2024 - 2025 Superintendent Goals

Goal 1: **Foster effective and open communication and partnership between the school, families, community, and education and agency partners**

- Serve as a visible representative of the District in the community, county, and region.
- Provide consistent communication with School Board, staff, families, business, and community members.
- Provide students, staff, families, and community with opportunities for input through listening sessions and survey tools.
- Create a feedback structure that supports the district in evaluating its processes and communication.

Goal 2: **Promote ongoing academic and social emotional success and growth.**

- Continue building and implementing systems that will result in an increase in the number of students who meet benchmarks for academic content standards.
- Continue to build and implement systems that will result in an increased student engagement in school; decrease student chronic absenteeism.
- Support elementary literacy through the creation of PLC teams, evaluation of K – 6 literacy curriculum, and instructional coaching time.
- Routinely review disaggregated student data as part of the continued development and implementation of instructional supports to increase graduation rates.
- Provide high quality professional development for staff.

5. **Adjournment**
