Re: 2022-23 Superintendent Goals for approval

Student Achievement

Goal: The Alsea School District (ASD) superintendent in combination with LBL ESD will implement the Learn & Prepare, Engage & Assess, Develop & Plan, and Grant Application phases of the Oregon Department of Education (ODE) Aligning For Student Success (AFSS) project by the spring of 2023.

Objectives:

- Learn & Prepare:
 - This step includes time to become familiar with the new AFSS guidance that encompasses the following programs:
 - High School Success (HSS)
 - Student Investment Account (SIA)
 - Continuous Improvement Planning (CIP)
 - Career and Technical Education (CTE)
 - Every Day Matters (EDM)
 - Early Indicator Intervention Systems (EIIS)
- Engage & Assess:
 - Engaging the community in a comprehensive needs assessment
- Develop & Plan:
 - Gather data and use best practices research to create a plan that includes strategies, activities, and growth targets
- Grant Application
 - Submit plans for grant support that includes budgets

Communications Plan

Goal: The district will create a communications plan that is a working document by the end of the 2022-23 school year

Objectives:

- The district will create a communications plan team by the end of September 2022 led by the district Public Information Officer (PIO)
- The district will present a first draft to the Board of Directors during the November 2022 board meeting for initial approval
- The district will start to actively use the communications plan after the draft is approved
- The district will bring the final communications plan to the board for final approval during the January 2023 board meeting

Budget Development

Goal: The district will demonstrate budget accountability to the staff, students, and community by completing the outlined objectives below by March 2023

Objectives:

- Complete the ODE and Secretary of State financial audit by spring 2023
- Complete the LBL ESD 2021-22 payroll audit
- Create and approve a 2022-23 supplemental budget that more accurately reflects current expenditures by January 2023
- Build a 2023-24 budget by June 2023 that is balanced and is stable
- Completely implement requisition based purchasing procedures using Infinite Visions (IV) that includes checks and balances from direct supervisors, Business Manager, and Superintendent by the end of October 2022

Celebrate National School Lunch Week | Oct. 10-14, 2022

You're invited!

National School Lunch Week is Oct. 10-14.

In partnership with the Oregon Department of Education, we are inviting school board members and superintendents to eat with students and experience their local school lunches.

We could use your help.

Will you encourage your board to participate by making plans to have lunch with students that week? All they need to do before is reach out to your school nutrition staff and building administrators before their visit. Then they are encouraged to post to social media about their experience using the #NSLW22inOR hashtag and tag the ODE ([@ORDeptEd](https://twitter.com/ORDeptEd)) and OSBA ([@OSBANews](https://twitter.com/OSBANews)) Twitter handles.

More information can be found at the following link.

a. Paradigm Learning Systems Contract Renewal is our contract for curriculum for our LaHO students. We had to make some adjustments after we ran the contract by our attorneys. The contract has the green light and we are ready to sign.

b. Kings Valley Transportation Contract Approval, Sean Gallagher stated that this has taken sometime to get adjusted to be satisfactory for both Alsea and Kings Valley. After much discussion and give and take, it is ready for board approval.

c. Summer Academic Grant K-8th grade, Sean Gallagher explained that this is the grant for our summer school. He reported that things are going great so far with the field trips which are divided up into small groups with what would be of interest to each age group.

d. Library MOU approval, Mr Gallagher explained how we would partner with the Benton County Library to enhance our library. The Library will deliver books boxes to each class room on a weekly basis. There will also be fun activities that our students can participate in as well. Our school library is not going away. This is just a way to enhance what we have here in our own library. Linda Montenez had some concerns about working with Benton County due to past experiences. They were discussed and the board asked that they get a report from both the county and elementary teacher in November to see how things are going for both parties.

e. Adjoining Land possible purchase/lease considerations. Sean Gallagher said he had gotten an inquiry from Mimi Stout about whether the school was still interested in her land. The board asked that he have a conversation and see what it was that she was wanting.

f. Presence Learning Contract Approval. Sean Gallagher explained this is a contract for services for LaHO for support in testing and helping with needs of our SPED students.

g. Psychologist Contract approval. Sean Gallagher explained this is for LaHO and needed to serve those students who aren't in the building.

h. Seismic Grant RFP approval. Sean Gallagher asked the board to approve issuing a new RFP to find a different source to use for developing a new Seismic grant submission. We have used Derek Howard the last two times and it has not been awarded to us. He feels that a person with a new perspective will get us the grant.

The discussion as to the following policy readings and how we will conduct policy reviews in the future. Sean Gallagher stated that we need to review and approve these Personnel Policies before we finish with the HR reset. This will make us compliant with our position descriptions, employee contracts and policies.

i. First Reading of Policies

i. GAA Personnel Definitions

ii. GAB Job Description

iii. GB General Personnel Policies

a. District Goals

b. Set date for a board retreat to discuss Board Goals and Board Operating agreement

District goals and samples are attached in boardbook.

GOAL 1. Graduation requirements were discussed and how the school would make sure that students know what is required and where they are in terms of graduating. With a guidance councillor now in place to counsel our students, no student will be missed. There will be scheduled times for each high school student to meet with Ms. Rose, Guidance Councilor. Some students will need to have more guidance than others, but all will have the opportunity to speak to the councilor when needed.

The board would like to bring back Senior Projects and Job Fairs. Mr. Gallagher would like to do this but the Admin team would like to set these things up for success. They would like to wait until the 2023-2024 school year so they can have time to set-up the process. This will be a future goal for the 2023-2024 school year.

Sixth through eleventh grades will start and update their grad plans every year. This will get us back into compliance with state law. We need to let students know what is out there for them in terms of careers and schooling. J term tie in and involve staff on how to make it happen.

Board would like updates in December and March.

Goal 2. Communication: Still important. A team of communicators. Who would be part of the team? Does the Board want to be part of the team? Present team (Superintendent/PIO/Teachers/Admin) - First draft in December to get us going.

Goal 3. Budget

Looking into this - work in process, making things right with the employees. Questions about audits? NONE

Superintendent Budget: Jan 2023 more accurate, better transparency, historical precedent to work off of

Stability is an area that is still a problem. There is still a bleed.

Ryan:Van Leuven would like to go through the bills so the board knows who is being paid and why the school is spending the funds. What are the checks and balances for those bills? Get this info in a public place that's easily searchable. Possible thing to add as a vote in the general meeting. All agree that goals look good with the small changes made during the meeting. Add to action items.

Board operating agreement needs to be built Suggestion of day in October/November... Maybe it needs to be done sooner.

District retreat date: September 24th, 2022 from 12 to 4. In the Alsea School Library.

Risteen Follett will reach out to Vincent for sample retreat ideas/agenda.

Adjourned: 6:48pm

3. Call to Order

Risteen Follett called to order at 7:00pm

4. Flag Salute

5. Approval of the Agenda

Action items add (i) for the approval of district goals and (j) for District Retreat date 9/24/22 @ 12pm.

6. Superintendent Report

a. Bond Update

Scott Marshall, CB Construction, BOC Representative

b. Youth in Transitions Program (YTP)

David Fricke

c. HR-Reset Update

Bond report session on 9/6 - went well

School has had a lot of staff/students out ill - if you don't feel well, stay home -

Sean is out next week and will try and stay in touch but limited cell service

HR Reset Teacher Contracts will be out soon, job descriptions, policy change with board not approving job descriptions. Only cert will sign contracts. Analysis data is being finalized. We want to be competitive and fair with our employees. Continuing to have conversations will affect all employees. Final analysis. Request for records with the secretary of state and ODE has been put forth. Rumors of Forestry improvement plans are in place, but not ready for the board just yet. Very excited about it. Transferring all payroll to ESD. Athletic schedules are difficult and they are sorry about the daily changes that are happening.

Bond update:

Scott Marshall: working on trying to redirect and get everyone on the same page with where things are going with the project. Approach to completion: reach a solution, construction process is hard to understand and has a lot of moving parts, Each project is very different, diligently working on plan to move forward: understanding as to the why moving forward: See the attached document for complete list and documentation.

Hot button questions.

Risteen Follett does this include our ESSER funds? Sean Gallagher: The cost of the project numbers don't necessarily show what funds we have, could be more of a savings.

Risteen Follett: Cafeteria not seen, due to the budget cost availability.

Scott Marshall: Not getting a cafeteria, but will provide the hook up available for the future. Occupancy, would have a shell...but not able to occupy. Contingency could be used, but it would be close. All the bells and whistles wouldn't be available. See, A133 Exhibit, Memo Alsea VOC Shell, Alsea Elect, VOC Shell Only Budget

Jamie and Richard Olsen: Why are we considering anything we can't occupy? Scott Marshall: the shell would only protect it from weather and then we can wait till the rest of the bids come in without losing any momentum. The contingency could be added and then finish the project...would roll the leftover funds into completion. Could make the new building differ from the proposed plan. This contract would be amended to make the building occupiable.

Jamie Olsen: would that potentially mean that we would end up with a 1.5 million dollar storage shed? Scott Marshall: that is always a possibility, but he doesn't foresee that. Doing this would open up the building renovation to start.

Deb Lindberg: HVAC/Elect: any bids? Scott Marshall: 1a was bid, it came in high, they value engineered the generator out of it. This estimate will then be utilized elsewhere. Scott Marshall, yes you would have someone local able to be called for problem solving. Always design something that is generic for easy fixability. Andy Brophy: the HVAC contractor is from Salem, has some ideas to take \$ out of his bid. Look at the larger system as well. Electrical side: Roseberg and Albany. Risteen Follett: Waldport/Corvallis/Albany - who did you contact? Andy - will send the board a list of contractors he has contacted. Risteen Follett wants local contractors. CJ Hanson is a company in Salem. Work with them to get an ongoing service agreement set up

Risteen Follett's follow up to Deb Lindberg, HVAC system, have a local company sign off on the design to ensure we'd have support in fixing. CJ Hanson is the company in Salem. Work with them to get an ongoing service agreement set up.

Youth in Transition - David Fricke

YTP is a mandated service for schools, usually comes through SPED, Tasked to build a program, it was a challenge, but they got it done. Summer employment program 14 - 18 year olds can serve kids who didn't even attend school. They were assigned 850 work hours for kids over the summer. It was a successful year for it being year one for us. The program is growing.

Angie Turpen: Showed a powerpoint submitted to the board by a student. The program helps with HS dropouts and may help them find their way back. There are 6 weeks worth of sessions. Very successful and the kids recovered credits. Working with students on their future. It helps to build local relationships. The Fish Hatchery would love to see more over the school year. Like to see moving forward; more Alsea community kids involved.

7. Business Manager Report

- a. Payment Processes
- b. Process for credit cards
- c. Process for tracking and payment of contracts

Deb Lindberg moved to pay the bills; Linda Montanez Seconded, All in Favor. This motion, made by Deb Lindberg and seconded by Linda Montanez, Carried.

Risteen Follett: Yea, Deb Lindberg: Yea, Linda Montanez: Yea, Ryan VanLeuven: Yea, Robert Webb: Yea

Yea: 5, Nay: 0

LaRea Sullivan:

Sean Gallagher is having LaRea Sullivan look at the break even point for LaHO, should know better by mid September.

Payment Process - LaRae explained the payment process and our checks and balances.

How is the business office handling reimbursements? We are still using the old paper form, but staff need to ask their supervisors in advance to spend the funds. If they don't they risk not being reimbursed.

LaRae reviews all contracts and keeps track of payments. Risteen Follett asked if contracts could be loaded to the web for easy access? LaRea Sullivan, there's no problem with that.

Vendor evaluation process? LaRea Sullivan said, usually you go out for state approval before you can change or shop around, or get quotes.

Sean Gallagher and LaRae Sullivan both look at duplicate services.

We need to have 16% cost saving in all categories. Will we make it? LaRea Sullivan, we will need to wait until November/December to have a better idea.

Board asked several questions about the bills and LaRae explained what they were, they asked about school accounts in the hole and what or how we would be getting them in the black. Some are student accounts which will require some fund raising. Explained that we change online services from APEX to Edmentum. Edmentum provides better programming for less cost.

8. Consent Agenda:

- a. Approval of Minutes, July 14, 2022, August 25, 2022, September 6, 2022
- b. Payment of Bills, August and first week of September

Deb Lindberg moved to approve July minutes with changes; Ryan Van Leuven: Seconded, All in Favor. This motion, made by Deb Lindberg and seconded by Ryan VanLeuven, Carried.

Risteen Follett: Yea, Deb Lindberg: Yea, Linda Montanez: Yea, Ryan VanLeuven: Yea, Robert Webb: Yea

Yea: 5, Nay: 0

Robert Webb moved to approve August minutes; Linda Montanez Seconded, All in Favor. This motion, made by Robert Webb and seconded by Linda Montanez, Carried.

Risteen Follett: Yea, Deb Lindberg: Yea, Linda Montanez: Yea, Ryan VanLeuven: Yea, Robert Webb: Yea

Yea: 5, Nay: 0

Ryan Vanleuven moved to approve September minutes; Linda Montanez Seconded, 4 yes and 1 abstained. This motion, made by Ryan VanLeuven and seconded by Linda Montanez, Carried.

Deb Lindberg: Abstain (Without Conflict), Risteen Follett: Yea, Linda Montanez: Yea, Ryan VanLeuven: Yea, Robert Webb: Yea

Yea: 4, Nay: 0, Abstain (Without Conflict): 1

Risteen Follett asked that July 14th minutes be corrected. Student success presentation was placed there which is incorrect.

RECESS UNTIL 8:50pm.

Risteen Follett would like to split Agenda and Checks and not have a consent agenda - Board agrees.

Payment of Bills: Board asked for clarification on several bills. LaRae Sullivan and Sean Gallagher answered their questions Annual is in the negative \$1050, AP will be doing some fundraising to make that up

Leadership \$4000 in the negative, they need to do some major fundraising. Board asked Sean to follow up.

Risteen Alsea Education Scholarship? Teachers Union funded. Please follow up on all negative balances

Checks - Deb - Check 10327 to Tim Pearson? Sean, went to teacher training. He went through the process

Edmentum? Replacement for Apex system. Sean said this was a time to make a break. They provide us the same/better programing for less cost.

\$190,000 was from last year, \$120,000 is from this year's statement. This was due to the increase in enrollment.

Benton County Development is the permits

John Boys - Multiple expenditures - looking at a better way to do this

Western Bus Sales - One of the contracts for the DEQ Grant.

Cell Phone carriers - Multiple - HR Reset will address this.

Linda - Special Occasions - Payment from last year for rentals

Risteen - Senior Banquet - why doesn't that come from ASB - fundraising possibility

Motion to approve bills - Deb Lindberg - Linda Montanez seconds - All Agree

Patron Comments - Scott Marshall: revisit bond presentation, apologize on clarity, contractor needs direction on GMP, haven't canceled concrete pour yet, need that to reassess when it'll be poured.

Board Comments: Risteen: UDE link to article for title IX changes.

9. Patron's Comments:

Scott Marshall: revisit bond presentation, apologize on clarity, contractor needs direction on GMP, hasn't canceled the concrete pour yet, needs that to reassess when it'll be poured.

Discuss if the board should continue with the twice a month meetings or move to one. Deb Lindberg said she likes two a month.

OSBA Annual Conference. This conference fills up fast. We have a space available if anyone is interested. No vote required

Accepting funds from a donor -Resolution 23-02 Resolution to accept additional funds from a donation, create budget and spending authority for the "Family Outreach Program" FY22-23

Sean Gallagher asked if the board would like him to investigate getting a Project Manager? Board discussed pros and cons. Just looking not hiring.

The Board discussed choosing a liaison from the board who would be a rep of the board that would be part of the process, making it easier for someone who has a different skill set, the ability to communicate more with contractors and then bring back information to the board, making it easier to communicate.

The board voted on giving all employees the option of the HRA option. Resolution #2023-03 A Resolution Authoring the Adoption of a Health Reimbursement Arrangement (HRA) Plan

OSBA amendments to title IX, we have an opportunity to respond as a board. Risteen put forth a statement and states that it is by no means everyone's view and can be added/changed.

Approval of VOC GMP for Shell. Deb Lindberg wanted to continue with the concrete pour before rains come and talk out what has already been completed. Much discussion took place on the cons of going forward as well as the cons of not. Ryan Vanleuven feels that we're been put on the spot, we've wanted HVAC/Electric and now we have to make an on the spot decision. We're topping out our budget if we do it now and we might be way out of budget and still have nothing to show for it. Sean Gallagher reminded them that we could take out a loan if we had to in order to complete our top priorities. The GMP is only good for now and it would take two weeks to obtain a new one. Took a recess at 9:55pm returned at 10:01. Ryan VanLeuven wants hard numbers for the projects. Derek Howard stated "Spend some time tomorrow for occupiable space. Don't use contingencies unless there is a major design error. Doesn't see any or that in this project. Might use 10-15% of the contingency plan. \$180-200,000 to put back in. Main power didn't take out the engineer's generator cost. Electrical was played conservatively. HVAC they haven't seen yet to see if they can shave off some cost places for the more specifications. Look at it this way. Now you have them and the 4-6 weeks gets pushed out even further because they find a better job. He would like to see it kept local. Ryan Van Leuven : If

we wait, will the concrete guys walk? Andy Brophy: No not yet, we've been waiting on their guys to become available. If we wait we stand the chance of losing them to other jobs and not getting them back. GMP is good for a month or two, mid October. Risteen Follett: could we delay, and not be out anytime really? Derek Howard: yes, but you need to move forward on the full build out due to electrical and plumbing fluctuations happening so frequently. Much higher risk. In 2 weeks they'll have hard numbers for electrical and HVAC upgrades. So long as electrical will play ball. CPI had an addendum that was issued, there are no mechanical drawings till tomorrow. Ryan Vanleuven wants a special session. Risteen Follett suggested : 9/12

a. Bond Update

Sean Gallagher, Scott Marshall, CB Construction, BOC Representative

There are two handouts to look at for the Warm Shell 2.1 million, Complete 2.5 million and Cold Shell 1.5 million. GMP hasn't changed.

Andy Brophy: Single sheet based on budget, low sub contract, outside subcontractors are the other options for your information. Multiple bids, multiple trades...any number of companies looked at the trades. However, not a lot of individuals bid. Red, Yellow, Green - options for locations as they are located.

Derek Howard - the Atlas company has offices all around Oregon. The Corvallis office said we were too far.

RisteenFollett: Sectional doors are blank? Andy Brophy, they haven't chosen a company yet to go with. The board feels more confident with the color coded copy.

Electrical or HVAC info? They did receive the drawings, Derek Howard-we received them, but they have questions about HVAC power charge. Doesn't seem to be in there. Andy Brophy said the plans aren't stamped so they want to make it official and complete before they give the 100% ok.

Sean Gallagher, next spreadsheet, budget updated for warm shell: Derek Howard based off the request for a building that could be occupied. Took out all unnecessary items that would make it still occupiable. Maybe give the shop class some things to complete. Doors were taken out for the inside, left on the outside.

Keenan Elbers: Is drywall needed? Not really. But would highly recommend it

Deb Lindberg: Are these hard numbers? Derek Howard- yes hard numbers, these are the GMP #'s. Numbers under hard total are the numbers that will create the GMP

Sean Gallagher what are the GMP's exactly? GMP=Guaranteed maximum price, can't actually be established till a contract is signed. However, it can be established

Risteen Follett wanted the numbers for the electrical and HVAC numbers for the different shells. Derek Howard, needed 2 weeks to establish the hard numbers for all the HVAC/Electrical. Those aren't here. Used the #'s from the Shell to give a base to go off of. Need to understand the complete system set up before they can get a total cost to the board. Need to call the electrician to get those numbers.

Consequences of the two different shells. Derek Howard: The biggest difference between the two is the electrical and HVAC prices. The weather conditions are the biggest factor. However, the prices fluctuate all the time. They have to order all the main components. The biggest risk is the price escalation.

Deb Lindberg: Are these the numbers for the HVAC/Electrical? Derek does not have solid figures yet. He needs two weeks to get those solid numbers.

Risteen Follett: If the board were to approve the cold shell, could we switch the decision to a warm shell? Derek Howard, that's easy, you as a board members just have to vote to change it, they have all the hard numbers for the warm shell. They add change orders to the subcontracts. It's a paperwork evolution. Nothing will change in the price.

Ryan VanLeuven: Hallway? All the bids were canceled? Derek Howard: Yes, that was based off the old hallways and they didn't get the numbers till late for the new hallway, they'll rework it for numbers. The new electric was 150 sq ft, but needed to be completely reworked, Derek Howard did his best to give you an idea as to what it might look like

Sean Gallagher: The only thing on the table is a cold shell for the board to vote on. Andy/Derek yes that's correct.

Derek Howard: The paperwork change is very simple. Changing the number to the warm shell price and then you sign, could take less than a day.

Ryan Van Leuven: We are only voting today, so concrete can be poured? Derek Howard: that's right, we want to make sure we don't lose the concrete number

Ryan Van Leuven: We want actual numbers and drawings so they can make a concrete decision. Derek Howard, you have those, but the next steps are still in the works

Sean Gallagher: if they go from cold to warm, are the numbers solid with where it stands right here? Derek Howard: those numbers are +/- 3% and are basically just drywall and small incidentals. Derek will give you a list of what it won't include.

Ryan Van Leuven: 60 -70 thousand dollars difference. Risteen Follett wants Ryan's VanLeuven's opinion on the best path forward? Ryan VanLeuven if the concrete contractor runs, and CB is willing to step up. Then we can wait and still have time before the rain comes.

Risteen Follett: GMP is still good for 2-3 months? Andy Brophy yes and no, some are 1-2 days others are 90 days out. We would like a shell put up so the subcontractors can be dry in the rain. If you notice that there is a sprinkler still going to make sure it compacts and then they can add the concrete. They don't want that to be over-saturated when it rains and then you get cracking.

Asphalt price? Derek Howard, it's excluded now because there wasn't any in the original plan.

Andy Brophy: the fabric material would lay down with rock over the top, with asphalt you have to dig out substrate first to create a base to help with longevity

Risteen Follett: Timelines they need for concrete? What do you need for the electrical HVAC for the hallways, what do you need to move forward for the 3 other things. HVAC=need power plan, hallway=close there, retaining wall is needed-done tomorrow (retaining wall design will be done by CB Construction will do it),

Risteen Follett-Electrical? Derek Howard it's out to bid for a GMP

Deb Lindberg asked how many subs- CB Construction could take it in house, can go to M&W there was another one as well. Carl Ecolt was tried, but wouldn't bid. Deb Lindberg the electrical upgrade on yours is lower than the other bid. Derek Howard our numbers took into consideration the generator removal. Transformers have been ordered.

Risteen Follett, goal for electrical/HVAC is a couple weeks away. Derek Howard yes that's fair, 2-3 week turnaround with Scott out. October 19th would be when you would have the GMP's by. Andy Brophy said they are bypassing Scott Marshall at this point, Scott Marshall has directed them to work with CB Construction. It depends on how far they are on the design.

Risteen Follett asked about hallway GMP? Derek Howard the same 2 weeks. With Sean Gallagher and Scott Marshall being gone, is the 2 weeks accurate? Derek- Howard said it makes him nervous, suspects they don't even have the power plan done or started.

Risteen Follett asked if the cold shell gmp is not approved, would the concrete need to be rescheduled? Andy Brophy that's correct. Risteen Follett said, based on that CB could still step in? Derek Howard yes that's correct. Risteen Follett would GMP no longer be accurate? Derek Howard would take about a week to get out here to pore and frame.

Deb Lindberg her hang up is, we don't have the GMP's before we proceed. How do you move forward with what ifs? Linda Montanez asked Ryan VanLeuven since he has been hard core about not pouring concrete, are you more comfortable now? Ryan VanLeuven, no, he wants the numbers so he knows what to do moving forward. They need electricity and HVAC to keep the kids warm and dry.

Jamie Olsen; can we move forward with concrete without the GMP signed? Derek Howard said he would need a contract. Jamie Olsen asked, what would it take to get a new electrical engineer? This is a question for Scott Marshall. Jamie, would like to see pressure put on Scott Marshall to get his electrician in line and, if not find someone else moving forward? Risteen Follett asked if we get Sean Gallagher and the bond liaison to go and have those hard questions?

Risteen Follett the action item is to vote on the cold shell GMP provided during the last board meeting. Risteen Follett asked Andy Brophy if he had an opinion and-would like to see progress moving forward, take out asphalt for the hallway and then excavate for the VOC. He fears that there will be wet conditions that will impact on the negative side, get it done as quickly and effectively as possible. Derek Howard seconded what Andy Brophy said, you as the board have to do what is best for the community and kids. Nice to see progress, but there is financial risk that can occur not knowing the hard numbers for the other projects.

5. Action Item

a. Approval of VOC Center GMP

Risteen Follett does the board want to approve going forward?

Risteen Follett motions that they halt all action on the shell moving forward till all the GMP's have come in for the HVAC, Electrical, and hallway panel. Deb Lindberg seconded.

Discussion: Deb Lindberg wants everything. Linda Montanez wants a date, she doesn't want to see it keep getting pushed back , she wants them to make a decision. RisteenFollett: wants to see the numbers, lots of good discussion, the community has asked them to stay on task and they feel like they should see the numbers for GMP's to move forward. Risteen Follett would like to have Sean Gallagher get on Scott Marshall and the electrical engineer. CB Construction will stay on them. Ryan VanLeuven will meet with Ryan VanLeuven every Wednesday. Could have another sit down next Thursday to discuss.

No further discussion. The board voted yes to halt construction until they get firm GMP numbers.

Sean Gallagher will cc Keenan Elbers on all communications dealing with the construction..

OSBA Model Sample Policy

Code: JHCCF
Adopted:

Pediculosis (Head Lice)

(Version 1)

(Excludes a student infested with either live lice or nits; does not allow attendance of a student with live lice or nits.)

The Board recognizes that district programs should be conducted in a manner that protects and enhances student and employee health and is consistent with recognized health practices. Consequently, in order to prevent the spread of pediculosis (head lice) in the school setting, district staff shall institute guidelines for classrooms that will assist in the prevention of and the spread of head lice. A student with a suspected case of lice shall be referred to the school nurse or administrator for an assessment. A student found with live lice or nits (lice eggs) will be excluded from school attendance. The district recognizes that the Oregon Health Authority, Public Health Division, no longer requires exclusion of a student for the presence of nits and allows the discretion of the district. A student excluded from school will be readmitted after an assessment by designated personnel to confirm no live lice or nits are present, and may be subject to periodic checks.

Successful treatment of head lice requires a coordinated approach and may involve the use of anti-lice products, combing and implementation of preventative measures recommended by health authorities. Treatment information will be provided by the district to parents of students found to have contracted head lice. It is the district's intent to encourage elimination of the current infestation and to prevent a repeat episode.

The superintendent will develop administrative regulations, as necessary, to implement this policy.

(Version 2)

(Excludes a student with 10 or more live lice; allows attendance of a student with nits and less than 10 live lice.)

A student with a suspected case of head lice will be referred to the school nurse or administrator for assessment. A student found with live lice may be excluded from school. A parent of the student will be notified and treatment will be requested.[Students with a severe infestation¹ will be excluded immediately until treated.] [A student excluded from school that has been treated will be readmitted after an assessment by designated personnel.] The student may be subject to periodic checks.

The successful treatment of head lice requires a coordinated approach and may involve the use of anti-lice products, combing and implementation of preventative measures recommended by health authorities. Treatment information will be provided by the district to the parents of students found to have contracted head lice.

The superintendent will develop administrative regulations, as necessary, to implement this policy.

Pediculosis (Head Lice)

(Exclude a student infested with either live lice or nits; does not allow attendance of a student with live lice or nits.)
(Version 1)

A student found to have contracted head lice will be subject to the following procedures:

1. Suggested school measures for head lice control, as provided in *Communicable Disease*¹ issued through the Oregon Department of Education;
2. Periodic head lice checks of students are not recommended; however, screening recommendations are as follows:
 - a. [Criteria for screening an individual for lice are:
 - (1) Persistent itching or scratching;
 - (2) Known exposure to sibling or other close contact with head lice (e.g., seat mate in classroom, locker partners, overnight sleep activities, scouts, etc.); or
 - (3) Self (student or parent) referral.
 - b. Three nonrelated cases of head lice in a classroom within 10 consecutive school days requires that all students in the classroom be screened by the following school day;
 - c. If there is infestation among three percent of the entire student population within 10 consecutive school days, there should be a screening of all students in the school within one week. Multiple cases from a single household count as one case for purposes of calculating the percent of students infested.]
3. Students found to have contracted head lice will be excluded from school (Oregon Administrative Rule (OAR) 333-019-0010);
4. Treatment information, district policy requirements and readmittance provisions will be provided to the parent. A parent will be advised to:
 - a. Use a lice-killing agent that a health care provider, school nurse or local health authority has recommended on all family members who have symptoms of infestation;
 - b. Follow the personal and household cleaning instructions provided by the district, health care provider or local health authority, as appropriate; and
 - c. Remove all nits after treatment.

5. Following treatment, the student may be readmitted to school. A parent must either accompany his/her student to school for readmittance or provide a signed statement that treatment has been initiated;
6. The student will be subject to screening by designated personnel to determine the treatment's effectiveness. The student will be readmitted to school or denied admittance, as appropriate. The absence of live lice or nits is required for readmittance. In the event the student is not readmitted to school, parents will be notified;
7. A student who has been readmitted to school will be subject to follow-up screening by designated personnel;
8. The parent should contact his/her local health department in the event additional assistance and/or information is needed regarding the treatment of the student, other family members, close contacts and the home environment (e.g., bedding, linens, grooming equipment, etc.);
9. A student with chronic head lice may be referred for follow-up to the school's nurse or local health department, as appropriate;
10. A parent who identifies head lice on his/her student(s) at home should complete treatment prior to the readmission of the student, as required above. A parent is also encouraged to notify the school of his/her student's condition so that appropriate preventative measures may be implemented at school.

Re: Make-up Day

*OK for
board approval

9/12/22*

The Board recently approved a change to our school calendar to reflect a holiday on January 2, 2023, instead of a school day since January 2nd is a federal holiday. Unfortunately, we forgot to add in a new school day to make up for the day we changed to a holiday. Keeping with how we do holidays that fall on Mondays on Friday of that week. So the suggestion would be to add a school day on Friday, January 6, 2023.

Thanks, Shirley
