Subject: Windsor Education Foundation

BACKGROUND:

The Windsor Education Foundation (WEF) was established in April 2007. Its mission is to encourage community support for excellence in public education and to provide funding for innovative projects and programs in the Windsor Public Schools. All Windsor Public Schools certified staff are eligible to apply for the grants.

The Grant Review Committee looks for a variety of proposals from all grade levels and schools that:

- Are consistent with the Windsor Board of Education district and school goals
- Impact students with varying learning abilities
- Fall outside the regular operating budget
- Will ultimately impact/benefit a large number of individuals; in other words, the impact of the grant is not a one-time benefit to a single group of students, but may benefit additional students in the long term.
- Encourage professional collaboration.
- Promote school and community communication.

In the past thirteen years the WEF has raised over \$175,800 which goes towards grants to Windsor teachers. This year, the WEF has approved 12 grants totaling \$16,800, which includes a \$1,000 science grant from The Christine Gasparino Foundation. The approved grants will directly benefit more than 3,350 students across all grades and will go toward furthering student learning. This year's recipients are as follows:

MANAGEMENT PLAN AND GUIDELINES FOR STUDENTS WITH FOOD ALLERGIES ~~AND/OR~~ GLYCOGEN STORAGE DISEASE AND/OR DIABETES

The Windsor Public Schools (the “~~Distriet~~district”) recognize that food allergies ~~and~~ glycogen storage disease (~~GSD~~) and diabetes may be life threatening. For this reason, the ~~Distriet~~district is committed to developing strategies and practices to minimize the risk of accidental exposure to life threatening food allergens and to ensure prompt and effective medical response should a student suffer an allergic reaction while at school. The ~~Distriet~~district is also committed to appropriately managing and supporting students with ~~GSD~~ glycogen storage disease and diabetes. The ~~Distriet~~district further recognizes the importance of collaborating with parents/guardians, adult students (defined as students age eighteen (18) and older) and appropriate medical staff in developing such practices and encourages strategies to enable the student to become increasingly proactive in the care and management of his/her food allergy ~~and/or GSD, glycogen storage disease or diabetes~~, as developmentally appropriate. To this end, the ~~Distriet~~ adopts ~~district~~ adopt the following guidelines related to the management of life threatening food allergies, glycogen storage disease, and ~~GSD~~ diabetes for students enrolled in ~~Distriet~~district schools.

I. Identifying Students with Life-Threatening Food Allergies and/or Glycogen Storage Disease

Early identification of students with life-threatening food allergies, diabetes and/or glycogen storage disease (GSD) is important. The ~~Distriet~~district therefore encourages parents/guardians of students and adult students with life-threatening food allergies to notify the school of the allergy, providing as much medical documentation about the extent and nature of the food allergy as is known, as well as any known effective treatment for the allergy. The ~~Distriet~~district also encourages parents/guardians of students and adult students with GSD and diabetes to notify the school of the disease, providing as much medical documentation about the type of GSD or diabetes, nature of the disease, and current treatment of the student.

Students with life-threatening food allergies and diabetes are virtually always students with disabilities and should be referred to a Section 504 team, which will make a final determination concerning the student’s eligibility for services under Section 504. The Section 504 team may determine that the only services needed are in the student’s Individualized Health Care Plan (IHCP) and/or Emergency Care Plan (ECP); in that case, the IHCP and/or ECP will also serve as the student’s Section 504 plan. The Section 504 team will also ensure that parents receive appropriate notice and are informed of their rights under Section 504, including their right to request an impartial hearing if they disagree with the provisions in the Section 504 plan.

Students with GSD and less severe food allergies should be referred to a Section 504 team if there is reason to believe that the student’s GSD or food allergy substantially limits a major life activity. To determine whether a food allergy is severe enough to substantially limit a major life activity, the team should consider the impact on the student when the student has been exposed to the allergen and has not yet received treatment.

Major life activities include, but are not limited to:

(i) Caring for oneself, performing manual tasks, seeing, hearing, eating, sleeping, walking, standing, sitting, reaching, lifting, bending, speaking, breathing, learning, reading, concentrating, thinking, communicating, interacting with others, and working; and

(ii) The operation of a major bodily function, including functions of the immune system, special sense organs and skin; normal cell growth; and digestive, genitourinary, bowel, bladder, neurological, brain, respiratory, circulatory, cardiovascular, endocrine, hemic, lymphatic, musculoskeletal, and reproductive functions. The operation of a major bodily function includes the operation of an individual organ within a body system.

II. Individualized Health Care Plans and Emergency Care Plans

1. If the ~~District~~district obtains medical documentation that a student has a life-threatening food allergy ~~or~~, GSD, or diabetes, the ~~District~~district shall develop an ~~individualized health care plan~~ (IHCP) for the student. Each IHCP should contain information relevant to the student's participation in school activities, ~~and should attempt to strike a balance between individual, school and community needs, while fostering normal development of the student.~~
2. The IHCP ~~should~~shall be developed by a group of individuals, which shall include the parents, the adult student, if applicable, and appropriate school personnel. Such personnel may include, but are not limited to, the school nurse, school or food service administrator(s), classroom teacher(s) and the student, if appropriate. The school may also consult with the school's medical advisor, as needed.
3. IHCPs are developed for students with special health needs or whose health needs require daily interventions. The IHCP describes how to meet the student's health and safety needs within the school environment and should address the student's needs across school settings. Information to be contained in an IHCP should include a description of the functional health issues (diagnoses); student objectives for promoting self-care and age appropriate independence; and the responsibilities of parents, school nurse and other school personnel. The IHCP may also include strategies to minimize the allergic student's risk for exposure. For the student with ~~GSD~~life-threatening food allergies, GSD, or diabetes, the IHCP may include strategies designed to ameliorate risks associated with such disease and support the student's participation in the classroom. IHCPs for such students may include such considerations:
 - a. classroom environment, including allergy free considerations, or allowing the student with GSD or diabetes to have food/dietary supplements when needed;
 - b. cafeteria safety;
 - c. participation in school nutrition programs;
 - d. snacks, birthdays and other celebrations;
 - e. alternatives to food rewards or incentives;
 - f. hand-washing;
 - g. location of emergency medication;
 - h. who will provide emergency and routine care in school;
 - i. risk management during lunch and recess times;
 - j. special events;

- k. field trips, fire drills and lockdowns;
 - l. extracurricular activities;
 - m. school transportation;
 - n. the provision of food or dietary supplements by the school nurse, or any school employee approved by the school nurse;
 - o. staff notification, including substitutes, and training; and
 - p. transitions to new classrooms, grades and/or buildings.
4. The IHCP should be reviewed annually, or whenever there is a change in the student's ~~emergency care plan~~ECP, changes in self-monitoring and self-care abilities of the student, or following an emergency event requiring the administration of medication or the implementation of other emergency protocols.
5. For a student with ~~GSD~~a life-threatening food allergy, GSD, or diabetes, the IHCP shall not prohibit a parent or guardian, or a person designated by such parent or guardian, to provide food or dietary supplements to a student with ~~GSD~~a life threatening food allergy, GSD, or diabetes on school grounds during the school day.
6. In addition to the IHCP, the ~~District~~district shall also develop an ~~Emergency-Care Plan (ECP)~~ for each student identified as having a life-threatening food allergy. The ECP is part of the IHCP and describes the specific directions about what to do in a medical emergency. For the student with a life-threatening food allergy, the ECP should include the following information:
 - a. The student's name and other identifying information, such as date of birth, grade and photo;
 - b. The student's specific allergy;
 - c. The student's signs and symptoms of an allergic reaction;
 - d. The medication, if any, or other treatment to be administered in the event of exposure;
 - e. The location and storage of the medication;
 - f. Who will administer the medication (including self-administration options, as appropriate);
 - g. Other emergency procedures, such as calling 911, contacting the school nurse, and/or calling the parents or physician;
 - h. Recommendations for what to do if the student continues to experience symptoms after the administration of medication; and
 - i. Emergency contact information for the parents/family and medical provider.
7. In addition to the IHCP, the ~~District~~district shall also develop an ECP for each student identified as having ~~GSD~~and/or diabetes. The ECP is part of the IHCP and describes the specific directions about what to do in a medical emergency. For the student with ~~GSD~~or diabetes, the ECP should include the following information, as may be appropriate:
 - a. The student's name and other identifying information, such as date of birth, grade and photo;
 - b. Information about the disease or disease specific information (i.e. type of ~~GSD~~or diabetes);

- c. The student's signs and symptoms of an adverse reaction (such as hypoglycemia);
 - d. The medication, if any, or other treatment to be administered in the event of an adverse reaction or emergency (i.e. Glucagon or insulin)
 - e. The location and storage of the medication;
 - f. Who will administer the medication (including self-administration options, as appropriate);
 - g. Other emergency procedures, such as calling 911, contacting the school nurse, and/or calling the parents or physician;
 - h. Recommendations for what to do if the student continues to experience symptoms after the administration of medication; and
 - i. Emergency contact information for the parents/family and medical provider.
8. In developing the ECP, the school nurse should obtain current medical documentation from the parents/family and the student's health care provider, including the student's emergency plan and proper medication orders. If needed, the school nurse or other appropriate school personnel, should obtain consent to consult directly with the student's health care providers to clarify medical needs, emergency medical protocol and medication orders.
9. A student identified as having a life-threatening food allergy ~~or~~, GSD, or diabetes is entitled to an IHCP and an ECP, regardless of his/her status as a student with a disability, as that term is understood under Section 504 of the Rehabilitation Act of 1973 ("Section 504"), or the Individuals with Disabilities Education Act ("IDEA").
10. The ~~District~~district shall ensure that the information contained in the IHCP and ECP is distributed to any school personnel responsible for implementing any provisions of the IHCP and/or ECP, and that any procedures in the IHCP and/or ECP comply with the ~~District~~district's policies and procedures regarding the administration of medications to students.
- ~~11. — Whenever appropriate, a student with a life-threatening food allergy and/or GSD should be referred to a Section 504 Team for consideration if/when there is reason to believe that the student has a physical or mental impairment that substantially limits one or more major life activities, as defined by Section 504. Whenever appropriate, students with life threatening food allergies and/or GSD should be referred to a PPT for consideration of eligibility for special education and related services under the IDEA, if there is reason to suspect that the student has a qualifying disability and requires specialized instruction.~~
11. ~~12.~~ When making eligibility determinations under Section 504 and/or the IDEA, schools must consider the student's needs on an individualized, case-by-case basis.

III. Training/Education

- 1. The ~~District~~district shall provide appropriate education and training for school personnel regarding the management of students with life threatening food allergies ~~and~~, GSD and diabetes. Such training may include an overview of life-

threatening food allergies ~~and~~, GSD and diabetes; prevention strategies; IHCPs and ECPs; and food safety and sanitation. Training shall also include, as appropriate for each school (and depending on the specific needs of the individual students at the school), training in the administration of medication with cartridge injectors (i.e. epi-pens), and/or the specific preventative strategies to minimize the risk of exposure to life-threatening allergens and prevent adverse reactions in students with GSD and diabetes (such as the provision of food or dietary supplements for students). School personnel will be also be educated on how to recognize symptoms of allergic reactions and/or symptoms of low blood sugar, as seen with GSD and diabetes, and what to do in the event of an emergency. Staff training and education will be coordinated by **Steven Carvalho, Director of Pupil and Special Education Services**. Any such training regarding the administration of medication shall be done accordance with state law and Board policy.

2. Each school within the ~~District~~district shall also provide age-appropriate information to students about food allergies ~~and~~, GSD and diabetes, how to recognize symptoms of an allergic reaction and/or low blood sugar emergency and the importance of adhering to the school's policies regarding food and/or snacks.

IV. Prevention

Each school within the ~~District~~district will develop appropriate practices to minimize the risk of exposure to life ~~threatening~~allergens ~~and~~, as well as the risks associated with GSD and diabetes. Practices that may be considered may include, but are not limited to:

1. Encouraging handwashing;
2. Discouraging students from swapping food at lunch or other snack/meal times;
3. Encouraging the use of non-food items as incentives, rewards or in connection with celebrations;
4. Training staff in recognizing symptoms of anaphylaxis and hypoglycemia; and
5. Planning for school emergencies, to include consideration of the need to access medication, food and/or dietary supplements.

V. Communication

1. As described above, the school nurse shall be responsible for coordinating the communication among parents, a student's individual health care provider and the school regarding a student's life ~~threatening~~allergic condition, GSD and/or ~~GSD~~diabetes. School staff responsible for implementing a student's IHCP will be notified of their responsibilities and provided with appropriate information as to how to minimize risk of exposure and/or alterations in blood sugar levels and how to respond in the event of such emergency.
2. Each school will ensure that there are appropriate communication systems available within each school (i.e. telephones, cell phones, walkie-talkies) and for off-site activities (i.e. field trips) to ensure that school personnel are able to effectively respond in case of emergency.

3. The ~~District~~district shall develop standard letters to be sent home to parents, whenever appropriate, to alert them to food restrictions within their student's classroom or school.
4. All ~~District~~district staff are expected to follow ~~District~~district policy and/or federal and state law regarding the confidentiality of student information, including medical information about the student.
5. The ~~District~~district shall make the Management Plan and Guidelines for Students with Food Allergies ~~and/or~~ Glycogen Storage Disease and/or Diabetes available on the Board's website or the website of each school under the Board's jurisdiction.
6. The ~~District~~district shall provide annual notice to parents and guardians regarding the Management Plan and Guidelines for Students with Food Allergies ~~and/or~~ Glycogen Storage Disease and/or Diabetes. Such notice shall be provided in conjunction with the annual written statement provided to parents and guardians regarding pesticide applications in the schools.

VI. Monitoring the District's Plan and Procedures

The ~~District~~district should conduct periodic assessments of its Management Plan and Guidelines for Students with Food Allergies ~~and/or~~ Glycogen Storage Disease and/or Diabetes. Such assessments should occur at least annually and after each emergency event involving the administration of medication to a student with a life-threatening food allergy, GSD or ~~GSD~~diabetes to determine the effectiveness of the process, why the incident occurred, what worked and what did not work.

The Superintendent shall annually attest to the Department of Education that the District is implementing the Management Plan and Guidelines for Students with Food Allergies ~~and/or~~ Glycogen Storage Disease and/or Diabetes.

Agenda Item # 6b.

BOARD MEMBER DEVELOPMENT

The complexity of Board of Education membership demands opportunities for development, study and training for Board members. The Board of Education places a high priority on the importance of a planned and continuing program of in-service education for its members.

In order to develop leadership capabilities, become informed about current issues in education, and improve their skills as members of a policy-making body, Board members ~~will~~ may participate in opportunities for development that may include, but not be limited to, the following:

- In-service activities planned by the Board and by the administration for staff members, as appropriate;
- Participation in conferences, workshops and conventions held by State and National School Boards Associations and other educational organizations;
- Subscriptions to publications addressing Board member concerns.

Recognizing the need for continuing training and development of its members, the Board of Education encourages the participation of all members in appropriate conferences, conventions and workshops. To control both the investment of time and funds necessary to implement this policy, the Board establishes these principles and procedures for its guidance:

- The Superintendent of Schools will inform Board members, in a timely manner, of upcoming conferences, conventions and workshops. ~~The Board will decide which meetings appear to be most likely to produce the greatest benefit to the Board and the district;~~
- Funds for participation at such meetings will be budgeted. When funds are limited, the Board will designate which members would be most appropriate to participate at a given meeting;
- If authorized to attend, and reimbursement is approved by the ~~entire~~ Board, Board members will be reimbursed, upon request, for reasonable and necessary expenses actually incurred;
- When a conference, convention or workshop is not attended by the full Board, those who do participate will be requested to share, by means of written or oral reports, information, recommendations and materials acquired at the meeting.

Subject: Teacher Certification/Recruitment Efforts Presentation

Background:

The experience of educators trying to gain certification in Connecticut has been historically frustrating. Many have complained for years that Connecticut was a very difficult state to get certified in, due to a number of requirements. These requirements have impacted the state's ability to attract educators from outside of Connecticut. As it is well documented that there is a teacher shortage in certain areas, the State Board of Education has made some changes to the certification requirements. Additionally, the Legislature has passed laws in the past few years, which are focused on increasing the number of educators of color in Connecticut schools. This presentation will provide an overview of these certification updates, as well as the legal updates. The recruiting efforts for Windsor Public Schools will also be shared.

Dear Windsor Public School Families:

Over the past several weeks, Windsor Public Schools has closely monitored the spread of the Coronavirus (COVID-19). Recently discussions have occurred with Dr. Michael Pepe at the Town of Windsor Health Department and the Connecticut Department of Public Health and Center for Disease Control and Prevention to ensure that our schools are fully prepared. We will continue to work with these agencies on practically a daily basis and follow any recommendations to keep our school district's students and employees healthy and safe.

Windsor did see increases in flu-like illnesses prior to our holiday break and again prior to our February break, however, at the current time there are reported low levels of flu-like illnesses in our schools. Our custodial staff has taken precautions in our buildings including increased cleaning and disinfecting.

We are also very closely monitoring any planned field trips for students outside of Windsor and are preparing for the possibility that we may need to alter or even cancel trips in the near future.

Please speak with your child about the importance of not sharing water bottles or other drinks as well as frequently washing their hands at school and home. Also, if your child is experiencing a fever or flu-like symptoms, please keep your child home to lessen the risk of transmission to others and to speed their recovery.

A link has been placed on the Windsor Public Schools' website, www.windsorct.org, to the Connecticut Department of Public Health's information on the Coronavirus. This link will have the most updated information available.

Please don't hesitate to contact your child's school should you have any questions regarding the above information.

Dear Windsor Public School Families:

Re: Update on Coronavirus Preparations

Communication/Cleaning:

- Our most common form of communication to you regarding our preparation will be through email. For the time being, please expect at least weekly updates from the Superintendent's office.
- In addition to our normal flu and cold season deep cleaning practices, we have received approval from the State of Connecticut to utilize general over-the-counter household cleaners throughout our buildings. We are still mindful of our Green cleaning policy, however, we expect to utilize stronger cleaners, especially, but not limited to, when students are not in the building.
- Hand washing for at least 20 seconds with warm water is still the preferred method and will occur throughout the day as we are allowing additional time for students to wash their hands. Please encourage your student to wash their hands frequently. Hand washing reminder posters will be placed in each lavatory at all schools and the L.P. Wilson central offices.

School Trips:

- We are monitoring closely all planned travel both within CT and outside of the state.

Potential for School Closure:

- We are in the process of planning for the potential of a State of Connecticut enforced lengthy school closure (2 to 3 weeks). It is also possible that Windsor could initiate a closure due to student and staff attendance in our schools.
- If a lengthy closure is warranted, there is a potential that the State of Connecticut would allow us to hold school remotely. We are in the process of developing those plans.
- We know the vast majority of our families have access to devices and internet connections at home. Later this week, we will be sending out an email to families asking you to notify us if there are any technology barriers in your home prohibiting students to participate in distance learning or access to any online learning resources.

Please don't hesitate to contact your child's school should you have any questions regarding the above information. I understand you may still have many unanswered questions and I will try to address them as more information becomes available. Please know that I am in communication with local and state officials on a daily, sometimes hourly, basis. My next email update to families will be on Monday, March 16, 2020 unless notification is required sooner.

Sincerely,

Dear Windsor Public School Families:

Parent Conferences Will Proceed As Scheduled

As you know, Windsor Public Schools is in the process of preparing for the Coronavirus and is taking as many steps as possible to keep our students and staff safe. At this time, we are planning to proceed with parent conferences as scheduled. Parent conferences are a valuable component in education. We would ask that if you or members of your family are feeling ill, please contact your student's teacher directly and ask for a phone conference rather than an in-person conference. We will attempt to accommodate that request during the time frame you have already registered for your conference.

If you wish to cancel your conference, please notify the school.

AGENDA ITEM**

For Consideration by the Board of Education at the Meeting of: March 17, 2020

Prepared By: Craig A. Cooke

Presented By: Craig A. Cooke

Attachments:

Subject: 2019-2020 School Calendar Revision Proposal (Action Anticipated)

Background:

The Superintendent will review his proposal on revisions to the 2019-2020 school calendar.

Status:

Under both options, we suggest converting one student day to a teacher professional development day, which brings the student school year to 180 days.

Option #1

- Add 10 days to the end of the current calendar
- Monday, June 29, 2020 would be last day for students (early dismissal)
- Tuesday, June 30, 2020 would be last day for teachers

Option #2

- Use 5 days for April break
- Add 5 days to the end of the current calendar
- Monday, June 22, 2020 would be last day for students (early dismissal)
- Tuesday, June 23, 2020 would be last day for teachers

Recommendation:

Recommended motion:

Move the Board adjust the 2019-2020 school calendar by using 5 days for April break and adding 5 days to the end of the current calendar making Monday, June 22, 2020 the last day for students and Tuesday, June 23, 2020 the last day for teachers

ATTACHMENTS: Student Enrollment Report & Recap

SUBJECT: Student Enrollment as of March 1, 2020

BACKGROUND:

Attached are the enrollment figures as of March 1, 2020. Mrs. Batchelder will answer any questions.

STATUS:

In prior BOE enrollment reports, the enrollment report grouped all students into one category labeled "Outside Placement/Private Placement (SPED)". Beginning in September 2016, the Out Placement/Private Placement (SPED) line was separated into two categories:

1. *Out of District Placement-Special Education students*
2. *Private Placement Special Education students*

Out of District - Special Education: Those students who are placed at a Connecticut State Department of Education (CSDE) approved private special education program as recommended by a planning and placement team (PPT) as part of a student's individualized education program (IEP). Additionally, this category may include a family who moves into Windsor with a child who has a disability who has already been placed in a private special education program and/or children who are placed in Windsor foster home(s) by the Department of Children and Families (DCF) and are already enrolled in a private special education program.

Private Placement - Special Education: Those students who have been identified special education through the planning and placement team (PPT) process that have been parentally placed at a non-public school located in Windsor (i.e., St. Gabriel, Trinity Christian, Madina Academy, Praise Power & Prayer, etc.).

Prepared By: Patricia Patton

Presented By: Danielle Batchelder

Attachments: Food Service Financial Report

Subject: Cafeteria Operations – February 2020

Background: The Windsor School Food Service participates in the National School Lunch Program at each of our school facilities, at St. Gabriel's and CREC's Academy of Aerospace and Engineering. We also participate in the National School Breakfast Program at our four elementary schools, Sage Park Middle School, Windsor High School and CREC AAE. We operate the After School Snack Program for our Treehouse Program in Windsor. We operated our Summer Food Service Program of lunch and snack at Deerfield Apartment Complex, Goslee Pool, Wilson Library, and added Poquonock Elementary School location during summer break. We are complying with the Healthy Food Certification again this year to send a consistent message to our students in keeping with our wellness policies.

Our annual goal is to operate with a small reserve account to offset unanticipated needs and to increase participation from students and staff in all our programs.

A monthly financial report is presented to the Board of Education. This report includes sales and financial information for the current period.
