Tom Moore Memorial Award 2023

South County Nominee: Peter Colley

Peter has been our volunteer ASPIRE coordinator since the 2019-200 school year. During COVID, he managed the online world and still was able to "google meet" with kids and create his own classroom for students that were applying for colleges and scholarships. He created a college and career center at WHS with all sorts of information and resources for students, staff, and parents. He recruited volunteers to be mentors to meet one on one with students about their future planning. He set regular hours where he could be found daily to help students with their career goals. During conferences, he puts on family information nights to promote the college going culture. He has taken on the role as the LEO Club's Coordinator and started community service projects for our students. Peter has grown ASPIRE to a commendable program! As the ASPIRE Program Analyst and Access Specialist says about Peter, "Your care and passion for this position is clear. I love that you want to keep learning and growing in your role, including setting goals to increase your financial aid and scholarship knowledge over the coming year. Peter your passion for your student's success is inspiring. Ms. Skirvin, you are extremely fortunate to have Peter as your new ASPIRE Coordinator."

Unfortunately, Peter is leaving us after this year. He and his partner are looking to move into a retirement community. We will miss seeing his smiling face every day - *and the snacks!* His energy and organization are contagious, he will be greatly missed!

Nominated by: Principal Amy Skirvin, Waldport Middle/High School

Talking Points-Please contact me at Darleen.vanriper@firstgroup.com with any comments or questions

1. 45th Annual Don Allison State Safety Exercise

On June 3, 2023 the 45th Don Allison State Safety Exercises, aka Road-EO, commenced after a four-year break due to the pandemic. First Student Lincoln County was able to enter five contestants: Donald Ayarza (General Transit), Dave Boyce (General Conventional), Brandy Hewson (General Conventional), Shane Burke (General Transit), and Paul Johnson (Novice Conventional). The exercise course included events such as Left Turn, Diminishing Clearance, Curb/Stop Line, Student Loading and a written knowledge test. Donald placed 4th in his category and Paul Johnson placed second in his category. It was a beautiful day on the grounds of the Eugene First Baptist Church with lots of comraderie, Korean Short Ribs, Hulihuli Chicken, pot-luck salads, and a friendly competition spirit.

2. Safe Seating Practice

In the past, we brought a bus to the school if there was a need to practice safe-sitting. We are still available to do so; however, we all know that it sometimes takes a little more practice to master a skill. For those situations, Donald Ayarza, First Student Shop Manager, mounted a spare seat to a wooden base and delivered it to Toledo Elementary School, so students there could have the opportunity to practice sitting safely in their seats with their seatbelts buckeled correctly.

If other schools are in need of this practice seat, they are more than welcome to reach out to Darleen Van Riper at 541-336-5101 to request the use of the seat for those students who need that little extra support in becoming succesful riders.

3. First Student Summer Activities

It has become a tradition to end the school year with our employees and their families at a pot-luck event on 06/16/2023 at Beverly Beach State Park. It is another “Triple Charlie” event that translates to Chester’s Chicken at the Coast. Other events include a Lu’au, the Beachcomber Day Parade, and many Touch-a-Truck events throughout the county.

4. Driver/Candidate Comparison Report (as of 05/03/2023)

	5/9/2023		6/5/2023	
Lincoln County Bus Routes	73	Driver Shortage	73	Driver Shortage
Drivers on hand (as of 11/1/2022, LOA excluded)	55	18	55	18
Out of Town Drivers	3	15	3	15
Routes not currently serviced (combos)	14	1	14	1
Other Considerations:				
Cover Drivers positions not staffed	3	21	3	21
Route Monitor positions not staffed	0		0	
Drivers on LOA/FMLA/WC (Regular & Casual)	4		4	
Casual Drivers with limited availability	7		7	
LCSD & FS Staff (1 & 9) Available to Drive	10		10	

Please note that this information is subject to frequent changes.

May was a “quiet” month in regards to training. We still have seven candidates at varying stages in the program, and one of them will test on 06/08/2023. Once he is ODE qualified, he will take a route in the north. We continue to have several drivers out on LOA, and our OOT drivers will return to Seattle on June 15, 2023.

We are already looking at the next school year to see how we can best facilitate transportation with the number of drivers/candidates we are retaining and are hoping to gain.

5. Summer Recruiting

Our Summer Recruiting Events will include “Feet-to-Street” at local events, parades, farmers’ markets, and banner buses. This year we will also have banners in Spanish, so we can reach our spanish-speaking community members. We will need to make any applicants aware that is is currently federal law that all CDL holders must be able to speak and read English at a sufficient level. Sufficient is defined as speaking and reading English well enough to converse with the general public, understand traffic signs and highway signals in English, respond to official inquiries, and make reports and records in English.

Most schools are continuing to struggle to reach their pre-pandemic regular attenders' rate. Maximizing use of the Attendance Campaign materials and other Tier 1 (school-wide) actions is recommended, as there are far too many students to reach through the school's capacity for group or individual interventions.

- Each of our high schools will increase their 4-year cohort graduation rate by 3% (Baseline is the 2019 graduation rate).
- The goal will be reached when we get to 95% or greater for a four-year cohort graduation rate in all schools.
- Increase 9th grade on track at each high school by 10% per year.
- Increase Dual Credit attainment by 5% per year.

● **Continue to Align K-12 Advancement Via Individual Determination (AVID) Implementation and Strategies**

- Our classrooms will have evidence of AVID Academic Language and Literacy strategies being implemented on average between a level 2 and 3 on a 4 point scale.
- Walk through data will be used as a measure for this goal. Elementary and Secondary walkthroughs will also use literacy (reading, writing, listening/speaking) as measures.
- Data will includes 5-7 walkthroughs (by an admin) per teacher with analysis of the walkthrough generated data by elementary and secondary.

Increase Student Engagement</p> <ul style="list-style-type: none"> ● Increase enrollment stability across the district as measured by enrollment data collections monthly. ● Increase student academic engagement as measured by school by school and class by class observations and walkthroughs of instructional work in classrooms-measure student engagement of multiple types (AVID, etc.). ● Increase community engagement around student success as measured by community surveys two times this school year, attendance at community listening sessions/meetings during the year, participation on Site Council and other school or district based committees. ● Maximize the instructional value of the investment in “technology” via the full implementation of the Triple E Framework as measured by evidence of the use of online 	<ul style="list-style-type: none"> ● We are stable but are down 400 students. We lost student enrollment during the Pandemic and Wildfires and they never came back. 48% of the lost 30,000 Oregon students lived in LBL. ● Engagement is measured through the walk through tool in terms of PBIS and literacy. Teachers “Proficient” in those areas means they are engaging students in meaningful work. The buildings have additional student engagement measures. ● The Board engaged the entire community in public forums by area the week of Jan 30. The public was also asked to review our Integrated Guidance Application in Feb and March and to give feedback and concerns directly to the superintendent before the Board votes on March 14 on the Integrated Guidance Application that will then go to ODE for approval. ● This school year the EdTech Cadre (one teacher from each school, including Compass K12 Online School) are participating in a book study of “Learning First, Technology Second: The Educator’s Guide to Designing Authentic Lessons” which is a guide to implementing the Triple E Framework. The cadre and administrators continue to use the Triple E Framework rubric to evaluate the use of tech 	<ul style="list-style-type: none"> ● Nothing has changed in this area. We continue to be down by 400 students and thus reduced our overall FTE by 8.0 through attrition. ● 257 educators had at least one walkthrough and 136 have had at least 3. That is almost 50% of our educators with a fairly substantial group that do have traditional classroom walkthroughs as part of their practice such as specialists. Students continue to need great improvement in this area and this is achieved through teacher practice and skill using frameworks REGULARLY such as AVID. ● In the month of January 2023, the Board engaged every area of the LCSD in discussion with the newly selected Superintendent Elect Majalise Tolan. This engagement was substantial and the board gained valuable insights into community thoughts and ideas. ● Ditto to the comments on this section from the February Report. New Tech Director Bryan Freschi has been instrumental in pursuing how to engage all learners including staff in using technology as an effective tool for teaching and learning. Our goal is to reach the final E in the Triple E Framework: Engagement, Enhancement and Extension.

In addition to school wide staff training that is planned, this will create more momentum within each school toward using technology more efficiently.

No one attended. We have lost significant ground in Hispanic Family engagement in the district in a meaningful way. The change from one Hispanic Family Liaison to another has hurt the onward progression of our work. ● The workshop in May in Newport with families with trainers Sara and Maricelo Casky was excellent. About 7 families participated and were fully engaged in lessons on parenting, technology and navigating sex education. The work with the Casky’s should continue and be further extended into Lincoln City. ● The work of the LCSD Equity is outstanding and continuing to grow, expand and mature. We used the new Equity Lens Tool Policy AAA and AR to analyze our Expulsion policy JGE. Goals are to continue using the Tool whenever and wherever possible when making decisions about student learning, spending, discipline, etc. Marty Perez has been invaluable in this work.

One topic may be "Resetting Civic Norms".</p> <p>Goal Three: The LCSD to date this school year has completed many facility projects, keeping our high standards of warmth, welcome and maximum safety.</p> <p>Goal Four: This coming Fall 2023 the board will develop with their new superintendent a Political Action Committee looking towards a new bond in 2026.</p> <p>Goal Five: This winter the board led 4 different area community forums to meet and greet their superintendent candidate to the public. Also, our Hispanic Family meetings and workshops.</p>	<ul style="list-style-type: none"> ● Goal One: Our most recent scores on the summative assessment OSAS demonstrates our need to continue with Vigor and Fidelity the work we have begun in instruction, assessment, supervision and evaluation. Continued work with job-embedded, just in time and strategized professional development that matches and supports our academic goals must continue. Accountability to that work with high support is the way to improve our academic achievement in LCSD. The table is set. ● Goal Two: The work of the LCSD Board of Education in this area is well demonstrated with the annual Gathering of Leadership event that continues to improve each year. Work at the state level through OSBA and NSBA should continue. ● Goal Three: Tremendous work has been supported by the Board over the last 5 years. More than \$10 million dollars in grounds, building and classroom maintenance and improvement have happened without a bond. The district is in excellent condition top to bottom. ● The creation of a Political Action Committee in prep of a 2026 General Obligation Bond is a must. Cybersecurity

The purpose of information security is to protect the confidentiality, integrity and availability of district data as well as any information systems that store, process, or transmit district data, and protect the information resources of the district from unauthorized access or damage.

The underlying principles followed to achieve that objective are:

1. Information Confidentiality: The ability to access or modify information is provided only to authorized users for authorized purposes;
2. Information Integrity: The information used in the pursuit of the district objectives can be trusted to correctly reflect the reality it represents; and
3. Information Availability: The information resources of the district, including the network, the hardware, the software, the facilities, the infrastructure, and any other such resources, are available to support the objectives for which they are designated.

The requirement to safeguard information resources must be balanced with the need to support the pursuit of legitimate district objectives. The value of information as a resource increases through its appropriate use; its value diminishes through misuse, misinterpretation, or unnecessary restrictions to its access.

This policy and accompanying administrative regulation applies to all staff and third-party agents of the district as well as any other district affiliate, including students, who are authorized to access district data and to all computer and communication devices and systems that store, process, or transmit district data.

Cybersecurity

Throughout its lifecycle, an information system that stores, processes or transmits district data shall be protected in a manner that is considered reasonable and appropriate, as defined in documentation approved and maintained by the Information Technology Department, given the level of sensitivity, value and criticality that the district data has to the district.

Individuals who are authorized to access district data shall adhere to the appropriate Roles and Responsibilities, as defined in this administrative regulation.

Roles and Responsibilities

“Designated Information Security Officer (ISO)” means an employee designated by the superintendent to oversee the information security program. The ISO will be a senior-level employee in the district. The responsibilities of the ISO include the following:

1. Developing and implementing a district-wide information security program;
2. Documenting and disseminating information security policies and procedures;
3. Coordinating the development and implementation of required information security training and awareness program for staff and administrators;
4. Coordinating a response to actual or suspected breaches in the confidentiality, integrity or availability of district data and following statutory requirements;
5. Implement Multi-Factor Authentication (MFA) for logins; and
6. Implementing an IT security audit.

“Data owner” means a management-level employee of the district who oversees the lifecycle of one or more sets of district data. Responsibilities of a data owner include the following:

1. Assigning an appropriate classification to district data;
2. Determining the appropriate criteria for obtaining access to district data;
3. Ensuring that data custodians implement reasonable and appropriate security controls to protect the confidentiality, integrity and availability of district data;
4. Understanding and approving how district data is stored, processed, and transmitted by the district and by third-party agents of the district; and
5. Understanding how district data is governed by district policies, state and federal regulations, contracts and other legal binding agreements.

“Data custodian” means an employee of the Technology Department who has administrative and/or operational responsibility over district data. In many cases, there will be multiple data custodians. A data custodian is responsible for the following:

1. Understanding and reporting on how district data is stored, processed and transmitted by the district and by third-party agents of the district;
2. Implementing appropriate physical and technical safeguards to protect the confidentiality, integrity and availability of district data;
3. Documenting and disseminating administrative and operational procedures to ensure consistent storage, processing and transmission of district data;
4. Provisioning and deprovisioning access to district data as authorized by the data owner;
5. Understanding and reporting on security risks and how they impact the confidentiality, integrity and availability of district data;
6. Back up data daily; and
7. Force email and domain passwords to expire at least annually.

“User,” for the purpose of information security, means any employee, contractor or third-party agent of the district who is authorized to access District Information Systems and/or district data. A user is responsible for the following:

1. Adhering to policies, guidelines and procedures pertaining to the protection of district data;
2. Reporting actual or suspected vulnerabilities in the confidentiality, integrity or availability of district data to a manager or the Technology Department; and
3. Reporting actual or suspected breaches in the confidentiality, integrity or availability of district data to the Technology Department.

Classification of Information

Data classification, in the context of information security, is the classification of data based on its level of sensitivity and the impact to the district should that data be disclosed, altered or destroyed without authorization. The classification of data helps determine what baseline security controls are appropriate for safeguarding that data. All district data should be classified into one of three sensitivity levels or classifications: confidential, sensitive and public. In some cases, data could fall into multiple categories, i.e., salaries.

Data should be classified as confidential when the unauthorized disclosure, alteration, or destruction of that data could cause a significant level of risk to the district or its affiliates. Examples of confidential data include data protected by state or federal privacy regulations and data protected by confidentiality agreements. The highest level of security controls should be applied to confidential data. Examples: student data, evaluation and disciplinary records.¹

¹ These examples are for IT purposes and may not be consistent with record request and disclosure requirements.

Data should be classified as sensitive when the unauthorized disclosure, alteration or destruction of that data could result in a moderate level of risk to the district or its affiliates. By default, all district data that is not explicitly classified as confidential or public data should be treated as sensitive data. A reasonable level of security controls should be applied to private data. Examples: salaries and staff personal contact information.

Data classified as sensitive may be disclosable as public record under Oregon Revised Statute (ORS) Chapter 192. However, the sensitivity level of the data can warrant the assigned data classification and associated safeguard security controls.

Data should be classified as public when the unauthorized disclosure, alteration or destruction of that data would result in little or no risk to the district and its affiliates. Examples of public data include information intended for broad use within the district community at large or for public use. While little or no controls are required to protect the confidentiality of public data, some level of control is required to prevent unauthorized modification or destruction of public data. Examples: board minutes and policies.

Online Services and Applications

District employees are encouraged to research online services or applications to support the pursuit of district objectives. However, district employees are prohibited from installing or using applications, programs or other software, or online systems/websites that store, collect or share confidential or sensitive data, until the ISO approves the vendor and software or service. Before approving the use or purchase of any such software or online service, the ISO, or designee, shall verify that it meets the requirements of all applicable laws, regulations and board policies, and that it appropriately protects district data. This prior approval is required whether or not the software or online service is obtained or used without charge.

Implementation

The Technology Department is directed to develop operating policies, standards, baselines, guidelines and procedures for the implementation of this administrative regulations to include, but not limited to, addressing data encryption, logical access control, physical access control, vulnerability management, risk management and security logging and monitoring. Employees have an obligation to learn about cybersecurity.

Expulsion

A principal, after reviewing available information, may recommend to the superintendent that a student be expelled. Expulsion of a student shall not extend beyond one calendar year.

A student may only be expelled for the following circumstances:

1. When a student's conduct poses a threat to the health or safety of students or employees;
2. When other strategies to change the student's conduct have been ineffective, except that expulsion may not be used to address truancy; or
3. When required by law.

The use of expulsion for discipline of a student in fifth grade or lower is limited to:

1. Nonaccidental conduct causing serious physical harm to a student or employee;
2. When a school administrator determines, based on the administrator's observations or upon a report from an employee, the student's conduct poses a direct threat to the health or safety of students or employees; or
3. When the expulsion is required by law.

The age of the student and the past pattern of behavior will be considered prior to imposing the expulsion.

No student may be expelled without a hearing unless the student's parents, or the student if 18 years of age, waive the right to a hearing, either in writing or by failure to appear at a scheduled hearing.

The Board delegates the authority to decide on an expulsion to the superintendent. The superintendent may designate another person to handle the potential expulsion, and the superintendent, a designee or another individual may act as the hearings officer. The district may contract with an individual who is not employed by the district to serve as the hearings officer. The hearings officer will not be associated with the initial actions of the building administrators. The hearings officer will conduct the hearing and make a final decision regarding the expulsion. A decision of the hearings officer may be appealed by the parent or the student if age 18 or over to the Board for review.

If the decision of the hearings officer is appealed to the Board for review, the findings as to the facts and the hearings officer's decision will be submitted to the Board, and will be available in identical form to the Board, the student and the student's parents at the same time. At a future meeting, the Board will review the hearings officer's decision and will affirm, modify or reverse the decision.

When a recommendation for an expulsion is made and a hearing is not waived, the following procedure is required:

1. Notice will be given to the student and the parent by personal service¹ or by certified mail² at least [five] days prior to the scheduled hearing. Notice shall include:
 - a. The specific charge or charges and the specific facts that support the charge or charges;
 - b. A statement of intent to consider the charges as reason for expulsion;
 - c. The student's right to a hearing;
 - d. When and where the hearing will take place; and
 - e. The student may be represented by counsel or other persons.
2. If the parent or student does not understand the English language, the district will provide an interpreter during the hearing. All communications will be in a manner that is understandable to the parents and student;
3. The student shall be permitted to have representation present at the hearing to advise and to present arguments. The representation may be an attorney, parent or other person. The district's attorney may be present;
4. The student shall be afforded the right to present their version of the events underlying the expulsion recommendation and to introduce evidence by testimony, writings or other exhibits;
5. The student shall be permitted to be present and to hear the evidence presented by the district;
6. The hearings officer or the student may record the hearing;
7. Strict rules of evidence shall not apply to the proceedings. However, this shall not limit the hearings officer's control of the hearing;
8. A Board-conducted hearing or a Board review of the hearings officer's decision will be conducted in executive session unless the student or the student's parent requests a public hearing. If an executive session is held by the Board or a private hearing held by the hearings officer, the following will not be made public:
 - a. The name of the minor student;
 - b. The issues involved, including a student's confidential records;
 - c. The discussion;
 - d. The vote of Board members, which may be taken in executive session when considering an expulsion.

Prior to expulsion for reasons other than a weapons violation, the district must notify the student and parents of alternative programs of instruction or instruction combined with counseling and document this notification.

11.a.1. Appropriations Transfer

Resolution 2022/23-6
2022-23 Resources Transfer

Oregon budget law requires that appropriation levels (instruction, support services, enterprise and community services, capital projects and debt service) must not be overspent. In accordance with ORS 294.450, budget law allows the Board of Directors to authorize transfers of appropriations and/or resources after declaring the need, purpose and amount of the transfer.

When the 2022-23 District budget was created, funds were set aside in the Capital Construction Fund (\$555,000) and Building Maintenance Fund (\$590,000) as unappropriated ending fund balance in order to provide cash for the start of the 2023/24 year. Additionally, when budgeting, several projects anticipated for the summer of 2023 were not scheduled to begin until July and it was anticipated that the UEFB would be used for those projects. Many of those projects were begun earlier as the crews became available.

Recently, several construction projects have become necessary or were prudent to begin before the fiscal year end. The District received a seismic retrofit grant for Yaquina View Elementary and wishes to begin the accompanying office remodel and installation of a safety vestibule in late May, in advance of the seismic work, rather than putting off the entire project until the summer of 2024/25. Additionally, private office spaces were needed at the TLC and a reception area is being created in order to manage the large number of meetings at the TLC. Last summer more extensive remodeling was needed than originally planned to relocate the K-12 Online School from a Newport High School classroom into a larger space at the Arcadia campus.

In order for these projects to be completed this fiscal year, staff recommends moving \$1,145,000 in appropriations from General Fund Contingency to General Fund Transfers and transferring those appropriations and resources to the Building Maintenance Fund. The amount of transfers to the Building Maintenance Fund in the 2023-24 Proposed Budget has been reduced by this amount since the UEFB will become available July 1st. Because general fund transfers are usually not made to the Capital Construction Fund and were not budgeted, expenses of up to \$555,000 in that fund will be moved to the Building Maintenance fund.

Resources and appropriations are more than adequate at this time to make this transfer and also meet the Board Policy requiring a 7% minimum ending fund balance in the General Fund, as well as allowing transfers to other special revenue funds at year end. The General Fund Excess ending fund balance available for transfer is currently \$9,875,000 with \$3,750,000 of that available as Contingency funds.

Recommended for transfer are the following appropriations and resources within the named funds:

	<u>Increase</u>	<u>Decrease</u>
General Fund		
– Transfers Out	\$1,145,000	
– Contingency		\$1,145,000
Building Maintenance Fund		
– Transfers In (Revenue)	\$1,145,000	
- Facilities Acquisition & Construction	\$1,145,000

The FSMC shall list on the invoice the value of commodities received, for the period and deduct the amount of value from the total owed by LEA for the NSLP meals served. The value of commodities for

6.2 Invoice Due Date. Invoices submitted to the LEA by the FSMC will be paid according to the LEA's "Accounts Payable Cut-Off Schedule," attached as Appendix E. If invoices are received in the LEA's Accounting Department by the cut-off date, and they pass audit, payment will be made on the release date listed on the schedule. The FSMC will be notified immediately of any invoice that does not pass audit. The LEA shall pay all amounts when due. If the LEA does not make a payment when due, the FSMC may charge interest or a late fee on the past due receivable; however, the LEA may not pay the interest or late fee with funds from the nonprofit school food service account funds, pursuant to 7 CFR 210.16(c).

For the avoidance of doubt, the financial guarantee shall be calculated as follows: all program revenues including student cash sales, federal and state reimbursements from lunch, breakfast and snack meals, adult sales, special functions, and summer meal program revenues and the values of commodities received less (i) the Fixed Price for all meals served, and (ii) LEA labor and other program expenses as outlined in FSMC's Financial Pro Forma. If the program experiences operating losses, the FSMC shall be required to reimburse the LEA in an amount commensurate with the variance of those costs that are within the control of the FSMC.
