AGENDA ITEM

For Consideration by the Board of Education at the Meeting of: January 21, 2026

PREPARED BY: Jen Clarke,
Registration Coordinator

PRESENTED BY: Danielle Batchelder,
Chief of Operations

ATTACHMENTS: Student Enrollment Report & Recap

SUBJECT: Student Enrollment as of January 1, 2026

BACKGROUND:

Attached are the enrollment figures as of January 1, 2026. Mrs. Batchelder will answer any questions.

STATUS:

In prior BOE enrollment reports, the enrollment report grouped all students into one category labeled "Outside Placement/Private Placement (SPED)". Beginning in September 2016, the Out Placement/Private Placement (SPED) line was separated into two categories:

1. *Out of District Placement-Special Education students*
2. *Private Placement Special Education students*

Out of District - Special Education: Those students who are placed at a Connecticut State Department of Education (CSDE) approved private special education program as recommended by a planning and placement team (PPT) as part of a student's individualized education program (IEP). Additionally, this category may include a family who moves into Windsor with a child who has a disability who has already been placed in a private special education program and/or children who are placed in Windsor foster home(s) by the Department of Children and Families (DCF) and are already enrolled in a private special education program.

Private Placement - Special Education: Those students who have been identified special education through the planning and placement team (PPT) process that have been parentally placed at a non-public school located in Windsor (i.e., St. Gabriel, Trinity Christian, Madina Academy, Praise Power & Prayer, etc.).

Presented By

“LEAVING YOUR LEGACY” SENIOR ENGLISH ELECTIVE
JANUARY 2026

LEAVING YOUR LEGACY

COURSE OVERVIEW

FIRST, we...

- built community and leadership skills
 - set norms, practiced effective communication and problem-solving, collaboratively set goals, engaged in debate and public speaking exercises
- studied examples of Youth Participatory Action Research (YPAR) projects
- conducted academic research on topics of interest and relevance
- engaged in root cause/effect analysis with Problem Tree activities
- wrote in our journals and engaged in group discussions daily to practice critical and reflective thinking

THEN, we...

- learned how to collect and analyze data related to student experiences to help us decide what legacy we wanted to leave at WHS
- decided upon a recommendation and presented our findings to school/district leaders (December 22, 2025)

THE YPAR PROCESS

(YOUTH PARTICIPATORY ACTION RESEARCH)

Youth Participatory Action Research (YPAR) is a methodology designed to help youth critically examine problems within their lived experiences, develop collective efficacy, and practice skills to identify and suggest solutions (Camarrota & Fine, 2008).

THE YPAR PROCESS (YOUTH PARTICIPATORY ACTION RESEARCH)

We...

1. discussed observations of Windsor High and collected preliminary data
2. picked a topic
3. learned about different research methods
 - a. surveys
 - b. interviewing
 - c. photo/document analysis
 - d. observation
 - e. focus groups
4. collected data
5. analyzed data
6. decided on an action in response to data

PROBLEM STATEMENT:

Over the past year, students in our “Leaving your Legacy” course have noticed an increase in peer conflict at the high school such as:

- more hands-on activity (in places like the cafe and hallways)
- more fights
- more negative interactions on social media

Our preliminary research suggested that **WHS students are struggling to prevent and resolve peer conflicts.**

PURPOSE

The purpose of our research was to understand

- Why peer conflict was happening and how it is dealt with
 - Why some students feel left out
 - Why some students don't reach out for support
- When and where students are using stereotypes
- Why teachers do or don't support students having conflict

Methods: **interviews, observations, surveys and photo analysis,
focus groups**

We collected over 1,230 pieces of data throughout the course.

What does the data show?

PEER CONFLICT

- In a single observation session during 1B, researcher witnessed 3:1 ratio of positive to negative interactions
- Across multiple surveys and interviews, student respondents indicated that negative peer interaction and conflict most often stems from social media
- In one survey, most students indicated unclear or hurtful communication was the reason behind peer conflict + disconnection
- Only 31% of students were 'very confident' or 'confident' in their ability to calmly resolve a conflict with another student
- 21.43% of respondents report doing 'nothing' to resolve conflict
- Students indicated that 'walking away' was their go-to de-escalation strategy
- From one interview: Negative interactions take place when a student who is already upset or angered wants someone to release their anger onto.

What does the data show?

STUDENT CONNECTEDNESS

- 59.3% of student survey respondents feel like students at WHS are disconnected from one another
- The majority of students reported NOT having strong connections with students outside their own grade level
- Students with inter-grade connections reported developing them through sports and clubs
- Survey respondents indicated that phones contribute to a lack of connection
- 50% of survey respondents saw peer relationships as ‘positive’ – the remaining responses indicated they were ‘fine’ or ‘could be better’
- In an interview, student indicated that WHS could have workshops, resources, or spaces that help different students be involved with each other

What does the data show?

STEREOTYPES

- 4 respondents in interviews reported hearing slurs or insults used frequently, most often in a joking manner
- ‘People are starting to give into racial stereotypes and let them shape them’ – *Student Interviewee*
- Over a single observation period during Block 1B, 1 observation of stereotypes being voiced and 5 oppressive comments heard

What does the data show?

STAFF RESPONSE TO STUDENT CONFLICT

- 28.57% of people chose to ignore student conflict
- The 85% of teachers surveyed reported feeling comfortable addressing conflict (15% were not)
- 47% of teachers feel they have had a positive impact when addressing peer conflict
- Students indicated they did not feel most teachers did so effectively or at all

HOW ARE CONFLICTS DEALT WITH?

- Students being removed from the classroom
- Students being redirected by teacher or admin
- Adults telling students to ignore, forget, or set aside the issue
- In one survey, only 7.14% of student respondents said school handles conflict the way that they should

Data Analysis and Interpretation

- Students need to feel connected to each other, but don't yet. We also need to learn skills on resolving peer conflicts.
- Stereotypes prevent students from getting to know each other. Students need to learn about the harmful impact of stereotypes, and how they start unnecessary conflict.
- Staff at our school don't manage conflict between peers well, even though they feel confident.

Data Analysis and Interpretation

Students need to feel connected to each other and to develop skills for resolving peer conflicts.

→ **STUDENT INDEPENDENCE WITHOUT STRUCTURE FUELS CONFLICT**

Students already rely on peers to handle conflict, but without structure this often leads to escalation instead of resolution.

→ **PUNISHMENT STOPS BEHAVIOR, NOT THE PROBLEM.**

Punishments might stop conflict temporarily but fail to address root causes. Structured peer support reduces repeat incidents and strengthens school climate.

Data Analysis and Interpretation

- Conflict- Peer conflict often stems from something much deeper- **Social media**. Students tend to feel like they can resolve their own conflict with no help.
- Connectedness- Majority of students feel disconnected with students outside their grade level. **Phones play a big role** in student disconnectedness.
- Teacher efficacy with involvement- majority of teachers are comfortable with getting involved in student conflict; a small portion is not and just try to ignore it. **Students feel like teachers and admin have limited effect when trying to resolve conflict.**
- Stereotyping/oppressive comments- students report that **slurs or insults that are used frequently are often in a joking manner**. Students tend to **give into the stereotyping and let it shape who they are as an individual**.

Our recommendation:

A peer-led support space that offers mediation and mentoring for students who feel sort of lost or need help resolving a conflict

The Peer Mentors

- Develop and distribute peer mentor applications for the upcoming senior class
- Identify strong peer mentor candidates using research-based attributes (trustworthiness and confidentiality)
- Provide training to student staff
- Offer community service hours to mentor volunteers
- Identify WHS staff who can effectively support peer mentors in their work

Figure 1. Attributes of a quality peer mentor

Source: Powell, T., Offiong, A., Lewis, Q., Prioleau, M., Smith, B., Willis, K., Kachingwe, O. (2021). Better Together. Intervention developed for the B Lab. Baltimore, MD.

What does the peer mentoring look like?

- Supporting students experiencing conflict
 - Listening to the students point of view on the situation.
 - Giving advice
 - Asking questions (ex: What do you want to happen next?)
 - If the student(s) is open, then a mediation appointment will be scheduled.
- Meeting students who feel disconnected, lost, or lonely
 - Listening and identifying how they're feeling.
 - Giving them advice.
 - Creating a follow-up plan to check up on them again after we support them.

Potential Impact on WHS

- Students develop skills to handle emotions and solve problems with others
- Safer learning environment
- Build student leadership skills and community

Benefits of Quality Peer Mentoring	
Mentee	Mentor
• Enhanced self-esteem and self-confidence • Healthier relationships and behaviors • Improved interpersonal skills • A sense of connectedness to peers and others • Decreased likelihood of initiating drug and alcohol use • Increased intention to practice risk reduction skills (e.g., using a condom or other birth control method) • Improved behavior at school and home • Increased engagement and sense of belonging at school • Increased sense of autonomy • Increased chance of graduating high school • Higher chance of enrolling in college	• Increased self-esteem, self-worth, and self-respect • A sense of accomplishment • Relationships with a network of other volunteers • Improved empathy and moral reasoning • Improved conflict resolution • Leadership skill development • Improved relationship with parents • Increased knowledge of sexual health and risky behaviors

Recommended Resources For Enacting Our Recommendation

Provides a strong curriculum for implementing a peer mediation program.

Offers guidance on:

- How to train student mediators
- How conflicts should be mediated
- Who will conduct mediator training
- Where and when mediation sessions can take place

Ellington High School's Program (Example Model)

- Teachers recommend students they believe would be strong mentors and peer mediators
- Some students are also allowed to apply to join the program
- Guidance counselors provide intensive training for peer mediators
- Program includes students who previously struggled with conflict but matured and gained strong conflict-resolution skills

Mediator Meetings and Support

Peer mediators meet once a month

Meetings are used to:

- Share new strategies for handling conflict
- Develop new mediation questions
- Suggest improvements for the mediation space

Mediation Space Purpose

- Used for peer mediation sessions
- Can also serve as a cool-down space for students
- Students can relax, calm down, and refocus

WINDSOR BOARD OF EDUCATION

AGENDA ITEM

For Consideration by the Board of Education at the Meeting of: January 21, 2026

PREPARED BY: Carlos Rosario,
Physical Plant Manager

PRESENTED BY: Danielle Batchelder,
Chief of Operations

ATTACHMENTS: IAQ Requirements for School Districts

SUBJECT: Indoor Air Quality Requirements & Reports

BACKGROUND:

On and after January 1, 2024, and annually thereafter, each local or regional board of education shall provide for a uniform inspection and evaluation program of the indoor air quality within each school building using the Environmental Protection Agency's Indoor Air Quality Tools for Schools Program. See CGS § 10-220(d), PA 22-118, and PA 23-167.

State law requires school districts to conduct (1) an annual inspection and evaluation of indoor air quality (IAQ) in each school building and (2) an inspection and evaluation of the heating, ventilation, and air conditioning (HVAC) system in each school building once every five years.

In order to comply with state law for both the annual IAQ inspection and the 5-year HVAC inspection, school districts must:

1. Conduct the required inspection and evaluation using the following EPA checklists;
 - a. Building and Grounds Maintenance Checklist (PDF)
 - b. Waste Management Checklist (PDF)
 - c. Ventilation Checklist (PDF)
 - d. Walkthrough Inspection Checklist (PDF)
 - e. Integrated Pest Management Checklist (PDF)
 - f. Food Service Checklist (PDF)
2. Make results of each inspection publicly available at a regularly scheduled meeting of the board of education and post such results on both the board's website and the individual school's website; and
3. Submit the following form to DAS

STATUS:

The required annual inspection and evaluation of IAQ in each school building, as well as the inspection and evaluation of the heating, ventilation, and air conditioning (HVAC) system in each school building has been completed. The reports are located on www.windsorct.org
