**Kathleen Stoll Recognized as Windsor Public Schools 2023-2024  
Educator of the Year**

**WINDSOR, CT (May 22, 2023)** – Kathleen Stoll has been named the 2023-2024 Educator of the Year by Windsor Public Schools. She began her teaching career with the district in 1992 and has been a first grade teacher at Oliver Ellsworth (1992-2014) and later at Poquonock School (2014-Present). In addition to her teaching roles, she has worked as a summer school teacher for 15 years and a private tutor for students in grades K-12 since 2010.

Stoll holds a Bachelor of Science degree in Education from Keene State College and a Master of Science in Reading and Language Arts from Central Connecticut State University. She has been actively involved in various school-based teams, including the Equity Team, Data Building Team, and as a Professional Learning Community (PLC) Leader. She has also served as a science team member, providing support to fellow teachers at Oliver Ellsworth. Outside the classroom, she has contributed to the Windsor community through her involvement with Alex's Lemonade Stand and as a religious education teacher for 9 years.

Stoll's impact extends beyond the classroom, as she has provided private tutoring and mentoring to students of all ages, including adults. When asked about the impact this has had on students at Windsor Public Schools, Kathleen responded "To know that I made a difference in helping not only Elementary students, but high school students still struggling as well as adults remains one of my greatest honors in my career."

She emphasizes the importance of each child reaching their full potential and building trusting relationships with both students and their families. Kathleen recently stated, "As an educator, it is my strong belief and priority that each child reaches their full potential. I strive to reach each and every child as well as their family capitalizing on strengths, personalities, their individual learning style as well as their social emotional wellbeing. My students know that I believe in them and the power of "YET". My motto has always been, "We are a team"; myself, my student and their family. All three units must work together to foster a love of lifelong learning as well as helping each child reach their full potential as a well-rounded individual."

The Windsor Public Schools' Educator of the Year Program recognizes and honors exceptional teaching. Stoll will represent Windsor Public Schools in the State of Connecticut Teacher of the Year program. The announcement of the Educator of the Year will be made by the Windsor Board of Education at their June meeting.

**Windsor Public Schools Recognizes Sandra Bailey as 2023-24  
Paraeducator of the Year**

**WINDSOR, CT (May 22, 2023)** – Windsor Public Schools is pleased to recognize Sandra Bailey of Windsor High School as the 2023-2024 Paraeducator of the Year. Bailey was selected from the school building nominees following an application process with a district selection committee. She

was nominated by her colleagues at Windsor High School based on her professionalism, care, and dedication to supporting student achievement.

Bailey has been working at Windsor Public Schools for a total of 10 years. Bailey's colleagues describe her as determined, loving, dedicated, and skilled in her role as a paraeducator. She is an integral part of the WHS community and tirelessly works to meet her students' needs. Her compassion towards her students is what separates her from the pack, as she treats them with dignity and respect and most importantly she treats each day as a new start.

Bailey states, "My greatest accomplishment as a paraeducator lies within the successes of the children that I serve. My purpose on this job is to help students meet their goals in every area possible and when I see a student that I work with overcome challenges, then I see that as a great accomplishment for me. I have worked with students who have had social challenges, emotional challenges, and academic challenges, and when they overcome these challenges, I rejoice with them and affirm them because I too feel that sense of accomplishment."

Outside of her contributions within the high school, Ms. Bailey is a vital part of the greater community. For the past five years, she has rallied her colleagues to help her contribute to an outreach scholarship fund that supports underprivileged children in an inner city area in Jamaica. The group led by Bailey, collects and recycles plastic bottles and cans to generate funds for the scholarship. This initiative continues to receive support from the school community and others. The scholarship helps alleviate the financial hardships faced by these students. Bailey also volunteers at a non-profit organization that visits senior citizens in nursing homes and private residences. The organization also provides regular meals to community members and participates in the annual Walk Against Hunger to combat food insecurity.

The Windsor Public Schools' Paraeducator of the Year Program recognizes and honors paraprofessional excellence. This recipient serves as a visible and vocal representative of what is best in the profession. The program celebrates excellence by recognizing paraeducators who have inspired a love for learning in their students and who have distinguished themselves in the profession.

Bailey will now serve as Windsor Public Schools' nominee for the State of Connecticut Paraeducator of the Year. The Connecticut State Department of Education (CSDE) and the School Paraprofessional Advisory Council established the Anne Marie Murphy Paraeducator of the Year Program in 2013 to recognize one paraeducator across the state who has demonstrated exceptional skills and dedication in the performance of their job. The award is named in honor of Anne Marie Murphy, a paraeducator who was killed in the Sandy Hook shooting.

2. Audience to Visitors

Karen Mendoza, 721 Kennedy Road - She thanked the board members who participated in the impromptu gathering arranged by Town Council member Nuchette Black-Burke on Sunday, August 27, 2023 regarding the mold issue at Oliver Ellsworth Elementary School. She stated that her child thrives at school due to the staff, but she said that the school is not a healthy environment. She would like to see test results shared with the public and to know what has been done and what will be done in the future.

Nicole Archer Hardy, 115 Pierce Boulevard - She stated that the district failed families and that although concerns were brought to the board last fall, not enough has been done. She said students should not be forced to sit in the compromised environment at Oliver Ellsworth. She said that safe alternative learning spaces need to be provided and answers given about concerns.

Jen Delsky, 16 Penncross Drive - She said that communication was lacking between staff and school administration regarding mold in Oliver Ellsworth School. For years there have been issues and immediate remediation is needed and accommodation made for staff and students. She said she expects assistance to be rendered to staff who have been impacted financially.

Amanda Beane, 103 Pleasant Street - She said that there has been a complete disregard of the mold situation at Oliver Ellsworth. She said that the photos provided to her were taken recently, not last year as stated by Dr. Hill. Although she agrees that mold is present in all buildings, her concern is that this mold can be seen. She said that independent experts have expressed concerns about test results she received that were taken with a hand-held device at the school location.

Diane Melluzzo-White, 362 Park Avenue - She said she was concerned that the most recent test results were from last September and that the latest results have either not been received or shared as of yet. She would like a second opinion about the test results being within acceptable limits. She also suggested that the district work with business owners to access classroom space for students on an emergency basis and consider building another site to house students when needed.

The following participants were virtual.

Melanie Savelli, 24 Dudley Town Road - She is concerned about negative impacts on staff and students. She questions if the test results are based on limited testing areas. She said there has been a lack of transparency and asked what will be done now.

Jackie Shea, 121 Bloomfield Avenue - When her son experienced illness she had them tested for sensitivities and mold was one of them. What will be done for sensitive staff and students? Why was a Fresh Air system not installed?

Becky Jacobson, 50 Lighthouse Hill Road - She said that the mold in the school isn't shocking but that the lack of transparency and communication were disappointing.

## Student Dress - DRAFT

### 1. Dress Code Philosophy & Values:

Windsor Public Schools are professional centers of learning, and dress and behavior should reflect this while preparing students for college and career readiness. The Windsor Public Schools student dress code supports equitable educational access and helps prepare students to make intellectual and civic contributions to Windsor and the global community. To ensure effective and equitable enforcement of this dress code, school staff shall enforce the dress code consistently and in a manner that does not reinforce or increase marginalization or oppression of any group based on race, sex, gender identity or expression, ethnicity, religion, sexual orientation, household income or body type/size.

Our values are:

- All students should be able to dress comfortably for school without fear of unnecessary discipline or body shaming.
- All students and staff should understand that they are responsible for managing their own personal "distractions" without regulating individual students' clothing/self-expression.
- Student dress code enforcement should not result in unnecessary barriers to school or class attendance.
- Reasons for conflict and inconsistent discipline should be minimized whenever possible.

Our goals are:

- Maintain a safe, professional, and respectful academic environment.
- Allow students to wear clothing of their choice that is comfortable.
- Allow students to wear clothing that supports their gender expression.
- Allow students to wear religious attire without fear of discipline or discrimination.
- Prevent students from wearing clothing with offensive images or language, including profanity, hate speech, and pornography. Clothing or accessories that contain content that is racist, lewd, vulgar, obscene, contains defamatory speech, or threatens others are **not allowed**.
- Prevent students from wearing clothing or accessories with images or language depicting or advocating violence or the use of alcohol or drugs.
- Ensure that clothing is suitable for all scheduled classes where protective or supportive clothing is needed, such as Chemistry, Biology, Art and CTE courses, or Physical Education.

### 2. Dress Code

Students are expected to wear clothing that is appropriate for school or for any school sponsored event. Students are encouraged to express themselves individually and artistically through their clothing as long as it remains appropriate for an academic environment. The primary responsibility for a student's attire resides with the student and their parent(s) or guardian(s). The school district and individual schools are responsible for seeing that student attire does not interfere with the health or safety of any student, and that student attire does not contribute to a hostile or intimidating atmosphere for any student.

- a. Basic Principle: Certain body parts must be covered for all students at all times. Clothes must be worn in a way such that genitals, buttocks, breasts and midriff are covered with opaque, 'non-see-through' material. All items listed in the "must wear" and "may wear" categories below must meet this basic principle.

**Student Dress - DRAFT****b. Students Must Wear:\***

- A Top (with fabric in the front, back, and on the sides under the arms), AND
- Bottom: pants/sweatpants/shorts/skirt/dress/leggings, AND
- Shoes, boots, sneakers, sandals, etc. (no bare feet)

**c. Students May Wear:**

- Durags, bonnets, bandanas, baseball caps, beanies, hoods that do not obscure or hide the face
- Medical face masks
- Fitted pants, including opaque leggings, yoga pants and “skinny jeans”
- Ripped jeans, as long as underwear and buttocks are not exposed.
- Tank tops, including spaghetti straps, halter tops, off shoulder shirts, and “tube” tops that cover the midriff.
- Visible straps on undergarments worn under other clothing, as long as done in a way consistent with Section 1 above.

**d. Students Cannot Wear:**

- Clothing with violent language or images.
- Clothing with images or language depicting drugs or alcohol (or any illegal item or activity)
- Clothing with hate speech, profanity or pornography
- Clothing with images or language that creates a hostile or intimidating environment based on any protected class.
- Accessories that could be considered dangerous or could be used as a weapon.
- Sunglasses inside the school building (except for medical reasons).
- Headphones/earbuds during class time (unless indicated in student plan as allowed)
- Any item or head covering that obscures the face (except as a religious observance or for medical reasons, such as a medical face mask).
- No pants hanging below the waistline, exposing buttocks/underwear or shorts worn under pants “No sagging”

**3. Dress Code Enforcement**

Administration and staff will have private conversations with students who are inappropriately dressed (according to the above standards) regarding their attire. If the outcome of this dialogue finds the student to be in breach of the dress policy, the student will be asked to work with school staff to remedy the situation. If the student fails to remedy the situation, this may result in disciplinary consequences. If no alternate provisions can be found, the student’s parent(s) or guardian(s) may be contacted to provide them with an appropriate article of clothing. No student should be affected by dress code enforcement because of race, sex, gender identity or expression, ethnicity, religion, sexual orientation, household income or body type/size.

Students should not be shamed or required to display their body in front of others in school. Shaming includes, but is not limited to:

- Kneeling, bending over, or any other movement to check fit

**Student Dress - DRAFT**

- Measuring straps or skirt length
- Calling out students about perceived dress code violations in front of others
- Accusing students of “distracting” other students with their clothing

These dress code guidelines apply to the regular days and summer school days as well as after school activities. Additional dress-code guidelines may be applicable for special school events such as graduation ceremonies, proms, dances, and field trips.

**1. Community Need and Target Population(s) (maximum of 500 words)**

\* Describe the need for the FRC in this school. Use relevant, current data to make your case. Identify any needs assessment recently conducted by the school or community and the needs or gaps in services/supports identified.

Windsor Public Schools serves nearly 3,200 students in the community of Windsor, Connecticut, a town located in north central Connecticut bordering the capital city; between Hartford and Springfield, Massachusetts. Windsor Public Schools includes six educational institutions of which Oliver Ellsworth School is applying for continuation of resources to support the Family Resource Center. The Town of Windsor is relatively racially balanced between Black (36%) and White 47% inhabitants, with a few Latino (10%) residents, and other residents of Multi-Race and Asian descent (4%); while the racial make-up found in Oliver Ellsworth shows a predominantly minority population (i.e., 71% Black or African American, Latino or two or more races, and 29% white.); in the most recent United Way: ALICE Report in 2019, the data showed Windsor families are unable to afford life's basic necessities. The demographic known as ALICE-an acronym for Asset Limited, Income Constrained, Employed - describes households that earn more than the Federal Poverty Level but less than the basic cost of living for the county or state where they live. In Windsor, 29% of our families live below the ALICE threshold. In comparison, the percent of families receiving free or reduced priced meals in the school system is above 40%. In contrast, the town and overall district demographic, Oliver Ellsworth School (OE), which enrolls 464 PK-2 students, has 39% of its students qualifying for free/reduced price meals; 71% represent traditionally under-served racial and ethnic groups; 4% are considered English Language Learners (ELL); and 18.2% are students with disabilities. Two of four pre-k classrooms serve students with special needs who are transitioning from birth to 3 services. Of OE's students, 31% are chronically absent leaving work to be done through the FRC to support families. The FRC will continue to offer home visits to families struggling with attendance to provide additional resources to the families to try and improve attendance outcomes. Based on the Early Development Instrument (EDI) School Profile Report implemented in 2017 to assess kindergarten readiness across 5 domains approximately 26% of our students were considered as vulnerable or not on track developmentally. Unfortunately we have not had an updated report however it is more than likely that our students needs have increased based on standardized assessments and/or the impact of the COVID Pandemic. The OE's Family Resource Center wants to expand its family and community outreach through providing families with resources to support the 5 domain areas: Physical Health & Well Being, Social Competence, Emotional Maturity, Language & Cognitive Development, Communication Skills & General Knowledge. One plan to expand outreach is by hosting monthly peer support groups for parents to ask questions and share advice with other parents for students with IEP's and 504 plans. The FRC will invite special education teachers, interventionists and specialists as guest speakers to the peer support groups to help explain the process and answer questions. We also are working with our Social Emotional Learning Specialist to ensure skill building is being supported for all students at OE.

**2. Location/Space Requirements (maximum of 300 words)**

\* Provide a description of the FRC location and space. This must include the host elementary school and the classroom grades offered. Provide an overview of how the FRC is physically incorporated into the public elementary school and describe the designated space allocated for each of the following: - parent resource room (play space, parent activities, meetings and resource library); and - office space for FRC staff, including private meeting space.

The Family Resource Center is located to the left of the front entrance inside Oliver Ellsworth School. The Family Resource Center serves all families at OE and the surrounding community. All visitors are monitored and welcomed by the Director's of First Impression also known as security as you enter the building. The FRC Office is shared with the parent educator. The space includes a play area for birth to 5 families. The play space offers child friendly furniture. All play materials are at children's eye level and easy for children to access and put away. Tables and seating can accommodate both children and adults allowing for full participation in activities. The space is carpeted and there is ample room for small children to safely explore. There is a large variety of developmentally appropriate toys for children birth through school age. Also available are loveseats and tables for a comfortable place for parents to feel welcomed as well as a full size refrigerator, microwave and a keurig machine for parents or community members to use while at workshops or visiting for the day. There's a computer and printer also located in the FRC, that is open to community members to search and apply for jobs. The FRC uses additional space in the building when

needed for programs and workshops: such as the media center or cafeteria and/or classrooms, and uses the playground for play groups when weather permits. The partnership between the FRC and OE continues to strengthen, as OE provides additional use of space throughout the building. At OE the FRC has private office space in addition to workspace in the common area to meet and conference accordingly with families. The FRC is continually supported at the district level and uses space at central office for child care/playgroups and/or adult workshops. The Tree House office is located near a side entrance of a school, next to the gym and cafeteria. The location makes it convenient for parents picking up their children. Tree House also has a large variety of developmentally appropriate toys for preschool age through second grade. The Tree House program is able to utilize the gym, cafeteria, and Family Resource Center, to spend time doing various activities such as play sports, complete homework, art projects, and reading activities.

**(e) Families in Training Component (maximum of 500 words)**

\* In addition to the items described above (i., ii., and iii.), also include:

- name and location of at least one Connecticut Birth to Three program that is a partner with the FRC and a description of activities that will include children with disabilities or developmental delays.

The Family Resource Center serves as a point of entry for the Oliver Ellsworth School. Playgroups and collaborative community events are often families first experience with the district. The FRC will have scheduled visitation/events etc to welcome all the families of Windsor with young children; thus the numbers to be served in the Ellsworth Family Resource Center Families in Training component will be virtually limitless. We will offer all coordinated programs to register at no charge so that all families have full access. This component will include weekly playgroups, home visits using the Parents as Teachers Curriculum, special evening activities, as well as parent workshops. Programs will be offered from October through June. Playgroups will be regularly scheduled, open to families who have children birth to five years and free with pre-registration required. Families will come for a structured time of age appropriate songs, stories and craft projects based on CT early learning standards. Playgroup participants will leave the playgroup with extension activities that are linked to their child's learning. Through-out the year our playgroup families are invited to participate in a multi-generational playgroup at Windsor Senior Center. In this setting both seniors and children participate in circle time and related craft or activity. The home visit program will service parents in Windsor with children ages birth to five years. Our Parent Educator will schedule regular visits to participant's homes, the FRC or mutually agreed upon setting to discuss their child's language, cognitive, social and motor development. Reference information about local events and programs will also be shared. Our Families in Training component will be housed in the Family Resource Center at OE where there is dedicated space to hold playgroups and parenting reference materials. The OE Family Resource Center is fully supported by the Oliver Ellsworth School community and therefore has access to the entire school building should any space be needed. Most Families in Training activities and programs will be held either in the Family Resource Center or the

school media/library center. However, for special evening activities the school gymnasium and cafeteria will also be used. Home visits will take place in the home of each participant, or at a mutually agreeable location such as the FRC. Participants for the Families in Training component will be recruited in many ways. These include posting flyers throughout town (i.e. town hall, public libraries, schools, churches, daycare home and centers etc) and via submissions in the town bulletin (there is a lot to do in Windsor) and on the Windsor Public Schools website and social media pages. Also information about our program will be included in newsletters at Oliver Ellsworth and Poquonock schools. Additionally, we will take referrals from the CT Birth to Three (CT B-3) program and will be listed as a resource at INFOLINE. CT Birth -three providers will also have full access to our site. We have connected with Building Bridges and spoke with the Director Steve Hunt to partner with throughout the year. Building Bridges does provide Early Intervention Support (EIS) in Windsor. He did explain right now all EIS services must be referred through the 211/website so we wouldn't be able to call them directly to refer a family, but we can make a referral to the website and from there the evaluation will happen with Building Bridges. Families would receive the appropriate resources and then they would help with the transition to an IEP once the child is over 3. They will be free to conduct visits and make observations during our playgroup sessions. They are welcome to utilize our playgroups as opportunities to increase the social emotional learning, language or motor skill goals. The FRC will also serve as alternative meeting space for families. Attendance at FRC programs will help facilitate the transition of children from Birth to Three into the special education preschool at Oliver Ellsworth. Modifications to our curriculum and activities can be made to meet the needs of all families. The FRC will continue to offer Lunch and Learn programs in the FRC. Community guest speakers will present on topics relevant to families in the Windsor community. The Objectives of the Families in Training program will support families in their efforts to provide their children with the best possible environment. This objective will be measured through regular surveys of parents, anecdotal data, tallying participants of our programs, as well as examining our adherence to PAT guidelines. The Office of Family and Community Partnerships will be implementing a new system for tracking Parent Engagement based on research by Joyce Epstein. The Families in Training program will provide a vehicle by which to initiate positive, supportive contact with the families of Ellsworth before kindergarten. We will measure this objective by surveying parents and examining the program roster and participant enrollment list.

\* Provide required items (i.,ii., and iii.) described above:

We partner with the Town of Windsor's Youth Service Bureau and Social Services to support our families in the district with needs. The YSB provides a variety of supportive programs to support and promote positive youth development and family engagement. The Social Services department hosts informational events throughout the year with various topics. These topics include issues relating to health needs, financial services, food assistance programs (including weekend wheels), insurance programs, energy assistance, veteran's benefits, and elderly services among others. The Family Resource Center works collaboratively to support families and will work with school social workers to support families with resources and referrals. The FRC staff will log referrals and follow up with families as referrals are made. As programs are offered the FRC will ensure the virtual back pack is updated and will disseminate and engage/recruit families to take part in the beneficial programs being offered in town and through the Office of Family and Community Partnerships. Additionally, the FRC will utilize the Office of Family and Community Partnership's internal Helpful Resource platform to support and promote other resources afforded to families through other community and non-profit programs. Collaboratively, OE's FRC will work with the district's Welcome Center to support new families coming into the district/OE to provide a welcoming environment. Calls/visits for families will be made/scheduled for each family. The FRC will work with the Office Admin to re-establish a welcome packet to support families and the work of the FRC. FRC coordinates food assistance programs with social services in particular weekend wheels and works with school admin/teams to identify families who benefit. The FRC Coordinator will conduct family engagement workshops to support school readiness, classroom learning strategies, sparkler app and the Schools Newsletter. For the 2023/24 School year OE's FRC will continue to expand it's community partnerships, by partnering with Read to Grow to provide age appropriate books free of charge to all families in the community. OE's FRC will also hold drives for toys, winter clothing, and diapers, to directly give back to families in need in partnership with local providers.

**4. School Support and Project Alignment**

\* Describe a plan that coordinates with the public school district to examine and align resources to meet the unique needs of children with disabilities (a mental or physical impairment that substantially limits one or more major life activities) and creates access to FRC administered programs. This must include examining the legal foundation for inclusion in school based services under; Section 504 of the Rehabilitation Act of 1973; Americans with Disabilities Act of 1990; and Individuals with Disabilities Education Act of 2004.

The OFCP and/or FRC will meet regularly with the PSES department to ensure families are utilizing programs - like playgroups and reading programs to reinforce learning. The FRC will also strengthen the districts priority of school-home connection by offering families parent teacher home visits to help build relationships, learn more about the families, and help refer families to programs in the community, such as social services if there's a need. The FRC will also provide programs for families to attend throughout the year. If there is a need for the FRC Coordinator to sit in on a PPT, the FRC will support the family and school with the necessary resources and be present. The family resource center will offer the Sparkler app as a resource to support families and align with the schools' developmental assessments. Once assessments are completed the FRC will work with families to connect them with resources in addition to the programs at the school and in touch such as Birth to Three if there is a need. Additionally, we will take referrals from the CT Birth to Three (CT B-3) program and will be listed as a resource at INFOLINE. CT Birth -three providers will also have full access to our site. They will be free to conduct visits and make observations during our playgroup. They are welcome to utilize our playgroups as opportunities to increase the social emotional learning, language or motor skill goals of their clients. The FRC will also serve as alternative meeting space for families. Attendance at FRC programs will help facilitate the transition of children from Birth to Three into the special education preschool at Oliver Ellsworth. Modifications to our curriculum and activities can be made to meet the needs of all families. The FRC will continue to offer Lunch and Learn programs in the FRC. Community guest speakers will present on topics relevant to families in the Windsor community.

Attach a letter of support from the school principal that, at minimum, provides:

- confirmation that FRC activities and services have been reviewed;
- details on how the CSDE FRC grant funding and activities are aligned with school improvement priorities and the district's overall strategy to improve academic achievement; and
- acknowledgement that fixed and adequate space requirements of the FRC will be maintained and preserved for the duration of the current grant.

The Office of Family and Community Partnership will conduct bi-weekly to monthly meetings to strategize and build the capacity of the FRC site coordinator. The FRC Coordinator will be evaluated through the Office of Family and Community Partnerships in collaboration with building principal. - Providing training for Birth to Three personnel to create high-quality Individualized Family Service Plans (IFSPs) that incorporate the essential data required for developing IEPs when a student transitions to special education services.

"Through this innovative partnership we are presented with a unique and transformative opportunity," **Education Commissioner Charlene M. Russell-Tucker** said. "It allows us to strengthen our commitment to upholding high standards of quality and effectiveness in special education practices."

"The Office of Early Childhood is excited to build upon our existing collaborative partnership with the CSDE to support our Birth to Three providers and families in the development of high-quality Individualized Family Service Plans," **Early Childhood Commissioner Beth Bye** said.

WINDSOR BOARD OF EDUCATION

AGENDA ITEM

For Consideration by the Board of Education at the Meeting of: September 19, 2023

PREPARED BY: Dr. Noha Abdel-Hady

PRESENTED BY: Dr. Noha Abdel-Hady

ATTACHMENT: Agreement By and Between Central Connecticut State University and Windsor Public Schools

SUBJECT: MOU with CCSU regarding dual enrollment CTE courses on campus (at CCSU) and developing opportunities for dual enrollment courses at WHS.

**BACKGROUND:**

In recent years, there has been a growing demand for high-quality CTE programs that not only prepare students for successful careers but also provide them with a head start on their college education. To address this need, we have explored potential partnerships with institutions of higher learning, and CCSU has emerged as an ideal partner.

**Key Objectives:**

**Access to CCSU CTE Courses:** Under this proposed MOU, our high school students will have the opportunity to enroll in select CCSU CTE courses, free of charge, on the university campus. This will expand their educational horizons and expose them to a broader range of CTE offerings.

**Alignment of In-House Courses:** Additionally, we aim to collaborate with CCSU to align our existing in-house CTE courses with their curriculum standards. This alignment will ensure that our courses meet college-level expectations and provide a seamless transition for students who wish to pursue higher education in their chosen CTE fields.

**Dual Enrollment Certification:** Through this partnership, we will work with CCSU to certify our high school CTE teachers as dual enrollment instructors. This certification will enable them to teach courses that grant both high school and college credit, further enhancing the value of our CTE program.

**Benefits:**

The proposed MOU with CCSU offers several benefits:

**Enhanced Educational Opportunities:** High school students gain access to college-level CTE courses, broadening their skill set and knowledge base.

**College Readiness:** The collaboration will better prepare our students for the academic rigors of college, fostering a college-going culture.

**Cost Savings:** Enrolling high school students in CCSU courses without tuition fees reduces the financial burden on families.

**Improved Teacher Qualifications:** Dual enrollment certification elevates the qualifications of our CTE teachers, ensuring high-quality instruction.

**Community Collaboration:** Strengthening our partnership with CCSU reinforces our commitment to community engagement and educational excellence.

STATUS: N/A

**RECOMMENDATION:** That the Board of Education approves the MOU with Central Connecticut State University to work collaboratively to develop CTE dual enrollment courses.

To the extent that this section conflicts with any other section, this section shall govern.

# CABE Board Recognition Awards

## Board Leadership Award and Board of Distinction Award

CABE believes that Boards of Education and Superintendents which exhibit the most effective leadership are characterized by their ability to work together as "teams." The **CABE Board Recognition Awards** are designed to recognize Boards which work effectively in this manner. Boards which fulfill 22 of the following 34 Level One criteria, including a minimum of three in each area, will earn the Level One **CABE Board Leadership Award**.

In order to appropriately recognize those Boards which are truly exemplary, CABE has now established a second level of awards, the **Board of Distinction Award**. Only Boards which have achieved Level One distinction at least twice in the prior four years are eligible to receive the **Board of Distinction Award**.

Please respond to the criteria requested on this form and send your information, with supporting data, to CABE when you believe your Board has earned a Leadership Award or a Board of Distinction Award. If you have any questions, need further information, or require help in satisfying any of the criteria, please contact us for assistance.

#### Level Two

Please tell us what, in your opinion, makes your Board's leadership especially effective in improving student achievement.

The Windsor Board of Education plays a very important role in cultivating student achievement and growth. As an elected body, and in collaboration with the Superintendent and administrative team, the Board helps to set the vision for the school district with high expectations for student learning and quality instruction. The Board, despite political differences, works collaboratively to ensure the accomplishment of its goals.

Through its mission statement, "To develop the genius in every child and create life-long learners," the Windsor Board of Education prides itself in offering a robust and diverse curriculum, extensive technology, fine arts, and sports programs for all of its students. Through their budget, they support the technology needs of the district as well as other programming such as MTSS and SEL. Through staff presentations at Board of Education meetings, they receive data from the State Accountability Report, SATs, APs and the School Development Plans and are able to monitor student performance through such platforms. The Board also engages in spirited discussions on academic achievement, discipline, diversity, equity and inclusion throughout the district.

## **LEVEL 2 ITEM 1A. BOARD LEADERSHIP/STUDENT ACHIEVEMENT**

The Board of Education works to improve student achievement. (provide description)

The Board supports the Superintendent's emphasis on student achievement. The district continues its focus on learning loss and SEL (Supt. letter dated 8/22/22 attached). SEL continued in our schools across the district. The Board received a presentation on 6/20/2023 (presentation attached). Also attached is an SEL newsletter, 9/6/22.

The Board of Education, at its 5/16/23 meeting, approved the addition of the African American Studies Course as an option for 9<sup>th</sup> graders in place of Early Global Studies (see attached agenda for the 4/18/23 meeting (1<sup>st</sup> reading) and agenda summary describing the addition for 9<sup>th</sup> grade students, 5/16/23 (2<sup>nd</sup> reading)).

This year, the district was awarded a \$50,000 state grant to support work with CCSU (under an MOU) to develop Early College Experience (ECE) Career and Technical Education (CTE) courses. The district is in the early planning stages with major work to begin in the field of manufacturing in the spring of 2024.

August 22, 2022

Dear Windsor Public School Families,

Welcome back to the new school year! As we look forward to the first day of school for students on Monday, August 29, I would like to take this opportunity to share some information regarding the upcoming school year. Bus schedules have been posted to the district website. Buildings and grounds have been refreshed and are ready to receive our students.

During the 2022-2023 school year, Windsor Public Schools will re-focus on greater student academic achievement. In order for this to happen, we need students to come to school ready to learn on a daily basis. While we understand there will be behavioral and discipline issues to deal with on occasion, we want to see limited infractions. Those students who intentionally choose to cause a disruption to the learning environment, will face consequences per Board of Education policy.

With the intensity of the pandemic behind us, all staff members will have a renewed focus on creating and maintaining the best possible learning environment. These strategies include our SEL (Social Emotional Learning) staff, counselors, social workers, and psychologists. Each of these staff members are ready to help any student deal with the various issues that often get in the way of quality learning. Those students who choose not to participate in class or cause a disruption to the learning environment face disciplinary consequences.

I am urging all of our parents and guardians to have a discussion regarding the purpose of school, with their child(ren) prior to the start of the new school year. Please contact your child's principal should you have any questions.

I hope you enjoy the remaining days of summer and best wishes for a wonderful 2022-2023 school year.

Sincerely,

Sometimes high school can be a lot, but it's important to really understand what is best for you by being able to have the **self-management skills** to truly put your best potential out there.

I am a very observational person. Along with observing others I also observe myself, my actions, behaviors, thoughts and emotions. I am always in tune with myself which is why I would consider **self-awareness** my strongest SEL skill. Learning these skills should be mandatory for all students.

In mathematics, they will have to explain their answers in a more nuanced way: for example, they will have to explain their solution path rather than supplying only their answer.	<i>What social skills will students need to use in order to complete this task successfully?</i>	<i>What social skills will teachers need to use in order to help students successfully complete this task?</i>

I'd really like to shoutout Jaylen Dejesus a paraprofessional at JFK! Although he has a specific caseload, he never fails to help out whenever he can. In terms of SEL, during the first week of school, Jaylen made a powerful connection with a 3rd grade student who was really struggling to connect to peers and staff. With positive relationships, comes increased self confidence and Jaylen fostered that almost immediately. I can tell this 3rd grader is excited to continue to build his relationship with Jaylen and grow as a third grade rockstar!

**WINDSOR BOARD OF EDUCATION**

**AGENDA ITEM**

**For Consideration by the Board of Education at the Meeting of:** May 16, 2023

**PREPARED BY:** Dr. Noha Abdel-Hady  
Ms. Bonnie Fineman

**PRESENTED BY:** Dr. Noha Abdel-Hady  
Ms. Bonnie Fineman

**SUBJECT:** Revised 2023-2024 WHS Program of Studies

---

**BACKGROUND:**

In our current Program of Studies, social studies courses are sequenced as follows: Early Global Studies (Gr. 9), Modern Global Studies (Gr. 10), US History (Gr. 11), and Civics (Gr. 12). State mandates require that students learn about Holocaust history and take a civics course for graduation; we cover the Holocaust in Modern Global Studies and all seniors take civics. The CSDE, however, does not require that students take Early Global Studies in high school. Our middle school social studies curriculum in grades 6 and 7 covers global studies in a regionalized approach to learning about geography, history, laws, and society; these classes cover eight regions of the world. Due to this intensive global approach to history in the middle grades, students may desire a choice in their freshmen year, so they can explore new perspectives. The African-American and Latinx history course is a viable option. It is a course that embeds all major aspects of social studies instruction- use of primary and secondary sources, close-reading of texts, extensive writing, and research. Finally, African-American and Latinx history is a precursor to all of the following years of history/social studies that the WPS student will encounter because it includes global history, US history, and civics synthesized into one class. We should provide an option for students to select Early Global Studies *or* African-American and Latinx history in their freshman year for credit towards graduation. Both will be strong foundations for subsequent years of study.

**STATUS:** N/A

**RECOMMENDATION:** That the Board of Education approves the proposed addition of the African American Studies Course as an option for our 9th graders in place of Early Global Studies, to the Program of Study for the 2023-2024 for a 2nd reading.

## LEVEL 2 ITEM 1C. BOARD LEADERSHIP/STUDENT ACHIEVEMENT

The Board of Education supports the appropriate use of technology in educational programming.

Through its budget process, the Board receives detailed information from the Director of Information and Technology. The Board of Education supports the use of technology in the district through programs listed on the attached documents. In addition, the Board supports technology through steady financial increases to support 21<sup>st</sup> century instructional practices using technological tools including 1:1 Chromebooks, iPads, assistive technologies, and specialty software technologies used in CTE, unified arts, and in the general education environment.

The Board supports the WHS/SPMS TSA (Technology Student Association) and its attendance at state and national competitions. WPS held its 2023 State Conference in March 2023 in which the advisor of the group, Mrs. Meghan Rickis, received a citation from State Representative Maryam Khan for her hard work and dedication to our TSA. Link: <https://www.windsorct.org/o/whs/article/1062008>

The following attachments indicates the Board's commitment to technology instruction for Windsor Public Schools' students:

- Technology goals for 22-23 school year
- Technology budget
- Technology education at WHS

# Technology

Technology tools are integrated within all day-to-day operations of the school district. They are an essential component of the educational curriculum that provides opportunities for students to develop critical thinking, communication, collaboration, and creativity skills while simultaneously strengthening attributes such as persistence and leadership. The department provides critical infrastructure, from broadband, devices, and policy recommendations to digital content and instructional support for both staff and students to further teaching, learning, assessment, accountability, leadership, and culture with a focus on equity.

## The goals for the 2022-23 school year are to:

- Implement recommendations resulting from the new federal K-12 Cybersecurity Act of 2021 to better protect student and staff data.
- Support professional development and additional student data sources in the Performance Matters platform to provide for our educators more timely and comprehensive assessment data about the progress of our students.
- Continue to align core technology and contracted services to district priorities as well as seek efficiencies, streamline services, and enhance network and data security.

## Towards our goals, to date we have accomplished the following:

- Following recommendations for CISA.gov, we are implementing layered security elements across our district.
- Trained all administrators, classroom teachers, and appropriate support staff on accessing, collecting, and analyzing data in the Performance Matters platform based on their work with students to provide timely information on student progress.
- Continued to align core technology and contracted services to district priorities as well as seek efficiencies, streamline services, and enhance network and data security.

## Major 2023-2024 school year work:

- Support the development and retention of exemplary school staff by building out a more comprehensive online learning platform for onboarding and continuing education of staff.
- Continue to align core technology and contracted services to district priorities as well as seek efficiencies, streamline services, and enhance network and data security.
- Ensure district wide instructional technology such as Chromebooks, iPads, and smart boards are properly maintained, and our staff is getting the proper training on the use of the hardware and software.
- Review and reorganize (if needed) technology staff roles and responsibilities to ensure that instructional technology coaching is taking place across the district to maximize the use of technology to drive effective instruction.

## **LEVEL 2 ITEM 1D. BOARD LEADERSHIP/STUDENT ACHIEVEMENT**

The Board uses data to make informed decisions regarding student achievement (provide examples).

The Board received a presentation (attached) on SEL on 6/20/23. It is the district's continued vision to increase student achievement through improved collaborative partnerships and to further develop capacity (skill and understanding) of families, the schools, and its partners.

The BOE received a presentation on academic and performance data on 10/4/22 (attached) and a performance and academic update on 4/18/23 (attached). The reports are shared with the BOE either at a special meeting or during a regular meeting where discussion ensues and questions are answered by district leadership. The BOE will receive a presentation on the State Accountability Report on 9/19/23 (agenda attached).

**Damion Morgan** - SEL Specialist, Clover Street School  
**Melani Gutierrez** - SSC Coordinator, WHS

### 3 P's: Purpose, Process, Payoff

- 1 Purpose:** To provide an update on SEL progress in Windsor
- 2 Process:** Walkthrough all programmatic improvements made in year two
- 3 Payoff:** Showcasing the year two outcomes and planning for further success in year three

What skills do we want our children to have and be able to showcase when they graduate?

## Social Emotional Learning

The process through which children and adults **develop the skills**, attitudes, and values necessary to understand and manage life tasks.

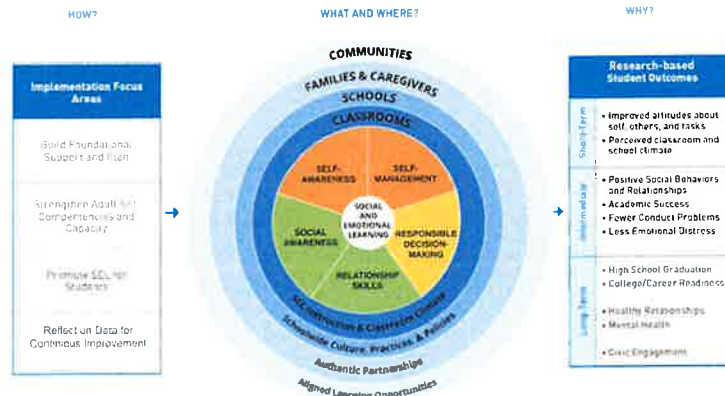

## Year One - Initial Plan

- 1 Conducted initial SEL strategy meetings with each school Admin Team, district office, Office of Family & Community Partnerships (OFCP)
- 2 Hired a team of SEL specialists assigned to each school
- 3 Conducted Initial District-wide Professional Development Trainings for teachers/staff/SEL specialists
- 4 Introduced communication on **SEL SKILLS Strengths | Needs | Challenges**
- 5 In partnership with OFCP, hosted initial SEL events and forums

### Our Theory of Action for Effective Implementation

Our SEL Framework is guided by a Theory of Action designed to support the whole-child, school, and family.

It reflects years of field testing.

Real Word Application:  
Employers value SEL

92%

Of Fortune 1000 companies say skills such as **problem-solving, self-management, relationship skills, and communicating clearly** are becoming equally as important than technical skills.

The Top 10 skills identified by the World Economic Forum all **involve social and emotional competence.**

- 1 Complex problem solving
- 2 Critical thinking
- 3 Creativity
- 4 People management
- 5 Coordinating with others
- 6 Emotional intelligence
- 7 Judgment and decision-making
- 8 Service orientation
- 9 Negotiation
- 10 Cognitive flexibility

And research shows that social and emotional skills and attitudes also contribute to the other skills such as critical thinking.

## How Are We Assessing Effectiveness?

# CSDE's Entry Points for Implementing SEL

Scale-up SEL based on statewide findings provided by districts to improve student academic and behavioral outcomes.

Intensify tier one supports based on feedback from districts.

Bolster TA and coaching on using the Devereux Student Strengths Assessment (DESSA) System and integration into implementation practices.

Unpacking SEL as a measurable indicator to uncover students' needs much earlier.

This form describes a number of behaviors seen in some children. Read the statements that follow the phrase: *During the past 4 weeks, how often did the child...* and place a check mark in the box underneath the word that tells how often you saw the behavior. Answer each question carefully. There are no right or wrong answers. Please answer every item. If you wish to change your answer, put an X through it and fill in your new choice as shown to the right.

## WHS Student SEL Reflections

Sometimes high school can be a lot, but it's important to really understand what is best for you by being able to have the **self-management skills** to truly put your best potential out there.

**Kruti Dharsandiya** - WHS Class of 2023 Valedictorian

I am a very observational person. Along with observing others I also observe myself, my actions, behaviors, thoughts and emotions. I am always in tune with myself which is why I would consider **self-awareness** my strongest SEL skill. Learning these skills should be mandatory for all students.

**Aleyna Romero** - WHS Class of 2023

Everyday I attend school, I really enjoy showcasing and working on my **self-management skills**. I know what I need to get done to be a successful student.

**Trey Griggs** - WHS Class of 2023

## Where We Plan To Go

- ▣ Collaboration with Asst. Superintendent of Instructional Services
- ▣ Increases in Teacher SEL Competence
  - Professional Learning through Video Modeling and WPS Teacher Demonstrations
  - Increases in School Planning

### Teacher-Student SEL Competencies Connections - Ongoing Dream

Example Experiences With Instructional Shifts	SEL Connections—Students	SEL Connections—Teachers
Students will experience working with unfamiliar vocabulary words in their literacy text.	<i>What self-management skills will students need to use in order to complete this task successfully?</i>	<i>What self-management skills will teachers need to use in order to help students successfully complete this task?</i>
In mathematics, they will have to explain their answers in a more nuanced way; for example, they will have to explain their solution path rather than supplying only their answer.	<i>What social skills will students need to use in order to complete this task successfully?</i>	<i>What social skills will teachers need to use in order to help students successfully complete this task?</i>

## Where We Plan To Go Cont.

- ▣ Supporting/Measuring Decreases in Absenteeism/Behavioral Referrals
  - Shifting School Climate and Culture by reimagining MTSS to prevent behavioral concerns before they occur
  - Support from the Urban Assembly
- ▣ Increases in Family Engagement and Skill Development
  - Digital Database - Link to Learning
  - Collaboration with District Coordinator of the OFCP
- ▣ Continue to be a model for the State of Connecticut and the nation
  - National/State/Local Presentations
  - Reininvite to Harvard University SEL Symposium in August

Areas of evaluation shall include:

In tandem with its self-assessment, the Board shall establish goals for itself to recognize and continue its successes, and mitigate areas of concern. Those goals will then be evaluated during the following year's self-assessment.

The Board may designate a committee to plan and coordinate the evaluation and goal-setting process, develop surveys or other instruments, and engage an outside consultant as it deems proper to assist it. However, all Board members' opinions must be solicited and considered, and the resulting evaluation be discussed by the Board as a whole before adoption.

5. Become informed about the nature, value and direction of contemporary education and support needed change in the schools;

11. Recognize that authority rests only with the whole Board assembled in a meeting, and make no personal promises nor take any private action that may compromise the Board;
12. Acknowledge that the Board represents the entire school community, and will refuse to surrender their independent judgment to special interests or partisan political groups;
13. Never use the position on the Board for personal gain;

14. Hold confidential all matters pertaining to the schools that, if disclosed, might needlessly injure individuals or the schools;
15. Ensure that all school business transactions be open and ethical;
16. Ensure that the best personnel available are appointed to all positions in the district;

19. Practice and promote ethical behavior in the Boardroom as a model for all members of the school district.

## LEVEL 2 ITEM 4C. COMMUNITY RELATIONS

The Board of Education and district often work with Windsor Community Television: WIN-TV.

WIN-TV provides videotaping services for Board of Education meetings in our newly renovated Board Room and livestreams our meetings out into the community. They also are available to tape other district events. This year, WIN-TV taped our August New Teacher Orientation, a three-day event. They were able to take the taped video, and edit and produce training guides for our human resources department for future use with new employees.

From WIN-TV's website:

Windsor Community Television (WIN-TV) is a private, non-profit, corporation and was incorporated by the State of Connecticut in January of 1982. WIN-TV is a public, education, and government (PEG) cable community access provider. The Hartford area franchise holder in 1981 was Times Mirror Communication Inc. and was required, by a franchise agreement with the Connecticut Department of Public Utilities Control (DPUC), to establish Community Access Television in each of the six Hartford Franchise towns once proper wiring passed a sufficient number of homes in each town.

Once the station was incorporated, Times Mirror supported WIN-TV through direct dollar grants, employed the Station Manager, and shared equipment. With this strong support from the Franchise, WIN-TV was ready to begin programming from its first home, the basement of Windsor Public Library. Programming was created by community volunteers and we were on the air two hours each weekday evening when volunteers could come to the station and run the tapes.

The station has grown since then to a 24 hour community station. With the ability to watch programming on demand as well as a mobile app coming soon.

Hi David, Dr. Hill is planning to attend. CREC had left Dr. Hill off the initial email. That issue has been corrected.

Thank you, Sally

Good morning Superintendents and Council Members,

I am excited to announce this year's **HASA/CABE/CREC Legislative Forum** will be held in-person on **Thursday, February 16, 2023 from 8:45 – 10:00 a.m. in Room 310 at the State Capitol**, 210 Capitol Avenue, Hartford. Light breakfast will be served.

Please join us for networking from 8:45-9:00 and discussion on our legislative priorities starting at 9:00 a.m. We will begin our discussion with an overview of CREC's Legislative Priorities and CABE Legislative Priorities followed by an engaging discussion on educational funding issues in Connecticut and its impact on all districts. The Forum is an important opportunity for us to engage in dialogue with our legislators and to partner with you in lobbying efforts regarding these priority areas.

I hope you plan to attend and that you reach out to your local legislators to attend with you. I would greatly appreciate your partnership in helping us increase legislator attendance by sending an email or making a phone call to the legislators who represent

your district. I have attached a sample communication for you to use.

For your convenience, I have attached the CREC Legislative Priorities along with each CREC member district's fact sheet as it relates to this issue. Please share this with your board members and legislators to advocate for the needed change in educational funding.

As you may know, the Education and Appropriations Committee will hold a joint public hearing on Friday, February 3 on SB 1: AAC Transparency in Education and HB 5003: AAC Education Funding in Connecticut. Please consider testifying to have your voice added to resolving the inequities in educational funding.

Please don't hesitate to contact me if you have any questions. Thank you for your partnership and support!

Sincerely,

**Greg J. Florio, Ed.D.**

**Subject:** Lobbying day  
Hi Sheila

Another question. Windsor is set to meet with our 2 reps and Sen McCrory. Haven't touched base with Senator Kissel (7th Senatorial)- do you know if any other folks from CABA towns in his District (WL, Granbies, Somers, Suffield, Enfield) are attending? If so, maybe we could work together.

**WINDSOR BOARD OF EDUCATION  
AGENDA ITEM**

**For Consideration by the Board of Education at the Meeting of:** February 22, 2023

**Prepared By:** Terrell M. Hill

**Presented By:** Leonard Lockhart

**Attachments:** Letter endorsing HB 5003 – An Act Concerning Education Funding in Connecticut

**Subject:** Discussion on HB 5003 – An Act Concerning Education Funding in Connecticut  
(Anticipated Action)

---

**BACKGROUND:**

*House Bill 5003* - An Act Concerning Education Funding in Connecticut streamlines the funding system by simplifying it, aligning monies to student need and supporting school districts and municipalities to better project future spending. More specifically, HB 5003 does the following:

- Accelerates the Education Cost Sharing (ECS) grant adjustments by several years fully funding the grant by FY 2025
- Expands the weighted funding to students attending public schools of choice (magnet, charter, AgriScience and Open Choice programs)
- Eliminates general education tuition billing for magnet school operators and AgriScience programs, effective FY 2025
- Maintains current schedule for towns receiving reductions in their ECS grants
  - Many of these districts will see net increases from the elimination of tuition and increased state aid for school choice programs

**RECOMMENDATION:**

Move the Board of Education approve the letter endorsing *HB 5003, An Act Concerning Education Funding in Connecticut*

---

**Recommended by the Superintendent:** TH/SB

**Agenda Item #** 7.C.1

February 2023

## **Windsor Board of Education Endorses *An Act Concerning Education Funding in Connecticut***

*House Bill 5003 is a student-centered funding system that will benefit rural, suburban and urban districts*

The Windsor Board of Education recognizes the immense challenge legislators face in representing a diverse set of stakeholders with varied interests. We intentionally identify legislation that will benefit school districts in rural, suburban and urban communities. Windsor is part of Connecticut's solution; demonstrating on an annual basis that nine Board Members of different political parties are able to work together to develop a legislative platform for your consideration.

The Windsor Board of Education has unanimously approved this letter outlining our 2023 legislative priority.

### **HB 5003 - AN ACT CONCERNING EDUCATION FUNDING IN CONNECTICUT**

For decades, Connecticut's education funding system has had an over-reliance on property tax and resident income. This has had a direct impact on local mill-rates across Connecticut. Adding to further economic strain, local school districts pay an increasing percentage of the annual tuition to important school programs of choice (magnet, AgriScience, etc.). To supplement this funding system, the state utilizes the Education Cost Sharing (ECS) grant, first developed in 1990. ECS is currently undergoing a formula adjustment to better align with the student needs of Windsor and many other urban, suburban and rural school districts across the state. This is beneficial to most school districts. However, this adjustment is not transformative because it maintains the current disjointed and inequitable funding system.

House Bill 5003 - An Act Concerning Education Funding in Connecticut streamlines the funding system by simplifying it, aligning monies to student need and supporting school districts and municipalities to better project future spending. More specifically, HB 5003 does the following:

- Accelerates the Education Cost Sharing (ECS) grant adjustments by several years fully funding the grant by FY 2025
- Expands the weighted funding to students attending public schools of choice (magnet, charter, AgriScience and Open Choice programs)
- Eliminates general education tuition billing for magnet school operators and AgriScience programs, effective FY 2025
- Maintains current schedule for towns receiving reductions in their ECS grants
  - Many of these districts will see net increases from the elimination of tuition and increased state aid for school choice programs

The fiscal year 2025 targeted in HB 5003 is strategic in that it anticipates a fiscal cliff for many school districts (not Windsor) who utilized American Rescue Plan (ARP) and Elementary and Secondary School Emergency Relief (ESSER) Funding for vital staffing needs due to a significant increase in student mental

health needs post-pandemic. Connecticut received \$1.1B in ARP ESSER funds with 71% of school districts using approximately \$480M for staffing. Those funds are no longer available after September 2024 ([School | State Finance Project](#)).

In FY 2025, with the passage of HB 5003, Windsor Public Schools gain approximately \$583K, based upon revenue increases and tuition savings. To learn more about your school district's financials [click here](#) for the HB 5003 (formerly HB 5283) calculations.

The current state budget projections show room of approximately \$900M under the spending cap. With an estimated cost of \$275M, HB 5003 is a major step in the right direction for streamlining and stabilizing Connecticut's school funding system and correcting the State's overreliance on property taxes.

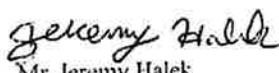

Please do not hesitate to contact any Windsor Board of Education member or our Superintendent of Schools, Dr. Terrell Hill ([thill@windsorct.org](mailto:thill@windsorct.org)), should we be of further support for this important bill.

# WINDSOR BOARD OF EDUCATION

## AGENDA ITEM

**For Consideration by the Board of Education at the Meeting of:** September 19, 2023

**PREPARED BY:** Danielle Batchelder  
Director of Business Services  
& Human Resources

**PRESENTED BY:** Danielle Batchelder

**ATTACHMENTS:** None

**SUBJECT:** Staffing Update for Opening of 2023-2024 School Year

---

**BACKGROUND:** For the September Board of Education meeting, information is always provided on all of the personnel actions that have taken place since the June Board of Education meeting.

### **A. Recruitment Fairs**

Administration actively recruited new teachers starting in the winter of 2023 through the beginning of September 2023. During the recruitment fairs we were able to hold on the spot interviews with newly graduated students from surrounding colleges and universities.

### **B. Advertisements**

We advertised our teacher openings in the CT REAP (website with CT educational jobs), CEA (CT Educ. Assoc.), CASCIAC (CT Assoc. of Schools and CT Interscholastic Athletic Conference), CAPSS (CT Assoc. of Public School Superintendents) and the Windsor Public Schools Website. In our efforts to reach a much larger and, more diverse population we continue to contract with Education Week ([edweek.org](http://edweek.org))/ Top Schools Jobs ([topschoolsjobs.org](http://topschoolsjobs.org)).

### **C. Hiring Process**

Candidates participate in multiple rounds of interviews, which typically include representation from teachers, supervisors, building administrators and central office administrators. All interview processes for teachers' end with an interview with the Director of Business Services & Human Resources. Interview processes for administrators below the rank of cabinet or building principal end with an interview with the Superintendent.

Another important piece of the process is the reference check. Administrators complete a district reference check form by personally contacting at least three (3) of the candidates' references. A requirement of any certified hire is for the administrator to obtain a reference check with the candidate's direct supervisor. A detailed conversation ensues focusing on areas that are important to Windsor in its new hires.

**D. New Teacher/Staff Orientation**

All new teachers, including those hired during the prior school year, took part in the 3-day New Teacher/Staff Orientation. As we started two years ago, we included SEL Specialists, Full Time Tutors, Building Substitutes and Behavior Technicians to the orientation. New Teacher/Staff orientation was held August 16<sup>th</sup> – 18<sup>th</sup>. The orientation focused on new initiatives from the Instructional Services Department; informational sessions from Pupil Services, Office for Family and Community Partnerships, WEA Union Reps, and technology. Dr. Hady and her technology team provided training around the districts' overall technology processes. Marge Renno and her Induction Support teachers presented to new faculty the requirements for TEAM (Teacher Education and Mentoring Program). They specifically focused on Teacher Responsibility and Ethics.

**E. Statistics**

As of September 15, 2023, there were 69 new employees in the district. This number includes teachers, administrators, supervisors, behavior technician, food services, safety monitors, and paraeducators. Teacher openings were due mainly to teachers taking positions in other districts, retirements, resignations, or childrearing.

For all newly hired certified employees (40 total), the breakdown between male and female is 12.5% male and 87.5% female. Of the newly hired certified staff, 37.5% of them are educators of color. The district-wide percentage of certified staff of color now stands at 29.20%.

**RECOMMENDATION:** The BOE receive this report for informational purposes only.

**WINDSOR BOARD OF EDUCATION**

**AGENDA ITEM**

**For Consideration by the Board of Education at the Meeting of:** September 19, 2023

**PREPARED BY:** Danielle Batchelder  
Director of Business Services  
& Human Resources

**PRESENTED BY:** Danielle Batchelder

**ATTACHMENTS:** Year End Budget Site & Category Balances

**SUBJECT:** Fiscal Year '23 Year End Balances

---

**BACKGROUND:**

Board Policy 3160 allows the board to transfer any unencumbered portion of any budget site to another budget site, but expenditures shall not exceed the appropriation made by the fiscal authority of the Town.

The Board of Education's budget for Fiscal Year 2023, which ended June 30<sup>th</sup>, was \$76,484,436. Our unexpended balance is \$907. (NOTE: results have not been audited.)

For the Fiscal Year End June 30, 2023, due to driver shortage, there were significant under expenditures in pupil transportation & safety. There was also a significant under expenditures in certified salaries due to being understaffed throughout the year. Offsetting this under expenditure was over expenditures in Special Education OOD Tuition and Transportation, Magnet School Tuition, Special Ed Tutor Salaries, Non-Certified Salaries, and Physical Plant Services.

**STATUS:**

The projections of expenditures for the close of Fiscal Year 2023 are **within** the total approved appropriation from the Town of Windsor for the Fiscal Year. The total expenditures for the fiscal year did **not** exceed the budget appropriation of \$76,484,436.

The attached financial report outlines the budget sites and categories that were over budget and their subsequent budget sites and categories that offset the deficits.

**RECOMMENDATION:**

That the Board approves the return of \$907 to the Town with the details of the projected budget/category surpluses and deficits as attached. (Final amount subject to completion of the audit.)
