Consider 2025-2026 District Improvement Plan (DIP) and Campus Improvement Plans (CIPs)

Presented for:

Board action Report/Review Only

Supporting documents:

None Attached Provided Later

Contact Person:

Dr. Peggy Johnson

Background Information:

Each district and campus is required to annually prepare district and campus improvement plans. The plans should focus on improving the performance of all students as measured by the State of Texas Assessments of Academic Readiness (STAAR), Texas English Language Proficiency Assessment System (TELPAS), and Results Driven Accountability (RDA) Reports. The plans should outline the major initiatives the district and campuses will focus on throughout the school year and will be modified as additional needs are identified. Additionally, the plans should identify the budgetary priorities for the district.

The proposed 2025-2026 DIP and CIPs have been responsive to feedback from numerous sources, such as, Comprehensive Needs Assessment (CNA) survey results, Texas Academic Performance Reports (TAPR) data, School Report Card (SRC), RDA reports, Texas Strategic Leadership (TSL) goals, District and Campus Assessments, TELPAS, discipline, and attendance reports. The plans align with and address the Board of Trustees and Superintendent goals.

Fiscal Implication:

A significant amount of funds identified in the plans is included in the approved 2025-2026 budget. However, in the future it might become necessary for additional funding to be identified or repurposed.

Administrative Recommendation:

Administration recommends the Board approve the 2025-2026 District Improvement Plan and Campus Improvement Plans as presented.

LVISD School Health Advisory Council (SHAC) Annual Report for 2024 2025

Authority and purposes for the SHAC:

Each school district in Texas is required under Chapter 28.004 (a-c) of the Texas Education Code to establish and maintain a district-level School Health Advisory Council. The School Health Advisory Council of the La Vega` Independent School District is specifically authorized by the Board of Trustees in District policies BDF (Legal), EHAA (Legal), EHAB (Legal), EFAA (Legal), and FFA (Local).

The purpose of the SHAC is to assist the District in ensuring that local community values are reflected in the District's health education instruction. The SHAC is an opportunity for parents and community members to partner with schools to provide recommendations to the School Board to mitigate the issues facing our students.

The council's duties include recommending:

1. The number of hours of instruction to be provided in health education;
2. Curriculum appropriate for specific grade levels designed to prevent tobacco use, unhealthy eating, inadequate physical activity, alcohol and other drug use, sexual behaviors that may result in HIV infection or other STD, and violence;
3. Appropriate grade levels and methods for human sexuality instruction; and
4. Strategies for integrating the curriculum components specified above, with the following elements in a coordinated school health program: school health services, counseling and guidance services, a safe and healthy school environment, and school employee wellness.

SHACs assist the districts in ensuring that local community values are reflected in health education instruction. Additionally, SHACs play an important role in strengthening the connection between health and learning. They can help parents and community stakeholders reinforce the knowledge and skills children need to stay healthy for a lifetime.

“If schools do not deal with children’s health by design, they deal with it by default.”

(Health is Academic, 1997)

The State Board of Education gave final approval on November 20, 2020 to the new health education TEKS. They will be effective August 1, 2022 to be implemented with the 2022-2023 school year. No later than July 31, 2021, the commissioner of education shall determine whether instructional materials funding has been made available to Texas public schools to purchase materials to cover the newly adopted health education TEKS. If the funding is available, schools will begin implementation in the 2022-2023 school year. If funding has not been made available, the commissioner will determine no later than July 31 of each subsequent year. The new TEKS will be implemented the following year after notification.

Accomplishments and Activities during 2024-2025:

- Reviewed the Federal Programs Budget Guidelines. Dr. Johnson discussed parental involvement.
- Reviewed the Parent Engagement Policy.
- Shared information about the Stronger Connections Grant regarding reset rooms and restorative practices.

La Vega ISD Wellness Policy

Note: This “Basic” district-level wellness policy template meets the minimum Federal standards for local school wellness policy implementation under the final rule of the [Healthy, Hunger-Free Kids Act of 2010](#), the Alliance for a Healthier Generation Healthy Schools Program Bronze-level award criteria, and minimum best practice standards accepted in the education and public health fields.

Preamble

La Vega ISD (hereto referred to as the District) is committed to the optimal development of every student. The District believes that for students to have the opportunity to achieve personal, academic, developmental and social success, we need to create positive, safe and health-promoting learning environments at every level, and in every setting, throughout the school year.

Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture’s (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism and better performance on cognitive tasks.^{1,2,3,4,5,6,7} Conversely, less-than-adequate consumption of specific foods including fruits, vegetables and dairy products, is associated with lower grades among students.^{8,9,10} In addition, students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities – do better academically.^{11,12,13,14} Finally, there is evidence that adequate hydration is associated with better cognitive performance.^{15,16,17}

This policy outlines the District’s approach to ensuring that environments and opportunities exist for all students to practice healthy eating and physical activity behaviors throughout the school day while minimizing commercial distractions. Specifically, this policy establishes goals and procedures to ensure that:

- Students in the District have access to healthy foods throughout the school day – both through reimbursable school meals and other foods available throughout the school campus– in accordance with Federal and state nutrition standards;
- Students receive quality nutrition education that helps them develop lifelong healthy eating behaviors;
- Students have opportunities to be physically active before, during and after school;
- Schools engage in nutrition and physical activity promotion and other activities that promote student wellness;
- School staff are encouraged and supported to practice healthy nutrition and physical activity behaviors in and out of school;
- The community is engaged in supporting the work of the District in creating continuity between school and other settings for students and staff to practice lifelong healthy habits; and
- The District establishes and maintains an infrastructure for management, oversight, implementation, communication about and monitoring of the policy and its established goals and objectives.

This policy applies to all students, staff, and schools in the District.

I. School Wellness Committee

Committee Role and Membership

The District will convene a representative district wellness committee (hereto referred to as the School Health Advisory Committee [hereto referred to as SHAC] that meets at least four times per year to establish goals for and oversee school health and safety policies and programs, including development, implementation and periodic review and update of this district-level wellness policy (heretofore referred as “wellness policy”).

The SHAC membership will represent all school levels (elementary and secondary schools) and include (to the extent possible), but not be limited to: parents and caregivers; students; representatives of the school nutrition program (e.g., school nutrition director); physical education teachers; health education teachers; school health professionals (e.g., health education teachers, school health services staff [e.g., nurses, physicians, dentists, health educators, and other allied health personnel who provide school health services], and mental health and social services staff [e.g., school counselors, psychologists, social workers, or psychiatrists]; school administrators (e.g., superintendent, principal, vice principal), school board members; health professionals (e.g., dietitians, doctors, nurses, dentists); and the general public. When possible, membership will also include Supplemental Nutrition Assistance Program Education coordinators (SNAP-EDEDSNAP-Ed). To the extent possible, the SHAC will include representatives from each school building and reflect the diversity of the community.

It is recommended that the school use the [Healthy Schools Program online tools](#) to complete a school-level assessment based on the Centers for Disease Control and Prevention's School Health Index, create an action plan that fosters implementation and generate an annual progress report.

This wellness policy and the progress reports can be found at: <http://www.lavegaisd.org>

The District will make this information available via the district website and/or district-wide communications. This will include a summary of the District's events or activities related to wellness policy implementation. Annually, the District will also publicize the name and contact information of the District leading and coordinating the committee, as well as information on how the public can get involved with the school wellness committee.

Triennial Progress Assessments

At least once every three years, the District will evaluate compliance with the wellness policy to assess the implementation of the policy and include:

- The extent to which the District's wellness policy compares to the Alliance for a Healthier Generation's model wellness policy; and
- A description of the progress made in attaining the goals of the District's wellness policy.

ALLIANCE FOR A HEALTHIER GENERATION MODEL WELLNESS POLICY

Updated 1/2019 to Reflect the USDA Final Rule

The position/person responsible for managing the triennial assessment and contact information is: Dr. Peggy Johnson, La Vega ISD Director of Bilingual Education and Special Programs, peggy.johnson@lavegaisd.org.

The District will actively notify households/families of the availability of the triennial progress report.

Revisions and Updating the Policy

The SHAC will update or modify the wellness policy based on the results of the annual School Health Index and triennial assessments and/or as District priorities change; community needs change; wellness goals are met; new health science, information, and technology emerges; and new Federal or state guidance or standards are issued. **The wellness policy will be assessed and updated as indicated at least every three years, following the triennial assessment.**

Community Involvement, Outreach and Communications

The District is committed to being responsive to community input, which begins with awareness of the wellness policy. The District will actively communicate ways in which representatives of SHAC and others can participate in the development, implementation and periodic review and update of the wellness policy through a variety of means appropriate for that district. The District will also inform parents of the improvements that have been made to school meals and compliance with school meal standards, availability of child nutrition programs and how to apply, and a description of and compliance with Smart Snacks in School nutrition standards. The District will use electronic mechanisms, such as email or displaying notices on the district's website, as well as non-electronic mechanisms, such as newsletters, presentations to parents, or sending information home to parents, to ensure that all families are actively notified of the content of, implementation of, and updates to the wellness policy, as well as how to get involved and support the policy. The District will ensure that communications are culturally and linguistically appropriate to the community, and accomplished through means similar to other ways that the district and individual schools are communicating important school information with parents.

The District will actively notify the public about the content of or any updates to the wellness policy annually, at a minimum. The District will also use these mechanisms to inform the community about the availability of the annual and triennial reports.

requirements. The school meal programs aim to improve the diet and health of school children, help mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs.

All schools within the District participate in USDA child nutrition programs, including the National School Lunch Program (NSLP), the School Breakfast Program (SBP), Child and Adult Care Food Program (CACFP), After School Snack Program (ASSP) and Summer Food Program (SSO). All schools within the District are committed to offering school meals through the NSLP and SBP programs, and other applicable Federal child nutrition programs, that:

- Are accessible to all students;
- Are appealing and attractive to children;
- Are served in clean and pleasant settings;
- Meet or exceed current nutrition requirements established by local, state, and Federal statutes and regulations. (The District offers reimbursable school meals that meet [USDA nutrition standards](#).)
- Promote healthy food and beverage choices using at least ten of the following [Smarter Lunchroom techniques](#):
 - Whole fruit options are attractively displayed.
 - Sliced or cut fruit is available daily.
 - Daily fruit options are displayed in a location in the line of sight and reach of students.
 - All available vegetable options have been given creative or descriptive names.
 - Daily vegetable options are bundled into all grab-and-go meals available to students.
 - All staff members, especially those serving, have been trained to politely prompt students to select and consume the daily vegetable options with their meal.
 - White milk is placed in front of other beverages in all coolers.
 - Alternative entrée options are on posters or signs within all service and dining areas.
 - A reimbursable meal can be created in any service area available to students (e.g., salad bars, snack rooms, etc.).
 - Student surveys and taste testing opportunities are used to inform menu development, dining space decor and promotional ideas.
 - Student artwork is displayed in the service and/or dining areas.
 - Daily announcements are used to promote and market menu options.

 - Menus will be posted on the District website or individual school websites, and will include nutrient content and ingredients.
 - Menus will be created/reviewed by a Registered Dietitian or other certified nutrition professional.
 - School meals are administered by a team of child nutrition professionals.
 - The District child nutrition program will accommodate students with special dietary needs.
 - Students will be allowed at least 10 minutes to eat breakfast and at least 20 minutes to eat lunch, counting from the time they have received their meal and are seated (meets Healthy Schools Program Gold-level criteria).
 - Students are served lunch at a reasonable and appropriate time of day.
 - Participation in Federal child nutrition programs will be promoted among students and families to help ensure that families know what programs are available in their children's school.
 - The District will implement the following Farm to School activities (meets Healthy Schools Program Gold-level criteria; mark/circle the four activities the District plans to do):
 - Local and/or regional products are incorporated into the school meal program;

Updated 1/2019 to Reflect the USDA Final Rule

- Messages about agriculture and nutrition are reinforced throughout the learning environment;
- School hosts a school garden;
- School utilizes promotions or special events, such as tastings, that highlight the local/regional products.

Staff Qualifications and Professional Development

All school nutrition program directors, managers and staff will meet or exceed hiring and annual continuing education/training requirements in the [USDA professional standards for child nutrition professionals](#). These school nutrition personnel will refer to [USDA's Professional Standards for School Nutrition Standards website](#) to search for training that meets their learning needs.

Water

To promote hydration, free, safe, unflavored drinking water will be available to all students throughout the school day* and throughout every school campus* (“school campus” and “school day” are defined in the glossary). The District will make drinking water available where school meals are served during mealtimes.

- *All water sources and containers will be maintained on a regular basis to ensure good hygiene and health safety standards.*
- Students will be allowed to bring and carry (approved) water bottles filled with only water with them throughout the day, if approved by campus administration.

Competitive Foods and Beverages

The District is committed to ensuring that all foods and beverages available to students on the school campus* during the school day* support healthy eating. The foods and beverages sold and served outside of the school meal programs (e.g., “competitive” foods and beverages) will meet the USDA Smart Snacks in School nutrition standards, at a minimum. Smart Snacks aim to improve student health and well-being, increase consumption of healthful foods during the school day and create an environment that reinforces the development of healthy eating habits. A summary of the standards and information, as well as a Guide to Smart Snacks in Schools are available at: <http://www.fns.usda.gov/healthierschoolday/tools-schools-smart-snacks>. The Alliance for a Healthier Generation provides a set of tools to assist with implementation of Smart Snacks available at www.foodplanner.healthiergeneration.org.

To support healthy food choices and improve student health and well-being, all foods and beverages outside the reimbursable school meal programs that are sold to students on the school campus during the school day will meet or exceed the USDA Smart Snacks nutrition standards. These standards will apply in all locations and through all services where foods and beverages are sold, which may include, but are not limited to, à la carte options in cafeterias, school stores and snack or food carts.

Celebrations and Rewards

All foods and beverages given to students on the school campus must be “allergen aware” and preferably prepackaged items. These items must be brought into the front office and approved by the Principal or designee.

Snacks

Snacks served during the day or in after-school care or enrichment programs will make a positive contribution to children's diet and health, with an emphasis serving fruits and vegetables as the primary snack. Water will always be available.

Fundraising

Any food item available for purchase during the school day cannot be sold during meal period times. Schools are limited to three fundraisers per school year and all fundraisers must be approved in advance by the principle or designee. Items not meant for purchase on the school campus (i.e. frozen cookie dough) may be sold at any time.

Nutrition Promotion

Nutrition promotion and education positively influence lifelong eating behaviors by using evidence-based techniques and nutrition messages, and by creating food environments that encourage healthy nutrition choices and encourage participation in school meal programs. Students and staff will receive consistent nutrition messages throughout schools, classrooms, gymnasiums, and cafeterias. Nutrition promotion also includes marketing and advertising nutritious foods and beverages to students and is most effective when implemented consistently through a comprehensive and multi-channel approach by school staff, teachers, parents, students and the community.

The District will promote healthy food and beverage choices for all students throughout the school campus, as well as encourage participation in school meal programs. This promotion will ensure 100% of foods and beverages promoted to students meet the USDA Smart Snacks in School nutrition standards. Additional promotion techniques that the District and individual schools may use are available at <http://www.foodplanner.healthiergeneration.org/>.

Nutrition Education

The District shall implement a coordinated health program with a nutrition education component and establish the following goals for nutrition education:

- Students shall receive nutrition education that fosters the adoption and maintenance of healthy eating behaviors.
- The food service staff, teachers, and other school personnel shall coordinate the promotion of nutrition messages in the cafeteria, the classroom, and other appropriate settings.

Essential Healthy Eating Topics in Health Education

The District will include in the health education curriculum a minimum of 6 of the following essential topics on healthy eating:

- Relationship between healthy eating and personal health and disease prevention
- Food guidance from [MyPlate](#)
- Reading and using FDA's nutrition fact labels
- Eating a variety of foods every day
- Balancing food intake and physical activity
- Eating more fruits, vegetables and whole grain products

Physical Activity

Children and adolescents should participate in at least 60 minutes of physical activity every day. A substantial percentage of students' physical activity can be provided through a comprehensive school physical activity program (CSPAP). A CSPAP reflects strong coordination and synergy across all of the components: quality physical education as the foundation; physical activity before, during and after school; staff involvement and family and community engagement; and the district is committed to providing these opportunities. Schools will ensure that these varied physical activity opportunities are in addition to, and not as a substitute for, physical education.

The district shall implement, in accordance with law, a coordinated health program with physical education and physical activity components and shall offer at least the required amount of physical activity for all grades.

To the extent practicable, the District will ensure that its grounds and facilities are safe and that equipment is available to students to be active. The District will conduct necessary inspections and repairs.

Physical Education

The District will provide students with physical education, using an age-appropriate, sequential physical education curriculum consistent with national and state standards for physical education.

All students will be provided equal opportunity to participate in physical education classes. The District will make appropriate accommodations to allow for equitable participation for all students and will adapt physical education classes and equipment as necessary.

All District **elementary students** in each grade will receive vigorous, daily physical activity for at least 30 minutes throughout the school year. If the District determines, for any particular grade level, that requiring moderate or vigorous daily physical activity is impractical due to scheduling

concerns or other factors, the District may as an alternative require a student in that grade level to participate in moderate or vigorous activity for 135 minutes during each school week.

All [District] **secondary students** (middle and high school) are required to take the equivalent of one academic year of physical education.

The District physical education program will promote student physical fitness through individualized fitness and activity assessments (via the [Fitness Gram](#) or other appropriate assessment tool) and will use criterion-based reporting for each student.

Essential Physical Activity Topics in Health Education

Health education will be required in all grades (elementary) and the district will require middle and high school students to take and pass at least one health education course. The District will include in the health education curriculum a minimum of 12 the following essential topics on physical activity:

- The physical, psychological, or social benefits of physical activity
- How physical activity can contribute to a healthy weight
- How physical activity can contribute to the academic learning process
- How an inactive lifestyle contributes to chronic disease
- Health-related fitness, that is, cardiovascular endurance, muscular endurance, muscular strength, flexibility, and body composition
- Differences between physical activity, exercise and fitness
- Phases of an exercise session, that is, warm up, workout and cool down
- Overcoming barriers to physical activity
- Decreasing sedentary activities, such as TV watching
- Opportunities for physical activity in the community
- Preventing injury during physical activity
- Weather-related safety, for example, avoiding heat stroke, hypothermia and sunburn while being physically active
- How much physical activity is enough, that is, determining frequency, intensity, time and type of physical activity
- Developing an individualized physical activity and fitness plan
- Monitoring progress toward reaching goals in an individualized physical activity plan
- Dangers of using performance-enhancing drugs, such as steroids
- Social influences on physical activity, including media, family, peers and culture
- How to find valid information or services related to physical activity and fitness
- How to influence, support, or advocate for others to engage in physical activity
- How to resist peer pressure that discourages physical activity.

Recess (Elementary)

All elementary schools will offer a daily recess on all days during the school year as appropriate. *This policy may be waived on early dismissal or late arrival days.* If recess is offered before lunch, schools will have appropriate hand-washing facilities and/or hand-sanitizing mechanisms located just inside/outside the cafeteria to ensure proper hygiene prior to eating and students are required to use these mechanisms before eating. Hand-washing time, as well as time to put away coats/hats/gloves, will be built in to the recess transition period/timeframe before students enter the cafeteria.

ALLIANCE FOR A HEALTHIER GENERATION MODEL WELLNESS POLICY

Updated 1/2019 to Reflect the USDA Final Rule

Outdoor recess will be offered as appropriate and when weather is feasible for outdoor play. Recess will complement, not substitute, physical education class.

Classroom Physical Activity Breaks (Elementary and Secondary)

The District recognizes that students are more attentive and ready to learn if provided with periodic breaks when they can be physically active or stretch. Thus, students will be offered **periodic opportunities** to be active or to stretch throughout the day on all or most days during a typical school week. The District recommends teachers provide short physical activity breaks as appropriate.

Resources and ideas are available through [USDA](#) and the [Alliance for a Healthier Generation](#).

Staff Wellness and Health Promotion

The SHAC will have a staff wellness subcommittee that focuses on staff wellness issues, identifies and disseminates wellness resources and performs other functions that support staff wellness in coordination with human resources staff. The subcommittee leader's name is _____ (*list here*).

Professional Learning

When feasible, the District will offer annual professional learning opportunities and resources for staff to increase knowledge and skills about promoting healthy behaviors in the classroom and school (e.g., increasing the use of kinesthetic teaching approaches or incorporating nutrition lessons into math class). Professional learning will help District staff understand the connections between academics and health and the ways in which health and wellness are integrated into ongoing district reform or academic improvement plans/efforts.

Definition of Program Provisions

Eligible Students

A student in any grade level is eligible to participate in an OFSDP authorized under the [TEC, §29.0822](#), if the student is:

- at risk of dropping out of school, as defined by the [TEC, §29.081](#),
- attending a campus implementing an approved innovative campus plan,
- attending a TEA-designated ECHS as defined by the [TEC, §29.908](#), P-TECH, or ICIA,
- attending a community-based dropout recovery education program, as defined by the [TEC, §29.081\(e-1\) or \(e-2\)](#), or
- not meeting attendance requirements under the [TEC, §25.092](#), resulting in denied credit for one or more classes in which the student has been enrolled.

AND

There must be an agreement in writing to the student's participation:

- by the student, if the student is over 18 years of age; or
- by the student and the student's parent or person standing in parental relation to the student, if the student is less than 18 years of age and not emancipated by marriage or court order.

Board Approval

The board of trustees of a school district must include the OFSDP as an item on a regular agenda for a board meeting. The board of trustees of a school district must discuss the progress of the program before approving the program and applying to operate an OFSDP (see Appendix Two). Please note that, pursuant to [TAC 129.1027](#), a progress report for OFSDP may be required to be included in subsequent annual applications starting the 2026-2027 school year.

Attendance Credit

A student attending an OFSDP under the TEC, §29.0822, may be counted in average daily attendance (ADA) for purposes of funding under the TEC, Chapters 46, 48, and 49, only for the actual number of contact hours the student receives, not to exceed 720 hours or 43,200 minutes per 12-month period. **Students enrolled in the traditional program for part of the year and the OFSDP program for part of the year may not earn more than one ADA.**

Assessment

The student must take the required state assessments specified under the [TEC, §39.023](#), during the regularly scheduled assessment calendar.

Continuation or Revocation of Program Authorization

Applications are approved for a period of one (1) school year. Continuation of the approval for the OFSDP will be contingent on the demonstrated success of the program. Determination of success will include a review and analysis of data provided in the mandatory final progress report(s). The commissioner of education may revoke authorization for participation in the OFSDP after consideration of relevant factors, including performance of students participating in the program on assessment instruments required under the TEC, Chapter 39; the percentage of students participating in the program who graduate from high school; and other criteria agreed to in the application and adopted by the commissioner of education. A decision to revoke approval of the program by the commissioner of education is final and may not be appealed.

Reporting Requirements

Following approval of the application, the applicant may be required to submit progress reports based on criteria selected by the applicant and agreed to by the commissioner. When requested, reports will require applicants to disclose the overall progress of the students in the program, the number of students enrolled in the program (disaggregated by ethnicity, age, gender, and socioeconomic status), the number of students graduating from high school (disaggregated by ethnicity, age, gender, and socioeconomic status), and additional criteria selected by the applicant and agreed to by the commissioner. The TEA will provide notice to applicants and additional instructions for completion of reports at least 45 days before the date a report is due, or as soon as possible, in order to give school districts and charter schools adequate time to prepare and submit the reports to the TEA. The TEA may request additional reports as necessary to monitor and assess the progress of students participating in the program.

Participation in University Interscholastic League (UIL)

A student enrolled in an OFSDP under the [TEC, §29.0822](#), may participate in a competition or other activity sanctioned or conducted under the authority of the University Interscholastic League (UIL) only if he or she meets all UIL eligibility criteria.

1. Describe the program goals and objectives:

Success Academy (SA) is a program offered by La Vega Independent School District through La Vega High School. The program offers students who are behind in credits, overage, or otherwise at-risk to earn credits toward graduation through a non-traditional school setting.

The Goals and Objectives of the Success Academy of La Vega High School are:

- i. Provide a supportive, flexible learning environment for students at risk of dropping out or have previously dropped out, that meets individual academic needs in a non-traditional school setting.
- ii. Recover high school credits and attain necessary credits for high school graduation with full-time supervised highly qualified educator support.
- iii. Develop social and employability skills to prepare for entrance in the workforce or college/training school.
- iv. Provide specific, targeted programs of remediation for success on the state assessment end-of-course exams.
- v. Provide career investigation, access to resources and services and career counseling.
- vi. Assist with transition services to college, training, apprentices, and/or institutions of higher education, or the workforce.

2. Proposed schedule offered to student participating in the OFSDP, including days of the week and times.

Success Academy offers several schedules to meet student needs. The doors open and breakfast and instruction begins as early as 7:15 AM Monday through Friday and ends at 5:30 PM Monday through Friday. Students will be scheduled to attend a minimum of 45 minutes for a total of four (4) instructional hours per school day. A student could be scheduled for up to 6 hours depending on the following:

- a. If students need STAAR preparation, an additional hour will be added to the daily schedule
- b. If a student is not meeting credit expectations (.5 credit every eight (8) school days) an additional hour will be added.

Students enrolled in the Optional Flexible School Day Program (OFSDP) will have a schedule that meets his or her needs. This specific schedule for each OFSDP student is detailed in the LV Success Academy contract. OFSDP students will have a weekly total of in-person instruction with LVHS staff that that totals 20 hours per week. Students that do not follow the detailed schedule will be counseled and eventual could be removed from the program and returned to a regular daily four hour schedule. Students may request the OFSDP at any time, however, it will begin or end on the start of a new grading period. Requests to be enrolled in the OFSDP can be initiated by an administrator, teacher, parent and/or truancy officer.

4. Procedures for identifying students, confirmation and documentation of eligibility and parental consent for OFSDP participation.
 - A. *Student Admission to Program*

Students are referred to Success Academy by the high school counselor, high school administrator or truancy officer. Students or parents wishing to have their child enrolled must go through one of these channels.
 - B. Student Referral and Admission to the program contains the following documents:
 - Referral – typically completed by a team consisting of high school cohort counselor, Assistant Principal for Cohort, Success Academy Lead Teacher, Adult Student or Parent if child is a minor.

- Application and Enrollment - filled out by the adult student or parent (of minor) upon initial acceptance to Success Academy. The parent and student must agree to the stipulations or they are not able to attend Success Academy.
 - An “introductory” email is sent out once a student starts at Success Academy. This is sent to campus/district personnel and parents and students. This helps make sure all parties are aware of the change.
 - OFSDP Plan Application (If applicable). Stipulations that the student must complete attendance of regular Success Academy before being approved for flexible attendance. The application outlines daily attendance and weekly total for the student to be successful and remain in OFSDP. Parental consent is obtained for all minor students.
 - The PEIMS clerk adds the student to the OFSDP minute documentation form and makes change in track identification for student in PEIMS records.
 - Graduation Checklist Template
 - This form is used to assign courses. Counselors create the overall courses needed to graduate. This form aids in breaking this to the referral courses into small bite size “doable” courses for the student to track progress toward graduation.
 - The counselor checks off the credits as the student completes the course and highlights what is needed to make sure the student is enrolled in the correct courses. The counselor makes sure to indicate courses where A and B sections have the potential to be averaged together.
 - Transcript
 - Opt-Out Agreement (when and if signed) electronic version released by TEA.
 - The counselor completes prior to sending the student to Success Academy. However, we are wanting more students to graduate with an endorsement. If the parent and student sign in-person, the form is scanned and sent to high school to be placed in the student's permanent record.
 - Other pertinent information (CPR certificate, SB 30 Interaction with Police, Speech requirement, etc.....)
5. The estimated number of OFSDP students served per teacher ranges from 3-5 students per semester for a yearly maximum of 30 students
6. The OFSDP program will offer career and technology education and bilingual education services. Pregnancy related services are provided through district supports and personnel housed on the same campus. The program has three teachers and one support staff. Between the three teachers, two have the required certifications for CTE and ESL.
- The LEAD Teacher has the ESL Supplemental certification. Students identified as English Language Learner at the beginning or intermediate level will be placed in this classroom teacher’s classroom since the teacher is bilingual. For all other ELL students, students are placed equally in the two teacher’s classrooms and receive the accommodations and services recommended through the LPAC.
 - Any student who requires an ESOL I or ESOL II will be taught by the Lead Classroom teacher because of the two certifications (ELAR and ESL 7-12).
 - Students investigate careers in transportation, distribution, and logistics are provided support through Classroom Teacher 2. Students are supported with investigating careers in other programs of study by the

teacher and provided experiences and connections with partnering universities (Tarleton State University, Texas Tech University, and Texas State Technical College) and MOUs.

- The OFSDP is located at the facility that also houses the Student Support Specialists and the Special Education Department. Professionals that support students in need of pregnancy related services are notified and provide services and counseling support. Certified personnel from the La Vega High School (i.e., guidance counselors, instructional specialists, interventionists, and elective teachers) provide support and accelerated instruction when needed and requested.
- Students receiving pregnancy related services are placed on CEHI, then they will be removed from the OFSDP attendance accounting process.

7. Required recording of instructional minutes daily by teacher of record.

- Teachers track, record, and verify the actual number of minutes of instruction each day. Actual attendance begins when the student arrives in the classroom and begins work on coursework. Teachers note individual instructional time (hour: minute) on a daily contact register. When students depart for the day or transition to another classroom, the end time is noted by the classroom teacher on the teacher's daily contact register. (Hour: minute). The form is based on the TEA recommended attendance form.
- Daily attendance sheets for every classroom teacher are collected and converted from hour: minute format to instructional minutes per student per teacher. The Success Academy Lead Teacher and the PEIMS Clerk generate a weekly student detail instructional minute report. Students with less than 45 minutes on any day are left blank on the official Daily Contact Register. At the end of day, teachers will certify the number of minutes each student was in attendance. The teacher will sign the log sheet at the conclusion of the week. Each teacher signs and dates the completed instructional minutes log for their classroom.
 - i. Each 3-week reporting period, the PEIMS Clerk and Lead Teacher along with the High School PEIMS clerk review for reasonableness, counseling needs, parent conferences needed, etc. The minutes are compared to IEP, ARD or LEP plans to ensure they align.
 - ii. Detailed student daily minute reports are stored electronically and shared with District PEIMS coordinator. The District PEIMS Coordinator, Chief Academic Officer for Acceleration, High School Principal, and Lead Teacher for Success Academy review individual student progress and attendance from multiple perspectives.
- The High School and Success Academy Credit Recovery Program tries to minimize the possibility of students generating more than one ADA but transferring students from a traditional program to the OFSDP at the beginning of a 6-week period. Parent – student conferences, ARD meetings, LPAC, 504 and Student Intervention Team meetings are conducted to review program eligibility, instructional needs, and program requirements. Attendance is reviewed and verification that students do not receive more than 10,800 minutes per course.

- Students transferring to the Success Academy from the La Vega High School as well as outside the district are placed on an alternative track in the Student Information System to further identify the program and time of attendance.

- The Student Attendance is tracked through exemplar forms provided by TEA for recording attendance. Success Academy staff must log on using their usernames and passwords. The teachers log on and record the time as indicated on the computer clock for each individual student on the class roster. The system records the date and time of each log in and type of entry (i.e., attendance, grades,). The system automatically times out after 5 minutes of inactivity. Teachers may make changes to attendance up to 24 hrs. after initial attendance has been entered. After that, the daily attendance sheet is removed from the teacher access and the teacher is required to submit documentation and request forms for correction to the Success Academy Lead Teacher. Any changes to attendance that are made are documented with date, time, individual log in, and specificity of changes to the attendance data made.
- f. Every 6-week period, data is reviewed by the Success Academy team, high school PEIMS and administration, and District PEIMS and administrators. Both 42400 and 42401 records are reviewed to identify any student reported simultaneously. The District and HS PEIMS staff ensure student minutes are accurate (180 – Traditional Days Present x 240).
 - iii. Data reviewed include:
 1. Beginning and ending dates of reporting period, including the year
 2. Total number of days of instruction in the reporting period
 3. Instructional track
 4. Student’s original entry date and any subsequent withdrawal and reentry dates. (Both 42400 and 42401 series records are created – this ensures if status of enrollment changed from traditional to OFSDP)
 5. Student grade level code
 6. Average daily attendance
 7. Special education instructional setting code
 8. Career and technical education code
 9. ESL program type code
 10. Gifted/talented indicator code
 11. Pregnancy-related services code
 12. Absences by date and total for reporting period
 13. Total eligible days present and total eligible minutes present for OFSDP by 6-week reporting period.
 14. Total ineligible days present (less than 45 minutes of instruction) and total ineligible minutes present for the OFSDP.
 15. Attendance data total for all students, by grade
 16. Signature page signed by persons recording data (Success Academy PEIMS clerk) and approving data (Success Academy Lead Teacher).

8. Eligible OFSDP students can participate in credit recovery programs offered during the summer months.

- Summer school operates for 3 weeks from June 1 – June 24. Students are assigned coursework necessary to prepare for EOC testing and/or course completion for graduation in August. Each OFSDP student participating in the Summer Credit Recovery course is eligible for summer school because attendance, per the 90% attendance requirement was not met and credit was not earned. Each OFSDP student will have the sum of earned ADA and traditional AA earned calculated. The formula used OFSDP minutes eligible = (calendar days – traditional days present) x 240 will determine the number of days and minutes the student may attend.
- Two teachers operate summer school. Each teacher is assigned no more than 20 students. Both teachers track, record, and verify the actual number of minutes of instruction each day for each student and turn this in weekly to the Lead Summer School Teacher. Each OFSDP student with the maximum number of minutes eligible will be provided to each teacher.
- Teachers note individual instructional time (hour: minute) on a daily contact register.
- The High School and Success Academy Credit Recovery Program Lead teacher reviews weekly logs and course completion to check attendance and the maximum number of minutes each student is eligible to generate. Turn in only those eligible minutes per student so as not to exceed the 10,800 maximum. These items are recorded on an excel spreadsheet.
