**PERSONNEL PROJECTS**

October provides for another busy month with Human Resources, as with most of the district. As school is well underway with staff and students present. Multiple State of Alaska Department of Education (DEED) Reports are due in October. The First Day Teacher Vacancy Report, which is a report to collect the number of teaching positions that are not filled (vacant) with an individual possessing a valid Alaska teaching certificate at the start of the school year. This information is necessary to quantify the teacher shortage in Alaska. And the other DEED Certified Staff Accounting, and Classified Staff Accounting Reports. This is very large collection of data for all certified and classified staff employed by the school district on the first day of work of October. In addition, Employment verifications continue to be requested and be completed timely. NPS Employee file reviews are done to be certain all NPS staff have a required HR documents in their personnel file. Including Alaska Teacher Certification compliance.

**EMPLOYEE BENEFITS**

No Update

Respectfully submitted by,

Cynthia Gray

## **Public Comment Statement**

The Board of Education welcomes community member input during meetings about issues on or not on the agenda. The Board is not able to respond directly to you during Public Comment; the Board may decide at the end of the meeting during Board Member Comment to discuss your topic at a work session, regular meeting, or direct the Superintendent to look into a situation further.

The Board may not speak about subjects that are protected by legal confidentiality such as specific student discipline issues or personnel issues that could disparage or slander district employees.

The general guideline is approximately three minutes per speaker; however, additional time is allowable if needed. When you speak to the Board, please state your first and last name for the record.

Superintendent Report

1. The Superintendent participated in a Professional Teaching Practices Commission meeting October 7-8 virtually. I appreciate the Board's support in allowing me to participate in this statewide commission, and to represent the interest and perspective of district leadership when considering disciplinary actions against educator certificates for Alaska. One general topic of interest that was presented during the Executive Director's report was the recent push by professional associations and liability insurance carriers for districts to adopt a Professional Boundaries policy, and it was noted that very few districts had taken this important step which protects students from sexual abuse. I am very proud of our Board's decision to be an early adopter of this policy, which allowed the administration to implement training for all staff and administrators starting in the fall of 2020.
2. The District moved its Risk Classification for Sports into Yellow and then to Red in response to the rising number of active cases in Nome proper. This prompted several ongoing phone calls with our Health Advisory Team to discuss our restrictions and mitigation efforts with our sports teams and handling incoming teams for tournaments and meets, and make needed adjustments to our Mitigation Plan. We are grateful for the thoughtful guidance of Dr. Mark Peterson, Medical Director for NSHC, on appropriate handling of athlete travel regarding vaccinations, masking and testing to provide as much opportunity for our students to participate in sports events while lowering the risk to students and the community. A copy of the most updated version of the Sports COVID Mitigation Plan is attached for your information.
3. I attended both the AASB Fall Boardmanship Academy in the middle of September and the Alaska Superintendent Association's Fall Meeting at the end of September. It was wonderful to participate in these valuable professional development opportunities in person, and to network with my colleagues. I also presented on the Professional Teaching Practices Commission to Alaska superintendents and am writing an article on professional ethics for the Fall ASA Newsletter.
4. District Committees – The Equity Committee held its first meeting this past week. While it was not well-attended, it was an excellent discussion with a review of the purpose of the Committee, and great discussions around ways we can continue to move equity work forward in our District. We will continue to review and revise the Strategic Equity Framework over the course of the year as well.

The Calendar Committee is set, with a very nicely balanced committee this year. We have representation from administration, certified and classified staff, a nice-sized group of parents, a tribal representative from both Kawerak and Nome Eskimo Community, and two students. Our first meeting date will be set this week – the focus of the first meeting is to begin to educate the committee on all the elements that impact school calendar development. In addition, I plan to ask the Policy Committee to consider shifting to a three-year calendar development plan when they next meet.

5. There are some exciting changes happening at Nome-Beltz Middle/High School! Below are some photos of the progress for the new concession stand. Unfortunately the progress is a little delayed due to some supply chain issues for our roll-up door, but we are hopeful that we will be able to open our new stand in time for basketball season. The old concession stand is gone and the Nanook Room is now an open space for students to meet.

6. October is Principal's Month, and I would like to specifically recognize the professionalism and leadership exemplified by our three principals. Ms. Korenek-Johnson does a wonderful job with ensuring that indigenous culture and language are an integral part of her school, Ms. Leeper continues to provide a warm and personalized instructional experience for her students, and Mr. Thomas has transformed staff culture at our middle/high school. We are grateful for a team of dedicated professionals leading our schools, especially through the challenges of the COVID-19 pandemic.

7. Attached is a Job Description for a new position – Afterschool Program Coordinator. The District plans to utilize some of its COVID funding to launch a comprehensive afterschool program at Nome Elementary, and we will require a Program Coordinator to assist with development and administration of the program. The funding for this position will come out of the COVID grant. Our planned timeline will be to launch for second semester.

## ACSA Board Report, October 12, 2021

Lisa Leeper, Principal

### Enrollment / Attendance Update

- We had a 95% student attendance rate for September
- We recently had one student transfer to NES, and the position was filled by the sibling of a current student in accordance with lottery priorities.

### Classes and Activities

- September Student of the Month: Stanley (Cohen) Booth, 7th grade
- Students continue their work to develop a plant field guide for Nome. Students have gathered, identified, and studied plants that are native to the Nome area. Students are now creating informational pages to put in a local plant guide. We will share the guide with the community and with visitors to Nome.
  - . Allison Kelliher, originally from Nome, is an MD and specializes in botanical medicines. She spoke to the science classes over Zoom about medicinal properties of their plants and about harvesting and using plants from an indigenous perspective.
- Students are involved in literature study and will, throughout the year, read several books with themes related to life in Alaska. Literature study involves responding to text and having weekly student-led discussions.
- After school homework club is up and running with a typical attendance of about 20 students. A few community and parent volunteers help when possible, and Ms. Smyke is the contracted teacher.
- LEGO Robotics for ACSA/Beltz Middle School has started and has an enrollment of 14 students. The participants are very enthusiastic and have made lots of progress already. Additional robotics sessions will be offered this fall and in the spring.
- Due to the resignation last month of one of our APC members, we are currently looking to fill a seat for a term that will end in January of 2024. Parents or

community members are able to fill the seats and letters of interest are solicited through email and the ACSA Facebook page.

- Mrs. Leeper is planning to take the ACSA 8th grade class to Washington, DC with the Close Up program during the same week in April as Beltz Middle School. The two groups will take part in the same civic lessons, but each will explore some additional opportunities independently. This is the first time ACSA has gone through Close Up; in the past, the trip itinerary and bookings were handled by the ACSA lead teacher.
- As with all NPS schools, our school would benefit from having more available substitute teachers. We have two possible that we are aware of, but these same substitutes are needed in the other buildings, and often we are covering a teacher's absence in house. This issue is something to address because it impacts learning for students and morale for teachers.
- Strategic Plan Goal #2 - Programs, courses and instruction reflect and incorporate local and indigenous identity.
  - ACSA operates on a four year rotation of content themes:

2021-2022 Alaska Studies: Who We Are and Where We Come From  
(Biology & Anatomy, Alaska geography, history and cultures)

2022-2023 Foundational Changes (Geology, Chemistry & Earth Science,  
Early American History)

2023-2024 The World Around Us (Ecology, World Geography, Ancient  
Cultures)

2024-2025 In Motion (Physics, Government, Movements)

- In each theme, where appropriate, we try to incorporate indigenous ways of knowing and local cultural perspectives. Some themes are provide a seamless integration of local and indigenous identity, like when we study Earth Sciences and try to incorporate ecological knowledge provided by the first people of the Bering Straight region. Other themes need to capture more of the sense of how our part of the world and our values fit into the context of the global society.

- Many of the projects for our various subjects allow students the opportunity to showcase one's identity. We will attempt to make regular, meaningful opportunities to tie learning to a student's culture.
- Math is the content area of our program that needs the most attention for incorporating local and indigenous knowledge. We rely too heavily on the text when teaching, and it is a goal of ours to make math more relevant to our student's lives.

Subject: October Board Report

NBMHS Current Enrollment: 297

Attendance: 81%

- The NBMHS Teacher of the Month is actually our team of summer school teachers: Mike Hoyt, Holly Harlow, Rosa Wright, and Rachel Finney.
- The NBMHS Support Staff of the Month is Anita Scadden , who did a great job at working with our summer school students.
- The NBMHS Students of the Month are high school student Melody Olanna and middle school student Emily Walluk.
- Congratulations to Ben Payenna for earning his Type M Certificate!

The following is a list of happenings that currently impact NBMHS:

- An increase in Covid cases has added stress to our school activities;
- Wearing masks appropriately throughout the day is an ongoing challenge;
- Two long-term sub situations has caused staffing issues with a lack of substitute teachers;
- NBMHS is looking for a way to fund a second Native Arts teacher. We currently are not offering skin sewing, beading, or parky making as we did in the past;
- A new concession area is under construction and the old “temporary” structure has been removed, adding space and light to the Nanook room;
- The library has taken on a new look. Come check out, “The Study,” which includes a Seminar Space with books for check-out and a Study Hall.

Activities Wrap-up:

- XC Country has had a great season. The boy’s team has qualified for state from Region 1. Results: 1st place, Orson Hoogendorn; 3rd place, Son Erickson; 4th place, Finn Gregg; 7th place, Colin McFarland; 8th place, Paris Hebel.  
The girls state qualifiers include: 1st place, AwaLuk Nichols; 4th place, Della Medlin; 5th place, Natallie Tobuk.
- VB continues to have a winning season. Congratulations to Tory Gray and Kellie Miller for earning spots on the All Tournament Team in Cordova.

- The NBMHS state champion Esports team has started the Fall season strong!
- NBMHS students are writing for the Nome Nugget!
- Educator Rising is gaining traction at NBHS and this club is growing as we encourage students to consider a career in education.

Strategic Plan Goal 2: Educational experiences respectfully integrate Indigenous identity.

As we consider classes and programs that impact our school the following list highlights many of them:

- Nome Native Youth Leadership Organization
- Conversational Inupiaq (Dual Credit w/NWC)
- Colonization in Alaska (Dual Credit w/NWC)
- Native Dancing and Drumming
- Traditional Carving
- Seasonal Subsistence
- Cultural Arts and Crafts
- Art I&II
- Culturally relevant books in the Language Arts curriculum include: *Two Old Women*, *My Name is Not Easy*, *Inuit Thought of It*, and *The Raven's Gift*.

## Current projects

ChromeBoxes? Nome-Beltz Middle High School computer lab and Read180 computers received an upgrade. The Technology Department recently replaced the 30 2009-2010 model iMacs that were running ChromeOS with new ChromeBoxes devices. These devices consist of a 21" monitor, a mountable ChromeBox unit, keyboard, and mouse. These devices have very similar performance to ChromeBooks, work well in the lab environments, and are 1/3 of the cost of new iMacs.

Preparation of old model iMacs for SecondLife Mac exchange. The Tech Department, especially our Systems Administrator, has been busy erasing and installing base macOS loads on 70 of our nearly 100 2009-2010 model iMacs to ship to SecondLife Mac as part of their used device buying program. Once all devices have new base loads I will coordinate with SecondLife Mac for a quote and shipping boxes. Any funds received through this program will be used to offset the cost of purchasing new ChromeBook, ChromeBox, or iPad devices.

SPED Equipment - in coordination with the SPED Department, the Tech Department is in the process of ordering / updating SPED Student devices, SPED Para devices, and classroom interactive displays. Most of these devices are ordered and we are awaiting receipt to roll them out to SPED classrooms.

Enrollment Fairs a success. We held a total of 4 Enrollment Fairs this year at NES Library Lab (26AUG, 16SEP, 23SEP, and 30SEP from 5:30pm-9:00pm). I would like to personally thank Mrs Korenek Johnson (4 fairs), Stacy Kosto (3 fairs), Tim Davies (3 fairs), Justin Heinrich (3 fairs), Jennifer Janke (2 fairs), and Jade Murdock (2 fairs) for assisting with the Enrollment Fairs and all of the extra hours that many of the registrars put in contacting families! Total registrations from the fairs exceeded 100 student records. We are almost complete with returning student enrollments!

## Future Projections

No Change: Updates for Network Equipment (E-Rate Category II) - We ordered 17 Power over Ethernet (PoE) capable switches to enable the placement of the new Access Points in all classrooms. These switches will also provide power and connectivity to our security cameras and other network connected peripherals throughout the district. These switches are due to arrive December of 2021. We receive 85% reimbursement for qualifying Category II equipment installed in school buildings with students under the E-Rate program.

Updates to server rooms. With the updates from our Internet Service Provider, mentioned in August's report, the required electrical circuits installation / upgrades for our NES server room were completed on 02OCT21. We will now work on cross leveling some of our server racks and servers from NBMHS to NES. The move of this equipment will help balance loads on our network as well as stabilize our PowerSchool SIS in the event of an outage between NES and NBMHS.

## PowerSchool Online Enrollment

PowerSchool Online Enrollment update. As of 03OCT21 there are 149 New Student Enrollments and 484 Returning Student Enrollments for a total of 633 records processed. This equates to **92.5%** of our current student count as having online enrollments completed for SY21-22. This is 12.5% higher than October of 2020, we did not exceed 92% completion until the February timeframe of last school year.

**PowerSchool Student Information System Access data  
PowerSchool use, by students and parents.**

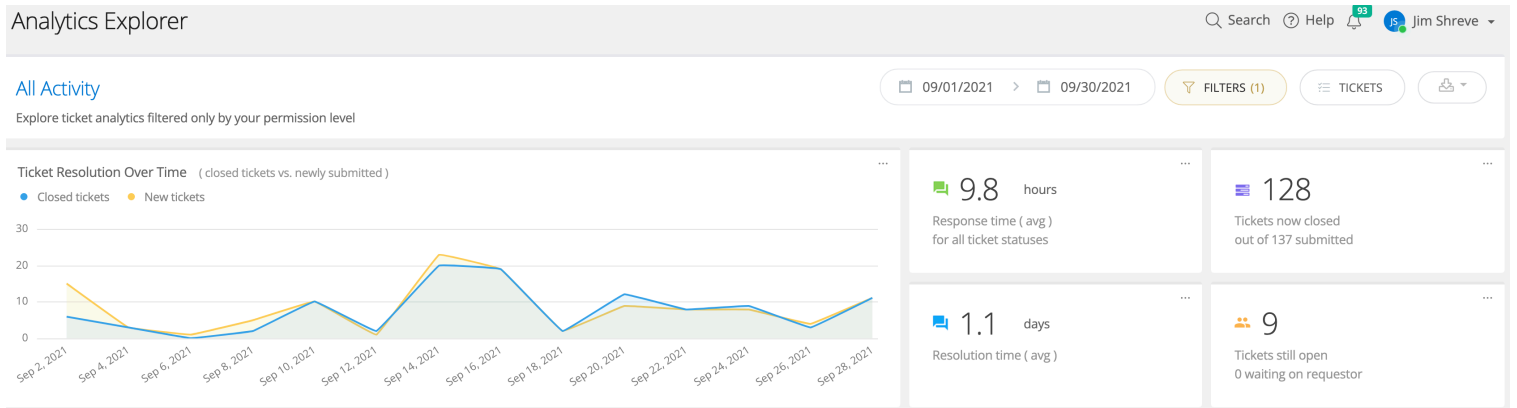

**Total Parent and Student PS Web and Mobile Access Sessions:**

# Technology Web HelpDesk

Part of the Technology Department’s duty is to maintain the Technology Web Help Desk for staff to request repairs, training and troubleshooting. In September we resolved 128 out of 137 (93.4%) of the tech requests submitted through the system. Our average response time was 9.8 hours and average resolution time was 1.1 days. We encourage staff to make use of this resource but many immediate needs are still handled outside of it.

## **Public Comment Statement**

The Board of Education welcomes community member input during meetings about issues on or not on the agenda. The Board is not able to respond directly to you during Public Comment; the Board may decide at the end of the meeting during Board Member Comment to discuss your topic at a work session, regular meeting, or direct the Superintendent to look into a situation further.

The Board may not speak about subjects that are protected by legal confidentiality such as specific student discipline issues or personnel issues that could disparage or slander district employees.

The general guideline is approximately three minutes per speaker; however, additional time is allowable if needed. When you speak to the Board, please state your first and last name for the record.

## BACKGROUND INFORMATION

The District was offered a non-competitive grant from the Department of Health and Social Services over the summer; however, the main activity under the grant was to support regular screening testing in schools. Consultation with NSHC staff resulted in the decision to decline the grant, as we considered the combination of easily accessible testing in our community, protecting our valuable instructional time, and the challenge of adding duties to our already overburdened staff. However, recent conversation with Public Health Nursing staff at DHSS resulted in the information that the grant could also be used to hire a School Nurse to support COVID response tasks and general student health issues within our District. As such, we are in the process of completing the necessary paperwork with DHSS to fund the grant to attempt to hire a nurse for the remainder of the school year. The grant is only for the current year; however, it is likely it will be extended for the following school year as well. A Job Description for School Nurse will be shared with the Board in an upcoming meeting.

In addition, the Administration had a conversation with DHSS regarding a request for school nursing support as part of the recently announced contract between the State of Alaska and the federal General Services Administration. This contract will provide temporary healthcare workers across the State of Alaska, and I had contacted DHSS quite some time back about a request for a school nurse for our community should one become available. We are awaiting confirmation of this placement, but there are some significant caveats – the position may be pulled at any time in response to changing healthcare needs around the state, we may have rotating individuals through the position as opposed to one permanent individual, and the position is also only contracted through the beginning of Winter Break, although there is the possibility it may be extended for 90 days after that. As such, I feel that a two-pronged approach is warranted, which may result in two school nurses or possibly none at all. Regardless, I will be working with our principal teams to develop a plan and schedule for a nurse for our District.

### Terms and Conditions

1. The Department of Health and Social Services (grantor) and the grantee agree to comply with all applicable laws, the terms and conditions pertaining to the grant and services identified herein and incorporated into this agreement by reference, including 7 AAC 78, the Request for Proposals, the approved grant application, and the items listed below:
  - i. Special Conditions to this grant agreement,
  - ii. Privacy and Security Procedures for grantees,
  - iii. All other applicable items as required by the terms and conditions of the documents incorporated into this agreement, which may include but are not limited to: Federal Certifications, Waiver of Sovereign Immunity, and program specific reporting forms.
2. Subject to the availability of spending authority to the grantor to fund this grant and provided such spending authority is not revoked, rescinded, reduced or withheld, the grantor and grantee agree the amount awarded for the grant project is as indicated in this agreement. The grantor will promptly provide the grantee written notice if funding under this award is revoked, rescinded, reduced, or withheld and the effective date of such action.
3. The grantor's share of a grant project cost is earned only when the cost is incurred and the grantee's share of the cost has been contributed to the grant project. Receipt of funds from the grantor (either through advance or reimbursement) does not constitute earning of these funds.
4. Unless otherwise allocated in the approved grant project budget, or as approved by grantor, grantor funds shall be expended on a prorated basis with any required match or additional support funds according to their percentage of the total approved grant project budget.
5. The minimum required match is 0.00%. The grantee is agreeing to provide the matching contribution detailed in the required match column of this agreement.
6. Grant income, as defined in 7 AAC 78.950 (17), that is earned by a grantee must be used in accordance with 7 AAC 78.210. Grant income revenue and expenditures must be reported to the grantor if identified as match to this grant; and where other state and federal laws apply.
7. The grantee shall indemnify, hold harmless, and defend the grantor from and against any claim of, of liability for error, omission or negligent or intentional act of the grantee under this agreement. The grantee shall not be required to indemnify the grantor for a claim of, or liability for, the independent negligence of the grantor. If there is a claim of, or liability for, the joint negligent error or omission of the grantee and the independent negligence of the grantor, fault shall be apportioned on a comparative fault basis. The terms "grantee" and "grantor", as used within this article, include the employees, agents, and other contractors, or grantees who are directly responsible, respectively, for each. The term "independent negligence" is negligence other than in the grantor's selection, administration, monitoring, or controlling of the grantee and in approving or accepting the grantee's work.
8. Funds awarded through this grant may be reduced, withheld, or terminated by written notice from the grantor to the grantee at any time for violation by the grantee of any terms and conditions of this agreement, or when such action is deemed by the grantor to be in the best interest of the state.
9. For any licenses, permits or certifications required for a grantee to provide services under this agreement, if at any time during the term of this agreement, the required licenses, permits or certifications are in jeopardy for any reason, or have been revoked, rescinded or canceled, or a grantee otherwise loses the credentials necessary to receive a grant under either State or Federal law, the department may take whatever corrective action is necessary to protect the best interests of the clients served and the best interests of the State of Alaska.
10. General Administration:
  - i. The payment schedule including percentages and projected advance amounts are outlined in the Award section of Grants Electronic Management System (GEMS). Within 15 days after the grant agreement is fully executed, the grantor will make the initial advance payment. Subsequent advance payments will be based on receipt and approval of all required reports and compliance with grant and program requirements. Advances will equal a percentage of the total award less any funds not expended from prior advances; except that the grantor will withhold a percentage of the total award for final payment, until the grantor has received and approved all reports and the grantee has met all conditions of this agreement. If a grantee does not meet the identified Results Based Budgeting framework performance measures, the remaining 5% may be withheld. Under circumstances necessary to the success of the grant project, advance payments may exceed the projected

- percentages.
- ii. Reporting schedules are outlined in the Reporting section of GEMS. The grantee will submit expenditures using Cumulative Fiscal Reports (CFR) to the grantor in the format prescribed by the grantor through GEMS. Unless the grantor approves an extension of time, the grantee will submit a CFR to reach the grantor by the due dates indicated in the Reporting section of GEMS. CFRs must advise the grantor of the grantee's expenditures for costs allowable under 7 AAC 78.160 and the terms of this agreement.
  - iii. Due with the final year-end CFR grantees must also provide to their grants administrator listed on the face page of this grant agreement a detailed list of encumbrances that have been included as current year expenditures in the year-end CFR, as required in 7 AAC 78.190(d), and defined in 7 AAC 78.950(13) or those costs will be disallowed.
  - iv. Failure to submit correct CFRs on or before the deadlines stated in the Reporting section of GEMS may result in denial of payments due to the grantee. No part of the grantee's duty to return excess funds or funds determined by audit to have been improperly expended, as required in 7 AAC 78.230 (b) and (c), is affected by this provision. The grantee will return all such excess funds to the grantor upon submission of corrected CFRs and/or audit, or immediately upon later determination that a refund is due.
  - v. Reporting schedules are outlined in the Reporting section of GEMS. The grantee will submit program reports to the grantor in the format prescribed by the grantor. Unless the grantor approves an extension of time, the grantee will submit program reports to reach the grantor by the due dates indicated in the Reporting section of GEMS. Reports must be completed in the format prescribed by the grantor and submitted through GEMS. The department shall determine, based on reporting, if the grantee has met the identified outcomes consistent with the expectations and mission of the department. This determination will aid in the department's decision regarding award and funding for subsequent years. If the program report contains Protected Health Information (PHI), the grantor will contact the Department of Health and Social Services Program Manager for instructions on the secure transmission of the program report. Unless otherwise noted in the special conditions of award or items 10 ii-vi, all reports not available for submission through GEMS must be coordinated with the grants administrator listed on the face page of this grant agreement.
  - vi. All proposed changes to the approved grant project are subject to the requirements of 7 AAC 78.260. Requests for budget changes subject to 7 AAC 78.260(f), shall be submitted through GEMS as a Line Item Budget Revision request (LIBR).
11. The grantee shall maintain accurate property records for all property purchased with grant money, as defined in 7 AAC 78.950(18), and make those records available to the grantor upon request in accordance with 7 AAC 78.280.
