You should consider the account statements received directly from your account custodian as the prevailing document for your account. Please review the information contained on this statement against the statement provided to you from the account custodian or product sponsor. The reported value on your account statement you received from the account custodian may differ from the reported value on this quarterly statement due to a variety of factors including the treatment of accrued income and dividends, rounding and other considerations. If there is any unexplained discrepancy between this statement and the account statement you received from the account custodian, please immediately contact HUB Investment Partners and/or your account custodian. Discrepancies should be reported to HUB Investment Partners via telephone at 512-600-5268.

The account portfolio or assets in the account are valued at the starting and ending points of the period. Cash flows are included in the calculation based on when they occurred during the period.

Performance data quoted represents past performance and does not guarantee future results. The investment return and principal of an investment will fluctuate so that an investor's shares when redeemed may be worth more or less than their original cost. All investments have investment risks such as fluctuation in investment principal including the complete loss of principal invested. The values represented in the report may not reflect the original cost of a client's initial investment. HUB Investment Partners standard reporting does not reflect reinvestment of dividends and other earnings in the performance numbers, unless the account holder specifically asks for inclusion of such earnings. Performance report calculations and figures should not be relied upon for tax purposes.

If you have any changes in your financial situation, risk tolerance, investment objectives or if you wish to impose or modify any reasonable restrictions on the management of your account(s), please contact HUB Investment Partners immediately. Also, please contact us if you would like a current copy of our Disclosure Document, which includes a description of the advisory services we offer.

This material is not intended to present an opinion on legal or tax matters. Please consult with your attorney or tax advisor and compare this document to your custodial statement for accuracy, as applicable.

(If the school district was in default in a prior fiscal year, an exemption applies in following years if the school district is current on its forbearance or payment plan with the lender and the payments are made on schedule for the fiscal year being rated. Also exempted are technical defaults that are not related to monetary defaults. A technical default is a failure to uphold the terms of a debt covenant, contract, or master promissory note even though payments to the lender, trust, or sinking fund are current. Galveston Independent School District 2025 Annual Financial Management Report – School FIRST

Introduction

During the 77th regular session of the Texas legislature (2001), Senate Bill 218 was passed, and Governor Perry signed it into law shortly thereafter. This law requires each school district to prepare an annual financial management report within two months of the date of issuance of the final School FIRST ratings. The District received official notification of the 2024-2025 Final School FIRST rating in November 2025. This rating is based upon analysis of school year data for the fiscal year ending August 31, 2024.

The purpose of the financial accountability rating system is to ensure that school districts will be held accountable for the quality of their financial management practices and achieve improved performance in the management of their financial resources. The system is designed to encourage Texas public schools to manage their financial resources better in order to provide the maximum allocation possible for direct instructional purposes. The system also discloses the quality of local management and decision-making processes that impact the allocation of financial resources in Texas public schools. An evaluation of the long-term effectiveness of the system should disclose a measurable improvement in the quality of Texas public schools' decision-making processes.

The primary reporting tool is the Financial Accountability Ratings Worksheet. This worksheet was originally developed by representatives of the Texas Education Agency (TEA), the Texas Business & Education Council (TBEC) and the Texas Association of School Business Officials (TASBO). It is administered by the TEA and calculated on information submitted to the Agency via our PEIMS submission each year.

This year's report includes changes made by the Commissioner's Rule for School FIRST that were implemented by the Texas Education Agency beginning with ratings year 2024-2025 based primarily on data from fiscal year 2024.

Under School FIRST, every school district in Texas is required to prepare an annual financial management report that includes the following:

- The district's financial management performance rating provided by the Texas Education Agency (TEA) based on its comparison with indicators established by the Commissioner of Education for the state's new Financial Accountability System;
- The district's financial management performance under each indicator for the current and previous years' financial accountability ratings;
- Additional information required by the Commissioner of Education (disclosures)

Starting with the 2007 calendar year, the financial management report must contain certain required disclosures, in accordance with Title 19 of the Texas Administrative Code, Chapter 109, Budgeting, Accounting, and Auditing Subchapter AA, Commissioner's Rules Concerning the Financial Accountability Rating System. These disclosures are as follows:

1. A copy of the Superintendent's current employment contract (this can be satisfied by placing the contract on the district website);
2. A summary schedule for the fiscal year of total reimbursements received by the superintendent and each board member;
3. A summary schedule for the fiscal year of the dollar amount compensation and/or fees received by the Superintendent from another school district or any outside entity in exchange for professional consulting and/or other personal services;
4. A summary schedule for the fiscal year of the total dollar amount by the executive officers and board members of gifts that had an economic value of \$250 or more;
5. A summary schedule for the fiscal year of the dollar amount by board member for the aggregate amount of business transactions with the school district.

Currently, the worksheet consists of 21 Indicators.

In summary, Galveston ISD received the rating of "**A = Superior Achievement**," scoring 94 out of a possible 100 on the financial accountability worksheet. The worksheet itself follows, along with an explanation of each indicator, the indicator goal, and GISD's performance this year as compared to last year. Finally, as in accordance with Title 19, the required disclosures are included at the back of the report.

Overview of the Worksheet

Critical Indicators

Indicators 1 through 4 are considered critical indicators. The first four indicators revolve around the audit report, timely debt and payroll-related payments and the auditor's findings.

Indicator #1

Indicator: Was the complete annual financial report (AFR) and data submitted to the TEA within 30 days of the November 27 or January 28 deadline depending on the school district's fiscal year end date of June 30 or August 31, respectively?

Indicator Goal: To ensure the district's financial report is filed by the deadline.

GISD Answer: Yes. Like last year, the District met this requirement. The annual financial report was received by the Texas Education Agency before the required January deadline.

Indicator #2

Indicator: Was there an unmodified opinion in the AFR on the financial statements as a whole?

Indicator Goal: To determine whether the annual financial report is free from material misstatement.

GISD Answer: Yes. Like last year, the District received an unqualified opinion in its annual financial report.

Indicator #3

Indicator: Was the school district in compliance with the payment terms of all debt agreements at fiscal year end?

Indicator Goal: To determine if the district made its outstanding bond payments on time and to ensure it is not in default.

GISD Answer: Yes. Like last year, GISD made all required bond payments on time.

Indicator #4

Indicator: Did the school district make timely payments to the Teachers Retirement System (TRS), Texas Workforce Commission (TWC), Internal Revenue Service (IRS), and other government agencies?

Indicator Goal: To determine if the district fulfilled its payroll-related payment obligations to these organizations.

GISD Answer: Yes. Like last year, GISD made all payroll-related payment obligations on time.

Indicator #5

Indicator: Was the total net position in the governmental activities column in the Statement of Net Position (net of accretion of interest for capital appreciation bonds, net pension liability, and other post-employment benefits) greater than zero?

Indicator Goal: To determine the financial solvency of the District. A positive net position demonstrates the ability to meet all financial obligations, both short-term and long-term.

GISD Answer: Yes. Passed.

Indicator #6

Indicator: Was the average change in (assigned and unassigned) fund balances over 3 years less than a 25 percent decrease or did the current year's assigned and unassigned fund balances exceed 75 days of operational expenditures?

Indicator Goal: This indicator measures the percentage change in fund balance to see whether the fund balance is declining too quickly, and if it is declining, whether sufficient fund balance remains to operate for at least 75 days.

GISD Answer: Yes. Passed. GISD has committed \$11M to disaster recovery. The assigned and unassigned fund balance met both of these tests. Like previous year.

Indicator #7

Indicator: Was the number of days of cash on hand and current investments in the general fund for the school district sufficient to cover operating expenditures (excluding facilities acquisition and construction)?

Indicator Goal: This indicator measures how long in days after the end of the fiscal year the school district could have disbursed funds for its operating expenditures without receiving any new revenues. Districts must have more than 90 days to receive all 10 points, and points decrease by 2 as the number of days' decreases.

GISD Answer: Yes. Like last year, GISD earned all 10 points on this indicator.
Amount = 161.5148

Indicator #8

Indicator: Was the measure of current assets to current liabilities ratio for the school district sufficient to cover short-term debt?

Indicator Goal: This indicator measures whether the school district had sufficient short-term assets at the end of the fiscal year to pay off its short-term liabilities. To earn the maximum of 10 points, current assets must be more than 3 times current liabilities, and points decrease by 2 as the ratio decreases.

GISD Answer: Current assets \$313,719,027 divided by current liabilities \$30,190,576 = 10.3913; therefore, GISD earned all 10 points this year, as well as last year.

Indicator #9

Indicator: Did the school district's general fund revenues equal or exceed expenditures (excluding facilities acquisition and construction)? If not, was the school district's number of days of cash on hand greater than or equal to 60 days?

Indicator Goal: To determine if the District spent more than it earned. The school district will automatically pass this indicator if it had at least 60 days' cash on hand.

GISD Answer: 10 of 10 points both this year and last year. Like last year, GISD passed both parts of this indicator this year; Our calculations were $0.0413 \geq 0$ Or $161.5148 \geq 60$.

Indicator #10 – This Indicator is not being evaluated for FY24

Indicator #11

Indicator: Was the ratio of long-term liabilities to total assets for the school district sufficient to support long-term solvency?

Indicator Goal: This question seeks to determine the amount of long-term debt relative to total assets. Fast growth districts pass this indicator if their enrollment has increased more than 10% in 5 years. To receive all 10 points, the long-term debt (net of pension liability) cannot be >60% of total assets, and points decrease as the percentage increases.

GISD Answer: Our score was 0.7191 ≤ 1 Or -0.0839 ≥ 0.07 Or -590 $\geq 1,000$ therefore the District received 6 points on this indicator.

The Scoring Rubric is as follows:

10	8	6	4	2	0
≤ 0.60	$> 0.60 \leq 0.70$	$> 0.70 \leq 0.80$	$> 0.80 \leq 0.90$	$> 0.90 \leq 1.00$	> 1.00

Indicator #12

Indicator: What is the correlation between future debt requirements and the district's assessed property value?

Indicator Goal: To determine the District's ability to make its debt principal and interest payments due during the year. A ratio of ≤ 4 earns all 10 points.

Answer: Like last year, GISD received all 10 points. GISD's score was 2.4279

Indicator #13

Indicator: Was the school district's administrative cost ratio equal to or less than the threshold ratio?

Indicator Goal: To determine whether the district's administrative costs are in an acceptable range for its size. For GISD, a ratio of $< 10\%$ earns all 10 points, and the points decrease by 2 as the percentage increases.

GISD Answer: 8 of 10 points. GISD's administrative cost ratio is 12.01%. Last year, our ratio was 13.31%. To get to a score of 10, GISD had to be in the ≤ 0.1000 range.

Indicator #14

Indicator: Did the school district not have a 15 percent decline in the students to staff ratio over 3 years (total enrollment to total staff)?

Indicator Goal: To determine if student enrollment is declining by more than 15%, staff are also decreasing proportionately, over a 3-year period.

GISD Answer: GISD earned 10 points both this year.

Indicator #15 – This Indicator is not being evaluated for FY24

Indicator #16

Indicator: Did the comparison of Public Education Information Management System (PEIMS) data to like information in the school district's AFR result in a total variance of less than 3 percent of all expenditures by function?

Indicator Goal: To determine whether the quality of data reported to TEA through PEIMS and in the annual financial report submission are consistent. If the variance is greater than 3%, districts fail this indicator.

GISD Answer: GISD passed this indicator.

Indicator #17

Indicator: Did the external independent auditor report that the AFR was free of any instance(s) of material weaknesses in internal controls over financial reporting and compliance for local, state, or federal funds and free from substantial doubt about the school district's ability to continue as a going concern?

Indicator Goal: To determine whether the district has established and maintains effective internal control over its financial reporting.

GISD Answer: Like last year, the District passed this ceiling indicator; the annual financial report did not disclose any instances of material weaknesses in internal controls.

Indicator #18

Indicator: Did the external independent auditor indicate the AFR was free of any instance(s) of material noncompliance for grants, contracts, and laws related to local, state, or federal funds?

AGENDA ITEM: Discuss and consider approval of the purchase of Audio Visual Equipment for CTE at New Ball High School

Administration recommends that the Galveston ISD Board of Trustees approve the purchase of specialized equipment for the AV Production Lab, including professional-grade lighting fixtures and an overhead track system designed to safely support and position those lights. This equipment is essential to providing students with a modern, industry-standard production environment, enhancing hands-on learning, improving project quality, and supporting program growth. Three quotes were acquired for the main portion of the AV equipment purchase. Drapes and the tracking system is also being purchased. GISD is wishing to use the same sub contractor that the General Contractor is using to keep the consistency of the construction at New Ball High South. GISD is utilizing the Vendor 356.

Funds will be from the Moody GCC Grant, CTE General, and or Bond 2022-2023.

Higher cover limits are available and will be provided at additional charge over and above the cost of this quotation.
8. **Warranty:**

 - d. Materials furnished by the Owner (OFE), to be included within the Scope of Work, shall be done with no warranty or guarantee by Ford. Use of these materials is solely for the convenience and benefit of the Owner. Ford will take reasonable care in handling this OFE and will install according to standard industry practices. However, Ford takes no responsibility for the operation, performance, appearance, or effects of the OFE before, during, or after its integration into the system. Ford reserves the right to modify this bid quotation should these electronic CAD files not be provided for Ford's use as outlined herein.
14. **Project Length** - We estimate that the on-site portion of the project installation will require a minimum of

ten (10) working days (not including weekends and holidays) once Ford has received confirmation that all millwork, rough-in, raceway, conduit, electrical work, network systems and climate control for the facility is complete. A security system of some kind must be in operation for on-site integration to begin. The time period discussed above is for on-site installation and termination work only and does not include the four to six week period typically necessary for the preparation, and approval, of engineering submittal and fabrication drawings (pending no submittal review delays). An additional four to six week period is needed for the acquisition of all materials, in-shop fabrication, and testing of all equipment rack and custom panel assemblies, which must be completed before the on-site system equipment installation begins. During the substantial completion phase of Ford's scope of the project, an additional two to three weeks is generally necessary for final system testing, customer training, and the final documentation portion of the work.

15. **Overtime** - Ford's quotation is prepared fully staffing and manning the project based upon a standard 40-hour workweek, in compliance with the project construction schedule discussed above. Overtime work or liquidated damages required due to the failure of other trades responsible for rough-in of our work in accordance with the project schedule and deadlines is not included in this quotation, and will be provided only upon written change order.
16. **Tariffs** - Ford is receiving regular notifications of material cost increases due to tariffs on products manufactured in other countries and shipped to the United States. All known tariffs have been accounted in this pricing.

If additional tariffs are imposed on any goods that have been priced in this offer, after the delivery of this letter to the Customer, the Customer will be responsible for the increased cost of affected goods. Conversely, if any tariffs are removed, the corresponding cost reduction will be passed on to the Customer.

Please review this quotation and its conditions for completeness. We would appreciate your regarding this quotation as confidential. Should you have questions or need additional information, please feel free to call me at 800-654-6744.

The Customer acknowledges tariffs may be incurred after presentation of this Pricing Document and prior to delivery of products into the United States. If additional tariffs are charged to products included in this offer and prior to Ford receiving the products for installation, the Customer is responsible for the tariff costs.
