- Continue with our Courageous Conversations co-planned and co-led with our Equity Leads

EXECUTIVE SUMMARY FOR THE SHOREWOOD SCHOOL BOARD

Topic: 2023-2024 Student Academic Standards

Date: July 11, 2023

Prepared by: Michael Joynt (Director of Teaching and Learning)

Board Policy Reference:

- OE 9.2 Base instruction on District academic standards that meet or exceed state and/or nationally-recognized model standards.
- OE 9.3 Align curriculum with adopted standards.

Recommended action:

- ☒ Information only
- ☐ Presentation/discussion
- ☐ Discussion/action by committee
- ☐ Discussion/action by board of education
- ☐ Presentation/action next meeting

Purpose: School Boards are required by section 120.12(13) of the state statutes to notify the parents/guardians of students enrolled in the school district of the student academic standards that will be in effect for the school year. Also, the School Board must annually include an item on the agenda that clearly identifies the student academic standards adopted by the Board under section 118.30 (1g)(a)1 of the state statutes that will be in effect for the school year.

Background:

As in years past, Shorewood School District will align with Wisconsin Academic Standards, which reflect state adoption of national Common Core standards, as well as alignment to other nationally-recognized standards (i.e. Next Generation Science Standards - NGSS).

Like other public school districts, the District's three-year curriculum evaluation and improvement cycle includes:

- a review of standards that apply to the content area being examined and a review of curricular resources to ensure alignment to these standards (Year One);
- a curriculum mapping process (Years One and Two) that ensures alignment of resources and assessments to standards;

- the creation of an implementation plan, including needed professional development (Year Two); and
- after implementing the curriculum, an evaluation of outcomes and student results (Year Three).

This [Updated Curriculum Evaluation Cycle](#) reflects the work that will be done during the 2023-24 school year including:

- 5K-3rd grade will be implementing the *95% Phonics Program* this year. This program specifically targets phonics instruction in the early grades in order to build strong readers. Research shows that solid foundational reading skills are a strong predictor of future success for students.
- 5K-5th grade teachers will be implementing the *Eureka Math² Curriculum* this year. Eureka Math² helps students establish a foundational understanding of mathematics to better prepare them for college and careers. The program focuses on strengthening reasoning and critical-thinking skills that students can apply to solve real-world problems.
- SIS and SHS staff will be implementing updated Social Studies courses aligned with the [Wisconsin Standards for Social Studies](#). 7th grade students will now be taking Civics in 7th grade and new courses in The Ancient and Medieval Worlds, The Modern World, and Civics will be available at the High School. Additionally, we will be adding an AP Psychology course and Economics Course which students can take for college credit.
- We will be in Year 1 of evaluating and updating our Human Growth and Development and Physical Education Curriculum this year. Wisconsin Statute requires that school districts offering a human growth and development curriculum appoint an advisory committee representing a cross-section of values and opinions from the community in developing a human growth and development curriculum as a first step in this process.

EXECUTIVE SUMMARY FOR THE SHOREWOOD SCHOOL BOARD

Topic: Superintendent's Report

Date: July 11, 2023

Prepared by: Laurie Burgos, Superintendent

Recommended action:

- ☒ Information only
☐ Presentation/discussion
☐ Discussion/action by School Board
☐ Presentation/action next meeting

Purpose:

To summarize current District education, administrative and operations priorities and provide follow up on items from prior Board meetings.

Leadership Transition

I want to thank Board and community members, staff, and volunteers who have welcomed me so warmly over the past week.

I attended the All-Alumni Reunion and Community Picnic on July 1, and it was a wonderful opportunity to meet District families past and present, as well as District supporters. Along with the SEED Foundation and the Alumni Association, the Athletic Boosters, the Historical Society, and our Recreation & Community Services team had information tables at the event. Tim Kenney's tours of the High School campus drew big groups, as did the Time Capsule Ceremony to commemorate the completion of the Administration Building addition, and many alumni continued on to Hubbard Park Lodge and other events following the picnic. The Alumni Association has set July 6, 2024 as the date for next year's event, and we will take that opportunity to celebrate the High School's 100th anniversary - and Lake Bluff's - as well.

As you know, over the past few months I had several opportunities to meet with Dr. Sternke and district leaders to discuss key issues, including the District's budget. I was also able to spend

time in each school and department before the end of the school year. In preparation for my official start last week, I shared my Entry Plan with the administrative leadership team for feedback, and I was involved in some work that has been valuable to orienting myself to both day-to-day management functions and the bigger picture of District administration, including:

- Meeting with school principals and others about their school growth plans and priorities for new staff orientation and Back-to-School days scheduled for faculty in August;
- Participating in recruitment discussions and interviews for some staff vacancies; and
- Attending recent School Board meetings and reviewing correspondence with the SEA regarding the initiation of negotiations on our Agreement.

With this in mind, I want to take this opportunity to summarize my [Entry Plan](#) for Board and community members, and highlight some of the details that will help me build relationships and identify goals and objectives for this year and beyond.

Superintendent Entry Plan

First 100 Days - Laurie J. Burgos

2023-24

Dear Community Members and Colleagues,

I am pleased to provide you with my Superintendent's Entry Plan, which details priorities I will be addressing - and the input I will be seeking - over the next few months.

One of my top priorities in the coming weeks will be to review the District's 2023-2024 budget and projections for future years. While the 2023 operating referendum will provide the District with critically-needed financial resources, recently approved state funding for public education falls far short of what public school districts need. I will address this further, along with other key elements of my Entry Plan, in a Summary Report to School Board and community members this fall.

As the new Superintendent of the Shorewood School District, I want express my deepest gratitude for your support as I begin my tenure. Your commitment to our mission and to the future of our schools is truly humbling, and it is an honor for me to become part of this community.

I look forward to meeting with staff, District families and community allies in the weeks ahead. We will communicate meet and greet opportunities very soon.

Sincerely,

**Laurie J. Burgos
Superintendent**

INTRODUCTION

The Shorewood School District is widely recognized as a high performing school district in Wisconsin most notably for its focus on equity, tradition of excellence, and comprehensive program of instruction for its over 1,900 students in grades PreK-12. The Board of Education and community further distinguish the work of the schools as focused on the five pillars of the Vision 2025 strategic plan. The purpose of the Superintendent Entry Plan is to outline how, working collaboratively, we will continue to honor the past while refocusing new energy on aligning our resources to achieve the mission, **Equity, Growth, and Excellence for All**.

The leadership transition process begins with developing an understanding of the state of the district, individual schools, and community perceptions of public education in SSD. Listening, learning and building critical internal and external relationships are key elements to building foundational knowledge about the district's strengths, challenges, and opportunities. Being new to the community, I will need to establish relationships with many of our community members and partners. It is essential for me to invest time in meeting and connecting with community stakeholders in my new role to develop, renew, and invigorate connections between the district and the communities we serve.

Although my tenure officially starts in July, I recognize that many of the transition activities began during my visits to the district in the spring. An early start could prove to be beneficial in preparation for a successful 2023-24 school year. As the newly selected leader of this learning organization, I am committed to the achievement of the SSD mission and look forward to promoting equity, growth, and excellence in all aspects of the organization.

ENTRY PLAN FRAMEWORK

To achieve results for the Shorewood School District, I will:

Listen to Understand— Spend time with students, teachers, caregivers, principals, school district administrators and other SSD employees, community, non-profit organizations, business members, bargaining units, and state and local leaders to understand our proudest accomplishments and greatest challenges.

Learn to Inform Decisions— Analyze and study performance data, perceptions data, and other student achievement data. Read and review existing district policies, improvement plans, pertinent documents, and strive to understand our efforts to meet student needs.

Share to Build Trust and Transparency and a Positive Tone— Celebrate the wonderful accomplishments at SSD schools with the community regularly to build a deeper understanding of the quality programs provided and equity priorities. Introduce myself, my educational philosophy, and core beliefs to the community.

Build Strong Relationships— Establish strong working relationships and build rapport with the Board of Education, SSD leadership, staff members, students, caregivers, and community, state, and local leaders.

Plan for Success— Review the current district and school goals. Continue to use an equity lens to strengthen the strategic priorities and identify action steps to move the district forward. Collaborate with all stakeholders to maintain and develop world-class programs for all students and develop communication strategies to rebrand the district.

ENTRY PLAN GOALS

- 1** To develop a highly effective governance team by building a trusting and collaborative relationship with the Board of Education
- 2** To foster and strengthen relationships with the community, staff, students, families, residents, businesses, community-based and faith-based leaders, and elected officials
- 3** To assess organizational capacity to meet the district's strategic priorities
- 4** To focus organizational efforts and align resources, financial and human, to ensure every student receives a world-class education that will prepare them for life, college, and a global workforce
- 5** To champion the use of research and data in decision-making regarding core approaches to teaching and learning, operations, business systems, finances, budgeting, and hiring to inform continuous improvement

OUTCOMES

The implementation of this entry plan will result in the following outcomes, thereby enabling me to make informed decisions and recommendations:

- A summary of the feedback obtained from the stakeholder conversations during the “listening and learning” meetings.
- Summarized findings from reviews and evaluations of the district’s organizational structure, systems, programs, processes, human resources, learning and working environments, and finances.
- Assessment of executive leadership and organizational structure and identification of any design/staffing changes needed to ensure optimal productivity, efficacy, and efficiency.
- Build foundational understanding to begin facilitating short and long-range planning, including the development of key equity indicators.

PHASES OF THE PLAN

Transition

April - June

To ensure a smooth transition prior to my official start date, I will:

- Analyze a variety of data, focusing on instructional and operational data
 - Research community strengths, challenges, and opportunities
 - Examine goals and objectives of the administrative team
 - Review organizational charts of all departments and schools
 - Review handbooks, contracts, and codes of conduct
 - Conduct interviews for vacant positions, if applicable
 - Attend district and community activities and events
 - Visit schools and begin to meet with stakeholder groups
-

Listening & Learning

July - August

During this phase, I will attain a deep and rich understanding of our strengths, challenges, and opportunities for improvement through an analysis of multiple perspectives:

- Hold one-on-one meetings with the Board of Education and all direct reports to discuss priorities, progress to date, effectiveness, and outcomes
 - Conduct interviews and focus groups with students, teachers, staff, principals, caregivers, community members, local governmental, faith-based, and business leaders, and union leadership
 - Meet with the leadership team to review priorities, progress to date, effectiveness, and 2022-23 year-end outcomes
 - Hold a leadership retreat with the administrative team to plan for the 2023-24 school year
 - Establish organizational structures that promote instructional and operational leadership
 - Review performance expectations and evaluation processes for administrators
-

Planning

September - October

During this phase, I will use the data collected during the listening and learning phase to make organizational recommendations. Steps include:

- Identify key equity indicators for the strategic priorities
- Establish management routines for ensuring effective operations
- Make staffing or organizational recommendations, if applicable
- Provide a summary report of my first 100 days to the Board of Education and the community at large

ACTION STEPS

Action steps must accompany a vision, mission, and goals in order to achieve results. I have organized specific action steps to achieve the goals of this plan into five key areas:

1 - Governance/Leadership

2 - Communication & Community Partnerships

3 - Organizational Capacity to Achieve Outcomes

4 - Operational Efficiency & Effectiveness

5 - Research & Data in Decision-Making

EQUITY, GROWTH, AND EXCELLENCE FOR ALL

EXECUTIVE SUMMARY FOR THE SHOREWOOD SCHOOL BOARD

Topic: Atwater PTO Donation
Date: July 11, 2023
Prepared by: Heather Heaviland

- ☐ Information only
- ☐ Presentation/discussion
- ☒ Discussion/action by board of education
- ☐ Presentation/action next meeting

Purpose: To approve acceptance of a donation of \$23,700 from the Atwater PTO.

Background: The Atwater PTO has been working with Atwater faculty and District staff to develop plans to install a gazebo-like structure that will serve as an outdoor classroom. The PTO engaged Shacklady Designs, a custom furniture shop owned by a local craftsperson, to develop a concept that aligns with instructional goals and has committed to funding the full cost of the project. The District has reviewed the credentials of the contractor selected by the PTO, reviewed the design plans in order to ensure they meet District safety and maintenance standards, and confirmed that the plans meet Village permitting and design requirements. Following receipt of the PTO donation, the District will enter into an agreement with Shacklady Designs and oversee execution of the project installation. The project is expected to be completed in Spring of 2024.

Fiscal impact: 100% of the project costs will be funded by the Atwater PTO.
