Hi Majalise,

One of your teachers was recently recognized with a 2024-2025 Impact Spotlight for their impact with their students!

I was genuinely inspired by their submission and wanted to share an excerpt with you, too, as you welcome back your teachers and prepare for further impact this year.

"I use Wayground to find and create curriculum resources, differentiate instructional materials, and support English learners. It's easier for students to work independently, especially when there is a sub. **Students are more prepared with notes and know they are held accountable for their learning.**"

— Julia Westbrook, Ninth Grade Teacher, Taft High School, Lincoln County SD

FIRSTstudent Transportation Update

Lincoln County School District
Board Meeting General Session, September 9, 2025

Date: September 04, 2025

Dear: LCSD School Board & Transportation Leadership,

The school year is already in full swing, and we are renewing our relationships with our returning students but also building new ones with new students. We are reteaching school bus rules and working diligently with all students, so we can be safe and respectful together.

Driver staffing

We are working diligently to increase the applicant flow through recruiting campaigns.

- FY 26 Wages: $22.45 – $27.91
- Hiring Bonuses of $3500 for CDL S/P endorsed drivers
- Hiring Bonuses of $2000 for non-CDL S/P endorsed drivers
- Paid Training
- $500 Employee Referral Bonus

The data on the left represents current driver availability and route count based on student registrations, and drivers intentions to return. We continue to receive registrations and transportation change requests that sometimes lead to significant route changes and

Recruiting

With school-start preparations and the beginning of school, our focus shifted towards a successful launch of SY 2025/2026. During the first two days, we experienced “growing pains” with many parent calls, delayed routes and a few misplaced students who were quickly found (they were either loaded to the incorrect bus or visited with friends instead of going straight home after getting off the bus.

We encountered a few hiring issues due to the closure of South Beach Security and Samaritan Health currently not providing DOT Physical & Pre-employment Drug Screening services. We have found alternative ways to move candidates through the federal and state requirements

Customer issues/ resolutions

- **Driver Shortage:**
  - Our pipeline remains healthy; however, there are many candidates who test out of the program due to failing their background or drug test.
  - FirstAlt remains an opportunity that can help us with the transportation of students in various programs (HELP, MV) and students with special needs. With routing in full swing, we are identifying true needs for this service.

Noteworthy Successes

- This year, we were able to represent First Student at all Open Houses. During these events, we shared information about routing and FirstView 1.0. Families appreciated our presence, and we enjoyed connecting with the community on this level.
- Now that our buses are rolling regularly, our drivers are identifying minor issues with their buses that ODE labels as 30-day fixes. Our technicians do not wait 30 days…they get to the complaints usually the same week if not the same day.
- The three new additions to the fleet have been registered and will be on the road very soon. We will rotate the Type 20 buses, so that the schools who use their vehicles more frequently receive the new buses, while the ones with more mileage will go to the schools that use them less often. This process insures that the vehicles age at a balanced rate.

Technology Updates

- **First Planning Solutions** – Our routing software, Versatrans, is used by transportation staff in schools and by our routers. A security feature of the system requires the users to log in frequently. If a user does not log in for thirty days, their account is disabled, and FPS Support must be contacted to enable access. Many school staff do not log into Versatrans over the summer, so when they return to school, many accounts need to be enabled, and a new password is issued. This process is easy and usually has a 24-hour turn-around.
- **R2X**- Route Change Request Tool- Until 08/22/2025, we pulled the transportation data for registered students from Synergy to build routes. After that deadline, school staff began to use R2X to add new students and changes to existing transportation plans to the routing queue. In the beginning of the school year, we ask for up to 10 days to route students; however, our team is so efficient with Versatrans, that most requests are fulfilled within a few days if not even the day the request is received.
- **First View District Dashboard and Parent Tracking App**- During the summer, FirstView was upgraded. Users of the old platform were notified about the upgrade and how to switch over to the new dashboard that has become more intuitive and user friendly. As we get closer to route completion, parents will receive detailed instructions on how to switch to the updated ParentApp. As always, we will be available to help with any issues that may arise.
- **Driver Hub** – Driver turn-by-turn directions and onboard job aid. In the beginning of the school year, routes are never accurate and change with each request that comes through R2X. Since DriverHub updates routes every Wednesdays, the tablets are not always 100% correct. As the registrations ease up, routes become more regulated, and the DriverHub tablets become a useful tool for drivers and monitors.

Routing updates

- During this year's routing season, we have an increased number of students who qualify for cross-border transportation. We route these students as efficiently as possible, so they do not end up riding the bus for more than an hour. Sometimes families live so far away from their schools that it is not possible to stay within the hour ride. We continue to hire and train van drivers, so we can shorten these trips, and the use of FirstAlt would allow for an even more efficient transportation plan for some of the travelling students.

Latest news

- FirstAlt provides an alternative to the yellow fleet. Here is a little more information about the service.
- FirstServes provides structured planning and support to bridge the gap between the classroom and the school bus. Having gone through the training, I believe that this service not only benefits our students with special needs. The concepts and tools become invaluable for any group of riders, allowing drivers and monitors to be more in tune with their passengers while being better equipped to prevent issues on the bus.

Important dates

- 09/05/2025-Stuff-a-Bus in Lincoln City at the Mall.
- September 2025-All LCSD Fall Evacuation Drills are scheduled for all areas to be compliant with ODE Regulations.

To the entire Nutrition Services team, thank you for all you do!!

Grow Lincoln County summer interns completed the amazing new hoop house classroom space at Toledo Jr/Sr High garden! This will be an amazing year round opportunity to learn and grow. This, in addition to garden beds and the small orchard, utilized an otherwise unused space and created a fantastic hands-on learning space. Food grown will go into school meals.

7.b. Superintendent Evaluation Goals

2025-26 Superintendent Evaluation Report – Dr. Majalise Tolan, Lincoln County School District

Key: 4 = Accomplished 3 = Effective 2 = Developing 1 = Needs Improvement

The 2025-26 evaluation of Superintendent Tolan includes two data sources – 1) the Superintendent's self-evaluation, and 2) the board's direct observations and experiences with the Superintendent.

The Table below shows board members' ratings on the Superintendent goals and the eight national performance standards for superintendents and the average score for each. The highest rated standard was XXXXX with a consensus score of XXX. The lowest rated standard was XXXXX with a consensus score of XXX. All other standards, and both goals, had consensus ratings of XXX.

To: Lincoln County School District Superintendent, Dr. Majalise Tolan and the LCSD School Board
From: Siletz Valley School Interim-Superintendent, Debra Barnes
Re: Charter and Lease Agreements and Charter Law Compliance Concerns

Dr.Tolan and the LCSD School Board,

This letter serves as our response to the formal notice of concerns dated July 21, 2025, regarding Siletz Valley School's compliance based on the Oregon School Board Association's 2023 report with the LCSD Charter Agreement, LCSD lease agreement and the Oregon Charter Laws.

First, we would like to thank LCSD for their continued support of our students and the programs that make Siletz Valley School such a valuable asset to the county school district. SVS also feels it's important to state that while the Interim Superintendent is capable of providing all necessary goals, guidance, and follow through for this response, an active search is underway to find a Superintendent. We are hopeful that these statements can be updated and/or changed based on new incoming leadership, if necessary.

1. SVS stated that an ELL plan was not applicable; however, all schools should have an ELL plan ready in case a student enrolls who qualifies for services. ELL students now attend SVS and current ELL plan implementation must be monitored.
    a. *SVS has created a draft English Language Learner Plan. They are confirmed to work with Kim Miller at ODE to ensure completion of the state template.This is a year long training to create the plan and enter data into the ODE template. After the plan is finalized and board approved, it will be placed on the school website. This is a fluid document and all components will be updated as needed.*

2. Teachers' licensure has continued to be found out of compliance with TSPC. All teacher licenses must be compliant with TSPC and charter law at all times, effective immediately.
    a. *SVS was found to have two teachers during the 2024-2025 school year, without proper licensure. This was immediately addressed by conferring with both educators, placing licensed personnel in the classrooms during instructional time, and filing complaints with TSPC to advise of failure to be compliant. TSPC has responded that no further action was necessary. Both educators immediately filed to have licenses renewed and both have been issued current licenses with TSPC.*

   b. *SVS compiles all educator license expiration dates at the beginning of each school year. To add an extra layer of checks and balances, emails were sent to staff with license expirations before December. In addition, during teacher inservice, all teachers were asked to look up their license expiration and email the Superintendent to add to the documentation.*
   c. *SVS is implementing Frontline for the 25-26 school year. This system allows teachers the ability to check their license dates.*

3. Bylaws need to be updated. While this has been in process, it is unclear whether it has been completed and if bylaws and policies are maintained and publicly accessible. A copy of the updated bylaws must be provided to LCSD, and all bylaws and policies must be updated and accessible to the public.
   a. *SVS Bylaws were updated May 2024. A copy of the most recent version has been added to the school website (www.siletzvalleyschools.org). An amendment to the bylaws is reflected in the May 28, 2024 board meeting minutes. Policy updates have been conducted through multiple board meetings and with OSBA. SVS was advised that policies were up to date by their OSBA policy contact during Summer 2025. A link to the current policies is located on the school website in the School Board tab.*

4. Facility concerns reported to LCSD by the SVS Board on May 5, 2025 included: Leaking ceilings, old pipes throughout the building, football grandstands are nearly condemnable, gyms are badly out of repair and need new siding (and likely more), ADA access needed, rusty fences, old heating (boiler needs to be replaced), single pane windows, doors that don't properly lock if active shooter protection is needed, bathrooms throughout need upgrading (like in LCSD schools). Pursuant to the charter and lease agreements, SVS is responsible for the maintenance and upkeep of the facility. In 2024, LCSD provided SVS with a long-term facility study. It is SVS' responsibility to develop, implement, and monitor its own long-term facility maintenance plan.
   a. *SVS recognizes the need for an extended facility plan for 1, 5 and 10 years. A draft plan has been started based on the 2024 Facility Survey completed independently by the previous Superintendent. It is being reviewed by our Facility/Maintenance Supervisor. We will be prioritizing health and safety issues first. Currently, the roof over the boiler room is being replaced and quotes are being received to have the grandstands updated. The Sheriff Department's SRD visited to do a quick walkthrough of the school. The SRD and Fire Department will be returning to do an environmental security walkthrough within the coming months. A plan will be submitted by the end of Quarter 1 (October 31, 2025)*

5. Deliverables and required reporting (federal and state grants, and district programs) continue to be untimely, necessitating repeated reminders from LCSD staff. All reporting deadlines must consistently be met and documented.
    a. *SVS recognized this as an issue and restructured their administrative team on June 3, 2025. As of August 15, 2025, SVS is current on all federal, state, and tribal grant requests. SVS and the SVS School Board will continue to monitor the dates of grant submissions and reporting to ensure that all dates are met and documented. A past spreadsheet with timelines has been resurrected to help with this organization of dates.*

6. Although a comprehensive plan to improve academic performance is in place, focused particularly on the areas which caused the State to designate SVS as a Targeted Support and Improvement School (TSI**),** most results have remained at Level 1, based on 2023-2024 ODE reporting. TSI results must show adequate improvement either through an increase to a Level 2 in all categories or similar progress on a nationally normed, locally administered, internal assessment (EasyCBM, Acadience, SBAC, DIBLES, iReady, etc.) Benchmarking and progress monitoring from local assessments must be reviewed with LCSD administration quarterly.
    a. *Benchmarking and progress monitoring has consistently been reviewed with the SVS Board, however SVS recognizes the need for further attention and review of the academic data. Interim Superintendent Barnes and Superintendent Tolan met to review the assessments given at SVS and the quarterly review that will be begin to increase scores at SVS. SVS is working with LCSD data experts to understand how the data can be pulled and used to increase student achievement. SVS did spend targeted time and effort in increasing student achievement during the 2024-2025 school year. They are hopeful that the data reflects the effort.*

7. SVS previously established a goal to increase attendance. However, as of June 2025, SVS' regular attendance rate was 39.9%. An improvement plan must be drafted and submitted to LCSD. The plan must be comprehensive and may include strategies such as specific parent outreach, modification of the school day and/or school year calendar, and dedication of resources to ensuring that students are attending school. The plan must include specific dates for implementation of each component, as well as specific quantitative targets and dates for meeting each of those targets.
    a. *The SVS Attendance goal for the 24-25 school year was 56.7%. SVS did suffer a significant loss and experienced a traumatic event in March 2025 that impacted the entire community and many students in all grades.*

b. SVS staff is working together during inservice week to create a plan to meet the 57% goal for 25-26. Staff met on 8/18 to review data and gather input. SVS will continue with grade-level band meetings to discuss a 1st quarter plan and annual goal. SVS is working with ODE to receive coaching in Equitable Mindsets, Systems and Practices. SVS also works directly with the TAPP program to increase attendance and work with tribal families.

8. While the SVS graduation rate had been reported by ODE at 100%, due to other metrics reported and the fact that SVS has been designated as a Targeted Support and Improvement School, the accuracy of this information needs to be verified and any supporting evidence must be cited and documented. The 2023-2024 graduation rate reported by ODE was 67%. The 9th Grade On Track rate was 78% (an improvement from the 2022-2023 rate of 28%). Both of these data points need monthly monitoring and documentation.

a. *SVS has experienced a lot of turnover in the personnel that worked directly with Seniors regarding graduation from 2019-2023.*
b. *The 23-24 class had 14 Seniors with two students unable to graduate. This is 85.71%*
c. *The 24-25 class had 22 Seniors, 1 Junior on Modified and one 12+. Two seniors did not graduate, as they came to SVS with significant credit deficiencies and are set to graduate this year as 12+ students. 91.67%*
d. *SVS is seeking assistance from LCSD as to how those numbers are reported. The next ODE summary has improvements listed in these areas.*

9. SVS must ensure that financial reporting is timely. Long-term financial health indicators continue to need to be examined. It is uncertain if grant funds, Siletz Tribal Charitable Trust and Charter Equity are budgeted accurately for the 2025-2026 school year. Updated budget documents must be submitted with a narrative providing clarity around anticipated funds.

a. SVS acknowledges that the financials were not being sent to LCSD on a monthly basis.
b. The 5/20/2025 adopted budget for charitable contribution fund was budgeted at $376K for the 25-26 SY. An award for the full amount has been received and budgeted accurately.
c. Charter Equity - although the state has indicated likely reductions between 40-50%, SVS has not received the new official grant award amount In anticipation of the reduction, SVS has taken steps to pause consumable spending and not fill a budgeted position in Charter Equity as preparation.
d. The website has been updated and the budget for this year has been added.

10. Oregon Public Meetings Laws must be followed, including but not limited to timely meeting notice and agenda publication, public posting of minutes, and recordings of meetings. From this point forward, SVS must document its compliance for every board meeting, and submit this documentation to LCSD on a monthly basis.

Siletz Valley School

a. *The new SVS website (www.siletzvalleyschools.org) went live August 5, 2025. With this launch, the board meetings, agendas, minutes and some recordings have been uploaded to the website. In addition, SVS School Board has all new members and has received the Essential Skills Training by OSBA on August 13, 2025. SVS will continue to learn and seek assistance from OSBA, COSA and OGEC for compliance guidance.*
b. *SVS School Board has been invited to attend LCSD Board Training on August 26, 2025. and is planning to attend.*

In accordance with the charter and lease agreements**,** LCSD stands ready to support SVS in these required steps toward improvement and compliance. However, due to the timing of these findings, the lack of consistent leadership, and the imminent start of a new school year, SVS must comply with all requirements and submissions set forth above within 30 calendar days of the date of this letter.

After SVS' initial submissions, SVS superintendent and administration must meet with LCSD monthly to review compliance with the requirements set forth above. These monthly meetings must continue for 24 months**.**

SVS understands the requirements of the lease and charter agreement. Thank you for accepting this submission. SVS looks forward to working with LCSD for the betterment of all students in our community and county.

Best Regards,
Debra Barnes

Issue: Indexing of School Construction Tax Limits
Statute Reference: ORS 320.170
Last Updated: 7/14/2025

Background:
Passed in 2007, SB 1036 allowed school districts to impose a tax on new construction measured by the square footage of improvements (affordable housing, public buildings, agricultural buildings, hospitals, private schools, and religious facilities are exempt). SB 1036 defined and required revenues to be used for capital improvements. Construction taxes imposed by a school district must be collected by a local government, local service district, special government body, state agency or state official that issues a permit for structural improvements regulated by the state building code. An intergovernmental agreement with local governments collecting the tax is required and collection expenses are limited to 4% of tax revenue. DCBS is allowed to establish an administration fee of .25% of tax revenue. School districts with construction tax revenue are required to develop long-term facility plans. Construction taxes may be used for repayment of capital improvement debt.

Tax Limit Calculations:
SB 1036 set tax rate limits of $1 per square foot for residential use and $0.50 for nonresidential use, along with a $25,000 tax limit on nonresidential properties. Beginning in 2009, tax rates were indexed to inflation using the Engineering News-Record Construction Cost Index. As prescribed in statute, DOR is responsible for updating tax rate limits and notifying affected districts. To notify affected districts DOR has partnered with Department of Education who receives updated limit calculations from DOR and notifies the affected districts.

Tax rate limits by fiscal year:

Fiscal Year	**2023-24**	**2024-25**	**2025-26**	**2026-27**
Residential*	1.56	1.63	1.67	1.70
Non-Residential*	0.78	0.82	0.84	0.85
Non-Residential Max	39,100	40,800	41,800	42,400

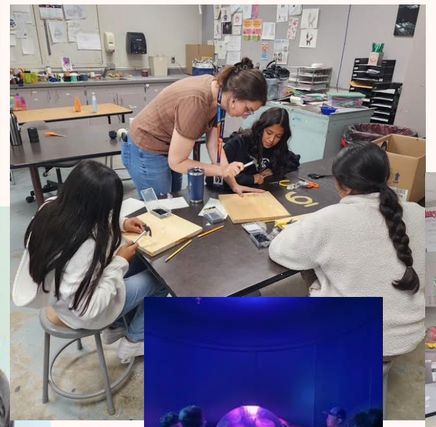
Literacy focus: Reading literature 1: Drawing inferences through community reading.



Daily: Students read “The Parker inheritance” daily and discussed inferences in the novel. They also practiced inferences in writing, science, and math.

Activities: Surfing, kayaking, tie-dying, STEM, bike riding, swimming, cooking, behind the scenes at the aquarium, design and glaze clay mugs, design and build wood & string art, and a mock election.

Student growth: Pre and post tests given to measure growth.

Results: 8% increase in RL 1 standard in three weeks.

Taft 7-12

Our vision is a **fun**, **inclusive** program that builds **confidence** and **literacy**, honors student voice and language, and sends kids back to school with **stronger skills,** fresh **curiosity**, and a real sense of **belonging.**

Students spent three weeks **learning** by doing—**exploring** our coast (hikes, kayaking, waterfalls, glass blowing, aquarium) and then digging into **high-interest** books, discussions, and mini-research that **connected** directly to those **experiences** at a range of reading levels.

Great news: 79% of students showed **growth**. On the pretest, 33% were **proficient**, and that rose to 62% on the post test—a 29-point jump. That tells us most kids moved **forward** and many crossed the proficiency line, which is exactly the **momentum** we were aiming for.
