RE: Land Surveying Services

SUMMARY:

According to Board Policy CH(LEGAL), "The purchasing requirements of Education Code Section 44.031 do not apply to a contract for professional services rendered, including the services of an architect, attorney, or fiscal agent. … Competitive bids shall not be solicited for professional services of any licensed or registered certified public accountant, architect, landscape architect, land surveyor, physician, optometrist, professional engineer, state-certified or state-licensed real estate appraiser, or registered nurse. Contracts for these professional services shall be made on the basis of demonstrated competence and qualifications to perform the services and for a fair and reasonable price. *Gov't Code 2254.002, 2254.003(a)* [See also CV] "

Further, Board Policy CV(LEGAL) states "In procuring architectural, engineering, or land-surveying services, the District shall 1. First select the most highly qualified provider on the basis of demonstrated competence and qualifications; and 2. Then attempt to negotiate a contract with that provider at a fair and reasonable price. If a satisfactory contract cannot be negotiated with the most highly qualified provider of architectural, engineering, or land-surveying services, the District shall formally end negotiations with that provider, select the next most highly qualified provider, and attempt to negotiate a contract with that provider at a fair and reasonable price. The District shall continue this process until a contract is entered into."

We issued a request for proposals for Land Surveying Services in February, 2007. We received one proposal. Sharay Boynton, Executive Director of Finance and Randy Leach, Director of Facilities reviewed the proposal, based on the instrument addressed in the proposal process. Copy of the evaluation summary is attached. A copy of the proposal is included with this recommendation.

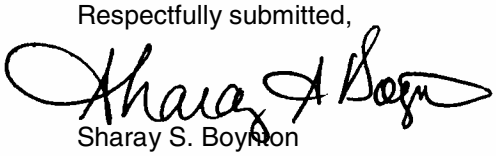

The time period addressed in the RFP was an initial 3 year period with an option to renew for an additional 2 years if the parties agree.

It is important that the firm be named as soon as possible so that preliminary field work can be done for the upcoming building projects.

RECOMMENDATION:

That the Board approve the Wallace Group to provide Land Surveying Services for Granbury ISD for the period of award notice to March 31, 2010.

RE: Construction Budget

SUMMARY:

In December, the Board made the decision to continue researching the following construction projects.

- New Agricultural Science Complex
- GHS Baseball Field and Tennis Court Renovations and Additions
- Elementary/Intermediate Renovations and Additions.

Ms. Leesa Vardeman and Mr. Chad Davis with VLK Architects have been working with administration and staff on these projects. The conceptual drawings and budgets have been addressed with the Board.

The project costs at this time are projected to be $6,840,906. Five percent added to that amount due to timing and construction cost increases projected over the next several months that it will take to build the facilities would result in a projected cost of $7,182,951. Administration recommends that the budget for these projects be established at $7,250,000.

RECOMMENDATION:

Recommend that the Board approve the construction budget of $7,250,000 for the construction of the New Agriculture Science Complex, GHS Baseball Field and Tennis Court Renovations and Additions, and the Elementary/Intermediate renovations and Additions to be funded from the District's Fund Balance.

		RE:	Dual Credit Courses

SUMMARY:
The committee proposes that Dual Credit courses be weighted the same as Advanced Placement courses in order to enhance our Dual Credit offerings at the High School. This would benefit our students by providing additional opportunities and giving many students an early start to college. This is a great financial benefit to our parents, also. Recently the Granbury HS principal, counselors, Jan Van Dorn, Sharon Whitefield and William Harris met with Dr. Don Tomas and Vickie Traweek from Weatherford College to discuss the availability of dual credit course offerings at GHS. Each group desires to offer more opportunities for our students. The groups also discussed having the dual credits weighted equal to Advanced Placement courses.

The Administration recommends approval of the proposal.
