The salary committee representative, Judith Willingham addressed the board with items discussed by the salary committee for consideration during the budget process. Recommendations by the salary committee were (1) all classroom teachers with a master degree should be eligible for the MA/MS salary schedule for teacher, (2) the district should study the feasibility of phasing in the use of professional technical instructional assistants on each campus, (3) provide another substantial, general increase for all positions which lag further behind the market than other similar positions in the district, i.e., manual trades positions, some clerical positions and other positions to avoid unintended intra-schedule compression and (4) study the extra duty pay for Team Leaders, Lead Teacher and Department Chair. Consider raising the elementary/intermediate to $1,000 per position and setting $1,000 as the minimum for secondary department chairpersons plus an additional $100 per teacher above 10 teachers.

Executive Director of Human Resources, Troy Green, provided proposed salary recommendations to the board. The proposed beginning salary for a teacher with a bachelor's degree would be $42,000, an increase of $3,500. There will be 31 steps on the proposed teacher's pay scale with teachers with a Masters degree receiving an additional $2,160. On average, teachers and librarians will receive a 6.22% pay increase; administrative/professionals a 6% increase; clerical/paraprofessional a 7.23% increase; manual trades a 16.39% increase and mechanical/technology a 21.2% increase. Green also discussed the estimated costs for a child care facility for district employees and he provided preliminary information regarding the district providing employees with membership in the CareFlight program for emergency medical transportation.

Other items discussed during the budget workshop were the general operation budget presentation, the construction budget presentation, the debt service budget presentation and the food service budget presentation.

Based on the proposed budget, the total tax rate would be $1.17175 with a Maintenance and Operation tax rate of $1.006715 and a Debt Service rate of $0.165.

A special board meeting was scheduled for Monday, August 6, 2007 at 6:00 p.m. to consider the proposed tax rate and salary schedule. Final action on the budget and tax rate will be taken at the regular board meeting on August 27, 2007.

RE: Tires & Tubes Bid No. 2006-08 Renewal

SUMMARY:

Tires and tubes for the district are purchased on an as needed basis. Purchases have been being made using the State contract. A bid was let to provide vendors for tubes and tires for the 2006-2007 school year with the option to renew for two additional one-year terms if agreed to by all parties. The current contract expired July 31, 2007.

Mr. Terry Slemmons, Transportation Director, was contacted regarding the renewal of this bid. It was his opinion to renew. Southern Tire Mart was contacted regarding renewing the bid. Southern Tire mart did not want to extend their contract with GISD due to pricing increase. GISD can continue to purchase from this vendor through the Buy Board or TXMAS inter-local contracts. The pricing offered last year was the exact pricing as was on both of these interlocals.

Prior to last year, we had purchased all tires using the State contract. However, since we were standardizing on the type of tire, we thought we might be able to receive lower prices if we bid the items. We did not receive lower prices and only 1 other vendor responded on time. Therefore, it is the recommendation of Mr. Slemmons and Ms. Herrin that we purchase from interlocals at the time of need.

The anticipated annual expenditure is $20,000 for tires and tubes.

RECOMMENDATION:

It is recommended that GISD purchase tires and tubes from the interlocal options at time of need.

RE: Adult Breakfast Price Increase

SUMMARY:

With the new Commodity Assistance value that just came out, we were asked to re-look at the Adult Meal Pricing to make sure we are charging enough according to TDA guidelines. Diep Nguyen has provided the following calculations

There are two methods we can use to calculate Adult Meal Pricing according to the Texas Administrator's Reference Manual (can be found on squaremeals.org):

Method 1:

Lunch: Add = Highest Student Meal Price ($2.25) + Federal Reimbursement Rate for Paid Student ($0.23) + Commodity Value Assistance (for 2008=$0.2084) = $2.69
We currently charge $2.75, which is fine here.

Breakfast: Add = Highest Student Meal Price ($1.50) + Federal Reimburse Rate for Paid Student ($0.24) = $1.74
We currently charge $1.60, so we are not charging enough here and need to make a change.

Method 2:

Lunch: Add = Federal Reimbursement Rate for Free Student (for 2008=$2.47) + Commodity Value Assistance ($0.2084) = $2.68
We are still OK using this method since we normally charge $2.75

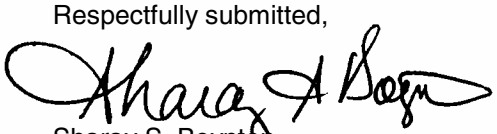

Breakfast: Charge = Federal Reimbursement for a Free Student = $1.61
We are still not charging enough here since we only charge $1.60.

After reviewing the above calculations and current budget, the following is Ms. Nguyen and my recommendation.

RECOMMENDATION:

It is recommended that the meal prices for 2007-2008 Adult Breakfast price be $1.75.

RE: Technology Purchases – DIR/CISV

SUMMARY:

Board Policy CH(LOCAL) requires board approval on purchases in excess of $25,000. The policy states "The Board delegates to the Superintendent or designee the authority to make budgeted purchases for goods or services. However, any single, budgeted purchase of goods or services that costs $25,000 or more, regardless of whether the goods or services are competitively purchased, shall require Board approval before a transaction may take place".

Technology purchases are all purchased using the DIR and CISV interlocal agreements the District has entered into. DIR and CISV award contracts via an approved purchasing method. GISD is able to purchase directly from their contracts without going through the formal bid process. GISD uses these resources to gather quotes for purchasing decisions at the time of the purchase. The following purchases are planned to occur prior to August 31, 2008 by the technology department. Since these purchases could exceed the $25,000 amount, they need to be approved by the Board.

RE: Adoption of Tax Rate

SUMMARY:

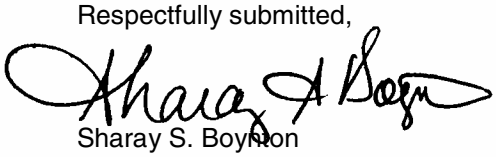

The budgets are to be adopted by the Board at the August 27, 2007 meeting. The tax rate will have to be set to raise the revenue needed to fund the budgets.

The tax rate can not be set until such a time as TEA has approved the District's Letter of Intent on the methods to be used to lower the wealth per WADA as a result of the Chapter 41 status. I talked with TEA Chapter 41 office and they have stated that the letter should be received in the District end of this week.

RECOMMENDATION:

That the attached resolution be adopted as presented setting the M & O tax rate to $1.00615 and the Debt tax rate to $.165 for a total tax rate of $1.17115.

Respectfully submitted,

Sharay S. Boynton

STUDENT RIGHTS AND RESPONSIBILITIES: INTERROGATIONS AND SEARCHES — FNF (LOCAL)

INTERROGATIONS BY BY SCHOOL OFFICIALS

Administrators, teachers, and other professional personnel may question a student regarding the student's own conduct or the conduct of other students. In the context of school discipline, students have no claim to the right not to incriminate themselves.

BY POLICE OR OTHER AUTHORITIES

For provisions pertaining to student questioning by law enforcement officials or other lawful authorities, see GRA (LOCAL).

LOCKERS AND VEHICLES

Students have full responsibility for the security of their lockers, and for vehicles parked on school property. It is the student's responsibility to ensure that lockers and vehicles are locked and that the keys and combinations are not given to others. Students shall not place, keep, or maintain any article or material that is forbidden by District policy in lockers or in vehicles parked on school property.

School officials may search lockers, or vehicles parked on school property, if there is reasonable cause to believe that they contain articles or materials prohibited by District policy. Students shall be responsible for any prohibited items found in their lockers or in vehicles parked on school property.

If a vehicle subject to search is locked, the student shall be asked to unlock the vehicle. If the student refuses, the District shall contact the student's parents. If the parents also refuse to permit a search of the vehicle, the District may turn the matter over to local law enforcement officials.

USE OF TRAINED DOGS

The District shall use specially trained nonaggressive dogs to sniff out and alert officials to the current presence of concealed prohibited items, illicit substances defined in FNCF (LEGAL), and alcohol. This program is implemented in response to drug and alcohol related problems in District schools, with the objective of maintaining a safe school environment conducive to education.

Such visits to schools shall be unannounced. The dogs shall be used to sniff vacant classrooms, vacant common areas, the areas around student lockers, and the areas around vehicles parked on school property. The dogs shall not be used with students. If a dog alerts to a locker, a vehicle, or an item in a classroom, it may be searched by school officials. Searches of vehicles shall be conducted as described above.

NOTICE

At the beginning of the school year, the District shall inform students of the District's policy on searches, as outlined above, and shall specifically notify students that:

1. Lockers may be sniffed by trained dogs at any time.

2. Vehicles parked on school property may be sniffed by trained dogs at any time.

3. Classrooms and other common areas may be sniffed by trained dogs at any time when students are not present.

4. If contraband of any kind is found, the possessing student shall be subject to appropriate disciplinary action in accordance with the Student Code of Conduct.

PARENT NOTIFICATION

The student's parent or guardian shall be notified if any prohibited articles or materials are found in a student's locker, in a student's vehicle parked on school property, or on the student's person, as a result of a search conducted in accordance with this policy.

MANDATORY DRUG TESTING

Any student in grades 7-12 who is a member of a campus organization that engages in extracurricular activities shall be subject to the mandatory student drug-testing program.

Testing shall be done in accordance with accepted practices and procedures as established by the drug testing laboratory affiliated with the District. The testing parameters shall be set at industry accepted standards.

The District reserves the right to test for the following substances; alcohol, amphetamines, barbiturates, benzodiazepines, cocaine, marijuana, methadone, nicotine, opiates, phencyclidine, propoxyphene, and hallucinogens, steroids, and all other illegal or addictive drugs.

Sample collection shall be done by random tests throughout the school year. Students who test positive shall be tested again at the discretion of the program coordinator.

Refusal to take a test when called shall be considered the same as a positive test result.

Student privacy shall be protected to the maximum extent possible during the collection process. Records of test results shall be kept confidential and provided only to the program coordinator, the coach or sponsor of the organization(s) to which the student belongs, a counselor, and the parents of the student concerned.

In order for a student to participate in any extracurricular activity, the parent or legal guardian must give permission for this testing to be conducted on his or her child. If the student is of legal age, he or she must sign a permission form in order to participate.

(See APPEALS at end of policy for any type of search covered by this policy) ~~Students desiring to appeal the consequence of a positive test shall follow the appeal procedures in policy FNG (LEGAL) and FNG (LOCAL)~~

Students who do not declare at the beginning of the school year an intent to participate in extracurricular activities may be tested at the time they so declare.

If the student is taking any physician-prescribed medication when a test is conducted, he or she shall report the name of the medication prior to giving the test sample.

PROCEDURES FOR SELECTION AND TESTING

The procedures for the selection and testing of students shall be as follows:

1. A list of eligible students shall be assembled with information from each sponsor/department head.

2. Social security numbers or student numbers shall be used to identify students.

3. Random drawings shall be generated from a computer program.

4. The test shall be administered by a contracted medical organization.

5. If a student is unable to produce a sample at any particular time, the student shall be allowed to return later that same day to provide the sample.

6. The laboratory of that medical organization shall notify the testing program coordinator at the school of a positive test.

SCOPE OF TESTS

The testing lab shall be instructed to test for one or more illegal drugs. The program coordinator shall decide from week to week which illegal drugs shall be screened; but in no event shall that determination be made after the selection of students for testing has been made. Students' samples shall not be screened for the presence of any substance other than an illegal drug or for the existence of any physical condition other than drug intoxication.

NON-PUNITIVE NATURE OF POLICY

No student shall be penalized academically for testing positive for illegal drugs. The results of drug tests pursuant to this policy shall not be documented in any student's academic records.

FIRST POSITIVE

~~After~~ **Upon notification to the student and parent of** confirmation of a first ~~violation~~ **positive test result,** ~~a student shall lose eligibility and be suspended from participation in all extracurricular activities for one week. The student shall be required to participate in at least two drug or alcohol counseling sessions at the parent's expense prior to regaining eligibility for extracurricular activities. Students in off-season activities shall be required to conduct research, write and present an acceptable paper pertaining to drug abuse prior to regaining eligibility~~.

A student who receives a positive test result shall be removed from the random pool and shall be tested at each random testing date for one calendar year, beginning with the date of the first random testing date following notification of the positive test result.

SECOND POSITIVE TEST RESULT

~~After~~ **Upon notification of the student and parent of** confirmation of a second ~~violation~~ **positive test result,** ~~a student shall lose eligibility and be suspended from participation in all extracurricular activities for 30 calendar days. These counseling sessions shall relate to the specific chemical for which the student tested positive. Students in off-season activities shall be required to conduct research, write and present an acceptable paper pertaining to drug abuse prior to regaining eligibility.~~

A student who receives a second positive test result and wishes to remain in extracurricular programs shall be removed from the random pool and shall be tested at each random testing date for one calendar year, beginning with the date of the first random testing date following notification of the second positive test result.

These counseling sessions shall relate to the specific chemical for which the student tested positive. Students in off-season activities shall be required to conduct research, write, and present an acceptable paper pertaining to drug abuse prior to regaining eligibility.~~

EXCEPTION

Students who were suspended for a third positive test result while in grades 7-8 shall be permitted to resume extracurricular activities upon entering high school, but must be tested at each random testing date for one calendar year beginning with enrollment in high school.

If a District faculty or staff member personally observes alcohol or drug use by a student who participates in any extracurricular activity, the student shall receive the penalty for an offense. In addition, such action shall be handled in accordance with the law and the Student Code of Conduct.

If a student who participates in any extracurricular activity receives any drug or alcohol-related citation from a police officer while on or off school grounds or at a school-sponsored event, the student shall receive the penalty for an offense. In addition, such action shall be handled in accordance with law and the Student Code of Conduct.

If a student who participates in any extracurricular activity is found to be in possession of any drugs or alcohol while on school grounds or at a school-sponsored event, the student shall receive the penalty for an offense. This shall include drugs or alcohol found in a student's car by a trained dog or by a District employee. In addition, such action shall be handled in accordance with law and the Student Code of Conduct.

VOLUNTARY DRUG TESTING

District students in grades 7-12 who do not participate in any extracurricular activity shall be given the opportunity to volunteer for drug testing. The same procedures as for the mandatory drug testing shall be followed for those students who volunteer to be tested; however, the consequences for a positive test shall be as follows:

These counseling sessions shall relate to the specific chemical for which the student tested positive.

THIRD POSITIVE TEST	~~After~~ **Upon notification of the student and parent of** confirmation of a third ~~violation~~ **positive test result**, a student shall lose any opportunity to receive incentives for the remainder of the school year. ~~The parents of the student shall be notified of the test results.~~ The student shall be required to participate in at least 12 drug or alcohol counseling sessions at the parent's expense to regain eligibility for incentives. The session shall relate to the specific chemical for which the student tested positive.
APPEALS	**A student or parent may appeal a decision made under this policy in accordance with FNG (LOCAL). The student shall be permitted to practice, but shall be ineligible for participation in extracurricular performances or contests while the appeal is pending.**

STUDENT EXPRESSION OF RELIGIOUS VIEWPOINTS

The District shall treat a student's voluntary expression of a religious viewpoint, if any, on an otherwise permissible subject in the same manner the District treats a student's voluntary expression of a secular or other viewpoint on an otherwise permissible subject and shall not discriminate against the student based on a religious viewpoint expressed by the student on an otherwise permissible subject.

STUDENT SPEAKERS AT NONGRADUATION EVENTS

The District hereby creates a limited public forum for student speakers at all school events at which a student is to publicly speak. For each speaker, the District shall set a maximum time limit reasonable and appropriate to the occasion.

For purposes of this policy, a “school event” is a school-sponsored event or activity that does not constitute part of the required instruction for a segment of the school’s curriculum, regardless of whether the event takes place during or after the school day.

For purposes of this policy, “to publicly speak” means to address an audience at a school event using the student’s own words. A student is not using his or her own words when the student is reading or performing from an approved script, is delivering a message that has been approved in advance or otherwise supervised by school officials, or is making brief introductions or announcements.

INTRODUCTORY SPEAKERS

Student speakers shall be given a limited public forum to introduce:

1. High School assemblies where students speak, pep rallies, student election speeches, banquet and award gatherings and other activities identified by campus principals.

The forum shall be limited in the manner provided by this section on nongraduation events.

ELIGIBILITY AND SELECTION

Students are eligible to use the limited public forum if they:

1. Are in the highest two grade levels of the school,
2. Volunteer, and
3. Are not in a disciplinary placement at the time of the speaking event.

Eligible students who wish to volunteer shall submit their names to the campus principal during the first full week of instruction each semester. Students are not eligible to volunteer if they are in a disciplinary placement during any part of the first full week of instruction. If there are no student volunteers, the District shall seek volunteers again at the beginning of the next semester.

The names of the students who volunteer to speak shall be randomly drawn until all names have been selected; the names shall be listed in the order drawn.

ASSIGNMENT OF INTRODUCTORY SPEAKERS

Each selected student shall be matched chronologically to the single event for which the student shall give the introduction. The list of student speakers shall be chronologically repeated as needed, in the same order. If no students volunteer or if the selected speaker declines or becomes ineligible, no student introduction will be made at the event.

The District shall repeat the selection process at the beginning of each semester.

CONTENT OF STUDENT INTRODUCTIONS

The subject of the student introductions shall relate to the purpose of introducing the designated event. The student must stay on the subject. The student may not engage in speech that:

- Is obscene, vulgar, offensively lewd, or indecent;
- Creates reasonable cause to believe that the speech would result in material and substantial interference with school activities or the rights of others;
- Promotes illegal drug use;
- Violates the intellectual property rights, privacy rights, or other rights of another person;
- Contains defamatory statements about public figures or others; or
- Advocates imminent lawless action and is likely to incite or produce such action.

The District shall treat a student's voluntary expression of a religious viewpoint, if any, on an otherwise permissible subject in the same manner the District treats a student's voluntary expression of a secular or other viewpoint on an otherwise permissible subject and shall not discriminate against the student based on a religious viewpoint expressed by the student on an otherwise permissible subject.

DISCLAIMER

For as long as there is a need to dispel confusion over the fact that the District does not sponsor the student's speech, at each event in which a student shall deliver an introduction, a disclaimer shall be stated in written or oral form, or both, such as, "The student giving the introduction for this event is a volunteering student selected on neutral criteria to introduce the event. The content of the introduction is the private expression of the student and does not reflect the endorsement, sponsorship, position, or expression of the District."

OTHER STUDENT SPEAKERS

Certain students who have attained special positions of honor in the school have traditionally addressed school audiences from time to time as a tangential component of their achieved positions of honor, such as the captains of various sports teams, student council officers, class officers, homecoming kings and queens, prom kings and queens, and the like, and have attained their positions based on neutral criteria. Nothing in this policy eliminates the continuation of the practice of having these students, regardless of grade level, address school audiences in the normal course of their respective positions. The District shall create a limited public forum for the speakers and shall treat a student's voluntary expression of a religious viewpoint, if any, on an otherwise permissible subject in the same manner the District treats a student's voluntary expression of a secular or other viewpoint on an otherwise permissible subject and shall not discriminate against a student based on a religious viewpoint expressed by the student on an otherwise permissible subject.

STUDENT SPEAKERS AT GRADUATION CEREMONIES

The District hereby creates a limited public forum consisting of an opportunity for a student to speak to begin graduation ceremonies and another student to speak to end graduation ceremonies. For each speaker, the District shall set a maximum time limit reasonable and appropriate to the occasion.

OPENING AND CLOSING REMARKS

The forum shall be limited in the manner provided by this section on student speakers at graduation.

ELIGIBILITY

Only students who are graduating and who hold one of the following positions of honor based on neutral criteria shall be eligible to use the limited public forum: the top two academically ranked graduates. A student who shall otherwise have a speaking role in the graduation ceremonies is ineligible to give the opening and closing remarks. Students who are eligible shall be notified and given an opportunity to volunteer. Students are not eligible to volunteer if they were in a disciplinary placement during any part of the spring semester.

The names of the eligible students who volunteer shall be randomly drawn. The student whose name is drawn first shall give the opening and the student whose name is drawn second shall give the closing.

CONTENT OF OPENING AND CLOSING REMARKS

The topic of the opening and closing remarks shall be related to the purpose of the graduation ceremony and to the purpose of marking the opening and closing of the event; honoring the occasion, the participants, and those in attendance; bringing the audience to order; and focusing the audience on the purpose of the event.

OTHER STUDENT SPEAKERS

In addition to the students giving the opening and closing remarks, the valedictorian and salutatorian may have speaking roles at graduation ceremonies. For each speaker, the District shall set a maximum time limit reasonable and appropriate to the occasion and to the position held by the speaker. For this purpose, the District creates a limited public forum for these students to deliver the addresses. The subject of the addresses shall be related to the purpose of the graduation ceremony, marking and honoring the occasion, honoring the participants and those in attendance, and the student's perspective on purpose, achievement, life, school, graduation, and looking forward to the future.

The student shall stay on the subject, and the student shall not engage in speech that:

- Is obscene, vulgar, offensively lewd, or indecent;
- Creates reasonable cause to believe that the speech would result in material and substantial interference with school activities or the rights of others;
- Promotes illegal drug use;
- Violates the intellectual property rights, privacy rights, or other rights of another person;
- Contains defamatory statements about public figures or others; or
- Advocates imminent lawless action and is likely to incite or produce such action.

The District shall treat a student's voluntary expression of a religious viewpoint, if any, on an otherwise permissible subject in the same manner the District treats a student's voluntary expression of a secular or other viewpoint on an otherwise permissible subject and shall not discriminate against the student based on a religious viewpoint expressed by the student on an otherwise permissible subject.

DISCLAIMER

A written disclaimer shall be printed in the graduation program that states, "The students who shall be speaking at the graduation ceremony were selected based on neutral criteria to deliver messages of the students' own choices. The content of each student speaker's message is the private expression of the individual student and does not reflect the endorsement, sponsorship, position, or expression of the District."

RELIGIOUS EXPRESSION IN CLASS ASSIGNMENTS

A student may express his or her beliefs about religion in homework, artwork, and other written and oral assignments free from discrimination based on the religious content of the student's submission. Homework and classroom work shall be judged by ordinary academic standards of substance and relevance and against other legitimate pedagogical concerns identified by the school. A student shall not be penalized or rewarded because of religious content. If a teacher's assignment involves writing a poem, the work of a student who submits a poem in the form of a prayer (for example, a psalm) should be judged on the basis of academic standards, including literary quality, and not penalized or rewarded because of its religious content.

FREEDOM TO ORGANIZE RELIGIOUS GROUPS AND ACTIVITIES

Students may organize prayer groups, religious clubs, "see you at the pole" gatherings, and other religious gatherings before, during, and after school to the same extent that students are permitted to organize other noncurricular student activities and groups. [See FNAB] Religious groups shall be given the same access to school facilities for assembling as is given to other noncurricular groups, without discrimination based on the religious content of the group's expression. If student groups that meet for nonreligious activities are permitted to advertise or announce the groups' meetings, for example, by advertising in a student newspaper, putting up posters, making announcements on a student activities bulletin board or public address system, or handing out leaflets, school authorities shall not discriminate against groups that meet for prayer or other religious speech. School authorities may disclaim sponsorship of noncurricular groups and events, provided the disclaimer is administered in a manner that does not favor or disfavor groups that meet to engage in prayer or other religious speech.

Hood County Appraisal District 2008 Proposed Budget

Dear Mr. Harris:

Enclosed is the 2008 proposed budget for the Hood County Appraisal District. The proposed budget will be presented to the Appraisal District Board of Directors for final approval on July 19, 2007. I am sending you a copy in accordance with Sec. 6.06(a) of the Texas Property Tax Code. As a reminder, the proposed Appraisal District budget covers all services of the District including appraisal, collections, mapping, and data processing.

Proposed in the 2008 budget is the addition of two full time staff members. Since the county has experienced so much growth over the past several years the board and I believe it is necessary to increase the size of the District's staff from nineteen to twenty-one. These staff additions represent approximately $85,000 in added cost to the overall budget which entails salaries, benefits, taxes and other expenses. The District's budget will increase 17.7 percent over last year's budget.

Granbury I.S.D.
600 West Pearl St.

When preparing your 2008 budget please use the budget allocation table to determine your proportionate share of the Appraisal District's budget. This allocation was determined by implementing the methods and calculations agreed upon by the taxing entities when the district was established in 1980.

If you have any questions concerning the budget, please feel free to give me a call.

Sincerely,

Mr. William Harris, Superintendent
Granbury Independent School District

Granbury, Texas 76048

RE: House Bill 1010 enacted by the 80th Texas Legislature Regular Session

Dear Mr. Harris:

In the 2007 regular session of the Texas Legislature, HB 1010 was passed that changed the appraisal district boundary to the county's boundary. Taxing units that have taxable property located in more than one county must participate in multiple appraisal districts.

The Granbury Independent School District has taxable property in both Parker and Hood County.

Starting with the 2008 tax year, Parker County Appraisal will provide appraisal services for the Granbury I.S.D. property located in Parker County. Hood County Appraisal District will provide appraisal services for the Granbury I.S.D. property located in Hood County. Tax assessment and collections are **not** affected by this new legislation.

This new law will also require the school district to participate in both Parker and Hood County Appraisal district's budget. Your 2008 budget allocation in Parker County has been calculated based on the projected 2007 levy of property in Parker County. You will receive notice from HoodCounty Appraisal District regarding your allocation to their budget. The first payment for the 2008 appraisal district budget will be billed in December 2007 and due before January1, 2008.

The Granbury I.S.D.'s allocation for the 2008 Parker County Appraisal District's budget is estimated to be $12,577.

If you have any questions, please contact me at 817-596-0077,

Sincerely,

Larry Hammonds
Chief Appraiser
