### Memorandum

To:St. Anthony New Brighton School BoardFrom:Dr. Troy Urdahl, Director of Athletics, Activities, and FacilitiesDate:November 14, 2024Subject:Facilities Projects

#### Overview

The purpose of this memo is to update the School Board of our current facilities planning needs and to request your input on our next steps for facility improvements at St. Anthony Village High School and Middle School. Two areas identified as high priorities are the a. locker room, band, choir areas and b.single-user restrooms. Identifying priorities will guide us in allocating available funds effectively for upcoming scope and project planning.

#### Background

The District has budgeted \$500,000 from its Long-Term Facilities Maintenance (LTFM) budget for this project in the coming year. Additionally, \$75,000 of state grant money has been secured specifically for constructing single-user restrooms, should the District choose to move forward with that option. Below is a summary of the project options and their financial considerations:

- 1. Locker Room and Locker Room Restroom Renovations
  - **Current Funding Status**: \$500,000 in LTFM funds (sufficient only for cosmetic updates).
  - **Full Renovation Cost**: Estimated at \$3,000,000 \$4,000,000 to fully address locker room needs. This does not include addressing band / choir area needs.
  - **Project Scope**: A comprehensive renovation would address cosmetic issues and aging infrastructure, equity issues, over crowding, and overall user experience.
- 2. Single-User Restroom Construction
  - **Current Funding Status**: \$500,000 in LTFM funds + \$75,000 state grant (budget estimated to be \$500,000 \$800,000).
  - **Project Scope**: Construction of single-user restrooms to increase accessibility, privacy, security, and inclusivity. These single-user restrooms would be in a centrally located area of the school for student and community use (in the link area near the commons, auditorium, and current restroom areas see included drawing at the end of this memo).

#### **Direction Needed**

Given the funding and project details, School Board guidance is requested on whether to:

#### 1. Prioritize the Locker Room and Locker Room Restroom Project

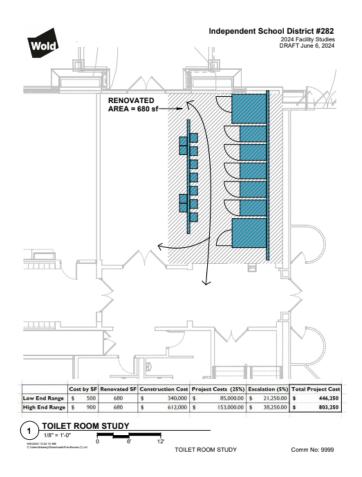

- a. Move forward with cosmetic changes with limited funding, acknowledging the need for a larger, more comprehensive renovation in the future. This would mean not accepting the state's \$75,000 grant and would not address band / choir needs, or
- b. Expand this budget now to accomplish the needed comprehensive project needed in this area.

#### 2. Prioritize the Single-User Restroom Project

a. Move forward with the restroom project, which we have sufficient (or nearsufficient) funds to complete, addressing accessibility, security, and inclusivity needs sooner rather than later.

#### Timeline

If approved, either project would begin in spring or summer 2026, allowing us adequate time for planning, design, and contractor engagement.

#### <u>St. Anthony-New Brighton School District 282</u> <u>Organizational Meeting</u> <u>Tuesday, January 9, 2024– 7:00 p.m.</u> <u>Media Center</u> <u>3303 33rd Ave NE – St. Anthony, MN 55418</u>

Subject: Summary of 23-24 WBWF, AI, ADSIS Programs

This memo summarizes the progress made on the goals outlined in the 23-24 World's Best Workforce (Comprehensive Achievement and Civic Readiness), Achievement and Integration, and Alternative Delivery of Specialized Instructional Services (ADSIS) programs.

# World's Best Workforce (WBWF) - Now referred to as Comprehensive Achievement and Civic Readiness

The WBWF program requires schools to identify goals and benchmarks for all student groups and a process for evaluating students' progress. Our district has made *progress* on several WBWF goals, including:

- Improving student scores on the FASTBridge reading and math assessments, but have not made significant changes in the achievement gaps that exist.
- Increasing student enrollment in Career and Technical Education (CTE) courses.

We have not yet met the goals of increasing the percentage of students who are ready for kindergarten, as measured by the Teaching Strategies Gold Assessment, and increasing the percentage of third-grade students who are proficient in reading. While also not meeting our ACT academic improvement goals.

## Achievement and Integration (AI)

The AI program is designed to reduce disparities in academic achievement and increase racial and economic integration. We are making progress on these goals, and we will continue to monitor our progress over the next three years. We continue to look for ways to increase integration at St. Anthony New Brighton Schools.

## Alternative Delivery of Specialized Instructional Services (ADSIS)

ADSIS is an application process for districts and charter schools to apply for state special education aid. The purpose of ADSIS is to provide instruction to assist students who need additional academic or behavioral support to succeed in the general education environment. We have implemented several ADSIS programs, including FASTBridge, IXL, and Read 180. St. Anthony New Brighton has been proud of the use of interventions prior to making inappropriate referrals to special education.

We will continue to monitor our progress on all of these goals and provide updates to the School Board on a regular basis.

Subject: First Quarter Data Report and Goals Update

This memo summarizes the key findings from the first quarter data report, which reflects our progress toward the student success goals outlined in September 2024.

# **Key Findings:**

- **Rigorous Instruction:** A need exists for intentional planning to integrate multiple levels of Depth of Knowledge (DOK) and facilitate the gradual release to independence, ensuring rigor and student engagement.
- **Instructional Stances:** The majority of staff (97%) are primarily observed in Instructional Stances A and B, indicating that teachers carry the cognitive load most of the time.
- **Student Observations:** Students are often observed receiving and reproducing content-based learning and practicing procedures for compliance rather than critical thinking.
- Learning Walks: The Fall 2024 learning walks did not show significant differences from the 2017, 2018, and 2023 Comprehensive Needs Assessment, indicating a need for focused intervention.
- Secondary Principal Observations: Based on 62 classroom observations, the data shows a need for improvement in making academic standards visible, establishing learning progressions, and engaging students in higher-level learning (Quad C and D).
- **SAVVAS Literacy Curriculum:** Inconsistent implementation of the SAVVAS curriculum across the district, particularly the targeted phonics portion, has been observed.
  - Students in grade 1 show the lowest percentage of proficiency (in WP) at 55%.
  - Both teachers and students in grade 1 are utilizing the SAVVAS curriculum the least:
  - Students Grade 1: 0% usage
  - Teachers Grade 1: 6.2% usage.

- **FASTBridge Reading and Math:** Data from FASTBridge assessments show areas of concern, such as declining reading proficiency as students progress across grades and a drop in math proficiency upon kindergarten entrance.
- **Panorama Data:** Students in grades 6-12 report low levels of engagement and learning transfer, indicating a need for more challenging and relevant classroom experiences.

# Next Steps:

- **Professional Development:** Facilitate ongoing professional development and coaching to support teachers in integrating DOK, implementing effective instructional practices, and utilizing the SAVVAS curriculum consistently.
- **Data-Driven Instruction:** Encourage the use of data to inform instruction and track student progress. Continue to provide training and support for data analysis and interpretation via already established data team meetings.
- **Goal Monitoring:** Continuously monitor progress toward the student success goals outlined in September 2024. Conduct formal evaluations to ensure the district is on track to meet its 2028 targets.
