ATTACHMENTS: Student Enrollment Report & Recap

SUBJECT: Student Enrollment as of October 1, 2022

BACKGROUND:

Attached are the enrollment figures as of October 1, 2022. Mrs. Batchelder will answer any questions.

STATUS:

In prior BOE enrollment reports, the enrollment report grouped all students into one category labeled "Outside Placement/Private Placement (SPED)". Beginning in September 2016, the Out Placement/Private Placement (SPED) line was separated into two categories:

1. *Out of District Placement-Special Education students*
2. *Private Placement Special Education students*

Out of District - Special Education: Those students who are placed at a Connecticut State Department of Education (CSDE) approved private special education program as recommended by a planning and placement team (PPT) as part of a student's individualized education program (IEP). Additionally, this category may include a family who moves into Windsor with a child who has a disability who has already been placed in a private special education program and/or children who are placed in Windsor foster home(s) by the Department of Children and Families (DCF) and are already enrolled in a private special education program.

Private Placement - Special Education: Those students who have been identified special education through the planning and placement team (PPT) process that have been parentally placed at a non-public school located in Windsor (i.e., St. Gabriel, Trinity Christian, Madina Academy, Praise Power & Prayer, etc.).

Agenda Item # 7.6.

CONTRACT FOR TRANSPORTATION SERVICES

This CONTRACT FOR TRANSPORTATION SERVICES ("Contract") is made as of this 29th day of April, 2016, by and between the WINDSOR BOARD OF EDUCATION, hereinafter called the "District" or the "Board," and DATTCO, INC., a Connecticut corporation, hereinafter called the "Contractor."

WITNESSETH

WHEREAS, the Board wishes to provide transportation services for students for whom the Board provides such services for a period of five (5) years; and

WHEREAS, the Board accepted bids for the provision of transportation services and awarded the Contract to Contractor on Jan. 26, 2016; and

WHEREAS, the Contractor is ready, willing and able to provide the required transportation services sought by the Board and has accepted the award of the Contract.

NOW, THEREFORE, in consideration of the mutual promises and covenants of the parties hereto, the Board and the Contractor mutually agree as follows:

1. TERM

The term of the Contract shall be for a five (5) year period, beginning July 1, 2016 and ending with the end of the 2020-2021 school year (June 30, 2021).

2. SCOPE OF WORK

- 2.1 The Contractor agrees that it will transport to and from the Windsor Public Schools and other institutions as designated by the Board such persons as may be designated by the Board, and at such days, times and hours as designated by the Board, and will make such stops and travel along such routes as are designated by the Board. The Contractor shall use its commercially reasonable efforts to furnish such transportation services including personnel, supervision, vehicles, drivers, bus aides/attendants, equipment, and other services required to transport all students to and from the Windsor Public Schools and other designated institutions.
- 2.2 The Contractor will have the exclusive right to provide the following services to the District: public and non-public school home-to-school transportation, including kindergarten, elementary, middle and high school, early and late public and non-public services, certain special education transportation, summer transportation, and certain extra-curricular services including field and athletic trips. Notwithstanding the foregoing, however, the District reserves the right to hire other transportation

providers to provide certain ancillary or specialized services, including special education transportation, homeless transportation and extra-curricular services.

2.3 Home-to-School (Public and Special Education) and Summer Transportation

In all cases, the determination on the capacity and style of bus to utilize will be made by the District in consultation with the Contractor. Should the District and Contractor disagree on the bus to be utilized, the final decision rests solely with the District. The Contractor shall not materially modify or adjust the vehicle capacities serving the District without the prior approval of the District, which approval shall not be unreasonably conditioned, withheld, or delayed.

For home-to-school transportation, the pricing system used in this Contract is based upon the type of vehicle utilized and the length of day the specific vehicle is in use on behalf of the Board. The daily usage shall be determined based upon the scheduled run length as determined by the District where the bus is in direct service to the District. *The daily usage shall be based upon "live" run times which are defined throughout this Contract as from the point of first pick-up to the point of last drop-off. PM run times shall begin at the building arrival time as determined by the District, and end at the last student drop-off.* The run times do not include pre or post trip times, but times between schools during an AM or PM run package shall be considered live run time and shall become part of the scheduled day for payment purposes. All live run times shall be determined by the District in good faith.

Driving time ("live time") for out-of-district runs will be calculated in the same manner with the exception that if a Contractor utilizes a facility outside of the Town of Windsor to garage the buses to be utilized under this Contract, and the bus returns to the Contractor's facility in less time than it would take to return to the Town of Windsor, the run time will be adjusted to the actual time back to such facility. Compensated times will be determined in good faith by the District based upon trial runs.

The Contractor's prices shown on Exhibit B, attached hereto and made a part hereof, are based on the following:

- a) Home-to-School Type I buses (71 passenger) to provide AM and PM services. Buses currently operate for 4.5 hours per day. Subject to the provisions of subparagraph (j) below, the price is a price per day.
- b) Home-to-School Type I buses (30 passenger) to provide AM and PM services. Buses currently operate for 4.5 hours per day. Subject to the provisions of subparagraph (j) below, the price is a price per day.
- c) Home-to-School Type II buses (19/20 passenger) to provide AM and PM services. Buses currently operate for 4.5 hours per day. Subject to the provisions of subparagraph (j) below, the price is a price per day.
- d) Home-to-School Type II buses (lift equipped; minimum of 2 w/c stations) to provide AM and PM services. Buses currently operate for 4.5 hours per day. Subject to the provisions of subparagraph (j) below, the price is a price per

day.

- e) Home-to-School van (5-7 passenger) to provide AM and PM services. Vans currently operate for 4.5 hours per day. Subject to the provisions of subparagraph (j) below, the price is a price per day.
- f) Mid-day special ed pre-kindergarten run on Type II bus. Buses currently operate for 1 hour per day. The price is a price per hour. Time that exceeds one hour would be paid in 15 minute increments, rounded up to the nearest quarter hour.
- g) Late run on Type I bus. Guaranteed minimum of one hour. The price is a price per hour. Time that exceeds one hour would be paid in 15 minute increments, rounded up to the nearest quarter hour.
- h) Summer school transportation – The price is a price per hour for home-to-school-to-home services utilizing a Type I bus (71 passenger). Time that exceeds one hour would be paid in 15 minute increments, rounded up to the nearest quarter hour.
- i) Special Education Summer transportation – The price is a price per hour for home-to-school-to-home services utilizing a Type II vehicle or a Type II wheelchair vehicle. Time that exceeds one hour would be paid in 15 minute increments, rounded up to the nearest quarter hour.
- j) Excess Hours – Should any runs exceed the scheduled length of day (4.5 hours for school year), incremental charges to the District shall be based on the applicable Excess Hourly Rate set forth on Exhibit B hereto once the incremental time reaches 5.0 hours. Charges shall be based on 15-minute increments, rounded up to the nearest quarter hour, with payment reverting back to the 4.5 hours. For example, a run of 4 hours and 40 minutes would not receive extra payment. However, a run of 5 hours and 10 minutes would receive an extra .75 hours at the Excess Hourly Rate. The price is a rate per hour for the Excess Hours.
- k) Bus Aide (Attendant) – The price is a price per hour for supplying a trained bus aide (attendant) for Special Education purposes at the request of the District.

Should a bus be needed for just an AM or PM run, the price per day submitted for the Home-to- School program shall be paid at 75% of the daily rate shown in Exhibit B.

Whenever necessary, compensated times will be determined by the District in good faith based upon trial runs or computer designed schedules. In all cases, the final determination as to run times and payments will be determined by the District.

During the term of this Contract, the District may, upon three (3) days prior written notice to the Contractor, increase or decrease the use of vehicles as needed to meet the demands of the program. Charges from the Contractor will be based upon the actual vehicle usage at the applicable prices as shown on Exhibit B, attached hereto and made a part hereof, and at run times as determined in good faith by the District.

The Contractor shall maintain sufficient documentation to support the time-based billing issued to the District. The District reserves the right to review payroll or vehicle operating data to support the time-based billing. All minimum guarantees may be modified for specialized runs, early dismissals, or exceptional circumstances as determined in good faith by the District. Prior to the initiation of any run, the District will notify the Contractor of the time allocation and approved payment basis for the run based upon the applicable prices as set forth on Exhibit B hereto.

The Board is requiring the Contractor provide properly trained bus attendants on runs designated in writing by the District. The length of day for payment for these bus attendant services shall coincide with the length of day payment for the bus runs where the bus attendants are assigned.

Given the dynamic nature of transportation, should route changes occur due to special circumstances, the billing for that day must be adjusted in an equitable manner. However, given the variable nature of transportation, no billing increases or decreases will occur unless the route changes exceed 30 minutes for the scheduled run time. Contractor's billing must reflect these changes, and all such changes must be approved in advance by the District, which approval shall not be unreasonably conditioned, withheld or delayed. If unusual bus usage situations should occur that are not envisioned in the above pricing examples, the District and the Contractor shall discuss in good faith the appropriate billing charge prior to the initiation of the service. Should the Contractor fail to bring this situation to the attention of the District prior to performing the service, the District reserves the right to reasonably determine the most appropriate method of reimbursing the Contractor. Any billing changes must be supported by appropriate documentation as reasonably determined by the District.

The District currently operates approximately 7 Type I buses, and 9 Type II buses, for various programs during the summer. The pricing for these summer runs is set forth on Exhibit B and shall be consistent with the terms and conditions as detailed in this section.

The Town of Windsor may choose to contract for vehicles for their summer programs. These buses will be provided to the Town of Windsor at the same rates as provided to the District under this Contract, with an adjustment to the price to reflect the Contractor's provision and cost of fuel, pursuant to a separate contract between the Town of Windsor and the Contractor.

2.4 Field and Sports Trips

The Board shall pay the Contractor for Field and Sports trips based upon a rate per hour for driving time and waiting time, plus a rate per mile for "out-of-district" trips that exceed 50 round-trip miles. For field or sports trips that are considered "in-district", the District will guarantee a minimum of one (1) hour of billing at the driving rate. For field or sports trips that are "out-of-district", there will be a minimum of two (2) hours of billing at the driving rate. For the purposes of billing by the hour, trip times will be invoiced in one-quarter hour segments for both driving and waiting time, rounded up to

the nearest quarter hour. For example, a trip of 2 hours and 10 minutes would be billed at a rate of 2.25 times the applicable hourly rate as shown in Exhibit B. Mileage will be based from “point-of-first pick-up” to “point-of-last drop-off”, does not include any deadhead mileage, and will be paid for only those miles that exceed 50 round-trip miles.

Should the District specifically request in writing a Type II vehicle, and should a Type I bus be utilized by the Contractor due to a decision made by the Contractor, the District will be invoiced at the Type II rate.

The District may request the Contractor to conduct some “drop and pick” field or sports trips. **These are only to be done at the specific request of the District. The District reserves the right to require a bus to stay at a trip site for the duration of the trip.** Should a “drop and pick” be requested, the Contractor would be reimbursed for all necessary tolls, as described below, both during the live runs and deadhead runs. Additionally, driving time shall be based upon the scheduled time for departure in the District to return to the Contractor’s terminal unless said terminal is located outside of the Town of Windsor’s boundaries. If the terminal is located outside of the Town of Windsor’s boundaries, the time shall be calculated back to the original point of pick-up as calculated in good faith by the District. For the “pick-up” portion of the trip, the time shall be the time of departure from the Contractor’s terminal if it is located within the Town of Windsor’s boundaries, to the pick-up point and back to the student delivery point in the District. If the terminal is outside of the Town of Windsor’s boundaries, the pick-up run shall begin from the scheduled delivery point in the District. For “drop and pick” runs, the driving time paid shall be total driving time for both sections of the run with the total driving time being a guaranteed minimum of at least one hour of driving time. “Drop and pick” means a process of having a bus take a trip or team to a destination site, and then departing with the same or another bus returning to the site to pick up the trip or team.

The District will reimburse the Contractor for tolls necessary for any District authorized out- of-town trips. Any “coach” or “activity” buses will have the cost of tolls included in the billing to the contracting organization. Toll reimbursement must be requested through the submission of a valid receipt with the invoice for the trip which includes tolls.

For ease of invoicing for both the Contractor and the District, the District reserves the right to meet with the Contractor to establish fixed prices for trips to defined locations both inside and outside of the Town of Windsor’s boundaries. These prices will be based on the driving times and mileage rates required in this Contract but will become “set” prices for the defined locations based upon a one-hour minimum guarantee for in-district trips and a two-hour minimum guarantee for out-of-district trips.

In the event that a field or sports trip is not cancelled by the District with at least one (1) hour of prior notice provided to the Contractor, and if the Contractor can demonstrate to the reasonable satisfaction of the District that it incurred labor costs due to the late cancellation, then the District will pay the Contractor a cancellation fee of \$35.00 per vehicle.

Fuel will be provided to the Contractor by the District at the District's expense in accordance with Section 13 of this Contract.

The District reserves the right to institute a reasonable Trip Management form which will be utilized by the Contractor at the request of the District. This form may include the following type of information: scheduled date of trip; name of group/team; destination; recommended route; program and person requesting/responsible for trip; scheduled departure time and location; scheduled arrival time at destination; estimated departure time from location; estimated return time and location in District; actual departure time; actual return time; comments; estimate trip cost; driver name; bus number; required bus capacity and features. There would be spaces for initials of driver and coach/chaperone/responsible party in several locations on the form.

"Dead Head Mileage" means mileage to and from the Contractor's location(s) that is not considered part of the District's bus routes or trips for time or mileage payments, except as specifically provided herein.

- 2.5 All departments in the Town of Windsor will be entitled to contract for field trip services at the rates agreed to pursuant to this Contract (with the exception of a fuel adjustment for fuel supplied by the Contractor), in the appropriate category, via separate contracts with those departments. The District will not provide fuel for services provided to non-District operations.
- 2.6 The Contractor shall comply with the process that will be utilized to provide Manager and Dispatcher coverage for athletic and field trips that occur after 5:00 pm or on non-school days that was included with Contractor's Response, as defined in Section 23 below, unless otherwise agreed to by the Board in writing.
- 2.7 The Contractor shall comply with its dress code applicable to drivers and aides that was included with Contractor's Response, unless otherwise agreed to by the Board in writing.
- 2.8 The Contractor has submitted a Transition Plan demonstrating how it will accomplish and incorporate the changes contained in this new Contract. The Contractor shall comply with such Transition Plan.
- 2.9 "School Year" is the number of days for which transportation will be required and will be governed by the actual school calendar as adopted by the Board including the calendars of all other schools for which the Board is responsible for furnishing transportation. The Board reserves the right to modify the length of the school year, including increasing or decreasing the number of days of service, upon written notice to the Contractor.

3. GUARANTEES BY THE CONTRACTOR

- 3.1 The District may at any time during the Contract term, by a written order, require the performance of such extra work or changes in the work as it may find necessary or

desirable. The District reserves the right to add to, upon three (3) days prior written notice to the Contractor, delete from, or otherwise change the number of buses, style of buses, use of buses or length of operating day, and/or the number of days requiring transportation under this Contract. The amount of compensation to be paid to the Contractor for any increase or decrease in work or services as so ordered shall be determined by the applicable prices set forth in Exhibit B hereto. The District shall not be liable for any extra work or increased compensation unless authorized in advance by the District's written order.

- 3.2 All material, services, and workmanship shall be subject to inspection, examination and test by the District and at the District's cost and expense, provided that the same do not interfere with the provision of services hereunder by the Contractor. The selection of experts, bureaus, laboratories and/or agencies for the inspection, examination and tests of services, supplies, materials, and equipment shall be made by the District.

The District reserves the right to reject all material, supplies and workmanship that does not meet its published standards.

- 3.3 The Contractor represents, warrants and guarantees:

3.3.2 That Contractor shall procure and maintain solely at its own expense Workers Compensation, Connecticut Disability Insurance, and Connecticut Unemployment Insurance in such amounts as are required by law for all of its employees engaged in the performance of the Contract. That it shall procure and maintain, solely at its own expense, such insurance coverages in the amounts and under the conditions set forth in Section 8 of this Contract. Certificates of Insurance, where applicable, will be submitted to the District Office no later than 30 days prior to the initiation of each Contract year.

3.3.3 That it will comply with Federal and State Fair Labor Standards Act minimum wage standards set by law as to all of its employees while they are engaged in work under any Contract between Contractor and District.

3.3.4 That it will comply in all material respects with the Occupational Safety and Health Act ("OSHA") and the "Toxic Substances Act" ("Right To Know Act") with respect to all operations or activities on District premises, and all other federal, state or local laws, rules or regulations concerning the handling and disposal of toxic or hazardous substances and wastes.

3.3.5 The Contractor will not discriminate against any employee or applicant for employment because of race, creed, color, religion, sex, national origin, ancestry, age, disability, sexual orientation, or marital status. Such action shall be taken

with reference but not limited to: recruitment, employment, job assignment, promotion, upgrading, demotion, transfer, layoff, or termination, rates of pay or other forms of compensation, and selection for training or retraining, including apprenticeship and on-the-job training. In addition, drivers must be prepared to provide a certain amount of reasonable assistance, as circumstances may deem necessary.

Attendants perform critical functions to support the needs of students. To this end, attendants must receive proper training, including the use of automated lift systems and the proper securing of wheelchair and specialized equipment. - 11.2 In addition to the necessary vehicles to meet the scheduled needs, the Contractor is required to have at least 10% of each vehicle size as spare vehicles located at such a place

to insure that the spare vehicle can respond to a vehicle need within 30 minutes. Vehicles with a capacity greater than the required vehicle can serve as a spare for a smaller capacity vehicle as long as the larger vehicle provides the same features and capabilities. Stand-by drivers must be available to operate these vehicles.

1	7 Passenger Van
2	5 Passenger Automobile
Plus a minimum of 10% spares	
Larger capacity buses may be used to meet vehicle requirements – for example, 30 passenger buses may be used to meet the 19/20 passenger bus mandate. Fuel reimbursement will be based on the smaller capacity vehicle.	

The bus capacities may be changed by the Board for future years.

- 11.4 All vehicles providing services to special education students must be air conditioned.

All Type II or smaller vehicles must be equipped with seat belts.

- 11.5 At least two of the Type I buses must be equipped with undercarriage storage. If these buses are assigned to a daily run they must be available in time to meet the sports trip schedules in the afternoon.

11.6.2 Less than 30 passenger buses/vehicles: 4.5 year average age with no vehicle older than 7 years.

11.6.3 Failure to maintain the stipulated age requirements during the Contract life shall be considered a default under this Contract. Vehicle age is determined by subtracting the chassis year of the vehicle from the year of the Contract (calculated on September 1st of each year). For example, a bus with a 2011 chassis year, at the beginning of this Contract period (7/1/16) would be considered 5 years old. Vehicle ages will be calculated each Contract year and

the Contractor will provide the District with a detailed fleet listing at the beginning of each school year stipulating that they meet this age criteria. The use of buses older than allowed under this Section, or the removal of newer buses from the fleet (and the failure to replace them with buses of the same age or newer) once the average age calculation is performed, is a default under this Contract.

No vehicles shall be operated outside the Town of Windsor boundaries without an operating radio (that can be heard from the base station) and/or a cell phone. Certain areas of the Town of Windsor have historically experienced poor radio coverage. In areas with poor coverage, alternative emergency communications procedures or equipment (i.e. cell phone; repeater station) must be provided by the Contractor. All radios or cell phones must be utilized consistent with Federal and State usage regulations.

The Contractor will provide the District’s Transportation Office with a base station tied to the Contractor’s frequency.

- 11.9 All buses provided under this Contract must be equipped with seat belts if required by law. All Type II or smaller vehicles must be equipped with seat belts.
- 11.10 All designated vehicles transporting special education students must have seat belts, child restraint seats, harnesses, or other suitable restraints to meet the needs of each such student. In vehicles with wheelchair lifts, the age, make and model of lift must be identified. Additionally, all wheel chairs must be forward facing and be restrained by a five-point restraint system: four floor tie-downs and one over the shoulder restraint.
- 11.11 Route numbers shall be prominently displayed on the buses, consistent with State regulations. Route identification shall not be obscured due to darkened windows, dirt, or other visual obstruction. All vehicles shall be fitted with permanent devices for displaying the route numbers, approved by the District, located on signs prominently displayed on the vehicle. Spare vehicles must have a system to allow the proper identification when providing services on a route, and identification must be accurate for the route(s) being serviced. All buses must be identified with signs reading “Windsor Public Schools” located on both sides of the vehicles. Lettering will be no less than 4” in height.
- 11.12 All buses must be maintained in a neat and clean condition, both inside and out, at all times that weather permits. Each bus must have an exterior bus washing at a minimum of

once per month during the school year. Should the Contractor fail to meet the monthly washing mandate, the District reserves the right to contract with an outside service and charge the cost to the account of the Contractor with the right of offset to any outstanding invoices. The Contractor shall be responsible for cleaning or eradication of any infestations or contaminations as required by the District or such other regulatory authority.

- 11.13 Buses transporting students must be restricted to the transportation of students and/or authorized personnel only. However, with the prior knowledge and approval of the District, drivers may transport no more than two (2) of their own pre-school children however the children shall not be less than one year of age. All such transportation must be consistent with State regulations. The cost of any equipment (seat belts; car seats) required shall be the responsibility of the Contractor. The District reserves the right to withdraw approval if the driver benefit interferes with the provision of safe and effective services to District students. Such determination rests solely with the District in its reasonable discretion.
- 11.14 All buses (including spares) shall be equipped with a digital video system with a minimum of four cameras per vehicle for 30+ passenger buses, and two cameras for Type II vehicles, with audio capture feature and a hard drive retention of a minimum of 18 school days. The Contractor shall also make available software for viewing, playback and event searching by District personnel. All camera use and video viewing shall be consistent with the published policies and procedures as established by the District. Information about the camera system is set forth in Exhibit C, attached hereto and made a part hereof. Camera systems must provide the ability to “blur” or “mask” in order to remove facial recognition of passengers.
- 11.15 The Contractor shall ensure that each bus includes the proper notification signs stipulating the use of audio and video recording equipment.
- 11.16 At the Board’s request and cost, the Contractor shall install and operate a GPS system that would integrate with the required routing software, and which will provide the Board with access to the GPS data at the Board’s offices. The Global Positioning System (GPS) (Zonar or approved equivalent) with advanced stop arm and door opening alerts shall be operational on every vehicle selected by the Board. The details on the specific GPS systems to be utilized are set forth in Exhibit C hereto. The GPS data from the software must be made available to integrate fully with the Board’s routing software. The Contractor shall be responsible to provide a daily listing to the Board of the particular vehicle assigned to each route. The Board reserves the right to designate some (but not less than 50%) or all of the fleet to contain this feature. Included in the GPS system would be the necessary software module(s) to allow the Board full access to the GPS data. The Contractor would be responsible for providing this software to the Board.

If the Board elects to have GPS on some or all of its vehicles, the Board shall pay to the Contractor the annual cost per bus for each bus selected by the Board to have GPS for the installation and operation of this feature, as set forth in Exhibit B attached hereto.

- 11.17 The Superintendent or his/her designee reserves the right to reject buses to be used under this Contract based upon safety issues or chronic mechanical problems of a serious nature. In the event of rejection, the Contractor will be fully responsible for replacing those rejected vehicles.
- 11.18 The Contractor shall provide prior to the start of each year of the Contract, a list of the vehicle identification number, year, body manufacturer, chassis manufacturer, student seating capacity, and fuel type of each vehicle to be utilized under this Contract during the Contract year.
- 11.19 Contractor must provide the Board on request copies of vehicle maintenance records. The Contractor shall establish a daily inspection program of all vehicles and equipment and shall keep written records showing such inspections so that the Board or its authorized agent may, at any time, request the written record of the inspections made by the Contractor. Such records shall be on a form approved by the Board.
- 11.20 Buses used to transport students shall not display any advertisement, political or otherwise, either inside or outside of the vehicle without the expressed written prior consent of the Board.

12. FACILITIES

- 12.1 Contractor shall be responsible for providing all transportation related facilities used in the performance of this Contract. The site(s) to be utilized by the Contractor for the operation and maintenance services is described in the Contractor's Response. The location of the site cannot change without the prior written consent of the Board. The Board reserves the right to inspect the terminal(s) periodically during the term of the Contract. The District strongly prefers that the facility utilized for the day-to-day operation of the Contract be located within the Town of Windsor.
- 12.2 Contractor shall pay all motor vehicle, personal, excise, sales, use and other taxes or assessments with respect to Contractor's vehicles, equipment, personal property and business operations on the premises prior to same becoming delinquent. If the facility is located in the Town of Windsor, all vehicles will be registered in the Town of Windsor and applicable taxes on the assets shall be paid to the Town of Windsor. If the facility is not located in the Town of Windsor, the Contractor shall make an annual payment to the Town of Windsor equivalent to the applicable taxes that would be paid if the facility was located within the Town of Windsor.
- 12.3 When not operating in service to the Board, removed for maintenance service at another location, or otherwise in use, all vehicles being used to provide services under this Contract shall be parked at the bus garage serving Windsor Public Schools and be subject to the control and supervision of the Contractor. Buses shall not be parked at private residences or any other locations in the Town of Windsor except at the bus garage.

“Park-outs”, or provisions to allow drivers to store the vehicles at their homes or other locations, are specifically prohibited.

13. FUEL

The District shall provide fuel to the Contractor at the District’s expense under the following parameters:

13.1 The Board will furnish the Contractor, without charge to the Contractor and at mutually convenient times, with the fuel necessary for the performance of the transportation required by Windsor Public School’s Transportation Program. The amount furnished will be limited to the amount actually used in the performance of this Contract, or to:

- one (1) gallon of diesel for each eight (8) route miles for 30+ passenger buses, or
- one (1) gallon of diesel for each twelve (12) route miles for 18-29 passenger vehicles (including wheelchair vehicles), or
- one (1) gallon of unleaded gasoline for each twenty (20) route miles for vans or other unleaded vehicles.

At the present time the Board is providing the fuel through the use of the Department of Public Works site in the Town of Windsor. It is expected that this process will continue during the term of this Contract. The Contractor will comply with authorization requirements as determined by the Town of Windsor.

Should the Contractor receive the District’s permission to utilize an alternative vendor or source, the District will not be responsible for any taxes associated with the costs of the fuel, or any incremental charges that would be incurred should the District’s designated fuel dispensing location be made available to the Contractor but not be utilized.

13.2 For the purposes of the calculation of allowable miles for the allocation of fuel, (i) if the Contractor is using vehicles parked at a lot in the Town of Windsor, allowable miles shall be terminal to terminal, or (ii) if the Contractor is using vehicles parked at a lot not located in the Town of Windsor, allowable miles will be based upon actual route miles as determined by the District. Actual route miles shall be from point of first pick up in the morning until the last drop off in the morning, and from the first school in the PM to the last drop off. Deadhead mileage to and from any terminal of the Contractor located outside of the Town of Windsor will not be included. The field and sports trips will be based upon the miles per gallon for the size vehicle utilized, from point of departure in the District to point of return in the District.

To allow accurate fuel usage tracking, the Contractor must supply the District with mileage for each trip. The District will not pay for any trips where specific mileage is not provided.

- 13.3 The Town of Windsor, or the Windsor Public Schools, will not provide fuel to the Contractor for any uses not related to the performance of the Contractor's obligations under this Contract.
- 13.4 If the District's designated fuel site is made available to, but not utilized by the Contractor, the Contractor agrees to provide the necessary storage and pumping facilities to meet the fuel needs of the program. The District will not be responsible for any "wet fueling" charges due to the lack of a fuel storage system, or any procedural limitations by the Contractor.
- The District will not supply the Contractor with any fuel outside of the legitimate usage for the services provided by the Contractor to the District under this Contract. Should the Contractor be required to supplement the fuel allocation due to its own vehicle usage not related to the performance of the Contractor's obligations under this Contract, the Contractor will be required to purchase said fuel from its own supplier.
- 13.5 The Contractor and the District shall meet prior to the beginning of each school year to determine the allowable route mileage and the estimated annual fuel allowance. Periodic meetings will occur throughout the school year to evaluate any route changes and the potential impact on the fuel allowance.
- 13.6 The Contractor is required to provide drivers with specific training on fuel economy techniques including, but not limited to, non-idling programs.
- 13.7 The District is very interested in the benefits and features of utilizing alternative fuels in the student transportation program.

14. SAFETY REQUIREMENTS

School transportation vehicles must be operated at all times by capable and competent personnel at safe and reasonable rates of speed. The Board of Education, through the Superintendent of Schools, reserves the right to require any and all reasonable precautions for the safety of students in their transportation to and from school. All students are to enter and leave vehicles at the curb (except special education students who may have specialized loading requirements), and at no time are pupils to be transported off the public highways, except in compliance with present policy and/or practice.

15. ROUTE SCHEDULING

- 15.1 The Contractor will use the so-called "Trapeze Routing System" software for the development of school bus routes within the Town in consultation with the District. The District shall reimburse the Contractor for the cost of the annual license fee for such software. All routes shall be subject to the final approval of the District, which approval shall not be unreasonably conditioned, withheld or delayed. The District reserves the right to change any and all routes, times routes are to be operated, bus stops and any other such adjustments that conditions may necessitate, upon at least three (3) days prior notice

to the Contractor. Except in emergency situations, no route changes are to be made by Contractor, or any driver, without the prior permission of the District. The District may request the assistance of the Contractor to evaluate or revise certain routes as the efficiency of the routing system is of paramount importance. Therefore, the Contractor is expected to provide the District with active assistance in evaluating route efficiency.

In the event that, in the opinion of the Contractor, routes cannot be traveled as scheduled, for good and sufficient reason, the District shall be notified immediately.

The District or its designee reserves the right to change or designate additional pickup or discharge points when in the opinion of the District it is necessary for the safety and welfare of children. This shall be at no additional charge to the District as long as such changes do not increase the number of hours for which any vehicle will be operating. In the event that any such changes increase the number of such hours for which any vehicle will be operating, the Contractor shall be compensated therefor in accordance with the provisions of Section 2.3 above.

Routes and schedules are to accommodate class schedules and shall be determined by the District. The current bell times are detailed in Exhibit A to this Contract, attached hereto and made a part hereof. These times may change during the term of the Contract.

The District must be notified by telephone when a bus driver is aware that there will be a delay of fifteen (15) minutes or more in the transportation of students.

- 15.2 Both parties to this Contract agree to cooperate in revising the trips specified herein to improve service, operating efficiencies or economy. No route changes are to be made by the Contractor without the prior written permission of the Superintendent or his/her designee. The District reserves the right to notify the Contractor of reasonable changes in the starting and dismissal times of a school or schools and services. As long as the Board does not increase the number of hours for which the buses will be operating, such change shall be without additional charges except as provided for within this Contract.

Given the unique requirements of special education transportation, situations may arise which will require additional routes or services. The District will endeavor to provide the Contractor with at least 72 hour notice prior to the initiation of said new service.

At the termination of this Contract, the Contractor agrees to surrender any District data if so requested by the District.

- 15.3 The number of days for which transportation will be required will be governed by the actual school calendar as adopted by the Board including the calendars of all other schools for which the District is responsible for furnishing transportation. When schools are closed (for any reason, including force majeure) transportation is to be furnished on such other days as the Board declares official school days. The Contractor shall not be required to furnish any transportation on mandated legal holidays to any schools including the non-public schools with the exception of extra-curricular trips authorized

by the District. The list of mandated legal holidays will be published no later than the second week of school.

- 15.4 Each bus used under this Contract will display the proper Bus Number, consistent with State regulations as to size and location, and must be identified with signs reading "Windsor Public Schools". Bus identification must include the Windsor Public Schools route numbers.
- 15.5 The Contractor will be responsible for furnishing transportation to all schools and locations as required by the District.

The Contractor shall accommodate these early dismissals at no additional cost to the District.
 - e) Dismissal as required during December, March and June examination weeks in the high school.
 - f) Summer transportation as detailed in Section 2.3 of this Contract and as required by the individual student programs.
 - g) The Contractor will delay, at no additional cost to the District, the morning routes by up to two hours on any day that the Superintendent of School institutes a delayed opening of school due to adverse conditions or any other emergency.
- 15.7 The Contractor will supply updated route data, mileage and any other additional information deemed necessary by the District.
- 15.8 Trial Runs: On a day established by the District within one week prior to the first day of service under the Contract, each regular driver will make at least one (1) trial AM and PM run to include all stops assigned on the route, using the bus that will be assigned to the driver or a bus with similar capacity and features. Drivers are expected to become

familiar with their assigned routes and proficient in meeting the time demands of the transportation program. The Contractor will identify any routes where there is an indication of an inability to regularly perform to schedule and to safely serve the pupils. Contractor must provide written verification of this trial run process to the District no later than the beginning of school of each contract year. Trial runs must be operated during the typical AM and PM times in order to replicate common traffic issues and related times. Trial runs must be operated in vehicles with similar capacities to the vehicles that will be assigned to the runs. The cost of the trial runs shall be borne by the Contractor and will not be billed to the District, however the District will provide the fuel necessary for the trial runs. However, the District reserves the right to require additional trial runs and in those instances will reimburse the Contractor for its documented out-of-pocket expenses for these runs.

16. OPERATING MATTERS

- 16.1 District Operating Policies: Contractor shall conform to and abide by the policies, rules, and regulations of the District as set out in the present written policies and rules of the District, relevant to student transportation, as modified in writing by current practice, as they may be modified in writing from time to time, and such other future regulations as may reasonably be required by the District. The cost of such instruction shall be paid by the Contractor. Should the District employ one or more bus attendants, these attendants will be trained by the Contractor at the Contractor's expense. The District will reimburse the Contractor for any out-of-pocket expenses associated with the training of District-employed attendants, including any physical exams or licensing. The District will be responsible for any and all salaries, benefits, and payroll expenses for these District employees.

The District may make available to Contractor's employees additional specialized training. The Contractor shall be responsible for providing the regularly scheduled buses in the event that schools are closed early in any school day due to weather conditions or other emergency declared by the Superintendent of Schools. It is understood that time is of the essence in providing such buses, and that such buses will be provided as soon as possible, and the Contractor shall exercise its commercially reasonable efforts to cause the arrival of the buses at the designated locations no more than one (1) hour after notification is given to the Contractor by the District.

Should the Town of Windsor experience an emergency which requires the movement of students or residents, the Contractor shall provide, to the best of its ability, the vehicles and drivers to meet the emergency need. In light of the potential difficulties in providing these services, it is recognized that the Contractor will make all reasonable efforts to cooperate with the evacuation requirements while giving effect to the Contractor's other commitments. The rate for reimbursement of costs incurred by the Contractor shall be based on the Excess Hourly Rate set forth on Exhibit B hereto for the appropriate vehicle size.

- 16.5 Contractor's Reports: The Contractor shall deliver to the District its written weekly and monthly reports of operations, as follows:

16.5.1 Weekly report: A weekly report shall be provided which will include arrival (AM) times for each vehicle providing regular routes, which shall be listed by run numbers and indicate any combined runs. The District reserves the right to actively participate in any accident review of a vehicle in which its students are being transported.

- 16.5.4 Student Discipline Matters: In addition to monthly reports, in the event of any student discipline matter involving District students, the Contractor shall immediately notify the individual school building, and the District's liaison, in the manner as prescribed by published District policy and procedure. The Contractor shall follow the written discipline operating procedures as defined by the District.

Violation of good conduct, and improper behavior on the part of students, shall be handled strictly according to the published procedures in effect in the District during the term of this Contract. It is of paramount importance that drivers and bus aides maintain good order on the school buses. Drivers and/or bus aides may be required to attend suspension or corrective hearings in relation to the poor bus conduct of student(s) that were or are in their charge. This attendance is mandatory and failure to attend may cause withdrawal of the District's certification (approval) of any driver or aide who fails to do so. Any cost or salary reimbursement for attendance by drivers or aides shall be borne by the District.

- 16.5.5 Student Counts: A student count is required in October, January, and April during the school year with the counts added to the Monthly Report. A sample monthly report is shown in Exhibit D attached hereto, however this report will require adjustment based on discussions between the Contractor and the District relative to the preferred method of reporting the student counts. The Contractor will provide whatever reasonable assistance is requested to assist the District in the compilation of this data.

- 16.5.6 Compliance with Section 10-221c reporting: The Contractor shall assist the District in the tracking and filing of complaint and accident information consistent with the requirements of Section 10-221c of the Connecticut General Statutes.

- 16.7 Rights To Property: As a condition of this Contract, the Contractor agrees to allow District Administrative personnel or their authorized representative(s) on any property connected with the service provided to the District for the purpose of inspection at any

time. The Contractor shall also make the garage facility and maintenance records available for inspection by school personnel.

- 16.8 Authorization of Students for Transportation: Only those children, adults or other person(s) authorized by the District to be transported shall be transported under this Contract. The Contractor shall agree to secure the prior written approval of the District before agreeing to undertake the transportation of pupils for other districts, schools or individuals in conjunction with the trips specified in this Contract, and to furnish the District with copies of each such related Contract with another school, district or individual for such transportation. The District reserves the right to assign students from other districts to buses/routes. The District reserves the right to require financial credit against stipulated vehicle charges for any additional services provided by the Contractor to other parties. The amount of the credit will be determined based upon discussions between the District and the Contractor.
- 16.9 Public Relations: The Contractor will cooperate with the District in maintaining a quality public relations program with the parents, community and news media so that any pertinent items affecting the transportation program can be brought to the attention of the public in a responsible manner. The Contractor will not directly provide information or communicate directly with media without prior Board approval. The Contractor shall fully inform its employees of the requirement to support the District in maintaining a quality public relations program.

17. COMPLIANCE REQUIREMENTS

- 17.1 Compliance with Title IX Regulations: In compliance with Title IX, Education Amendments of 1972 (prohibiting sex discrimination in education), the District requires any person, organization, group or other entity with which it contracts, sub-contracts, or otherwise arranges to provide services or benefits (including proposals) to comply fully with Title IX.

- 17.2 Compliance with the Americans With Disabilities Act and Section 504 of the Rehabilitation Act of 1973: In compliance with the American with Disabilities Act and Section 504 of the Rehabilitation Act of 1973, (prohibiting discrimination against any person who is qualified with a disability), the District requires that any person, organization, group, or other entity with which it contracts, sub-contracts, or otherwise arranges to provide services or benefits (including proposals) to comply fully.

18. TERMINATION OF CONTRACT BY BOARD WITHOUT DEFAULT

The Windsor Public Schools may terminate this Contract any time by notice in writing from the Board to the Contractor, because of the good faith lack of appropriate funding to operate the transportation program.

If this Contract is terminated by the Windsor Public Schools as provided herein, the Contractor will be paid for services actually and satisfactorily rendered by Contractor prior to the date of termination. Any pre-payments made to the Contractor by the District pursuant to the terms of this Contract will be adjusted and any monies that should be refunded to the District will be remitted within 15 days.

19. CONTRACTOR'S DEFAULT

If, at any time during the term of this Contract, the Contractor, in the reasonable discretion of the Board; (a) has failed to provide the level of services required under this Contract; (b) has failed to fulfill services required in accordance with agreed schedules; (c) has become insolvent; (d) makes an assignment for the benefit of creditors; (e) files a voluntary petition in bankruptcy; (f) is subject to an involuntary petition in bankruptcy not discharged within thirty (30) days; (g) abandons the work; (h) subcontracts, assigns, transfers, conveys or otherwise disposes of its obligations under this Contract other than as provided herein; (i) fails to provide the insurance required in this Contract; (j) fails to provide the Performance Bond required by this Contract; or (k) fails to comply with any other term or condition contained in this Contract, and any such failure, event or noncompliance has not been cured by the Contractor following thirty (30) days prior written notice thereof from the Board to the Contractor (or, if such condition is not capable of being cured within such thirty (30) day period, if the Contractor has not commenced and diligently attempted to cure such condition within such thirty (30) day period), the Board shall have the right to terminate this Contract upon written notice to the Contractor.

The above remedies are in addition to any other remedies the Board may have.

In the event of termination of this Contract due to Contractor's default and the necessity to bid or otherwise negotiate a new contract for transportation service with another contractor, the Contractor will be responsible for indemnifying the Board for costs incurred in obtaining a new contract including any and all increase in costs for transportation service for the duration of the term of the original Contract, after giving effect to the application of any Performance Bond.

In addition, one-day cessation of bus services shall constitute a default of this Contract. Cessation of bus services shall mean the absence from service of more than four (4) vehicles on any single day.

In the event of a cessation of service because of a labor dispute, strike, or other cause beyond the control of the Contractor, the Contractor shall notify the District as soon as such information becomes known to it, and the Contractor shall use its commercially reasonable efforts to make interim arrangements for bus service. The Contractor shall compensate the District for any increase in costs incurred by virtue of this cessation. If reasonable interim bus service meeting all

requirements cannot be obtained after reasonable efforts by the Contractor within five (5) school days of the cessation of service, the District shall have the option of terminating this Contract upon written notice to the Contractor, calling the performance bond and/or other security or taking such action as may be authorized by law.

In all other cases where the Contractor ceases service for one or more school days, the District shall also have the unilateral right to declare the Contractor in default and call for the performance of the surety under the bond or other security; and any performance bond provided under this Contract to the District shall so specifically state.

20. NON-PERFORMANCE DAMAGES

The District has included non-performance damages in the event that financial remedies are needed to ensure a high-quality transportation service. The District and Contractor agree that in certain circumstances, the actual amount of damages incurred by the District will be difficult to assess and/or may be immeasurable. Accordingly, under the following circumstances, the District may assess damages against the Contractor, to be paid as liquidated damages and not as a penalty or forfeiture. In addition, the District will not pay for any services that have not been provided. Prior to the implementation of any liquidated damages, the District will attempt to meet with the Contractor to determine if there are any mitigating circumstances that have caused the service issue that might lead to the issuance of liquidated damages, but it is the District's decision on whether or not a mitigating circumstance existed.

In view of the difficulty the District will suffer by reason of defaults on the part of the Contractor, the following sums are hereby agreed upon and shall be deemed damages for breach of this Contract:

- 20.1 If at any time the Contractor does not provide the required number of buses, drivers or attendants necessary under this Contract, the Board may deduct from its monthly payment the pro-rata cost of the vehicle for that day, plus \$100.00, or the cost of the District's expense for engaging alternate transportation during the period that the Contractor is not in compliance with the terms of this Contract, whichever amount is greater. Included in this provision would be any runs where the Contractor "doubles up" the run due to driver shortages. Making changes to run schedules, including the merging of runs due to driver shortages, is specifically prohibited and is subject to the liquidated damages stated in this Section.
- 20.2 If the Contractor does not supply when needed the necessary spare vehicles to operate the Transportation Program within the 30-minute reporting requirement, the District shall deduct from the monthly payment the pro-rata cost of the unfurnished vehicle(s) for that day, plus \$50.00.
- 20.3 This Contract envisions a quality, responsive transportation program that minimizes the District's involvement in the day-to-day operation of the program. Should operating problems occur which require an extraordinary level of involvement by the District, the District reserves the right to officially notify the Contractor of such problems. Should

similar operating problems reoccur within thirty (30) days, the District reserves the right to deduct \$100.00 from the monthly payment for each such occurrence.

Should the Contractor fail to comply with specific requirements of this Contract, and should this issue not be addressed in this Section 20.3, the Contractor is liable for deductions equivalent to the cost of a Type I bus for five hours per day for the appropriate contract period for each day that the non-compliance occurs.

- 20.4 If at any time the Contractor uses a driver or attendant in the performance of this Contract who has not been approved by the District and/or does not meet the requirements of the State of Connecticut, the Contractor is liable for deductions of \$150.00 per day from the monthly billing for service for each person so employed, plus the per diem cost for the vehicle for that day.
- 20.5 In the event a strike or other occurrence causes an interruption of services for more than 24 hours that is not addressed by the Contractor in accordance with Section 19 above, the District shall have the right to secure such other transportation as may be necessary and charge the incremental cost of same to the account of the Contractor.
- 20.6 The District requires that all buses that are utilized in the performance of this Contract have operating and active radios, or comparable communication devices (cellular phones). A \$100 per day per bus liquidated damage shall be assessed for any vehicle which does not comply with this requirement.
- 20.7 The District requires that at all buses have operable digital cameras consistent with the equipment description in Section 11.14 of this Contract. A \$100 per day per bus liquidated damage may be assessed for any bus that violates this mandate.
- 20.8 If the Board elects to have GPS on the vehicles as described in Section 11.16 of this Contract, in the absence of a systemic failure or some other cause beyond the control of the Contractor, the applicable vehicles must have operable GPS consistent with the equipment description in Section 11.16 of this Contract. A \$100 per day per bus liquidated damage may be assessed for any bus that violates this mandate.
- 20.9 The Contractor is required to maintain a spare bus ratio of at least 10% of each vehicle size. Should the Contractor fail to meet this provision for more than 24 hours without a justifiable reason as reasonably determined by the District, the Contractor may be assessed a \$100 per day per bus liquidated damage. Vehicles must meet the age requirements as detailed herein. Buses that do not comply with these mandates, and that are found to be operating on any route in violation of this Contract, will result in liquidated damages of \$50 per day plus the per diem cost of the vehicle.
- 20.10 The Terminal Manager and/or Dispatcher are precluded from driving duties or maintenance duties, except in an emergency as determined solely by the District. Should either the Manager or Dispatcher drive one or more routes without the prior approval of

the District, the District reserves the right to not pay for that portion of the run operated, plus assess a \$50 per occurrence liquidated damage.

- 20.11 Extra-curricular transportation is an important element of the District's educational program. Therefore, it is expected that the Contractor will meet the District's needs given that the District duly informs the Contractor of any trip at least 24 hours ahead of said trip. Failure by the Contractor to provide the necessary driver(s) will result in non-payment by the District for the trip, a \$50 per missed trip liquidated damage deduction from any payments due to the Contractor under this Contract, and a reimbursement to the District for any financial damages that the District may incur as a result of the missed trip (e.g., referee fees, entrance fees, alternative services etc.). If a bus is more than 15 minutes late for any aspect of a scheduled trip due to the fault of the Contractor, the District reserves the right to assess a \$50 per trip liquidated damage for the late arrival.

However, the District realizes that situations may occur, due to rescheduled events or other unplanned circumstances, where the Contractor has an insufficient number of vehicles to perform the requested extra-curricular services. In this event, the Contractor must make every reasonable effort to secure the necessary vehicles, and must notify the District at the earliest possible date/time of the potential shortage. No damages would be charged in this situation. It must be understood that this clause only refers to vehicles. The Contractor is expected and required to have a sufficient staff to meet the District's needs.

- 20.12 A reliable transportation system is important to meet the education requirements of the students and the District. To this end, students must be picked up in the AM in a timely and consistent manner, and delivered to their school buildings prior to the assigned arrival time. In the PM, students must be delivered home in the PM in an efficient manner. No bus is permitted at a school in the AM more than 15 minutes prior to the bell time without permission from the District's Transportation Office, and all buses must arrive at their AM schools prior to the scheduled arrival time. In the PM, a bus is not "late" on the 2nd tier until 15 minutes past the bell time. A vehicle which violates the AM or PM time standard may be assessed a liquidated damage of \$50 per occurrence. Should situations beyond the control of the Contractor cause the late pick-up in the PM (weather; traffic; detours; etc.), the liquidated damage will not be assessed.

- 20.13 It is understood and agreed by the Contractor that the assessment of non-performance liquidated damages shall be in addition to the right of the District to terminate this Contract in accordance with Section 19 above and that in the event of termination, the above liquidated damages will be applied and assessed for the full period of any non-compliance during the school year. The rights and remedies set forth in this Section are in addition to any other rights or remedies available to the District under this Contract, in law and equity.

The District shall accumulate any liquidated damages and delay any assessment to the Contractor unless and until the accumulated liquidated damages reach or exceed \$1,500 in any school year. Should the assessment level be reached, the District reserves the right

to assess all accumulated liquidated damages. During the term of any accumulation, the District will provide the Contractor notice of liquidated damages assessed and provide the Contractor an opportunity to remedy the violating actions and/or respond to the District's determination.

It is expressly understood by the Contractor that the District, by not exercising its rights, or by waiving any of the provisions of this Contract, or by exercising the provisions of this Contract in a particular way, shall not be deemed to have waived any of its rights or the contract requirements despite any previous nonexercise or waiver.

21. ACTS NOT IN CONTROL OF CONTRACTOR

The Contractor shall not be held responsible for any losses resulting if the fulfillment of the terms of the Contract shall be delayed or prevented by wars, acts of public enemies, fires, floods, acts of God, inability to secure fuel, power, supplies, equipment, personnel or materials at reasonable prices or on account of shortages thereof, or for any other acts not within the control of the Contractor, and which by exercise of reasonable diligence it is unable to prevent, except for strikes or labor unrest.

22. NO ASSIGNMENT BY CONTRACTOR

It is mutually understood and agreed that the Contractor shall not assign, transfer, convey, sublet, or otherwise dispose of this Contract or its right, title, or interest herein, or its power to execute such Contract, or any part thereof to any person, company or corporation, without the prior written consent of the District, which consent shall not be unreasonably conditioned, withheld or delayed. A sale of stock in a corporation, a change in partners in a partnership, or a change in membership in a LLC, which results in a change in the controlling interest of the Contractor shall be an action that will be considered a contract assignment under this provision.

23. INCORPORATION OF DOCUMENTS

All of the SPECIFICATION AND PROPOSAL FORMS FOR STUDENT TRANSPORTATION of the Windsor Public Schools released November 6, 2015 and any Addenda (the "RFP") shall form a part of this Contract and the provisions thereof shall be binding upon the parties hereto. The provisions of the Contractor's response to the RFP dated December 10, 2015 (the "Contractor's Response") are incorporated into this Contract to the extent that such provisions do not conflict with this Contract; and the parties specifically agree that the pricing information attached as Exhibit B to this Contract supersedes in its entirety the pricing information submitted with the Contractor's Response. In the event of any conflict between the terms and conditions of this Contract, the RFP, and the Contractor's Response, the terms of this Contract shall control.

24. OTHER CONTRACTORS

It is the District's desire and intention to award a contract to one Contractor. However, in order to meet the operating requirements of the District, it is understood that the Contract in no way

excludes the District from using its own vehicles, drivers, attendants, or services provided by other school districts. The District may also use services from other contractors in the event that the Contractor cannot meet the District's needs. Additionally, the District may utilize services provided by other contractors for special needs transportation and for athletic and field trips.

25. NO WAIVER

No action or failure to act on the part of the District to enforce its rights or remedies under the Contract shall constitute a waiver of any right or remedy to which the District is entitled, nor shall such action or failure to act on the part of the District waive any duty on the part of the Contractor to perform under the Contract nor shall such action or failure to act constitute approval of or acquiescence in any breach thereunder, except as may be specifically agreed in writing.

26. GOVERNING LAW

This Contract shall be governed by, and construed and enforced in accordance with, the laws of the State of Connecticut without regard to its conflicts of laws principles that would require the application of any other law.

27. SEVERABILITY

If any provision of this Contract is subsequently found to be illegal or invalid, all unlawful provisions shall be deemed stricken from this Contract and shall be of no effect and the remaining provisions shall not be affected thereby and shall remain in full force and effect.

28. COMPLETE AGREEMENT

This Contract and all Exhibits attached hereto constitute the full and complete agreement of the parties hereto and shall be binding upon their respective permitted successors and assigns.

IN WITNESS WHEREOF, the parties hereto have set their hands by their duly authorized representatives, as of the 29 day of April, 2016.

**FIRST AMENDMENT TO CONTRACT FOR TRANSPORTATION
SERVICES**

This **FIRST AMENDMENT TO CONTRACT FOR TRANSPORTATION SERVICES** (the "Amendment") dated as of June 30, 2021, is by and between the **WINDSOR BOARD OF EDUCATION** (the "District"), and **DATTCO, INC.** (the "Contractor").

WITNESSETH:

WHEREAS, the District and the Contractor are parties to that certain Contract for Transportation Services dated as of April 29, 2016 for the transportation of children to and from schools located in the Town of Windsor, Connecticut (the "Contract"); and

WHEREAS, the District and the Contractor executed that certain letter agreement dated April 24, 2020 to address payment under the Contract during the spring of 2020; and

WHEREAS, the District and the Contractor have agreed that the term of the Contract shall be extended for an additional five (5) year period; and

WHEREAS, the District and the Contractor desire to amend the Contract to, among other things, effectuate the foregoing.

NOW, THEREFORE, in consideration of the foregoing and the mutual promises and covenants contained herein, the parties hereto hereby agree as follows:

1. Section 1 of the Contract is hereby deleted in its entirety and replaced with the following:

"1. TERM. The initial term of this Contract shall be for a period of five (5) years, beginning on July 1, 2016 and terminating on June 30, 2021 (the "Initial Term"). The second term of this Contract shall be for a period of five (5) years beginning on July 1, 2021 and terminating on June 30, 2026 (the "Second Term", and together with the Initial Term, the "Term")."

2. In the fourth paragraph of Section 2.3 of the Contract, the phrase stating "The Contractor's prices shown on Exhibit B, attached hereto and made a part hereof, are based on the following:" shall be deleted and replaced with the following:

"The Contractor's prices shown on Exhibit B-1 and Exhibit B-2, attached hereto and made a part hereof, and collectively referred to herein as "Exhibit B", are based on the following:"

3. The heading on Exhibit B to the Contract shall be relabeled as "Exhibit B-1".

4. Exhibit B-2 to this Amendment shall be added as Exhibit B-2 to the Contract.

5. Section 4 of the Contract shall be amended to include the following new Section 4.13:

“4.13 The Contractor and the District each acknowledge and agree that the pricing set forth on Exhibit B-2 hereto applies only during the Second Term. During the Second Term, the District shall pay the Contractor on a per diem, per vehicle fee basis for home-to-school transportation for a minimum of one hundred eighty (180) days during the school year, even if the District did not require home-to-school transportation for 180 days during each school year of the Second Term. The Contractor and the District further acknowledge that the District has agreed to make such payments to ensure continuity of service. To that end, the Contractor agrees that it will take all commercially reasonable steps to ensure continuity of service, including, but not limited to, continuing to employ all drivers and other employees providing service under the Contract, so that the Contractor is able to fully perform its obligations under the Contract in all material respects. The Contractor and the District further acknowledge and agree that even though the District has the right to increase or decrease the number of vehicles utilized in home-to-school transportation, the District nevertheless agrees to pay the Contractor during the Second Term the full per diem, per vehicle rate for the 2021-2022 and the 2022-2023 school years for the Minimum Vehicle Counts as defined below and listed on Exhibit B-2 hereto. The “Minimum Vehicle Counts” shall be defined as 38 Type 1, 71 passenger school buses; 18 Type 2 19/20 passenger school buses; 1 Type 2 school bus for 8 passengers with 2 wheelchair positions; and 7 cars or van type vehicles with 5-7 passengers for the 2021-2022 and 2022-2023 school years. For the remainder of the Second Term (i.e. the 2023-2024 school year, the 2024-2025 school year, and the 2025-2026 school year), the per diem, per vehicle price paid by the District to the Contractor shall be based on the actual vehicle numbers utilized in Home-to-School Transportation, subject to the pricing percentage adjustments included in Exhibit B-2 hereto. During the Second Term, the minimum number of vehicles and minimum school days described in this Section 4.13 shall be incorporated, to the extent applicable, throughout the Contract. Subject to the following sentence, and notwithstanding anything contained herein to the contrary, should a vehicle not be utilized on a scheduled route for any reason whatsoever, such as the Contractor’s failure to have adequate drivers or vehicles, the Contractor shall notify the District immediately and (i) the Contractor and the District shall mutually determine any necessary route reconfigurations required for the Contractor to provide the transportation services hereunder and (ii) the District shall not be charged a per diem rate for such unused vehicle for each day that such unused vehicle is not operated, unless such unused vehicle is not operated for fewer than five (5) consecutive school days, in which case the Contractor may charge the District for any such unused vehicle that is not operated during such period. The foregoing sentence shall not include instances where the District cancels or suspends the scheduled route on either a temporary or a permanent basis. The Contractor acknowledges and agrees that it shall not temporarily reassign any driver on its payroll who regularly provides transportation services to the District to another work assignment outside of the District, unless on such date the Contractor has the same amount of regularly scheduled drivers and vehicles performing services in the District.”

6. Section 8.2(c) of the Contract is hereby deleted in its entirety and replaced with the following:

“c) \$5,000,000 umbrella or excess liability coverage is required. Must be at least follow form over the Auto Liability, General Liability, and Employers Liability.”

7. Section 8.2(f) of the Contract is hereby deleted in its entirety and replaced with the following:

“f) Sexual Misconduct and molestation insurance must be provided with limits of at least \$3,000,000 and must include an additional insured endorsement naming Windsor Board of Education and Town of Windsor, as their interests may appear under this Contract. This can be either a separate policy or as an endorsement to the General Liability. If endorsed on the General Liability, it must be clearly stated that the Automobile exclusion on the General Liability policy does not apply to this coverage.”

8. The following shall be added at the end of Section 10.4 of the Contract:

“The Terminal Manager shall be responsible for providing training to its drivers on how to properly document student discipline problems and accident reports and for obtaining such reports from its drivers promptly after they are completed. Upon the Terminal Manager’s receipt of such reports, he/she shall review such reports for accuracy and proper wording, follow-up with the reporting driver if necessary, and work with the driver to make any required revisions and corrections. Once such report is complete, the Terminal Manager shall submit the same to the District within 36 hours of such incident.

The Terminal Manager shall also be required to monitor the electronic student file that is transmitted nightly to the Mapnet system. As a part of such monitoring process, the Terminal Manager shall verify that each student has been automatically assigned to his/her own unique bus stop. If any student has not been automatically assigned, the Terminal Manager shall manually assign such student to his/her stop within forty-eight (48) hours of such transmittal.

The Board shall, from time to time, provide the Terminal Manager with a current list of all streets in the Town of Windsor that are classified as “No-Cross” streets. The Terminal Manager shall develop and implement a plan for stops on these streets and make clear and appropriate notations on each route sheet indicating instances where students may not cross. The Terminal Manager shall provide such route sheets with appropriate notations to each driver. For example, because Cook Hill Road is a “No-Cross” street, the route sheet provided to the driver should contain a notation that states “Door Side Only”. ”

9. Section 10.24 of the Contract is hereby amended as follows:

- The phrase “provided by the Contractor” in the first sentence of Section 10.24 shall be deleted and replaced with the phrase “provided by the District.”
- Add the following to the beginning of the second sentence of Section 10.24: “The District shall ensure that”.

10. Section 11.12 of the Contract is hereby deleted and replaced with the following:

“11.12. (a) Interior Cleaning. The interior of all vehicles must be cleaned and disinfected on a regular schedule in order to mitigate the spread of communicable diseases. The parties agree that the Contractor will perform all cleaning and disinfecting services in accordance with industry standards and provide the necessary cleaning and disinfecting supplies.

The Contractor shall be responsible for cleaning any infestations or contaminations as reasonably required by the District or such other regulatory authority.

** - During the 2021-2022 and 2022-2023 school years, the District shall pay the Contractor the per diem, per vehicle rate described above for 180 days without adjustment, except as otherwise described in this Contract. For example, if the District permanently deleted one Type 1 bus in the 2022-2023 school year, bringing the total vehicle count to 63, the District would still pay the Contractor the per diem rate for 180 days for 64 vehicles, even though only 63 vehicle were used. Alternatively, if the District added one Type 1 bus to the 2022-2023 school year, bringing the total vehicle count to 65, the District would pay the Contractor the per diem rate for 180 days for 65 vehicles.

*** During the 2023-2024, 2024-2025 and 2025-2026 school years, the District shall pay the per diem, per vehicle rate described above for 180 days if the number and type of vehicles utilized are the same as the Minimum Vehicle Counts listed above. Notwithstanding the foregoing, if at any time during the 2023-2024, 2024-2024 and 2025-2026 school years the District requires greater or fewer vehicles than the Minimum Vehicle Counts lists above, the per diem, per vehicle rates shall be adjusted as follows:

a) More than 64 vehicles- the price for each vehicle added over the Minimum Vehicle Count, will be charged at 80% of the applicable rate per day listed above. For example, if the District added one additional Type 1 bus for home-to-school in 2023-2024, bringing the total Type 1 buses to 39 and the total vehicle count to 65, the District would pay \$413.68 per day for 38 Type 1 vehicles for 180 days and \$330.94 per day for 1 Type 1 vehicle.

b) Less than 64 vehicles- the price for the reduced vehicles will be at 60% of the above prices for 180 days during the first year reduced. For example, if the District permanently decreased the number of Type 1 buses needed for home-to-school in 2023-2024 by one vehicle, bringing the total Type 1 buses to 37 and the total vehicle count to 64, the District would pay \$413.68 per day for 180 days for 37 Type 1 vehicles and \$248.21 per day for 180 days for the one Type 1 vehicle that was no longer being utilized by the District in 2023-2024.

c) Less than 64 vehicles- the price for the reduced vehicles will be at 20% of the above prices after the first year reduced. For example, if the District permanently decreased the number of Type 1 buses needed for home-to-school in 2023-2024 by one vehicle, bringing the total Type 1 buses to 37 and the total vehicle count to 63, the District would pay \$248.21 per day for 180 days for the one Type 1 vehicle that was no longer being utilized by the District in 2023-2024, but would pay \$82.73 per day for 180 days for the unused Type 1 vehicle in years 2024-2025 and 2025-2026.

- 3.2 These rights, responsibilities and prerogatives are not subject to delegation in whole or in part, except that the same shall not be exercised in a manner inconsistent with or in violation of any of the specific terms and provisions of this Agreement. - 5.2 All unit members who elect to join the Association shall sign and deliver to the Association, if they have not already done so, an authorization for the payroll deduction of membership dues of the Association. Said authorization shall be delivered to the Board of Education and shall continue in effect from year to year, unless such unit member shall notify the Board of Education and the Association in writing in the month of August of any year, that he/she no longer authorizes deduction of membership dues of the Association. If said notice is timely delivered, it shall mean that in the coming school year said unit member shall pay the agency fee as described in Section I via payroll deduction.
- 5.3 For those unit members who have not delivered an authorization card by October 1st, the Board of Education agrees to deduct the annual agency fee from their salaries via payroll deductions.

- 5.6 The Board of Education agrees to forward to the Association treasurer, each month, a check for the amount of money deducted during that month. The Board shall include a list of the unit members for whom such deductions were made.
- 5.7 The Association agrees to indemnify and hold the Board of Education harmless against any or all claims, demands, suits or other forms of liability including attorneys' fees and the cost of administrative hearings that shall or may arise out of, or by reason of, action taken by the Board of Education for the purpose of complying with the provisions of this Article.

ARTICLE 6

WORK YEAR

- 6.1 The work year for unit members shall be as set forth below. The unit member shall submit his/her proposed schedule of such days for the next school year to the Superintendent for modification and/or approval by June 1 each year. Although the presumption shall be that non-work days will rarely be scheduled on student school days requests by unit members for the use of non-work days on student school days will not be unreasonably denied. With the prior written approval of the Superintendent, one or more of the five (5) days before the teacher work year and the five (5) days after the teacher work year required for Category II employees may be scheduled for another time during the work year. In addition, Category II employees may, with the prior written approval of the Superintendent, schedule up to three (3) work days during the regular work year for another time during the calendar year.

administrator with more than five non-work days left after June 30, can have the days

above five, converted to previously used sick days, for days within that past school year. The application of this provision shall not be subject to the grievance procedure set forth in Article 12.

- 6.3 There shall be no further accrual of vacation time after June 30, 2004. With application prior to November 1 in the preceding school year and the prior written approval of the Superintendent, up to five (5) of such days may be paid at the rates set out above.

ARTICLE 7

REDUCTION IN FORCE

7.1 Factors Which May Cause a Reduction-in-Force

A reduction in force occurs when the total number of full and/or part-time positions requiring the Intermediate Administrative-Supervisory certificate, established and budgeted by the Board of Education, is less than the total number of full-time equivalent administrators and supervisors who are unit members. The elimination of a position and/or a reduction can result from:

7.1.1 Decline in enrollment.

7.1.2 Reorganization within the school district.

7.1.3 Consolidation and subsequent elimination of school buildings.

7.1.4 Change in curriculum or program.

7.1.5 Severe financial conditions.

7.1.6 Other circumstances as determined by the Board of Education.

7.2 Management Rights Reserved to the Board of Education

Nothing in this Article should be construed to limit the right of the Board of Education to eliminate or create any position, program, department or school, or to reorganize the staffing thereof or to assign staff. The provisions of Reduction-In-Force shall not be utilized in a manner that results in a promotion and/or movement into a position with a higher salary for the affected administrator. Accordingly, this procedure shall in no way preclude the Superintendent from making any transfer or reassignment, for any bona fide reason.

7.3 Criteria to be Considered in Determining Qualifications of Unit Member(s) to be Affected by a Reduction-In-Force

The Superintendent shall consider the following factors in determining the qualifications of unit member(s) to be affected by a reduction-in-force pursuant to Section D below:

7.3.1 Training, certification, evaluations and experience as related to available positions.

7.3.2 Total administrative/supervisory experience.

7.3.3 The district's Affirmative Action goals.

These factors are not weighted or arranged in order of importance, but are all to be considered in reaching a decision.

7.4 In order to promote an orderly reduction in the administrative personnel, the following procedure will be used:

7.4.1 Any administrator relieved of his/her duties because of reduction of staff or elimination of position shall be offered an administrative opening if one exists, in his/her classification for which he/she is certified and the Superintendent finds them qualified.

7.4.2 If there is no existing administrative opening in his/her classification, the displaced administrator shall be offered the position of the administrator who has the least seniority in his/her present classification for which position the administrator is certified and the Superintendent finds them qualified.

7.4.3 If there is no existing administrative opening in his/her classification, and the displaced administrator has the least seniority in his classification, he/she will be offered an administrative opening, if one exists, in any other administrative classification, for which he/she is certified and the Superintendent finds them qualified; provided, however, such appointment does not constitute a promotion.

- 7.4.4 If there are no existing administrative openings in any administrative classifications, and the displaced administrator has the least seniority in his/her present classification, but has administrative seniority over an administrator in another classification for which the displaced administrator is certified and the Superintendent finds them qualified, the displaced administrator will be offered such position; provided, however, such appointment does not constitute a promotion.
- 7.4.5 If an administrator is relieved of his/her duties because of a reduction in staff or elimination of position and another administrative position is not otherwise available as aforesaid, he/she will be offered a teaching position for which he/she is certified subject to the reduction in force policy or collective bargaining agreement then in effect relative to teachers.
- 7.4.6 The classifications referred to in this Article are as follows:
1. High School Principal
 2. Middle School Principals
 3. Elementary School Principals, High School Assistant Principals And Directors (222 work days)
 4. Middle School Assistant Principal (222 work days), Supervisors
 5. High School Assistant Principal (197 work days)
 6. Middle School Assistant Principal (197 work days)
 7. Elementary School Assistant Principals (197 work days)
 8. Department Chairs
- 7.4.7 Notwithstanding the foregoing, the Superintendent shall have the right to override the result indicated by the above procedure in determining which unit member shall be affected by a reduction in force, based on the following considerations:
1. Unique experience, abilities, skills or knowledge valuable to the school district.
 2. The district's Affirmative Action goals.
- 7.4.8 The rights of tenured unit members vis-a-vis non-tenured unit members under the provisions of Conn. Gen. Stat. §10-151 shall take precedence over any provision of this Article. In the event of a layoff, termination of contract shall be subject to administrative and/or judicial review in the manner set forth in Conn. Gen. Stat. §10-151 as amended and in no other manner.
- 7.4.9 The name of a unit member who is assigned to a lesser pay administrative or supervisory or teaching position or who is laid off shall be placed on a reappointment list and shall remain thereon for up to two (2) years following the effective date of transfer or contract termination. Unit members on the reappointment list shall be reappointed to positions for which they are certified and the Superintendent finds them qualified, provided such appointment does not constitute a promotion. Notice of reappointment shall be sent to such unit members, return receipt requested (RRR), and such unit members shall have ten

(10) days from receipt of notice within which to accept such position in writing. If reappointment is offered and is refused by the unit member, his or her name shall be removed from the reappointment list."

- 7.4.10 The Board and the Association agree that prior to the submission of any recommendations to the Board for the establishment of any new positions or the elimination of existing positions to be or being currently represented by the Association, the Superintendent and/or his/her designee shall meet with the executive board of the Association so that consideration may be given to the Association's views. Any grievance of this provision shall not go beyond Level 3.

ARTICLE 8

INVOLUNTARY TRANSFERS

- 8.1 Before an involuntary transfer is made, because of reduction in force or otherwise, the Superintendent or a member of his staff shall meet with the unit member and a representative of the Association, if requested, to explain the circumstances and conditions.
- 8.2 Following this meeting, the circumstances and conditions shall be confirmed to the unit member in writing.
- 8.3 The need for such transfer shall be reasonable.
- 8.4 Should a transfer for reasons including reduction in force, other than a demotion for unsatisfactory performance be to a position in a lower classification, the unit member shall receive his or her previous, higher salary for the first year following the transfer. Should the unit member be transferred to a teaching position, he or she shall receive the difference between the salary of his or her new position and his or her previous salary in the first year following the transfer.

ARTICLE 9

PROMOTIONS

- 9.1 When vacancies in advanced positions occur, notice will be posted throughout the district. Such notice may be posted electronically and shall contain the qualifications in terms of education and experience, the duties and the salary.
- 9.2 A promotion shall be defined as a move from one salary classification to a higher salary classification.
- 9.3 Any unit member who is promoted will not take a decrease in pay if the new position begins at a lower pay. He/she will be placed at the step which is higher

than his/her previous position, and he/she will then progress on that salary schedule.

ARTICLE 10

PROTECTION OF UNIT MEMBERS

- 10.1 Unit members shall report immediately in writing to the central office all cases of assault suffered by them in connection with their employment. Such report shall be forwarded through the Superintendent to the Board of Education. Any unit member involved, or alleged to be involved, in the incident to be reported shall not be required to make such report as aforesaid, but may promptly delegate the responsibility therefor to another unit member.
- 10.2 The Board and the Superintendent shall comply with any reasonable request of the unit member for information in his/her or the Board's possession not privileged under law and which relates to any incident allegedly involving the unit member.

ARTICLE 11

UNIT MEMBER FILES

Official unit member files, wherever kept, shall be maintained under the following conditions:

- 11.1 Unit members shall have the opportunity to review and discuss their observation and evaluation with their Supervisors. Unit members shall have the right to receive copies of their individual reports. The unit member may acknowledge that he/she has read such observation and evaluation reports by affixing his/her signature on the actual copy to be filed, with the understanding that such signature merely signifies that he/she has read the material to be filed and does not necessarily indicate agreement with its content.
- 11.2 The unit members shall have the right to answer any material filed, and the answer shall be attached to the file copy.
- 11.3 Upon appropriate request by the unit member, he/she shall be permitted to examine his/her files.
- 11.4 The unit member shall be permitted to reproduce any material in his/her files within five calendar days of his/her request at his/her own expense.

ARTICLE 12

GRIEVANCE PROCEDURE

12.1 Purpose

12.1.1 The purpose of the grievance procedure shall be to resolve at the lowest possible administrative level issues which may arise from time to time with respect to the provisions of this Agreement.

12.1.2 A unit member who feels aggrieved shall attempt to resolve the issue through administrative channels before following the below-noted grievance procedure.

12.2 Definitions

12.2.1 A "grievance" is a claim that a specific provision of this Agreement has been misapplied or misinterpreted.

12.2.2 An "aggrieved person" is the unit member or unit members making the claim.

12.2.3 A "party in interest" is the person or persons who, in addition to the aggrieved person, has a recognized and reasonable interest in the grievance or in its resolution.

12.2.4 The term "days" means work days.

12.2.5 Notwithstanding the informal procedure, all grievances shall be in writing and set forth the specific section of the contract in question, the nature of the misapplication or misinterpretation, and the specific relief requested, and must be filed within twelve days of the act or omission complained of, or within twelve days from when he/she knew or should have known, whichever is later.

12.3 Procedure

12.3.1 Informal:

A unit member with a grievance shall have the right to discuss it with the immediate supervisor involved, accompanied by one member of the Association if he or she chooses, with the object of resolving the matter informally.

12.3.2 Formal:

(a) Level One

If the aggrieved person is not satisfied with the disposition of his/her problem through the informal procedure, or if the problem is not resolved through the informal procedure, he/she shall have the right to present his/her grievance to the immediate supervisor involved accompanied by one member of the Association. Such grievance shall be in writing and set forth the specific section of the contract in question, the nature of the misapplication or misinterpretation, and the specific relief requested, and must be filed within twelve (12) days of the act or omission complained of.

(b) Level Two

- (1) If the grievance is not resolved at Level One, or if no decision is rendered within five (5) days of its presentation under Level One, the aggrieved person shall have the right to present his/her grievance within five (5) days of a decision under Level One, or within ten (10) days of its presentation under Level One if there is no decision, to the Superintendent of Schools. If the Superintendent rendered the decision at Level One, the grievant shall proceed directly to Level Three as set forth below.
- (2) Within ten (10) days after receipt of the written grievance, the Superintendent shall meet with the aggrieved person in an effort to resolve the grievance.
- (3) A maximum of three representatives of said Committee shall have the right to attend and participate in the meeting of the Superintendent with the aggrieved person relating to the grievance.

(c) Level Three

- (1) If the grievance is not resolved at Level Two, or if no decision is rendered within five (5) days of the meeting with the Superintendent under Level Two, the aggrieved person shall have the right to refer the grievance in writing to the Board of Education, within three (3) days of a decision under Level Two, or within eight (8) days of the meeting with the Superintendent under Level Two if there is no decision.
- (2) Within twenty (20) days after receipt of the written grievance, the Board with the Superintendent shall hold a hearing with the aggrieved person for the purpose of resolving the grievance.
- (3) A maximum of three (3) representatives of said Committee shall have the right to attend and participate in the hearing before the Board with the aggrieved person relating to the grievance.

(d) Level Four - Impartial Arbitration

- (1) If the grievance is not resolved at Level Three, or if no decision is rendered within ten (10) days of the meeting with the Board under

Level Three, the aggrieved person shall have the right to request the Association to submit his/her grievance to Arbitration; provided, however, such request shall be in writing and shall be made within five (5) days of a decision under Level Three, or within fifteen (15) days of the meeting with the Board under Level Four if there is no decision.

- (2) Within fifteen (15) days after receiving the request, the Association shall decide whether to submit the grievance to arbitration.
- (3) If the Association decides to submit the grievance to arbitration, it shall notify the Board in writing.

Within ten (10) days of notification, the Board and the Association shall seek to select a mutually acceptable and available arbitrator. If the parties are unable to agree upon or to obtain a mutually acceptable arbitrator within the time period specified, a request for a list of arbitrators shall be made to the American Arbitration Association or the American Dispute Resolution Center by either party and they shall be bound by the rules and procedures of the designated arbitrator in the selection of an Arbitrator.

- (4) The Arbitrator so selected shall confer promptly with representatives of the Board and the Association, shall hold hearings with the aggrieved person and such other parties in interest as he shall deem requisite, shall review the record of prior hearings and, unless extended by mutual agreement, shall issue his decision not later than twenty (20) days from the date of the closing of the hearings. The arbitrator's decision shall be in writing and shall set forth his findings of fact, reasoning and conclusions on the issues submitted.
- (5) The parties recognize that the Board is legally charged with the responsibility of operating the school system. The sole responsibility of the Arbitrator shall be to determine whether the terms of this agreement have been misapplied or misinterpreted, and the Arbitrator shall have no power or authority to make any decision which violates, modifies, or amends any then-established terms of this Agreement. The Arbitrator shall not substitute his judgment for that of the Board where the Board's action is not unreasonable except in the following circumstances:
 - (a) where an issue to be determined by the arbitrator is an issue of fact;
 - (b) where the issue before the arbitrator involves the interpretation of the terms of this Agreement.

- (6) The decision of the Arbitrator shall be rendered to the Board and to the Association and shall be binding upon both parties during the life of this Agreement unless the same is contrary to law.
- (7) The costs for the services of the Arbitrator, including per diem expenses if any, and actual and necessary travel and subsistence expenses, shall be borne equally by the Board and the Association.

12.4 Miscellaneous.

12.4.1 The Board and the Association agree that these proceedings shall be kept as informal and confidential as possible.

12.4.2 Since it is important that grievances be processed as rapidly as possible, the number of days indicated at each level shall be considered as a maximum, and every effort shall be made to expedite the process. The time limits specified, however, may be extended by mutual agreement in writing, except the initial filing of the grievance.

12.4.3 Failure at any step of this procedure to communicate a decision within the specified time limits shall permit the aggrieved to proceed immediately to the next step. Failure at any step to appeal a decision within the specified time limits shall be considered acceptance by the aggrieved of the decision rendered, and such decision shall thereafter be binding upon the aggrieved.

12.4.4 Forms for filing and processing grievances shall be prepared by the Superintendent and distributed to the parties in interest and the Association so as to facilitate operation of the grievance procedure.

12.4.5 Commencing with Level One, decisions rendered at all levels of the procedure shall be in writing setting forth the decision and the reasons therefor.

12.4.6 It is understood that the aggrieved person or persons shall, during and notwithstanding the pendency of any grievance, continue to observe all assignments and applicable rules and regulations of the Board and Administration until such grievance and any effect thereof shall have been fully determined.

12.4.7 The Board and the aggrieved person or the Association may utilize the service of a bona fide professional consultant at Levels Three or Four of this procedure.

- 13.2 Accumulated sick leave shall be available for use during periods of such disability.
- 13.3 Disability leave beyond any accumulated sick leave shall be available for such reasonable further period of time as a female employee is determined by her physician to be disabled from performing the duties of her job because of pregnancy or conditions attendant thereto.
- 13.4 Policies involving commencement and duration of leave, the availability of extensions, the accrual of seniority and other benefits and privileges, protection under health or temporary disability plans, and payment of sick leave shall be applied to disability due to pregnancy or childbirth on the same terms and conditions as they are applied to other temporary disabilities.

Such leave of absence must be requested in writing prior to the commencement of childbearing leave and shall be taken for the remainder of the academic year. Unit members shall apply for such leave at least six weeks prior to the expected commencement of the childrearing leave. In the case of adoption, the written request must be submitted to the Superintendent within five days of the agency approval of the unit member as an adopting parent.
- 13.7 The Board of Education shall reinstate the unit member to the original or an equivalent position if available at the start of the following school year, providing the unit member has given notice of intent to return by May 1st of the school year in which the leave is taken. Such position shall not be deemed available if the Superintendent has granted a continuing contract for the position to another unit member by June 1 of the school year in which the childbearing leave is taken. Notwithstanding the above condition, a unit member who commences childbearing leave on or after February 15 shall be entitled to return to the same position or a similar position at the beginning of the next school year provided the unit member has given proper notice of such intent. MILITARY

- 13.10 Military leave of absence shall be granted to any unit member who is inducted into any branch of the armed forces of the United States. Upon return from such leave, the unit member shall be placed on the salary schedule at the level which he/she would have achieved had he/she remained actively employed in the system during the period of his/her absence; provided, however, that such increase shall not exceed that obtainable with a maximum of two years of service.

Upon application to and approval of the Superintendent or his/her designee, one of these days

- 13.13.3 The Association and the Board jointly accept the responsibility to encourage staff members to use leave of absence days with discretion.
- 13.14 All unit members shall be entitled to a total of three (3) days leaves of absence, annually with full pay for the death of a spouse, son, daughter, mother, father, mother-in-law, father-in-law, grandparents, grandparents of spouse, grandchild, sister, brother, sister-in-law, and brother-in-law or any regular resident of a unit member's immediate household. - 13.16 Leaves taken pursuant to the above provisions shall be in addition to any sick leave to which the unit member is entitled.
- 13.17 Additional days beyond the limits provided in this Article may be granted by the Superintendent for extenuating circumstances.
- 13.18 For authorized absences without pay, the rate of deduction shall be based upon the per diem rate of the affected unit member for the time of the absence.

PROFESSIONAL

- 13.19 When it is evident that convention or conference attendance or the observation of an activity in another school system will contribute to the improvement of a unit member's effectiveness, the Superintendent may grant convention or conference leaves, or permission to observe an activity in another school system to the unit member without loss of pay.
- 13.20 The Board agrees to reimburse all unit members for all reasonable expenses incurred in attending a convention or conference, regardless of geographical location, or observing activities in another school system as an official representative of the Windsor School System designated by the Superintendent.

Such options may include voluntary wellness/disease management programs and/or biometric testing. Changes during the year will be permitted only if a "Qualified Life Event," as enumerated in IRC Section 125 and defined below, occurs. Changes then requested must be on account of and consistent with the Life Event.
