted/unopened food for use by others.
- Using leftover food containers in maker spaces.
- Collecting food scraps for students to take home to their family's chickens.

Chair Finger McDonald thanked all presenters and encouraged the students to take this learning with them when they move into middle school.

Chair Finger McDonald expressed appreciation for Ms. Patten's positive impact on the District's

sustainability program this year, especially given all of the other work she does for the District.

X. POLICY BCBA - STUDENT REPRESENTATIVES TO THE BOARD – FIRST READING

Co-Vice Chair Whitebear joined the meeting at 8:17 p.m.

Board members asked questions about and suggested language in the policy and administrative regulation.

Chair Finger McDonald pointed out that the next steps are to make sure the Board is not making things so restrictive as to put up barriers to participation and to make sure the administrative regulation provides for a meaningful role without being overly prescriptive.

XI. BOND UPDATE

The Board received a written report prior to the meeting. (The report is posted online with the informational packet of this meeting and will be filed with the official 2022-23 Board records.) Facilities and Transportation Director Kim Patten, Dale Kuykendall, Senior Project Manager with Wenaha Group, and Superintendent Ryan Noss answered questions from the Board.

Director Al-Abdrabbuh said that community members have been asking him when they will be able to visit the schools – not only the ones already finished but the ones still under construction. He advocated for more opportunities for the community to tour the projects.

Ms. Patten responded that tours of the schools would be conducted once the bond project is completed.

XII. ANNUAL COMPREHENSIVE FINANCIAL REPORT (ACFR) 2021-22

The Board received a written report prior to the meeting from Finance and Operations Director Olivia Meyers Buch. (The report is posted online with the informational packet of this meeting and will be filed with the official 2022-23 Board records.)

Board member comments included:

- I appreciate the thoroughness of the report and the fiduciary responsibility of Ms. Meyers Buch and District leadership.
- Congratulations on yet another “clean” ACFR.
- It is important for the community to know how much work it takes to document the fiscal welfare of a district this size and the fiduciary responsibility District leadership has for every penny.
- Ms. Meyers Buch has made a clear effort to communicate to the Board and community the financial health of our District.

XIII. SUPERINTENDENT'S 2022-23 EVALUATION

Chair Finger McDonald noted that every Board member provided input into the evaluation of Superintendent Noss' work in meeting the goals of the District that the Board established. (The evaluation is posted online with the informational packet of this meeting and will be filed with the official 2022-23 Board records.)

Chair Finger McDonald read aloud the introduction of the evaluation:

“Dr. Ryan Noss is completing his seventh year as superintendent of the Corvallis School District. In many ways, school has returned to normal over the last year, and our students have been able to participate in activities, clubs, sports, and performances that were missed over the previous two school years. We invited the community to attend events at our schools and join us in celebrating the renaming of three of our schools. The renaming has been an opportunity to create curriculum so students can learn about and honor historically excluded and disparaged identities. Our district continued to outperform the state in four-year graduation rate and the number of 9th graders on track to graduate increased dramatically over 2020-21. With these, and many other, reasons to celebrate, we also are aware that the COVID-19 pandemic is still negatively affecting our students and staff. Third grade reading scores, graduation rates of students disproportionately affected by the pandemic, student behavior and mental health challenges, and staff stress are among the critical challenges we face.

“Through our accomplishments and challenges, Superintendent Noss has thoughtfully leveraged resources to meet the needs of our district. He has led with a dedication to listening, collaboration, and growth and is actively engaged in leading his team in finding new ways to provide students pathways to success. The Corvallis School Board continues to feel that our district is fortunate to have Superintendent Noss serving our students and staff and finds his performance to be exemplary.”

Superintendent Noss said the relationship between the board and the superintendent is vital, and it is a pleasure for him to work alongside this Board. He added that teachers have the greatest impact on student achievement, followed by principals and consistency in leadership.

XIV. CONSOLIDATED ACTION

MOTION:

It was moved by Director Al-Abdrabbuh and seconded by Director Adams to approve the Consolidated Action items. The motion was voted on and unanimously approved.

The Board approved the following items:

- A. **Minutes** – February 9, 2023

XVI. BOARD MEMBER COMMENTS

Director Adams referred to the District's bias incident reporting process and noted that the Board had received a comprehensive report of the program in the past; however, he could not recall how bias incident reports are processed. He asked that the Board receive another report – not necessarily in a meeting – with information about how those reports are processed.

Director Al-Abdrabbuh asked that the Board receive a recording of the presentation regarding bias incident reporting; if such a recording exists; he would like to share it with constituents. He added that the reporting process was intended to help students feel safe and for the system to be responsive to the needs of students. He asked that staff or students with recommendations for changing the policy forward them to the Board through staff.

Director Jones said the bias incident reporting system is designed to go through several layers of consideration; leadership is attentive to that, but there is still room to evaluate the complex process.

Director Jones noted that student behavior is another complex issue for the community. She said she appreciated hearing the concerns from teachers and staff about how to make the learning space safe while keeping students at the center of that. She opined that clear communication could help, such as what constitutes a safety plan and how it is communicated.

Director Jones touched on Superintendent Noss' positive performance evaluation and to being a member of the Board. She thanked the community for their involvement, Superintendent Noss for his leadership, for continuing to make Corvallis a place that can provide an example, and for the privilege of being a part of that. She said Corvallis is a dynamic community with many involved people, and it is exciting to be participating in public education.

Superintendent Noss referenced the bias response protocol and said District staff met last night with members of the District's DELTA group (District Equity Leadership Team Advisory), which is made up of parents of color and those who are bilingual. Discussion included topics such as *What does restoration look like? How do you know that you have been heard? What do relationship building and authenticity mean to you?* He said that as his team thinks through the system, they intend to get to the heart of that humanity; while no process is perfect, it is what they aspire to, are trying to do, and are challenged to do.

Chair Finger McDonald said she hopes the community understands that even though Board members only ask a few questions during public comment, it does not reflect how seriously they take those comments.

Board Policy IGBBA—Talented and Gifted Students – Identification**—Revised—Second Reading

Background

Board did not have any revision requests of this policy.

This policy addresses the implementation of strategies used to identify and enroll students in the Talented and Gifted program. The district confirms that it uses proven practices and strategies to determine if a student demonstrates exceptional academic performance and achievement. Identifying students using these strategies also minimizes or eliminates the possibility of bias in assessment and identification of students from underrepresented communities.

Massive changes have been made to this policy. While the policy previously listed the commitment to practices that minimize or eliminate bias, these new changes elaborate on those strategies and those communities that might be impacted. The policy switches from research-based to evidence-based strategies and practices and requires the use of multiple modes and methods of qualitative and quantitative evidence to allow identification of TAG students. The changes to this policy also incorporate the input of parents, staff, and community members in the development of an identification process.

Talented and Gifted Students – Identification**

To serve students eligible for academically talented and intellectually gifted services in grades K-12, the district directs the superintendent, or designee, after due consideration of the input of staff, parents and the community to establish an identification process.

This process of identification shall include as a minimum:

1. Use of evidence-based practices that include a variety of tools and procedures to determine if a student demonstrates a pattern of exceptional performance and/or achievement that is relevant to the identification of TAG students eligible for TAG services under ORS 343.395.
2. Collection and use of multiple modes and methods of qualitative and quantitative evidence to allow appropriate members of a student's identification team to make a determination about the identification and eligibility of the students for TAG services, supports and/or programs; with no single test or piece of evidence eliminating a student from eligibility.
3. Use of methods and practices that minimize or seek to eliminate the effects of bias in assessment and identification of students from historically underrepresented populations including, but not limited to:
 - a. Students who are racially/ethnically diverse;
 - b. Students experiencing disability;
 - c. Students who are culturally and/or linguistically diverse;
 - d. Students experiencing poverty; and
 - e. Students experiencing high mobility.
4. Incorporate assessments, tools and procedures that will inform the development of an appropriate plan of instruction for students who are identified as TAG and describe how information from the assessments, tools and procedures used in the identification for students eligible for TAG services will be used to support development of the plan of instruction.
5. Identify how the educational record under ORS 326.565 of the student being considered will document and reflect the record of the team's decision and the procedures and data used by the team to make the decision.

The district will provide professional development for staff assigned the responsibility for identification of talented and gifted students.

The identification team may use sources of evidence described in OAR 581-022-2325(3) to provide students with multiple opportunities to demonstrate a pattern or preponderance of evidence of talent or giftedness.

When a student is identified for TAG, the district shall inform parents of the programs and services available to their student and provide an opportunity for parents to provide input to, and discuss TAG instruction proposed for their student. The instruction provided shall be designed to accommodate the student's assessed levels of learning and accelerated rates of learning. Parents may request the withdrawal of their student from TAG at any time.

If a parent is dissatisfied with the identification process or placement of their student, they may submit an appeal through Board policy KL - Public Complaints and begin with the superintendent or designee.

After exhausting the district's appeal procedure and receiving the district's final decision, a parent may appeal the decision to the Superintendent of Public Instruction under Oregon Administrative Rule (OAR) 581-022-0001 to 581-022-0023. The district shall provide a copy of the OARs upon request.

Background

The Statement of Resources and Requirements for the General Fund for the period ending January 31, 2022 and January 31, 2023 follow this report. The supplemental budget adopted by the board on January 9, 2023 is now reflected in the FY 2022-23 Amended Budget column.

Year-to-date operating revenues through the end of January 2023 total \$70.8 million or 80.1% of total budgeted operating revenues as compared to \$66.2 million or 80.4% through the end of January 2022. As usual, revenues from the state school fund and property taxes constitute the majority of funds received. Total projected resources of \$101.7 million are \$1.0 million less than budgeted.

Year-to-date operating expenditures through the end of January 2023 total \$40.8 million or 45.2% of total budgeted operating expenditures as compared to \$38.2 million or 44.1% through the end of January 2022. Projected underspending in 2022-23 is expected to be approximately \$1.8 million or 2.0% of the amended budget.

Projected resources and requirements through June 30, 2023 result in an ending fund balance of \$12.1 million, or 13.8% of projected operating revenues. The projected ending fund balance reflects a decrease in fund balance, or operating deficit, of \$1.5 million; however, all General Fund reserves are projected to be at or above the designations outlined in board policy on June 30, 2023.

XIII.B.2. February 2023 Financial Statements (Unaudited)

Corvallis

SCHOOL DISTRICT

Prepared for: Corvallis School Board
Prepared by: Olivia Meyers Buch, Finance and Operations Director
Meeting Date: April 13, 2023

February Financial Statements (Unaudited)

NO ACTION REQUIRED

Background

The Statement of Resources and Requirements for the General Fund for the period ending February 31, 2022 and February 31, 2023 follow this report. The supplemental budget adopted by the board on February 9, 2023 is reflected in the FY 2022-23 Amended Budget column.

Year-to-date operating revenues through the end of February 2023 total \$75.2 million or 85.1% of total budgeted operating revenues as compared to \$70.0 million or 85.0% through the end of February 2022. As usual, revenues from the state school fund and property taxes constitute the majority of funds received. Total projected resources of \$101.7 million are \$1.0 million less than budgeted.

Year-to-date operating expenditures through the end of February 2023 total \$47.4 million or 52.6% of total budgeted operating expenditures as compared to \$44.9 million or 51.8% through the end of February 2022. Projected underspending in 2022-23 is expected to be approximately \$1.8 million or 2.0% of the amended budget.

Projected resources and requirements through June 30, 2023 result in an ending fund balance of \$12.1 million, or 13.8% of projected operating revenues. The projected ending fund balance reflects a decrease in fund balance, or operating deficit, of \$1.5 million; however, all General Fund reserves are projected to be at or above the designations outlined in board policy on June 30, 2023.

Please contact me with questions or if you would like any additional information.
