ATTACHMENTS: Student Enrollment Report & Recap

SUBJECT: Student Enrollment as of February 1, 2023

BACKGROUND:

Attached are the enrollment figures as of February 1, 2023. Mrs. Batchelder will answer any questions.

STATUS:

In prior BOE enrollment reports, the enrollment report grouped all students into one category labeled "Outside Placement/Private Placement (SPED)". Beginning in September 2016, the Out Placement/Private Placement (SPED) line was separated into two categories:

1. *Out of District Placement-Special Education students*
2. *Private Placement Special Education students*

Out of District - Special Education: Those students who are placed at a Connecticut State Department of Education (CSDE) approved private special education program as recommended by a planning and placement team (PPT) as part of a student's individualized education program (IEP). Additionally, this category may include a family who moves into Windsor with a child who has a disability who has already been placed in a private special education program and/or children who are placed in Windsor foster home(s) by the Department of Children and Families (DCF) and are already enrolled in a private special education program.

Private Placement - Special Education: Those students who have been identified special education through the planning and placement team (PPT) process that have been parentally placed at a non-public school located in Windsor (i.e., St. Gabriel, Trinity Christian, Madina Academy, Praise Power & Prayer, etc.).

For Consideration by the Board of Education at the Meeting of: Wednesday, February 22, 2023

Prepared By: Patricia Patton

Presented By: Danielle Batchelder

Attachments: Cafeteria Operations – January, 2023

Subject: Food Service Financial Report

Background: The Windsor School Food Service participates in the National School Lunch Program at each of our school facilities and Saint Gabriel's School. We also participate in the National School Breakfast Program at our four elementary schools, Sage Park Middle School and Windsor High School. We operated our Summer Food Service Program at Goslee Pool Stroh Park and Wilson Library during summer break serving lunch. We are complying with the Healthy Food Certification again this year to send a consistent message to our students in keeping with our wellness policies.

Our annual goal is to operate with a small reserve account to offset unanticipated needs and to increase participation from students and staff in all our programs.

A monthly financial report is presented to the Board of Education. This report includes sales and financial information for the current period.

Attachments: Educational Specifications for SPMS Partial Roof Replacement

Subject: Sage Park Middle School Partial Roof Replacement Phase 2 – Approval of Project and Educational Specifications

BACKGROUND:

Approximately 74,200 square feet portion of the roof at Sage Park Middle School is beyond its useful life expectancy and is becoming problematic with ongoing leaks. This area of roofing was originally installed during the 1993 building addition.

The design of the project is complete. Administration plans to apply for a reimbursement grant to partially fund the construction. The State of Connecticut grant application process defines the requirements related to applying for and receiving grant funding. There are specific requirements for the format and wording of the Town Council and Board of Education actions.

The preliminary estimate of the roof replacement cost is approximately \$2,900,000 including a construction contingency. If approved, the estimated state grant reimbursement would be 48% of the cost.

STATUS:

The partial roof replacement project qualifies for partial reimbursement by the State of Connecticut. The State requires that a formal approval process be followed by the Board of Education and the Town Council. The State requires a formal approval by the Board of Education to approve the project and the Educational Specification of the project.

RECOMMENDATION: In order to comply with applicable funding regulations, the Board of Education must approve the Educational Specifications and forward a request to the Town Council for necessary legislative action. The following motion is needed in order to apply for grant reimbursement:

“Move that a project for the partial roof replacement at the Sage Park Middle School be approved by the Board of Education, as well as the Educational Specifications for such project. Further, that completion of this project and authorization for the code compliance grant be implemented.”

PROJECT RATIONALE

The long-range plan for Sage Park Middle School calls for the provision of a safe and appropriate learning environment. The current school roof areas designated to be replaced were installed in 1992, 1993 and 1999, all roof sections are now approaching a minimum of twenty-four years in age. These roof sections have suffered from numerous leaks in recent years. While repairs have consistently been made to the roof in recent years, the roof continues to leak. Many of these leaks have resulted in damage to the facility and school equipment, furniture and supplies.

LONG RANGE PLANS

The current long-range plan for the Sage Park Middle School calls for the current facility to be utilized in its current capacity as a school for in excess of 20 years. To comply with this aspect of the plan, and to provide a safe and healthy learning environment, it is necessary to replace the existing Sage Park Middle School roof. The new roof system which will meet all the requirements of the State Department of Education, including the minimum $\frac{1}{4}$ " per foot slope/pitch requirement.

DETAILED DESCRIPTION

The existing roof areas to be replaced will have the existing modified built-up roof system removed down to the sloped metal roof deck. A new 2 ply modified built-up roof system of approximately 74,135,200 sq. ft. will be installed on $\frac{1}{2}$ " fiber board adhered to 5.2 inches polyisocyanurate insulation on sloped metal roof deck. The roof surface will have a minimum $\frac{1}{4}$ " per ft. slope per state building code.

Existing roof drains will be replaced, and scuppers will be added as required to meet all current applicable codes for drainage. Installation of new roof drains required due to the increase in insulation depth.

The new roof system will include the installation of extruded aluminum fascia as required to provide an edge-to-edge warranty. Further additional wood blocking and extruded insulation is required due to the increase in insulation depth.

Four existing windows in second floor classrooms located above a one story roof area will be removed. The existing window assemblies are approximately 4-1/2" above the existing roof surface and the requirement to increase the depth of the new tapered insulation system will result in the new tapered insulation system and roof membrane located just 2-1/2" below the existing windows. Recognized code and industry standards require a minimum 8" flashing height be maintained above the finish roof surface. These requirements will require the sill of the existing window opening(s) to be raised 8". To ensure the minimum flashing height requirement is met. The increase of 8" will be achieved by installing an additional concrete block course on the existing concrete block wall. Once the sill is raised four new code complaint windows will be installed.

Other work includes the following:

1. Installation of metal edge flashings.
2. Removal and reinstallation of the existing roof and smoke hatches.
3. Installation of new ballasted edge guardrails.
4. Installation of new skylights to age/deterioration also increased insulation depth.

The new roof system will have a minimum 20-year edge to edge, non-prorated, labor and material, no dollar limit warranty to meet Connecticut Office of School Construction Grants and Review requirements.

House Bill 5003 - An Act Concerning Education Funding in Connecticut streamlines the funding system by simplifying it, aligning monies to student need and supporting school districts and municipalities to better project future spending. More specifically, HB 5003 does the following:

- Accelerates the Education Cost Sharing (ECS) grant adjustments by several years fully funding the grant by FY 2025
- Expands the weighted funding to students attending public schools of choice (magnet, charter, AgriScience and Open Choice programs)
- Eliminates general education tuition billing for magnet school operators and AgriScience programs, effective FY 2025
- Maintains current schedule for towns receiving reductions in their ECS grants
 - Many of these districts will see net increases from the elimination of tuition and increased state aid for school choice programs
