Once the student account falls below \$4.00 they will be told that their funds are running low and asked to let their parents know to add more funds to their account so they do not accrue charges. Once the student starts accumulating charges a letter will be sent home with elementary students and a note given to the intermediate students. All parents with a valid e-mail will receive notification that their child's account is in the negative. If the child account exceeds the \$8.90 charge limit the student will receive an alternate meal until charges are paid in full. The parent will be notified on a daily basis until the account is brought back into good standings. Students will be allowed to purchase a meal if the student pays cash. The first of May, all charges will be cut off and all negative accounts will be paid in full before the last day of school.

Health Services

“Permission for Administration of Medication” form must be completed and signed by a physician and parent/guardian before a student can take any type of medication at school. All medications must be taken to the nurse’s office. A medication form is required for each medication taken at school. No over-the-counter medication will be given at school. **A new form must be completed each year.** The nurse must have a current Child Health Assessment on file and students must be current on their immunizations. You will be notified if found noncompliant.

Immunizations

Students attending school in U.S.D. 457 are required to be immunized according to current state immunization requirements. Students not complying with the immunization requirements shall be refused admittance to classes and this policy shall be enforced through the provisions of the compulsory attendance law. KCI Form B Medical Exemption must be completed by a physician. NOTE: The parents and guardians of exempt students should be informed their students will be excluded from school in the event an outbreak of vaccine preventable disease occurs.

Head Lice Information

Kansas Administrative Regulation 28-1-6 states each student infested with lice shall be excluded from school until treatment with an antiparasitic drug.

Many parents have the impression that only persons who are unclean become infested with lice. In the case of head lice, this is NOT true. Frequent bathing and shampooing will neither prevent nor eliminate head lice. The head louse is an insect which lives on the human head. The female lays eggs called nits which are stuck to the hair very tightly. The eggs hatch in approximately one week, therefore it is necessary to remove all nits to prevent continuous infestation or re-infestation when the nit hatches. The most common symptom of pediculosis (head lice) is itching. (Head lice shampoos are affective only on live lice and do not destroy the nits.)

Head Lice CANNOT fly or jump. Studies have shown that transmission at school is rare and no more likely to occur than in any other social setting such as community group settings, Movie Theater, shopping centers, etc. Animals are not involved in head louse transmissions. Head lice are usually transmitted through household contact by sharing beds and living space; through sharing combs, brushes, hair extensions, and other grooming aids; through sharing hats, caps, or coats.

It shall be the responsibility of the parent to purchase head lice shampoo and follow directions for treatment, remove nits, and make arrangements to have student checked by the school nurse for authorization for re-admittance to school. If student is not readmitted within three calendar days, the absence then shall be unexcused and the district shall be guided by the provisions of Policy JB (student attendance).

If you suspect your child has head lice please see your school nurse for examination and additional information.

Transportation

If the student qualifies for transportation the school district will provide the student’s transportation.

If a student is found to need special accommodations, the driver will notify the Director of Transportation and they will contact parents to discuss transportation modifications. Any questions regarding transportation please call 805-8750.

Weather

Students are to follow the inclement weather orders of USD #457. If school is called off due to inclement weather the local radio and TV stations will be notified. Please have your student dressed appropriately for the weather.

Dress Code

1. All shorts, dresses & skirts must be longer than tip of fingers when arms are held down at the side.
2. No bike shorts unless covered by proper clothing.
3. No see-through clothing.
4. Appropriate logos or wording on clothing (no profanity, references to alcoholic beverages, tobacco products, illegal activities, drugs, gang activity or affiliation, etc.)
5. No hats, caps, hairnets, scarves, headbands, or other head coverings are to be worn or carried on school grounds between the hours of 7:00 a.m. to 4:00 p.m. (Administration discretion during inclement weather.)
6. No shoes with wheels.
7. No jewelry that resembles drugs or illegal substances or that is affiliated with gang activity is to be worn at school.
8. No sagging or bagging will be allowed. Trousers/slacks are to be worn at hip level. Pants that will not stay up at hip level without a belt (and are not being worn with a belt at the hip level) are considered sagging/bagging.
9. No chains hanging from pants. No jewelry that could be used as weapons, such as jewelry with spikes.
10. No tank tops or halter tops. Sleeveless shirts must cover to the edge of the shoulder and armholes must fit tightly around the arms. Necklines must not reveal cleavage. All shirts must be long enough to tuck in or if worn out – cover waistband of pants. Shirts will be considered too short if they expose flesh while the student is sitting or walking. Shirts must have complete backs – no holes, cutouts, or strings.
11. Overall straps and suspenders must be fastened correctly over the shoulder.
12. No bandanas or kerchiefs worn or carried.

Fresh air -- fresh minds! During the winter months recess is an "outside" activity when possible. Children will not be exposed to intolerable weather conditions, nor will it be an endurance test to see who can brave the elements. If the temperature is below 32° and the wind-chill is below 20° we will have indoor recess. It is important, however, to get outside for fresh air whenever weather permits. Please send your children to school with the appropriate clothing: gloves, mittens, coats, sweaters, scarves, stocking caps, snow boots, etc. If your child must remain indoors, please be sure the teacher has been notified with doctor's note.

Disruptive Items

USD #457 administration and staff are not responsible for valuables that students bring to school. **Backpacks, electronic pagers, toys, hats, necklaces, sunglasses, CDs, telephones, and any other item that staff deem disruptive are not permitted at school.** Staff will collect items that disrupt the education of students or others. These items will be returned when the parents can come pick them up.

Alcohol, tobacco, illegal drugs, weapons and dangerous items are prohibited. This includes toy guns or toy weapons.

If students are in possession of such items parents will be contacted immediately and the students will be suspended for a minimum of one day.

Telephone Use

The school phone is a business phone. Messages are taken for non-emergency situations.

Fire, Tornado, and Crisis Drill

These are regularly scheduled drills throughout the school year. Each student should become familiar with the exit procedures for each classroom. There are emergency exit routes posted by each doorway. In the event of a crisis (drill or real) all doors will be locked and no one will be allowed to enter until an all clear has been given.

Acceptable Computer Use Guidelines USD 457

The computers in this school are to be used to enhance the educational opportunities of the students in Garden City School. It is important that staff and students are aware of the law and local policies governing computer use and ethics. Parents must sign an Acceptable Internet Use form that will be kept on file.

Calm-Down Policy

The purpose of a calm-down area is to help the student regain control. A student who is not under instructional control and/or is in danger of hurting himself/herself, others, or personal property will be directed or physically assisted to a calm-down area.

Behavior Expectations

All students attending school are expected to conduct themselves in a manner that is safe. A student who becomes a danger or is destructive to property may be physically restrained and/or removed to an area that has been deemed safe.

Pick-Up and Drop off Procedure

AM students should be dropped off no earlier than **8:15** and PM students no earlier than **1:15**. Parents and students will enter and exit from the east or south doors only.

Parents are expected to walk their children into the building when they are dropping them off. For safety reasons no students should enter the building alone. AM and PM students will be picked up at their classroom door. Parents need to wait until the bell rings. The teacher will open the door and release students to parents. All students need to be signed out.

If you are picking your student up before class dismisses you must stop at the front office to sign them out. If you are over **10** minutes late picking up your student they will be in the office. When picking up your child you must sign them out. **Students will not be released to any adult that is not listed on the emergency contact list.** Please contact the office if you would like to add or remove any individuals to your child emergency contacts.

Parking

For the safety and welfare of the staff and students please follow all traffic signs in the parking lots and street. Make sure you do not double park or park in the bus zones. **Handicap parking is for families and staff with a handicap tag.**

Holidays and Birthdays

(If you do not celebrate Holidays please inform your students' teacher so they are aware.)

The decision to have a classroom **Holiday** party is up to each teacher. Please check with them. Due to sanitation and safety concerns, students and staff are prohibited from bringing non-prepackaged food items into the school to share with students. **Treats must comply with the districts wellness policy. We do not allow cake or cupcakes for a child's birthday. Please bring prepackaged snacks that are healthy.**

GAAF Emergency Safety Interventions (See-GAO,JRB,JQ,and KN)9/12/16 **GAAF**

The board of education is committed to limiting the use of Emergency Safety Intervention ("ESI"), such as seclusion and restraint, with all students. Seclusion and restraint shall be used only when a student's conduct necessitates the use of an emergency safety intervention as defined below. The board of education encourages all employees to utilize other behavioral management tools, including prevention techniques, de-escalation techniques, and positive behavioral intervention strategies.

This policy shall be made available on the district website with links to the policy available on any individual school pages. In addition, this policy shall be included in at least one of the following: each school's code of conduct, school safety plan, or student handbook. Notice of the online availability of this policy shall be provided to parents during enrollment each year.

Definitions

"Campus police officer" means a school security officer designated by the board of education of any school district pursuant to K.S.A. 72-8222, and amendments thereto.

"Chemical Restraint" means the use of medication to control a student's violent physical behavior or restrict a student's freedom of movement.

This term includes a campus police officer.

"Legitimate law enforcement purpose" means a goal within the lawful authority of an officer that is to be achieved through methods or conduct condoned by the officer's appointing authority.

"Mechanical Restraint" means any device or object used to limit a student's movement.

"Parent means: (1) a natural parent; (2) an adoptive parent; (3) a person acting as a parent as defined in K.S.A. 72-1046(d)(2), and amendments thereto; (4) a legal guardian; (5) an education advocate for a student with an exceptionality; (6) a foster parent, unless the student is a child with an exceptionality; or (7) a student who has reached the age of majority or is an emancipated minor.

and peers; and (3) the student is prevented from leaving, or reasonably believes that he or she will be prevented from leaving the enclosed area.

“Time-out” means a behavioral intervention in which a student is temporarily removed from a learning activity without being secluded.

Prohibited Types of Restraint

All staff members are prohibited from engaging in the following actions with all students:

- Using face-down (prone) physical restraint;
- Using face-up (supine) physical restraint;
- Using physical restraint that obstructs the student’s airway;
- Using physical restraint that impacts a student’s primary mode of communication;
- Using chemical restraint, except as prescribed treatments for a student’s medical or psychiatric condition by a person appropriately licensed to issue such treatments; and
- Use of mechanical restraint, **except**:
 - Protective or stabilizing devices required by law or used in accordance with an order from a person appropriately licensed to issue the order for the device;
 - Any device used by a certified law enforcement officer to carry out law enforcement duties; or
 - Seatbelts and other safety equipment when used to secure students during transportation.

Use of Emergency Safety Interventions

ESI shall be used only when a student presents a reasonable and immediate danger of physical harm to such student or others with the present ability to effect such physical harm. Less restrictive alternatives to ESI, such as positive behavior interventions support, shall be deemed inappropriate or ineffective under the circumstances by the school employee witnessing the student’s behavior prior to the use of any ESI. The use of ESI shall cease as soon as the immediate danger of physical harm ceases to exist. Violent action that is destructive of property may necessitate the use of an ESI. Use of an ESI for purposes of discipline, punishment or for the convenience of a school employee shall not meet the standard of immediate danger of physical harm.

ESI Restrictions

A student shall not be subjected to ESI if the student is known to have a medical condition that could put the student in mental or physical danger as a result of ESI. The existence of such medical condition must be indicated in a written statement from the student’s licensed health care provider, a copy of which has been provided to the school and placed in the student’s file.

Such written statement shall include an explanation of the student’s diagnosis, a list of any reasons why ESI would put the student in mental or physical danger, and any suggested alternatives to ESI. Notwithstanding the provisions of this subsection, a student may be subjected to ESI, if not subjecting the student to ESI would result in significant physical harm to the student or others.

Use of Seclusion

When a student is placed in seclusion, a school employee shall be able to see and hear the student at all times.

All seclusion rooms equipped with a locking door shall be designed to ensure that the lock automatically disengages when the school employee viewing the student walks away from the seclusion room, or in case of emergency, such as fire or severe weather.

A seclusion room shall be a safe place with proportional and similar characteristics as other rooms where students frequent. Such room shall be free of any condition that could be a danger to the student-well ventilated and sufficiently lighted.

Training

All staff members shall be trained regarding the use of positive behavioral intervention strategies, de-escalation techniques, and prevention techniques. Such training shall be consistent with nationally recognized training programs on ESI. The intensity of the training provided will depend upon the employee's position. Administrators, licensed staff members, and other staff deemed most likely to need to restrain a student will be provided more intense training than staff who do not work directly with students in the classroom. District and building administration shall make the determination of the intensity of training required by each position.

Each school building shall maintain written or electronic documentation regarding the training that was provided and a list of participants, which shall be made available for inspection by the state board of education upon request.

Notification and Documentation

The principal or designee shall notify the parent, the same day as an incident. The same-day notification requirement of this subsection shall be deemed satisfied if the school attempts at least two methods of contacting the parent. A parent may designate a preferred method of contact to receive the same-day notification. Also, a parent may agree, in writing, to receive only one same-day notification from the school for multiple incidents occurring on the same day.

Documentation of the ESI used shall be completed and provided to the student's parents no later than the school day following the day of the incident. Such written documentation shall include: (A) The events leading up to the incident; (B) student behaviors that necessitated the ESI; (C) steps taken to transition the student back into the educational setting; (D) the date and time the incident occurred, the type of ESI used, the duration of the ESI, and the school personnel who used or supervised the ESI; (E) space or an additional form for parents to provide feedback or comments to the school regarding the incident; (F) a statement that invites and strongly encourages parents to schedule a meeting to discuss the incident and how to prevent future incidents; and (G) email and phone information for the parent to contact the school to schedule the ESI meeting. Schools may group incidents together when documenting the items in subparagraphs (A), (B) and (C) if the triggering issue necessitating the ESIs is the same.

The parent shall be provided the following information after the first and each subsequent incident each school year: (1) a copy of this policy which indicates when ESI can be used; (2) a flyer on the parent's rights; (3) information on the parent's right to file a complaint through the local dispute resolution process (which is set forth in this policy) and the complaint process of the state board of education; and (4) information that will assist the parent in navigating the complaint process, including contact information for Families Together and the Disability Rights Center of Kansas. Upon the first occurrence of an incident of ESI, the foregoing information shall be provided in printed form or, upon the parent's written request, by email. Upon the occurrence of a second or subsequent incident, the parent shall be provided with a full and direct website address containing such information.

Law Enforcement, School Resource, and Campus Security Officers

Campus police officers and school resource officers shall be exempt from the requirements of this policy when engaged in an activity that has a legitimate law enforcement purpose. School security officers shall not be exempt from the requirements of this policy.

If a school is aware that a law enforcement officer or school resource officer has used seclusion, physical restraint, or mechanical restraint on a student, the school shall notify the parent the same day using the parent's preferred method of contact. A school shall not be required to provide written documentation to a parent, as set forth above, regarding law enforcement use of an emergency safety intervention, or report to the state department of education any law enforcement use of an emergency safety intervention. For purposes of this subsection, mechanical restraint includes, but is not limited to, the use of handcuffs.

Documentation of ESI Incidents

Except as specified above with regard to law enforcement or school resource officer use of emergency safety interventions, each building shall maintain documentation any time ESI is used with a student. Such documentation must include all of the following:

- Date and time of the ESI,
- Type of ESI,
- Length of time the ESI was used,
- School personnel who participated in or supervised the ESI.
- Whether the student had an individualized education program at the time of the incident.
- Whether the student had a section 504 plan at the time of the incident, and whether the student had a behavior intervention plan at the time of the incident.

All such documentation shall be provided to the building principal, who shall be responsible for providing copies of such documentation to the superintendent or the superintendent's designee on at least a biannual basis. At least once per school year, each building principal or designee shall review the documentation of ESI incidents with appropriate staff members to consider the appropriateness of the use of ESI in those instances.

Reporting Data

District administration shall report ESI data to the state department of education as required.

Parent Right to Meeting on ESI Use

After each incident, a parent may request a meeting with the school to discuss and debrief the incident. A parent may request such meeting verbally, in writing, or by electronic means. A school shall hold a meeting requested under this subsection within 10 school days of the parent's request. The focus of any such meeting shall be to discuss proactive ways to prevent the need for emergency safety interventions and to reduce incidents in the future.

For a student with an IEP or a Section 504 plan such student's IEP team or Section 504 plan team shall discuss the incident and consider the need to conduct a functional behavioral assessment, develop a behavior intervention plan or amend the behavior intervention plan if already in existence.

For a student with a section 504 plan, such student's section 504 plan team shall discuss and consider the need for a special education evaluation. For students who have an individualized education program and are placed

in a private school by a parent, a meeting called under this subsection shall include the parent and the private school, who shall consider whether the parent should request an individualized education program team meeting. If the parent requests an individualized education program team meeting, the private school shall help facilitate such meeting.

For a student without an IEP or Section 504 plan the school staff and the parent shall discuss the incident and consider the appropriateness of a referral for a special education evaluation, the need for a functional behavioral assessment, or the need for a behavior intervention plan. Any such meeting shall include the student's parent, a school administrator for the school the student attends, one of the student's teachers, a school employee involved in the incident, and any other school employees designated by the school administrator as appropriate for such meeting.

The student who is the subject of such meetings shall be invited to attend the meeting at the discretion of the parent. The time for calling such a meeting may be extended beyond the 10-day limit if the parent of the student is unable to attend within that time period. Nothing in this section shall be construed to prohibit the development and implementation of a functional behavior assessment or a behavior intervention plan for any student if such student would benefit from such measures.

Local Dispute Resolution Process

If a parent believes that an emergency safety intervention has been used on the parent's child in violation of state law or board policy, the parent may file a complaint as specified below.

The board of education encourages parents to attempt to resolve issues relating to the use of ESI informally with the building principal and/or the superintendent before filing a formal complaint with the board. Once an informal complaint is received, the administrator handling such complaint shall investigate such matter, as deemed appropriate by the administrator. In the event that the complaint is resolved informally, the administrator must provide a written report of the informal resolution to the superintendent and the parents and retain a copy of the report at the school. The superintendent will share the informal resolution with the board of education and provide a copy to the state department of education.

If the issues are not resolved informally with the building principal and/or the superintendent, the parents may submit a formal written complaint to the board of education by providing a copy of the complaint to the clerk of the board and the superintendent within thirty (30) days after the parent is informed of the incident.

Upon receipt of a formal written complaint, the board president shall assign an investigator to review the complaint and report findings to the board as a whole. Such investigator may be a board member, a school administrator selected by the board, or a board attorney. Such investigator shall be informed of the obligation to maintain confidentiality of student records and shall report the findings of fact and recommended corrective action, if any, to the board in executive session.

Any such investigation must be completed within thirty (30) days of receipt of the formal written complaint by the board clerk and superintendent. On or before the 30th day after receipt of the written complaint, the board shall adopt written findings of fact and, if necessary, appropriate corrective action. A copy of the written findings of fact and any corrective action adopted by the board shall only be provided to the parents, the school, and the state department of education and shall be mailed to the parents and the state department within 30 days of the board's receipt of the formal complaint.

If desired, a parent may file a complaint under the state board of education administrative review process within thirty (30) days from the date a final decision is issued pursuant to the local dispute resolution process.

SECTION I-INTRODUCTION

ABOUT GCHS

Garden City High School is a comprehensive 6A school that currently enrolls approximately 2100 students. Our staff consists of 119 certified staff and 50 support staff members.

GCHS offers a dynamic academic curriculum to challenge each student to the limit of his or her abilities, and a rigorous extracurricular program to enhance the social and physical development of each student.

ACADEMIES AT GCHS

What is an Academy?

Academies are small, personalized learning communities within a high school. An academy involves teachers from different subjects working together as a team to integrate academic and technical curriculum with career information.

What are the benefits of Academies?

- A team of teachers provide a personalized and supportive learning environment for a group of students.
- Students practice and develop leadership and teamwork skills through project-based learning activities.
- This type of learning motivates students to apply the content and skills they learn to a real situation.
- Students' education is enriched by academy fieldtrips, projects, and exposure to business/industry/careers.
- Student achievement improves as content is integrated among academy courses.

What is the purpose of an Academy?

The goal is to provide students with knowledge for lifelong learning and opportunities for successful careers in a global society. This includes but is not limited to problem solving, teamwork, goal setting and planning.

What is the GCHS model of Academies?

For the 2024-2025 school year, GCHS will have four academies, which will be called "schools" and one will contain two smaller academies within the one school.

- o 9th Grade Academy
- o School of Arts and Communications
- o School of Public Services
- o School of Trade and Health Sciences

Each student will select a school during pre-enrollment with their counselor. Students can't change schools during a school year, but can change from year to year if they wish to do so. Students can take elective classes from any of the schools.

Please feel free to visit with a principal or your student's counselor about our academy model or your student's enrollment selections

ROLES AND RESPONSIBILITIES:

ROLE OF A STUDENT

Garden City High School is a learning place. The primary mission of this school is to help students learn and prepare for a successful and productive future. Students, teachers, and administrators have different, but important, roles in this process. Students are the focus of all efforts in this school. A qualification needed by the student is a willingness and desire to prepare for a successful and productive adult life.

Responsibilities of the student are:

1. Attend class and report to class on time.
2. Bring appropriate learning materials to class (paper, pencil, books, and notebooks, iPad.)
3. Treat others with the respect and dignity they deserve.
4. Make challenging academic choices.
5. Establish and pursue personal career goals.
6. Prepare for and participate in the learning process.
7. Work with fellow students, faculty, administration, and parents to establish and achieve common guidelines and expectations.

Student achievement is reported every nine weeks. Semester grades become a part of the student's permanent record. The most accurate evaluation of the job performance of an individual student is success and productivity in adult life.

ROLE OF A PARENT

A thorough education of any student cannot be complete without a sincere and cooperative interest by parents. The education of students is much more easily achieved if parents recognize the importance of the following:

Responsibilities of the parent are:

1. Show a sincere interest in the academic and extracurricular performance of their student.
2. Ensure punctual attendance.
3. Establish and maintain openness in communication with the school.
4. Take responsibility for the student's health, personal cleanliness, grooming, and suitable clothing.
5. Assume responsibility in working with school personnel and community agencies in solving behavioral problems.
6. Develop and maintain their student's respect for law, other people, and the property of others.
7. Help the students develop a responsibility for their own actions. Students need encouragement. Encourage them with your positive expectations. Help them aim high.

ROLE OF A TEACHER

Aligned with the five core principles of the National Board for Professional Teaching Standards:

1. Teachers are committed to students and their learning.
2. Teachers know the subjects and how to teach those subjects to students.
3. Teachers are responsible for managing and monitoring student learning.
4. Teachers think systematically about their practice and learn from experience.
5. Teachers are members of learning communities.

SECTION II- ACADEMIC POLICIES AND PROCEDURES

ACADEMIC HONESTY

Any student who is caught cheating and/or plagiarizing any school assignment will receive a failing grade for that assignment. The teacher will notify parent/guardian with a phone call or face-to-face meeting. The teacher will file a referral of academic dishonesty in student discipline records. Further incidents of cheating in any class at any time will result in a referral and may result in suspension or expulsion.

ACADEMIC LETTERS

Students may earn academic letters during grades 10, 11 and 12. The purpose of academic letters is to reward and recognize students who have maintained high grades while taking courses of academic rigor. The requirements are as follows:

- Grade 10 – 4.0 cumulative GPA
 - 2 semester index courses during the first semester of grade 10
- Grade 11 – 3.9 cumulative GPA
 - 4 semester index courses during the last two semesters
- Grade 12 – 3.8 cumulative GPA
 - 4 semester index courses during the last two semesters

Academic awards will be given once a year.

BOOK FINES

Students are given books in many classes and are required to return them in good condition. Students failing to return books will be charged the replacement cost. Students damaging books will be charged either repair or replacement cost. Letters will be sent reminding parents and students of

their obligations. Students with unpaid book fines or other debts will be turned over to the collection agency in May.

CAREER CENTER

The Career Center provides college and career information to students as well as resources for scholarships. The Career Center is open 10 minutes before school and 20 minutes after school hours and students sign up in the Career Center to visit with college representatives and to attend field trip opportunities. The Career Center is located in the main office area across from the auditorium.

CLASS/SCHEDULE CHANGES

Students are expected to maintain a full schedule throughout each semester of attendance at GCHS (exception: seniors may have a reduced schedule second semester pending earned credits and eligibility). A student's schedule will not be changed unless there is an academic misplacement; parent/guardian has been contacted by the counseling office and approval by academy principal. Exception: Some students may be moved to balance classes. Students may find different procedures in place at GCCC in regards to the same college class.

***IT IS IMPERATIVE TO UNDERSTAND THAT DUAL-CREDIT CLASSES ARE SUBJECT TO THE POLICIES AND PROCEDURES AT EACH INDIVIDUAL INSTITUTION.**

Classes may only be dropped with the approval of and consultation with GCHS Counselors and administration.

CLASS SCHEDULES

Garden City High School students are required to take a full schedule of a minimum of seven courses each semester. Zero hour and night school are additional classes in which students may enroll. Seniors may take a reduced schedule second semester as long as they meet eligibility requirements for activities in which they are participating and continue to enroll in courses needed for graduation.

CLASS STANDINGS

Students' class standings will be determined in the following manner:

- ❖ **Freshman:** 0-5credits
- ❖ **Sophomore:** 5.5-10.5credits and in attendance at least one year
- ❖ **Junior:** 11-16.5 credits and in attendance at least two years
- ❖ **Senior:** 17 or more credits and in attendance at least three years

COUNSELING

Students are encouraged to meet with their counselor often during the school year. The counselors' offices are open from 7:40 a.m. to 3:40 p.m. in each academy. GCHS counselors are available to help students in all areas, including academic concerns, future plans, and personal/social issues. Students and parents are welcome to contact their child's counselor at any time by email, phone, or individual meetings. If the counselor is unavailable, the student can fill out a request to see his/her counselor and a pass will be sent to the student as soon as the counselor is available. Parents can leave a message via voice mail, email, or with the academy secretary.

DEFINITION OF A STUDENT

All students enrolled at Garden City High School will have a complete schedule each semester. A complete schedule for GCHS students is defined as seven classes. Students who choose to take college classes may do so for dual credit. However, it is important to remember that a dual credit class counts toward meeting enrollment expectations.

Exceptions for Senior students to the above requirements are as follows:

- A senior who is taking GCCC courses (3 hour) which conflict with a GCHS time schedule for courses may create a need for that student to be enrolled in fewer classes than is required. The Principal must make such exemptions.
- Students who are classified as early graduates.
- Students with a Principal approved short schedule.

DRIVERS TRAINING

Drivers Training is available to students who are of legal driving age and at least a freshman at GCHS. Drivers Training classes are held outside of the regularly scheduled school day. Sign-up will be announced at the beginning of each semester.

DUAL CREDIT COLLEGE CLASSES

- If a student taking a GCCC dual credit course on the GCHS campus and drops the course for college credit by the drop deadline of GCCC, the student must stay in the class but transfer to the GCHS course equivalent (e.g. If a student drops GCCC English I, the student will remain in that classroom with that teacher the rest of the semester but be enrolled in GCHS English IV). If there is not availability in the general education course, the student may enroll in the Edgenuity equivalent.

- A student must receive the same grade on his/her college transcript as his/her high school transcript for college credit courses.
- Dual credit courses are not eligible for semester school credit recovery.
- These requirements apply to all dual credit classes, both semesters.
- Students may not take dual credit courses required for graduation without written parent / principal approval.

EARLY GRADUATION

Senior students can opt to graduate after the 1st semester of their senior year. The following conditions must be met:

- ✓ Students must complete seven semesters and all graduation requirements.
- ✓ Parents/guardians will be informed of the student's intention. Parent permission will be required for students who are below the age of 18.
- ✓ Students are advised to declare their intent of early graduation prior to the start of their last semester of attendance, in order to make necessary academic plans.
- ✓ As it relates to activity, early graduates forfeit all privileges as members of the student body with the exception of prom and graduation activities. Early graduates must stop by the office to pick up a visitor's pass.

EXIT INTERVIEWS

Students under the age of 18 who wish to not be enrolled in his school must bring his/her parent to meet with an administrator and a counselor for an exit conference.

EQUITY AND ACCESS IN ENROLLMENT OF RIGOROUS COURSES

All Garden City Public School District high school students will have open and equal access to rigorous courses. Open access

allows students desiring to take an advanced course offering (honors, dual credit, and/ or Advanced Placement classes) admission into that class. Garden City Public Schools encourages each student to take the most challenging courses for which the student is capable. A student's interests, abilities, goals, and past record of achievement should guide course selection. Each family will be provided clear and concise information, in multiple languages, regarding rigorous courses their child can take in high school to prepare for college, careers, and active citizenship. Parents and students will be informed during the course selection process of the benefits of enrolling in advanced courses and both the financial and academic support available to their child.

FINAL EXAMS

Finals will be conducted during the last week of each semester. All students are expected to be in attendance. Any student absent without parent consent will be marked unverified.

GRADE REPORTS

Garden City High School has adopted the philosophy of using grades-in-progress. Under this system, a student's academic progress is measured on a continuing basis throughout an entire semester. Grades-in-progress are reported at 9 week intervals and indicate the student's academic grade to that point in time. Final grades are issued at the end of each semester and are recorded in the student's permanent file.

Grade	Meaning	Grade
A 100-90	Excellent	4.0
B 89-80	Mastery	3.0
C 79-70	Acceptable	2.0
D 69-60	Below Average	1.0
F 59 & Below	Failure	0
P	Passing	0
I	Incomplete	0
WP	Withdraw Passing	0
WF	Withdraw Failing	0

GRADUATION REQUIREMENTS

Students graduating from Garden City High School must complete 24 credits of required coursework. (See the enrollment guide) Students who do not meet graduation requirements will be required to attend regularly scheduled classes through the end of the year. They will not be able to participate in graduation ceremonies and activities.

HOMEWORK

Homework is defined as written or non-written tasks assigned to students by teachers, which is meant to be completed during non-school hours. If homework is given, at least one of these purposes should be met:

- Practice newly taught skills
- Review previously mastered skills
- Develop independent study habits
- Extend and enrich the curriculum
- Explore community resources
- Complete unfinished assignment when adequate time was given in class.

Timely feedback will be provided by teachers when homework is assigned. Homework shall not be assigned as a means to discipline students.

Homework recommendations, based on current educational research, will be provided to teachers to support them when developing and assigning homework.
Adopted: 2/17/92 Revised: 12/2/96, 7/10/17

INDEXED COURSES

The purpose of grade indexing at GCHS is to encourage students to make challenging academic choices by rewarding those students who elect to take courses, which demand more of their time and talents. Only designated courses are indexed by adding .005 per semester to the GPA for the purpose of class rank only. The student's actual GPA

will be unchanged by indexed grades. See the enrollment guide for more details.

LEGAL AGE

When a student turns 18, he/she has legal rights to make his/her own educational decisions. If a student chooses to exercise this right, he/she must meet with an academy principal to review the responsibilities associated with these legal rights. Parents will be notified of the student's desire to make his/her own educational decisions.

LATE WORK POLICY

Assignments must be turned in within 2 weeks. Deductions for late work during that time may be made at teacher's discretion; however, a student may not be penalized more than 50% during that time period.

LIBRARY

The school library provides a variety of materials for student use. ID's are required for checkout and the student is responsible for all fines, damages and lost articles. Individual students who report to the library are required to sign in and sign out when they arrive and leave the library.

NIGHT SCHOOL

Night school will be available to those students needing to complete classes required for graduation.

- Enrollment is limited to GCHS students.
- All school rules are in effect during the hours of night school.
- Night school offerings are limited. See counselors for details.
- Students who have 4 unexcused absences from night school will be dropped from the course.
- Students who exceed 4 absences, excused or unexcused, must meet with

the night school principal to discuss continued enrollment.

SECTION III- ACTIVITIES & ATHLETICS

DANCES /PROM

All GCHS dances are structured for the enjoyment of students and are scheduled with the following guidelines:

- Dances will last about three hours.
- Students may bring a guest who is not a GCHS student to homecoming and the prom, but must pre-register them with the dance sponsor by the advertised deadline before the dance. The administration reserves the right to refuse admittance to any student or guest.
- Middle School students will not be allowed at our dances.
- Once students arrive at the dance, they should plan to stay. Those who choose to leave may not return.
- All school policies, including drugs, alcohol, and tobacco, are in effect for dances.
- Students who have been suspended or were absent on the day of the dance will not be allowed to attend.
- Student ID's are required for attendance at dances.
- Administrators will use metal detectors at school dances.
- Administration reserves the right to determine inappropriate dress and appropriate actions related to dance.

ELIGIBILITY

A student must meet eligibility requirements to represent GCHS in any activity, which involves inter-school, local competition, or school representation before a group.

SPONSORED ACTIVITIES

- ✓ KSHSAA requires a student to pass 5 (five) or more academic courses in the preceding semester. (This requirement applies to KSHSAA activities only)
- ✓ The student must be enrolled full time.
- ✓ Weekly eligibility requires students to be passing all but one class that she/he is currently enrolled in. Eligibility will be ran weekly and reported to activity sponsors/ athletic coaches.
- ✓ All participants in activities and athletics must adhere to the attendance policy. Unless excused by an administrator, a student must be in attendance all day on the date of an event, or on the day of departure for an event in order to participate. Student may not participate in their activity or athletic practice or event if they had in-school suspension or out of school suspension on that day. Administrators may allow a student to be absent and still participate if the student is absent for a court subpoena appearance, a doctor appointment, or a funeral. Participants must make prior arrangements with the coach/sponsor and the administration. If a student is more than 10 minutes late for class, the student is considered absent as it relates to this eligibility policy. If it is determined a student has been counted absent from any class after the event has started, or after the group has departed for the event, the student will be suspended from the next scheduled competition.
- ✓ A student must be in good standing to be eligible to participate in activities and athletics.

GCHS offers a variety of clubs and organizations for students. Participation in these activities is a great way for students to meet people with similar interests and ideas.

Participation is by no means limited to any one club or organization.

SPORTSMANSHIP/RULE 52

In keeping with the Kansas State High School Activities Association requirement to both encourage and enforce good sportsmanship, we ask that all students assist us in honoring Rule 52. Rule 52 requires the following:

- Be courteous to all - participants, coaches, officials, staff and fans.
- Know the rules, abide by and respect the official's decisions.
- Win with character and lose with dignity.
- Display appreciation for good performance regardless of the team.
- Exercise self-control and reflect positively upon yourself, team and school.
- Permit only positive sportsmanlike behavior to reflect on your school or its activities.
- All actions are to be for, not against; positive, not negative or disrespectful!

Students who violate Rule 52, or who display any type of poor sportsmanship, will be ejected from the activity, may be subject to loss of the privilege of attending school activities, as well as further disciplinary actions.

SECTION IV- ATTENDANCE POLICIES AND PROCEDURES

ATTENDANCE GUIDELINES

The Board of Education requires the regular attendance of all students in their assigned classes and activities. Provisions have been made for those occasions when it is absolutely necessary for a student to be absent. All absences must be restricted to essential causes according to the school board policy section JBD. Students may be dropped from the roll after all reasonable attempts have been made to determine current status or location of the student.

When a student knows he/she will be absent from a class for whatever reason, including school activities, he/she should let the teacher know in advance of the absence. This is a simple courtesy that is much appreciated by the staff.

GENERAL ATTENDANCE PROCEDURES

Attendance will be reported every period of the day. Parents/guardians are asked to call the appropriate academy office when their child will be absent from school. This can also be done by sending a note with the student the day he/she returns to school. When parents/guardians request that students leave the campus during the school day, a note from home or a phone call will be required and a permit to leave must be secured. During the school day, students must secure official permission before missing a class or leaving the campus. **DO NOT LEAVE CAMPUS WITHOUT FIRST OBTAINING A PASS FROM YOUR ACADEMY OFFICE.** Students enrolled in Work Based Learning or On the Job Training and elementary teacher aide's classes will receive passes from the GCHS instructors. Failure to comply with attendance procedures may result in disciplinary action. In order for the Garden City High School staff to do the best

possible job of educating the students entrusted to them, the students must be in regular attendance. A successful educational program requires the cooperation of the parent, the student, and the school staff at all points in the process. One of the most vital points is that of student attendance. We cannot teach a student who is not present.

CHECKING OUT

Students leaving school during the day must check out with the academy office. Failure to obtain permission to leave school will be considered unexcused. **GCHS is a closed campus.** Students leaving school without a valid excuse will be subject to ISS on the following school day.

COLLEGE VISITATIONS

Students are expected to utilize their summer vacation time, holiday and quarter breaks, and weekends to contact and visit colleges. When a student feels it necessary to miss a school day for such a visit and would like the absence recorded as school related and not count against attendance, the following guidelines are to be followed:

- Only juniors and seniors may be considered.
- College visitation requests made less than one week prior to the actual visit may not be granted.
- As with all absences, parent verification is needed.
- These absences must be pre-arranged.
- Students must meet eligibility standards.

FAMILY VACATION DURING THE SCHOOL YEAR

Family vacations taken during the school year are discouraged. At those times when families must take their vacations during the school year, such absence may be excused, provided that each of the following conditions are met:

- Absence of the student must be arranged a minimum of two (2) school days before the scheduled vacation.
- The student must be in good standing in classes. His/her grade point average must be within the guidelines of the building policy for athletic/activity participation.
- No student who has displayed previous attendance problems will be excused for family vacations. His/her attendance rate must be at least 85%.
- Class work/homework will be assigned by the teacher(s) prior to the absence on an Application for Pre-Arranged Absence form, included within this policy.
- Class work/homework assignments are due the day the student returns to school following the vacation. For class work/homework that must be performed in the school building, such as lab assignments or experiments, the student will be allowed one school day per day of absence to make up such assignments.
- If student does not attend school after the pre-arranged absence, further action will be taken, such as being dropped from the roll or truancy filed.
- Pre-arranged absences may not exceed ten (10) school days unless extenuating circumstances exist.

MAKE-UP POLICY

A student shall have the opportunity to make up all work and time missed for excused absences. Time allocation for completion shall be one-day make up for one day missed. Any time a student is suspended from school, that student shall be responsible for keeping up with his/her classes in the lessons covered or assigned. Teachers will accept all work when absences are excused and grade according to work and time limits set forth in the individual classroom guidelines. Students need to make arrangements with their teacher, ahead of time, when they will be gone for an activity.

PRE-ARRANGED ABSENCES

Students must get a pre-arranged absence form and have it signed by all teachers before they leave school for a reason that can be pre-arranged. There is a minimum time period of 24 hours before leaving to get the pre-arranged form filled out. Failure to do so can result in an unexcused absence. Forms for pre-arranged absences are to be picked up and returned to the academy office secretary ***before*** the student leaves. Students are to use the pre-arranged absence form for extended medical appointments or hospital stays. Students must meet the same eligibility requirements as students who are involved in extra-curricular activities. ***A student must be passing 6 out of 7 classes to be excused.*** Failure to meet these requirements will result in the absences being recorded as unexcused. The Administration will check on the student's attendance and assign the appropriate consequences.

TARDY POLICY

- ❖ Must be in class when the second bell has rung.
- ❖ No tardy is to be excused unless the student has a signed pass from a teacher, an administrator, or the office.
- ❖ Any student without a pass is truant.
- ❖ Any time a student is more than ten (10) minutes late to class, the student will be marked W (tardy after ten minutes) for that hour unless they have a signed pass.
- ❖ Students who are tardy to class more than 10 times in a semester will be disciplined. Discipline may include assignment of Saturday School and/or suspension.

TRUANCY LAW

K.S.A. 72-1113 School Attendance Law

A child is inexcusably absent from school if the child is absent from all or any part of a school day without a valid excuse acceptable to the school employee designated by the board of education to have responsibility for the school attendance of such child.

Prior to making any report under this section that a child is not attending school as required by law, the designated employee of the board of education shall serve written notice thereof, by personal delivery or by first class mail, upon a parent or person acting as parent of the child. The notice shall inform the parent or person acting as parent that continued failure of the child to attend school

without a valid excuse will result in a report being made to the Secretary of Social and Rehabilitation Services or to the county or district attorney. Upon failure, on the school day next succeeding personal delivery of the notice or within three school days after the notice was mailed, of attendance at school by the child or of an acceptable response, as determined by the designated employee, to the notice by a parent or person acting as parent of the child, the designated employee shall make a report thereof in accordance with the provisions of subsection (a). The designated employee shall submit with the report a certificate verifying the manner in which notice was provided to the parent or person acting as parent.

Whenever a law enforcement officer assumes temporary custody of a child who is found away from home or school without a valid excuse during the hours school is actually in session, and the law enforcement officer delivers the child to the school in which the child is enrolled or to a location designated by the school in which the child is enrolled to address truancy issues. The designated employee of the board of education shall serve notice thereof upon a parent or person acting as parent of the child. The notice may be oral or written and shall inform the parent or person acting as parent of the child that the child was absent from school without a valid excuse and was delivered to school by a law enforcement officer

DRESS CODE

This plan is designed to provide a more safe and orderly environment, which will exclude any style of dress, actions and or materials that are harmful to students. Anything that promotes gangs or the gang mentality, promotes drugs, alcohol, &/or sexual innuendo, displays nudity or partial nudity will be considered inappropriate. USD 457 secondary schools have developed this plan to be consistent, clear, and reasonable for all students and their apparel, as well as their actions and possessions.

The following list has been compiled to give students and parents an idea of what attire is considered to be inappropriate. By no means is this list complete and may be added to as the need arises. An individual's dress and grooming has a bearing on how others react toward them and therefore will affect behavior. Please dress appropriately:

- ❖ Daily clothing choices should promote a productive learning environment that reflects work-place readiness.
- ❖ ID's are expected to be worn and visible at all times throughout the day.
- ❖ All shorts, dresses & skirts must be appropriate length
- ❖ No see-through clothing.

- ❖ Sleeveless shirt armholes must fit tightly around the arms.
- ❖ No sunglasses should be worn in the buildings.

DRUGS, TOBACCO, AND ALCOHOL

The use of alcohol, tobacco, and other illegal drugs, or the improper use of legal drugs is recognized to be extremely harmful to the individual who uses and to those around that individual. A student cannot learn to his full potential while under the influence of these substances. It is further recognized that all students have a right to be educated in a drug-free environment.

▪ **Inappropriate use and consequences:**

The use, possession, or distribution of alcohol, other illegal drugs or the improper use of legal drugs are forbidden in school, on school property at any time, at school sponsored events (whether the event is on school property or elsewhere), or on school transportation. Any student who smells of alcohol or illegal drugs may be sent home under the substance abuse policy unless the student provides at their own expense proof that they are substance free. Any student who is suspected of use will be given a field sobriety test. Alcohol tests must be administered within 2 hours of leaving school premises. All other controlled substance tests must be administered within 12 hours. Any test for alcohol or controlled substance must be presented to GCHS administration within 24 hours.

▪ **District policy dictates the following:**

1. ALL USD #457 employees and other personnel working with USD #457 students, as well as any other students under their direct or indirect supervision, who observe the use, sale, transfer, or possession of any drug, alcohol, tobacco, medication, or other chemical substance, or the paraphernalia associated with the administering of drugs, shall report immediately to the principal/designee.

records as a contact person in the case of emergency will be informed. All information available will be made known to the parent or guardian, physician, and all others responsible for care and treatment.

4. Students who are concerned about their own substance abuse who notify faculty or staff will not be subject to suspension. Confidentiality will be observed while seeking and finding support for such students. However, self-disclosure can only be used once to avoid suspension.

Nothing in this policy is intended to diminish the ability of the district to take other disciplinary action against the student in accordance with other policies governing student discipline. If a student agrees to enter into and complete a drug education or rehabilitation program, the cost of such program will be borne by the student and his or her parents.

A list of area drug and alcohol counseling and rehabilitation programs, along with names and addresses of contact persons for the programs, is on file with the board clerk. Parents or students should contact the directors of the programs to determine the cost and length of the program.

A copy of this policy will be provided to all students, and the parents of all students. Parents of all students will be notified that compliance with this policy is mandatory.

USD 457 recognizes its obligations to its students for the provision of services and activities that are free of the influence of controlled substances, alcohol, and tobacco. USD 457 will endeavor through this policy to provide controlled substances, alcohol, and tobacco free participation by students in school sponsored activities. USD 457 further expresses its intent through this policy to comply with federal and state rules, regulations, or laws that relate to the maintenance of an educational environment free from controlled substances, alcohol, and tobacco, and to prevent accidents and injuries resulting from the use of controlled substances or alcohol. - No student shall refuse to submit to a reasonable suspicion controlled substances or alcohol test requested under this policy.

USD 457's determination that reasonable suspicion exists to require the student to undergo a controlled substances test must be based on specific, contemporaneous, particularly observations concerning the appearance, attitude, behavior, speech, performance, or body odors of the student. The observations may include indications of the chronic and withdrawal effects of a controlled substance.
2. USD 457 may require a student to submit to an alcohol test when USD 457 has reasonable suspicion to believe that the student has violated the prohibitions of this policy concerning alcohol. by USD 457 for reasonable suspicion testing by USD 457 employees. USD 457 shall pay the cost of any reasonable suspicion testing. All reasonable suspicion test results shall be confidential, subject to disclosure only for purposes of enforcing this policy or the below noted policies of the USD 457 Board of Education (Board).

CONSEQUENCES RELATING TO ACTIVITIES

Any student who violates any provision of this policy pertaining to controlled substances, alcohol, or tobacco shall be subject to Board policies JCDA, JCDAB, JDD, and JDAA, together with all supporting rules and regulations. Should a conflict exist between discipline and sanctions required by Board policies JCDA, JCDAB, JDD, and JDAA and this policy, Board policies shall control.

In addition to discipline provided in the Board policies set forth above, a student shall be subject to sanctions for violations of this policy, to be imposed by a coach or other USD 457 employee sponsor of a school sponsored activity, as follows:

- First Violation – student may be suspended from participation in a school-sponsored activity, for minimum one week up to 186 days at the discretion of the USD 457 employee imposing the sanction, based upon the severity and extent of the violation.

student, accumulated during the entire period of time a student is enrolled in USD 457.

- **Commission of a Felony:** If a student commits an act, which would be considered a felony under the laws of the State of Kansas, or any other state, if the student were an adult, regardless of whether the act was committed in or out of season, or school, and regardless of whether there has been an adjudication or conviction, then the student shall be ineligible to participate in any school sponsored activity or sport, for the current school year or the next school year, if the act occurs prior to an upcoming fall semester.

ELECTRONICS

Personal listening devices such as MP3 players, cellphones, and IPODS with earphones may be used at teacher discretion. The administration strongly suggests that these items be left at home as GCHS cannot assume responsibility for lost or stolen items. Students may not bring universal remote control devices to school. Students may not possess laser lights.

CELL PHONES

Cell phones are valuable communication tools; however, phones can be disruptive to

the learning environment and pose potential legal issues for students (i.e. inappropriate pictures, cheating, etc.).

To protect students' academic learning time and to maintain an appropriate learning environment, cell phones' policies at each grade level are as follows:

Elementary, Intermediate, and Middle Schools students are not allowed to use cell phones at any time during the school day. They must remain out of sight and be turned off. At the elementary and intermediate schools, students may check their cell phones in the office or with a teacher when they arrive. They may pick those up at the end of the day.

High School students may use cell phones before school, during lunch, during passing periods, and after school. Cell phones are not to be turned on during class time. However, cell phones may be allowed during class time for instructional purposes at the discretion of the classroom teacher.

If a student is seen using a cell phone in any part of the building during class time without the express permission of the teacher as part of the instruction or if the phone disrupts class in any way, a teacher or staff member will confiscate the phone and take it to the office.

All Grade Levels Consequences:

1st offense.....The cell phone use will be recorded as an electronic device referral. The student may pick up the phone at the end of the school day.

2nd offense.....The cell phone use will be recorded as an electronic device referral and the student's parent or guardian must come to the school to pick up the phone. Additional violations or refusal to give the phone to a staff member when requested will result in consequences up to and including suspension for open defiance.

In addition to the consequences noted above,
IF A STUDENT IS OBSERVED USING A

CELLPHONE DURING TESTING, the Academic Dishonesty Policy will be followed. If a student is observed using a cell phone during any state assessments, additional consequences, including suspension from school, may be imposed.

Please note: *Garden City Public Schools is not responsible for loss, theft or damage to any electronic device a student chooses to bring to school.*

GANG ACTIVITY (POLICY #JHCAA)

A “gang” shall be defined for this policy as any group of three or more persons who have a common name or common identifying signs, colors, or symbols, and have members or associates who, individually or collectively, engage in or have engaged in activities whose purposes include threats of violence or intimidation, acts of violence, and/or the commission of illegal acts. A “gang member” shall be defined for this policy as a person whose style of dress, apparel, accessories, activities, acts, behavior, or manner of grooming causes school officials to have a reasonable belief that the person is a member of a gang. For purposes of identification of a student as a gang member, two or more of the following indicators must be determined by district staff to exist:

- ✓ Student admits to gang membership;
- ✓ Student is identified as a gang member by a credible, non-law enforcement source;
- ✓ Student is identified as a gang member by a law enforcement agency;
- ✓ Student is identified as a gang member by the student’s parent or legal guardian;
- ✓ Student resides in or frequents a particular gang’s geographic area, and adopts its style of dress, apparel, grooming, tattoos, or its use of hand signs;

- ✓ Student has been arrested for the commission of illegal acts arising out of gang activity.

The following acts, conduct, or behavior by a student shall be prohibited:

- ☐ Intimidation, advocacy, or promoting activities which threatens the safety or well-being of students, staff, or property, on or off school grounds, and which disrupt or interferes with a school environment, activity, or educational objectives;
- ☐ The use of any speech, hand signs, gestures, handshakes, graffiti, or the presence or any apparel, jewelry, accessories, tattoos - visibly displayed, or manner of grooming which, by virtue of its color, arrangement, trademark, symbol, or any other attribute, indicates or implies gang membership;

- ☐ Implying gang membership by written communications, marks, drawings, paintings, designs, or emblems upon any school property or building, or any item of personal property.

Gang activity is deemed by the district to be a risk to a safe educational environment. The district shall consider engaging in prohibited gang activity as behavior which is included in the highest and most serious level of misconduct by a student. Any student violating this policy shall be subject to disciplinary action as allowed by board policy and statutory law. All gang activity by a student which results in disciplinary action

shall be documented in writing and such records shall be made available to all district staff members with a legitimate educational interest in the student throughout the student's educational career in the district. Discipline for gang activity shall be deemed to be cumulative, and carry over from year to year for the purposes of any disciplinary systems maintained within the district. District staff shall regularly meet with law enforcement agencies to stay informed of gang membership and activity, in the community. District staff, in conjunction with information regularly obtained from law enforcement agencies, shall maintain a list of indicators of gang membership. For the purpose of this policy, hazing shall be defined as intentionally coercing, demanding, or encouraging a student, through intimidation, threats, or compulsion, to perform any act as a condition of graduation from, or attendance at, any district school, or membership in any district-sponsored activity. This policy is intended to prohibit conduct that is humiliating, degrading, or demeaning to a student as part of an initiation. Since hazing may cause feelings of humiliation, fear of retaliation, and being ostracized, acts of hazing directly impact a positive school environment. Hazing of a student by another student will not be tolerated. The district will

promptly act to investigate all complaints of hazing, whether formal or informal, verbal or written, and to discipline any student who hazes another student. Hazing should be reported to any adult staff member. Any individual who reports hazing will not be retaliated against for making such a report.

LANGUAGE

At school and at school-sponsored activities, students are expected to use language that is not offensive to others. **Profanity directed at a teacher or other adults will result in OSS.**

We aim to create a safe and welcoming learning environment for all students, free of hate speech. Hate speech denigrates individuals or groups based on their identifying characteristics. It is our responsibility to ensure that our words and actions do not perpetuate hate speech. If you witness or experience hate speech, please report it to a teacher, counselor, or administrator. Together, we can build a welcoming and respectful school culture.

HEAD LICE

Kansas Administrative Regulation 28-1-6 states each student infested with lice shall be excluded from school until treatment with an anti-parasitic drug.

Many parents have the impression that only persons who are unclean become infested with lice. In the case of head lice, this is NOT true. Frequent bathing and shampooing will neither prevent nor eliminate head lice.

The head louse is an insect which lives on the human head. The female lays eggs called nits which are stuck to the hair very tightly. The eggs hatch in approximately one week, therefore it is necessary to remove all nits to prevent continuous infestation or re-infestation when the nit hatches. The most common symptom of pediculosis (head lice) is itching. (Head lice shampoos are affective only on live lice and do not destroy the nits.)

Head Lice CANNOT fly or jump. Studies have shown that transmission at school is rare and no more likely to occur than in any other social setting such as community group settings, Movie Theater, shopping centers, etc. Animals are not involved in head louse transmissions. Head lice are usually transmitted through household contact by sharing beds and living space; through sharing combs, brushes, hair extensions, and other grooming aids; through sharing hats, caps, or coats.

It shall be the responsibility of the parent to purchase head lice shampoo and follow directions for treatment, remove nits, and

make arrangements to have student checked by the school nurse for authorization for re-admittance to school. If student is not readmitted within three calendar days, the absence then shall be unexcused and the district shall be guided by the provisions of Policy JB (student attendance). If you suspect your child has head lice please see your school nurse for examination and additional information.

IMMUNIZATIONS

Students attending school in USD 457 are required to be immunized according to current state immunization requirements. Students not complying with the immunization requirements shall be refused admittance to classes and this policy shall be enforced through the provisions of the compulsory attendance law. KCI Form B Medical Exemption must be completed by a physician.

NOTE: *The parents and guardians of exempt students should be informed their students will be excluded from school in the event an outbreak of vaccine preventable disease occurs.*

INSURANCE

Insurance is available. Interested parents or students should contact the Business Office at the Educational Service Center at 805-7005. Students involved in athletics can obtain insurance information from coaches or GCHS athletic director.

LOCKERS

GCHS provides lockers for students to store books and other personal items during the school year. The lockers in the school are the property of USD #457 and are subject to random locker searches throughout the school year. Students are encouraged to use only the locker assigned to them. Students should not give their locker combination to

other students nor should they place their possessions in another student's locker. (Refer to board policy JCAB and JCAB-R for further information.) There will be random locker searches at various times during the school year. Administrators may search lockers if there is reason to believe a school rule has been broken and the contents need to be seen.

LOST AND FOUND

The "lost and found" is located in the main office. Students are asked to clearly mark jackets, books, etc., so that lost items may be retrieved as quickly as possible. Students are asked not to bring valuables to school unless they are needed for a class project. GCHS cannot assume responsibility for lost or stolen items.

LUNCH TIME

Students may eat hot lunches, salads, or sack lunches in the cafeteria. **Fast food may not be delivered to the school at any time.** Students are required to keep all food and drinks in the cafeteria. Students must eat lunch in the cafeteria and remain in the cafeteria through the duration of the lunch period. Outside drinks are not permitted inside the building.

Meal money for cafeteria lunches may be added before school or during lunch in the cafeteria. **Students use their school ID's as lunch cards.** These cards must be shown to cashier as students go through the cashier line. The school meal prices for students are; breakfast \$2.00, lunch \$3.00.

High school students will not be allowed to exceed a \$3.00 charge amount (for paid students) and a \$0.40 charge amount (for reduced students) at any time. Alternate meals will not be provided at the high school. Students will be allowed to purchase a meal if the student pays cash.

If you are interested in free or reduced meals, please see the cashier for more information. The cashier for Food Service reminds students a week before seniors leave to redeem their unused lunch money. It is the student's responsibility to request a refund. After the last full day of school, no lunch refunds are granted to graduating seniors.

MESSAGES/DELIVERIES

Personal calls and messages to students will not be accepted through school phones, except in the case of a family emergency. Please try to make appointments, bus plans, alternate transportation arrangements, etc. before your child leaves for school. We request that flowers, balloons and other gifts or deliveries be made to the individual student's home to ensure that the gift is delivered in a timely fashion. ***DELIVERIES WILL NOT BE ACCEPTED THE WEEK OF VALENTINE'S DAY.***

NURSE/ILLNESS AT SCHOOL

If it becomes necessary for a student to take any form of medication at school (over the counter or prescription), a medication consent form must be signed by both the parent and the prescribing doctor and be on file in the nurse's office. All medication will be kept in and dispensed through the nurse's office. Medication must be in its original container and labeled according to requirements listed on the "Permission for Medication Administration at School" form. The medication form is valid for the current school year only.

Any student going home ill must check out/be excused through the nurse's office.

ADMINISTERING MEDICINE AT SCHOOL

All schools in USD 457 follow strict policy guidelines, developed by the school board

that regulates the taking of medicine in school by students.

SUPERVISION OF MEDICATIONS

Under normal circumstances medication may not be brought to school by students for their own usage or that of others. Such medicines will be removed from the student and retained for return to the student or the parents as deemed appropriate. Any disciplinary action will be left to the discretion of the principal.

If under exceptional circumstances a student is required to take medication during school hours, only the school nurse, the principal, or the school nurse designee will administer the medication in compliance with the following regulations:

- Written permission from a licensed health care provider must be provided with regard to all medications and all special health care procedures to be administered. Medications may include necessary “over-the-counter” drugs such as aspirin, Tylenol, cold preparations, allergy relief preparations. The health care provider’s permission form (USD 457 form #116-Permission for Medication and special Health Care Services) should include the following information:
 - ❖ Date
 - ❖ Medication and/or treatment to be given
 - ❖ Dosage to be administered
 - ❖ Time of day to be given. (For example, if medication is to be given three (3) times a day, medication should be given at home before school, after school and at bedtime, unless the health care provider’s medication order states at noon, before lunch or after lunch.)
- Written permission from the parent/guardian must accompany ALL medication (USD 457 – Form #116 –Permission for Medication and Special Health Care Services Form). Form must be updated at the beginning of each school year.
- The medication must be brought to school in the original container appropriately labeled by the pharmacy or health care provider. The parent may wish to request two containers from the pharmacist.
- Any changes in type of drugs, dosage, and/or time of administration must be accompanied by a new Permission Form.
- All medication maintained in the school setting will be kept in a secured area.
- Medications will be inventoried every semester by the school nurse. Out of date stock will be destroyed.
- “Over-the-counter” medications should not be maintained on any school premises, including athletic areas, unless a prescription along with written parent permission to administer medication is furnished to the school.
- The medical need for the self-managed administration of all medications must be evaluated individually by the health care provider and the school nurse (i.e., asthma inhalers, epinephrine, insulin, over the counter medication). Permission for Medication Form must be on file in the nurse’s office with directions for such exceptions from the licensed health care provider, as well as written permission from the parent.
- Disposing of unused medications: If a student’s medication changes during the school year, the remaining medication will be given to the parent or guardian at the time of the delivery of new medication. Medication remaining at the end of the

school year shall be taken home by the parent or guardian. Medication may be sent home with the student, with parent permission. Any medication not claimed will be discarded on the school nurse's last working day of the school year.

PARKING AND DRIVING ON CAMPUS

Parking on campus is a privilege, not a right. At the beginning of each year students must obtain a parking permit from their Academy Office. Students must show a valid Drivers' license. Students who do not have a valid drivers' license are not allowed to park on campus.

Students are to park in the parking lots and spaces designated for student use. Students are not to drive or park in the faculty parking lot during 6:00 AM to 4:00 PM. Students parking in a faculty lot will be assessed a \$10 fine and be subject to disciplinary action including loss of parking privileges for repeat offenders. The school administrators reserve the right to search student vehicles at any time. Students must drive courteously. Students may not block drive areas or park in such a manner that other cars are blocked or restricted. All drivers are subject to state and local traffic regulations.

There is to be no loitering in the parking lots. Students may not sit in cars before, during and after school. Students are not allowed to go to their cars during the school day without prior permission from the administration.

Students who violate posted parking regulations will be subject to possible disciplinary action. Violations will be documented in skyward discipline. Students will be ticketed by police if they are parked in the red fire lane zones. Other disciplinary action may include detention, in-school suspension, and out-of-school suspension.

Maximum speed limit on school grounds is 15 mph at all times. Reckless driving on campus

may result in mandatory loss of driving privileges, as well as allowable citations from law enforcement. Obey signals or instructions given by school personnel while directing vehicle traffic before, during and after school hours. All pedestrians have the right of way. The west crosswalk will be supervised for 15 minutes after school is dismissed.

Students may not leave school grounds in their vehicles without checking out from their academy office or nurses' office. Violation of this will result in disciplinary action and possible loss of driving privileges.

Unauthorized transport of other students off school grounds will result in disciplinary action and loss of parking privileges on campus.

Students are to respond to parking lot monitors in a respectful and cooperative manner.

POSTERS

Prior approval of posters, pamphlets, etc., must be obtained from one of the principals. Posters must be placed on the bulletin boards throughout the building. All posters, pamphlets, etc. are to be removed or taken down no later than the day following the conclusion of the advertised event. **This will be the responsibility of the group/organization that put up the posters.**

PRIVATE PROPERTY

We expect personal belongings to be safe at Garden City High School. No one likes to have money, clothing or personal items stolen. ***GCHS assumes no responsibility for lost or stolen items.*** Students can help us make the school a safe place by doing the following:

- ✓ Lock both your P.E. and hall lockers. Do not share lockers/combinations with others.

- ✓ Leave large amounts of money at home.
- ✓ Report thefts and/or thieves immediately to a Campus Supervisor, Teachers, SROs, or a Principal.

In emergency situations, it is very important for the school to know the whereabouts of all students.

RELEASE OF INFORMATION

Student information will be released only to custodial legal guardians (as listed on the demographics), parents, or with parent permission or by the student if student is 18 years or older. Parents/guardians who do not want release of information such as lists of addresses to the military, honors, awards, and honor roll, etc., must give written notification to the registrar.

SKYWARD FAMILY ACCESS

Parent involvement in their child's education is the single most important factor in school success. Skyward Family Access Online enhances the parent role in their child's day-to-day school experience by providing secured access to information such as daily and weekly assignments, grades, and attendance over the Internet. Please contact Jennifer Ramos, Registrar, to sign up for Skyward.

VISITOR PASS

All visitors must report to the main office to secure a visitor ID. Students may not bring visitors to school unless receiving prior approval by administration.

WEATHER

Weather conditions may necessitate cancellations and early dismissal days. School cancellations will be announced on local radio and TV stations in addition to school /district websites beginning at 6:00 am. Announcements will also be made on BBS-Channel 21 on Cable TV.

Student Misuse of Medication JDDAA (*See JDDA, JGFGB, JGFGBA, and LDD*)

Unless otherwise provided herein, students found to be self-administering their own medication at a dosage or rate exceeding product label instructions; distributing over-the-counter or prescription medications to other students; or using or possessing another person's over-the-counter or prescription medication will be subject to disciplinary action, up to and including suspension and expulsion from school.

Notwithstanding the misuses of medication outlined in this policy, Kansas law and board policy allow a bystander to administer an opioid antagonist to a person the bystander believes to be experiencing an opioid overdose.

Student Misuse of Medication JDDAA-R
Student Activity Drug and Alcohol Testing
(*See JDD and JDDA*)

To protect the health and safety of its students in school-sponsored extracurricular activities or clubs from illegal and performance-enhancing drugs and alcohol use and abuse and injuries resulting from the use of drugs and alcohol, the USD 457 Board of Education adopts the following policy for drug and alcohol testing of students participating in school-sponsored extracurricular activities or clubs.

Statement of Purpose and Intent

It is the desire of the Board of Education, administration, and staff that every student in the district refrain from using, possessing, or distributing illegal or performance-enhancing drugs and alcohol. The disciplinary actions triggered by this policy relate solely to limiting the opportunity of any student violating this policy to participate in school-sponsored extracurricular activities or clubs. This policy is intended to supplement and complement all other policies, rules, and regulations of the district regarding the possession and use of illegal drugs and alcohol. It does not limit the district's

authority to enforce the provisions of other relevant policies or take disciplinary actions authorized thereby.

Participation in school-sponsored extracurricular activities or clubs at the district is a privilege. Accordingly, students in such activities are responsible to themselves, their fellow students, their parents, and their school to conduct themselves by a high standard of conduct, which requires avoiding using or possessing illegal or performance-enhancing drugs and alcohol.

The purposes of this policy are to prevent illegal or performance-enhancing drug and alcohol use; to educate student participants regarding severe physical, mental, and emotional harm caused by drug and alcohol use; to prevent injury, illness, and harm that is a potential result of drug and alcohol use; and to strive within the district for an environment free of such use and abuse.

The sanctions of this policy solely limit the opportunity of any student found to violate this policy to participate in school-sponsored extracurricular activities or clubs. There will be no academic sanction for violation of this policy except to the extent that a violation of this policy would also constitute a violation of other district policies and state or federal law.

The district has adopted this policy for all students participating in school-sponsored extracurricular activities or clubs in grades 7-12. Violations under this drug testing policy are cumulative throughout this grade span, and consequences do not start over with each new school year.

Definitions

"Extracurricular activities" means those school-sponsored student activities that take place outside the regular course of study in school. Such activities include all school-sponsored extracurricular activities or clubs.

"Drug Use Test" means a scientifically substantiated method to test for the presence of illegal or performance-enhancing drugs, alcohol, or the metabolites thereof in a person's urine, saliva, hair, or breath. "Illegal Drugs" means any controlled substance that an individual may not legally sell, possess, use, distribute, or purchase under either Federal or Kansas Law. For this policy, "illegal drugs" include, but are not limited to, all scheduled drugs as defined by Kansas Law, all prescription drugs obtained or used without authorization, and all prescribed and over-the-counter drugs being used for an abusive purpose. "Performance-enhancing drugs" include anabolic steroids and any other natural or synthetic substance used to increase muscle mass, strength, endurance, speed, or other athletic ability.

"Performance-enhancing drugs" do not include dietary or nutritional supplements such as vitamins, minerals, and proteins that can be lawfully purchased in over-the-counter transactions.

"Alcohol" means the product of distillation of any fermented liquid, whether rectified or diluted, whatever its origin, and includes synthetic methyl alcohol.

"Positive" when referring to a drug test administered under this policy means a toxicological test result demonstrating the presence of an illegal or a performance-enhancing drug or the metabolites thereof using the standards customarily established by the testing laboratory administering the drug use test.

"Random Selection" regards the process used by the laboratory conducting drug use tests to select participants to be tested, involving the chance selection of drug test numbers assigned to each participant.

"School Days" are days school is in session at USD 457.

"KSHSAA" is the Kansas State High School Activities Association, where the district participates.

Education

The district shall provide an educational session concerning this policy to applicable students within one week of the policy's implementation or substantial revision. The session will include a detailed explanation of the policy. In addition, it is recommended that the activities department conduct a player and parent meeting that will include information about the impact of the drug testing policy on participants. Parental attendance is strongly encouraged at each session. Each applicable student will be provided a policy copy and a consent form.

Procedure

Each student in a school-sponsored extracurricular activity or club shall receive copies of the Student Drug/Alcohol Testing Consent Form, which shall be read, signed, and dated by the student, parent, and guardian. Students must submit a completed consent form to the school office before they can practice or participate in any extracurricular activities. Students must turn in the required form within the above timeframe to be eligible to participate in extracurricular activities. Transfer students who wish to participate in extracurricular activities can complete the form above at enrollment.

Students will be required to provide urine, saliva, or hair samples for drug and alcohol testing as follows:

On a random selection basis, from a list of all students in the testing pool, school-sponsored extracurricular activities or club participants will be drawn randomly to provide a urine, saliva, and hair sample during the school year. Names previously chosen will be placed back in the pool for the possibility of random selection at a later time.

Any drug use test required by the district under the terms of this policy will be administered by or at the direction of a professional laboratory chosen by the district, using scientifically validated toxicological methods. The professional laboratory shall be required to have detailed written specifications to assure the chain of custody of the specimens, proper laboratory control, and scientific testing.

All aspects of the drug use-testing program, including the taking of samples, will be conducted to safeguard students' personal and privacy rights to the maximum extent possible. The Vendor shall obtain the test sample in a manner designed to minimize the intrusiveness of the procedure. In particular, the sample will be collected in a restroom or other private facility.

If the initial drug test is positive, the initial test result may be subject to confirmation by a second and different test of the same sample.

If a test for any student has a positive result, the laboratory will report the results to the designated employee representative. The school will then be responsible for contacting the student's parents with the results and will solicit information regarding any medications the student may be taking that would create a positive result. If needed, the school will contact a certifying scientist at the laboratory regarding any drug interactions.

If requested, a medical review officer can confirm the results and report the findings to the designated employee representative. Once a positive result is determined, the student will become ineligible under the Student Random Drug Testing Guidelines for USD 457/Garden City High School/Middle School.

This decision may be appealed in writing to the Garden City High School/Middle School building designee within two working days. The Garden City High School/Middle School building principal will make a written

decision within two working days. During the time of this appeal, the student will be ineligible under Student Random Drug Testing Guidelines for USD 457/Garden City High School/Middle School.

Within two working days, the Garden City High School/Middle School building principal's decision may be appealed in writing to the USD 457 Board of Education through the district superintendent's office. During the time of this appeal, the student will be ineligible under Student Random Drug Testing Guidelines for USD 457/Garden City High School/Middle School.

A student who has tested positive for illegal or performance-enhancing drugs will be required to undergo five (5) additional drug use tests over the next calendar year to confirm that the student is no longer using illegal drugs or performance-enhancing drugs. The district will rely on the opinion of the laboratory that performed or analyzed the additional drug use test in determining whether a positive result in the additional drug test was produced by illegal or performance-enhancing drugs used by the student that caused the first positive result or by more recent use.

All parents or guardians of students who test negative for illegal drugs or performance-enhancing drugs in the initial screening will be contacted by personnel of the district.

Disclaimer

This policy shall not supersede state and federal law or KSHSAA policy. This policy similarly does not supersede other board policy or handbook language related to Garden City High School/Middle School or about students found to have, using, selling, distributing, or being under the influence of illegal substances or alcohol while at school, on or in school property, at a school-sponsored activity, program, or event. Therefore, a student who violates the policy as outlined in other relevant board policy or

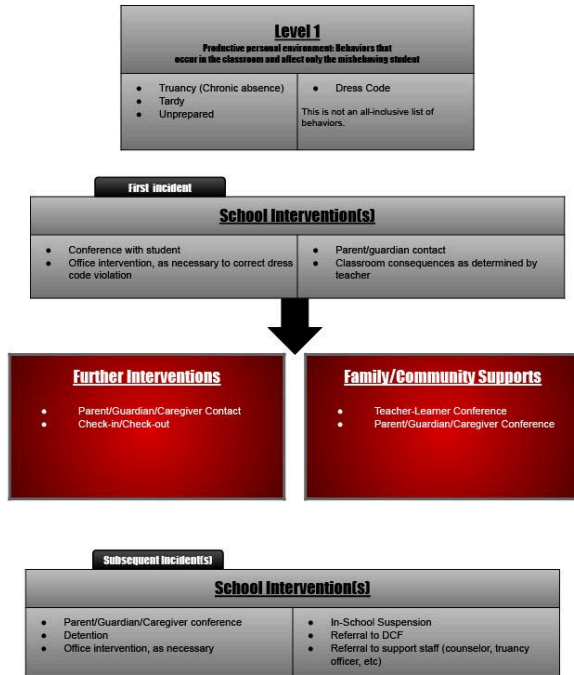

handbook language should expect further consequences as deemed appropriate by the building principal.

Reporting to the Board of Education

The Board of Education shall receive a report on the implementation of this policy at its first meeting in April of each year. Said report shall include, but not necessarily be limited to, the number of tests conducted and positive results, along with a declaration from the school principals on whether or not a significant drug problem exists at the high school.

Sometimes it is necessary to interview prospective staff during the summer when a principal is on vacation and not under contract.

Principals - Hours

All "work days" for administrative staff are a minimum of 8 hours per day. There will be times when all administrators are expected to work outside their normal 8-hour day.

Compensatory time can only be used for educational leave (see *page 18*). There may be rare occasions when compensatory time may be requested due to unusual circumstances above and beyond the normal duties of the administrator. In these situations, compensatory time must be approved by the superintendent.

As much as possible, all district offices should be staffed by an administrator between the hours of 8:00 a.m. and 5:00 p.m. School buildings should be staffed with a principal at least 30 minutes before the start of the school day and 40 minutes after the end of the school day. All administrators should take a reasonable lunch break every day.

Section E: In-Service Attendance

Principals are to attend and participate in all in-district in-services involving their entire teaching staff.

Section F: Educational Attainment and Experience

Masters +15	\$ 450
Masters +30	\$ 900

Courses to be considered for educational attainment must be approved by the Supervisor, the Professional Growth Committee, and Superintendent. An Ed.S/Doctoral candidate shall be defined as one who has completed everything but their thesis or dissertation. The candidate may only be a doctoral candidate for a maximum of 2 years.

**Every two years of approved experience as a building administrator will equal one year of central office administrative experience.

Approved experience will be awarded at a rate of 1% per year of relevant experience on top of the listed Base Rates. A maximum of 10 years of non-district experience may be granted.

ARTICLE I

ADMINISTRATIVE COMPENSATION

Section A. General Guidelines

1. Method of Payment.

The Board of Education shall pay administrative personnel in 12 equal monthly installments for each contract year. Payment will begin on the 15th of the first contracted month.

2. Payroll Direct Deposit.

USD 457 provides a payroll direct deposit program to its employees at no charge. All administrators are encouraged to participate in this program.

3. Probationary Status.

There shall be two types of probation. The first shall be new administrator probation, which shall refer to administrators with less than two (2) full years of continuous service with USD 457. The second type of probation shall be related to disciplinary probation. Such probation may or may not come as a result of difficulties determined through evaluation. Being placed on disciplinary probation shall be an administrative decision. It is emphasized that probation is not necessarily a punitive action, but may be formal recognition of a situation which indicates a need for more intensive supervision and assistance.

4. Extended Contracts.

The term "extended contract" shall refer to a special class of payments received by administrators as payment for additional time specially assigned.

Section B. Salary Deductions

1. Monthly Salary Deductions.

Salary deductions are allowed only upon approval by the BOE and are subject to the following requirements:

- a. Organizations, companies or individuals desiring the institution of a salary deduction plan must submit a desired plan to the board for advance approval.
- b. Deductions are to be withheld in equal installments, with the number of installments being determined by the number of pay periods included in the employee's job description.
- c. The payroll department of the Business Office shall be given 30 days notice of the implementation or termination of a salary deduction by an individual.
- d. All salary deductions other than those regulated by the federal or state government will be deducted only upon written approval of the employee.
- e. Tax-sheltered annuities, as reductions in pay, are authorized in groups of five or more individuals.

2. Salary deduction for loss of workdays:

In case of salary reduction due to termination, resignation, unexcused absences, or other similar circumstances, the daily rate of pay will be computed as follows:

The contractual salary for the individual will be divided by the total workdays for the individual as determined by the adopted school calendar.

Individuals concerned shall indemnify and hold harmless the BOE from any and all claims, demands, suits or other forms of liability (including cost and attorney fees) that shall arise out of any action taken or not taken by the BOE for the purpose of complying with the above provision or the authorization form.

Section C. Years of Service Compensation

A payment, based on completed years of service with the district as of August 31, of the current year, will be paid in December, to those employees actively employed as of the payment date.

<u>Years of Service</u>	<u>Amount</u>
0 – 4 years	\$ ----
5 – 9 years	\$ 500
10 – 14 years	\$ 700
15 – 19 years	\$ 1,200
20+ years	\$ 2,000

ARTICLE II BENEFITS

Section A. Vacation

All 261 day full-time administrators shall receive vacation days based upon the number of years served in the district.

0-9 years	20 days
10-19 years	25 days
20 or more years	30 days

If possible, vacation time should be used in blocks of five days or more at one time. Vacation time may be accrued, and will be limited to a ten-day block of time, unless prior approval is obtained from the supervisor.

Approval for use of vacation should be arranged well in advance with the immediate supervisor.

In the event that an employee has one or more days of earned vacation time when the employee resigns his/her position with the district, the employee may receive salary in lieu of the vacation time up to a maximum of 40 days.

If an administrator resigns or is terminated for any cause (including illness) before serving a full year, his or her vacation days for that contract year shall be adjusted on the basis of the actual days worked in relation to the total contract days. Administrators terminated are not eligible to receive salary in lieu of unused vacation days.

No more than thirty (30) days of vacation may be accrued from the end of the year at June 30 to the beginning of the next year on July 1. Up to 5 days, in excess of 30, will be paid out at the rate of \$143 per day. Compensation will be included in the administrator's September paycheck.

Section B. IRC Section 125 "Cafeteria" Fringe Benefit Plan

The Board of Education has established an IRC Section 125 "Cafeteria" Fringe Benefit Plan for all the employees of the district. The options to be included in the plan are:

- a. health/dental insurance (hospitalization)
- b. group term life insurance not to exceed \$50,000
- c. cancer/dread disease insurance
- d. medical expense reimbursement
- e. dependent care expense reimbursement.

Further, an eligible employee may at his/her discretion, forego any reduction in compensation as salary cash.

The above insurance benefits shall be provided by a company or companies approved by the Board of Education.

The board will not be responsible for any service charges assessed by the administering agencies of the program.

Section C. Liability Insurance

The board agrees to include all administrators in the personal and professional liability plan of the school district, a plan written to include all district employees.

Section D. Life Insurance.

The BOE will enter into an agreement for \$50,000 of group term life and accidental death insurance for each full time administrator, with the exception of the Superintendent's Leadership Team, who are entitled to \$100,000 of group term life and accidental death insurance. The BOE will enter an agreement for \$25,000 of group term life and accident insurance for half time or more (but less than full time) administrators. The administrator will have the option of purchasing additional group term life insurance.

Section E. Medical Insurance.

The BOE shall provide each full-time administrator the sum of \$830 per month (increasing to \$900 per month in December 2024) to be used toward the purchase of health and/or dental insurance through the district's group health insurance plan. Part-time administrators will receive a percentage in ratio to their full-time equivalence of employment.

Section F. Employer 403(b) Plan.

A Retirement Plan Portfolio may be established for each USD 457 administrator. This portfolio may contain up to two (2) accounts, an Employer Paid Account and an Employee Paid Account. Each employee is eligible on the first of the month following his/her date of employment.

For each monthly contribution that an administrator makes into their Employee Paid Account, USD 457 will contribute a dollar for dollar matching amount up to \$100 into the Employer Paid Account. Any employee who is eligible for KPERS benefits and makes the necessary contribution into their Employee paid Account is eligible for the matching amount into the Employer Paid Account.

The plan year for the Employer Paid account will be from September 1 through August 31. Any increases or additions to each employee's Employer Paid Account will only be made effective on the first of the month following initial employment or at the beginning of each plan year. If an employee discontinues or reduces his/her Employee Paid Account to less than \$100 per month, the Employer Paid Account will be reduced accordingly.

Upon beginning his/her 6th total year as a USD 457 employee, each administrator will become vested in 10% of the amount contained within his/her Employer Paid Account. The vested portion will continue to increase by an additional 10% per year until the teacher is 100% vested upon beginning his/her 15th year with USD 457. The superintendent will be fully vested in the employer provided 403(b) plan after twelve (12) years of service.

Vesting Schedule:

<u>Years(s)</u>	<u>Amount Vested</u>
1-5	0%
6	10%
7	20%
8	30%
9	40%
10	50%
11	60%
12	70%
13	80%
14	90%
15	100%

An employee who terminates employment with USD 457 after the beginning of his/her 6th year may leave the vested amount in the Employer Paid Account, thereby retaining vesting status upon returning to a position with USD 457 at a future date.

An employee may voluntarily contribute from salary an amount of his/her choosing into the Employee Paid Account. Voluntary contributions may not exceed the amount allowed by Federal and State laws and regulations. An employee who chooses to make contributions into his/her Employee Paid Account will be fully vested in his/her account immediately. Employees may add or increase an Employee Paid Account on September 1 or January 1, but may discontinue an Employee Paid Account at any time.

In the event of considering new options for retirement benefits, a USD 457 Retirement Plan Oversight Committee, made up of representatives from the BOE, administration, GCEA and classified staff, will need to be assembled to select and maintain a group of investment options, including Conservative, Moderate and Aggressive investment tracks. Employees must select from these options for all investments into their Retirement Plan Portfolio. Separate investment options may be made for an employee's Employer Paid Account and his/her Employee Paid Account.

NOTE: This plan in no way limits additional voluntary contributions into separate qualified retirement accounts with qualified providers up to the amounts allowed by State and Federal laws and regulations

An employee may access the vested portion of his/her Employer Paid Account upon termination of his/her employment contract with USD 457.

Employer and Employee Paid contributions and growth thereon will be considered taxable income upon distribution from the plan. Further, a penalty for early withdrawal may apply for distributions made prior to the age allowed by State and Federal laws and regulations. Qualified Rollover options may allow a terminated employee to defer taxation until a later date.

If any provision of this plan is determined to be in violation of Federal or State laws or regulations, then the entire plan shall immediately terminate and shall be of no further force or effect unless re-adopted by the Board of Education of USD 457.

In addition to the Employer Paid match of \$100, the Superintendent's Leadership Team will receive up to \$200 paid as salary to be deducted to their choice of an employee paid annuity account.

Section G. Cell Phone Allowance

The Board shall provide all administrators a monthly allowance of \$80 for the use of a personal phone.

ARTICLE III ADMINISTRATOR EMPLOYMENT CONDITIONS

Section A. Posting Notice of Vacancies Within the District

It is agreed that the superintendent, or designee, shall post notice online through e-mail of any supervisory or administrative vacancies for at least three teaching days before filling said vacancies. (During the summer months, vacancy lists are to be posted in the Educational Support Center.) District personnel may be given consideration for the position upon receipt of their application.

Section B. Administrator's Calendar

All administrators shall have access to a calendar showing contracted working days for the year. All administrators, except those who are on contract for 261 days, may choose a flexible calendar, with the following provisions:

1. The flexible calendar needs to be established by the administrator, approved by the superintendent and turned into the Payroll Office before any non-duty days are worked.
2. A non-duty day must be worked before the administrator can use a duty day as a flex day. The duty day to be used as a flex day must be within 12 months of the non-duty day worked.
3. Holidays (Thanksgiving Day, Christmas Day, etc.), weekends or days at in-service cannot be substituted for duty days.
4. No more than 4 flex days may be used in one fiscal year and an administrator may not be absent for more than 10 teacher contract days for any combination of flexible, personal and professional leave days. Approval of additional days may be granted by the superintendent.

Section C. Resignation and Termination of Employment

A certified administrator who is under contract with the Board of Education may be released from that contract only by formal action of the Board of Education, and when the resignation is deemed to be in the best interests of the district. An administrator requesting a release shall make written application to the Superintendent of Schools stating the specific reason for the requested release. Each request will be judged on its own merits by the Board of Education, with consideration given to the reason for the request, difficulty in promptly filling a vacated position, any disruption to the educational process, and any personnel complications caused by the resignation. The Board of Education shall not be required to release an administrator from a contract.

The Board of Education may assess liquidated damages for certified administrators for a resignation with less than an 8 week notice in the amount of \$2,500 and for \$4,000 for less than a 4 week notice. Classified administrators may be assessed liquidated damages in the amount of \$2,500 for less than a 4 week notice and \$4,000 for less than a 2 week notice.

The liquidated damages for an administrator who works less than full time shall be adjusted on a pro rata basis. The Board of Education may waive assessment of liquidated damages in cases involving illness, unexpected personal or family hardships, or emergency situations.

If liquidated damages are assessed by the Board of Education at a time the Board of Education owes an administrator additional compensation, the Board of Education may withhold the liquidated damages from the administrator's final paycheck. This provision shall be construed to be written consent from an administrator, in compliance with K.S.A. 44-319.

The Board of Education agrees that no further action will be taken after payment of liquidated damages, or waiver of assessment of liquidated damages. An administrator released from a contract shall be released for the remaining term of the contract, regardless if the remaining term is one (1) year or multiple years. An administrator not released from contract will be expected to continue discharge of duties until the end of a contract term, or any subsequent action of the Board of Education releasing the administrator. All liquidated damages shall be paid within fifteen (15) days of notice of the decision of the Board of Education to assess liquidated damages and thereafter, release an administrator from a contract, subject to a suitable replacement being employed by the Board of Education.

An administrator currently under contract shall be determined to be under contract for the next teaching year unless a resignation is submitted on or before May 15th of the current school year. New administrators coming into the district shall be determined to be under contract when a Letter of Intent to Employ has been signed by the administrator and approved by the Board of Education.

At the same time an administrator requests a release from a contract, the administrator may request that liquidated damages be waived by making an application in writing to the Superintendent of Schools stating the specific reason for the requested waiver. Each request will be judged on its own merits, and a hearing will be held before a panel (Appeals Panel) of two administrators appointed by the Administrative Meet and Confer Committee and two administrators appointed by the Superintendent of Schools. The hearing will be held within five (5) working days after the request is received by the Superintendent of Schools. The administrator shall be notified of the date, time and place of the hearing and shall have the opportunity to address the Appeals Panel. The Appeals Panel will make a recommendation to the Board of Education at their next regularly scheduled meeting. The Board of Education may choose to accept or reject the recommendation of the appeals Panel.

An administrator who is not released from a contract by the Board of Education action shall fulfill the terms of the contract, and any action by the administrator resulting in a failure to fulfill the terms of the contract shall amount to a breach of contract and will subject the administrator to any and all legal remedies available to the Board of Education. In the event of a breach of contract by an administrator, appropriate notation of the same will be placed in the administrator's personnel file. The Kansas State Board of Education shall be notified of an administrator who fails to fulfill the terms of a contract, pursuant to K.S.A. 72-5412.

Section D. Payment for District Directed Course Work

If and when the administration directs administrative personnel to take course work to fulfill required assignments or to meet district goals, it is understood that the district may pay the tuition costs of said courses.

Section E. Suspension, Discharge, or Demotion

The superintendent may suspend, discharge, or demote an employee for any one or more of the following reasons: alleged violation of board policy, rule or regulation; the filing of a formal complaint against the employee with any civil authority or with the board charging the employee with the alleged commission of an offense involving moral turpitude; and other just cause. An employee may be suspended with pay. If the suspension is imposed on an employee pending dismissal, the employee is entitled to pay until the employee has had a due process hearing before the board. The hearing shall determine whether the suspension shall be with or without pay and whether the employee will be terminated.

Grievance procedures listed in the Classified Handbook and Negotiated Agreement may be followed for administrative grievances, as applicable. Classified Administrators shall follow procedures from the Classified Handbook and Certified Administrators shall follow procedures outlined in the Negotiated Agreement.

Section F. Complaints Against Administrators

Any complaint regarding an administrator by any parent, student or other person, which might result in an evaluative or disciplinary action, shall be promptly called to the administrator's attention.

The administrator shall receive a copy of any written complaint. The administrator shall have an opportunity to answer the complaint. The administrator's written response will be communicated to the complainant. If the complaint is placed in the administrator's file, any written response by the administrator will be filed along with the written complaint.

If a complaint is not used as a basis for action against the administrator within three years of its entering the file, such material shall be removed and destroyed.

Section G. Retirement of Professional Staff Members

Severance Pay to Retiring Administrators

Upon retirement from the administrative profession and through KPERS, an administrator who has completed fifteen (15) years or more of full time employment with USD 457 shall be entitled to payment, in addition to their normal salary for the last year of employment according to the following compensation schedule:

<u>Service to USD 457</u>	<u>Service as Administrator</u>			
	<u>Less than 10</u>	<u>10-14</u>	<u>15-19</u>	<u>20 or more</u>
15	8%	10%	12%	
16	9%	11%	13%	
17	10%	12%	14%	
18	11%	13%	15%	
19	12%	14%	16%	
20 or more	13%	15%	16.5%	16.67%

In addition, if the employee has 20 or more unused emergency leave days at the end of his/her employment with USD 457, he/she will be entitled to additional pay equal to \$43 for each unused emergency leave day up to 50 total days. Up to 15 days, in excess of 50, will be paid out at the rate of \$143 per day.

Said payment shall be made as part of the administrator's last year of employment prior to such retirement and as part of the consideration of the administrator's last year of service to the school district; provided, however, that to be eligible for such payment the administrator must give written notice to the Personnel Office 6 months prior to his/her intended retirement date, which notice shall be irrevocable upon acceptance by the board; provided further that in the event of the death of such administrator during the last contract year prior to retirement, a sum equal to the administrator's compensation according to the said schedule, prorated by the number of contract days completed by the administrator for that year prior to death, shall be paid to the administrator surviving spouse, or in absence thereof, to the administrator estate. Said years of full-time employment with USD 457 shall consist of both years of employment in the teaching profession and the administrative profession, and need not necessarily be continuous. [Legal reference: K.S.A. 74-4914 as amended]

Section H. Legal Action Against an Employee

In the event of legal action against an administrator of the district, the provisions of the Tort Claims Act (K.S.A. Article 61) will prevail.

Section I. Assault and Battery. Property Damage

Reporting

An administrator who has suffered an assault and/or battery in connection with his/her employment, where such event occurs in school, on school grounds, or while the administrator is engaged in duties at a regularly scheduled school event, shall, within two weeks thereafter, make a written report of the circumstances to the superintendent.

Injury Benefits

Whenever an administrator is absent as a result of personal injury caused by the assault and/or battery reported under paragraph 1, and the BOE finds that the administrator has used reasonable judgment, he/she shall be paid his/her full salary, less any other BOE provided disability benefits, without having such absence charged as sick leave. Such payments shall not extend beyond the end of the administrator's current contract year. The BOE may require medical reports in verification of the disability.

Section J. Administrator's Evaluation

1. In-service

Each administrator will have the opportunity to attend an in-service meeting at which the evaluation instrument and procedures will be explained. Individual administrator and evaluator packets will be distributed. Each packet will include the following:

- a. An overview of the evaluation process, including the procedures for evaluation.
- b. A set of evaluation working papers.
- c. A sample of the final evaluation form.

2. Cycles

A minimum of one evaluation every year will be completed by February 15. Evaluations may occur more often at the request of the administrator or discretion of the evaluator. Request for specific clinical evaluation techniques may be made. These could include such techniques as task analysis, charting, narrative recording, etc.

3. Growth Plan

By October 1, each principal will develop a professional growth plan for the year which, if requested, shall be shared with his/her supervisor.

4. Plan of Assistance

In any situation deemed appropriate, a Plan of Assistance may be developed by the superintendent, supervisor and administrator. This plan should include but not be limited to:

- a. Time line for all activities.
- b. Specific deficiencies.
- c. In-services, observations, and other help provided by the district.
- d. Specific evidence the administrator will provide.
- e. Criteria to be met as determined by the supervisor.

The evaluator will determine the length and outcome of the Plan of Assistance.

5. Evaluator

Principals will be evaluated by the superintendent or his/her designee each year. The superintendent or their designee will provide input for each evaluation in writing.

Assistant Principals will be evaluated by their supervising principal. During the course of the year, if the superintendent or his/her designee has concerns regarding the professional performance of the assistant principal, those concerns will be documented in writing to the assistant principal and copied to the building principal. Those concerns will be reflected in the annual evaluation. Annual evaluations will be reviewed with the deputy superintendent and/or superintendent before being presented to the assistant principal.

6. Observations/Conferences

To assist in determining the evaluation ratings, evaluators will conduct observations during the year and record them on working copies. Observations are defined as visits to the building, etc.

7. Pre-Observation Contact

The evaluator will contact the administrator before each formal observation/conference to gain information about the school and school outcome. The contact may be by telephone, in person, or in writing.

8. Post-observation Conference

A conference may follow the observation. If a conference occurs, it should be conducted following the observation as soon as possible. The administrator and evaluator will each have copies of all written evaluations.

9. Working Copies

Working copies do not become part of any employee's personnel file, but are to be used as a reference when completing the final evaluation form. Input received from others must be presented to the administrator at or prior to the final oral conference.

10. Final Evaluation

The administrator, the evaluator and the personnel office will each have a copy of the final evaluation. Before submitting the evaluations to the school board, all signatures and evaluatee comments, if desired, must be on the evaluation form. The evaluatee's signature indicates completion of an evaluation, not necessarily agreement.

Section K. Professional Dress

The Board of Education encourages appropriate dress that adheres to commonly accepted standards of grooming and dress for all district employees. Appropriate professional dress demonstrates a high regard for education and the teaching profession, and will present an image consistent with job responsibilities and community values and expectations. Appropriate professional dress reflects a shared vision of the district's staff as motivated professionals working toward a common mission. In addition, it strengthens the community's perception toward the district, public schools and the teaching profession.

Since district staff serves as role models, teacher standards of attire should be well beyond what is expected of our students. Professional appearance of staff members includes dress, accessories, body adornments and grooming. Clothing, shoes and accessories are clean, in good repair and promote a working and learning environment that is free from unnecessary disruption.

Professional dress is appropriate during the workday and anytime employees attend work-related activities. Attire should be appropriate for the educational activity to be engaged in that day and should also be appropriate for the role of the teacher or staff member in each activity (ex: PE teachers wearing

athletic apparel). Clothing should convey a professional image by being coordinated, modest and appropriate for a classroom or educational setting.

Professional Dress Guidelines (Minimum):

Men

- Collared shirts. Ties are preferred. Suits and jackets are optional.
- Dress slacks
- Dress shoes or casual shoes, such as leather, suede or loafer styles. Dress boots are acceptable.
- Business casual attire is acceptable on Fridays and to supervise evening events.
- ID badge

Women

- Capri, cropped pants or dress shorts when worn as part of a suit or coordinated outfit.
- Dress shoes, casual shoes, dress boots or dress sandals (no flip-flops).
- Business casual attire is acceptable on Fridays and to supervise evening events.
- ID badge

ARTICLE IV LEAVE PROVISIONS

Section A. Definition of Leave

Leave is a time when any administrator covered by this contract is absent from duty for personal reasons or illness or as otherwise authorized.

1. Personal Leave

The superintendent's leadership team and principals will begin each contract year with three (3) days of personal leave. All other administrators will begin the school year with two (2) days of personal leave.

It is not necessary for the administrator to state the reason for taking personal leave days.

All unused personal leave days at the end of the contract year will be converted to an equal number of emergency leave days.

2. Emergency Leave

The Board of Education recognizes that absences by the administrator at various times throughout the year are unavoidable; however, any absence of the administrator from the building has a detrimental effect. Additionally, the board recognizes that these absences may be of an emergency nature over which the administrator has little or no control. Therefore, the Board of Education has established leave provisions which will aid in preventing undue hardship to the employee during the period of such emergencies. Any absence not provided for herein, or otherwise approved, or any abuse of the provisions of this leave policy may be grounds for disciplinary action, including termination or non-renewal of the employee's contract.

In such event as an employee's absence from work is due to injury sustained in the course of employment, and for which the employee received Worker's Compensation benefits, then the employee shall receive an additional sum from accumulated sick leave as shall cause the total benefits received by such employee to equal the average daily contract rate for each day absent from work.

Section B. Number of Days for Current Year:

All administrators on regular contracts will begin the school year with 11 or 12 days of emergency leave (11 days for 205 day contract and 12 days for 215 day or more contract). Days will be prorated for late starts and early resignations.

Section C. Accumulation of Unused Days:

Administrators new to the district may transfer up to 10 days of emergency leave from their previous district. The emergency leave must be verified in writing by the district from which the leave is being transferred.

Unused emergency leave days may accumulate from year to year to a maximum of 85 days or 90 days (85 days for a 205 day contract and 90 days for a 215 day or more contract).

All administrators who have more than 50 days of unused emergency leave as of June 30 of the current year, and who have a contract for the coming year, or who are retiring under KPERS, may elect to forfeit up to 15 days of the unused emergency leave days in excess of 50 in exchange for \$143.00 per day forfeited.

The administrator must notify the Business Office in writing, stating the number of days for which reimbursement is requested, on or before May 15 of the current year, and will be compensated in his/her September paycheck.

All unused leave days will be converted to an equal number of emergency leave days at end of the year.

Usage of Accumulated Leave Days

Accumulated leave days may be used for personal illness of the administrator or the administrator's immediate family (see definition of immediate family below).

Salary Docking, Leave Related Issues

During the contract period, an administrator will not be docked until all leave days that are to be earned during the current year, plus those previously accumulated, are used. If it becomes necessary for an administrator to resign because of an extended illness, the administrator must reimburse the district for any leave days that were taken but not earned because of his/her abbreviated period of employment. Leave shall not be accumulated during any period of absence of 20 consecutive days for which an administrator is not receiving compensation. Leave shall be taken in increments of ½ day minimum.

When leave is taken for circumstances other than those authorized in this article, the leave shall be classified as "unauthorized" and will result in full salary deduction for the days absent.

Application for Leave

Application for leave must be submitted to the superintendent at least three (3) days in advance on forms provided by USD 457, which are available in the respective buildings. In the event of emergency situations, the minimum of three (3) days advance request may be waived by the superintendent or designee.

Immediate Family Defined

Immediate family shall include spouse, children (and the spouse of children), mother, father, brother, sister (and the spouse of the brother or sister), grandparents, grandchildren, or other relatives whose residence is in the home of the employee.

Section D. Administrative Leave Bank

Purpose:

1. An illness and disability bank shall be established to assist administrators who, as a result of catastrophic or extended illness or injury have exhausted the administrator's accumulated emergency leave, by providing those administrators eligible with additional emergency leave days from the bank.
2. An administrator, due to the birth of a child or adoption of a child under the age of 6, may apply to use up to 5 days of leave from the Bank. The administrator does not need to have exhausted all of their accumulated emergency leave prior to application.

The Bank: At the beginning of each school year, the Board of Education will provide a total of 35 days to the bank to be used as set forth herein. Administrators may also donate leave to The Bank. At least one day per employee must be donated by Oct. 1 in order to have access to use The Bank during that school year. The maximum number of days per year that can be used by administrators will be determined by the number of donated days plus the total provided by the Board of Education.

Eligibility for Participation for Parental Leave: In order to be eligible to participate in withdrawals from The Bank, an administrator must meet all of the following criteria.

1. Must have donated at least one day of their own leave during the designated donation period.
2. Apply prior to the birth of a child, or adoption of a child under the age of 6.
3. Must submit an application for use of bank days to the Chief HR Officer on forms provided by district and must submit all additional information requested.
4. No consideration shall be given to whether or not the administrator is receiving salary protection under the group salary protection insurance that is available to District employees.
5. No consideration shall be given for seniority.
6. Bank days credited may not exceed 5 days for any one application.

Eligibility for Participation for Illness or Disability: In order to be eligible to participate in withdrawals from the bank, an administrator must meet all of the following criteria:

1. The administrator must have donated at least one day of their own leave during the designated donation period.
2. The administrator must have exhausted all of their accumulated paid time off. For participation in the bank, the employee must have used all emergency leave days, including sick leave, personal leave days, and vacation days, where applicable. In the event an administrator has unused personal leave days, those days will be applied as sick leave days until all such days have been used.
3. The illness or injury suffered by the administrator or administrator's spouse or child must be of such a nature that prevents the administrator from fulfilling his/her duties for a period of at least 5 consecutive school days after all emergency leave days have been used.
4. The administrator must submit an application for use of bank days to the Chief HR Officer on forms provided by the district and must submit all additional information as requested by the committee.
5. Bank days credited may not exceed twenty (20) days for any one application. In the event the administrator's disability extends beyond the number of bank days credited, the administrator may reapply for additional days; provided, however that no one applicant may receive more than 50 days during any school year.

Procedure: The eligible administrator, as determined by the above criteria must file an application for use of bank days on forms provided by the Chief HR Officer. The application should be filed as soon as all of the above criteria have been met, or in advance thereof, if medical evidence is available indicating a reasonable expectation that all criteria will be met.

The Chief HR Officer (or their designee) will render a decision or seek additional information within 5 business days of the receipt of any such application. The decision will be delivered in writing, and if the application is denied, a specific criterion/a will be cited for the decision.

The administrator receiving bank days shall be paid 100% of his or her daily rate of pay per day.

Unused Balance: All unused days at the end of the year will be converted to its equal monetary value (average daily rate of certified employee participants) and applied to the following year's health fund to help offset potential insurance premium increases.

Section E. Extended Leaves

Administrators are entitled, subject to approval of the board, to extended leaves for study, health, illness of spouse, child or parent, maternity, paternity, adoption or military service. Such extended leaves shall normally be for one semester or one school year. An extended leave may be lengthened to include a second year under the same provisions which applied to the first year of extended leave. No extended leave shall be considered a termination of employment.

An administrator shall:

- a. be subject upon his/her return from extended leave to the salary schedule of the current school year;
- b. retain accumulated leave days, but additional leave days shall not accumulate during the term of extended leave;
- c. be permitted to retain membership, during extended leave, in the board health insurance group for the period of time allowable by the insurance company. However, arrangements for payment of premiums must be made in advance with the Business Office and the board shall make no contribution;
- d. prior to resuming duties on return from an extended leave for maternity or health, present to the Personnel Office a statement from a physician that the administrator is physically able to resume normal duties required of his/her assignment. If requested by the Personnel Office, confirmation of the physician's statement by another physician selected by the board may be required at the expense of the board. Maternity, as used herein, includes pregnancy, childbirth, false pregnancy, termination of pregnancy and recovery therefrom.

The superintendent may authorize, subject to the approval of the board, an extended leave for any other purpose not expressly identified above.

Section F. Jury Duty Leave

Full-time administrators shall receive their regular pay while serving jury duty. The employee shall reimburse USD 457 all money received for jury duty except the amount allowed for meals and mileage.

Section G. Leave for Legal Matters

Employees may use personal leave for legal matters. In the absence of personal leave, the superintendent, or his authorized representative, may grant legal leave, without pay, to attend to the following legal matters:

1. Subpoena (*see below)
2. Personal lawsuits
3. Tax issues
4. Divorce actions
5. Other legal matters which the employee cannot reasonably do other than during the working day

*When an administrator is served a court subpoena not related to his/her administrative duties and he/she has no personal leave days available, said member may apply to the superintendent, or his designated representative, for the use of accumulated leave days for this purpose.

Section H. Bereavement Leave

Employees are permitted to use emergency leave to attend funerals for members of the administrator's immediate family, or the immediate family of the administrator's spouse. For purposes of this leave agreement, immediate family will include: spouse, children, mother, father, brother, sister (and the spouse of the brother or sister), grandparents, grandchildren or other relatives whose residence is in the home of the employee.

Up to five emergency leave days may be granted to an administrator to attend the funeral of a member of the administrator's immediate family as defined above. The number of days to be granted shall be determined by the Superintendent of Schools or the designated representative, taking into consideration the circumstances involved.

Section I. Other Leave Provisions

Absences from duty other than the above will require the prior approval of the superintendent or designee. Such release time will be in the nature of meetings, such as in-service training sessions and activity program sponsorship. In such cases release time will be granted without loss of leave time and there will be no deduction of salary.

Section J. Educational Leave

All requests for educational leave must be approved in advance by the Superintendent. Requests for educational leave will be considered for the completion of district administrative certification or completion of a doctorate program in school administration.

Educational leave will be considered in two categories:

Compensatory time

Accumulation of comp time must be approved by the superintendent in advance. Comp time must be accumulated and used in not less than one-half day increments. Comp time will be recorded on a log sheet approved by the superintendent. When using comp time, the administrator will complete a professional leave form and notate that the leave is for educational purposes and a copy of the approved log of comp time will be attached.

Research projects related to district interests

Research projects related to district interests must be approved in advance by the superintendent. The superintendent will determine the amount of time approved for work on each respective project. When using approved research time, a professional leave form should be completed as above.

ARTICLE V MISCELLANEOUS ITEMS

Section A. Administrative Travel

It is recognized that administrators and principals may have the need for daily in or out of district travel to include such things as building visits, meetings at the ESC or other district buildings, various activities, or possible transportation of students.

All administrators will be compensated at \$100 per month actively working on contract. In lieu of administrative travel, the Superintendent shall receive a motor vehicle allowance as specified in their employment contract.

In addition to the monthly allowance, the principals at Jennie Barker and Plymell Elementary Schools shall receive a mileage allowance for employees who work at rural attendance centers.

Administrators wishing to attend professional meetings at their own expense may be allowed the necessary time to do so without salary deduction. Such requests are to have the prior approval of the superintendent.

Section B: Professional Conferences/Professional Fees

Conference attendance is of direct benefit to the district; therefore, administrators may select for attendance a national conference every year and a state conference every year. Principals new to the district may not attend a national conference in their first year of employment unless approved in advance by the superintendent.

Any proposed national conference attendance for the year shall be filed with the superintendent by November 1st, or at least two months in advance of the meetings, whichever date comes first, complete with details of the conference program, if known, as well as location of the conference and cost estimates, including registration, lodging, meals and travel. The conference should be tied to the administrator's goals or school improvement plan.

Conference attendance shall not remove from any intermediate, middle school or high school all principals on the same date. Conference attendance shall not take from the district more than five elementary school principals at the same time (any exceptions must be approved by the superintendent). All administrators of USD 457 are representing Garden City Public Schools while out of town on professional leave and should conduct themselves accordingly.

Leadership Team members may be reimbursed up to \$500 per year for Civic Organization fees.

Section C: Moving Expense

Up to \$3,000 will be paid for actual moving expenses for any person hired as deputy superintendent and up to \$2,000 will be paid for actual moving expenses for any person hired as a director or principal. The administrator must move within one year of his/her first day of work in order to receive reimbursement for moving expenses.

Section D: Professional Staff Schedules

Principals - Work Days

The number of workdays for the school calendar year will be as follows:

Elementary Principals	205 workdays
Intermediate Principals	215 workdays
Middle School and High School Associate Principals	215 workdays
Middle School and Alternate/Virtual School Principals	220 workdays
Senior High School Principal	260 workdays
Senior High Activities Director	260 workdays

Principals - Duty Year

The duty year for principals will begin approximately August 1. Please consult your employment contract for beginning and ending duty dates.

Sometimes it is necessary to interview prospective staff during the summer when a principal is on vacation and not under contract.

Principals - Hours

All "work days" for administrative staff are a minimum of 8 hours per day. There will be times when all administrators are expected to work outside their normal 8-hour day.

Compensatory time can only be used for educational leave (see *page 18*). There may be rare occasions when compensatory time may be requested due to unusual circumstances above and beyond the normal duties of the administrator. In these situations, compensatory time must be approved by the superintendent.

As much as possible, all district offices should be staffed by an administrator between the hours of 8:00 a.m. and 5:00 p.m. School buildings should be staffed with a principal at least 30 minutes before the start of the school day and 40 minutes after the end of the school day. All administrators should take a reasonable lunch break every day.

Section E: In-Service Attendance

SCHOOL RESOURCE OFFICER AGREEMENT

THIS SCHOOL RESOURCE OFFICER AGREEMENT ("Agreement") is entered into this ____ day of August, 2024, by and between the CITY OF GARDEN CITY, KANSAS ("City"), the GARDEN CITY POLICE DEPARTMENT ("GCPD"), and the BOARD OF EDUCATION OF UNIFIED SCHOOL DISTRICT NO. 457 ("USD 457").

For and in consideration of the mutual promises, terms, covenants, and conditions set forth herein, the parties agree as follows:

1. **Purpose of Agreement.** The purpose of this Agreement is for the City to assign uniformed law enforcement officers (hereinafter referred to as "SROs"), vehicles, radios and all necessary equipment for the School Resource Officer Program. SROs will work with school personnel in providing alcohol and drug education, maintaining a safe campus environment, serving as a law enforcement problem-solving resource, and providing the appropriate response during on-campus or school related criminal activity.

2. **Term.** The term of this Agreement shall be from the first day of school in August 2024 through the last day of school in May 2025, as designated by USD 457's academic calendar, provided that the term may be extended by USD 457 as it deems necessary to satisfy attendance requirements that may have been affected by weather or other factors. During days that schools are not in session, SROs shall perform regular police duties at a duty station as determined by the City's Chief of Police.

3. **Termination.** This Agreement may be terminated without cause by either party upon 30 days prior written notice.

4. **Relationship of Parties.** The City and SROs shall have the status of an independent contractor of USD 457 for purposes of this Agreement. All SROs assigned to USD 457 shall be considered employees of the City, subject to the City's control and supervision. Assigned SROs will be subject to current procedures in effect for City police officers, including attendance at all mandated training and testing to maintain state law enforcement officer certification. USD 457 agrees to cooperate with the City in any administrative investigation regarding violations of such procedures by SROs assigned to USD 457. This Agreement is not intended to and will not constitute, create, give rise to, or otherwise recognize a joint venture, partnership, or formal business association or organization of any kind between the parties, and the rights and obligations of the parties shall be only those expressly set forth in this Agreement. The parties agree that no person supplied by USD 457 to accomplish the goals of this Agreement is a City employee and that no rights under City civil service, retirement, or personnel rules accrue to such person.

The City will continue to maintain all records concerning the performance of services here listed, including SRO employment records and any reports required by the City's Standards of Conduct or Standard Operating Procedure.

5. **Consideration.** USD 457 shall pay to City, the sum of Three Hundred Eleven Thousand Six Hundred Eight and 95/100 Dollars (\$311,608.95), for the services of four (4) law enforcement officers for the 2024-25 school year. The payments from USD 457 to City shall be made as follows: One Hundred Fifty-five Thousand Eight Hundred Four and 47/100 Dollars (\$155,804.47) on or before December 15, 2024, and the remaining amount of One Hundred Fifty-five Thousand Eight Hundred Four and 47/100 Dollars (\$155,804.47) on or before June 15, 2025. The amount paid by USD 457 represents three-fourths of the total salary and benefits to be paid to the law enforcement officers.

6. **SRO Responsibilities.** SROs assigned to USD 457 shall:

- f. Present educational programs to students and school staff on topics agreed upon by both parties.
- g. Refer students and/or their families to the appropriate agencies for assistance when a need is determined.
- h. Notify the building principal as soon as practicable of any significant enforcement event or public safety threat, including advising the building principal prior to taking legal action, subject to the SRO's duties under the law (unless, in the SRO's professional opinion, circumstances prevent prior notice).
- i. Refer violations of USD 457's discipline code to USD 457 administration. SROs shall not act as school disciplinarians, nor make recommendations regarding school discipline. USD 457 administrators are solely responsible for school discipline and will not request the SROs assistance in such matters. SROs shall not be involved with the enforcement of school rules or disciplinary infractions that are not violations of law.
- j. SROs are not to be used for regularly assigned lunchroom duties, as a regular hall monitor, bus duties or other monitoring duties. If there is an unusual/temporary problem in one of these areas, SROs may assist USD 457 employees until the problem is solved.
- k. Provided further that nothing required herein is intended to nor will it constitute a relationship or duty for the assigned SROs or the City beyond the general duties that exist for law enforcement officers within the State.

- I. Maintain the confidentiality of student records, as outlined in paragraph 11 below.

7. **Time and Place of Performance.** The City will make all reasonable efforts to have an SRO available for duty at his or her assigned school each day that school is in session during the regular school year. - b. School related off-campus activities when SRO participation is requested by the principal and approved by the City.

- b. USD 457 will report crimes to law enforcement in accordance with USD 457's board policy. The City will be the primary investigative agency of such crimes that are reported to them by USD 457.

9. **Search and Seizure; Interrogations.**

- a. Any searches of students and any searches and/or seizures of property conducted by SROs for law enforcement purposes shall be limited to and performed in accordance USD 457's school board policies, so long as those policies do not conflict with GCPD Standard Operating Procedure.
- b. Any interviews of students conducted by SROs for law enforcement purposes shall be limited to and performed in accordance with USD 457's school board policy, so long as the policy does not conflict with GCPD Standard Operating Procedure, attached hereto.

10. **Student Records.** The release of student records is governed by Family Educational Rights and Privacy Act (20 U.S.C. § 1232g; 34 CFR Part 99) ("FERPA"). For purposes of access to student records, SROs are considered a "school official" and may be provided students'

personally identifiable information ("PII") on an as-needed basis to carry out SRO duties for legitimate educational purposes. In addition, SROs may only use PII for the purpose for which the disclosure was made and to promote school safety and the physical security of students. SROs, acting as school officials, may request student records from a USD 457 administrator for legitimate educational purposes. SROs may not disclose PII obtained from student records, without prior written consent, to others, including other officers who are not acting in the capacity as school officials, unless the disclosure fits within one of the exceptions to consent in FERPA.

11. **Indemnity.** Indemnification for both parties will be governed by the Kansas Tort Claims Act.

12. **Miscellaneous.**

- a. This Agreement is subject to the terms of Form DA146a (Rev. 07/19), which is attached hereto to and made part of this Agreement as though fully set forth in this Agreement.
- b. Neither the City nor USD 457 may assign this Agreement without the prior written approval of both parties.
- c. Nothing in this Agreement shall be construed as a limitation on the powers, rights, authority, duty and responsibilities conferred upon either party under Kansas law.
- d. In the event any provision of this Agreement is held by a court to be illegal, void, or otherwise unenforceable, all other provisions of this Agreement shall continue in full force and effect to the maximum extent permitted by law.
- e. The failure of either party to enforce one or more provisions of this Agreement with respect to any particular breach shall not be deemed or construed to constitute a waiver of any other breach of this Agreement.
- f. This Agreement constitutes the entire understanding and agreement of the parties with respect to the subject matter contained herein and supersedes all prior agreements concerning the same subject matter, whether written or oral. This Agreement may be modified only by a writing signed by both parties.
- g. The parties may execute this Agreement in counterparts. The parties represent and warrant that each respective signatory is fully authorized to enter into and to execute this Agreement on behalf of the named party.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed on the day and year first above written.

Model Notification of Rights under FERPA for Schools

The Family Educational Rights and Privacy Act (FERPA) affords parents and students who are 18 years of age or older ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 45 days after the day the [Name of school ("School")] receives a request for access.

Parents or eligible students who wish to inspect their child's or their education records should submit to the school principal [or appropriate school official] a written request that identifies the records they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.

Parents or eligible students who wish to ask the [School] to amend their child's or their education record should write the school principal [or appropriate school official], clearly identify the part of the record they want changed, and specify why it should be changed. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

3. The right to provide written consent before the school discloses personally identifiable information (PII) from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. The criteria for determining who constitutes a school official and what constitutes a legitimate educational interest must be set forth in the school's or school district's annual notification for FERPA rights. A school official typically includes a person employed by the school or school district as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel) or a person serving on the school board. A school official also may include a volunteer, contractor, or consultant who, while not employed by the school, performs an institutional service or function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, medical consultant, or therapist;

a parent or student volunteering to serve on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another school official in performing his or her tasks. A school official typically has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

[Optional] Upon request, the school discloses education records without consent to officials of another school or school district in which a student seeks or intends to enroll, or is already enrolled if the disclosure is for purposes of the student's enrollment or transfer. [NOTE: FERPA requires a school or school district to make a reasonable attempt to notify the parent or student of the records request unless it states in its annual notification that it intends to forward records on request or the disclosure is initiated by the parent or eligible student.]

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the [School] to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Student Privacy Policy Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202

[NOTE: In addition, a school may want to include its directory information public notice, as required by § 99.37 of the regulations, with its annual notification of rights under FERPA.]

[Optional] See the list below of the disclosures that elementary and secondary schools may make without consent.

FERPA permits the disclosure of PII from students' education records, without consent of the parent or eligible student, if the disclosure meets certain conditions found in § 99.31 of the FERPA regulations. Except for disclosures to school officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory information, and disclosures to the parent or eligible student, § 99.32 of the FERPA regulations requires the school to record the disclosure. Parents and eligible students have a right to inspect and review the record of disclosures. A school may disclose PII from the education records of a student without obtaining prior written consent of the parents or the eligible student –

- To other school officials, including teachers, within the educational agency or institution whom the school has determined to have legitimate educational interests. This includes contractors, consultants, volunteers, or other parties to whom the school has outsourced institutional services or functions, provided that the conditions listed in § 99.31(a)(1)(i)(B)(I) - (a)(1)(i)(B)(3) are met. (§ 99.31(a)(1))
- To officials of another school, school system, or institution of postsecondary education where the student seeks or intends to enroll, or where the student is already

enrolled if the disclosure is for purposes related to the student's enrollment or transfer, subject to the requirements of § 99.34. (§ 99.31(a)(2))

- To authorized representatives of the U. S. Comptroller General, the U. S. Attorney General, the U.S. Secretary of Education, or State and local educational authorities, such as the State educational agency (SEA) in the parent or eligible student's State. Disclosures under this provision may be made, subject to the requirements of § 99.35, in connection with an audit or evaluation of Federal- or State-supported education programs, or for the enforcement of or compliance with Federal legal requirements that relate to those programs. These entities may make further disclosures of PII to outside entities that are designated by them as their authorized representatives to conduct any audit, evaluation, or enforcement or compliance activity on their behalf, if applicable requirements are met. (§§ 99.31(a)(3) and 99.35)
- In connection with financial aid for which the student has applied or which the student has received, if the information is necessary for such purposes as to determine eligibility for the aid, determine the amount of the aid, determine the conditions of the aid, or enforce the terms and conditions of the aid. (§ 99.31(a)(4))
- To State and local officials or authorities to whom information is specifically allowed to be reported or disclosed by a State statute that concerns the juvenile justice system and the system's ability to effectively serve, prior to adjudication, the student whose records were released, subject to § 99.38. (§ 99.31(a)(5))
- To organizations conducting studies for, or on behalf of, the school, in order to: (a) develop, validate, or administer predictive tests; (b) administer student aid programs; or (c) improve instruction, if applicable requirements are met. (§ 99.31(a)(6))
- To accrediting organizations to carry out their accrediting functions. (§ 99.31(a)(7))
- To parents of an eligible student if the student is a dependent for IRS tax purposes. (§ 99.31(a)(8))
- To comply with a judicial order or lawfully issued subpoena if applicable requirements are met. (§ 99.31(a)(9))
- To appropriate officials in connection with a health or safety emergency, subject to § 99.36. (§ 99.31(a)(10))
- Information the school has designated as "directory information" if applicable requirements under § 99.37 are met. (§ 99.31(a)(11))
- To an agency caseworker or other representative of a State or local child welfare agency or tribal organization who is authorized to access a student's case plan when such agency or organization is legally responsible, in accordance with State or tribal law, for the care and protection of the student in foster care placement. (20 U.S.C. § 1232g(b)(1)(L))

- To the Secretary of Agriculture or authorized representatives of the Food and Nutrition Service for purposes of conducting program monitoring, evaluations, and performance measurements of programs authorized under the Richard B. Russell National School Lunch Act or the Child Nutrition Act of 1966, under certain conditions. (20 U.S.C. § 1232g(b)(1)(K))

The City of Garden City, Kansas (the "City"), on behalf of its unincorporated agency, the Garden City Police Department ("GCPD"), and Unified School District No. 457 ("USD 457"), mutually agree that maintaining an atmosphere where teachers feel safe to teach, and students feel safe to learn, benefits the Garden City community and society as a whole. To foster this goal, GCPD has created a School Resource Officer ("SRO") Program. The SRO Program ("Program") consists of specially trained GCPD law enforcement officers assigned to USD 457 high school and middle schools, who provide education, intervention, counseling, deterrence, and law enforcement, not only to students and staff, but also to the Garden City community. SROs also provide support to USD 457 intermediate and elementary schools as time and resources permit.

B. Relationship of Parties

SROs shall be employees of the City/GCPD and subject to their control and supervision. Nonetheless, USD 457 shall designate each SRO as a "school official" and a "law enforcement unit," as both terms are defined by the Family Educational Rights and Privacy Act ("FERPA"), 20 USC§ 1232g, and associated regulations.

This Agreement does not constitute, create, give rise to, or otherwise recognize a joint venture, partnership, or formal business association or organization of any kind between the parties. The parties agree that no employees they respectively assign to accomplishing the goals of the Agreement shall in any way be considered employees of the other party, nor shall they be entitled to any employee benefits provided by the other party.

C. Description of General Duties

1. SROs will:

- a. Present law-related curriculum to USD 457 students, staff, and parents.
- b. Provide USD 457 students, staff, and parents law-related guidance and information on available community resources.

- d. Provide a positive law enforcement presence in USD 457 schools and community. SROs will investigate matters which involve USD 457 students and work closely with school administrators. SROs will also serve as a liaison between USD 457 school administrators and the GCPD.

 - a. Work cooperatively with the SROs and GCPD to ensure safety in the facilities to which SROs are assigned.
 - b. D. Desired Outcomes

The program is intended to produce the following outcomes:

1. A decrease in criminal activities - particularly violence, gangs, illegal drugs vandalism, and thefts - on USD 457 school properties to which SROs are assigned, and at USD 457 sponsored events and activities SROs attend at the request of USD 457 administrators.

16. SROs will direct any media representatives who contact them to the SRO Program supervisor or other appropriate GCPD supervisor.

17. GCPD acknowledges that when its SROs are provided access to or allowed to inspect any student records maintained by USD 457, release of such records and any information gleaned from them is governed by FERPA, and it agrees the SROs will abide by FERPA.
